Building Community-Engagement Infrastructure at Warp Speed: Leveraging Enterprise Data and Partnerships

Valerie Holton, PhD, LCSW, Director for Community-Engaged Research

Kathleen Shaw, MBA, Vice Provost for Planning and Decision Support

Pre-Conference Workshop, Annual meeting of IRSLCE

Boston Massachusetts, November 16, 2015

Agenda

- Welcome and Introductions
- State of the Field
- Strategies for Developing Infrastructure
- Lessons Learned

Learning Goals

Through attending this workshop, participants will:

- Understand the national context grounding the use of this information
- Identify key data to collect on community engagement related activities and outcomes
- Identify university partners for collaboration
- Learn about strategies to use existing enterprise data collection mechanisms collect reliable and comprehensive data

Hello
my name is

We are a premier urban, public research university focused on academic success.

VIRGINIA COMMONWEALTH UNIVERSITY

STRATEGIC PLAN: QUEST FOR DISTINCTION

Theme I

Become a leader among national research universities in providing all students with high-quality learning/living experiences focused on inquiry, discovery and innovation in a global environment.

Theme II

Attain distinction as a fully integrated urban, public research university through contributions in human health, research, scholarship and creative expression that advance knowledge and enhance the quality of life.

Theme III

Become a national model for community engagement and regional impact.

Mission

The VCU Division of Community Engagement mobilizes university-community partnerships that generate innovative solutions to societal challenges and prepares the engaged citizens of tomorrow.

Vision

VCU is a community of engaged citizens, working together, changing lives.

Leveraging data for informed
planning and decision support

Why do (we) need institutional data on community engagement activities and impact?

State of the Field

- Agree there is a need for this kind of data
- No consistent measures
- No ONE way to collect the information
- Largely focused on understanding the landscape

Term	Definition
Community	A group of people external to the campus who are affiliated by geographic proximity, special interest, similar situation or shared values. Communities may share characteristics such as age, ethnicity, gender, or sexual orientation.
Partnership	Sustained collaboration between institutions of higher education and communities for the mutually beneficial exchange, exploration, and application of knowledge, information, and resources. Examples are research, capacity building, or economic development.
Community Outreach	The application and provision of institutional resources, knowledge or services that directly benefits the community. Examples include music concerts, athletic events, student volunteers, public lectures, or health fairs.
Community Engagement	The collaboration between institutions of higher education and their larger communities for the mutually beneficial exchange of knowledge and resources in the context of partnership and reciprocity. It can involve partnerships and coalitions that help mobilize resources and influence systems and serve as catalysts for initiating and/or changing policies, programs, and practices.
Community-Engaged Scholarship	The creation and dissemination of knowledge and creative expression in furtherance of the mission and goals of the university and in collaboration with the community. Community-engaged scholarship (CES) addresses community needs through research, teaching and service in a mutually beneficial partnership. The quality and impact of CES are determined by academic peers and community partners.
Community-Engaged Service	The application of one's professional expertise that addresses a community-identified need and supports the goals and mission of the university and the community. Community-engaged service may entail the delivery of expertise, resources and services to the community.
Community-Engaged Teaching/Learning	A pedagogical approach that connects students and faculty with activities that address community-identified needs through mutually beneficial partnerships that deepened students' academic and civic learning. Examples are service-learning courses or service-learning clinical practice.

Service Learning: Partners and Process

Operational Definitions

Community-Engaged Teaching/Learning

A pedagogical approach that connects students and faculty with activities that address community-identified needs through mutually beneficial partnerships that deepened students' academic and civic learning. Examples are service-learning courses or service-learning clinical pratica.

