Division of Strategic Enrollment Management .....	743
Division of Student Affairs .....	745
Global Education Office .....	751
Office of Research .....	754

Located in the heart of Richmond, the capital of Virginia since 1779, Virginia Commonwealth University serves an integral role in the economic health of the city and the state, educating the current and future work force, reaching out to the community, advancing research and enhancing patient care.

VCU was founded in 1838 as the medical department of Hampden-Sydney College, becoming the Medical College of Virginia in 1854. In 1968, the General Assembly merged MCV with the Richmond Professional Institute, founded in 1917, to create Virginia Commonwealth University.

Today, VCU offers comprehensive undergraduate, master's, doctoral and professional programs and encompasses one of the largest academic health centers in the nation. With a record \$248 million in sponsored research funding for the 2012-13 fiscal year, VCU became one of only 28 public universities in the country with an academic medical center to be designated as a research university with very high research activity as well as a Community Engaged Institution, both by the Carnegie Foundation. Its centers and institutes of excellence support the university's research mission and involve faculty from multiple disciplines in the arts, public policy, biotechnology and health care discoveries.

VCU enrolls more than 31,000 students in 222 degree and certificate programs in the arts, sciences and humanities. Sixty-seven of the programs are unique in Virginia, many of them crossing the disciplines of VCU's 13 schools and one college. VCU has a full-time instructional faculty of more than 2,100 who are nationally and internationally recognized for excellence in the arts, business, education, engineering, the humanities, the life sciences, social work and all the health care professions. With more than 20,000 employees, VCU and the VCU Health System also have a significant impact on Central Virginia's economy.

Building on the foundation of VCU's nationally ranked academic programs and academic medical center, research and scholarly productivity, and engagement with the communities it serves, the university's strategic plan, Quest for Distinction, launches a new vision for VCU: to elevate its stature and become the nation's top urban, public research university. This focused plan capitalizes on the outstanding assets of the VCU experience and truly distinguishes VCU as a major research university committed to academic quality and student success at all levels.

Quest for Distinction also embodies VCU's commitment to human health through the VCU Medical Center, which includes the university's health sciences schools and offers state-of-the-art care in more than 200 specialty areas, many of national and international note, including organ transplantation, head and spinal cord trauma, burn healing and cancer treatment.

VCU and the VCU Health System have been honored with prestigious national and international recognition for top-quality graduate, professional and medical-care programs, reflecting a commitment to be among America's top research universities focused on student learning.

## Administration

VCU administration provides leadership and organizational structure for the university, overseeing its goals and mission. Refer to each [unit's Web site](#) for a current listing of administrators.

### Deans

Deans provide leadership for their respective school or college. Refer to each [unit's Web site](#) for a current listing of its deans, departmental chairs and program heads.

## Accreditation

Virginia Commonwealth University is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award baccalaureate, master's, doctoral and first professional degrees. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, GA 30033-4097; telephone: (404) 679-4500. Note: The Commission is to be contacted **only** if there is evidence that appears to support an institution's significant noncompliance with a requirement or standard.

### Academic program accreditation

See the college/schools for detailed information about program accreditation.

## Specialized program accreditation or certification

### Campus Police

Police Academy  
Certified by the Virginia Department of Criminal Justice Services

### Division of Student Affairs and Enrollment Services

University Counseling Services  
American Psychological Association  
Student Health Services  
Joint Commission on Accreditation of Health Care Organizations

### Hospital accreditation

VCU Health System  
Joint Commission on Accreditation of Health Care Organizations

## Mission statement

As the premier urban, public research university in Virginia, VCU's mission is to advance knowledge and student success through its commitments to:

- An engaged, learner-centered environment that fosters inquiry, discovery and innovation in a global setting
- Research that expands the boundaries of new knowledge and creative expression and promotes translational applications to improve human health
- Interdisciplinary collaborations that bring new perspectives to complex problems and mobilize creative energies that advance innovation and solve global challenges
- Health care that strives to preserve and restore health for all people, to seek the cause and cure of diseases through groundbreaking research, and to educate those who serve humanity
- Diversity that provides a climate of inclusion, a dedication to addressing disparities wherever they exist, and an opportunity to explore and create in an environment of trust
- Sustainable, university-community partnerships that enhance the educational, economic and cultural vitality of the communities VCU serves in Virginia and around the world

## Vision statement

VCU will be a premier urban, public research university distinguished by its commitment to:

- The intellectual and academic success of a diverse student body
- Research and discovery that advances knowledge, inspires creativity and improves human health
- The global engagement of students, faculty and staff that transforms lives and communities

## Core values

1. **Accountability** – committing to the efficient and transparent stewardship of our resources to achieve institutional excellence
2. **Achievement** – ensuring distinction in learning, research and scholarly pursuits, service, and patient care
3. **Collaboration** – fostering collegiality and cooperation to advance learning, entrepreneurship and inquiry
4. **Freedom** – striving for intellectual truth with responsibility and civility, respecting the dignity of all individuals
5. **Innovation** – cultivating discovery, creativity, originality, inventiveness and talent
6. **Service** – engaging in the application of learning and discovery to improve the human condition and support the public good at home and abroad
7. **Diversity** – ensuring a climate of trust, honesty and integrity where all people are valued and differences are recognized as an asset
8. **Integrity** – adhering to the highest standards of honesty, respect and professional and scholarly ethics

## Oak Ridge Associated Universities Consortium

Since 1963, students and faculty have benefited from VCU's membership in Oak Ridge Associated Universities (ORAU), a consortium of 87 colleges and universities and a contractor for the U.S. Department of Energy. ORAU works with its member institutions to help students and faculty gain access to federal research facilities, to keep its members informed about opportunities for scholarship and research appointments and to organize research alliances among its members.

Faculty, graduate students and undergraduate students may access a wide range of opportunities for study and research, including the Lindau-Nobel Laureates and Powe Junior Faculty programs. Many of these programs are designed to increase the numbers of underrepresented minority students pursuing degrees in science- and engineering-related disciplines.

For more information about ORAU and its programs, contact:

Dr. Francis L. Macrina, ORAU Councilor for VCU  
(804) 827-2262

Ms. Monnie E. Champion, ORAU Corporate Secretary  
(865) 576-2206

Or you may visit the ORAU Web site at [www.orau.org](http://www.orau.org).

## VCU Health System Authority

In April 1996, Gov. George Allen signed legislation that established the Medical College of Virginia Hospitals Authority. Effective July 1, 1997, the operations, employees and obligations of MCV Hospitals (formerly a division of VCU) were transferred to the Authority. Three years later, in connection with legislation signed by Gov. James Gilmore, the MCV Hospitals Authority became the Virginia Commonwealth University Health System Authority. The clinical activities of MCV Hospitals, MCV Physicians and the VCU School of Medicine are now coordinated and integrated by and through the VCU Health System.

The VCU Health System Authority is charged by statute with the missions of operating MCV Hospitals as teaching hospitals for the benefit of the schools of the Health Sciences Division of VCU, providing high quality patient care and providing a site for medical and biomedical research, all of which missions are required to be performed in close affiliation with the Health Sciences Division. The VCU Vice President for Health Sciences also serves as the Chief Executive Officer of the VCU Health System Authority, and five VCU faculty physicians serve as members of the Health System Board of Directors.

## Board of Visitors

The Board of Visitors is the voting body of Virginia Commonwealth University. Each year, the governor of Virginia appoints members. Refer to [Office of the President's Web site](#) for a current listing of board members.

## Determination of student classification for in-state tuition purposes

Tuition is determined by the number of credit hours a student is taking, the student's residency classification, course of study and classification level. For in-state tuition benefits, the student must comply with [Section 23-7.4 of the Code of Virginia](#).

All applicants to VCU who wish to be considered for in-state tuition rates as Virginia residents must submit the Application for Virginia In-state Tuition Rates. This application is a part of the admissions packet and the nondegree-seeking student enrollment package. The residency determination of the applicant is conveyed at the time of admission as a degree-seeking student or nondegree-seeking student.

New and continuing students initially classified as non-Virginians for tuition purposes may request a review of the initial residency determination by completing an Application for Change of Domicile available from the Office of Records and Registration (online). The student must present clear and convincing evidence that he or she is not residing in the state primarily to attend school. The application deadline is 30 days prior to the start of the semester, and it is the responsibility of the student to establish or to file an appeal to change his/her residency classification prior to the start of classes for the semester under

consideration. In accordance with the Code of Virginia, applications received after the start of the semester must be considered for the next semester. Submit completed applications with documentation to the university residency appeals officer. Processing may require four to six weeks; therefore it is strongly recommended that applications be submitted earlier than the stated deadline.

Our service to students is limited to assuring that they understand the procedures for appealing and that they have access to information about the relevant sections of the Code of Virginia. We provide information about the steps of our process and access to the applicable sections of the statute and the associated guidelines. We provide qualified staff to review the appeals and make decisions based on the information students provide. What we cannot do is provide advisement to students as to how to present their case for review; we cannot become the student's advocate since we must make the decision.

Students approved for a change to in-state status for tuition purposes are notified by mail with copies of their approval letters sent to the Office of Financial Aid and the Office of Student Accounting. Students denied this status are also notified by mail. The denial letter informs the student of procedures for appeal of this decision, to include filing an appeal with the University Residency Appeals Committee. Students who submit fraudulent applications, falsify documentation or conceal information will be subject to reclassification, payment of all nonresident fees owed and university discipline.

Please note that a student with in-state status for tuition purposes who exceeds 125 percent of the credit hours needed to complete his program will be assessed a tuition surcharge.

## Rights of students under the Family Educational Rights and Privacy Act

Pursuant to a federal statute enacted to protect the privacy rights of students (Family Educational Rights and Privacy Act of 1974 [FERPA], as amended, enacted as Section 438 of the General Education Provisions Act), eligible students of Virginia Commonwealth University are permitted to inspect and review education records of which the student is the subject. A statement of university policy concerning inspection and disclosure of education records has been formulated in compliance with the federal statute. Copies of the policy also are available from the Office of Records and Registration or on the Web at [www.enrollment.vcu.edu/rar/registration/ferpa.html](http://www.enrollment.vcu.edu/rar/registration/ferpa.html).

Generally, the act provides that no personally identifiable information will be disclosed without the student's consent, except for directory information and information to other school officials with a legitimate educational interest. When personally identifiable information, other than directory information, is disclosed, a record will be maintained of these disclosures. This record also is available for inspection and review by the student.

If an eligible student feels that his or her education record is inaccurate, misleading or otherwise in violation of the student's privacy or other rights, the student may request an amendment to the record.

Should the university fail to comply with the requirements of the act, the student has the right to file a complaint with the Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Ave., S.W., Washington, D.C. 20202-5901.

## Parental Notification Amendment

Amendments to FERPA signed into federal law in fall 1998 specifically allow notification to the parents or guardians of students under the age of 21 who violate any law or university rule regarding use or possession of alcohol or other controlled substance. The Virginia Attorney General's Task Force on Drinking by College Students also recommended such notification in its 1998 report.

In accordance with these documents, a parental notification procedure has been included in the VCU Drug Free Schools and Workplace Policy.

## Consumer information

The federal Higher Education Act of 1965, as amended, requires that institutions of higher education disclose certain consumer information to current students, prospective students, current employees and/or prospective employees. This consumer information can be found online at [www.consumerinfo.vcu.edu](http://www.consumerinfo.vcu.edu).

**VCU**

## **2014-15 Graduate and Professional Programs Bulletin**

---

**Graduate School and graduate study**

Graduate programs are administered by the individual departments, schools and centers with assistance from the Graduate School. Major coordination of the various degree programs is performed by the University Graduate Council, which is chaired by the dean of the Graduate School. The University Graduate Council is comprised of two elected faculty members from each school and one elected faculty member from VCU Life Sciences.

The Graduate School section of the VCU Bulletins documents the official admission and academic rules and regulations that govern graduate education at the university. The University Graduate Council determines these policies.

The [archived](#) copies of current and past bulletins (catalogs) reflect all policies and procedures in effect at the beginning of the stated academic year. The online Bulletin is updated regularly to reflect changes that occur throughout the academic year.

## Graduate programs

In-depth descriptions of all graduate programs at VCU are provided in the individual school and program sections of this bulletin. The Graduate School Web site ([www.graduate.vcu.edu](http://www.graduate.vcu.edu)) provides links and contact information for all graduate programs offered at VCU. The Web site also provides updates that occur throughout the academic year, as well as the Application to Graduate Study and complete instructions for applying to all graduate programs.

Refer to the Program Search feature of this Web site for a complete listing of all graduate programs, as well as application deadline dates, and special admission requirements and contact information. Applicants are encouraged to contact the school/department sponsoring the intended program of study at the telephone numbers and/or e-mail addresses provided. Other important contact information is provided on the [Graduate School](#) Web site as well.

## Welcome from the graduate dean – Important information for all graduate students

On behalf of the graduate faculty, I welcome you to graduate study at Virginia Commonwealth University. At VCU you will find a comprehensive array of academic programs, outstanding faculty and a supportive environment conducive to graduate study and research. The university offers nationally and internationally acclaimed graduate and research programs that meet the many needs of the commonwealth of Virginia, the United States and the world.

The University Graduate Council, chaired by the dean of the Graduate School, provides academic and administrative oversight and coordination of all graduate programs in accordance with the Graduate School's mission: to provide leadership in all matters relating to graduate education at Virginia Commonwealth University in order to create a stimulating environment for teaching, learning, research, creative expression and public service. Academic departments and schools administer individual graduate degree programs with the assistance and support of the VCU Graduate School. In-depth descriptions of all graduate programs at VCU are provided in the individual school and program sections of this bulletin.

### VCU Graduate Bulletin (catalog)

The VCU Graduate Bulletin website documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

**It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the Graduate Bulletin as well as the academic regulations in individual school and department publications and on program websites; however, in all cases, the official policies and procedures of the University Graduate Council, as published on this Graduate Bulletin website and on the Graduate School website, take precedence over individual program policies and guidelines.**

The [archived](#) copies of current and past bulletins (catalogs) reflect all policies and procedures in effect at the beginning of the stated academic year. The online Bulletin is updated regularly to reflect changes that occur throughout the academic year.

Students who maintain continuous enrollment are subject to the curricular requirements of the bulletin in effect at the time of admission, and to subsequent policy changes approved by the University Graduate Council for immediate implementation.

Students who do not maintain continuous enrollment must reapply for admission and will be subject to the requirements of the bulletin in effect at the time of readmission, and to subsequent policy changes approved by the University Graduate Council for immediate implementation. ([See policy on Exceptions.](#))

Graduate students should contact the Graduate School at any time regarding questions relating to graduate study at VCU.

I commend you for your decision to pursue graduate study, and I wish you every success in the pursuit of your educational goals at Virginia Commonwealth University.

Sincerely,

F. Douglas Boudinot  
Dean of the Graduate School

## Admission to graduate study

The Board of Visitors, the administration and the faculty of VCU are committed to a policy of equal opportunity in education and employment without regard to age,

race, color, national origin, gender, religion, sexual orientation, veteran's status, political affiliation or disability.

## Admission requirements

Minimum admission requirements for graduate study at VCU are outlined below. Individual departments and programs may set more stringent requirements as described in relevant sections of the Graduate Bulletin. Each department/program determines how to evaluate the individual requirements in a holistic assessment of the applicant's potential for success in graduate study in a particular field. Additional factors, such as prior professional experience, may also be taken into consideration.

1. **Graduation from a regionally accredited college or university or its equivalent.** Departments may admit graduate applicants with three-year bachelor's degrees provided these three-year degrees allow the students to pursue graduate studies in their countries. Further, the department will require prerequisite/foundation courses as needed to fill in any gaps in the student's educational background.
2. **Required grade point average.** For admission to graduate study at VCU, the Graduate School requires a minimum undergraduate GPA of 3.0. For students with earned graduate degrees from accredited institutions, the graduate GPA may be the primary basis for consideration.
3. **Test scores.** Standardized graduate-level test scores (fewer than five years old) as determined by the individual program/department. Note: Not all programs require standardized test scores. See relevant sections of the Graduate Bulletin for individual program requirements.
4. **Letters of recommendation.** Three letters of recommendation from instructors or professional references in the applicant's intended field of study. Letters should address the applicant's academic and professional abilities and preparation for graduate study.
5. **Statement of intent.** A statement of the applicant's reasons for pursuing graduate education in the planned course of study at VCU.
6. **Such additional requirements as may be established by individual programs and schools.** These may include personal interviews, auditions, submission of a portfolio or other materials.

An exception to the general admissions requirements is made for students entering through the Guaranteed Admissions Programs of the VCU Honors College. (See the heading "[Guaranteed Admission Through The Honors College](#)" in this section.)

Revised 4/8/2014  
University Graduate Council

## Types of admissions

Students may be admitted to graduate study under one of the following classifications:

### Degree-seeking student

An applicant who meets all requirements for admission to a degree program and who has been recommended by the department or school in which the applicant proposes to study may be admitted as a degree-seeking student.

In order to finalize admission, an official transcript showing degree awarded and any other required documentation must be provided by the end of the fourth week of the first semester of matriculation in the program. Holds will be placed by the Graduate School on all future registrations for students who do not submit required documentation by this deadline.

Revised 4/8/2014  
University Graduate Council

### Nondegree-seeking student

An individual who wishes to take graduate courses without formal admission to a degree program is classified as a nondegree-seeking student. There is no limit to the total number of credits a nondegree-seeking student may take, as long as the student's academic performance is credible. In courses where enrollment is limited, first priority is given to students admitted to the program, followed by other VCU graduate degree-seeking students. Nondegree-seeking students are not exempt from any prerequisite that may be specified for a course. **A nondegree-seeking student who is later admitted as a degree-seeking student will not be**

**allowed to apply toward a degree more than six credits earned as a nondegree-seeking student.**

In order to enroll in graduate courses as a nondegree-seeking student, students must have graduated (or be in final term expecting to graduate) from a regionally accredited college or university or its equivalent. Information and forms [certifying eligibility](#) to take graduate courses are available at VCU Records and Registration service centers or from the Office of Admissions.

Revised 4/8/2014  
University Graduate Council

## Entrance examinations

To supplement other evidence of preparation for graduate work, most graduate programs at VCU consider the scores from current (fewer than five years old) standardized tests commonly used and deemed appropriate for a given discipline. Applicants should refer to the individual program screens of this Web site for specific test requirements. Applicants are encouraged to visit individual department and program Web sites and to contact the school/department sponsoring the intended program of study for additional information about specific test score requirements.

Individual exceptions to this requirement may be considered for students with previous graduate degrees and for students entering graduate study through the [Guaranteed Admission Programs of the Honors College](#).

Common examinations used at VCU are the Graduate Record Examination (GRE), the Graduate Management Admissions Test (GMAT), the Law School Admissions Test (LSAT), and the Miller Analogies Test (MAT). These examinations will not replace other records of achievement as a basis for admission to the Graduate School, but will offer additional evidence concerning the qualifications of students wishing to undertake graduate work.

Revised 4/8/2014  
University Graduate Council

## Guaranteed admission through The Honors College

Active members of The Honors College may apply to The Honors College Guaranteed Admission Program for certain graduate programs either before matriculation at VCU or early in their undergraduate studies. The specific deadline for applying is set by the program. Upon graduation, honors students in the Guaranteed Admission Program may enter the graduate program to which they have applied, provided they have satisfied all of the program requirements.

Interested students should meet with the senior associate dean of The Honors College prior to making application for guaranteed admission to a graduate program. Following that meeting, the student must submit a completed graduate application form with three letters of recommendation to Graduate Admissions. To be accepted into The Honors College Guaranteed Admission Program, a student must be accepted by the university, by the Office of Admissions and by the admissions committee of the program the student wishes to enter. The admissions committee may require an interview. Final notification of guaranteed admission is made by the Office of Admissions.

For additional information, refer to the [Honors College](#) section of the Undergraduate Bulletin, or contact The Honors College at P.O. Box 843010, Richmond, VA 23284-3010; (804) 828-1803; or [www.honors.vcu.edu](http://www.honors.vcu.edu).

Revised 4/8/2014  
University Graduate Council

Programs that offer guaranteed admission through The Honors College include:

Doctor of Dental Surgery  
Doctor of Medicine  
Doctor of Occupational Therapy  
Doctor of Physical Therapy  
Doctor of Philosophy  
Anatomy and Neurobiology  
Biochemistry  
Biomedical Engineering  
Biostatistics  
Human Genetics  
Microbiology and Immunology  
Neuroscience  
Nursing  
Pharmacology and Toxicology

Physiology  
 Psychology  
 Systems Modeling and Analysis  
 Master of Accountancy  
 Master of Arts  
   Economics  
   History  
 Master of Bioinformatics  
 Master of Business Administration  
 Master of Education  
   Adult Learning  
   Counselor Education  
   Special Education  
     Early Childhood Special Education  
     Emotional Disturbance  
     Mental Retardation  
     Learning Disabilities  
     Severe Disabilities  
 Master of Environmental Studies  
 Master of Health Administration  
 Master of Product Innovation  
 Master of Public Administration  
 Master of Public Health  
 Master of Science  
   Anatomy  
   Biochemistry  
   Bioinformatics  
   Biomedical Engineering  
   Biostatistics  
   Business  
   Clinical Laboratory Sciences  
   Computer Science  
   Criminal Justice  
   Environmental Studies  
   Forensic Science  
   Genetic Counseling  
   Gerontology  
   Health and Movement Sciences  
   Human Genetics  
   Information Systems  
   Mathematical Sciences  
   Microbiology and Immunology  
   Nursing  
   Pharmacology and Toxicology  
   Physics/Applied Physics  
   Physiology  
   Rehabilitation Counseling  
   Sociology  
 Master of Science in Nurse Anesthesia  
 Master of Science in Occupational Therapy  
 Master of Taxation  
 Master of Teaching  
 Master of Urban and Regional Planning

## Multiple admissions

Students may not be admitted and enrolled in more than one graduate program or in an undergraduate and graduate degree program, except as part of an approved bachelor's-to-master's curriculum without petitioning and receiving written permission from the program director of each program in which the student is enrolled and the dean of the Graduate School.

Revised 4/8/2014  
 University Graduate Council

## International students

The university encourages qualified international students to seek admission to VCU. U.S. government regulations and VCU admission policies require nonimmigrant applicants to demonstrate:

- Satisfactory academic achievement.
- Adequate English language proficiency.

- Ability to finance all educational and living expenses.

International students are advised to refer to university and program admission requirements in this bulletin for other information requested of all applicants. An applicant must have earned a bachelor's degree from an accredited institution in the United States or an equivalent degree from a recognized foreign institution. Official academic records must be submitted.

## English language proficiency requirement

To ensure maximum benefit from academic study at VCU, all non-native English-speaking applicants, regardless of immigration status, must provide evidence of English language proficiency before admission and/or enrollment in the university.

An applicant may satisfy university English proficiency requirements by obtaining a satisfactory score on the TOEFL. The university minimum TOEFL score requirement is 550 (paper-based) or 80 (Internet-based). Some graduate programs will accept satisfactory scores on the IELTS as evidence of English proficiency. The university minimum IELTS score requirement is 6.5. The PTE is also accepted with a minimum score of 65. Individual programs may require higher scores. TOEFL, IELTS and PTE scores are valid for two years.

The Office of Admissions reserves the right to require additional testing and study in the VCU English Language Program prior to full-time enrollment in university courses. The university offers a full-time English-as-a-Second-Language noncredit program. For information on the VCU English Language Program, including fees, international students can contact the English Language Program, Virginia Commonwealth University, P.O. Box 843043, Richmond, VA 23284-3043, United States; (804) 828-2551, or by email: [oe-elp@vcu.edu](mailto:oe-elp@vcu.edu); or online at [www.global.vcu.edu/elp](http://www.global.vcu.edu/elp).

## Nonimmigrants (students with temporary U.S. visas)

Because of the amount of time required to process applications from international students and for international students to obtain their visas, prospective students should apply well in advance of the international application deadlines. The deadlines are April 1 for fall semester, Oct. 1 for spring semester and Feb. 1 for summer session. Students also must meet specific program deadlines. All required admission documents must be submitted no later than eight weeks prior to registration if appropriate immigration documents are to be issued. Applicants who are unable to meet this credential deadline will need to defer the intended semester of entry.

Revised 4/08/2014  
 University Graduate Council

As VCU does not generally provide financial support for graduate international students, applicants needing a student visa (F-1) or a visiting scholar visa (J-1) also must present documented evidence of available financial support to cover annual living and educational expenses while studying at VCU.

Proof of current visa type must be submitted with the application for applicants who are in the United States on student visas. F-1 students and J-1 visiting scholars admitted to VCU must submit copies of all immigration documents to the VCU International Student Adviser prior to enrolling in classes.

## Immigrants (permanent residents, resident aliens and asylum/refugee applicants)

Because immigrant applicants usually are in the United States at the time applications are submitted, these students are required to meet the same application deadlines as U.S. citizens.

If educated in the United States, immigrant students will be considered for admission under the same academic policies as those applied to U.S. citizens. If educated outside the United States, the same academic records are required as those for nonimmigrant students.

VCU requires detailed information concerning U.S. immigration status. Proof of permanent residency or application for permanent residency must be submitted with the admission application.

## Admissions appeals

The Office of Admissions will hold denied applicants' transcripts and test scores for one year. To reapply within this period, applicants should first contact the department or program. Additional materials should be supplied to strengthen the application, such as new test scores, new letters of recommendation or a new statement of intent.

## Application procedures

A link to the online application, other supplemental forms and instructions for applying to all graduate programs are available on the Graduate School website at [graduate.admissions.vcu.edu/apply](http://graduate.admissions.vcu.edu/apply).

A \$65 nonrefundable application fee must accompany each application. This fee will not be credited toward tuition payment.

Completed applications and all supporting materials must be submitted according to the application guidelines provided in this bulletin and before the program deadlines specified throughout this bulletin website. Late applications for some programs may be considered when possible but may require provisional action.

**Note:** Reference letters, the statement of intent/personal essay and any other supplementary materials such as art portfolios, resume/vita or specific program-required documents should be submitted to the address specific to the program to which you are applying. However, some programs require that all application materials be sent directly to the Graduate School.

[Click here for instructions on submitting application materials for graduate programs and a list of program-specific addresses for supplemental materials.](#) All transcripts and test scores must be submitted to Graduate Admissions. Supporting documentation submitted by mail should be addressed to Virginia Commonwealth University, Office of Admissions, P.O. Box 843051, Richmond, VA 23284-3051. Application materials submitted in person may be delivered to the Graduate Admissions office on the third floor of Blair House, 408 W. Franklin St., Richmond, Va.

Graduate students must use the [Graduate School's online graduate application](#). Supporting materials for online applications must be submitted promptly. An application cannot be given final consideration until all required documentation and the application fee have been received. Applicants are strongly encouraged to pay by credit card when submitting the online application.

Students are encouraged to apply well before the program deadline to ensure receipt of all application materials. Program deadlines are found with degree/program information elsewhere in this Bulletin. Use the search feature located to the right of this page to find the program(s) of interest.

Completed applications and supporting materials are reviewed by the graduate faculty of the intended program, and final official notification of acceptance is made by the dean of the Graduate School.

Admission to a graduate program may be contingent upon the successful completion of undergraduate course work, degrees or other prerequisites that may be specified by the program or school. Remedial course work will not apply toward a graduate degree.

Students who do not apply at least one month prior to the beginning of any semester risk their financial aid eligibility in the event that the admission process is not completed prior to the first day of classes.

[Apply](#)

## General academic regulations for all graduate students - VCU Graduate Bulletin (catalog)

The VCU Graduate Bulletin (catalog) website documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

**It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the Graduate Bulletin (catalog) as well as the academic regulations in individual school and department publications and on program websites; however, in all cases, the official policies and procedures of the University Graduate Council, as published on this Graduate Bulletin website and on the Graduate School website, take precedence over individual program policies and guidelines.**

The [archived](#) copies of current and past bulletins (catalogs) reflect all policies and procedures in effect at the beginning of the stated academic year. The online Bulletin is updated regularly to reflect changes that occur throughout the academic year.

Students who maintain continuous enrollment are subject to the curricular requirements of the Graduate Bulletin (catalog) in effect at the time of admission,

and to subsequent policy changes approved by the University Graduate Council for immediate implementation.

Students who do not maintain continuous enrollment must reapply for admission and will be subject to the requirements of the Graduate Bulletin (catalog) in effect at the time of readmission, and to subsequent policy changes approved by the University Graduate Council for immediate implementation. ([See policy on Exceptions.](#))

Graduate students should contact the Graduate School at any time regarding questions relating to graduate study at VCU.

Revised 5/11/2010  
University Graduate Council

## University rules and procedures

VCU seeks to foster insight, imagination, creativity, resourcefulness, diligence, honesty and responsibility as well as the education of the men and women enrolled in its graduate programs. Such an enterprise can take place only where the highest standards of academic integrity exist.

Each member of the VCU community has certain responsibilities, rights and privileges. These are stated in some detail in the [VCU Rules and Procedures \[PDF\]](#), and all students are responsible for being familiar with provisions of this document. This document also provides for the process whereby disciplinary action, including separation from VCU, may be taken against a member of the university community as a result of behavior that is in violation of the prohibited conduct as stated in the VCU Rules and Procedures.

- The VCU Rules and Procedures are printed in the [VCU Insider](#) and also are available at the [Office of Student Conduct and Academic Integrity](#).
- The Division of Student Affairs publishes an [index of policies, guidelines and procedures](#).
- The VCU Integrity and Compliance Office maintains the latest versions of all universitywide policies and procedures on its [Policy Library website](#).
- The [VCU Graduate Bulletin](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at VCU. It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the Graduate Bulletin, as well as the academic regulations in individual school and department publications and on program websites; however, in all cases, the official policies and procedures of the University Graduate Council, as published in the Graduate Bulletin and on the [Graduate School website](#), take precedence over individual program policies and guidelines.

## VCU Honor System

VCU recognizes that honesty, truth and integrity are values central to its mission as an institution of higher education. Therefore, all students are subject to the [VCU Honor System \[PDF\]](#). All graduate students are responsible for being familiar with provisions of this document.

Academic dishonesty is the giving, taking or presenting of information or material by students with the intent of unethically or fraudulently aiding themselves or others on any work that is to be considered in the determination of a grade or the completion of academic requirements. Students in doubt regarding any matter related to the standards of academic integrity in a given course or on a given assignment should consult with the faculty member responsible for the course before presenting the work.

## Grade review procedures

Graduate students at VCU have a right to appeal actions of an academic nature. If such action involves a course grade, the Grade Review Procedures as published in the Rules and Procedures should be followed. If such action involves computing, the [Computer and Network Resources Use Policy](#) should be followed.

## Dismissal from a graduate degree program

In addition to those standards of conduct described in VCU Rules and Procedures and the VCU Honor System, students enrolled at the university may be dismissed from the academic programs in which they are enrolled for failure to meet prescribed academic program requirements. Students appealing dismissal from their graduate degree programs should first pursue appeals at the program/department and/or the school level. After receiving the program/department and/or

school decision, students have the option of filing an appeal with the graduate dean in the process outlined in the [Appeal process for students dismissed from a VCU graduate degree program](#).

Other university policies that might impact graduate students include, but are not limited to, the following:

- Alcohol and Drug Policy
- Care and Ethical Use of Animals in Research and Education at VCU
- Information Security Policy
- Intellectual Property Policy
- Misconduct in Research and Scholarly Activities
- Non-discrimination on the Basis of Disability
- Prohibition of Sexual Harassment
- Responsible Conduct in Research and Scholarship
- VCU IRB Written Policies and Procedures

External agencies with policies that might impact graduate students include, but are not limited to, the following:

- [State Council of Higher Education for Virginia](#) – SCHEV
- [Southern Association of Colleges and Schools Commission on Colleges](#) – SACS-COC

Revised 5/14/2013

University Graduate Council

## Degree requirements

The minimum course requirements, rules of admission to degree candidacy, language requirements, thesis or dissertation requirements, comprehensive examinations, transfer of credits, and the like are specified for each program in the individual program sections on this bulletin Web site. Additionally, many schools, programs and departments maintain Web sites and publish special brochures, student manuals and program guides that may be requested from the appropriate dean or program director.

**In all cases, the official policies and procedures of the University Graduate Council, as published in the Graduate Bulletin and on the [Graduate School Web site](#), are fully applicable to all graduate programs and graduate students, both on- and off-campus, and take precedence over individual program policies and guidelines.** Graduate students should contact the Graduate School with questions regarding any discrepancies.

The university reserves the right to revoke any degree, certificate or other university recognition for cause. In addition, any time following the award of a degree, certificate or other university recognition, the university reserves the right to take appropriate action, including, but not limited to, the revocation of such degree, certificate or other university recognition, on the basis of academic misconduct discovered subsequent to, but which occurred prior to, the awarding of the degree, certificate or other university recognition. More specifically, when an action that constitutes a violation of the VCU Honor System leads to a finding that invalidates a major piece of work required for a degree, certificate or other university recognition so that the validity of the degree, certificate or other university recognition is jeopardized, the student or former student will be subject to a sanction that may include (a) rejection of a thesis, dissertation or other work, (b) revocation of a certification or other university recognition or (c) revocation of a degree.

## Academic advising

Students are responsible for the proper completion of their academic programs. They must be familiar with the Graduate Bulletin (catalog) as well as all additional academic regulations promulgated by individual schools and departments.

The offices of the deans and department chairs, in cooperation with the advisers and faculty, endeavor to follow the academic progress of all students, and students are encouraged to seek counsel whenever there is a need. If advisers are unable to resolve problems satisfactorily, they will refer students to others as deemed appropriate and necessary.

In order to aid advising, students are responsible for maintaining current mailing addresses on file with the [Office of Records and Registration](#), as well as with the schools and departments in which they are enrolled.

Students also are required to obtain an official VCU student e-mail account within one week of the beginning of the first semester of enrollment and are responsible for reading in a timely fashion university-related communications sent to their official VCU student e-mail accounts. Information on how to set up an account is available online at <http://mymail.vcu.edu>.

**The academic advising process requires periodic checks by graduate students, advisers and program directors to ensure the accuracy of students' academic histories. Unofficial academic histories are available on line through [eServices](#), or official transcripts may be obtained for a fee from the [Office of Records and Registration](#).**

**It is the responsibility of all graduate students to:**

1. **Check their records no later than the end of the add/drop registration period at the beginning of each semester to ensure that their registrations are correct and**
2. **Check their records at the end of each semester to ensure that their academic histories are current and correct.**

Students who wish to appeal assigned grades must follow the Grade Review Procedure as articulated in this Bulletin (catalog) at [www.pubapps.vcu.edu/bulletins/graduate/?uid=10045&iid=30071](http://www.pubapps.vcu.edu/bulletins/graduate/?uid=10045&iid=30071) and as published in [VCU Rules and Procedures](#).

Requests for any other changes to an academic history must be submitted in writing by students to their graduate program directors no later than 14 calendar days after the beginning of the following semester (for the fall semester, 14 calendar days after the beginning of the spring semester; for the spring or summer semester, 14 calendar days after the beginning of the fall semester).