Service Learning

Approved service-learning courses, which meet following requirements:

- 20 hours of student service
- Service meets community-identified need
- Student reflection connects service & learning

Service-Learning

Data collection tool(s)	Web-based Report*	Centralized database	Banner
--------------------------------	-------------------	-----------------------------	--------

VCU definition

An intentional teaching strategy that engages students in organized service activities and guided reflection

Operationalized as

Approved service-learning courses , which meet following requirements:

- 20 hours of student service
- Service meets community-identified need
- Student reflection connects service & learning

Course syllabi reviewed & approved by DCE. Once approved, course is tagged as “SRV LRN” in Banner.

CEnR: Partners and Process

Community-Engaged Research

A collaborative process between the researcher and community partner that creates and disseminates knowledge and creative expression with the goal of contributing to the discipline and strengthening the well-being of the community. CEnR identifies the assets of all stakeholders and incorporates them in the design and conduct of the different phases of the research process.

Operational Definition

Approved human-subjects IRB protocols with at least one community partner* involved in the proposed study?

*A community partner is an individual or organization that is not affiliated with VCU or VCU Health Systems (e.g. VA Health Systems, a non profit or NGO, a business) but who is engaged with VCU or VCU Health Systems in this proposed study.

Name and Location of Partner

Please provide the following details about each community partner. If there are more than 5 community partners, please provide the following information on the 5 most significant community partners. If a community partner is a collaboration of multiple partners, please indicate the name of the larger collaboration and the zip code or country of the location where the majority of the research is taking place.

- Name of the organization
- Zip code or Country of the organization

Role of Community Partner

Which of the three statements below best describes the role of the community partner in the study?

- **Access:** Community partners only provide access to study subjects or project sites. They are not involved with study design, subject recruitment, data collection, or data analysis.
- **Guidance:** Community partners do not make decisions about the study design or conduct, but provide guidance to the researcher about the study design, subject recruitment, data collection, or data analysis.
- **Decision-making:** Community partners make decisions with the researcher(s) about the study's research activities and/or help conduct those activities (i.e. study design, subject recruitment, data collection, and/or data analysis).

Community-Engaged Research (CEnR)

Data collection tool(s)	IRB protocol	Centralized database	IRB database
-------------------------	--------------	----------------------	--------------

VCU definition

A collaborative process between the researcher and community partner that creates and disseminates knowledge and creative expression with the goal of contributing to the discipline and strengthening the well-being of the community

Operationalized as

Approved human subjects research IRB protocols that indicate the involvement of a community partner

Data collected

- # of CEnR IRB protocols
 - # of partners involved
- Data filtered by:
- Unit
 - Engagement levels (access, guidance, & decision)
- Partner demographics (Name & address)
 - # of CEnR IRB protocols that had external funding

12 Month Employee Community Service

Data collection tool(s)	Electronic leave requests	Centralized database	Human Resources
--------------------------------	---------------------------	-----------------------------	-----------------

Employee community service is reported and collected in accordance with Virginia's state policy "School Assistance and Volunteer Service Leave" known as "Community Service Leave" (CSL) at VCU.

Operationalized as

Approved community service leave. 12 month employees can use up to 16 hours in paid leave annually to volunteer at:

- Organizations & schools within or outside their communities
- Organizations must engage in meeting human, educational, environmental, or public safety needs

Supervisors must approve CSL requests before granted. Part-time 12-month faculty and part-time staff have pro-rated CLS hours.

Community Engagement Data Joint Task Force

To guide & assist with the continued development of data infrastructure to track and assess impact of VCU's community engagement activities on students, faculty & staff, and community partners.

Member Roles & Responsibilities

Assistance & Guidance

To have relevant expertise to provide guidance.

Expertise can include:

- Administrative & technical knowledge about current/potential data mechanisms
- Community engagement knowledge and experience

Process Improvement

To assist in **evaluating** and improving data collection processes.

Includes, but not limited to:

- Evaluation of existing mechanisms
- Operationalization of terms
- Identify key data points
- Identify key units & existing mechanisms

Feasibility & Prioritizing

- To assist in **assessing the feasibility** of proposed data collection efforts
- To provide guidance in identifying and **prioritizing future efforts**