Graduate students, program directors and academic school deans/designees are required to conduct a final review of all academic histories as part of the application-to-graduate check-out process as articulated in this Bulletin (catalog) at [www.pubapps.vcu.edu/bulletins/graduate/?uid=10045&iid=30072](http://www.pubapps.vcu.edu/bulletins/graduate/?uid=10045&iid=30072) and on the Graduate School website. A student's signature on the application to graduate is acknowledgement that the student has reviewed the academic history and that it is correct. Final approval signatures by graduate program directors and academic school deans/designees on the final application to graduate confirm that the student's academic history is complete, correct and final and that no future requests for changes to the academic history will be considered once the student has been approved to graduate.

Revised 5/11/2010

University Graduate Council

## Exceptions

Exceptions to graduate policies must be approved by the dean of the Graduate School. Requests for exceptions to Graduate School policies are to be made in writing by students to their graduate advisers/program directors. The graduate advisers/program directors will forward their recommendations, along with copies of student requests and supporting documentation, to the school dean/dean's designee, who will review and approve or disapprove recommendations. Recommendations approved by the school dean/dean's designee will then be forwarded to the dean of the Graduate School, who represents the University Graduate Council.

## Withdrawal from a graduate program

Graduate students in good academic standing, according to the academic rules and regulations articulated in the Graduate Bulletin and by individual graduate programs, may request to withdraw from a graduate program at any time. Students should notify their graduate program directors as soon as possible of the intent to withdraw from the program. The program director will then notify the Graduate School via the Special Action Form procedure. The effective term of withdrawal is recorded as the end of the last term of active registration.

Withdrawal from a program does not constitute a withdrawal from course work. Students who wish to also withdraw from classes should do so according to the procedures in the "[Withdrawal from classes](#)" section of the Bulletin.

Students who are not in good academic standing should be reviewed for possible termination from their academic programs as prescribed in the Graduate Bulletin (see [Appeal process, students terminated from a VCU graduate program](#)).

Revised 5/8/2012

University Graduate Council

## Appeal process, students dismissed from a VCU graduate program

### A. Dismissal process

- Dismissal is initiated at the program/department level by advisers/graduate program directors/department chairs via a special action form indicating the reason with relevant documentation attached. Reasons for dismissal may include but are not limited to:
  - Academic (D or F in class, too many grades of C, as determined by the student's academic program in conjunction with Graduate Council policy, GPA below 3.0, failure of comprehensive exams, lack of progress on/unsuccessful defense of thesis/dissertation),
  - Discontinuous enrollment
  - Exceeding time limit
  - Honor policy violation
  - Academic misconduct
  - Professional misconduct
- Request for dismissal is forwarded to the school dean/dean's designee, who reviews the action, signs the form and forwards it to the graduate dean within 10 business days.
- The graduate dean/dean's designee reviews the action, signs the form, notifies the Office of Records and Registration and sends a dismissal letter to the student via office VCU email. This letter must include a statement of the student's right to appeal and inform the student that appeals must be initiated at the program/department and/or school level within 10 business days after receipt of the letter.

### B. Appeals process

#### Preamble

Virginia Commonwealth University, through its Graduate School, defines minimum standards for admission and sets general rules governing eligibility for continuation. However, the individual graduate programs, through their respective graduate faculty and graduate program procedures, exercise principal responsibility for evaluating graduate student work. It is assumed that most disputes over evidence of unsatisfactory progress will be reconciled through discussions between faculty and students at the school/department/program level.

It is important that each graduate student be fully informed, not only of the VCU Graduate School Policies and Procedures, but also of any additional departmental program requirements beyond those established by the Graduate School. A copy of each departmental graduate policy statement should be readily available to all graduate students. The department should inform graduate students of degree requirements and associated school/program/department procedures at the time of matriculation.

A student may appeal dismissal from a graduate program under the following procedures.

- The student has the burden of proof in all appeals.
- The student must initiate the appeal process at the program level within 10 business days after receipt of the graduate dean's certified dismissal letter and according to the program/department and/or schools/colleges appeal processes. All program/department and/or school/college appeal processes should be exhausted prior to initiating an appeal to the graduate dean.
- If all program/department and/or school/college appeal processes fail to resolve the issue, the student must provide the graduate dean with written notification of appeal, to include justification and all supporting documentation (correspondence and other paperwork leading up to the dismissal), within 10 business days of the school/college decision. All documentation must be provided at the time of written notification of appeal.
- The graduate dean provides the graduate program director and school/college dean with copies of the student's appeal and asks the graduate program director/dean/department chair to provide the Graduate School with their response, including copies of correspondence and any other supporting documentation that led to the dismissal. The graduate

program director and school dean must respond to the graduate deans request for information within 10 business days.

- The graduate dean will review the materials and may refer the matter to the Admissions and Academic Standards Committee of the University Graduate Council. The committee is composed of faculty members from various divisions of the university plus one ex-officio voting member from the Graduate School. AAS members who have direct knowledge of the student's case will be recused. A minimum of four members must be present to constitute a quorum. The committee will convene to review the documentation and consider the positions of the parties. At its meeting, the committee will hear presentations from and ask questions of the student and representatives of the school/department/program. The student and the school/department /program representative may each bring up to two persons who may provide support and advice but who may not speak for the parties.
- After considering the materials submitted and the presentations by the parties, the committee will convene in closed session and decide, by majority vote, whether to recommend that the graduate dean uphold or reverse the dismissal. In the event of a less than unanimous decision, both opinions will be communicated to the graduate dean. The graduate dean renders the final decision and notifies the student in writing within 10 business days by certified mail to the student's official address on file with the university.
- The student may be allowed to register for courses during the pendency of the appeal, understanding that he/she will be dropped retroactively if the dismissal is upheld.

Revised 5/11/2010; 5/8/2012; 5/13/2014  
University Graduate Council

## Student load

Student load is the total number of credits for which students are enrolled in any semester. Students may be either full time or part time, dependent upon program rules. Students who are fully funded as VCU graduate assistants with tuition remission are classified as "full time" during any semester in which they enroll for nine or more credits (three during the summer if funded on a 12-month stipend). Departmental requirements vary; therefore, funded students should verify expected course loads with their graduate program directors.

The maximum number of credits for which students may enroll in any semester without special permission is 15. More than 15 credits is an overload. More than 15 credits may result in increased tuition. Permission to enroll for more than 15 credits may be granted upon the written recommendation of the adviser, through departmental governance procedures, to the dean of the Graduate School.

Each summer course is designed to provide the equivalent of one semester's work. With careful scheduling, it is possible for students to earn as many as 15 credits during the summer if course work extends over the full summer semester calendar. Permission to enroll for more than 15 credits in the summer semester may be granted upon the written recommendation of the adviser through departmental governing procedures to the dean of the Graduate School.

Summer success is predicted on the academic standard of one credit per week. Six credits in five weeks or nine credits in eight weeks is considered a normal load, but VCU does not permit six credits in four weeks or nine credits in six weeks. Suggested scheduling combinations are printed in the Summer Schedule of Classes or are available online at [www.vcu.edu/schedule](http://www.vcu.edu/schedule).

Graduate courses are not offered during the Winter intersession.

Revised 5/11/2010; 5/10/2011  
University Graduate Council

## Attendance and enrollment policies

### Class attendance

Instructors are responsible for clearly informing students in writing of the attendance requirement for each course and the consequences of poor attendance. Students must abide by the requirements as announced in each separate class even though the requirements may vary widely among courses.

The instructional programs at VCU are based upon a series of class meetings involving lectures, discussions, field experiences, special readings and reporting assignments. Therefore, it is important for each student to be in attendance on a regular basis. A student who misses a class session is responsible for completing all material covered or assignments made during the absence.

Students having attendance problems should contact the instructor to explain the reasons for nonattendance and to discuss the feasibility of continuing in the course. If the student has fallen so far behind that the successful completion of the course is impossible, the student should withdraw from the course before the last day to withdraw from a course as published in the academic calendar.

#### Religious observances

It is the policy of VCU to accord students, on an individual basis, the opportunity to observe their traditional religious holidays. Students wishing to observe a religious holiday of special importance must provide advance written notification to each instructor by the end of the second week of classes. On these dates, instructors are encouraged to avoid scheduling one-time-only activities that cannot be replicated. Through such strategies as providing alternative assignments or examinations, granting permission for audio or video recordings or the use of the Internet, faculty members are expected to make reasonable academic accommodations for students who are absent because of religious observance.

#### Mandated short-term military training

Students called to report for mandated military training must provide advance written notification to each instructor several weeks in advance of training. Faculty members are expected to make reasonable academic accommodations for students who are absent because of mandated short-term military training (short-term is defined as several days not to exceed two weeks).

### Enrollment

Any person engaged in graduate study at VCU must enroll each semester in which he/she is engaged in any form of study at VCU that involves use of university facilities, laboratories/studios and/or libraries, or who is supervised by or consults with a faculty member concerning graduate work on a project, work of art, thesis or dissertation.

### Continuous enrollment for degree-seeking graduate students

#### Continuous enrollment – Pre-candidate

Once admitted to a degree program, a graduate student is expected to comply with minimum enrollment of one course per 12-month period from the beginning of his/her program.

#### Continuous enrollment – Candidate

A graduate student who has completed course requirements for a degree must register for at least one credit at VCU each fall and spring semester until the degree is awarded. Students must be enrolled during their graduation semesters.

Revised 5/8/2012

University Graduate Council

### Residence for Ph.D. programs

At many universities, doctoral students are required to maintain at least one to two years of continuous full-time enrollment or “residence.” At VCU, each doctoral program will establish its own residency requirements.

### Change in registration

Once students have registered for classes, changes in registration must be made according to the procedures listed below. Whenever students make any changes in registration, they should keep copies of their new schedules as verification of the changes. Changes in registration may affect financial aid. Students are advised to consult with a financial aid counselor before making any changes to their enrollment status. See the “Financial Aid” section of this chapter for detailed information

### Cancellation of registration

To cancel registration, students must notify, in writing, the Office of Records and Registration before the end of the “Add-Drop” period, or drop all classes using the Web Registration System. Refunds are issued in accordance with procedures described under the refunds section of this chapter. For readmission guidelines, refer to the admissions section.

### Auditing graduate classes

Class size permitting, students may register for courses on an audit basis. Auditing a course means students enroll in courses, but do not receive academic credit upon completion of the courses. Students who register on an audit basis are subject to attendance regulations of that class and, unless otherwise specified at the discretion of the instructor, are subject to the same course requirements as other students in the class. Students who register on an audit basis may be administratively withdrawn by instructors for a violation of class requirements for audit students, before or after the normal withdrawal deadline as posted on the [VCU Academic Calendar](#). Audit students are charged the regular rate of tuition and fees. An audit course is counted as part of students’ semester load in terms of classification as full-time students. Courses taken for audit, however, do not satisfy minimum enrollment requirements for students receiving graduate teaching or research assistantships, graduate fellowships, or university graduate scholarships. **Students may register for audit only during add/drop and late registration periods as a new registration and not as a change from credit to audit. Changes in registration status from audit to credit or from credit to audit will not be approved after the last day of add/drop registration.** The grade of AU is not included in the calculation of the GPA.

Revised 5/11/2010

University Graduate Council

### Leave of absence and withdrawal policies

**Leave of absence.** Graduate students may request leaves of absence from their programs through written appeals to their advisers. The graduate advisers/program directors will forward the requests to the appropriate school dean/dean designee who, following departmental governance procedures, will forward their recommendations and any supporting documentation to the dean of the Graduate School who will respond for the university. Students who are out of compliance with continuous enrollment policies ([see policy on Continuous enrollment for degree-seeking graduate students](#)) and who have not been granted approved leaves of absence by the graduate dean must reapply for admission to VCU and to their graduate degree programs.

**Graduate students with approved leaves of absence are exempted from continuous enrollment requirements for the LOA period.** Students should note that while leaves of absence temporarily suspend continuous enrollment requirements, they do not extend time limits for completion of degrees. (See [policy on Exceptions](#).)

Leaves of absence must be requested and approved before or within a current semester. **Requests for retroactive leaves of absence will not be approved.**

The posting of the leave of absence on the student’s academic record prevents registration for the approved leave of absence period. If the student wishes to return to academic study before the end of the approved leave of absence period, the Graduate School must be notified via the Special Action Form process so that the leave of absence is cancelled and the registration hold removed.

**Withdrawal from classes.** To withdraw officially from VCU courses, students must submit complete Official Withdrawal Forms to the Office of Records and Registration by the official withdrawal date as published in the official [VCU Calendar](#). The Official Withdrawal Form is obtained from the Office of Records and Registration (Monroe Park Campus: Harris Hall, First Floor; MCV Campus: Sanger Hall, Room 1-055). Students may also withdraw on line via VCU E-services. Failure to complete this process may result in the assignment of failing grades in all or some of the courses.

A grade of withdrawn (W) will be recorded on the permanent student academic record for all courses from which students officially withdraw.

**Health-related withdrawals.** While graduate students are expected to work toward completion of their degrees without interruption, health-related problems may necessitate an interruption of their studies.

For a protracted illness, a student may choose to ask for an approved leave of absence (see leave of absence policy above).

Some students may experience medical conditions that make them unable to complete their studies once a semester is in progress. If this occurs before the last day of add/drop registration, students should drop their classes via eServices. If an illness occurs after add/drop but before the last day to withdraw, per the [academic calendar](#), students should withdraw from their classes through the normal withdrawal process via eServices.

After the last day to withdraw but prior to the last day of classes per the academic calendar — **and before a final class grade has been assigned and/or posted to the academic history** — students with medical problems should petition their academic deans (or dean designees) for a medical withdrawal from all courses. Students must present documentation of their medical condition that establishes a significant degree of impairment in continuing their studies. This documentation must include a letter, written on letterhead, from a licensed health care provider that establishes the dates of treatment, the diagnosis and the degree of impairment that the condition has created. The letter should also provide the date when the student became unable to attend classes, when the impairment was considered significant enough to affect academic performance and the anticipated date of return to school. The medical withdrawal should be submitted to the Graduate School via the Special Action Form process.

The student's transcript will reflect a grade of W for all courses approved for a medical withdrawal taken that semester. No special designation for medical withdrawals is made on the transcript, and tuition and fees are levied in the same manner as other withdrawals (see withdrawal from courses policy above). Medical withdrawals may impact future financial aid in relation to Satisfactory Academic Progress.

In the event that a student's health problem poses a danger to the student, to patients or to others with whom the student may come in contact, and the student is unable or refuses to initiate steps to withdraw as stated above, administrative withdrawal of the student may be made by the dean of the Graduate School upon consultation with the appropriate faculty and a qualified physician.

Because curricular and course content changes may occur and a student's progress toward a degree may be affected adversely because of an extended absence, specific time periods may be imposed by individual schools with respect to the length of time allowed for absence from school. If there is a delay in return beyond the allotted time period without written consent of the dean of the Graduate School, the student may petition for return with advanced standing.

Prior to returning to school, the student must submit a statement from a physician documenting that the condition that necessitated the withdrawal has been corrected to a point where the student can complete successfully all curriculum requirements with reasonable accommodation including classroom, laboratory, clinical and fieldwork experience.

Revised 5/14/2013  
University Graduate Council

## Immunization requirements

The commonwealth of Virginia and VCU require that all full-time students supply validated immunization records to University Student Health Services. This requirement must be completed prior to registering for second semester. Failure to meet these requirements will result in a hold placed on the student's second semester registration. The hold can be removed only upon receipt of the students documented records.

The immunization record must be completed fully and accurately. There are two ways a student may fulfill all requirements:

1. Students may have their health care provider transfer the information from their medical records and sign the form.

or

2. Students may complete the top demographic section of the Certificate of Immunization and attach a copy of official documents from undergraduate institutions, military records, high school or other records that fulfill all requirements to the Certificate of Immunization.

A copy of the Certificate of Immunization, which details the necessary immunizations, is available on the student health Web site at: [www.students.vcu.edu/health/docs/immunizations.pdf](http://www.students.vcu.edu/health/docs/immunizations.pdf) [PDF].

Students who cannot provide documented evidence of all required immunizations must see their health care provider, health department or Student Health Services to complete all requirements.

## Change of graduate degree program

Students wishing to change to different graduate degree programs should obtain new application forms from the [Graduate School Web site](#). Students will have to submit new applications to the new programs with all materials required of applicants to that program. The dean of the Graduate School will work with the administrators of the two programs to facilitate the admission process for eligible students.

## Transfer credit

A maximum of 30 percent of the didactic hours required for a graduate degree or any graduate certificate program may be transferred from another VCU program or outside institution and, if not applied previously toward another degree, may be applied toward a degree. Prerequisite course work that does not count toward the VCU degree may not be transferred.

Transfer grades for course work taken at VCU, either as a nondegree-seeking student or in a previous graduate matriculation for which a degree was never awarded, are included in the calculation of the VCU graduate grade-point average and all other graduate statistics. Transfer grades for course work taken at another institution are not recorded on the VCU transcript (only the names of courses, source institutions and credit hours) and are not included in the calculation of the VCU graduate grade-point average and other graduate statistics.

Recommendations regarding transfer credit are initiated at the program and academic school levels and reviewed and approved by the Graduate School. All matriculated students must obtain final written approval from the Graduate School for course work approved for transfer **before** registering for course work at another institution. Individual schools/programs may have more stringent requirements. Requests for transfer of course work must include an official copy of the transcript from the college or university where the course work was taken and a VCU Graduate School Transfer Equivalency form (see Graduate School website/forms).

**Graduate credit hours earned toward a VCU certificate may be applied one time to degree requirements for master's or Ph.D. programs.**

**Graduate credit hours earned toward a VCU certificate may be applied toward only one certificate.** The determination of the acceptability of specific courses to be used for both the certificate and the graduate degree will be the responsibility of that master's or Ph.D. program or school.

All transfer work must be at the A or B grade level from a regionally accredited college or university. "Credit" or "pass" grades can be accepted only if approved by petitioning the Graduate Advisory Committee or equivalent of the student's school or college. Students must be in good standing both at VCU and at the institutions from which the credits were earned. Some programs will not accept credits earned as a nondegree-seeking graduate student for transfer. VCU will not accept credits that do not apply to a graduate degree at the offering institution for transfer, nor will it accept credits from unaccredited institutions for transfer. These criteria apply to all domestic and international institutions.

Course work taken under the auspices of any study abroad program, including the study abroad program at VCU, is classified as course work taken at an international institution for purposes of determining if the course work may count toward a VCU graduate degree. Registration for such course work does not guarantee that the course work will count toward a VCU graduate degree. All study abroad graduate course work is subject to the same review and approval process if the course work is to count toward a VCU graduate degree.

Revised 5/11/2010; 5/10/2011  
University Graduate Council

## Credit for military service, career or life experience

The Graduate School does not grant graduate-level credit for any type of military service or career or life experience.

The Graduate School may grant credit for formal military service school graduate-level courses that have received positive recommendation by the Commission on Accreditation of Service Experiences of the American Council on Education as stated in the ACE's "[Guide to the Evaluation of Educational Experiences in the Armed Services](#)." Recommendations regarding the transfer of military course work are initiated at the program and academic school levels and reviewed and approved by the Graduate School and must meet all other criteria for transfer credit as articulated in the transfer credit policy.

Revised 5/10/2011; 5/14/2013  
University Graduate Council

## Degree candidacy

A graduate student admitted to a program or track requiring a final research project, work of art, thesis or dissertation, must qualify for continuing master's or doctoral status according to the degree candidacy requirements of the student's graduate program. Admission to degree candidacy, if applicable, is a formal statement by the graduate student's faculty regarding the student's academic achievements and the student's readiness to proceed to the final research phase of the degree program.

Degree candidacy requirements vary from program to program and may include but are not limited to such milestones as successful completion of all or a portion of all required didactic course work, the passing of written and/or oral comprehensive examinations, the identification of the thesis/dissertation adviser and/or committee, and/or the successful defense of the thesis/dissertation prospectus.

Upon satisfactory completion of degree candidacy requirements, the graduate student must submit a Graduate School [notice of Admission to Master's or Doctoral Degree Candidacy](#) to his/her program director. The student's signature acknowledges that he/she has read and understands the policies regarding research involving human or animal subjects (Information on human and animal subjects can be found online at [www.orsp.vcu.edu/IRB-Home.htm](http://www.orsp.vcu.edu/IRB-Home.htm) and [www.orsp.vcu.edu/IACUC-Home.htm](http://www.orsp.vcu.edu/IACUC-Home.htm).) as well as [continuous enrollment requirements](#). Both the program director and the school's dean or dean's designee must sign the form to confirm the student's eligibility for admission to degree candidacy and forward it to the graduate dean for final approval and recording of admission to degree candidacy. The graduate dean will formally notify the student of admission to degree candidacy.

The degree candidacy form must be submitted **before** the student formally begins the final thesis/dissertation/research project **but no later** than the semester preceding the semester in which the student graduates. Failure to submit the degree candidacy form in a timely manner may delay graduation.

A graduate student approved for degree candidacy must register for at least one graduate credit hour at VCU each fall and spring semester until the degree is awarded. Students must be enrolled during their graduation semesters. Graduate students with approved leaves of absence are exempted from continuous enrollment requirements for the LOA period. **Students should note that while a leave of absence temporarily suspends the continuous enrollment requirement, it does not extend the time limit for completion of the degree.**

Revised 5/8/2012  
University Graduate Council

## Theses/dissertations

### Comprehensive examinations

Comprehensive examination requirements and administration of the thesis/dissertation process vary by program and academic school. Graduate students should refer to the guidelines established by their programs regarding specific program requirements. In addition, graduate students should refer to the Thesis and Dissertation Manual found on the [Graduate School website](#) for guidelines regarding the preparation and submission of theses and dissertations and for scheduling the final defense.

Master's degree candidates may have a thesis requirement — or its equivalent in the form of a research project, performance, exhibit or other production. In some programs, master's degree candidates may elect a non-thesis option. In such cases, the program may allow a candidate to change from the thesis to the non-thesis option, or vice versa, once. Such action

requires written approval of the department head and the faculty adviser and/or the student's advisory committee.

All doctoral candidates are required to prepare dissertations and the associated additional submission requirements as articulated in the Thesis and Dissertation Manual.

At the time of defense, a thesis or dissertation must be approved by members of a student's advisory committee with no more than one negative vote. A committee member's approval is given by signing the [Electronic Thesis/Dissertation \(ETD\) Approval form](#). A disapproving committee member must also sign the approval form as a dissenting member and must provide a written dissenting opinion to be sent to the Graduate School.

Revised 5/8/2012  
University Graduate Council

## Graduate advisory committees

Graduate advisory committees shall be appointed for each master's degree candidate for whom there is a requirement to produce a thesis or its equivalent in the form of a research project, performance, exhibit or other production. The committee will coordinate and supervise the preparation of the thesis or its equivalent. The committee shall have a minimum of three faculty members, one of whom should be from a discipline other than the discipline of the candidate. The chair of the committee will be designated as the candidate's faculty adviser. Departments/program directors will appoint advisers for master's degree candidates for whom a thesis or its equivalent is not required. Every member of the committee must hold graduate faculty or affiliate graduate faculty appointment. The chair and at least one other committee member must hold VCU graduate faculty status. It is expected that all members of the committee will be present at any thesis proposal and thesis defense. In the event that a single member of the committee is unable to attend, the committee may meet with the written approval of the graduate program director. If more than one member of the committee is unable to attend, the defense must be rescheduled. The chair must be present for the defense of a thesis proposal and the final thesis.

A graduate dissertation committee shall be appointed for each doctoral candidate. The committee will have a minimum of four faculty members, including a chair, who will serve as the candidate's faculty adviser. At least two members must be from within the candidate's discipline and at least one from another discipline. Every member of the committee must hold graduate faculty or affiliate graduate faculty appointment. The chair and at least two other committee members must hold VCU graduate faculty status. It is expected that all members of the committee will be present at the dissertation proposal and dissertation defense. In the event that a single member of the committee is unable to attend, the committee may meet with the written approval of the graduate program director. If more than one member of the committee is unable to attend, the defense must be rescheduled. The chair must be present for the defense of a dissertation proposal and the dissertation defense.

Upon satisfactory completion of all program requirements for admission to candidacy, doctoral matriculants will take written and/or oral comprehensive examinations administered by their major departments or schools. Successful completion of the examinations shall entitle students to advance to doctoral degree candidacy status. Candidates are then allowed to proceed with the research and preparation of their dissertations and any other doctoral degree requirements designated by their departments.

In the event of failure, students may be permitted to retake comprehensive examinations one time only. The re-examination requires the approval of the appropriate graduate program committee.

Revised 5/14/2013  
University Graduate Council

## Graduate faculty and affiliate graduate faculty roles and responsibilities

[VCU Graduate School Bylaws](#) articulate eligibility criteria for membership on the graduate faculty and provisions for affiliate graduate faculty appointments. All members of a graduate advisory or thesis or dissertation committee must be a member of the graduate faculty or hold an appointment as an affiliate graduate faculty member. All graduate faculty may chair thesis committees; however, only graduate faculty holding the Ph.D. or equivalent

degree may chair a dissertation committee. An affiliate graduate faculty member may advise and serve, but not chair, thesis or dissertation committees.

Appointment to affiliate graduate faculty status must clearly articulate the roles and responsibilities and the duration of the appointment. Appointment for purposes of serving on a graduate advisory or thesis or dissertation committee authorizes the affiliate graduate faculty member to fully participate in all activities defined for the group by the individual program guidelines, except for chairing the committee. If the administration and evaluation of comprehensive examinations is explicitly articulated as a responsibility of the graduate advisory or thesis or dissertation committee, then any affiliate graduate faculty appointed to the committee may administer and evaluate the comprehensive examination. If comprehensive examinations are administered and evaluated by a different committee, then an affiliate graduate faculty member may administer and evaluate the comprehensive examination only if such a responsibility is articulated clearly in the recommendation for affiliate graduate faculty membership by the academic school dean and approved by the graduate dean.

Revised 5/10/2011  
University Graduate Council

### Grades of satisfactory (S), unsatisfactory (U) or fail (F) in thesis/dissertation courses

All thesis and dissertation credits are to be graded each semester as satisfactory (S), unsatisfactory (U) or fail (F). There is no limit to the number of these credits a student may take while pursuing completion of the degree. Receipt of the grade of U is formal notification to the student of unsatisfactory progress. A student who receives a final grade of F in the thesis or dissertation will be terminated from the graduate program. A grade of S or U is not included in the calculation of the GPA. A grade of (I) incomplete may not be assigned for a course approved for satisfactory, unsatisfactory or fail (S/U/F) grading. **A grade of U is a permanent grade. Future satisfactory performance is reflected in the assignment of the grade of S in subsequent semesters. A student who receives three Us in a thesis/dissertation course will be terminated from the program.**

Revised 5/8/2012  
University Graduate Council

### Electronic theses/dissertations – mandatory

Electronic Theses and Dissertations (ETDs) are digital representations of the traditional work completed by graduate students in partial fulfillment of requirements for graduate degrees. An ETD can be a simple textual document converted to a standard electronic format such as Adobe Portable Document Format (PDF) or a complex combination of images and formats.

The VCU Graduate School Thesis and Dissertation website, as developed by the University Graduate Council and VCU Libraries, serves as a guide for the preparation of electronic graduate theses and dissertations for graduate students in all programs within the university. Information and a video tutorial are available online at [www.graduate.vcu.edu/community/thesis.html](http://www.graduate.vcu.edu/community/thesis.html).

### Thesis/dissertation submission deadlines

All requirements for theses/dissertations must be completed by the deadline published in the [Academic Calendar](#) of the semester in which the candidate plans to graduate, including:

- Final defense of thesis/dissertation
- ETD Approval Form with all approval signatures, including the graduate dean's and, if applicable, documentation of IRB or IACUC approval number
- Submission of the ETD to the [VCU Digital Archives](#) according to instructions on the [VCU Graduate School Thesis and Dissertation webpage](#) (Candidate should confirm with adviser/program director all internal schedules for submission of copy, defense and approval.)
- Survey of Earned Doctorates [All doctoral students must complete the Survey of Earned Doctorates (SED). In order to complete the survey, go to: <https://sed.norc.org/survey>. Refer to the Thesis and Dissertation Manual on the [VCU Graduate School Thesis and Dissertation webpage](#) for further information.]

- Publication with ProQuest (All doctoral dissertations must be published with ProQuest. Dissertations are submitted directly by the student through the [UMI/ProQuest's ETD Administrator site](#) for VCU. Submitting to ProQuest does not satisfy the university's requirement of submission. You must submit to the [VCU Digital Archives](#) separately in order to fulfill this requirement for graduation.)

Revised 5/11/2010; 5/10/2011  
University Graduate Council

### Satisfactory academic progress

Students must continue to make satisfactory progress toward their degrees. Unsatisfactory grades and unprofessional conduct are areas that may warrant review for possible termination from their programs.

Specifically, students may not present courses receiving less than a C for fulfilling degree requirements.

At the end of each semester, graduate faculty advisers and program directors will review the academic progress of all graduate students in their programs. The academic standing of any graduate students who receive multiple grades of C or grades of D or F will be reviewed for possible termination from their programs. Although the grade of U is not included in the calculation of the graduate GPA, graduate students who receive one or more grades of U will be considered for possible termination.

Students who have completed all minimum degree requirements but who are out of compliance with minimum graduation requirements (i.e., graduate grade-point average, 20 percent C or below, 50 percent 500-/600-level course work, etc.), may be allowed, with the permission of their graduate faculty advisers, program directors, academic deans/dean designees and the Graduate School to take additional course work to meet minimum University Graduate Council graduation requirements. Requests for such actions must be processed via the special action form according to the instructions articulated in the [Exceptions policy](#) in the Graduate Bulletin. Students will have a maximum of one calendar year to complete such additional requirements. At the end of that time, if students are still out of compliance, they must be terminated from the program for lack of academic progress.

Revised 5/10/2011  
University Graduate Council

### Time limit for completion of requirements and eligibility of courses

The time limit for a graduate degree will not extend beyond a period of six years for graduate certificates and master's degrees and eight years for doctoral degrees.

Course work completed before matriculation and applied toward the degree, including course work at VCU and that transferred from other institutions, will be evaluated by the program/department to determine whether it can be used to fulfill degree requirements. For course work that was taken more than eight years prior to the completion of the VCU degree, the program/department will evaluate the course work for acceptability and report those courses deemed acceptable to the dean of the Graduate School. (See [policy on Exceptions](#).)

Revised 5/11/2010; 5/10/2011  
University Graduate Council

### Graduation requirements

All degrees are conferred by the VCU Board of Visitors upon recommendation of the graduate faculty.

Candidates for degrees are eligible for graduation upon completion of all academic requirements in effect at the time of official matriculation into the program, provided the students are continuously enrolled and provided the requirements are met within the time limit specified by the school or program and the University Graduate Council. Students failing to satisfy the time requirement and who are readmitted to their programs shall satisfy requirements in effect at the time of readmission.

Degrees are granted at the close of the semester or summer session in which students complete their work. Degrees will not be granted unless all financial obligations have been resolved with VCU's Office of Student Accounting. Students must be enrolled at the time of application (i.e., the semester in which students graduate).

**No degrees will be conferred unless students make formal application to graduate.**

Degrees will be awarded and diplomas issued in a current semester only. Students who do not submit/complete their applications to graduate in the semester in which they actually complete their programs will be awarded their degrees in the semester in which they apply to graduate. In such cases, a text notation will be added to the transcript to indicate the date that course work for the degree was completed. Program directors and academic school deans must submit a special action request to the Graduate School to this effect that also includes a request for a waiver of the requirement that the students must be enrolled at the time of application/reapplication. A request for a waiver of the enrollment requirement must document that the student has completed all degree requirements and is not using any university resources (i.e., libraries, computer labs, faculty advising, etc.)

Graduation applications must be submitted by students to their advisers or deans no later than the dates indicated in the university's academic calendars on the Web at [www.vcu.edu/academiccalendars](http://www.vcu.edu/academiccalendars). Students should schedule conferences with their advisers well ahead of the deadline and should note that the application requires the approval of the adviser, the department chair or the school director of graduate studies, and the school dean. **Credit is applicable toward only one degree unless students are admitted to a course of study that allows a defined number of shared courses.**

**Graduate credit hours earned toward a VCU certificate may be applied one time to degree requirements for master's or Ph.D. programs.**

**Graduate credit hours earned toward a VCU certificate may be applied toward only one certificate.** The determination of the acceptability of specific courses to be used for both the certificate and the graduate degree will be the responsibility of that masters or Ph.D. program or school.

Revised 5/11/2010

University Graduate Council

**Graduation checklist**

The total number of semester credits required for graduation depends upon the degree program. Specific information may be found under degree program descriptions. In addition to the specific requirements listed by the department, the following graduation checklist for graduate students, advisers and program directors summarizes all general requirements for graduation as determined by the University Graduate Council.

- All provisional or probationary conditions of admission have been met.
- Candidates enrolled at time of application/reapplication to graduate (i.e., semester in which candidates plan to graduate).
- Overall graduate GPA is greater than or equal to 3.0.
- Graduate GPA based on all graduate course work attempted after acceptance into program.
- For repeated courses, both original grade and repeat grades included in calculation of graduate GPA.
- No more than six credit hours or 20 percent of total credit hours attempted (whichever greater) at C or below level (C, D, F). Individual programs reserve the right to establish more stringent requirements regarding the acceptance of C grades. Specifically, students may not present courses receiving grades less than C for fulfilling degree requirements.
- No course work approved for transfer below grade of B; no course work approved for transfer included in calculation of GPA.
- Graduate course work only (500 level or higher) may be applied to a graduate degree with at least one half of required course work designated exclusively for graduate students (600 or higher).
- All Incompletes (I) converted to letter grade by last day of class of semester in which candidate plans to graduate.
- All grades of Continued (CO), Progress (PR) and No Grade (NG) converted to letter grades by last day of class of semester in which candidate plans to graduate.
- All course work taken within prescribed time limits (master's, six years; Ph.D., eight years with any extensions approved by Graduate School).

- All requirements for theses/dissertations must be completed by the deadline published in the [Academic Calendar](#) of the semester in which the candidate plans to graduate, including:
  - Final defense of thesis/dissertation
  - ETD Approval Form with all approval signatures, including the graduate dean's and, if applicable, documentation of IRB or IACUC approval number
  - Submission of the ETD to the [VCU Digital Archives](#) according to instructions on the [VCU Graduate School Thesis and Dissertation webpage](#) (Candidate should confirm with adviser/program director all internal schedules for submission of copy, defense and approval.)
  - Survey of Earned Doctorates [All doctoral students must complete the Survey of Earned Doctorates (SED). In order to complete the survey, go to: <https://sed.norc.org/survey>. Refer to the Thesis and Dissertation Manual on the [VCU Graduate School Thesis and Dissertation webpage](#) for further information.]
  - Publication with ProQuest (All doctoral dissertations must be published with ProQuest. Dissertations are submitted directly by the student through the [UMI/ProQuest's ETD Administrator site](#) for VCU. Submitting to ProQuest does not satisfy the university's requirement of submission. You must submit to the [VCU Digital Archives](#) separately in order to fulfill this requirement for graduation.)
- Students must settle all financial obligations with VCU's Office of Student Accounting.

Revised 5/11/2010; 5/10/2011

University Graduate Council

**Application to graduate**

At the beginning of each semester, all matriculated graduate students will receive an e-mail reminder from the Office of Records and Registration/Graduation Office to initiate the application-to-graduate process for the current semester.

The e-mail notification will be sent to the official VCU student e-mail address and will include submission deadlines and guidelines. (All graduate students in the School of Medicine are asked to complete a preliminary review before initiating the graduation process and are referred to the School of Medicine guidelines or to their advisers/graduate program directors regarding application-to-graduate procedures.)

Students planning to graduate in the current semester should proceed as follows:

- Complete the Graduation Survey on e-Services.
- Visit the [Graduation Forms website](#) to complete the Graduate School Application to Graduate according to the instructions provided for the completion and submission of documentation to advisers for review and approval. (These forms are provided in PDF format so that students can complete the forms online and print them. Adobe Acrobat Reader is required.) A separate set of graduation forms must be completed and submitted for each program from which students intend to graduate.

The Graduate School Application to Graduate consists of:

- Instructions for students and advisers regarding submission of documentation and the approval process, including a checklist summarizing academic policies and requirements for graduation as determined by the University Graduate Council and articulated in the Graduate Studies at VCU section of the Graduate Bulletin.
- An approval sheet, requiring both preliminary and final reviews/approvals (and indicating the process by which advisers can notify Records and Registration/Graduation Office if students do not complete their programs of study by the end of the current semester).
- Directions for completing Commencement Program/Diploma Information. (This information must be submitted no later than the deadlines provided in the e-mail notification to students in order to ensure inclusion in the appropriate Commencement Programs.)

- An optional Graduation Worksheet. (Students should check with their advisers/graduate program directors to see if they are required to complete the optional graduation worksheet.)

Graduate students, program directors and academic school deans/designees are required to conduct a final review of all academic histories as part of the application-to-graduate check-out process as articulated in this Bulletin (catalog) and on the Graduate School website. A student's signature on the application to graduate is acknowledgement that the student has reviewed the academic history and that it is correct. Final approval signatures by graduate program directors and academic school deans/designees on the final application to graduate confirm that the student's academic history is complete, correct and final and that no future requests for changes to the academic history will be considered once the student has been approved to graduate.

Detailed information about the application-to-graduate process for graduate students and guidelines for graduate program directors/advisers are available on the Graduate School website at [www.graduate.vcu.edu/forms](http://www.graduate.vcu.edu/forms).

Revised 5/11/2010  
University Graduate Council

## Reapplying for graduation

Candidates who do not graduate at the end of the semester for which they have applied must reregister and reapply. Students must be enrolled at the time of application/reapplication (i.e., the semester in which the student graduates).

## Commencement

Graduate students are encouraged to visit the [Graduate School website](#) for information about university Graduate School events and activities for May and December commencement ceremonies. Students also are encouraged to visit the [VCU Commencement website](#).

## Time limit for completion of requirements and eligibility of courses

The time limit for a graduate degree will not extend beyond a period of six years for graduate certificates and master's degrees and eight years for doctoral degrees.

Course work completed before matriculation and applied toward the degree, including course work at VCU and that transferred from other institutions, will be evaluated by the program/department to determine whether it can be used to fulfill degree requirements. For course work that was taken more than eight years prior to the completion of the VCU degree, the graduate program director and school dean/designee will evaluate the course work for acceptability and report those courses deemed acceptable to the dean of the Graduate School. (See [policy on Exceptions](#).)

Revised 5/11/2010; 5/10/2011  
University Graduate Council

## Grades

### Grade reports

Unofficial academic histories are available online through [eServices](#), or official transcripts may be obtained for a fee from the [Office of Records and Registration](#).

It is the responsibility of all graduate students to:

1. Check their records no later than the end of the add/drop registration period at the beginning of each semester to ensure that their registrations are correct and
2. Check their records at the end of each semester to ensure that their academic histories are current and correct.

Students who wish to appeal assigned grades must follow the Grade Review Procedure as articulated below in this Bulletin (catalog) and as published in VCU Rules and Procedures.

Requests for any other changes to an academic history must be submitted in writing by students to their graduate program directors no later than 14 calendar days after the beginning of the following semester (for the fall semester, 14 calendar days after the beginning of the spring

semester; for the spring or summer semester, 14 calendar days after the beginning of the fall semester).

Graduate students, program directors and academic school deans/designees are required to conduct a final review of all academic histories as part of the application-to-graduate check-out process as articulated in this Bulletin (catalog) and on the Graduate School website. A student's signature on the application to graduate is acknowledgement that the student has reviewed the academic history and that it is correct. Final approval signatures by graduate program directors and academic school deans/designees on the final application to graduate confirm that the student's academic history is complete, correct and final and that no future requests for changes to the academic history will be considered once the student has been approved to graduate.

Revised 5/11/2010  
University Graduate Council

## Transcripts

Official transcripts of students' academic records will be issued only by the Office of Records and Registration upon written request of the students.

## Repeated courses

Graduate students receiving grades below B shall repeat a course only upon the advice of their program directors. **Both the original grade and the repeat grade shall be included in the calculation of the graduate GPA.**

For undergraduate students repeating 500-level graduate courses, the [undergraduate historical repeat policy](#) applies only if the course is applied toward the undergraduate degree. A historical repeat may not be processed for 600-level courses. (See [policy on undergraduate students in graduate classes](#).)

Revised 5/14/2013  
University Graduate Council

## Grade review procedure

If a student thinks that a grade is inaccurate, the situation should be discussed with the faculty member. This will allow the faculty member to explain how the final grade was determined and, if an error is detected, to submit a change of grade.

If the student still thinks that the grade was assigned unfairly, a written appeal should be submitted to the department chair. Upon receipt of the written appeal, the department chair shall provide the student with a copy and explanation of the Grade Review Procedure (published in the VCU Insider, available at [www.students.vcu.edu](http://www.students.vcu.edu)), and shall ensure that the requirements of the Grade Review Procedure are followed.

If the department chair is unable to resolve the complaint, then the dean of the school in which the course was offered will form a grade review committee as described in the Grade Review Procedure policy and will submit its decision to the dean of the school. **The decision communicated by the dean of the school in which the program resides is the final decision** that will be distributed to the student, faculty member(s) and department chair.

In cases concerning grades awarded for the fall semester, the written appeal must be submitted to the department chair no later than 14 calendar days after the beginning of the following spring semester. In cases concerning grades awarded for the spring semester or summer sessions, the written appeal must be submitted no later than 14 calendar days after the beginning of the following fall semester.

## Grading system

Work quality is measured by the four-point grade system with the following equivalents:

Grade symbol and meaning	Grade-point value per semester credit
A	4.0
B	3.0
C	2.0
D	1.0

F	0.0
P/F (Pass/Fail)	0.0
PR (Progress)	0.0
S/U (Satisfactory/Unsatisfactory)	0.0
W (Withdrawal)	0.0

Revised 5/11/2010

University Graduate Council

**Specifically, students may not present courses receiving less than C for fulfilling degree requirements.**

Refer to the grading explanations below for the use of the grades of “satisfactory” and “unsatisfactory” in relation to thesis/dissertation classes.

The number of grade points earned is computed by multiplying the grade-point value for the letter grade by the number of semester credits for the course. As an example, a student receiving an A (i.e., four grade points) in a three-credit course receives 12 grade points.

The grades of accepted transfer courses are not included in the computation of the VCU GPA.

Graduate-level credit is not granted for any type of military service or career or life experience unless it involves course work taken as part of an approved graduate program at a regionally accredited college or university.

Graduate students are not designated as special honors graduates (i.e., cum laude, magna cum laude, summa cum laude) on transcripts or diplomas upon completion of their programs.

No degree credit for remedial work shall be awarded to graduate students. Graduate students advised to take any level course for remedial work should be notified in writing that the course credit shall not apply to the degrees they are pursuing. Other bodies may rule later, should students wish to apply the credit to some other degree.

**Grade of audit (AU)**

Class size permitting, students may register for courses on an audit basis. Auditing a course means students enroll in courses, but do not receive academic credit upon completion of the courses. Students who register on an audit basis are subject to attendance regulations of that class and, unless otherwise specified at the discretion of the instructor, are subject to the same course requirements as other students in the class. Students who register on an audit basis may be administratively withdrawn by instructors for a violation of class requirements for audit students, before or after the normal withdrawal deadline as posted on the [VCU Academic Calendar](#). Audit students are charged the regular rate of tuition and fees. An audit course is counted as part of students' semester load in terms of classification as full-time students. Courses taken for audit, however, do not satisfy minimum enrollment requirements for students receiving graduate teaching or research assistantships, graduate fellowships, or university graduate scholarships.

**Students may register for audit only during add/drop and late registration periods as a new registration and not as a change from credit to audit. Changes in registration status from audit to credit or from credit to audit will not be approved after the last day of add/drop registration.** The grade of AU is not included in the calculation of the GPA.

Revised 5/11/2010

University Graduate Council

**Grade of continued (CO)**

The grade of CO may be assigned as an interim grade for those courses that run over several grade reporting periods. The CO indicates that the course is not expected to be completed in a single semester and that students must reregister for the course. Upon completion of the course, a final grade will be assigned to the current semester, and the previous CO grade(s) will remain. This grade may be assigned only in courses approved for such grading. The grade of CO is not included in the calculation of the GPA.

**Grade of incomplete (I)**

If, because of circumstances beyond his or her control, a student is unable to meet all the requirements of a course by the end of a semester, the mark of incomplete (I) may be given. The awarding of a mark of I requires an understanding between instructor and student as to when and how the course will be completed. This understanding must be recorded on an Incomplete Grade Assignment Form that is submitted instead of a final course grade. The

maximum time limit for submission of all course work necessary for removal of an incomplete is the end of the last day of classes of the next semester following the semester in which the incomplete was incurred (i.e., an incomplete awarded in the fall semester must be converted by the last day of classes in the spring semester, and an incomplete awarded in the spring or summer session must be converted by the last day of classes in the fall semester). At that time, an unremoved grade of incomplete is changed automatically to a failing grade. Individual departments and schools may have more stringent time limits. An extension of the time limit is possible, but must be approved, prior to the expiration date stated above, by the instructor and the dean of the school through which the course is offered. Written approval indicating the new time limit must be filed with the dean of the Graduate School. The temporary grade of I is not included in the calculation of the GPA.

Revised 5/11/2010

University Graduate Council

**Grade of pass (P)**

This grade is awarded for certain courses to denote satisfactory completion of requirements. The grade of P is not included in the calculation of the GPA.

**Grade of progress (PR)**

The mark of PR may be assigned only in courses approved for such grading. Unlike the mark of I, PR will not automatically be changed to a failing grade at the end of the succeeding semester. The grade of PR is not included in the calculation of the GPA.

**Grades of satisfactory (S), unsatisfactory (U) or fail (F) in thesis and dissertation courses**

All thesis and dissertation credits are to be graded each semester as satisfactory (S), unsatisfactory (U) or fail (F). There is no limit to the number of these credits a student may take while pursuing completion of the degree. Receipt of the grade of U is formal notification to the student of unsatisfactory progress. A student who receives a final grade of F in the thesis or dissertation will be terminated from the graduate program. A grade of S or U is not included in the calculation of the GPA. A grade of incomplete (I) may not be assigned for a course approved for satisfactory, unsatisfactory or fail grading. A grade of U is a permanent grade. Future satisfactory performance is reflected in the assignment of the grade of S in subsequent semesters.

**Grade of withdrawal (W)**

The grade of W indicates that the student has officially withdrawn from a course or has been administratively withdrawn for nonattendance. **No student who has officially withdrawn from a course or who has been administratively withdrawn for nonattendance may attend subsequent meetings of the course.** Students may reregister for courses from which they have withdrawn through the normal registration process. A grade of W is not included in the calculation of the GPA. The number of hours recorded for courses from which a student withdraws is not included in the calculation of the “20%C or below” statistic. Withdrawals are, however, included in the Satisfactory Academic Progress evaluation conducted by the Financial Aid Office.

Revised 5/8/2012

University Graduate Council

**Note: Difference between drop and withdrawal**

A student may drop a class during the add/drop registration period only. When a class is dropped, the registration and associated tuition/fee charges are cancelled. Drop charges are removed to indicate that the student never attended the class or never attended the class beyond the add/drop registration period.

A student may withdraw from a class up to the withdrawal deadline as published in the University academic calendar at [www.vcu.edu/academiccalendars](http://www.vcu.edu/academiccalendars). Withdrawal from a course does not cancel the registration or the associated tuition/fee charges, and results in the assignment of the grade of W. Refunds, if applicable, are issued in accordance with procedures described in the refunds section of the “[Tuition, fees and expenses](#)” section of this bulletin.

In both situations, any financial aid already disbursed to the student's account based on the original course registration will be assessed and adjusted according to the University Refund Policy and may result in a balance due to the university.

Revised 5/11/2010  
University Graduate Council

## General course information

### Credit hour

A credit hour is defined as a reasonable approximation of not less than one hour of classroom or direct faculty instruction and a minimum of two hours out-of-class student work each week for approximately 15 weeks, or the equivalent amount of work over a different amount of time. Credit is based on at least an equivalent amount of work for other academic activities including laboratory work, internships, practice, studio work and other academic work leading to the award of credit hours and is established by individual programs. This definition represents the minimum standard. Student time commitment per credit hour may be higher in individual programs.

Approved 5/13/2013  
University Graduate Council

### Course numbering

All schools and programs within VCU use the following course numbering system. All course numbers consist of three digits (XXX). The first digit relates to the course level as follows:

**0XX noncredit courses** Courses offered for students to make up deficiencies in previous training or to improve certain basic skills.

**1XX and 2XX undergraduate, lower level** Courses with these numbers are offered primarily for undergraduate students and may not be used for graduate credit, although graduate students may be required to register for courses at this level to gain a necessary foundation for other course work.

**3XX and 4XX undergraduate, upper level** Courses offered for advanced undergraduates and usually constitute the major portion of specific program work leading to the baccalaureate degree. On occasion, graduate students will be advised by their graduate advisers to enroll in prerequisite 4XX courses. Graduate programs can require that 400-level courses be taken, but credit hours in these courses cannot count toward the graduate degree or in the graduate GPA (effective fall 2004).

**5XX introductory graduate courses** Graduate students enroll for credit in these courses through the normal graduate advising system. Departments may limit the number of 500-level courses applicable to a graduate degree program. Advanced undergraduates may enroll in these courses for credit with consent of the offering department. Credit is applicable toward only one degree unless a student is admitted to a course of study that allows a defined number of shared courses.

**5XX professional graduate courses** First year, first professional (medicine, dentistry, pharmacy and physical therapy) courses normally open to students enrolled in the M.D., D.D.S., Pharm.D. and D.P.T. programs. Certain courses of this group may be designated by the department and approved by the University Graduate Council for graduate credit.

**6XX, 7XX and 8XX graduate courses** Graduate students enroll for credit in these courses through the normal graduate advising system. Credit is applicable toward only one degree unless a student is admitted to a course of study that allows a defined number of shared courses.

**6XX and 7XX professional graduate courses** 6XX Second year, first professional (medicine, dentistry, pharmacy and physical therapy [second and third year]) courses normally open only to students enrolled in the M.D., D.D.S., Pharm.D. and D.P.T. programs. Certain courses of this group may be designated by the department and approved by the Graduate Council for graduate credit.

7XX Third and fourth year, first professional (medicine, dentistry and pharmacy) courses normally open only to students enrolled in the M.D., D.D.S. and Pharm.D. programs. Certain courses of this group may be designated by the department and approved by the Graduate Council for graduate credit.

### Course interpretation

A single number listing for a course, such as MGMT 648, indicates that it is a one-semester course and may be offered each semester or only one semester each year.

Courses listed with a double number, such as THEA 603, 604 and designated as semester courses, consist of two one-semester courses, either semester of which may be taken without the other.

Courses listed with a double number, such as APPM 575-576, are designated as continuous courses and consist of two one-semester courses, the first of which can be taken without the second, but the second of which cannot be taken without the successful completion of the first.

The university reserves the right to withdraw any course or program.

## Leave of absence and withdrawal policies

**Leave of absence.** Graduate students may request leaves of absence from their programs through written appeals to their advisers. The graduate advisers/program directors will forward the requests to the appropriate school dean/dean designee who, following departmental governance procedures, will forward their recommendations and any supporting documentation to the dean of the Graduate School who will respond for the university. Students who do not register for courses for more than one calendar year and who have not been granted approved leaves of absence by the graduate dean are out of compliance with continuous enrollment policy and must reapply for admission to VCU and to their graduate degree programs. **Graduate students with approved leaves of absence are exempted from continuous enrollment requirements for the LOA period. Students should note that while leaves of absence temporarily suspend continuous enrollment requirements, they do not extend time limits for completion of degrees. (See policy on Exceptions.)**

**Withdrawal from classes.** To withdraw officially from VCU courses, students must submit complete Official Withdrawal Forms to the Office of Records and Registration by the official withdrawal date as published in the official [VCU Calendar](#). The Official Withdrawal Form is obtained from the Office of Records and Registration (Monroe Park Campus: Founders Hall, Room 104; MCV Campus: Sanger Hall, Room 1-055). Students may also withdraw on line via VCU E-services. Failure to complete this process may result in the assignment of failing grades in all or some of the courses.

A grade of withdrawn ("W") will be recorded on the permanent student academic record for all courses from which students officially withdraw.

**Health-related withdrawals.** While graduate students are expected to work toward completion of their degrees without interruption, health-related problems may necessitate withdrawal from the university.

Some schools require a statement from a physician indicating the nature and severity of the condition, when a student should stop attending classes, and the estimated date of return to school.

In the event that a student's health problem poses a danger to the student, to patients or to others with whom the student may come in contact, and the student is unable or refuses to initiate steps to withdraw as stated above, administrative withdrawal of the student may be made by the dean of the Graduate School upon consultation with the appropriate faculty and a qualified physician.

Because curricular and course content changes may occur and a student's progress toward a degree may be affected adversely because of an extended absence, specific time periods may be imposed by individual schools with respect to the length of time allowed for absence from school. If there is a delay in return beyond the allotted time period without written consent of the dean of the Graduate School, the student may petition for return with advanced standing.

Some schools require that prior to return to school, the student must submit to the dean of the Graduate School a statement from a physician. This statement should document that the condition that necessitated the withdrawal has been corrected to a point where the student can complete successfully all curriculum requirements with reasonable accommodation including classroom, laboratory, clinical and fieldwork experience.

## Off-campus graduate instruction

VCU is dedicated to serving the needs of Virginians by providing off-campus graduate credit instruction when and where it is needed. Courses are offered in response to an expression of need from various locales and groups.

Off-campus instruction features the same course work available on campus, and most off-campus courses are fully degree-applicable within the admission standards of the Graduate School. **The official policies and procedures of the University Graduate Council, as published on this Graduate Bulletin website and on the Graduate School website, are fully applicable to all off-campus graduate programs and graduate students.**

Tuition for most off-campus classes is the same as other university classes; however, students in off-campus credit classes are not charged university or activity fees.

For additional information on off-campus credit instruction, contact Edward Howard, director of continuing studies, Division of Community Engagement, 920 W. Franklin St., Richmond, VA 23284-3062, telephone (804) 828-8819, or visit the Division of Community Engagement website at [www.community.vcu.edu](http://www.community.vcu.edu).

## Undergraduate students in graduate classes

VCU undergraduates may enroll in 500-level courses with approval of their advisers and consent of the programs offering the courses. Highly qualified undergraduates approaching the last year of study may petition to enroll in a maximum of two 600-level graduate courses during the senior year of undergraduate study. Permission to enroll as an undergraduate in 600-level graduate courses must be obtained from the undergraduate academic adviser and the Graduate School. The total load must not exceed 16 hours of combined credit. Credit for any course is applicable toward only one degree unless a student is admitted to a course of study that allows a defined number of shared courses. Undergraduate students seeking permission to enroll in 600-level courses must have a minimum undergraduate overall and major grade point average of 3.0.

For undergraduate students repeating 500-level graduate courses, the [undergraduate historical repeat policy](#) applies only if the course is applied toward the undergraduate degree. A historical repeat may not be processed for 600-level courses.

Revised 5/11/2010; 5/14/2013  
University Graduate Council

## Accelerated bachelor's-to-master's programs

VCU offers a number of accelerated bachelor's-to-master's degree programs in which highly-qualified undergraduate students can earn both degrees in a minimum of five years by taking approved graduate-level courses during the senior year of their undergraduate programs. Accelerated bachelor's-to-master's degree programs must be approved by both the University Undergraduate Curriculum Committee and the University Graduate Council. Program descriptions for all accelerated programs are included in the archived bulletin and are also accessible by using the program search function of the online bulletin website.

Undergraduates who are interested and qualified for admission to accelerated programs must apply for admission to graduate study and be accepted before they begin the equivalent of the senior year of undergraduate study. Once accepted, they may enroll in the shared graduate course work identified in the approved curriculum (or in the student's plan of study that must be approved at the time of admission). Graduate 600-level course work that has not been identified as part of the shared course work should not be taken until the shared graduate course work has been completed and the student's status has changed from undergraduate to graduate. No 600-level graduate course work may be taken before the senior year. No undergraduate course work may be counted toward the master's degree.

Students in accelerated bachelor's-to-master's programs who receive grades of C or below in the shared graduate course work identified in the approved curriculum (or the student's plan of study approved at the time of admission) must be reviewed for possible termination from the accelerated program as well as the graduate degree program, if applicable. If allowed to continue in the accelerated program, the grades received in these courses will be counted toward both the undergraduate and graduate degree programs and in the calculation of both the undergraduate and graduate grade-point averages. Substitutions for any of the shared graduate course work must be approved by the undergraduate and graduate advisers before the last day of add/drop registration of the semester in which the student wishes to take the substituted course(s).

## Graduate tuition and student fees

Students must pay all applicable tuition, housing and dining charges, and other fees when due, as described in this section. Students who fail to pay these charges on time may be assessed a late payment fee. The university reserves the right to revise or alter all tuition and fees, regulations pertaining to student fees, and collection procedures at any time. In addition to expenses billed by the university, students should make allowances for books, clothing, supplies, travel and other out-of-pocket costs when figuring their total yearly expenses at the university.

## Student financial responsibilities

Students who enroll are responsible for:

- Full payment of tuition and fees generated from their registration.
- Full payment of all charges for housing and dining services, and other applicable miscellaneous charges.
- Keeping a current mailing address on file with Enrollment Services. Refunds and tax forms are not issued to students with inactive mailing addresses.
- Establishing an official VCU e-mail address and reading their e-mail on a regular basis, since e-mail will be used to notify students when their invoices are available in the payment and billing site. Paper bills are not sent to enrolled students. Failure to acknowledge and review the electronic invoice does not relieve responsibility for timely payments. Other important notifications are also sent to the official VCU e-mail address.

Tuition and fees are categorized and described on the Student Accounting Web site at [www.enrollment.vcu.edu/accounting/tuition\\_fees.html](http://www.enrollment.vcu.edu/accounting/tuition_fees.html).

## Full-time and part-time graduate study

Graduate students registered for nine to 15 credit hours are considered full time and are charged a flat rate for tuition and fees. Graduate students registered for more than 15 credit hours during any semester will be charged an overload graduate tuition fee on a per-credit-hour basis above the full-time tuition rate. Graduate students registered for fewer than nine credit hours are charged a graduate per-credit-hour rate based on their program. Graduate students fully funded as graduate assistants or graduate fellows with tuition remission must register for at least nine credit hours per semester (three credit hours during the summer if funded on a 12-month stipend). Departmental requirements may vary; therefore, students should verify expected course loads with their graduate program directors.

Nondegree-seeking students who hold bachelor's degrees are classified as DHG (degree-holder graduate) if they enroll in one or more graduate courses. DHG students are charged the graduate rate regardless of whether they enroll in graduate- or undergraduate-level courses. If they enroll for nine or more credits, they are charged at the full-time graduate rate.

## Tuition and fee schedule

Tuition and fees are categorized and described on the Student Accounting website at [www.enrollment.vcu.edu/accounting/tuition\\_fees.html](http://www.enrollment.vcu.edu/accounting/tuition_fees.html). Questions regarding tuition and fees may be directed to the Student Accounting Department at (804) 828-2228, or by emailing [stuacctg@vcu.edu](mailto:stuacctg@vcu.edu). The university reserves the right to revise or alter all fees, regulations pertaining to student fees and fee collection procedures at any time.

## University fee

This fee is used by the university to support student facilities, campus development, intercollegiate athletics and other programs. Full-time students pay a flat-rate university fee each semester. Part-time students pay this fee on a per-credit basis.

## Student activity fee

This fee is used to support social, cultural and other student activities on the Monroe Park Campus. These activities include concerts, plays, student organizations and publications. Full-time students on the Monroe Park Campus pay a flat-rate student activity fee, while part-time students on the same campus pay this fee on a per-credit basis. Students on the MCV Campus are not charged this fee.

## Student Government Association fee

This fee is used to support social, cultural and other student activities on the MCV Campus. The fee is charged to all full-time and part-time MCV Campus students. Monroe Park Campus students are not charged this fee.

## Student health fee

All full-time students on both campuses must pay the student health fee. Part-time students may participate in the University Student Health Services on an elective basis by paying the student health fee. The University Student Health Services offers unlimited office visits for acute and chronic ailments, after-hours phone advice for an urgent medical problem and most laboratory tests associated with acute illnesses ordered by the USHS staff, among other services. The fee does not cover accidental injury, emergency room visits or hospitalization. More specific information as to what is covered and not covered by the fee is available on the [USHS website](#).

## Technology fee

The technology fee is charged to all undergraduate, graduate and professional students in all programs. Full-time students pay a flat rate. Part-time students pay a per-credit-hour rate. The fee is used to provide for students' technological needs and to support university-wide technological initiatives.

## Off-campus fees

The university fee, the student activity fee, the student government association fee (except School of Social Work) and the student health fee are not charged to students taking off-campus classes.

## Capital outlay fee

This fee is charged to all full-time and part-time non-resident, on-campus students. The fee is mandated by the General Assembly to reimburse the State for debt service costs attributable to non-resident students related to the financing of buildings and equipment.

## Online course fee

The online course fee is charged for undergraduate and graduate online courses. The fee covers operational and personnel support to develop and maintain online courses.

## Special fee charges

Because of specialized programs, various schools and departments may charge each student additional fees to cover special materials, equipment breakage and other costs. For specific information about special fees, refer to the Student Accounting Department Web site or to the specific school or department section in this bulletin.

## Student billing

Students must pay all applicable tuition, fees, room and board when due. Students are notified at their official VCU email address when their bills are available on the billing and payment site. No paper bills are sent to enrolled students. Tuition and fees for preregistered students, along with charges for housing and dining plans where applicable, are due by the official start of each semester. After the registration period all other students are sent a notification at their official VCU email address when their electronic bill has been issued and should pay by the payment due date indicated on the electronic invoice. Students who fail to pay these charges on time may be assessed a late payment fee. The university reserves the right to revise or alter all tuition and fees, regulations pertaining to student fees, and fee collection procedures at any time. In addition to expenses billed by the university, students should make allowances for books, clothing, supplies, travel and other out-of-pocket costs when figuring their total yearly expenses at the university.

The Installment Payment Plan assists students in meeting the cost of their higher education by offering a convenient payment option. The university-administered IPP is offered only during the fall and spring semesters. The plan distributes the cost of tuition, fees, housing and dining charges for a semester into four equal installments.

All students attending the university with current charges of \$100 or more are eligible to participate. All prior semester balances must be paid in full to be eligible.

Students who receive financial aid are also eligible for participation in the IPP. These students may deduct their aid to determine the net total due. If it is \$100 or more, the remaining amount may be paid in installments.

In some cases, a student may receive a financial aid refund, and then subsequent charges for the semester are added to the student's account. If the student has received a refund, he or she is ineligible to participate in the IPP unless the refund has been repaid to the university in full. The student must then pay the first installment and follow the instructions to enroll in the IPP.

There is a \$25 nonrefundable application fee payable with the first installment of each semester. Interest is not assessed on the outstanding balance; however, installments not paid by the payment due date are subject to a late payment penalty. Information about how to participate in the IPP is available online at [www.enrollment.vcu.edu/accounting/payment\\_plan.html](http://www.enrollment.vcu.edu/accounting/payment_plan.html).

## Drop vs. withdraw

Drop charges are removed to indicate that the student never attended the class. The student is not eligible to receive financial aid, and any financial aid already credited to the student's account based on the original course registration will be removed from the student's account, which may create a balance due to the university.

Withdraw results in the academic grade of W. Charges are assessed and adjusted according to the University Refund Policy. Students may owe a balance to the university.

## Refund of tuition and fees

The official university tuition and fee policy, applicable for the fall and spring semesters only (excluding short/nonstandard courses), is outlined below. Refunds are calculated on a course-by-course (per-credit-hour) basis, disregarding the full-time cap amounts. Students who are enrolled full-time and withdraw from courses may not receive a refund.

- Students dropping/withdrawing from courses through the first week of class will be entitled to a 100 percent refund of tuition and fees.
- Students withdrawing from courses through the second week of class may be entitled to an 80 percent refund of tuition and the university fee.
- Students withdrawing from courses through the third week of class may be entitled to a 60 percent refund of tuition and the university fee.
- Students withdrawing from courses through the fourth week of class may be entitled to a 40 percent refund of tuition and the university fee.
- Students withdrawing from courses after the fourth week of class are not entitled to receive a refund of tuition and fees.

The refund policy and deadlines of the English Language Program (ELP) are different from the university's refund policy for academic courses. Details of the policy may be obtained from the English Language Program Office.

A full refund for Holiday Intersession will be granted if the course is dropped before midnight on the day of the first class meeting. Partial refunds are not granted.

A full refund for a short/nonstandard course's tuition and applicable fees will be granted if the course is dropped no later than the day following the first day of a given class. Partial refunds are not granted.

A full refund for summer tuition and applicable fees will be granted if the course is dropped no later than the day following the first day of a given class. (This policy also is applicable if the class does not meet on two consecutive days.) Students reducing their academic course loads to fewer than full time (12 credits for undergraduates and nine credits for graduates) before the end of the last day to drop a course will be entitled to a refund of tuition and applicable fees reflecting the reduced course load. Partial refunds are not granted for the summer session.

Students who are financial aid recipients and withdraw from all courses prior to completing 60 percent of the semester are subject to the Federal Return of Title IV Funds Policy. For more details see [Federal Financial Aid Refund Policy](#).

Refunds will be computed based on the actual withdrawal date certified by the Office of Records and Registration. Refunds will not be made to students who do not attend classes and have not completed the required withdrawal procedure.

Refund processing may take approximately two to three weeks. Exceptions to this refund policy are made only in rare instances. Written application for an exception must be filed in the Student Accounting Department to the Refund Appeals Committee within three years.

Refer to the Residential Housing contract and Dining Services' "Terms and Conditions" for housing and dining services refunds.

Requests for refunds that are not generated from the overpayment of financial aid should be made in writing to: VCU Student Accounting Department, P.O. Box 843036, Richmond, VA 23284-3036. Refund request forms are available at the Student Services Centers, 1015 Floyd Ave. or 1000 E. Marshall St., Room 323, and on the Web at [www.vcu.edu/enroll/forms](http://www.vcu.edu/enroll/forms).

In accordance with credit card regulations, the university will refund any credit balance that may result on a student's account as the outcome of a credit card payment back to the credit card account. The remaining credit balance, if any, will be refunded to the student.

Students are responsible for paying any increase in charges that may occur after the generation of any refund.

## Outstanding charges

Students who fail to meet payments when due will be assessed late payment penalties and will be denied registration for future classes until they have paid all accrued amounts owed. Students with balances owed to the university will not be issued degrees, official transcripts of grades or graduate reports until all charges are paid in full.

Any communication disputing an amount owed, including an instrument tendered as full satisfaction of a debt, must be submitted to the Director of Student Accounting, Student Accounting Department, Virginia Commonwealth University, P.O. Box 843036, Richmond, VA 23284-3036.

Pursuant to Section 2.2-4805 et seq., of the Code of Virginia, and in accordance with rules and regulations promulgated by the State Comptroller and Attorney General of the commonwealth of Virginia, VCU will charge interest, costs and fees on all accounts past due.

VCU is participating in the Virginia Set-off Debt Collection Act of 1981. Under the provisions of this act, a Virginia individual income tax refund will be subject to the university's claim for unpaid balances of tuition and fees.

A student who pays a past due balance with a dishonored payment item may be subject to having his or her current and/or future registration cancelled. A charge of \$50 is levied for all dishonored payment items.

## Military services tuition relief, refund and reinstatement guidelines

These guidelines apply to students whose service in the uniformed services (military) has necessitated their sudden withdrawal or prolonged absence from their enrollment at Virginia Commonwealth University and provides for the required re-enrollment of such students. Students are offered the following enrollment secession options:

1. Drop all courses before the end of the add/drop period and receive a full reduction of tuition and fee charges. Students residing in university housing and participating in a dining plan will be released from their housing and dining service contracts and will receive a prorated refund of these charges. Students will be asked to sign the drop request form with the director of military student services indicating that they are not receiving a financial aid refund. If the reduction of charges results in an overpayment on the account after any financial aid or third party awards have been reduced, the student will be issued a refund.

This option might best meet the needs of students who are called to active duty service during the first week of school and did not receive a financial aid refund check or direct deposit.

2. Receive a grade of Incomplete (IM – incomplete military) in one or all courses. Students residing in university housing will be released from their housing and dining service contracts and will receive a prorated refund of these charges. Students who chose to take a grade of IM will not have tuition and fees reduced for these courses because, upon receipt of an approved change of grade, credits will still be earned for the semester. Students will have 12 months from the date that they return from active service to complete the course work and earn a course grade. If a student received financial aid,

the amount recovered to the financial aid accounts will follow the Federal Financial Aid Refund Policy.

This option might best meet the needs of students who have essentially completed all course work in a class for the semester, but have yet to turn in a final project, an exam or other materials. It should be agreed upon between the instructor and the student that the remaining course work can reasonably be completed during the 12-month period.

3. Accept administrative withdrawal (WM – withdrawn military) from all courses as of the effective date of the orders to active duty. If this option is elected, a full refund of all tuition, fees and prorated room and dining charges will be made. If a student received financial aid, the amount recovered to the financial aid accounts will follow the Federal Financial Aid Refund Policy. If the reductions of charges results in an overpayment on the account after any financial aid or third party awards have been reduced, the student will be issued a refund.

This option might best meet the needs of students who are called to national service in the middle of a semester and have not completed 75 percent of their class requirements. This option also might best meet the needs of students who are leaving the university during the first week of class and received a financial aid refund check or direct deposit as a result of their financial aid.

4. Students who have completed 75 percent of the course requirements at the time of military activation and, notwithstanding certain exceptions noted below, who meet requirements as determined and agreed upon by the faculty instructor and the student may receive full course credit.

Students may receive full course credit if 75 percent of course requirements have been completed, under certain circumstances. The instructor is responsible for determining what percentage of course requirements have been completed based on factors to include but not limited to contact time, examinations, projects, work experience and clinical experience. The awarding of full credit cannot be made where the incomplete requirements are essential components of the course or program required by law or regulatory bodies, required for competency in the work place, or required to complete licensure examinations.

## Leaving the university

To initiate this process, the student must provide the Office of Military Student Services with a copy of his or her active duty orders in addition to a printed copy of his or her course registration for that semester and indicate Option 1, 2, 3 or 4 for each course. If Option 4 is selected, the student must provide documentation from the instructor. The director of military student services will forward all documentation to the university registrar to take the appropriate enrollment action, post the appropriate grades and send a copy of the orders and a copy of the student course request statement to the director of financial aid and the director of student accounting.

## Returning to the university

Students who withdrew from the university as a result of military deployment, mobilizations or duty changes are entitled to return without having to requalify for admission so long as the student (a) returns after a cumulative absence of no more than five years and (b) notifies the appropriate admissions office of the intent to return to the university not later than three years after the completion of military service obligation. The student may return to the university in the same program of study. With the consultation of an adviser, a comparable program of study may be chosen for discontinued programs.

## Tuition determination and student classification

Tuition is determined by the number of credit hours a student is taking, the student's residency classification, course of study and classification level.

## In-state residency

Eligibility for in-state tuition benefits is determined by Section 23-7.4 of the Code of Virginia. Refer to the [Determination of student classification for in-state tuition purposes](#) in the About VCU section of this bulletin for the complete code.

All applicants to VCU who want to be classified as Virginia residents must complete the Application for Virginia In-state Tuition Rates included in the graduate application. The residency determination of the applicant will be

conveyed at the time of admission. New and continuing students initially classified as non-Virginians for tuition purposes may request a review of the initial residency determination by completing an Application for Change of Domicile available from the Office of Records and Registration (online). The student must present clear and convincing evidence that he or she is not residing in the state primarily to attend school. The application deadline is 30 days prior to the start of the semester, and it is the responsibility of the student to establish or to file an appeal to change his/her residency classification prior to the start of classes for the semester under consideration. In accordance with the Code of Virginia, applications received after the start of the semester must be considered for the next semester. Submit completed applications with documentation to the university residency appeals officer. Processing may require four to six weeks; therefore it is strongly recommended that applications be submitted earlier than the stated deadline.

Our service to students is limited to assuring that they understand the procedures for appealing and that they have access to information about the relevant sections of the Code of Virginia. We provide information about the steps of our process and access to the applicable sections of the statute and the associated guidelines. We provide qualified staff to review the appeals and make decisions based on the information students provide. What we cannot do is provide advisement to students as to how to present their case for review; we cannot become the student's advocate since we must make the decision.

Students approved for a change to in-state status for tuition purposes are notified by mail with copies of their approval letters sent to the Office of Financial Aid and the Student Accounting Department. Students denied this status also are notified by mail. The denial letter informs the student of procedures for appeal of this decision, to include filing an appeal with the University Residency Appeals Committee. Students who submit fraudulent applications, falsify documentation or conceal information will be subject to reclassification, payment of all nonresident fees owed and university discipline.

Please note that a student with in-state status for tuition purposes who exceeds 125 percent of the credit hours needed to complete his program will be assessed a tuition surcharge.

## Financing graduate school

Current information on financial aid programs, policies and procedures are available on the VCU website at [www.vcu.edu/enroll/finaid](http://www.vcu.edu/enroll/finaid). To obtain printed materials or additional information, call or visit the appropriate financial aid office listed.

## Policies and procedures on graduate fellowships and assistantships

University graduate teaching and research assistantships and fellowships are awarded to continuing and newly admitted graduate students. These awards are provided with funds from the university, government, foundations, industrial sources, alumni and other private sources. Most fellowships and assistantships are granted on a competitive basis to eligible applicants and determined based on scholarly potential and excellence. Awards range from assistance for tuition and fees and research expenses to stipend support for full-time study and research in programs leading to graduate degrees.

The decision to award most stipends is determined by the department or school to which the applicant is seeking admission. Applicants for fellowship and assistantship support are notified by the department or school soon after the decision has been made. Fellowship and assistantship awards for new and continuing students are granted on a competitive basis, normally for a period of one academic year.

Inquiry about such awards should be made directly to the school or department in which the student intends to enroll. Students in the process of applying for admission should indicate their interest in such support. Some programs include a separate application for support with the application for admission. Refer to the individual chapters in this Bulletin, program websites and the [Graduate School website](#) for additional information on graduate student support and funding opportunities.

VCU fully subscribes to the following resolution of the [Council of Graduate Schools](#) in the U.S. and Canada regarding graduate scholars, fellows, trainees and assistants:

“Acceptance of an offer of financial support (such as graduate scholarship, fellowship, traineeship or assistantship) for the next academic year by a prospective or enrolled graduate student completes an agreement that both student and graduate school expect to honor. In that context, the conditions affecting such offers and their acceptance must be defined carefully and understood by all parties.”

The council provides the following comments on the CGS resolution:

“Students are under no obligation to respond to offers of financial support prior to April 15; earlier deadlines for acceptance of such offers violate the intent of this Resolution. In those instances in which the student accepts an offer before April 15 and subsequently desires to withdraw that acceptance, the student may submit in writing a resignation of the appointment at any time through April 15. However, an acceptance given or left in force after April 15 commits the student not to accept another offer without first obtaining a written release from the institution to which commitment has been made. Similarly, an offer by an institution after April 15 is conditional on presentation by the student of the written release from any previously accepted offer. It is further agreed by the institutions and organizations subscribing to this resolution that a copy of this resolution should accompany every scholarship, fellowship, traineeship and assistantship offer.”

### Graduate fellowships

Fellowships are not work-related and are designed to free students to spend all of their time on graduate studies and research. Fellowships are awarded on the basis of a student's demonstrated academic achievement, promise and need.

Fellows are required to maintain strong academic records and to remain in residence as full-time students during the fellowship period unless special approval is given by the dean of the Graduate School.

Requests for graduate fellowships from students seeking admission to the university should be included in the personal statement submitted with the application for admission and/or on supplemental forms required by individual departments or programs. To be considered for a fellowship, students must return application forms to the university in accordance with deadlines established by the individual departments or programs.

Fellowships for minority students, such as those provided by the National Science Foundation and Ford Foundation, are made by the sponsoring agencies to individual students. Applications are submitted directly by the students to the sponsor, usually in early fall.

A number of graduate tuition fellowships are funded by the commonwealth of Virginia. Funding for this program is allocated by the Graduate School to individual schools and program directors who, in turn, identify recipients. These fellowships are awarded in most graduate departments with preference given to Virginia residents. Tuition fellowships may range from a minimum of \$500 a semester to full tuition and fees for an entire academic year.

Fellowships are awarded for not longer than one calendar year and are not renewed automatically from year to year unless specifically stated in writing. Graduate program directors generally determine eligibility for renewal of fellowship awards in subsequent years.

### Graduate assistantships

Graduate assistants are typically more effective members of their chosen fields due to formal instruction and close interaction with faculty by assisting faculty in classrooms, research or administrative endeavors. All graduate assistant duties are designed to foster student training and graduate learning experiences.

Although assigned teaching, research or administrative support duties, graduate assistants are regarded by the university as students and not as employees. As such, graduate assistants do not accrue paid sick leave, annual leave or holiday leave.

A number of graduate assistantships are awarded each year on the basis of exceptional scholastic achievement, promise and competence for service in the departments of the university. Assistantships are generally also available in those departments which have government, foundation, business and industrial research grants and contracts.

The duties of graduate assistants require work from 10 to 20 hours per week, depending on the stipend awarded. Graduate assistants must satisfactorily perform the duties assigned by their departments; make satisfactory progress in their programs as defined by the degree requirements and the regulations of their departments; and may not hold any employment or appointment of a remunerative nature during the term of their assistantship.

Additional opportunities for involvement in outside activities may arise in the course of the training period, some of which may provide for additional/supplementary compensation. Involvement and/or participation in such opportunities may assist the department in maintaining the research infrastructure, provide additional experience in instructional activity, assist other units of the university in the delivery of programs consistent with the missions of the institution, involve participation in university organizations and so forth. Such activities may include those for which supplementary compensation is provided. While such activities have the potential for enriching the development of the individual graduate student, they also hold the potential for interfering with the graduate student's responsibilities to his/her department or program and her/his timely progress toward the completion of his/her educational degree requirements.

Therefore, graduate students **must** consult with their advisers prior to undertaking additional activities that may detract, or which have the potential for detracting, from their timely progress to degree completion. Advisers are encouraged to provide/encourage opportunities which broaden the training experience for students in preparation for the wide variety of career opportunities now available. The graduate program director should also be made aware of any such activities to ensure that completion of degree requirements is not compromised.

Some graduate assistants are appointed to support faculty when conducting research. Whenever possible, these assistants will be assigned to faculty who are working in a variety of areas to extend the student research experience and professional development. Graduate assistantships that involve research are generally assigned to those students pursuing degrees that require a thesis or a dissertation.

Other graduate assistants are assigned to departments, divisions, institutes, schools and other offices of the university to assist in the administration of these units. Such assignments are generally given to those pursuing professional degrees in the management sciences. These assistants will be exposed to a variety of administrative experiences and tasks as an integral part of their academic endeavors to prepare them for future professional roles as administrators.

Graduate assistantships are awarded for not longer than one calendar year and are not renewed automatically from year to year unless specifically stated in writing. Graduate program directors generally determine eligibility for renewal of graduate assistantship awards in subsequent academic years. Specific work assignments, scheduling and arrangements relating to vacation and personal leave are determined by the department, program or administrative unit to which the graduate student is assigned.

### Affordable Care Act as it relates to graduate assistantships

As noted above, graduate assistantships may require that a graduate student work for up to 20 hours per week. Graduate assistants should not be employed elsewhere, particularly within the university. Graduate students should not hold both an assistantship and an hourly or adjunct instructor position at the same time. In exceptional cases, schools/college may authorize graduate assistants to have additional jobs, but only if they do not exceed 29 hours total in a work week as mandated by the governor of Virginia. At this time, the commonwealth of Virginia has not permitted any agency to provide exceptions to the 29-hour limit. Accordingly, VCU cannot make any exceptions to the limit. The Affordable Care Act requires employers to offer health care coverage to any individual working more than 29 hours per week. At this time, VCU does not offer health benefits to graduate assistants. Therefore, no school/college at VCU can hire a graduate assistant for work that exceeds 29 hours per week (20 hours as a graduate assistant and 9 additional hours) as this action is against state and university policy and exposes VCU (and, ultimately, the school/college) to a large, as yet undetermined fine.

### Eligibility

Students who are candidates for appointment as graduate fellows and assistants are responsible for meeting the following eligibility requirements and for taking the initiative in ascertaining that all have been fulfilled. The requirements are described here to provide graduate student applicants with an understanding of the usual conditions for awarding fellowships and assistantships; however, individual schools, departments or programs may set more rigorous standards.

An entering student is awarded an assistantship or fellowship on the basis of academic potential. The student is expected to have been admitted fully and without academic provision, having achieved a grade point average of at least 3.0 on a 4.0 scale for the last 60 semester hours of academic credit earned. Another indicator of academic potential is a score on the Graduate Record Examination that places the applicant above the 50th percentile of all students who take this examination. In those disciplines requiring GRE subject tests, an upper 50th percentile achievement is required. An equally high achievement level is expected on the Graduate Management Admissions Test, the Law School Admissions Test or the Miller Analogies Test. Students applying for studio and performing arts must demonstrate potential through the quality and promise of their portfolio or audition.

Graduate fellows and assistants, once appointed, must maintain a minimum grade point average of 3.0. Graduate students may be retained as fellows and assistants only as long as they are registered as current, full-time students in good academic standing and are satisfactorily performing their teaching, research or administrative duties.

### Appointment and notification

Each year the dean of the Graduate School will notify individual department chairs, program directors and deans of the allocation of the university's graduate student support funds. This notification will include detailed award criteria and instructions for processing these funds. It is the responsibility of each awarding unit to provide funded graduate students with award letters which clearly define the amount, term of appointment and conditions of the award, including the job description of assistantships, renewal criteria, associated tuition and fee support, disbursement information and minimum enrollment requirements. Award letters should also be provided to students funded by other sources, such as department funds, grants and overhead accounts.

Notices of awards should include the Graduate School Policy Statement on Graduate Fellowships and Assistantships and the university's [student tax guide](#). Graduate students should be instructed to return signed copies of award letters to the awarding unit(s) in order to acknowledge that they have read these documents and to indicate acceptance of the award and its conditions. All newly appointed graduate assistants will be subject to a criminal records check as a condition of employment at VCU.

### Termination of appointments

Graduate assistantships and fellowships normally end when the period of appointment is concluded and the term of the assistantship or fellowship agreement is fulfilled. An appointment may also end when the grant or contract supporting the student expires, even if that occurs before the end of the student's current appointment. Otherwise, a graduate fellowship or assistantship may be terminated for the following reasons:

1. Resignation for cause by the student. Such resignation is to be in writing for approval by the department chair or program director, with a copy to the dean of the Graduate School.
2. Failure of the graduate fellow or assistant to perform assigned duties adequately or to behave professionally. Termination of assistantship or fellowship appointments requires written documentation to support the action. Documentation should clearly show that the infraction, any needed remedy and consequences were conveyed to the graduate student in writing in a timely manner. Such termination is to be recommended by the department chair or program director, with a copy to the dean of the Graduate School.
3. Failure of the graduate fellow or assistant to remain in good academic standing or to adhere to enrollment policies in accordance with this policy statement.

Any stipend funds remaining after termination of a graduate fellowship or assistantship revert to the funding department or program and may be reallocated to another graduate student. If students withdraw from classes or programs or reduce enrollment below full time, tuition and fees and stipends may be rescinded and students will be responsible for returning all funds to the university. Exceptions are made on a case-by-case basis by the dean of the Graduate School on the recommendation of the student's graduate program director.

A graduate student who believes that his or her graduate fellowship or assistantship has been terminated unjustly, and who has exhausted all departmental and school appeal procedures, may appeal the decision in writing to the dean of the Graduate School. A student who wishes to appeal a termination of a graduate fellowship or assistantship must notify the graduate dean in writing within 10 business days after the decision to terminate has been upheld by departmental and school appeal procedures.

#### Minimum course load

During the academic year, all graduate fellows or assistants whose tuition is being paid by the university must enroll for at least nine hours of graduate course work each semester. Undergraduate credits may be included in the minimum, provided they are relevant to the student's degree program and approved by an adviser and the dean of the Graduate School. Courses taken for audit are not counted toward the enrollment requirement. Students awarded summer stipends and tuition are expected to enroll for at least three credit hours during the summer session [change approved by the Graduate Council April 14, 2009, effective summer 2009]. All students are subject to the [continuous enrollment rules](#) published in the VCU Graduate Bulletin.

#### Stipends

Stipends for graduate assistantships vary by discipline, level of degree, hours of work required and availability of funds. All graduate assistantships, however, are subject to the university's minimum stipend levels. For nine- and 10-month assistantships, minimum stipends are \$4,000 for 10 hours of work per week and \$7,500 for 20 hours of work per week. For 12-month assistantships, minimum stipend levels are \$5,000 for 10 hours of work per week and \$9,000 for 20 hours of work per week. Not all appointments guarantee payment of tuition and fees, nor do payment schedules necessarily coincide with registration dates.

#### Tuition and fee support

Tuition and fee support associated with graduate fellowships and graduate assistantships varies from year to year and by program. Some awards consist of a basic stipend only. In such cases, students are responsible for payment of tuition and fees. Some awards may include the base stipend plus tuition and fees. Payment of special program or class fees is optional and varies from program to program. University awards that include tuition and fee support do not cover special fees. Students are responsible for settling their accounts according to the rules and procedures of the university's [Student Accounting Department](#).

Tuition will be charged according to a student's official residency status as determined by the university's [residency office](#). Questions related to residency status should be directed to that office.

#### Payments and tax status

The stipend portion of a graduate assistantship package is designated by the Internal Revenue Service as wages for work performed, is processed through the university's Payroll Office and is subject to withholding taxes. A graduate assistantship stipend is reported to the IRS as earned income. Tuition and fee support, if provided, is processed through the university's Office of Financial Aid and is applied directly to the student's account.

A graduate fellowship stipend is not work-related and is not reported to the IRS as earned income. A recipient of a graduate fellowship, however, may be required to report fellowship support as other income and to pay quarterly withholding taxes. Graduate fellowship stipends and tuition and fee support are processed through the university's [Office of Financial Aid](#) and are applied directly to the student's account. Once all outstanding tuition, fees and other charges are paid, excess funds are refunded to the student.

For additional information about the tax status of student awards, students are referred to the [student tax guide](#) published by the Office of the Vice Provost for Student Affairs and the Office of Payroll Accounting. In all cases, final decisions and interpretations as to the tax status of graduate assistantship or fellowship stipends or tuition and fee awards are made solely by the IRS and, ultimately, it is the student's responsibility to ensure accurate reporting of such support.

#### Need-based financial aid

All graduate fellowship and tuition and fee awards are reported to the university's Office of Financial Aid and are included in any calculation of financial aid need. Fellowship funding impacts need-based financial aid eligibility differently than funding received from graduate teaching and research assistantships. Students with questions about their need-based financial aid packaging should contact their financial aid advisers, graduate program directors or departmental fiscal administrators about the status of their funding before accepting offers.

Revised 7/17/2014  
University Graduate Council

### Financial aid

#### eServices – online records access

Students are encouraged to use eServices, a password-protected service for viewing VCU student records online, to check the status of their financial aid application and award package. Students also may register for classes, print bills and more. The eServices Web site is located at [www.eservices.vcu.edu/](http://www.eservices.vcu.edu/).

#### E-mail – official method of communication

Students are required to obtain an official VCU student e-mail account within one week of the beginning of their first semester of enrollment. Students are responsible for reading in a timely fashion university-related communications sent to their official VCU student e-mail account. The Office of Financial Aid uses e-mail to provide financial aid information, to request documentation to support financial aid application data and to provide financial aid application status and award information. Information on how to set up an account is available online (go to the "Academic" section of "Computer Accounts" at [www.vcu.edu/it/computer\\_accounts.html](http://www.vcu.edu/it/computer_accounts.html)).

#### Identification requirements

Students must provide picture identification, preferably a VCU Card, for in-person access to financial aid records. For the student's protection, information provided over the telephone and e-mail may be limited if the financial aid staff member is not confident of the student's identity.

#### Eligibility for financial aid

Most students are eligible for some type of financial aid regardless of family financial circumstances. Basically, to receive aid from any of the federal or state student aid programs, students must:

- Submit a Free Application for Federal Student Aid (FAFSA) or Renewal FAFSA designating VCU (school code 003735) to receive FAFSA results.
- Demonstrate financial need, except for some loan programs.
- Have a high school diploma or a General Education Development (GED) Certificate.
- Be enrolled or accepted for enrollment to an eligible degree or certificate program.
- Be enrolled at least half time (five or more graduate credit hours).
- Be a U.S. citizen or eligible noncitizen.
- Have a valid Social Security number (unless from the Republic of the Marshall Islands, the Federated States of Micronesia or the Republic of Palau).

- Meet Satisfactory Academic Progress (SAP) standards as defined by the VCU Office of Financial Aid (the full VCU SAP policy is available on the Web at [www.enrollment.vcu.edu/finaid/sap/grad\\_pro\\_rqmts.html](http://www.enrollment.vcu.edu/finaid/sap/grad_pro_rqmts.html)).
- Certify that federal and state financial aid will be used for educational purposes only.
- Not be in default on a federal student loan and not owe money on a federal student grant.
- Comply with the Selective Service registration, if required.
- Not be convicted under federal or state law of sale or possession of illegal drugs.

Students admitted as provisional graduate students are eligible for federal loans at the fifth-year undergraduate level.

Detailed information can be found in the federal Student Guide, available in print form from the VCU Office of Financial Aid or electronically ([http://studentaid.ed.gov/students/publications/student\\_guide/index.html](http://studentaid.ed.gov/students/publications/student_guide/index.html)) and on the VCU Office of Financial Aid website ([www.enrollment.vcu.edu/finaid](http://www.enrollment.vcu.edu/finaid)).

## Applying for financial aid

The financial aid application process for the academic year begins Jan. 1. All students are encouraged to complete and submit the FAFSA as soon as possible after Jan. 1, designating VCU (school code 003735) to receive the results. In order to reduce problems, errors and omissions on the FAFSA, students are encouraged to apply electronically using FAFSA on the Web (available online at [www.fafsa.ed.gov](http://www.fafsa.ed.gov)). Once the FAFSA is filed, the federal processor will send the student a Student Aid Report (SAR) or electronic SAR Acknowledgement, and also will electronically send the information to the VCU Office of Financial Aid, if VCU was listed as a school to receive the data. If additional information is needed to complete processing of the application, the VCU Office of Financial Aid will send the student a request for additional information. Responding promptly to such requests will ensure timely processing of the application. Once the review of FAFSA data has been completed, the Office of Financial Aid will send the student a Financial Aid Award Notification.

Please note that health profession students (dentistry, medicine, nursing or pharmacy) must provide both student and parental information on the FAFSA to apply and receive consideration for Title VII grants and loans from the Department of Health and Human Services.

## Priority filing dates

The VCU Office of Financial Aid recommends electronically filing the FAFSA by March 1\*. Students should complete the FAFSA using data from their completed tax returns. If necessary, they may use estimated tax return data in order to meet the VCU priority filing date but should be prepared to submit a copy of their completed tax returns and W2 forms to VCU as soon as possible. Students will receive their Financial Aid Award Notification after their FAFSA application data has been verified. If students have not applied for financial aid in a timely manner, they may want to participate in the VCU Installment Payment Plan, which budgets each semester's bill over four payments. Information about this plan can be found on the Student Accounting Department's Web site ([www.enrollment.vcu.edu/accounting/payments.html](http://www.enrollment.vcu.edu/accounting/payments.html)).

\* Students who do not have access to the Web may apply using the paper FAFSA, available through VCU, high schools, colleges and most public libraries. Those students completing a paper application should mail it to the federal processor by Feb. 1.

## Summer studies

Limited financial aid may be available during the summer semester. Students applying for the summer semester must file the FAFSA by March 1. Students also should complete a VCU summer aid application, available on the Financial Aid Web site under "Forms"

Students interested in financial aid for the summer semester should obtain a VCU Summer Studies [Schedule of Classes](#) (available in March) for more details.

## Study abroad

Financial assistance is available to eligible students enrolled in approved study abroad programs. All study abroad programs must be coordinated through the

Office of International Education at (804) 828-8471. Students should work with a financial aid counselor to coordinate aid for their study abroad program. Information about financial aid and study abroad is available online at [www.vcu.edu/oie/eao/fin\\_aid\\_scholarships](http://www.vcu.edu/oie/eao/fin_aid_scholarships).

All study abroad course work is subject to the criteria articulated in the [transfer credit policy](#).

## Quality assurance

To ensure that information provided on the FAFSA is accurate, a student's application may be selected for review at any time during an enrollment period, and the student will be requested to provide documentation that supports the information. By signing the FAFSA, the student (and the student's parents or spouse, if applicable) agreed to furnish such documentation. If the documentation is not provided when requested, financial aid awards will be canceled and any funds already disbursed may need to be repaid.

## University bill

The Student Accounting Department issues online bills for tuition, fees and other university charges. When financial aid awards (grants, scholarships and loans) are not enough to pay university charges, the remaining balance must be paid from personal funds, credit card or the VCU Installment Payment Plan. Federal work-study awards will not be deducted from university charges because those funds are paid directly to the student, based on hours worked. Any outstanding balance owed will prevent a student from registering for courses and receiving official transcripts. Students who fail to pay their balance on time may be assessed a late payment fee and have a financial hold placed on their account. If the balance remains outstanding after the semester ends, their account may be referred to the VCU Collection Unit at which time collection costs will be assessed.

## Financial aid appeals

Financial aid eligibility decisions are made using federal, state and institutional regulations and policies. Students may appeal their eligibility if special circumstances warrant a review. Reasons for an appeal might include one of the following documented unusual circumstances:

- Loss or reduction of employment earnings.
- Disability or death of parent or spouse.
- Separation or divorce.
- Loss or reduction of untaxed income.
- Losses due to a natural disaster.
- Unusually high educational program costs.
- Unusual medical expenses.
- Dependent and child care expenses.

Any financial aid staff member can advise a student about the procedures on how to file an appeal.

## Federal financial aid refund policy

Students who receive federal Title IV grant or loan assistance and withdraw from VCU before completing 60 percent of the semester (as measured in calendar days) must have their eligibility recalculated based on the federal Return of Title IV Funds formula. This federal formula specifies that a student's financial aid eligibility must be recalculated based on the aid the student has "earned" (based on the number of days that the student was enrolled or attending VCU prior to withdrawal). Any unearned aid (for the period of enrollment that the student did not complete from the date of withdrawal to the end of the semester) must be returned to the appropriate Title IV programs from which the student was awarded.

For VCU students who withdraw prior to completing 60 percent of the semester, they will have to return or repay all or a portion of the aid funds that had been disbursed to their VCU account. As a result, students who withdraw prior to completing 60 percent of the semester may be responsible for all or a portion of their tuition/fee bill that was previously paid by financial aid sources.

If a student does not officially withdraw from all classes but fails to earn a passing grade in at least one course, federal aid regulations require that the student be considered "unofficially withdrawn," unless it can be documented that the student completed the enrollment period. Unofficial withdrawals require a Title IV refund

calculation at the midpoint of the enrollment period. The reduction of federal aid will create a balance due to the university that must be repaid.

## Graduate students in undergraduate courses

Students who are classified as graduate students will be eligible for federal financial aid only if they are enrolled at least half time in courses that can be applied toward their graduate degree. The Office of Financial Aid will identify all graduate students who have applied for financial aid but have registered for less than half-time graduate course work in any given semester. If the undergraduate course work for which the student has registered is considered preparatory to the graduate degree, documentation must be provided by the student's adviser or program representative to verify which undergraduate courses are required. In these cases, the student will be eligible for federal financial aid, but it will be based on the fifth-year undergraduate loan limits. Students who have been admitted to a dual degree program can take any amount of required undergraduate coursework and will still be eligible for graduate loan limits.

## Satisfactory Academic Progress for financial aid purposes

To be eligible to receive financial aid at VCU, students must make Satisfactory Academic Progress. SAP is a combination of qualitative and quantitative components. SAP is measured by:

- **GPA.** Generally, graduate students are expected to maintain at least a 3.0 GPA as specified by their departments.
- **Completion rate.** The completion rate is measured by the number of credit hours earned divided by the number of credit hours attempted. All students must successfully complete at least 67 percent of all credit hours attempted (withdrawals, incompletes and repeated courses also are considered attempted credit hours).

The Office of Financial Aid will perform a periodic SAP review for students who receive or apply for financial aid. The reviews are typically performed at the end of the spring semester and must be completed at least once per academic year. Students will be alerted with warning letters, whenever possible, to provide them with notice that their financial aid may be in danger of being suspended. When students fail to meet SAP requirements, they will receive suspension letters indicating that they are ineligible to receive further financial aid. Students whose eligibility for financial aid has been suspended may submit an appeal if mitigating circumstances prevented the student from maintaining SAP.

For more detailed information about the VCU Satisfactory Academic Progress policy, visit the Office of Financial Aid website ([www.enrollment.vcu.edu/finaid/sap/grad\\_pro\\_rqmts.html](http://www.enrollment.vcu.edu/finaid/sap/grad_pro_rqmts.html)).

## Types of financial aid

There are three basic types of financial aid: loans, grants and work-study. Each type has different features and advantages.

### Loans

In terms of total dollars available, long-term federal loan programs provide the most dollars. Federal loans must be repaid after the grace period and/or deferment periods have expired. Students must generally remain enrolled at least half time (five credit hours for graduate students). Multiple repayment plans may be available for most federal loans. Selected loan programs include:

- Federal Direct Loan (unsubsidized)
- Health Professions Student Loan
- Loan for Disadvantaged Students
- Nursing Student Loan

To ensure that you understand the responsibility and the obligation you are assuming as a Federal Direct Loan borrower, the U.S. Department of Education requires you to participate in entrance counseling prior to receiving a Federal Direct Loan if you have not previously received a Direct Loan, Federal Family Education Loan or Supplemental Loans to Students Loan. The entrance counseling requirement must be satisfied prior to the first loan disbursement. To complete entrance counseling for the Federal Direct Loan Program, go to [www.enrollment.vcu.edu/finaid/programs/loans/entrance\\_interview.html](http://www.enrollment.vcu.edu/finaid/programs/loans/entrance_interview.html).

You will also be required to complete exit counseling before you graduate, withdraw or drop below half-time status. To complete exit counseling for the

Federal Direct Loan program, go to [www.enrollment.vcu.edu/finaid/programs/loans/exit\\_counseling.html](http://www.enrollment.vcu.edu/finaid/programs/loans/exit_counseling.html).

## Grants

Contact individual academic departments for information about grant or scholarship programs.

## Work-study

Work-study is a form of financial aid that pays wages for work performed through employment. Work-study positions are located on-campus and in approved off-campus locations. Hourly wages will vary depending on skills and experience. Job listings are posted online at [www.students.vcu.edu/careers](http://www.students.vcu.edu/careers). When interviewing for work-study positions, students should take copies of their Financial Aid Award Notifications to show prospective employers. Graduate students usually work 15 to 25 hours per week.

## Veteran and reservist educational benefits

The Veterans Affairs Office for VCU is located in Founders Hall on the Monroe Park Campus. Detailed information about eligibility for the programs listed below is available on the Web at [www.enrollment.vcu.edu/rar/veterans\\_affairs.html](http://www.enrollment.vcu.edu/rar/veterans_affairs.html). You also may contact the office to obtain printed material.

Veterans Affairs Office  
James M. Chambliss, Certifying Official  
Harris Hall  
1015 Floyd Ave.  
P.O. Box 842520  
Richmond, Virginia 23284-2520  
(804) 828-6166  
Fax (804) 828-8121  
E-mail: [jmchambl@vcu.edu](mailto:jmchambl@vcu.edu)  
Web: [www.enrollment.vcu.edu/rar/veterans\\_affairs.html](http://www.enrollment.vcu.edu/rar/veterans_affairs.html)

### Available programs

For details on any of these programs, please visit the Veteran's Affairs page of the Division of Student Affairs and Enrollment Services Web site using the link provided above.

- Montgomery – GI Bill Active Duty (Chapter 30)
- Vocational Rehabilitation (Voc Rehab, Chapter 31)
- Veterans Education Assistance Program (VEAP, Chapter 32)
- Post 9-11 GI Bill (Chapter 33)
- Survivors' and Dependents Educational Assistance Program (DEA, Chapter 35)
- Montgomery – GI Bill Selected Reserves (Chapter 1606)
- Reserve Education Assistance Program/Reap (Chapter 1607)
- Tutorial Assistance Program
- VA Work-Study Program
- Virginia Military Survivors and Dependents Education Program
- Post 9-11 – Active Duty (Chapter 33)/Yellow Ribbon Program
- Yellow Ribbon Program
- Transferability of Benefit

### Eligibility requirements

Eligible veterans/spouses/dependents must comply with the following requirements to receive educational benefits as students:

1. The veteran/spouse/dependent must be accepted into a degree or certificate program or be matriculating as a nondegree-seeking student for only two semesters before having to declare a major.
2. The veteran/spouse/dependent must request certification by completing and submitting VCU's VA Education Assistance form after obtaining approval via signature of their academic adviser and registering for courses each semester and each summer session from the Veterans Affairs Office.
3. The veteran/spouse/dependent is eligible to use benefits for only those courses taken toward a degree, certificate program or as prerequisite courses (only two semesters).

4. The veteran/spouse/dependent is not eligible to use benefits for courses taken on an audit basis, or if eliminating a course previously taken and paid for by the VA to remove a punitive grade not counted in GPA calculations via VCU's historical repeat option. The repeated course(s) will be paid for by the VA but the student will incur a debt to the VA for the course(s) eliminated from the student's GPA. The VA does not pay for courses that earn no credit.
5. The veteran/spouse/dependent is responsible for ensuring that transcripts are evaluated for transfer credits to be accepted by VCU. Students must submit this information to the Veterans Affairs Office for transmittal to the Veteran's Administration Regional Office.
6. The Veterans Affairs Office must be notified by the student/veteran/spouse/dependent if they change, add, drop or withdraw from courses originally approved by the student/ veteran/spouse/dependent's academic adviser and certified by VCU's Veterans Affairs coordinator/certifying official.

---

## Preparing Future Faculty Program

The Graduate School at VCU is committed to providing graduate students with ongoing opportunities for academic and professional development. Working with graduate faculty and academic graduate program directors, and with academic and administrative support from across the university, the Graduate School strives to identify, support and sponsor initiatives that will prepare the next generation of the professoriate.

In conjunction with the Center for Teaching Excellence, the Graduate School sponsors the Preparing Future Faculty Program for graduate students interested in pursuing teaching careers in academe. Complete information about the program is available on the Graduate School Web site at [www.graduate.vcu.edu/programs/pff](http://www.graduate.vcu.edu/programs/pff).

---

## Graduate School Mentorship Program

The Graduate School Mentorship Program matches undergraduate and graduate students in mentoring relationships. The goals of the program are twofold: first, to expose undergraduate students to the graduate experience as they consider options and make decisions about post-baccalaureate study and as they transition from undergraduate to graduate student status, and secondly, to provide graduate students with the opportunity to develop mentoring skills as they share their own personal experiences with the undergraduate participants in the program. Complete information about the program is available on the Graduate School website at [www.graduate.vcu.edu/programs/mentor.html](http://www.graduate.vcu.edu/programs/mentor.html).

---

## Leaders and Entrepreneurs Academy for Professional Development

In 2011, VCU finalized its six-year strategic plan, [Quest for Distinction](#). Explicit within the first theme, to "become a leader among national research universities in providing all students with high-quality learning/living experiences focused on inquiry, discovery and innovation in a global environment," are several goals related to preparing students appropriately for careers in the 21st century. The Leaders and Entrepreneurs Academy for Professional Development is a new initiative sponsored by the VCU Graduate School. A companion to the Preparing Future Faculty Program, LEAPD will offer a series of short courses and experiences to assist graduate students seeking careers in industry, nonprofit organizations, health care, public service and government. Areas of study will include: how to start your own business, career search and networking skill-building, what does it mean (and take) to be a leader, enhancing communication skills, resume writing, negotiation skills, and opportunities for discovering alternative career paths for your chosen program of study. LEAPD is open to all graduate students. For more information contact the VCU Graduate School at (804) 828-2233.

**VCU**

## 2014-15 Graduate and Professional Programs Bulletin

---

Professional study

Virginia Commonwealth University currently offers first professional degree programs leading to the Doctor of Dental Surgery, Doctor of Medicine, Doctor of Pharmacy and Doctor of Physical Therapy degrees.

## Professional programs admissions

For information about admission to MCV Campus professional programs, refer to the professional sections of the schools of Allied Health Professions, Dentistry, Medicine and Pharmacy.

## General admission requirements and procedures

The Board of Visitors, the administration and the faculty of VCU are committed to a policy of equal opportunity in education and employment without regard to age, race, color, national origin, gender, religion, sexual orientation, veteran's status, political affiliation or disability.

## Admission requirements

Admission requirements, entrance examinations and application materials for first professional programs may be obtained by contacting the appropriate admissions office. Other detailed information including financial aid opportunities, procedures for international students, regulations and procedures, academic, curricula, and degree requirements are included in the section describing each professional program.

## Admission through VCU's Honors College

VCU undergraduate students who are members of The Honors College may apply to The Honors College Guaranteed Admission Program either before matriculation at VCU or early in their undergraduate studies. (The specific deadline for applying is set by the Program.) Honors students in the Guaranteed Admission Program may enter the professional program to which they have applied, provided they satisfy all of the requirements of the GA Program.

To be accepted in The Honors College GA Program, a student must submit a completed application form with at least two letters of recommendation and be accepted by the university, by The Honors College and by the admissions committee of the program the student wishes to enter. The admissions committee may require an interview. Final notification of guaranteed admission is made by The Honors College. For additional information, refer to the [Honors College](#) section of the Undergraduate Bulletin.

The following professional programs participate in The Honors College Guaranteed Admission Program:

Doctor of Dental Surgery  
Doctor of Medicine  
Doctor of Occupational Therapy  
Doctor of Pharmacy  
Doctor of Physical Therapy

## International students

International students should refer to the appropriate professional program's chapter for information regarding international student admission guidelines.

## Professional programs financial aid

Current information on financial aid programs, policies and procedures are available on the VCU website at [www.enrollment.vcu.edu/finaid](http://www.enrollment.vcu.edu/finaid).

To obtain printed materials or additional information, call or visit the appropriate financial aid office.

## eServices – online records access

Students are encouraged to use the eServices Web site, a password-protected service for viewing VCU student records online, to check the status of their financial aid application and award package. Students also may register for classes, print bills and more. The eServices Web site is located at [www.eservices.vcu.edu](http://www.eservices.vcu.edu).

## E-mail – official method of communication

Students are required to obtain an official VCU student e-mail account within one week of the beginning of their first semester of enrollment. Students are responsible for reading in a timely fashion university-related communications sent to their official VCU student e-mail account. The Office of Financial Aid uses e-mail to provide financial aid information, to request documentation to support financial aid application data, and to provide financial aid application status and award information. Information on how to set up an account is available online (go to the "Academic" section of "Computer Accounts" at [www.vcu.edu/it/computer\\_accounts.html](http://www.vcu.edu/it/computer_accounts.html)).

## Identification requirements

Students must provide picture identification, preferably a VCU Card, for in-person access to financial aid records. For the student's protection, information provided over the telephone and e-mail may be limited if the financial aid staff member is not confident of the student's identity.

## Eligibility for financial aid

Most students are eligible for some type of financial aid regardless of family financial circumstances. Basically, to receive aid from any of the federal or state student aid programs, students must:

- Submit a Free Application for Federal Student Aid (FAFSA) or Renewal FAFSA designating VCU (school code 003735) to receive FAFSA results.
- Demonstrate financial need, except for some loan programs.
- Have a high school diploma or a General Education Development (GED) Certificate.
- Be enrolled or accepted for enrollment to an eligible degree or certificate program.
- Be enrolled at least half time (five or more graduate credit hours).
- Be a U.S. citizen or eligible noncitizen.
- Have a valid Social Security number (unless from the Republic of the Marshall Islands, the Federated States of Micronesia or the Republic of Palau).
- Meet Satisfactory Academic Progress (SAP) standards as defined by the VCU Office of Financial Aid (the full VCU SAP policy is available online at [www.enrollment.vcu.edu/finaid/sap/ugrad\\_rqmts.html](http://www.enrollment.vcu.edu/finaid/sap/ugrad_rqmts.html)).
- Certify that federal and state financial aid will be used for educational purposes only.
- Not be in default on a federal student loan and not owe money on a federal student grant.
- Comply with the Selective Service registration, if required.
- Not be convicted under federal or state law of sale or possession of illegal drugs.

Detailed information can be found in the federal Student Guide, available in print form from the VCU Office of Financial Aid or electronically at

[http://studentaid.ed.gov/students/publications/student\\_guide/index.html](http://studentaid.ed.gov/students/publications/student_guide/index.html) and on the VCU Office of Financial Aid website.

## Applying for financial aid

The financial aid application process for the academic year begins Jan. 1. All students are encouraged to complete and submit the FAFSA as soon as possible after Jan. 1, designating VCU (school code 003735) to receive the results. In order to reduce problems, errors and omissions on the FAFSA, students are encouraged to apply electronically using FAFSA on the Web (available online at [www.fafsa.ed.gov/](http://www.fafsa.ed.gov/)). Once the FAFSA is filed, the federal processor will send the student a Student Aid Report (SAR) or electronic SAR Acknowledgement, and also will electronically send the information to the VCU Office of Financial Aid, if VCU was listed as a school to receive the data. If additional information is needed to complete processing of the application, the VCU Office of Financial Aid will send the student a request for additional information. Responding promptly to such requests will ensure timely processing of the application. Once the review of FAFSA data has been completed, the Office of Financial Aid will send the student a Financial Aid Notification.

Please note that health profession students (dentistry, medicine, nursing or pharmacy) must provide both student and parental information on the FAFSA to apply and receive consideration for Title VII grants and loans from the Department of Health and Human Services.

## Priority filing dates

The VCU Office of Financial Aid recommends electronically filing the FAFSA by March 1\*. Students should complete the FAFSA using data from their completed tax returns. If necessary, they may use estimated tax return data in order to meet the VCU priority filing date but should be prepared to submit a copy of their completed tax returns and W2 forms to VCU as soon as possible. Students will receive their Financial Aid Notification after their FAFSA application data has been verified. If students have not applied for financial aid in a timely manner, they may want to participate in the VCU Installment Payment Plan, which budgets each semester's bill over four payments. Information about this plan can be found on the Student Accounting Department's Web site ([www.enrollment.vcu.edu/accounting/payments.html](http://www.enrollment.vcu.edu/accounting/payments.html)).

\* Students who do not have access to the Web may apply using the paper FAFSA, available through VCU, high schools, colleges and most public libraries. Those students completing a paper application should mail it to the federal processor by Feb. 1.

## Summer studies

Limited financial aid may be available during the summer semester. Students applying for the summer semester must file the FAFSA for the academic year preceeding the summer semester. Students also should complete a VCU summer aid application, available on the Financial Aid Web site under "Forms"

Students interested in financial aid for the summer semester should obtain a VCU Summer Studies [Schedule of Classes](#) (available in March) for more details.

## Study abroad

Financial assistance is available to eligible students enrolled in approved study abroad programs. All study abroad programs must be coordinated through the Office of International Education at (804) 828-8471. Students should work with a financial aid counselor to coordinate aid for their study abroad program. Information about financial aid and study abroad is available online at [www.vcu.edu/oie/eao/fin\\_aid\\_scholarships/](http://www.vcu.edu/oie/eao/fin_aid_scholarships/).

## Quality assurance

To ensure that information provided on the FAFSA is accurate, a student's application may be selected for review at any time during an enrollment period, and the student will be requested to provide documentation that supports the information. By signing the FAFSA, the student (and the student's parents or spouse, if applicable) agreed to furnish such documentation. If the documentation is not provided when requested, financial aid awards will be canceled and any funds already disbursed may need to be repaid.

## University bill

The Student Accounting Department issues online bills for tuition, fees and other university charges. When financial aid awards (grants, scholarships and loans) are

not enough to pay university charges, the remaining balance must be paid from personal funds, credit card or the VCU Installment Payment Plan. Federal work-study awards will not be deducted from university charges because those funds are paid directly to the student, based on hours worked. Any outstanding balance owed will prevent a student from registering for courses and receiving official transcripts. Students who fail to pay their balance on time may be assessed a late payment fee and have a financial hold placed on their account. If the balance remains outstanding after the semester ends, their account may be referred to the VCU Collection Unit at which time collection costs will be assessed.

## Special circumstances

Financial aid eligibility decisions are made using federal, state and institutional regulations and policies. Students may appeal their calculated contribution if special circumstances warrant a review. Reasons for an appeal might include one of the following documented unusual circumstances:

- Loss or reduction of employment earnings.
- Disability or death of parent or spouse.
- Separation or divorce.
- Loss or reduction of untaxed income.
- Losses due to a natural disaster.
- Unusually high educational program costs.
- Unusual medical expenses.
- Dependent and child care expenses.

Any financial aid staff member can advise a student about the procedures on how to file an appeal.

## Federal financial aid refund policy

Students who receive federal Title IV grant or loan assistance and withdraw from VCU before completing 60 percent of the semester (as measured in calendar days) must have their eligibility recalculated based on the federal Return of Title IV Funds formula. This federal formula specifies that a student's financial aid eligibility must be recalculated based on the aid the student has "earned" (based on the number of days that the student was enrolled or attending VCU prior to withdrawal). Any unearned aid (for the period of enrollment that the student did not complete from the date of withdrawal to the end of the semester) must be returned to the appropriate Title IV programs from which the student was awarded.

For VCU students who withdraw prior to completing 60 percent of the semester, they will have to return or repay all or a portion of the aid funds that had been disbursed to their VCU account. As a result, students who withdraw prior to completing 60 percent of the semester may be responsible for all or a portion of their tuition/fee bill that was previously paid by financial aid sources.

If a student does not officially withdraw from all classes but fails to earn a passing grade in at least one course, federal aid regulations require that the student be considered "unofficially withdrawn," unless it can be documented that the student completed the enrollment period. Unofficial withdrawals require a Title IV refund calculation at the midpoint of the enrollment period. The reduction of federal aid will create a balance due to the university that must be repaid.

## Satisfactory Academic Progress

To be eligible to receive financial aid at VCU, students must make Satisfactory Academic Progress (SAP). SAP is a combination of qualitative and quantitative components and is measured by completion rate. The completion rate is the number of credit hours earned divided by the number of credit hours attempted. All students must successfully complete at least 67 percent of all credit hours attempted (withdrawals, incompletes and repeated courses also are considered attempted credit hours).

The Office of Financial Aid will perform a periodic SAP review for students who receive or apply for financial aid. The reviews are typically performed at the end of the spring semester and must be completed at least once per academic year.

Students will be alerted with warning letters, whenever possible, to provide them with notice that their financial aid may be in danger of being suspended. When students fail to meet SAP requirements, they will receive suspension letters indicating that they are ineligible to receive further financial aid. Students whose

eligibility for financial aid has been suspended may submit an appeal if mitigating circumstances prevented the student from maintaining SAP.

For more detailed information about the VCU Satisfactory Academic Progress policy, visit the Office of Financial Aid website ([www.enrollment.vcu.edu/finaid/sap/grad\\_pro\\_rqmts.html](http://www.enrollment.vcu.edu/finaid/sap/grad_pro_rqmts.html)).

## Types of financial aid

There are three basic types of financial aid: loans, grants and work-study. Each type has different features and advantages.

### Loans

In terms of total dollars available, long-term federal loan programs provide the most dollars. Federal loans must be repaid after the grace period and/or deferment periods have expired. Students must generally remain enrolled at least half-time (five credit hours for graduate students). Multiple repayment plans may be available for most federal loans. Selected loan programs include:

- Federal Direct Loan (unsubsidized)
- Health Professions Student Loan
- Loan for Disadvantaged Students
- Nursing Student Loan
- Primary Care Loan

Borrowers in the Federal Direct Loan Program are required to complete loan counseling prior to the first disbursement if you have not previously received a Direct Loan, Federal Family Education Loan or Supplemental Loans to Students Loan. To complete entrance counseling for the Federal Direct Loan Program, go to [www.enrollment.vcu.edu/finaid/programs/loans/entrance\\_interview.html](http://www.enrollment.vcu.edu/finaid/programs/loans/entrance_interview.html).

You will also be required to complete exit counseling before you graduate, withdraw or drop below half-time status. To complete exit counseling for the Federal Direct Loan program, go to [www.enrollment.vcu.edu/finaid/programs/loans/exit\\_counseling.html](http://www.enrollment.vcu.edu/finaid/programs/loans/exit_counseling.html).

### Grants

Contact individual academic departments for information about grant or scholarship programs.

### Work-study

Work-study is a form of financial aid that pays wages for work performed through employment. Work-study positions are located on campus and in approved off-campus locations. Hourly wages will vary depending on skills and experience. Job listings are posted to the Career Center's Web site ([www.students.vcu.edu/careers](http://www.students.vcu.edu/careers)). When interviewing for work-study positions, students should take copies of their Financial Aid Notifications to show prospective employers.

## Veteran and reservist educational benefits and programs

The Veterans Affairs Office for VCU is located in Founders Hall on the Monroe Park Campus. Detailed information about eligibility for the programs listed below is available on the Web at [www.enrollment.vcu.edu/rar/veterans\\_affairs.html](http://www.enrollment.vcu.edu/rar/veterans_affairs.html). You also may contact the office to obtain printed material.

Veterans Affairs Office  
James M. Chambliss, Certifying Official  
827 West Franklin Street  
P.O. Box 842520  
Richmond, Virginia 23284-2520  
(804) 828-6166  
Fax (804) 828-8121  
E-mail: [jmchambl@vcu.edu](mailto:jmchambl@vcu.edu)  
Web: [www.enrollment.vcu.edu/rar/veterans\\_affairs.html](http://www.enrollment.vcu.edu/rar/veterans_affairs.html)

### Available programs

For details on any of these programs, please visit the Veteran's Affairs page of the Division of Student Affairs and Enrollment Services Web site using the link provided above.

- Montgomery – GI Bill Active Duty (Chapter 30)
- Vocational Rehabilitation (Voc Rehab, Chapter 31)

- Veterans Education Assistance Program (VEAP, Chapter 32)
- Post 9-11 GI Bill (Chapter 33)
- Survivors' and Dependents Educational Assistance Program (DEA, Chapter 35)
- Montgomery – GI Bill Selected Reserves (Chapter 1606)
- Reserve Education Assistance Program/Reap (Chapter 1607)
- Tutorial Assistance Program
- VA Work-Study Program
- Virginia Military Survivors and Dependents Education Program
- Post 9-11 – Active Duty (Chapter 33)/Yellow Ribbon Program
- Yellow Ribbon Program
- Transferability of Benefit

### Eligibility requirements

Eligible veterans/spouses/dependents must comply with the following requirements to receive educational benefits as students:

1. The veteran/spouse/dependent must be accepted into a degree or certificate program or be matriculating as a nondegree-seeking student for only two semesters before having to declare a major.
2. The veteran/spouse/dependent must request certification by completing and submitting VCU's VA Education Assistance form after obtaining approval via signature of their academic adviser and registering for courses each semester and each summer session from the Veterans Affairs Office.
3. The veteran/spouse/dependent is eligible to use benefits for only those courses taken toward a degree, certificate program or as prerequisite courses (only two semesters).
4. The veteran/spouse/dependent is not eligible to use benefits for courses taken on an audit basis, or if eliminating a course previously taken and paid for by the VA to remove a punitive grade not counted in GPA calculations via VCU's historical repeat option. The repeated course(s) will be paid for by the VA but the student will incur a debt to the VA for the course(s) eliminated from the student's GPA. The VA does not pay for courses that earn no credit.
5. The veteran/spouse/dependent is responsible for ensuring that transcripts are evaluated for transfer credits to be accepted by VCU. Students must submit this information to the Veterans Affairs Office for transmittal to the Veteran's Administration Regional Office.
6. The Veterans Affairs Office must be notified by the student/veteran/spouse/dependent if they change, add, drop or withdraw from courses originally approved by the student/ veteran/spouse/dependent's academic adviser and certified by VCU's Veterans Affairs coordinator/certifying official.

## Professional programs tuition and student fees

Students must pay all applicable tuition, room, board and other fees when due, as described in this section. Students who fail to pay these charges on time may be assessed a late payment fee. The university reserves the right to revise or alter all tuition and fees, regulations pertaining to student fees, and collection procedures at any time. In addition to expenses billed by the university, students should make allowances for books, clothing, supplies, travel and other out-of-pocket costs when figuring their total yearly expenses at the university.

### Student financial responsibilities

Students who enroll:

- Are responsible for full payment of tuition and fees generated from their registration.
- Are responsible for full payment of all room, board and other applicable miscellaneous charges.
- Are responsible for keeping a current mailing address on file with Enrollment Services. Refunds and tax forms are not issued to students with inactive mailing addresses.
- Are responsible for establishing an official VCU e-mail address and reading their e-mail on a regular basis, since e-mail will be used to notify students when their invoices are available in the payment and billing site. Paper bills are not sent to enrolled students. Failure to acknowledge and review the

electronic invoice does not relieve responsibility for timely payments. Other important notifications are also sent to the official VCU e-mail address.

Tuition and fees are categorized and described on the Student Accounting Web site at [www.enrollment.vcu.edu/accounting/tuition\\_fees.html](http://www.enrollment.vcu.edu/accounting/tuition_fees.html).

The university reserves the right to revise or alter all fees, regulations pertaining to student fees and fee collection procedures at any time.

## Tuition and fee schedule

Tuition and fees are categorized and described on the Student Accounting website at [www.enrollment.vcu.edu/accounting/tuition\\_fees.html](http://www.enrollment.vcu.edu/accounting/tuition_fees.html). Questions regarding tuition and fees may be directed to the Student Accounting Department at (804) 828-2228, or by emailing [stuacctg@vcu.edu](mailto:stuacctg@vcu.edu). The university reserves the right to revise or alter all fees, regulations pertaining to student fees and fee collection procedures at any time.

## University fee

This fee is used by the university to support student facilities, campus development, intercollegiate athletics and other programs. Full-time students pay a flat-rate university fee each semester. Part-time students pay this fee on a per-credit basis.

## Student activity fee

This fee is used to support social, cultural and other student activities on the Monroe Park Campus. These activities include concerts, plays, student organizations and publications. Full-time students on the Monroe Park Campus pay a flat-rate student activity fee, while part-time students on the same campus pay this fee on a per-credit basis. Students on the MCV Campus are not charged this fee.

## Student Government Association fee

This fee is used to support social, cultural and other student activities on the MCV Campus. The fee is charged to all full-time and part-time MCV Campus students. Monroe Park Campus students are not charged this fee.

## Student health fee

All full-time students on both campuses must pay the student health fee. Part-time students may participate in the University Student Health Services on an elective basis by paying the student health fee. The University Student Health Services offers unlimited office visits for acute and chronic ailments, after-hours phone advice for an urgent medical problem and most laboratory tests associated with acute illnesses ordered by the USHS staff, among other services. The fee does not cover accidental injury, emergency room visits or hospitalization. More specific information as to what is covered and not covered by the fee is available on the [USHS website](#).

## Technology fee

The technology fee is charged to all undergraduate, graduate and professional students in all programs. Full-time students pay a flat rate. Part-time students pay a per-credit-hour rate. The fee is used to provide for students' technological needs and to support university-wide technological initiatives.

## Off-campus fees

The university fee, the student activity fee, the student government association fee (except School of Social Work) and the student health fee are not charged to students taking off-campus classes.

## Capital outlay fee

This fee is charged to all full-time and part-time non-resident, on-campus students. The fee is mandated by the General Assembly to reimburse the State for debt service costs attributable to non-resident students related to the financing of buildings and equipment.

## Online course fee

The online course fee is charged for undergraduate and graduate online courses. The fee covers operational and personnel support to develop and maintain online courses.

## Special fee charges

Because of specialized programs, various schools and departments may charge each student additional fees to cover special materials, equipment breakage and other costs. For specific information about special fees, refer to the Student Accounting Department Web site or to the specific school or department section in this bulletin.

## Student billing

Students must pay all applicable tuition, fees, room and board when due. Students are notified at their official VCU email address when their bills are available on the billing and payment site. No paper bills are sent to enrolled students. Tuition and fees for preregistered students, along with charges for housing and dining plans where applicable, are due by the official start of each semester. After the registration period all other students are sent a notification at their official VCU email address when their electronic bill has been issued and should pay by the payment due date indicated on the electronic invoice. Students who fail to pay these charges on time may be assessed a late payment fee. The university reserves the right to revise or alter all tuition and fees, regulations pertaining to student fees, and fee collection procedures at any time. In addition to expenses billed by the university, students should make allowances for books, clothing, supplies, travel and other out-of-pocket costs when figuring their total yearly expenses at the university.

The Installment Payment Plan assists students in meeting the cost of their higher education by offering a convenient payment option. The university-administered IPP is offered only during the fall and spring semesters. The plan distributes the cost of tuition, fees, housing and dining charges for a semester into four equal installments.

All students attending the university with current charges of \$100 or more are eligible to participate. All prior semester balances must be paid in full to be eligible.

Students who receive financial aid are also eligible for participation in the IPP. These students may deduct their aid to determine the net total due. If it is \$100 or more, the remaining amount may be paid in installments.

In some cases, a student may receive a financial aid refund, and then subsequent charges for the semester are added to the student's account. If the student has received a refund, he or she is ineligible to participate in the IPP unless the refund has been repaid to the university in full. The student must then pay the first installment and follow the instructions to enroll in the IPP.

There is a \$25 nonrefundable application fee payable with the first installment of each semester. Interest is not assessed on the outstanding balance; however, installments not paid by the payment due date are subject to a late payment penalty. Information about how to participate in the IPP is available online at [www.enrollment.vcu.edu/accounting/payment\\_plan.html](http://www.enrollment.vcu.edu/accounting/payment_plan.html).

## Drop vs. withdraw

Drop charges are removed to indicate that the student never attended the class. The student is not eligible to receive financial aid, and any financial aid already credited to the student's account based on the original course registration will be removed from the student's account, which may create a balance due to the university.

Withdraw results in the academic grade of W. Charges are assessed and adjusted according to the University Refund Policy. Students may owe a balance to the university.

## Refund of tuition and fees

The official university tuition and fee policy, applicable for the fall and spring semesters only (excluding short/nonstandard courses), is outlined below. Refunds are calculated on a course-by-course (per-credit-hour) basis, disregarding the full-time cap amounts. Students who are enrolled full-time and withdraw from courses may not receive a refund.

- Students dropping/withdrawing from courses through the first week of class will be entitled to a 100 percent refund of tuition and fees.
- Students withdrawing from courses through the second week of class may be entitled to an 80 percent refund of tuition and the university fee.
- Students withdrawing from courses through the third week of class may be entitled to a 60 percent refund of tuition and the university fee.

- Students withdrawing from courses through the fourth week of class may be entitled to a 40 percent refund of tuition and the university fee.
- Students withdrawing from courses after the fourth week of class are not entitled to receive a refund of tuition and fees.

The refund policy and deadlines of the English Language Program (ELP) are different from the university's refund policy for academic courses. Details of the policy may be obtained from the English Language Program Office.

A full refund for Holiday Intersession will be granted if the course is dropped before 4:30 p.m. on the day of the first class meeting. Partial refunds are not granted.

A full refund for a short/nonstandard course's tuition and applicable fees will be granted if the course is dropped no later than the day following the first day of a given class. Partial refunds are not granted.

A full refund for summer tuition and applicable fees will be granted if the course is dropped no later than the day following the first day of a given class. (This policy also is applicable if the class does not meet on two consecutive days.) Students reducing their academic course loads to fewer than full time (12 credits for undergraduates and nine credits for graduates) before the end of the last day to drop a course will be entitled to a refund of tuition and applicable fees reflecting the reduced course load. Partial refunds are not granted for the summer session.

Students who are financial aid recipients and withdraw from all courses prior to completing 60 percent of the semester are subject to the Federal Return of Title IV Funds Policy. For more details see [Federal Financial Aid Refund Policy](#).

Refunds will be computed based on the actual withdrawal date certified by the Office of Records and Registration. Refunds will not be made to students who do not attend classes and have not completed the required withdrawal procedure. Refund processing may take approximately two to three weeks. Exceptions to this refund policy are made only in rare instances. Written application for an exception must be filed in the Student Accounting Department to the Refund Appeals Committee within three years.

Refer to the Residential Housing contract and Dining Services' "Terms and Conditions" for housing and dining services refunds.

Requests for refunds that are not generated from the overpayment of financial aid should be made in writing to: VCU Student Accounting Department, P.O. Box 843036, Richmond, VA 23284-3036. Refund request forms are available at the Student Services Centers, 1015 Floyd Ave. or 1000 E. Marshall St., Room 323, and on the Web at [www.vcu.edu/enroll/forms](http://www.vcu.edu/enroll/forms).

In accordance with credit card regulations, the university will refund any credit balance that may result on a student's account as the outcome of a credit card payment back to the credit card account. The remaining credit balance, if any, will be refunded to the student.

Students are responsible for paying any increase in charges that may occur after the generation of any refund.

## Outstanding charges

Students who fail to meet payments when due will be assessed late payment penalties and will be denied registration for future classes until they have paid all accrued amounts owed. Students with balances owed to the university will not be issued degrees, official transcripts of grades or graduate reports until all charges are paid in full.

Any communication disputing an amount owed, including an instrument tendered as full satisfaction of a debt, must be submitted to the Director of Student Accounting, Student Accounting Department, Virginia Commonwealth University, P.O. Box 843036, Richmond, VA 23284-3036.

Pursuant to Section 2.2-4805 et seq., of the Code of Virginia, and in accordance with rules and regulations promulgated by the State Comptroller and Attorney General of the commonwealth of Virginia, VCU will charge interest, costs and fees on all accounts past due.

VCU is participating in the Virginia Set-off Debt Collection Act of 1981. Under the provisions of this act, a Virginia individual income tax refund will be subject to the university's claim for unpaid balances of tuition and fees.

A student who pays a past due balance with a dishonored check may be subject to having his or her current and/or future registration cancelled. A charge of \$50 is levied for all dishonored checks.

## Military services tuition relief, refund and reinstatement guidelines

These guidelines apply to students whose service in the uniformed services (military) has necessitated their sudden withdrawal or prolonged absence from their enrollment at Virginia Commonwealth University and provides for the required re-enrollment of such students. Students are offered the following enrollment secession options:

1. Drop all courses before the end of the add/drop period and receive a full reduction of tuition and fee charges. Students residing in university housing and participating in a dining plan will be released from their housing and dining service contracts and will receive a prorated refund of these charges. Students will be asked to sign the drop request form with the director of military student services indicating that they are not receiving a financial aid refund. If the reduction of charges results in an overpayment on the account after any financial aid or third party awards have been reduced, the student will be issued a refund.

This option might best meet the needs of students who are called to active duty service during the first week of school and did not receive a financial aid refund check or direct deposit.

2. Receive a grade of Incomplete (IM – incomplete military) in one or all courses. Students residing in university housing will be released from their housing and dining service contracts and will receive a prorated refund of these charges. Students who chose to take a grade of IM will not have tuition and fees reduced for these courses because, upon receipt of an approved change of grade, credits will still be earned for the semester. Students will have 12 months from the date that they return from active service to complete the course work and earn a course grade. If a student received financial aid, the amount recovered to the financial aid accounts will follow the Federal Financial Aid Refund Policy.

This option might best meet the needs of students who have essentially completed all course work in a class for the semester, but have yet to turn in a final project, an exam or other materials. It should be agreed upon between the instructor and the student that the remaining course work can reasonably be completed during the 12-month period.

3. Accept administrative withdrawal (WM – withdrawn military) from all courses as of the effective date of the orders to active duty. If this option is elected, a full refund of all tuition, fees and prorated room and dining charges will be made. If a student received financial aid, the amount recovered to the financial aid accounts will follow the Federal Financial Aid Refund Policy. If the reductions of charges results in an overpayment on the account after any financial aid or third party awards have been reduced, the student will be issued a refund.

This option might best meet the needs of students who are called to national service in the middle of a semester and have not completed 75 percent of their class requirements. This option also might best meet the needs of students who are leaving the university during the first week of class and received a financial aid refund check or direct deposit as a result of their financial aid.

4. Students who have completed 75 percent of the course requirements at the time of military activation and, notwithstanding certain exceptions noted below, who meet requirements as determined and agreed upon by the faculty instructor and the student may receive full course credit.

Students may receive full course credit if 75 percent of course requirements have been completed, under certain circumstances. The instructor is responsible for determining what percentage of course requirements have been completed based on factors to include but not limited to contact time, examinations, projects, work experience and clinical experience. The awarding of full credit cannot be made where the incomplete requirements are essential components of the course or program required by law or regulatory bodies, required for competency in the work place, or required to complete licensure examinations.

### Leaving the university

To initiate this process, the student must provide the Office of Military Student Services with a copy of his or her active duty orders in addition to a printed copy

of his or her course registration for that semester and indicate Option 1, 2, 3 or 4 for each course. If Option 4 is selected, the student must provide documentation from the instructor. The director of military student services will forward all documentation to the university registrar to take the appropriate enrollment action, post the appropriate grades and send a copy of the orders and a copy of the student course request statement to the director of financial aid and the director of student accounting.

### Returning to the university

Students who withdrew from the university as a result of military deployment, mobilizations or duty changes are entitled to return without having to requalify for admission so long as the student (a) returns after a cumulative absence of no more than five years and (b) notifies the appropriate admissions office of the intent to return to the university not later than three years after the completion of military service obligation. The student may return to the university in the same program of study. With the consultation of an adviser, a comparable program of study may be chosen for discontinued programs.

### Tuition determination and student classification

Tuition is determined by the number of credit hours a student is taking, the student's residency classification, course of study and classification level.

### In-state residency

Eligibility for in-state tuition benefits is determined by Section 23-7.4 of the Code of Virginia. Refer to the [Determination of student classification for in-state tuition purposes](#) in the About VCU section of this bulletin for the complete code.

All applicants to VCU who want to be classified as Virginia residents must complete the Application for Virginia In-state Tuition Rates included in the graduate application. The residency determination of the applicant will be conveyed at the time of admission. New and continuing students initially classified as non-Virginians for tuition purposes may request a review of the initial residency determination by completing an Application for Change of Domicile available from the Office of Records and Registration (online). The student must present clear and convincing evidence that he or she is not residing in the state primarily to attend school. The application deadline is 30 days prior to the start of the semester, and it is the responsibility of the student to establish or to file an appeal to change his/her residency classification prior to the start of classes for the semester under consideration. In accordance with the Code of Virginia, applications received after the start of the semester must be considered for the next semester. Submit completed applications with documentation to the university residency appeals officer. Processing may require four to six weeks; therefore it is strongly recommended that applications be submitted earlier than the stated deadline.

Our service to students is limited to assuring that they understand the procedures for appealing and that they have access to information about the relevant sections of the Code of Virginia. We provide information about the steps of our process and access to the applicable sections of the statute and the associated guidelines. We provide qualified staff to review the appeals and make decisions based on the information students provide. What we cannot do is provide advisement to students as to how to present their case for review; we cannot become the student's advocate since we must make the decision.

Students approved for a change to in-state status for tuition purposes are notified by mail with copies of their approval letters sent to the Office of Financial Aid and the Student Accounting Department. Students denied this status also are notified by mail. The denial letter informs the student of procedures for appeal of this decision, to include filing an appeal with the University Residency Appeals Committee. Students who submit fraudulent applications, falsify documentation or conceal information will be subject to reclassification, payment of all nonresident fees owed and university discipline.

Please note that a student with in-state status for tuition purposes who exceeds 125 percent of the credit hours needed to complete his program will be assessed a tuition surcharge.

### Professional programs general academic regulations

The bulletin of record for a professional student is the Professional Programs Bulletin in effect at the time of the student's official admission to the degree program (as specified in the student's official letter of admission). The effective

bulletin contains the official requirements that the student must complete to earn the degree. A student who does not maintain continuous enrollment must reapply to the program and will be subject to the requirements of the bulletin in effect at the time of readmission. Exception to this policy must be approved by the student's dean or dean designee.

The university reserves the right to revoke any degree, certificate or other university recognition for cause. In addition, any time following the award of a degree, certificate or other university recognition, the university reserves the right to take appropriate action, including, but not limited to, the revocation of such degree, certificate or other university recognition, on the basis of academic misconduct discovered subsequent to, but which occurred prior to, the awarding of the degree, certificate or other university recognition. More specifically, when an action that constitutes a violation of the VCU Honor System leads to a finding that invalidates a major piece of work required for a degree, certificate or other university recognition so that the validity of the degree, certificate or other university recognition is jeopardized, the student or former student will be subject to a sanction that may include (a) rejection of a thesis, dissertation or other work, (b) revocation of a certification or other university recognition or (c) revocation of a degree.

### Course interpretation

A single number listing for a course, such as MGMT 648, indicates that it is a one-semester course and may be offered each semester or only one semester each year.

Courses listed with a double number, such as THEA 603, 604 and designated as semester courses, consist of two one-semester courses, either semester of which may be taken without the other.

Courses listed with a double number, such as APPM 575-576, are designated as continuous courses and consist of two one-semester courses, the first of which can be taken without the second, but the second of which cannot be taken without the successful completion of the first. The university reserves the right to withdraw any course or program.

### Course listings

#### Identification of symbols

I	A course offered in the first semester
II	A course offered in the second semester
I, II	A course offered in each semester
I and II	A course continued through two semesters
S	A course offered in summer sessions

### Course numbering

All schools and programs within VCU use the following course numbering system. All course numbers consist of three digits (XXX). The first digit relates to the course level as follows:

#### 0XX noncredit courses

Courses offered for students to make up deficiencies in previous training or to improve certain basic skills.

#### 1XX and 2XX undergraduate, lower level

Courses with these numbers are offered primarily for undergraduate students and may not be used for graduate credit, although graduate students may be required to register for courses at this level to gain a necessary foundation for other course work.

#### 3XX and 4XX undergraduate, upper level

Courses offered for advanced undergraduates and that usually constitute the major portion of specific program work leading to the baccalaureate degree. On occasion, graduate students will be advised by their graduate advisers to enroll in prerequisite 4XX courses. Graduate programs can require that 400-level courses be taken, but credit hours in these courses cannot count toward the graduate degree or in the graduate GPA (effective fall 2004).

#### 5XX introductory graduate courses

Graduate students enroll for credit in these courses through the normal graduate advising system. Departments may limit the number of 500-level courses applicable to a graduate degree program. Advanced undergraduates may enroll in

these courses for credit with consent of the offering department. Credit is applicable toward only one degree unless a student is admitted to a course of study that allows a defined number of shared courses.

### 5XX professional graduate courses

First year, first professional (medicine, dentistry, pharmacy and physical therapy) courses normally open to students enrolled in the M.D., D.D.S., Pharm.D. and D.P.T. programs. Certain courses of this group may be designated by the department and approved by the University Graduate Council for graduate credit.

### 6XX, 7XX and 8XX graduate courses

Graduate students enroll for credit in these courses through the normal graduate advising system. Credit is applicable toward only one degree unless a student is admitted to a course of study that allows a defined number of shared courses.

### 6XX and 7XX professional graduate courses

6XX Second year, first professional (medicine, dentistry, pharmacy and physical therapy [second and third year]) courses normally open only to students enrolled in the M.D., D.D.S., Pharm.D. and D.P.T. programs. Certain courses of this group may be designated by the department and approved by the Graduate Council for graduate credit.

7XX Third and fourth year, first professional (medicine, dentistry and pharmacy) courses normally open only to students enrolled in the M.D., D.D.S. and Pharm.D. programs. Certain courses of this group may be designated by the department and approved by the Graduate Council for graduate credit.

### Grade review procedure

If a student thinks that a grade is inaccurate, the situation should be discussed with the faculty member. This will allow the faculty member to explain how the final grade was determined and, if an error is detected, to submit a change of grade.

If the student still thinks that the grade was assigned unfairly, a written appeal should be submitted to the department chair. Upon receipt of the written appeal, the department chair shall provide the student with a copy and explanation of the Grade Review Procedure and shall ensure that the requirements of the Grade Review Procedure are followed.

If the department chair is unable to resolve the complaint, then the dean of the school in which the course was offered will form a grade review committee as described in the Grade Review Procedure policy and will submit its decision to the dean of the school. The decision communicated by the dean of the school in which the program resides is the final decision and will be distributed to the student, faculty member(s) and department chair.

In cases concerning grades awarded for the fall semester, the written appeal must be submitted to the department chair no later than 30 calendar days after the beginning of the following spring semester. In cases concerning grades awarded for the spring semester or summer sessions, the written appeal must be submitted no later than 30 calendar days after the beginning of the following fall semester.

### Grading system

Work quality is measured by the four-point grade system with the following equivalents:

Grade symbol and meaning	Grade-point value per semester credit
A	4.0
B	3.0
C	2.0
D	1.0
F	0.0
P/F (Pass/Fail)	0.0
PR	0.0
S/U (Satisfactory/Unsatisfactory)	0.0

All other grades are temporary, carry no credit and are not used in the computation of a GPA. Refer to the following pages for an explanation of the use of the grades of satisfactory and unsatisfactory in relation to thesis/dissertation/research classes.

The number of grade points earned is computed by multiplying the grade-point value for the letter grade by the number of semester credits for the course. As an example, a student receiving an "A" (i.e., four grade points) in a three-credit course receives 12 grade points.

The grades of accepted transfer courses are not included in the computation of the VCU GPA. Graduate students are not designated as special honors graduates (i.e., cum laude, magna cum laude, summa cum laude) on transcripts or diplomas upon completion of their programs.

No graduate student shall be awarded degree credit for remedial work. Students advised to take any level course for remedial work should be notified in writing that the course credit shall not apply to the degree they are pursuing. Other bodies may rule later, should the student wish to apply the credit to some other degree.

### Grade of audit (AU)

Class size permitting, students may register for courses on an audit basis. A student may register for audit only during add/drop and late registration periods as a new registration and not as a change from credit to audit. Auditing a course means a student enrolls in a course, but does not receive academic credit upon completion of the course. A student who registers on an audit basis is subject to attendance regulations of that class and may be administratively withdrawn by an instructor for a violation of class requirements for audit students, before or after the normal eight-week withdrawal deadline. A student who registers for audit may be subject to other course requirements at the discretion of the instructor. Audit students are charged the regular rate of tuition and fees. An audit course is counted as part of the student's semester load in terms of classification as a full-time student. Courses taken for audit, however, do not satisfy minimum enrollment requirements for students receiving graduate teaching or research assistantships, graduate fellowships, or university graduate scholarships.

### Grade of continued (CO)

The grade of "CO" may be assigned as an interim grade for those courses that run over several grade reporting periods. The "CO" indicates that the course is not expected to be completed in a single semester and that students must reregister for the course. Upon completion of the course, a final grade will be assigned to the current semester, and the previous "CO" grade(s) will remain. This grade may be assigned only in courses approved for such grading.

### Grade of incomplete (I)

If because of circumstances beyond their control, students are unable to meet all the requirements of a course by the end of a semester, the mark of incomplete ("I") may be given. The awarding of a mark of "I" requires an understanding between instructor and student as to when and how the course will be completed. This understanding must be recorded on an Incomplete Grade Assignment Form that is submitted instead of a final course grade. The maximum time limit for submission of all course work necessary for removal of an incomplete is the end of the last day of classes of the next semester following the semester in which the incomplete was incurred (i.e., an incomplete awarded in the fall semester must be converted by the last day of classes in the spring semester, and an incomplete awarded in the spring or summer session must be converted by the last day of classes in the fall semester). At that time, an unremoved grade of incomplete is changed automatically to a failing grade. Individual departments and schools may have more stringent time limits. An extension of the time limit is possible, but must be approved, prior to the expiration date stated above, by the instructor and the dean of the school through which the course is offered. Written approval indicating the new time limit must be filed with the dean.

### Grade of pass (P)

This grade is awarded for certain courses to denote satisfactory completion of requirements. Courses assigned the grade of "P" will not be computed in the GPA.

### Grade of progress (PR)

The mark of "PR" may be assigned only in courses approved for such grading. Unlike the mark of "I," "PR" will not automatically be changed to a failing grade at the end of the succeeding semester.

## Grades of satisfactory (S), unsatisfactory (U) or fail (F) in research, thesis and dissertation courses

All research, thesis, and dissertation credits taken as part of the final project (thesis/dissertation/project) for awarding a graduate degree are to be graded each semester as “S,” “U” or “F.” There is no limit to the number of these credits a student may take while pursuing completion of the degree as long as the student receives a grade of “S” for each credit. An individual department may terminate a student who does not progress satisfactorily as indicated by a “U” grade in research, thesis/dissertation/project course work. A student who receives a final grade of “F” in the thesis or dissertation will be terminated from the graduate program.

## Grade of withdrawn (W)

The grade of “W” indicates that the student has officially withdrawn from a course or has been administratively withdrawn for nonattendance. No student who has officially withdrawn from a course or who has been administratively withdrawn for nonattendance may attend subsequent meetings of the course.

## Immunization requirements

The commonwealth of Virginia and VCU require that all full-time students supply validated immunization records to University Student Health Services. This requirement must be completed prior to registering for second semester. Failure to meet these requirements will result in a hold placed on the student's second semester registration. The hold can be removed only upon receipt of the students documented records.

The immunization record must be completed fully and accurately. There are two ways a student may fulfill all requirements:

1. Students may have their health care provider transfer the information from their medical records and sign the form.

or

2. Students may complete the top demographic section of the Certificate of Immunization and attach a copy of official documents from undergraduate institutions, military records, high school or other records that fulfill all requirements to the Certificate of Immunization.

A copy of the Certificate of Immunization, which details the necessary immunizations, is available on the student health Web site at: [www.students.vcu.edu/health/docs/immunizations.pdf](http://www.students.vcu.edu/health/docs/immunizations.pdf) [PDF].

Students who cannot provide documented evidence of all required immunizations must see their health care provider, health department or Student Health Services to complete all requirements.

## MCV Campus programs

Warning, probation and suspension are defined by the program of study. Consult program adviser for further details.

## University rules and procedures

Each member of the VCU community has certain responsibilities, rights and privileges. These are stated in some detail in the VCU Rules and Procedures, and all students are responsible for being familiar with provisions of this document. The rules and procedures are printed in the VCU Insider and also are available at the Office of Judicial Affairs and Academic Integrity. This document also provides for the process whereby disciplinary action, including separation from VCU, may be taken against a member of the university community as a result of behavior that is in violation of the prohibited conduct as stated in the VCU Rules and Procedures.

Students at VCU have a right to appeal actions of an academic nature. If such action involves a course grade, the Grade Review Procedures should be followed. If such action involves computing, the Computer Ethics Policy should be followed. If such action involves dishonesty, the Academic Integrity Policy for Monroe Park Campus students should be followed.

All students enrolled in courses on the MCV Campus are subject to the VCU Honor System. Copies of the Honor Code are available in Office of Records and Registration, Sanger Hall, Room 1-055, and the Office of the Associate Dean of Student Affairs, MCV Campus, Hunton Student Center, Room 205.

In addition to those standards of conduct described in VCU Rules and Procedures and the MCV Campus Honor Code, which applies to all students enrolled on the MCV Campus, a student enrolled at the university may be dismissed from the school in which enrolled for failure to meet prescribed academic program requirements. Students appealing termination from a graduate program/department should first pursue appeals at the department and/or the school level. After receiving a decision from the department and/or school, a student has the option of filing an appeal with the dean.

VCU seeks to foster insight, imagination, creativity, resourcefulness, diligence, honesty and responsibility as well as the education of the men and women enrolled in its graduate programs. Such an enterprise can take place only where the highest standards of academic integrity exist.

Academic dishonesty is the giving, taking or presenting of information or material by students with the intent of unethically or fraudulently aiding themselves or others on any work that is to be considered in the determination of a grade or the completion of academic requirements. Students in doubt regarding any matter related to the standards of academic integrity in a given course or on a given assignment should consult with the faculty member responsible for the course before presenting the work.

## Withdrawal policies

### Leave of absence

Students may request a leave of absence from a program through written appeal to their advisers. The adviser will forward the request, following departmental governance procedures, along with a recommendation to the dean, who will respond for the university. Students who do not register for courses for more than one calendar year and who have not been granted a leave of absence must reapply for admission to VCU and to the degree program.

## Withdrawal from the university

To withdraw officially from VCU, a student must submit a complete Official Withdrawal Form to Records and Registration before the end of the 10th week of classes. The Official Withdrawal Form is obtained from Harris Hall, Room 1100, or Sanger Hall, Room 1-055. Failure to complete this form may result in the assignment of failing grades in all or some of the courses. The student's permanent academic record will indicate a grade of withdrawn (“W”) for all courses in which the student was enrolled.

## Health-related withdrawals

While students are expected to work toward completion of their degrees without interruption, health-related problems may necessitate withdrawal from the university.

- Some schools require a statement from a physician indicating the nature and severity of the condition, when a student should stop attending classes, and the estimated date of return to school.
- In the event that a student's health problem poses a danger to the student, to patients or to others with whom the student may come in contact and the student is unable or refuses to initiate steps to withdraw as stated above, administrative withdrawal of the student may be made by the dean upon consultation with the appropriate faculty and a qualified physician.
- Because curricular and course content changes may occur and a student's progress toward a degree may be affected adversely because of an extended absence, specific time periods may be imposed by individual schools with respect to the length of time allowed for absence from school. If there is a delay in return beyond the allotted time period without written consent of the dean, the student may petition for return with advanced standing.
- Some schools require that prior to return to school, the student must submit to the dean a statement from a physician. This statement should document that the condition that necessitated the withdrawal has been corrected to a point where the student can complete successfully all curriculum requirements with reasonable accommodation including classroom, laboratory, clinical and fieldwork experience.

**VCU**

## **2014-15 Graduate and Professional Programs Bulletin**

---

**College of Humanities and Sciences**

The faculty and staff of the College of Humanities and Sciences are dedicated to excellence in teaching, research and public service. The mission of Virginia Commonwealth University provides the framework for this pursuit of excellence.

Teaching and learning are central to the college, and the college is central to educational and intellectual life at VCU. The college meets the educational needs of a diverse student body, provides general education for all undergraduate students of the university, preparatory programs for the health sciences, engineering and law, and educates future teachers in the liberal arts and sciences. The college offers comprehensive undergraduate, graduate and professional programs of study that link a foundation of understanding and knowledge with skills on which students can build careers, become responsible citizens and continue lifelong learning.

Scholarship, creative work and professional accomplishment are essential to teaching and learning. The college is responsible for advancing understanding and increasing knowledge for its own sake, for the educational benefit of its students, and for the good of the larger community.

In both teaching and research, the College of Humanities and Sciences seriously upholds the responsibilities of being part of a public, metropolitan university. Through service and public teaching, the college meets the challenges and opportunities afforded by VCU's urban environment and by its location in the capital of the commonwealth.

The college achieves national and international recognition through the success of its students, the advancement of the disciplines and professions represented by its programs, and through the individual and collaborative research of its faculty.

## History

The College of Humanities and Sciences was organized in 1966 (then the School of Arts and Sciences) as a combination of several existing departments at Richmond Professional Institute: Biology, Chemistry, English, Foreign Languages, and History and Political Science. The departments of Philosophy and Religious Studies, Mathematical Sciences, Physics, Psychology, Sociology and Anthropology, and Political Science were developed or added subsequently.

Arts and Sciences began its first graduate programs in 1969 with master's programs in psychology and sociology. Master's programs in biology and mathematical sciences and a doctoral program in clinical psychology were soon to follow in 1971. In 1974, English/English education began a master's program offered cooperatively by the Department of English and the Division of Teacher Education of the School of Education. In that same year the graduate program in chemistry, a cooperative venture between the departments of Chemistry on the Monroe Park Campus and Pharmaceutical Chemistry on the MCV Campus, was transferred administratively to the School of Arts and Sciences. Beginning in 1976, a master's degree was created in mass communications, while in 1978, a doctoral program in social policy and social work started in cooperation between the Department of Sociology and Anthropology and the School of Social Work.

In July 1981, the School of Arts and Sciences and the Department of Mass Communications were organized into the College of Humanities and Sciences and the School of Mass Communications. The Master of Fine Arts in Creative Writing commenced in 1983 followed by the M.S. in Physics in 1984. Three years later, the Department of Mathematical Sciences established the M.S. in Computer

Science program, and finally, a master's degree in history was initiated in 1994 through the Department of History.

Effective July 1, 1994, the departments of Criminal Justice, Public Administration and Urban Studies joined the college from the dissolved School of Community and Public Affairs. Each department brought to the college both master's and post-baccalaureate certificate programs within their disciplines. The Public Administration program was merged with the Political Science program to form the Department of Political Science and Public Administration. The Ph.D. in Public Administration program was initially incorporated into the newly merged department and now resides in the Center for Public Policy.

## Graduate information

### Graduate programs

The College of Humanities and Sciences offers the following graduate degree programs:

Biology, M.S.  
Chemistry, M.S. and Ph.D.  
Clinical Psychology, M.S. and Ph.D.  
Counseling Psychology, M.S. and Ph.D.  
Creative Writing, M.F.A.  
English, M.A.  
Forensic Science, M.S.  
Health Psychology, Ph.D.  
History, M.A.  
Mathematical Sciences, M.S.  
    applied mathematics  
    mathematics  
    operations research  
    statistics  
Media, Art, and Text, Ph.D.  
Physics, M.S.  
Psychology, M.S. and Ph.D.  
Sociology, M.S.  
Systems Modeling and Analysis, Ph.D.

### Post-baccalaureate certificates

Applied Social Research (graduate)  
Gender Violence Intervention (graduate)  
Statistics (undergraduate)

In addition to these degree programs, the College of Humanities and Sciences offers selected graduate courses in the Department of Philosophy and the School of World Studies (foreign languages and religious studies), but does not offer graduate degree programs in these areas.

### Graduate admission requirements

In addition to the general requirements for admission to graduate studies as stated in the Graduate Studies at VCU chapter of this bulletin, persons seeking admission to any of the graduate programs in humanities and sciences should:

- Have a bachelor's degree in the discipline in which application for graduate study is made or, in some programs as noted, a bachelor's degree in some other appropriate area.
- Submit Graduate Record Examination (GRE) scores (some departments require the scores on the advanced GRE within the discipline; some departments accept LSAT and MAT scores in lieu of GREs).

- Have submitted letters of recommendation that comment on the applicant's ability to undertake graduate study in the specified area.

All applications will be considered in terms of the specific requirements for admission noted in the description of the individual programs and of the applicant's ability to perform satisfactorily in the program for which he/she has applied. The judgment of that ability will be based on the supporting material submitted with the application. Some graduate programs must limit enrollment to a fixed number of the best-qualified applicants. Final action on admission is taken by the dean of the Graduate School in consultation with the College of Humanities and Sciences and the program concerned.

Applicants whose applications reach the university after July 1 for the fall semester and after Nov. 15 for the spring semester may not have their applications processed in time for registration. The applicant whose application arrives late may be considered for admission as a special student, but there is no guarantee that the special student later will be accepted into a degree program. Refer to the programs section of the Graduate School Web site for specific deadlines for all graduate programs.

## Graduate registration

Although most students register for the first semester, which begins in August, they may arrange to begin graduate work during the spring semester with the exception of the programs in clinical and counseling psychology.

## Scholarships, assistantships, fellowships and other financial assistance for graduate students

The College of Humanities and Sciences seeks to attract and support graduate students of the highest caliber and to prepare them, through research and instruction, to meet local and national needs for highly trained men and women. Recognizing that financial limitations may inhibit some qualified students from applying, the college attempts to inform students of the options of various loans, grants and work-study opportunities that are available to them as well as assist them in financing their education by offering various forms of financial aid and facilitating the process of seeking financial assistance from external sources. Additionally, the college believes that the experience of being a teaching or research assistant reinforces the learning that takes place in the classroom. The value of teaching assistants also is recognized as being beneficial to the college's undergraduate programs.

Types of financial aid that are available to graduate students fall into three basic categories: aid that does not have to be repaid (grants, scholarships and tuition waivers), aid that does have to be repaid (loans) and aid that enables students to earn a portion of their school costs (work-study, graduate teaching assistantships and graduate research assistantships).

Offers of financial aid are based on financial need and/or skill and competency. Financial need is determined by information contained in the Federal Application for Student Aid (FAFSA) completed by the student. Not all financial aid is based on financial need. To ascertain your eligibility for the different types of financial aid, contact the VCU Office of Financial Aid at 901 W. Franklin St., P.O. Box 843026, Richmond, VA 23284-3026, (804) 828-6669, and the department to which you will be applying. The university library has reference books listing other types of scholarships and grants. International students should contact: Office of International Education at 916 W. Franklin St., P.O. Box 843043, Richmond, VA 23284-3043, (804) 828-6016.

Graduate teaching assistantships and graduate research assistantships are forms of financial aid that provide teaching and research positions for graduate students within their field of study. These are not loans and do not have to be repaid because the student is actually earning income for services rendered. Usually graduate assistants must work the equivalent of 20 hours per week. Assistantships are awarded to students who have demonstrated academic excellence. Individual departments award the assistantships, which usually include payment of tuition; the teaching and/or research duties of graduate assistants vary among departments. Graduate students interested in seeking these teaching and research positions are advised to contact the departments to which they will apply for admission.

Graduate students applying for financial assistance should remember the following tips:

- Apply early.
- Use federal tax forms to complete the FAFSA.
- Save copies of all forms completed, including tax returns.

- Check with the specific department for application requirements and deadlines.

**Students should assume they are eligible, not ineligible.**

\* Also see departmental listings.

## The student adviser and the graduate committee

All departments offering graduate degrees in the College of Humanities and Sciences provide graduate students with advising either through a single adviser, the student's graduate committee or a departmental graduate committee. For details, students should consult the departmental director of graduate studies or the department chair.

## Graduate degree requirements

- Full-time graduate status shall consist of a minimum of nine and a maximum of 15 credits per semester. No more than 12 semester credits may be earned in a summer session. See the Graduate Studies at VCU chapter of this bulletin for course load requirements for students awarded graduate assistantships.
- Graduate students are required to maintain an overall GPA of 3.0 ("B"). Students who do not maintain a "B" average during the course of their program may be dropped from the program at any time on recommendation of the appropriate department committee to the dean of the Graduate School. If students earn less than a "B" on 20 percent or more of all attempted credits, their graduate status must be reviewed for continuation by the appropriate department committee.
- At least half of the credits required in the student's program must be those designated as exclusively for graduate students; that is, those at the 600 level or above.
- Graduate students must have earned an overall GPA of 3.0 ("B") in order to receive a degree.

In addition to these requirements and those set forth in the Graduate Studies at VCU chapter of this bulletin, students must meet the requirements for specific degrees set forth in the departmental listings. Students also should consult the Continuous Enrollment Policy stated in the [Graduate Studies at VCU](#) section of this bulletin.

VCU requires registration for a defined credit-hour level during both the didactic and research phases of advanced degree training. For programs requiring the preparation of a thesis or dissertation, there is no obligatory linkage between the accumulation of credit hours and an expectation that a degree be awarded.

As a guide to monitoring the timely completion of the degree requiring a thesis or dissertation within the present enrollment framework, the accumulation of 80 credit hours for a master's degree and 180 credit hours for a doctoral degree can be taken to be reasonable credit maxima. Unless stated otherwise, these figures apply only to programs offered by the College of Humanities and Sciences.

Students are required to submit in advance of the date when they expect to receive a degree a Graduation Application Form to the dean of the College of Humanities and Sciences. Deadlines for the submission of the Graduation Application Form are listed in the academic calendars online at <http://www.vcu.edu/academiccalendars>; for departmental deadlines the student should consult the departmental adviser. Individual departments may require additional forms.

## Appeal procedures

Graduate students in the College of Humanities and Sciences have the right to appeal course grades or other academic actions on the grounds of a breach of due process. See the [Graduate Studies at VCU](#) section of this bulletin for a summary of the Grade Review Procedure. An appeal of an academic action other than a grade review is governed by the Graduate Student Academic Appeal Procedure. A copy of this document can be obtained from department offices.

## Richard T. Robertson School of Media and Culture

The Robertson School of Media and Culture prepares effective and skilled communicators through quality instruction, advising and student services, based on real-world applications. Through research, professional service and scholarship in applied communications, the school advances the knowledge and practice of a multidisciplinary and evolving media environment. The school values truth,

ethics, creativity, innovation, collaboration, cultural diversity, shared governance and community engagement.

The school offers a Bachelor of Science in Mass Communications with specialization in one of three sequences: advertising, journalism and public relations. The school also awards the Master of Science in Mass Communications, with concentrations in the areas of integrated PR and advertising, multimedia journalism and strategic public relations.

## Mass communications courses

Descriptions for all courses offered by the university may be accessed through the online courses database at [www.pubapps.vcu.edu/vcucourses](http://www.pubapps.vcu.edu/vcucourses). You may search by unit, subject or keyword, as well as by degree level.

Follow this link to mass communications ([MASC](#)) courses.

## Graduate information

### Admission requirements for graduate study

All areas are open to graduates of accredited colleges and universities. Applicants must satisfy the general requirements for admission to graduate programs in the Graduate School and the College of Humanities and Sciences (see the [College of Humanities and Sciences](#) guidelines in this bulletin). In addition, they should hold a baccalaureate degree in an area appropriate to the program to which they are applying and a GPA that indicates the ability to pursue graduate work. Although the type of undergraduate degree is not critical to admission, the programs require approved undergraduate curricula or the equivalent in order to grant full admission.

## Admission requirements

### Mass Communications, Master of Science (M.S.) with a concentration in integrated public relations and advertising with Fudan University [dual degree]

Degree:	Semester(s) of entry:	Deadline dates:	Test requirements:
M.S.	Spring	Jan 15 (preferred consideration) Mar 15	GRE – general TOEFL (International students only)

In addition to the [general admission requirements of the VCU Graduate School](#), the following requirements represent the minimum acceptable standards for admission:

1. Pass the entrance examination for postgraduate studies in the School of Journalism at Fudan University
2. Attain a qualified English proficiency level (i.e., greater than 600 for TOEFL or equivalent for iBT test)
3. Attain a GRE general test level of more than 1050 with no less than 500 for verbal (or equivalent for revised GRE)

## VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

### General academic regulations for all graduate students in all graduate programs at VCU

## Program goals

The Richard T. Robertson School of Media and Culture prepares effective and skilled communicators through quality instruction, advising and student services, based on real-world applications. Through research, professional service and scholarship in applied communications, the school advances the knowledge and practice of a multidisciplinary and evolving media environment. The school values truth, ethics, creativity, innovation, collaboration, cultural diversity, shared governance and community engagement.

The M.S. in Mass Communications with a concentration in integrated public relations and advertising is offered in collaboration with Fudan University in Shanghai, one of VCU's 16 recognized international partners, and VCU's Richard T. Robertson School of Media and Culture. It is designed to educate Chinese students for the practice, in China, of professional public relations and/or advertising. Because in many agencies and organizations public relations and advertising are integrated, we are integrating the two professional disciplines in one degree program. The program is for Chinese students who have undergraduate degrees from a Chinese institution and who are already working or aspire to work in China for a public relations or advertising agency or an agency that combines the two persuasive communication disciplines. It is also open to students in the U.S. with the same undergraduate education and a desire to work in an internationally active public relations or advertising agency that does business in Asia/China. The program will prepare its students to function at a higher professional level than they can attain with their current academic and professional credentials.

## Student learning outcomes

1. Demonstrate higher-level skills of the public relations management function, including strategy development and critical thinking
2. Communicate clearly and effectively in written and spoken forms appropriate for strategic public relations practice, audiences and the purposes they serve
3. Demonstrate ability to conduct research and evaluation to support strategic public relations decision-making
4. Effectively apply tools and technologies appropriate to managing the process for strategic public relations

## Degree requirements

In addition to general [VCU Graduate School graduation requirements](#), students are required to complete course work in core and elective courses and to conduct significant research.

1. Credit hour requirements: This degree requires a minimum of 31 credit hours beyond the baccalaureate, of which 18 credit hours are from VCU and 13 credit hours — preparatory foundation courses and thesis supervision — are taken at Fudan University's School of Journalism. At least one-half of the credit hours presented for graduation must be at the 600 level or higher. Upon completion of all requirements, students in this dual master's degree program will receive both the M.S. in Mass Communications from VCU and the Master of Literature from Fudan University.

The dual degree program generally takes three academic years. The first three semesters are typically completed at Fudan. Students will continue their studies in VCU's Richard T. Robertson School of Media and Culture for three semesters (second semester and summer of the second academic year and fall semester of the third academic year). Students return to Fudan for the final semester.

2. Other requirements: All students are required to demonstrate proficiency in a suite of software programs commonly used by public relations and advertising practitioners before enrolling in their first VCU course.

## Degree candidacy requirements

A graduate student admitted to a program or concentration requiring a final research project, work of art, thesis or dissertation, must qualify for continuing master's or doctoral status according to the degree candidacy requirements of the student's graduate program. Admission to degree candidacy, if applicable, is a formal statement by the graduate student's faculty regarding the student's academic achievements and the student's readiness to proceed to the final research phase of the degree program.

Graduate students and program directors should refer to the following degree candidacy policy as published in the VCU Graduate Bulletin for complete information and instructions.

### Degree candidacy requirements

## Graduation requirements

As graduate students approach the end of their academic programs and the final semester of matriculation, they must make formal application to graduate. No degrees will be conferred until the application to graduate has been finalized.

Graduate students and program directors should refer to the following graduation requirements as published in the Graduate Bulletin for a complete list of instructions and a graduation checklist.

### Graduation requirements

## Other information

The mass communications graduate handbook is available on the Robertson School website at [robertson.vcu.edu/about/advising/handbooks-and-worksheets](http://robertson.vcu.edu/about/advising/handbooks-and-worksheets).

**Apply online at** [graduate.admissions.vcu.edu](http://graduate.admissions.vcu.edu).

## Admission requirements

Mass Communications, Master of Science (M.S.) with a concentration in multimedia journalism			
Degree: M.S.	Semester(s) of entry: Fall	Deadline dates: Jul 1	Test requirements: GRE – general
	Spring	Nov 1	
<b>Admission note:</b> The school may admit other student candidates who submit materials beyond the review deadlines, depending on available space.			

In addition to the [general admission requirements of the VCU Graduate School](#), the following requirements represent the minimum acceptable standards for admission:

1. An undergraduate degree in journalism or a related field or several years of professional journalism experience
2. An undergraduate GPA that exceeds 2.7 overall
3. A GRE (general test) score that indicates the ability to pursue graduate work
4. A detailed CV showing work experience in journalism or appropriate educational credentials
5. Three recommendations from persons who are qualified to give information concerning the applicant's ability for the specific program of study proposed
6. A personal statement detailing specific journalism career goals
7. A portfolio of work in journalism

Students who have not completed baccalaureate course work in journalism or who have not had the appropriate professional experience may be required to take undergraduate courses as a foundation. These do not count toward the graduate degree.

## VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

### General academic regulations for all graduate students in all graduate programs at VCU

## Program goals

The Richard T. Robertson School of Media and Culture prepares effective and skilled communicators through quality instruction, advising and student services, based on real-world applications. Through research, professional service and scholarship in applied communications, the school advances the knowledge and practice of a multidisciplinary and evolving media environment. The school values truth, ethics, creativity, innovation, collaboration, cultural diversity, shared governance and community engagement.

The M.S. in Mass Communications with a concentration in multimedia journalism is designed to prepare students to work in a highly competitive and multiple-platform (print, broadcast, online/digital) news environment. The program is for recent graduates who have an undergraduate degree in journalism or a related field, or for more veteran journalists who want to upgrade their professional skills.

## Student learning outcomes

1. Demonstrate higher-level skills in concept building with a focus on critical thinking, and in the design of journalism news stories and packages with a multimedia focus
2. Communicate clearly and effectively in written and multimedia platforms to serve news audiences
3. Demonstrate the ability to conduct basic research that is applicable to journalism and multimedia
4. Effectively apply tools and technologies to multimedia news stories and packages as appropriate for the news industry and other communication workplaces

## Degree requirements

In addition to general [VCU Graduate School graduation requirements](#), students are required to complete course work in core and elective courses and to conduct significant research.

1. Credit hour requirements: This degree requires 36 credit hours beyond the baccalaureate, 30 of which are in the journalism discipline. Students take an additional six credit hours in a collateral area outside of mass communications. Students in this program learn the theory and practice of journalism in an immersion news environment and can further specialize through graduate electives, projects and stories in any number of “beat” areas. For example, students can focus on coverage of health or the environment or concentrate on learning about international media coverage. At least one-half of the credit hours presented for graduation must be at the 600 level or higher.
2. Other: The program is designed so that students will take three courses each semester (fall and spring). During each semester, two of the courses will be offered in the evenings and one will be offered online. Thus, students will be able to complete the course work over two years of study.

## Admission requirements

Media, Art, and Text, Doctor of Philosophy (Ph.D.)			
Degree: Ph.D.	Semester(s) of entry: Fall	Deadline dates: Jan 15	Test requirements: GRE-General

In addition to the [general admission requirements of the VCU Graduate School](#), the following requirements represent the minimum acceptable standards for admission.

1. Applicants must hold a master's degree (M.A., M.F.A., M.S.) in a relevant field.
2. Send the following, in the formats indicated, by email to the graduate programs adviser. **Note:** Materials submitted in any other way, as specified below (on paper, disk, etc.) will be discarded without review.
  - a. Writing sample demonstrating the ability to write clearly, analyze effectively and conduct original research in advanced doctoral-level seminars. This may be a master's thesis, a graduate-level seminar paper or a published essay. Submit as a PDF by email.

- b. Statement of purpose describing the applicant's interest, motivation and goals in pursuing this degree. The statement should specifically address the importance of interdisciplinarity to the applicant's academic goals, and it should also offer evidence of preparation for the study of media, art, and text. The applicant should indicate the specific area of study and research to be pursued at VCU and identify faculty who might potentially direct dissertation research. Submit as a PDF by email. **Note:** This is a required separate submission of the same essay included in the online application.
  - c. Academic curriculum vitae or professional resume listing all colleges and universities attended and degrees earned, all professional and academic positions held, all publications and/or exhibitions, technical skills, and any other relevant information. Include URLs for personal and/or professional websites. Submit as PDF by email.
  - d. Letters of recommendation from three present or former instructors or other individuals qualified to evaluate the applicant's ability to engage in interdisciplinary study at the doctoral level. Have recommenders submit letters as PDFs directly to Thom Didato using only academic or professional email accounts.
5. Applicants who wish to pursue creative work at VCU must also submit a portfolio. Those with an M.F.A. who do not wish to continue creative work should consult with the MATX director about this requirement. Materials submitted should demonstrate excellence in studio or professional practice and the potential to do graduate-level work in media, art, and text. Portfolios will be reviewed by the MATX admissions committee as well as relevant faculty in the School of the Arts and the Richard T. Robertson School of Media and Culture. Please observe the following guidelines:
- a. Those working in 2-D or 3-D mediums should provide 20 images of representative work arranged chronologically, beginning with the most recent.
  - b. Those working in sound and time-based media, as well as those in the performing arts, should provide clips totaling no more than 10 minutes.
  - c. Those working across media may submit a combination of the above.
  - d. The portfolio should be accompanied by title, date, media and dimensions of the work, as well as a brief statement or other information that will help the admissions committee in evaluating the work.

Small files illustrating 2-D or 3-D work may be submitted as JPEGs or PDFs via email. Sound or video files should be posted to Vimeo or Sound Cloud with a functioning link submitted by email. Portfolio materials may also be posted to a personal or professional website and the link submitted by email.

## VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

### General academic regulations for all graduate students in all graduate programs at VCU

## Program goal

VCU's interdisciplinary doctoral program in media, art, and text is a joint endeavor of the Department of English, the School of the Arts and the Richard T. Robertson School of Media and Culture. The program prepares students primarily to teach at the college or university level, although some pursue careers in related media fields. MATX emphasizes the historical and theoretical foundations essential to the scholarly study of media, both old and new, broadly defined. It provides an intellectually stimulating environment that encourages students to work both collaboratively and independently, as well as across and between disciplines and media. Students maintain a base in their primary area of research, which is usually but not always the field in which they have done prior graduate work.

## Student learning outcomes

1. Develop advanced communication skills in writing, speaking and the use of multimedia
2. Demonstrate broad knowledge of history and theory as the foundation for interdisciplinary work in a specialized facet of media, art, and/or text
3. Develop competence in interdisciplinary and disciplinary research methods and responsible conduct of research
4. Develop specialized knowledge in relevant fields to support dissertation and subsequent research
5. Demonstrate the ability to conduct independent research and produce new, specialized knowledge within the broad parameters of media, art, and text
6. Develop a strong basis for ongoing professional practice

## Degree requirements

In addition to general [VCU Graduate School graduation requirements](#), students are required to complete course work in core and elective courses and to conduct significant research.

1. Credit hour requirements: Students in the MATX program are required to earn a minimum of 42 graduate-level credit hours beyond the master's. At least one-half of the credit hours presented for graduation must be at the 600 level or higher. The 42-hour curriculum comprises 36 hours of course work and a minimum of six hours of dissertation research. Course work includes a core of four required courses taken during the first two semesters by all incoming students. Three doctoral seminars provide a shared historical and theoretical foundation for the study of media, art, and text, while a workshop offers the opportunity to develop and expand professional and/or creative skills relevant to the student's career goals and research focus. In addition, all students will take a research methods course in a field relevant to their anticipated area of dissertation research. Beyond the core, students select 21 hours of elective credit hours from course offerings in disciplines relevant to their research interests and career goals. The program offers a topics seminar focused on the history, theory or practice of media, art, and text. Independent study and internships are also available as electives. While enrollment in courses with the MATX prefix is guaranteed to matriculated MATX students, enrollment in other graduate courses is subject to the conditions established by individual units. Together the core and the electives support the interdisciplinary work of the dissertation, which is an original scholarly examination of some aspect of media, art, and/or text. It may include work in media other than text. It is supervised by a committee consisting of four or five members drawn from disciplines relevant to the research topic.
2. Grade requirements: To graduate, degree applicants must achieve an overall grade point average of 3.0 (B) on a 4.0 scale with a grade of C in no more than two courses. The GPA for graduation will be based on all graduate courses attempted after acceptance into the program.
3. Requirements for admission to candidacy: Before beginning formal dissertation research, students must complete all 36 hours of required course work, both stages of the e-portfolio and the requirements described below. Upon completion of these, the student will apply for degree candidacy.
4. Dissertation committee: The dissertation committee consists of the director (who must hold a Ph.D.) and three or four additional members whose scholarly knowledge and interests are relevant to the project. The committee must have at least one member from each of the sponsoring units (Department of English, School of the Arts, Richard T. Robertson School of

Media and Culture). All must be members of VCU's graduate faculty.

Appropriate faculty from outside VCU may serve on committees (but not as director) with the approval of the MATX director and the graduate dean. It is the student's responsibility to assemble the committee, in consultation with the dissertation director. Committees will not be appointed by the program.

5. E-portfolio: Work on the e-portfolio will begin in MATX 604 in the spring of the first year. There are no technical specifications, and content will include, but is not limited to, work done in the first two years in the program. It will take the form of a website and must demonstrate the technical skills (Web design, audio, video, etc.) relevant to the student's work on the dissertation and the career sought after VCU. Submission is a two-stage process:
  - a. Stage 1 (May of the first year): a three- to five-page design rationale for the portfolio site along with a mock-up or rough structure
  - b. Stage 2 (April of the second year): a finished, live site accompanied by a five-page statement relating it to the student's work inside and outside the program and outlining how it uses media techniques to promote a specific professional and/or creative identity (Note: Each submission is graded pass/fail and may be repeated once. A second failure results in automatic termination from the program.)
3. Competency: Candidates must demonstrate competency in a skill or technique relevant to the dissertation research or planned professional career. The dissertation committee approves and administers the competency portion. Graded pass/fail, the test may be repeated once.
4. Bibliography exam: Candidates will complete an exam on a reading list of 20 to 30 sources relevant to or supportive of the dissertation topic. The dissertation committee approves and administers the bibliography exam. Graded pass/fail, the test may be repeated once.
5. Dissertation prospectus and prospectus defense: The prospectus is a 15- to 20-page document that indicates the significance of the proposed research, gives a short review of relevant literature, states the research question, specifies the proposed methodology and indicates how the project lays the foundation for the anticipated academic or professional career. It also includes a work plan for the completion of research and writing, as well as a complete bibliography. The prospectus is defended orally before the dissertation committee, which may accept, reject or require revisions. The defense may be repeated once.
6. Dissertation and dissertation defense: The dissertation is an original, interdisciplinary and scholarly examination of a topic relevant to an aspect of media, art, and/or text. It may include work in media other than text. Given the varied nature of doctoral research, there is no set time frame for completion of a dissertation. It is expected, however, that the dissertation will take about two years after attaining candidacy, but it must be defended within the eight-year time limit for completion of the doctoral degree. The dissertation will be defended orally before the dissertation committee. Successful defense of the dissertation completes the requirements for the degree.

## Curriculum requirements

Courses	Credit hours
MATX 601 Texts and Textuality	3
MATX 602 History of Media, Art, and Text	3
MATX 603 History of Interdisciplinarity and Multimedia	3
MATX 604 Workshop	3
MATX 897 Dissertation Project	6
Choose one methods course from list 1 below	3
Choose elective courses from list 2 below (Elective courses other than those listed may be taken with approval of the MATX program director and the offering department.)	21
<b>Total graduate credit hours required (minimum)</b>	<b>42</b>

MASC 691 Topics in Mass Communications	1-3
MATX 690 Seminar in Media, Art, and Text	3
MATX 696 Internship	1-3
MATX 791 Directed Study (may be taken for a maximum of 12 credit hours)	1-3

## Degree candidacy requirements

A graduate student admitted to a program or concentration requiring a final research project, work of art, thesis or dissertation, must qualify for continuing master's or doctoral status according to the degree candidacy requirements of the student's graduate program. Admission to degree candidacy, if applicable, is a formal statement by the graduate student's faculty regarding the student's academic achievements and the student's readiness to proceed to the final research phase of the degree program.

Graduate students and program directors should refer to the following degree candidacy policy as published in the VCU Graduate Bulletin for complete information and instructions.

### Degree candidacy requirements

## Graduation requirements

As graduate students approach the end of their academic programs and the final semester of matriculation, they must make formal application to graduate. No degrees will be conferred until the application to graduate has been finalized.

Graduate students and program directors should refer to the following graduation requirements as published in the Graduate Bulletin for a complete list of instructions and a graduation checklist.

#### Graduation requirements

### Other information

The MATX student handbook is available at [matx.vcu.edu/program/handbook](http://matx.vcu.edu/program/handbook).

## School of World Studies

On May 16, 2003, the Board of Visitors of Virginia Commonwealth University approved the creation of the School of World Studies within the College of Humanities and Sciences. The school is a creative, interdisciplinary grouping of subject areas in the humanities and the social sciences that provides its students with the knowledge, skills and experience necessary for success in an increasingly interdependent, globalized 21st century.

Sensitivity to the values, beliefs and structures of other cultures is a necessary characteristic of community and business leaders of the next century. The ability to live and work alongside those who are perceived as different from oneself and to recognize similarities among all humans will become an increasingly essential attribute of an educated citizen.

To achieve its mission, the School of World Studies actively fosters and promotes a wide range of endeavors, including the establishment of interdisciplinary undergraduate and graduate programs with an international focus across the campuses, and develops close ties with such programs as African American studies, womens studies, English, history, life sciences and other units throughout the university. In addition there are collateral requirements such as experiential learning through an approved internship, service-learning course or study-abroad program, the fulfillment of a World Passport, and advanced language skills.

Although the programs currently encompassed by the school are primarily at the undergraduate level, the School of World Studies offers a select number of graduate courses.

### Administration

312 North Shafer Street  
P.O. Box 842021  
Richmond, Virginia 23284-2021  
(804) 827-1111  
Fax: (804) 827-3479

[www.worldstudies.vcu.edu](http://www.worldstudies.vcu.edu)

#### Mark Wood

Associate Professor and Director

#### Angelina Overvold

Associate Professor and Associate Director

### Degree programs

The School of World Studies offers baccalaureate degrees in the following fields:

**Anthropology** – Bachelor of Science

**Foreign Language** – Bachelor of Arts

- French
- German
- Spanish

#### International Studies

**Religious Studies** – Bachelor of Arts

Minors are awarded in these areas:

African studies  
Anthropology  
Arabic and Middle Eastern studies  
Asian and Chinese studies

Catholic studies  
European studies  
French  
German  
International social justice studies  
Islamic studies  
Italian studies  
Judaic studies  
Latin American studies  
Mediterranean studies  
Religious studies  
Russian studies  
Spanish  
World cinema

Undergraduate certificates are awarded in these areas:

- International management studies (in conjunction with the School of Business)
- Spanish/English translation and interpretation

Information regarding curricula is provided on the respective program pages.

### Languages

The School of World Studies offers students significant opportunities to broaden their knowledge of diverse cultures through language study, including:

Arabic  
Biblical Hebrew  
Chinese  
French (major and minor)  
German (major and minor)  
Hindi  
Italian  
Latin  
Portuguese  
Russian (minor)  
Spanish (major and minor)  
Zulu

In cases where the appropriate level of instruction is unavailable, faculty advisers will assist the student in identifying language study options at other U.S. institutions or abroad.

### Study abroad

Summer study-abroad programs provide students with opportunities for short-term immersion in the language, culture and civilization of the countries they visit. A list of current VCU study abroad opportunities can be found at [www.international.vcu.edu/abroad](http://www.international.vcu.edu/abroad). VCU is a member of the International Student Exchange Program, which offers junior year abroad programs at one of 40 universities worldwide. For more information about study abroad or the World Studies Community Scholars, visit the School of World Studies website at [www.worldstudies.vcu.edu](http://www.worldstudies.vcu.edu).

### School of World Studies courses

Descriptions for all courses offered by the university may be accessed through the online courses database at [www.pubapps.vcu.edu/vcucourses](http://www.pubapps.vcu.edu/vcucourses). You may search by unit, subject or keyword, as well as by degree level.

The World School offers courses in the following areas:

Use this link to see anthropology (**ANTH**) courses.

Use this link to see foreign literature in English translation (**FLET**) courses.

Follow these links to geography (**GEOG**) courses or the (**GEOZ**) laboratories.

Use this link to see international studies (**INTL**) courses.

Use this link to see religious studies (**RELS**) courses.

Use this link to see world studies (**WRLD**) courses.

### Foreign language courses

Descriptions for all courses offered by the university may be accessed through the online courses database at [www.pubapps.vcu.edu/vcucourses](http://www.pubapps.vcu.edu/vcucourses). You may search by unit, subject or keyword, as well as by degree level.

Students planning to take a foreign language course at VCU must take the placement test in order to determine proper course selection. Specific information about the placement test is available on the School of World Studies website at [www.has.vcu.edu/wld/placement](http://www.has.vcu.edu/wld/placement).

Students who wish to complete a language through the intermediate level or higher are required to **consecutively** complete 101, 102 and 201 or the equivalent. Students may then choose either 202 or 205 to complete the intermediate level.

The School of World Studies offers courses in the following languages:

Use this link to see Arabic ([ARBC](#)) courses.

Use this link to see Chinese ([CHIN](#)) courses.

Use this link to see foreign languages ([FRLG](#)) courses.

Use this link to see French ([FREN](#)) courses.

Use this link to see German ([GRMN](#)) courses.

Use this link to see Italian ([ITAL](#)) courses.

Use this link to see Latin ([LATN](#)) courses.

Use this link to see Portuguese ([PORT](#)) courses.

Use this link to see Russian ([RUSS](#)) courses.

Use this link to see Spanish ([SPAN](#)) courses.

### Applied Social Research, Certificate in (Post-baccalaureate graduate certificate)

**Program website:** [sociology.vcu.edu](http://sociology.vcu.edu)

Refer to the [program search](#) function of the online VCU Bulletins for a complete listing of all programs, concentrations and related curricular options.

Apply online at [graduate.admissions.vcu.edu](http://graduate.admissions.vcu.edu).

### Admission requirements

Applied Social Research, Certificate in (Post-Baccalaureate graduate certificate)			
Degree:	Semester(s)	Deadline	Test
Certificate	of entry:	dates:	requirements:
	Fall	Jul 1	
Special admission requirements: Students may not be able to enroll full time or complete the certificate in one year given the limits on course scheduling.			

In addition to the [general admission requirements of the VCU Graduate School](#), the following requirements represent the minimum acceptable standards for admission:

- Students possessing a B.A. or B.S. degree and beginning level skills in statistics/research methods are eligible for admission into the certificate program.
- Relevant course or research experience will be considered in evaluating admission and substitution of courses. Equivalency tests are available for required courses in statistics and methods.

## VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

### General academic regulations for all graduate students in all graduate programs at VCU

### Program goal

This certificate program is designed to enable practitioners to acquire additional knowledge and skills in applied social research without necessarily pursuing a graduate degree and provide marketable job/career skills for graduate degree-seeking students in sociology as well as other graduate programs. Because the certificate program involves a limited number of credit hours and coordinates with the type of statistics and methods courses offered in a number of graduate degree programs, it may be pursued simultaneously with other graduate programs such as sociology, social work, public administration, social policy and urban services. At the same time, individuals seeking more limited, specialized training may pursue the certificate independently.

### Student learning outcomes

- To enable practitioners to acquire additional knowledge and skills in applied social research
- To provide marketable job/career skills for graduate degree-seeking students in sociology as well as other graduate programs

### Degree requirements

In addition to the [VCU Graduate School graduation requirements](#), students are required to complete course work in core and elective courses.

- Credit hour requirements: Students in the applied social research certificate program are required to earn a minimum of 18 graduate-level credit hours beyond the baccalaureate.
- Grade requirements: An overall GPA of 3.0 is required for award of the certificate, and no more than three credit hours of C may be earned in the certificate program curriculum.

### Curriculum requirements

Courses	Credit hours
<b>Required courses</b>	
SOCY 601 Methods of Sociological Research	3
SOCY 602 Applications of Methods of Sociological Research	3

**Program website:** [global.vcu.edu/transatlantic](http://global.vcu.edu/transatlantic)

**Refer to the [program search](#) function of the online VCU Bulletins for a complete listing of all programs, concentrations and related curricular options.**

Interdisciplinary Studies, Master of (M.I.S.), with a concentration in interdisciplinary mathematics and science leadership. K-8 mathematics specialist option

**Apply online at** [graduate.admissions.vcu.edu](http://graduate.admissions.vcu.edu).

**Admission requirements**

<b>Interdisciplinary Studies, Master of (M.I.S.) with a concentration in cinema and language with the University of Cordoba in Spain and the University of Messina in Italy</b>			
<b>Degree:</b> M.I.S.	<b>Semester(s) of entry:</b> Fall	<b>Deadline dates:</b> May 1	<b>Test requirements:</b> GRE-General
<b>Special requirements:</b> It is the student's responsibility to obtain the visas necessary to study in Europe and the United States. However, students accepted in the cinema and language concentration will receive assistance with visa applications.			

In addition to the [general admission requirements of the VCU Graduate School](#), the following requirements represent the minimum acceptable standards for admission:

- For admission, **domestic applicants** must submit evidence of knowledge of Italian or Spanish at the "intermediate high" level according to American Council on the Teaching of Foreign Languages guidelines. Domestic students must submit evidence of knowledge of the second language at the "intermediate high" level according to ACTFL guidelines before beginning classes in Europe. Before departure for their first semester abroad (the fall semester at Cordoba begins on Oct. 15), domestic students must function on the following minimum level:
  - Italian: PLIDA (Progetto Lingua Italiana Dante Alighieri) or equivalent, B1 or similar level. The B1 level indicates the capacity to understand spoken and written texts on familiar topics and to interact in the language to express opinions and explanations in an elementary way.
  - Spanish: DELE or equivalent, intermediate-mid/threshold level B1 or similar level. The "Certificado Inicial de Español" proves candidates have sufficient knowledge of the language to handle situations which require an elementary use of the language.
- The achievement of superior language proficiency in their field is one of the most important aims of this concentration. VCU students' proficiency in Spanish and Italian will be assessed by School of World Studies' foreign language faculty according to the guidelines of the ACTFL. (The [proficiency guidelines](#) are available on the ACTFL website.)
- For admission, **European students** must submit transcripts showing that they have received satisfactory grades during their undergraduate studies (minimum GPA of 3.0) and in their first year of graduate study (with no grade lower than C). Students must also pass the TOEFL or the ELP administered by VCU (iBT score of 100; CBT score of 600; or IELTS academic band score of 6.5) and submit a satisfactory GRE score before beginning classes at VCU.
- Upon review of the application and all supporting documentation, the transatlantic curriculum in cinema and language program coordinator will contact applicants and provide further information.

**VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs**

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

**General academic regulations for all graduate students in all graduate programs at VCU**

## Program goals

The cinema and language concentration in the M.I.S. broadens education and career options and is designed to help develop the crucial analytical and communication skills, knowledge base and international experiences needed to pursue a career in the global marketplace.

## Student learning outcomes

1. Students will demonstrate competencies to analyze cinema, as well as other visual media, as a means of cultural and artistic expression, as an audiovisual language and as a frame for complex cultural dynamics.
2. Students will be able to analyze film and other visual media (e.g. Internet in general, social media, documentary films, etc.) from different cultures, drawing on a general frame of intercultural communication.
3. Students will achieve fluency in English, Spanish and Italian, especially in their professional field.
4. Students will prepare for international careers through engaged learning and transatlantic team-building experiences with internships in cultural events such as the Taormina Film Festival, the French Film Festival and the FilMOTECA de Andalusia.

## Degree requirements

In addition to general [VCU Graduate School graduation requirements](#), students are required to complete course work in core and elective courses and to conduct significant research.

1. Credit hour requirements: The cinema and language concentration requires 44 credits (semester hours) of course work, with 20 credits taken at the University of Cordoba in Spain and the University of Messina in Italy and 24 hours taken at VCU. At least one-half of the credit hours presented for graduation must be at the 600 level or higher. Each fall, cohorts of VCU and European students (from University of Messina and University of Cordoba) begin a two-year (four-semester) graduate program. Typically, European students spend the first semester of their first year at the University of Cordoba, second semester at the University of Messina and remaining two semesters at VCU. Domestic students spend their first and second semesters at VCU, third semester at the University of Cordoba and fourth semester at the University of Messina.
2. Other requirements: The final requirement of the program is completion of a directed research project, during which the student is registered for GRAD 697 Directed Research. This is a capstone project culminating in a synthesis of the academic course work and internship experiences as outlined in the student's curriculum plan. Before registration for GRAD 697, a student must have submitted a final project proposal, which has been approved by the concentration graduate program director and the M.I.S. graduate program director. The research project must be graded by a VCU graduate faculty member and a student must receive a grade of A or B in GRAD 697 in order to graduate from the program.
3. Master's-level candidacy: After receiving approval to begin the final directed research project, a student must submit and receive approval for degree candidacy. Approval of degree candidacy must be obtained before a student can begin the final semester of study. Because of the sequencing of cinema and language course work, approval for the final project and degree candidacy may need to occur simultaneously.

## Curriculum requirements

Courses	Credit hours
<b>Virginia Commonwealth University</b>	<b>24</b>

## Degree candidacy requirements

A graduate student admitted to a program or concentration requiring a final research project, work of art, thesis or dissertation, must qualify for continuing master's or doctoral status according to the degree candidacy requirements of the student's graduate program. Admission to degree candidacy, if applicable, is a formal statement by the graduate student's faculty regarding the student's academic achievements and the student's readiness to proceed to the final research phase of the degree program.

Graduate students and program directors should refer to the following degree candidacy policy as published in the VCU Graduate Bulletin for complete information and instructions.

### Degree candidacy requirements

## Graduation requirements

As graduate students approach the end of their academic programs and the final semester of matriculation, they must make formal application to graduate. No degrees will be conferred until the application to graduate has been finalized.

Graduate students and program directors should refer to the following graduation requirements as published in the Graduate Bulletin for a complete list of instructions and a graduation checklist.

### Graduation requirements

**Interdisciplinary Studies, Master of (M.I.S.), with a concentration in interdisciplinary mathematics and science leadership/K-8 mathematics specialist**

### Graduate program director

Aimee J. Ellington, Ph.D.  
Director, M.I.S. interdisciplinary mathematics and science leadership program  
[ajellington@vcu.edu](mailto:ajellington@vcu.edu)  
(804) 828-5521

**Program website:** [math.vcu.edu/graduate-programs/mis-specialists](http://math.vcu.edu/graduate-programs/mis-specialists)

**Refer to the [program search](#) function of the online VCU Bulletins for a complete listing of all programs, concentrations and related curricular options.**

Interdisciplinary Studies, Master of (M.I.S.), with a concentration in cinema and language with the University of Cordoba in Spain and the University of Messina in Italy

Apply online at [graduate.admissions.vcu.edu](http://graduate.admissions.vcu.edu).

## Admission requirements

Interdisciplinary Studies, Master of (M.I.S.), with a concentration in interdisciplinary mathematics and science leadership/K-8 mathematics specialist			
Degree:	Semester(s) of entry:	Deadline dates:	Test requirements:
M.I.S.	Fall	May 1	GRE-General or MAT
<b>Special requirements:</b> Upon review of the application and all supporting documentation, the mathematics/science leadership program coordinator will contact applicants to schedule interviews to develop programs of study that will detail specific courses to be taken and the institutions offering those courses.			

In addition to the [general admission requirements of the VCU Graduate School](#), the following requirements represent the minimum acceptable standards for admission:

- At least three years of successful K-8 mathematics and/or science teaching experience
- Three recommendations: at least one from an immediate supervisor or principal and at least one that addresses leadership potential
- Submission of satisfactory scores on either the GRE or MAT from a current test (fewer than five years old) (Provisional admission may be granted pending fulfillment of this requirement.)
- A written statement of intent that provides evidence of at least three years of experience in teaching mathematics and/or science for kindergarten through eighth grades
- Interview to develop program of study (Program director will contact student after initial review of application.)

## VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

### General academic regulations for all graduate students in all graduate programs at VCU

## Program goals

The interdisciplinary mathematics and science leadership concentration in the M.I.S. program is designed for in-service teachers of mathematics for kindergarten through eighth grades. In designing their individual programs, students, in conjunction with their advisers, may select courses offered by VCU mathematics, science and education departments and courses offered by other collaborating Virginia colleges and universities. The Graduate School, the College of Humanities and Sciences, the School of Education and the departments of Mathematics and Applied Mathematics and Teaching and Learning administer the program.

## Student learning outcomes

- Students will write mathematics (not including mathematical proofs) clearly, concisely and correctly.
- Students will solve mathematical problems.
- Students will use multiple representations to correctly describe mathematical ideas.
- Students will study K-12 children's work and use it to demonstrate knowledge of children's thinking.
- Students will write mathematical proofs clearly, concisely and correctly.
- Students will collaborate on projects.
- Students will read and comprehend mathematical works and mathematics education works, including national and state standards.
- Students will analyze and synthesize mathematics education literature.
- Students will make effective written and oral presentations to demonstrate their understanding of mathematical ideas and mathematics education ideas.
- Students will (a) analyze and develop rich mathematical tasks for children and adults, (b) study and implement models of mathematics coaching, (c) study and implement professional development models.
- Students will study and implement models of formative and summative assessment.
- Students will study and implement effective methods of communicating with teachers and administrators.

## Degree requirements

In addition to general [VCU Graduate School graduation requirements](#), students are required to complete course work in core and elective courses and to conduct significant research.

- Credit hour requirements: Students in the interdisciplinary mathematics and science leadership concentration are required to earn a minimum of 39 graduate-level credit hours beyond the baccalaureate. The discipline focus areas are required to be in mathematics and either the sciences or mathematics/science education. At least one-half of the credit hours presented for graduation must be at the 600 level or higher.
- Other requirements: At least 18 of the 39 credits, including the final project, must be granted by VCU. Up to six transfer credits may be approved, and the remainder of the credits must be from consortium partners as approved by the students' advisers, the VCU Graduate School and the Mathematics and Science Leadership Advisory Committee. A maximum of six hours may be taken as a nondegree-seeking student before admission to the program.
- The final project must be supervised by a VCU graduate faculty member, may be in mathematics, science or education and must include an indication of the relationship of the subject of the project to teaching at the kindergarten-through-eighth-grade level.

## Curriculum requirements

Courses	Credit hours
MATH 661 Number and Operations (a prerequisite for all other required courses)	3
MATH 662 Geometry and Measurement	3
MATH 663 Functions and Algebra	3
MATH 664 Statistics and Probability	3
MATH 665 Rational Numbers and Proportional Reasoning	3
TEDU 657 Mathematics Education Leadership I	3
TEDU 658 Mathematics Education Leadership II	3
TEDU 659 Mathematics Education Leadership III	3
TEDU 680 Externship Proposal Seminar	3
TEDU 700 Externship	3
Elective courses chosen from the list below with adviser approval (One three-credit course must be taken in the area of education.)	9

<b>Total graduate credit hours required (minimum)</b>	<b>39</b>
<b>Recommended electives</b>	
BIOL (500- and 600-level)	3
CHEM (500- and 600-level)	3
MATH (500- and 600-level)	3
TEDU (500- and 600-level)	3

## Degree candidacy requirements

A graduate student admitted to a program or concentration requiring a final research project, work of art, thesis or dissertation, must qualify for continuing master's or doctoral status according to the degree candidacy requirements of the student's graduate program. Admission to degree candidacy, if applicable, is a formal statement by the graduate student's faculty regarding the student's academic achievements and the student's readiness to proceed to the final research phase of the degree program.

Graduate students and program directors should refer to the following degree candidacy policy as published in the VCU Graduate Bulletin for complete information and instructions.

### Degree candidacy requirements

## Graduation requirements

As graduate students approach the end of their academic programs and the final semester of matriculation, they must make formal application to graduate. No degrees will be conferred until the application to graduate has been finalized.

Graduate students and program directors should refer to the following graduation requirements as published in the Graduate Bulletin for a complete list of instructions and a graduation checklist.

### Graduation requirements

## Sociology, Master of Science (M.S.)

### Graduate program director

Julie A. Honnold, Ph.D.  
[jhonn@vcu.edu](mailto:jhonn@vcu.edu)  
 (804) 828-6680

### Additional contact

Jennifer A. Johnson, Ph.D.  
 Chair, Sociology  
[jajohnson3@vcu.edu](mailto:jajohnson3@vcu.edu)  
 (804) 828-6826

**Program website:** [sociology.vcu.edu](http://sociology.vcu.edu)

Refer to the [program search](#) function of the online VCU Bulletins for a complete listing of all programs, concentrations and related curricular options.

Sociology, Master of Science (M.S.), accelerated Bachelor of Science in Sociology (B.S.) to master's

Apply online at [graduate.admissions.vcu.edu](http://graduate.admissions.vcu.edu).

## Admission requirements

Sociology, Master of Science (M.S.)			
Degree:	Semester(s) of entry:	Deadline dates:	Test requirements:
M.S.	Fall	Apr 1 (Mar 1 for financial aid)	GRE-General
	Spring	Oct 1	
<b>Special requirements:</b> *Deadlines are designed to allow sufficient time for application review and admission processing. Applications may be submitted after the deadline; however, sufficient time for processing cannot be guaranteed. Any application submitted too late for current semester processing will be considered for the following semester.  A limited number of assistantships are available for qualified applicants. Applicants for assistantships should have their files complete by Feb. 15. Individuals not applying for assistantships should file their applications for graduate study as early as possible to permit adequate review and to ensure consideration. Applications that reach VCU after July 1 for the fall semester and after Nov. 15 for the spring semester may not be processed in time for registration.			

In addition to the [general admission requirements of the VCU Graduate School](#), the following requirements represent the minimum acceptable standards for admission.

1. Admission priority is given to students with a minimum undergraduate GPA of 3.0 on a 4.0 scale. Students with GPA below 3.0 will be evaluated by the director of graduate studies and members of the graduate faculty on the basis of the GRE scores, recommendations from references and other data submitted by applicants.
2. To be admitted as a regular graduate student, applicants should have completed 24 semester hours in the social sciences (including history), with at least 12 credits in sociology. Undergraduate work in sociology should include a survey of sociological theory, research methods and statistics. Students who otherwise are qualified for admission but lack this background may be admitted provisionally, with the stipulation that they may be requested to make up any deficiencies specified by the director of graduate studies.

## VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

### General academic regulations for all graduate students in all graduate programs at VCU

## Program goals

The goal of the graduate program in sociology is to facilitate the development of theoretical, methodological and substantive competence appropriate for students' interests and career goals. In keeping with VCU's role as an urban institution, the program focuses on the study of urban social problems, policy alternatives and strategies for change.

## Student learning outcomes

1. Students will demonstrate an understanding of the key concepts developed by classical and modern sociological theorists.
2. Students will demonstrate an ability to apply a detailed comprehension of diversity and of inequality to the analysis of social issues.
3. Students will demonstrate advanced knowledge of sociological concepts such as culture, roles, norms, social structure, social institution, socialization and stratification.
4. Students will demonstrate knowledge of methodological approaches and data analysis techniques in sociology.
5. Students will demonstrate the ability to use sociological theory in the critical analysis of sociological issues and research questions.
6. Students will demonstrate the ability to present clear, organized and coherent arguments in the analysis of sociological issues.
7. Students will demonstrate the ability to use methodological skills in the critical evaluation of existing sociological research and the discussion of alternative research methods.

## Degree requirements

In addition to general [VCU Graduate School graduation requirements](#), the following requirements apply:

1. Credit hour requirements: Students in the M.S. in Sociology program are required to earn a minimum of 36 graduate-level credit hours beyond the baccalaureate. At least one-half of the credit hours presented for graduation must be at the 600 level or higher.
2. Other requirements: Students are required to apply for either the thesis or applied sociology (non-thesis) option by the end of their second semester in the program. The thesis option is completed through on-campus courses, and the applied option may be completed through either on-campus or online courses. Degree requirements for the two options are shown below. Incoming students apply as either on-campus students (both options) or online students (applied option only). Incoming students choosing the online applied option must make that decision prior to beginning the program and continue as such until obtaining the degree. For the thesis option, a master's thesis will be developed under the guidance of a thesis committee (three faculty members including a thesis adviser) and must be defended publicly.

## Curriculum requirements

Thesis option	
Courses	Credit hours
<b>Required core courses</b>	<b>9</b>
SOCY 502 Contemporary Sociological Theory	3
SOCY 601 Methods of Sociological Research	3
SOCY 602 Application of Methods of Sociological Research	3
<b>Thesis option courses</b>	<b>27</b>
SOCY/STAT 608 Statistics for Social Research	3
SOCY 698 M.S. Thesis [1]	1-6
Electives (Choose courses from list of recommended electives below.)	18-23
<b>Total graduate credit hours required</b>	<b>36</b>
<b>Applied sociology option (non-thesis)</b>	
<b>Courses</b>	<b>Credit hours</b>
<b>Required core courses</b>	<b>9</b>
SOCY 502 Contemporary Sociological Theory	3

SOCY 601 Methods of Sociological Research	3
SOCY 602 Application of Methods of Sociological Research	3

### Applied sociology option courses **27**

SOCY/STAT 508 Introduction to Social Statistics or SOCY/STAT 608 Statistics for Social Research	3
SOCY 693 Internship	6
Electives (Choose courses from list of recommended electives below.)	18

Total graduate credit hours required	36
--------------------------------------	----

### Recommended electives [2]

ADMS (600-level)  
 ANTH (500-level)  
 CRJS (500- to 600-level)  
 ECON (500- to 600-level)  
 GEOG (500- to 600-level)  
 GRAD (600-level)  
 GRTY (500- to 600-level)  
 GSWS (500- to 600-level)  
 GVPA (500- to 600-level)  
 HADM (600-level)  
 NURS (500- to 600-level)  
 PADM (500- to 600-level)  
 PHIL (500- to 600-level)  
 POLI (500-level)  
 PSYC (600-level)  
 RHAB (500- to 600-level)  
 SBHD (600-level)  
 SEDP (500- to 600-level)  
 SOCY (500- to 600-level)  
 SOCY 692 Independent Study [3]  
 SLWK (600-level)  
 SPTL (600-level)  
 URSP (500- to 600-level)

[1] A maximum of six credits of SOCY 698 may be presented toward the degree.

[2] A maximum of six credits from outside sociology may be presented toward the degree.

[3] A maximum of six credits of SOCY 692 may be presented toward the degree.

## Degree candidacy requirements

A graduate student admitted to a program or concentration requiring a final research project, work of art, thesis or dissertation, must qualify for continuing master's or doctoral status according to the degree candidacy requirements of the student's graduate program. Admission to degree candidacy, if applicable, is a formal statement by the graduate student's faculty regarding the student's academic achievements and the student's readiness to proceed to the final research phase of the degree program.

Graduate students and program directors should refer to the following degree candidacy policy as published in the VCU Graduate Bulletin for complete information and instructions.

### Degree candidacy requirements

## Graduation requirements

As graduate students approach the end of their academic programs and the final semester of matriculation, they must make formal application to graduate. No degrees will be conferred until the application to graduate has been finalized.

Graduate students and program directors should refer to the following graduation requirements as published in the Graduate Bulletin for a complete list of instructions and a graduation checklist.

#### Graduation requirements

### Sociology, Master of Science (M.S.), accelerated Bachelor of Science in Sociology (B.S.) to master's

#### Graduate program director

Julie A. Honnold, Ph.D.  
[jhonn@vcu.edu](mailto:jhonn@vcu.edu)  
 (804) 828-6680

#### Additional contact

Jennifer A. Johnson, Ph.D.  
 Chair, Sociology  
[jajohnson3@vcu.edu](mailto:jajohnson3@vcu.edu)  
 (804) 828-6826

Program website: [sociology.vcu.edu](http://sociology.vcu.edu)

Refer to the [program search](#) function of the online VCU Bulletins for a complete listing of all programs, concentrations and related curricular options.

Sociology, Master of Science (M.S.)

Apply online at [graduate.admissions.vcu.edu](http://graduate.admissions.vcu.edu).

The accelerated B.S. and M.S. program allows qualified students, with a major in sociology, to earn both degrees in a minimum of five years by completing approved graduate courses during the senior year of the undergraduate program. The program will provide students with the opportunity to expand and deepen their knowledge of sociology, enhance their credentials for the job market, and/or prepare for further professional education. Students in the program may count up to 12 hours of graduate courses toward both the B.S. and M.S. degrees. Thus, the two degrees may be earned with a minimum of 144 hours instead of the 156 required if the degrees are pursued separately.

The program is restricted to students who have demonstrated a clear interest in sociology. Minimum qualifications for admittance to the program include completion of 90 undergraduate credit hours with an overall GPA of 3.0, and a minimum of nine credit hours in sociology with a GPA of 3.3. Prior to being formally considered for admittance and before enrolling in graduate courses, the student must complete the graduate school application, submit GRE general aptitude scores and supply supporting information required for admission. All persons admitted to the program must meet the graduate student standards of performance, e.g., maintain a 3.0 GPA, and satisfactorily complete all requirements for the degree.

The director of graduate studies will provide guidance to students in this program. Students who are interested in this program should consult with the director of graduate studies or the director of undergraduate studies before they have completed 90 credits. Both directors may be contacted for more information about admission procedures.

Requirements for the Bachelor of Science in Sociology include the completion of a minimum of 120 credits. Students in the accelerated program may take up to six graduate sociology credits in each of the final two semesters of their undergraduate course work. These courses are shared credits with the graduate program, meaning that they will be applied to both undergraduate and graduate degree requirements. A maximum of 12 graduate credits may be taken prior to completion of the baccalaureate degree.

The B.S. degree will be awarded when the student has completed all requirements for the undergraduate degree, which may include the 12 graduate sociology credits. The graduate sociology courses that may be taken, once a student is admitted to the program, include: SOCY 502, SOCY/STAT 508, SOCY/STAT 608, SOCY 601 and other SOCY graduate courses, with the approval of the director of graduate studies. Such courses may serve as an elective requirement for the M.S. degree and an elective for the undergraduate major. All accelerated program students must have their schedules approved by the director of graduate studies prior to registration.

Refer to the [program search](#) function of the online VCU Bulletins for a complete description of both programs, including application instructions and deadlines.

## Department of African American Studies

#### Aashir Nasim

Associate Professor and Department Chair

[www.afam.vcu.edu](http://www.afam.vcu.edu)

The Department of African American Studies at Virginia Commonwealth University provides an educationally rich environment in which students and scholars research, learn and teach about the past and present realities of people of African descent. Employing a wide range of theories, perspectives, methods and tools, African American Studies faculty explore social, political, economic and cultural realities and connections between the experiences of persons in Africa and throughout the African Diaspora. The department emphasizes experiential learning, offers study abroad opportunities and internships.

### African American studies courses

Descriptions for all courses offered by the university may be accessed through the online courses database at [www.pubapps.vcu.edu/vcucourses](http://www.pubapps.vcu.edu/vcucourses). You may search by unit, subject or keyword, as well as by degree level.

Follow this link to African American studies (AFAM) courses.

## Department of Biology

The Department of Biology offers programs leading to baccalaureate, master's and doctoral degrees; the doctoral degree is offered through the Integrative Life Sciences program. Students may specialize within many areas, such as molecular and cellular biology, genetics, aquatic and terrestrial ecology, systematics, physiology, neurobiology, and developmental biology. Students also may develop an interdisciplinary focus to their degree program, for example within areas such as bioinformatics, cancer biology, forensic science and environmental science.

In addition to the courses offered by the Department of Biology, graduate students may enroll in graduate courses offered through VCU Life Sciences and these departments at the VCU Medical Center: Anatomy and Neurobiology, Biochemistry, Biostatistics, Human and Molecular Genetics, Microbiology and Immunology, Pathology, Pharmacology and Toxicology, and Physiology and Biophysics. Visit the Department of Biology's Web site: [www.has.vcu.edu/bio](http://www.has.vcu.edu/bio).

### Administration

#### Donald R. Young

Professor and Department Chair

#### Jennifer K. Stewart

Associate Professor and Director of Graduate Studies

[www.has.vcu.edu/bio](http://www.has.vcu.edu/bio)

### Biology courses

Descriptions for all courses offered by the university may be accessed through the online courses database at [www.pubapps.vcu.edu/vcucourses](http://www.pubapps.vcu.edu/vcucourses). You may search by unit, subject or keyword, as well as by degree level.

The following courses do not apply toward the major in biology: BIOL 101, BIOZ 101, BIOL/ENVS 103, BIOL 201, BIOZ 201, BIOL 205, BIOZ 205, PHIS 206, PHIZ 206, BIOL 209, BIOZ 209, BIOL 217, and BIOL 332. A C grade or better in each prerequisite course is required for enrollment in all biology courses BIOL 205 or higher that have prerequisites listed in their course descriptions.

Follow these links to biology (BIOL) courses or the (BIOZ) laboratories.

### Biology, Master of Science (M.S.)

#### Graduate program director

Jennifer K. Stewart, Ph.D.  
 Director of graduate studies  
[jstewart@vcu.edu](mailto:jstewart@vcu.edu)  
 (804) 828-0650

Program website: [biology.vcu.edu/graduate/ms](http://biology.vcu.edu/graduate/ms)

Refer to the [program search function of the online VCU Bulletins](#) for a complete listing of all programs, concentrations and related curricular options.

Apply online at [graduate.admissions.vcu.edu](http://graduate.admissions.vcu.edu).

#### Admission requirements

Biology, Master of Science (M.S.)			
Degree:	Semester(s) of entry:	Deadline dates:	Test requirements:
M.S.	Fall	Jan 15	GRE
	Spring and Summer	By special permission of graduate director	

In addition to the [general admission requirements of the VCU Graduate School](#), the following requirements represent the minimum acceptable standards for admission:

1. Bachelor's degree in biological or related science or equivalent
2. Appropriate college-level background in mathematics, chemistry and physics
3. Three letters of recommendation pertaining to the applicant's potential ability as a graduate student in biology
4. Student's written statement concerning career and research interests
5. Transcripts of all previous college work
6. Satisfactory scores on the GRE (general test)

### VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

#### General academic regulations for all graduate students in all graduate programs at VCU

#### Program goals

The Department of Biology prepares graduate students for:

1. Admission to doctoral programs
2. Employment in laboratory and field programs in private industry or government agencies
3. Teaching in secondary schools
4. Admission to schools of medicine, dentistry and veterinary medicine

#### Student learning outcomes

1. Acquire training within the chosen subdiscipline of biology through course work and thesis research
2. Learn the most recent advances in the respective field through classroom instruction, seminars and informal discussions with faculty and peers
3. Learn cutting-edge research techniques through thesis research

4. Develop skills for presentation of thesis research
5. Develop skills for publication of research

#### Degree requirements

In addition to general [VCU Graduate School graduation requirements](#), students are required to complete course work in core and elective courses and to conduct significant research.

1. Credit hour requirements: Master of Science degree candidates are required to take a minimum of 30 graduate credit hours. A maximum of six credit hours from graduate course work taken at other institutions may be transferred if they meet approval of the department.
2. Grade requirements: Receipt of a grade of C or lower in two courses constitutes automatic dismissal from the graduate program in biology. Courses with a grade of C or lower cannot be applied to satisfying the degree requirements.
3. Other requirements: All graduate students are required to write a thesis proposal and a formal thesis following a prescribed format. In order to initiate thesis research, the thesis proposal must be approved by the student's graduate committee and the chair of the department, and the student must be approved for degree candidacy. Each student will be required to pass a final examination, which will be primarily a defense of the thesis. Students may specialize within many areas, such as molecular and cellular biology, genetics, aquatic and terrestrial ecology, systematics, physiology, neurobiology and developmental biology. Students also may develop an interdisciplinary focus to their degree programs, for example, within areas such as bioinformatics, cancer biology, forensic science and environmental science.

#### Curriculum requirements

Courses	Credit hours
<b>Required courses</b>	<b>11-16</b>
BIOL 693 Current Topics in Biology	2-4
BIOL 698 Thesis	6-9
BIOS/STAT 543 Statistical Methods I (Students should take STAT 543 as early as possible. Students entering the program with a statistics background equivalent to STAT 543 may petition to have this requirement waived.)	3
<b>Recommended electives</b>	<b>14-19</b>
Choose courses from the following list of recommended electives in consultation with adviser.	
BIOL/BNFO 601 Integrated Bioinformatics	3
BIOL 606 Quantitative Ecology	3
BIOL 610 Conservation Applications	3
BIOL 618 Ecosystems Ecology	3
BIOL 626 Physiological Ecology	4
BIOL 630 Patterns of Mammalian Reproduction	3
BIOL 640 Evolution and Molecular Markers	3
BIOL 650 Conservation Genetics	3
BIOL/ENVS/URSP 654 Environmental Remote Sensing	3
BIOL 660 Developmental Biology	3
BIOL 676 Plant and Animal Cell Biology	3
BIOL 690 Biology Seminar	1
BIOL 691 Special Topics in Biology	1-4
BIOL 692 Independent Study	1-4
Any 500-level course in BIOS or STAT (six credit hour maximum includes BIOS 543/STAT 543)	6 (maximum)
Any 500- or 600-level course in BIOL, BIOC, BNFO, CLSE, EGRB, ENVS, HGEN, LFSC, MICR, NEUS, PCEU, PHTX or PHIS	6 (maximum)
Any 600-level course in EDUS, GRAD, PSYC or URSP	6 (maximum)

Note: At least 19 credit hours must be courses designated exclusively for graduate students.

**Total graduate credit hours required (minimum)** **30**

## Degree candidacy requirements

A graduate student admitted to a program or concentration requiring a final research project, work of art, thesis or dissertation, must qualify for continuing master's or doctoral status according to the degree candidacy requirements of the student's graduate program. Admission to degree candidacy, if applicable, is a formal statement by the graduate student's faculty regarding the student's academic achievements and the student's readiness to proceed to the final research phase of the degree program.

Graduate students and program directors should refer to the following degree candidacy policy as published in the VCU Graduate Bulletin for complete information and instructions.

### Degree candidacy requirements

## Graduation requirements

As graduate students approach the end of their academic programs and the final semester of matriculation, they must make formal application to graduate. No degrees will be conferred until the application to graduate has been finalized.

Graduate students and program directors should refer to the following graduation requirements as published in the Graduate Bulletin for a complete list of instructions and a graduation checklist.

Environmental Studies, Master of Science (M.S.)			
Degree: Ph.D.	Semester(s) of entry: Fall (preferred)	Deadline dates: Jan 10	Test requirements: GRE  International students require TOEFL
<b>Special requirements:</b> All application components must be received by Jan. 10 to be competitive.			

In addition to the [general admission requirements of the VCU Graduate School](#), the Ph.D. in Integrative Life Sciences program requires graduation from an accredited college or university or its equivalent with a degree that is preparative for graduate-level study in the life sciences. Applicants should have a minimum GPA of 3.0 on a 4.0 scale, and scores on the Graduate Record Examination should exceed the 50th percentile in each category. For international applicants, satisfactory scores from a standardized test, such as the TOEFL (above 100), must be submitted along with external evaluation of undergraduate transcripts from nondomestic educational institutions ([see Graduate Admissions website](#) for further details).

Letters of recommendation from three present or former professors, advisers or mentors qualified to evaluate the applicant's ability to engage in graduate study in the life sciences are required, as is a written statement describing the applicant's research interests, motivation, research experience, education and goals for pursuing graduate study in this particular program, and preferred research adviser(s), official transcripts from all past postsecondary educational institutions, official GRE scores, and current curriculum vita or resume. Applicants are **strongly** encouraged to contact potential research advisers prior to submitting application materials and to identify potential research advisers in their personal statements.

Students accepted into the program with a 3.4 and higher undergraduate GPA and/or experience of success in graduate course work will be provided with a stipend and tuition and fees for the first year of matriculation. Following satisfactory progress during the first year and the availability of funds, a second year of funding (stipend, tuition and fees) is available. Preference is given to applicants with preidentified research advisers.

## VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

### General academic regulations for all graduate students in all graduate programs at VCU

## Program mission

The Ph.D. in Integrative Life Sciences is designed for students who want to conduct research that is integrative across multiple disciplines and that takes a systems approach to emerging research questions across the many fields that comprise the life sciences. Students may opt to work with faculty members from departments across VCU campuses. The program provides the opportunity to conduct interdisciplinary research at multiple scales of study from the molecular to ecosystem levels with an emphasis on the concepts of systems biology and biological complexity.

## Program goals

1. **Interdisciplinary knowledge and skills:** The core curriculum of the ILS program will effectively assist students in gaining understanding of modern systems biology along with training in the interdisciplinary skills and knowledge increasingly required for doing effective research in the life sciences. It will also foster progressive development of a mastery of the current state of the research in students' areas of interest as they seek to identify key focus areas for their integrative research.
2. **Research skills:** The mentored research component of the program, building on the core curriculum and interdisciplinary elective course work, will foster development of an ability to synthesize this learning and identify key focus areas for integrative research. It will support students as they learn how to design, implement and interpret interdisciplinary experimental approaches that will best address their research questions.
3. **Communication skills:** Students in the program will develop skills in both written and oral communication of life science knowledge, experimental design, results and interpretation to a variety of potential audiences.

## Student learning outcomes

1. **Oral communication skills:** The candidate will demonstrate the achievement of an appropriate level of oral communication skills with respect to the content, organization, logical flow, presentation and appropriate use of language incorporating the use of visual aids, as measured by rubric.
2. **Written communication skills:** The candidate will demonstrate the achievement of an appropriate level of written communication skill with respect to grammar, syntax, spelling and use of vocabulary to effectively present information including the use of figures, tables and citations, as measured by rubric.
3. **Experimental design:** The candidate will demonstrate the achievement of an appropriate level of competence in the ability to appraise, modify, and/or create and implement experimental protocols and to design and develop experiments, as measured by rubric.
4. **Problem-solving skills:** The candidate will demonstrate an appropriate level of skill in the identification and selection of meaningful problems to be addressed in bioscience research, including the ability to defend said identifications and to design and develop appropriate methods to solve said problems, as measured by rubric.
5. **Integrated knowledge:** The candidate will demonstrate an appropriate level of knowledge of the life sciences and a more detailed understanding of the disciplines most pertinent to their own interdisciplinary research areas, including an appropriate familiarity with the research literature and the ability to evaluate and critique publications, as measured by rubric.

## Degree requirements

In addition to general [VCU Graduate School graduation requirements](#), students are required to complete course work in core and elective courses and to conduct significant research. All work toward the degree must be completed within eight years of the first enrollment.

1. **Credit-hour requirements:** Students in the program are required to earn a minimum of 64 graduate-level credit hours. At least one-half of the graduate credit hours presented for graduation must be at the 600 level or higher.
2. **Grade requirement:** Degree applicants must achieve an overall GPA of 3.0 (B) with a grade of C in no more than two courses. The GPA for graduation is based on all graduate courses attempted after acceptance into the program.
3. **Transfer credit:** Graduate-level VCU course work taken as a nondegree-seeking student or in a previous graduate matriculation for which a degree was never awarded may be evaluated to determine whether it can be used to fulfill degree requirements of this program in accordance with the [VCU Graduate School transfer policy](#). A maximum of six credit hours earned at another institution can be accepted for transfer into the program if not previously applied toward another degree. A minimum grade of B is required for credit hours transferred.
4. **Research adviser and committee:** New students entering the program may be initially advised by the program director to assist with initial course selection and to provide advice concerning the program. Students should

select a research adviser prior to matriculation, but no later than the end of the first semester. The research adviser may be chosen from among the many graduate faculty members associated with this program from either VCU campus.

Students are required to form a research advisory committee that is headed by the research adviser and that consists of a minimum of five members of the VCU graduate faculty. Individuals who are not graduate faculty members (i.e., individuals from another institution or industry) must apply to the dean of the Graduate School for temporary affiliate graduate faculty appointment. The significant areas of the student's research focus should be represented by the members of the research advisory committee. At least two members of the committee shall have primary appointments in departments other than that of the research adviser, with one of those members being integrally associated with the student's research to foster the interdisciplinary intent of this degree program. Students should form their committees during the first semester of study and no later than the end of the second semester of study.

5. **Written and oral examinations:** Before admission to degree candidacy for the Ph.D. degree, students must successfully complete a comprehensive written examination and an oral examination. The student's research advisory committee will administer both exams. Students should take the written exam upon completion of all required didactic course work, usually at the end of the second year of study. It will focus on material covered in core and selected elective courses as well as fundamental knowledge relevant to the student's research field. Upon successful completion of the written examination and submission and acceptance of a research proposal, students should take an oral examination that includes a defense of the proposed research project and other subject areas deemed appropriate by the committee. Students may retake the written and oral examinations only once. Written evaluations of the written examination, written thesis proposal and oral thesis proposal defense will be completed by research advisory committee members and provided to the chair of the research advisory committee to discuss with the student and to the program director for program assessment.
6. **Dissertation research:** The dissertation research project should represent a significant contribution to the body of knowledge in its field and should be deemed suitable for publication in refereed journals. The emphasis of the research conducted by students in this program should be on interdisciplinary research, incorporating two or more disciplines and with a systems approach. Research projects may take advantage of the many research opportunities across the life sciences on both campuses. Projects may encompass multiple scales of study from molecular to ecosystem levels. Students shall prepare a written dissertation describing the completed research using the format approved by the Graduate School. An oral defense of the dissertation, under the direction of the research advisory committee and open to all faculty members, also is required. Written evaluations of the thesis and the oral defense of the thesis will be completed by research advisory committee members and provided to the chair of the research advisory committee to discuss with the student and to the program director for program assessment. Upon successful completion of all degree requirements, students will graduate with the Ph.D. in Integrative Life Sciences.

## Curriculum requirements

A minimum total of 64 graduate credit hours is required and is distributed as follows:

Courses	Credit hours
<b>Core courses (12 credit hours)</b>	
LFSC 510/BIOL 545 Biological Complexity	3
LFSC 630 Integrative Life Sciences Research	2
LFSC 690 Research Seminar in Integrative Life Sciences (1 credit hour; 4 semesters)	4
Scientific integrity	1
OVPR 601 Scientific Integrity	
OVPR 602 Responsible Scientific Conduct	
OVPR 603 Responsible Conduct of Research (does not count toward 3 credit-hour restriction for Preparing Future Faculty courses)	3

Technologies course (recommended options; choice depends on student's specialty) 2

ANAT 615 Techniques in Neuroscience and Cell Biology

BNFO/BIOL 541 Laboratory in Molecular Genetics

BNFO 650 Sequence Analysis in Biological Systems

ENVS 602 Environmental Technology

MICR 607 Techniques in Molecular Biology and Genetics

MICR/BNFO 653 Advanced Molecular Genetics: Bioinformatics

**Advanced statistics, advanced mathematics or experimental design course (depending on the student's area of research) (minimum 3 credit hours)** 3

**Note:** Students are expected to enter the program proficient in statistics at the introductory level, as exemplified by STAT/BIOS 543 Statistical Methods I. Students not at this level, as evidenced by prior course work, will be required to take STAT/BIOS 543 or an equivalent course.

BIOL 606 Quantitative Ecology

BIOS/STAT 523 Nonparametric Statistical Methods

BIOS 524 Biostatistical Computing

BIOS 572 Statistical Analysis of Biomedical Data

BNFO/BIOL 601 Integrated Bioinformatics

ENVS 603 Environmental Research Methods

LFSC 610 Analytical Methods in Biocomplexity Analysis

MATH 591 Topics in Mathematics (mathematical biology)

STAT/BIOS 544 Statistical Methods II

STAT 623 Discrete Multivariate Analysis

STAT 643 Applied Linear Regression

Other courses based on approval of research advisory committee

**Elective courses (based on research interest and approved by research advisory committee) (minimum 9 credit hours)** 9

500-level or higher courses in ANAT, ANTH, BIOC, BIOL, BIOS, BNFO, CHEM, CLSE, CMSC, EDUS, EGRB, EPID, FRSC, HGEN, MATH, MEDC, MEDP, MICR, NANO, NEUS, OPER, PATH, PCEU, PHAR, PHIS, PHTX, PSCL, PSYC or STAT

**Note:** Only 3 credits of Preparing Future Faculty (GRAD) courses will be accepted toward the 9 credit hours of electives (exclusive of OVPR Responsible Conduct of Research)

**Directed research (minimum 40 credit hours)** 40

LFSC 697 Directed Research in Integrative Life Sciences

**Total number of graduate credit hours required (minimum)** 64

## Degree candidacy requirements

A graduate student admitted to a program or concentration requiring a final research project, work of art, thesis or dissertation, must qualify for continuing master's or doctoral status according to the degree candidacy requirements of the student's graduate program. Admission to degree candidacy, if applicable, is a formal statement by the graduate student's faculty regarding the student's academic achievements and the student's readiness to proceed to the final research phase of the degree program.

Graduate students and program directors should refer to the following degree candidacy policy as published in the VCU Graduate Bulletin for complete information and instructions.

### Degree candidacy requirements

## Graduation requirements

As graduate students approach the end of their academic programs and the final semester of matriculation, they must make formal application to graduate. No degrees will be conferred until the application to graduate has been finalized.

Graduate students and program directors should refer to the following graduation requirements as published in the Graduate Bulletin for a complete list of instructions and a graduation checklist.

### Graduation requirements

## Department of Chemistry

The Department of Chemistry offers programs leading to the Bachelor of Science, Master of Science and Doctor of Philosophy degrees. For undergraduate students, the Bachelor of Science offers concentrations in chemical science, professional chemist, professional chemist with honors, biochemistry and chemical modeling.

For graduate students, the Master of Science and Doctor of Philosophy programs provide opportunities for concentrated study in analytical, inorganic, organic or physical chemistry, or chemical physics. A plan of study is worked out for each student to ensure a sound basis for research. In keeping with the university's commitment as an urban institution, the department also offers part-time programs leading to these degrees.

Refer to the department's website for more information: [www.has.vcu.edu/che](http://www.has.vcu.edu/che).

## Administration

**Scott Gronert**

Professor and Department Chair

**Sally S. Hunnicutt**

Associate Professor and Assistant Department Chair

[www.has.vcu.edu/che](http://www.has.vcu.edu/che)

## Admission requirements for graduate study

In addition to the general requirements for admission to graduate programs in the Graduate School and the College of Humanities and Sciences, students are expected to have a bachelor's degree from an accredited college or university with 30 semester credits in chemistry. Admission on a provisional basis is possible for a student temporarily lacking this expected chemistry background. Acceptance is based upon undergraduate performance, satisfactory scores on the GRE and letters of recommendation.

Graduate students in the Department of Chemistry may receive financial support via teaching or research assistantships or fellowships. Application forms and instructions for applying to all graduate programs are available on the Graduate School website at [www.graduate.vcu.edu](http://www.graduate.vcu.edu).

## General degree requirements for graduate programs

Entering graduate students are required to take proficiency examinations in analytical, inorganic, organic and physical chemistry. These examinations are at the level of sound undergraduate courses and are offered preceding the start of the school's fall and spring semesters. These tests are used to evaluate the student's strengths and weaknesses, and the student's program is planned accordingly.

## Chemistry courses

Descriptions for all courses offered by the university may be accessed through the online courses database at [www.pubapps.vcu.edu/vcucourses](http://www.pubapps.vcu.edu/vcucourses). You may search by unit, subject or keyword, as well as by degree level.

A minimum grade of C is required in each prerequisite course: CHEM 100 (if required through placement qualifiers), CHEM 101, CHEM 102, CHEM 301, CHEM 302 and CHEM 309.

In chemistry laboratories each student is charged for breakage incurred. Approved safety glasses are required. Failure to check out of laboratory, upon withdrawal or for other reasons, will incur a charge, billed from the Student Accounting Department.

Follow these links to chemistry ([CHEM](#)) courses or the ([CHEZ](#)) laboratories.

Apply online at [graduate.admissions.vcu.edu](http://graduate.admissions.vcu.edu).

### Admission requirements

Chemical Biology, Doctor of Philosophy (Ph.D.) with a concentration in biochemistry			
Degree:	Semester(s)	Deadline	Test
Ph.D.	of entry:	dates:	requirements:
	Fall	Mar 15	GRE
	Spring	Nov 15	

In addition to the [general admission requirements of the VCU Graduate School](#), the following requirements represent the minimum acceptable standards for admission.

- Students must present a satisfactory GPA score of a minimum of 3.0 on a 4.0 scale; satisfactory GRE scores (must be less than five years old); a written statement of the candidate's goals; and three letters of recommendation.
- Students are required to have a bachelor's degree from an accredited college or university with 30 semester credit hours in chemistry or biology. These credit hours should consist of at least two semesters of organic chemistry and a biology course in cell biology, molecular biology or genetics. A physical chemistry course is desirable.
- If applicants have outstanding potential but lack specific requirements, they may be accepted as provisional. Provisionally accepted students must complete all conditions within one year of enrollment.

Graduate students in the program may receive financial support via teaching or research assistantships or fellowships available from the "home" department. No part-time students are accepted at this time.

### VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

General academic regulations for  
all graduate students in all graduate programs at VCU

### Program goal

Chemical biology presents a framework for the modern approach to studying the complexities of biological processes. It is already a leading focal point for research in the 21st century, integrating concepts and information from the molecular to the cellular level. This interdisciplinary degree program has participants from the departments of Chemistry, Biology, Biochemistry and Molecular Biology, Medicinal Chemistry and Pharmacology within the College of Humanities and Sciences and the schools of Medicine and Pharmacy.

### Student learning outcomes

- Demonstrate expertise (breadth and depth) in chemical biology
- Demonstrate appropriate ability to design and conduct experimental research
- Demonstrate ability to analyze data critically and to design experiments independently
- Develop competency in the responsible conduct of research
- Develop effective oral and written communication skills

### Degree requirements

In addition to general [VCU Graduate School graduation requirements](#), students are required to complete course work in core and elective courses and to conduct significant research.

- Credit hour requirements: Students in the Ph.D. in Chemical Biology program are required to earn a minimum of 72 graduate-level credit hours beyond the baccalaureate. At least one-half of the credit hours presented for graduation must be at the 600 level or higher.
- Other requirements: Upon completion of their course work, students will complete their dissertation requirements, which will typically consist of a written and oral dissertation proposal, research and literature seminars, and both a written and oral dissertation defense.

### Curriculum requirements

Courses [1]	Credit hours
CHEB 601 Chemical Biology I	3
CHEB 602 Chemical Biology II	3

- Students must present a satisfactory GPA score of a minimum of 3.0 on a 4.0 scale; satisfactory GRE scores (must be less than five years old); a written statement of the candidate's goals; and three letters of recommendation.
- Students are required to have a bachelor's degree from an accredited college or university with 30 semester credit hours in chemistry or biology. These credit hours should consist of at least two semesters of organic chemistry and a biology course in cell biology, molecular biology or genetics. A physical chemistry course is desirable.
- If applicants have outstanding potential but lack specific requirements, they may be accepted as provisional. Provisionally accepted students must complete all conditions within one year of enrollment.

Graduate students in the program may receive financial support via teaching or research assistantships or fellowships available from the "home" department. No part-time students are accepted at this time.

## VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

### General academic regulations for all graduate students in all graduate programs at VCU

## Program goal

Chemical biology presents a framework for the modern approach to studying the complexities of biological processes. It is already a leading focal point for research in the 21st century, integrating concepts and information from the molecular to the cellular level. This interdisciplinary degree program has participants from the departments of Chemistry, Biology, Biochemistry and Molecular Biology, Medicinal Chemistry and Pharmacology within the College of Humanities and Sciences and the schools of Medicine and Pharmacy.

## Student learning outcomes

- Demonstrate expertise (breadth and depth) in chemical biology
- Demonstrate appropriate ability to design and conduct experimental research
- Demonstrate ability to analyze data critically and to design experiments independently
- Develop competency in the responsible conduct of research

- Develop effective oral and written communication skills

## Degree requirements

In addition to general [VCU Graduate School graduation requirements](#), students are required to complete course work in core and elective courses and to conduct significant research.

- Credit hour requirements: Students in the Ph.D. in Chemical Biology program are required to earn a minimum of 72 graduate-level credit hours beyond the baccalaureate. At least one-half of the credit hours presented for graduation must be at the 600 level or higher.
- Other requirements: Upon completion of their course work, students will complete their dissertation requirements, which will typically consist of a written and oral dissertation proposal, research and literature seminars, and both a written and oral dissertation defense.

## Curriculum requirements

Courses [1]	Credit hours
CHEB 601 Chemical Biology I	3
CHEB 602 Chemical Biology II	3
CHEB 690 Research Seminars in Chemical Biology or CHEM 690 Research Seminar in Chemistry [2]	variable
CHEB 697 Chemical Biology Research Rotations [3]	variable
CHEM 693 Chemistry Perspectives and Ethics [4]	1
CHEM 697 Directed Research [5]	variable
Choose courses from list of recommended electives below in consultation with adviser. [6]	11

**Total graduate credit hours required (minimum)** 72

- [1] At least 18 credit hours of didactic course work must be completed.  
 [2] Students are expected to participate in their home department's seminar program.  
 [3] Students are expected to enroll in CHEB 697 or directed research (one credit minimum) every spring and fall semester.  
 [4] Students are expected to enroll in CHEM 693 within their first year of matriculation. Other courses may be used to satisfy this requirement in research conduct and ethics in consultation with the graduate program director.  
 [5] Students may also enroll in PHTX 697 for directed research credit hours.  
 [6] The list of recommended electives includes some typical courses taken in this concentration, but there is flexibility in designing a program of study in consultation with the adviser and graduate program director.

Recommended electives	Credit hours
BIOC 606 Biochemical Control Processes	3
BIOC 500- and 600-level courses	3
BIOL 500- and 600-level courses	3
CHEM 500- and 600-level courses	3
CHEM 504 Advanced Organic Chemistry I	3
CHEM 506 Introduction to Spectroscopic Methods in Organic Chemistry	3
CHEM 604 Advanced Organic Chemistry II	3
CHEM 606 Advanced Spectroscopic Methods in Organic Chemistry	3
MEDC 500- and 600-level courses	3
MEDC 541 Survey of Molecular Modeling Methods	3
MEDC 670 Advanced Molecular Modeling Theory and Practice	3
PHTX 500- and 600-level courses	3
PHTX 536 Principles of Pharmacology and Toxicology	3

## Degree candidacy requirements

A graduate student admitted to a program or concentration requiring a final research project, work of art, thesis or dissertation, must qualify for continuing master's or doctoral status according to the degree candidacy requirements of the student's graduate program. Admission to degree candidacy, if applicable, is a formal statement by the graduate student's faculty regarding the student's

academic achievements and the student's readiness to proceed to the final research phase of the degree program.

Graduate students and program directors should refer to the following degree candidacy policy as published in the VCU Graduate Bulletin for complete information and instructions.

#### Degree candidacy requirements

### Graduation requirements

As graduate students approach the end of their academic programs and the final semester of matriculation, they must make formal application to graduate. No degrees will be conferred until the application to graduate has been finalized.

Graduate students and program directors should refer to the following graduation requirements as published in the Graduate Bulletin for a complete list of instructions and a graduation checklist.

#### Graduation requirements

### Chemical Biology, Doctor of Philosophy (Ph.D.) with a concentration in bioorganic chemistry

#### Graduate program director

Nicholas Farrell, Ph.D.

Professor and graduate director, chemical biology program, Department of Chemistry

[n Farrell@vcu.edu](mailto:n Farrell@vcu.edu)

(804) 828-6320

#### Additional contact

Maryanne M. Collinson, Ph.D.

Professor and chair of graduate recruiting and admissions committee, Department of Chemistry

[mmcollinson@vcu.edu](mailto:mmcollinson@vcu.edu)

(804) 828-7509

**Program website:** [chembio.vcu.edu](http://chembio.vcu.edu)

Refer to the [program search](#) function of the online VCU Bulletins for a complete listing of all programs, concentrations and related curricular options.

Chemical Biology, Doctor of Philosophy (Ph.D.) with a concentration in biochemistry

Chemical Biology, Doctor of Philosophy (Ph.D.) with a concentration in biology

Chemical Biology, Doctor of Philosophy (Ph.D.) with a concentration in biology of cancer

Apply online at [graduate.admissions.vcu.edu](http://graduate.admissions.vcu.edu).

### Admission requirements

#### Chemical Biology, Doctor of Philosophy (Ph.D.) with a concentration in bioorganic chemistry

Degree:	Semester(s) of entry:	Deadline dates:	Test requirements:
Ph.D.	Fall	Mar 15	GRE
	Spring	Nov 15	

In addition to the [general admission requirements of the VCU Graduate School](#), the following requirements represent the minimum acceptable standards for admission.

- Students must present a satisfactory GPA score of a minimum of 3.0 on a 4.0 scale; satisfactory GRE scores (must be less than five years old); a written statement of the candidate's goals; and three letters of recommendation.

Chemistry, Doctor of Philosophy (Ph.D.)			
Degree: Ph.D.	Semester(s) of entry: Fall Spring	Deadline dates: Mar 15 Nov 15	Test requirements: GRE-General

In addition to the [general admission requirements of the VCU Graduate School](#), the following requirements represent the minimum acceptable standards for admission:

1. Have a bachelor's degree from an accredited college or university with 30 credit hours in chemistry.
2. Admission on a provisional basis is possible for a student temporarily lacking this expected chemistry background.

## VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

**General academic regulations for  
all graduate students in all graduate programs at VCU**

## Program goal

The Department of Chemistry is committed to the dual mission of teaching and research at the bachelor's, master's and doctoral level. In teaching, the purpose is to provide high quality education in chemistry to students in preparation for professional careers at all levels. In research, the goals are to advance the science of chemistry, to keep faculty on the forefront of the field and to maintain an educational program consistent with the latest technology and development of the discipline. Service to the chemical profession is also an important aspect of the department's activities.

## Student learning outcomes

1. Demonstrate expertise (breadth and depth) in chemistry
2. Demonstrate appropriate ability to design and conduct experimental research
3. Demonstrate ability to analyze data critically and to design experiments independently
4. Develop competency in the responsible conduct of research
5. Develop effective oral and written communication skills

## Degree requirements

In addition to general [VCU Graduate School graduation requirements](#), students are required to complete course work in core and elective courses and to conduct significant research.

1. Credit hour requirements: Students in the Ph.D. in Chemistry program are required to earn a minimum of 60 graduate-level credit hours beyond the baccalaureate. At least one-half of the credit hours presented for graduation must be at the 600 level or higher.
2. Proficiency exams: Students must demonstrate competency in analytical, inorganic, organic and physical chemistry by satisfactory performance on the proficiency exams or with a minimum grade of B in the appropriate course. These examinations are at the level of sound undergraduate courses and are offered preceding the start of the school's fall and spring semesters. These tests are used to evaluate the student's strengths and weaknesses, and the student's program is planned accordingly.
3. Doctoral candidacy: The student is required to complete written and oral examinations in his/her major field to become a doctoral candidate. The written examinations consist of a series of cumulative exams based on the chemistry literature. The oral examination includes the presentation and defense of the proposed dissertation research.
4. Dissertation: Students must conduct a substantial original investigation under the supervision of their adviser. Students who wish to include a chemical education component in their research will choose two advisers, one in the cognate area, and one in the area of chemical education. All formal requirements for the degree are otherwise the same as for any doctoral student. Students must prepare dissertations reporting the results of the research and analyzing its significance in relation to existing scientific knowledge. An oral defense of the dissertation will be held. Full-time students should complete the degree requirements in four to five years.

## Curriculum requirements

Courses	Credit hours
<b>Required didactic courses [1]</b>	<b>18 (minimum)</b>
Choose three core courses below from the following four areas: analytical, inorganic, organic and physical. [2]	9
CHEM 504 Advanced Organic Chemistry I	3
CHEM 510 Atomic and Molecular Structure or CHEM 511 Chemical Thermodynamics and Kinetics [4]	3
CHEM 620 Advanced Inorganic Chemistry I	3
CHEM 63x or ENGR 691 Special Topics in Engineering [3] (courses in analytical area)	1.5/module
CHEM 698 Investigations in Current Chemistry Literature (0.5 credit hour taken twice) [5]	1

Choose courses from list of recommended electives in consultation with adviser. 8

<b>Other required courses</b>	<b>42</b>

 PHYS 573 Analytical Methods in Physics  
 PHYS 576 Electromagnetic Theory  
 PHYS 580 Quantum Mechanics  
 PHYS 591 Topics in Physics  
 PHYS 661 Surface and Materials Physics  
 PHYS 691 Special Topics

[1] Students must earn a minimum of 18 credit hours in eight didactic graduate courses, not including credit for CHEM 690, 692, 693 or 697.

[2] One of these courses may be waived upon satisfactory proficiency exam scores. The number of required credit hours for the degree does not change.

[3] The ENGR 691 topics course must be materials characterization.

[4] In some cases, students may be required to enroll in both CHEM 510 and CHEM 511 because of proficiency exam scores.

[5] Students are expected to enroll in CHEM 698 (.05 credit hour) twice during their graduate studies, including the semester preceding their literature seminar presentation (CHEM 692). Note: A maximum of two credit hours of CHEM 698 may be presented toward the didactic course graduation requirements to count as one course.

[6] Students are expected to participate in the department's seminar program by enrolling in CHEM 690 or CHEM 692 every spring and fall semester. At least two formal talks are to be presented in the seminar program by enrolling twice in CHEM 692 (one credit hour).

[7] Students are expected to enroll in CHEM 693 within the first year of study.

[8] Students must enroll in CHEM 697 (one credit hour minimum) every spring and fall semester for a minimum of 30 total credit hours. If the required minimum of 60 credit hours for the degree is not fulfilled after completion of all other course requirements, then additional credit hours of CHEM 697 may satisfy remaining credit hours for the degree.

## Degree candidacy requirements

A graduate student admitted to a program or concentration requiring a final research project, work of art, thesis or dissertation, must qualify for continuing master's or doctoral status according to the degree candidacy requirements of the student's graduate program. Admission to degree candidacy, if applicable, is a formal statement by the graduate student's faculty regarding the student's academic achievements and the student's readiness to proceed to the final research phase of the degree program.

Graduate students and program directors should refer to the following degree candidacy policy as published in the VCU Graduate Bulletin for complete information and instructions.

However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

### General academic regulations for all graduate students in all graduate programs at VCU

## Program goal

The Department of Chemistry is committed to the dual mission of teaching and research at the bachelor's, master's and doctoral level. In teaching, the purpose is to provide high quality education in chemistry to students in preparation for professional careers at all levels. In research, the goals are to advance the science of chemistry, to keep faculty on the forefront of the field and to maintain an educational program consistent with the latest technology and development of the discipline. Service to the chemical profession is also an important aspect of the department's activities.

## Student learning outcomes

1. Demonstrate expertise (breadth and depth) in chemistry
2. Demonstrate appropriate ability to design and conduct experimental research

3. Demonstrate ability to analyze data critically and to design experiments independently
4. Develop competency in the responsible conduct of research
5. Develop effective oral and written communication skills

## Degree requirements

In addition to general [VCU Graduate School graduation requirements](#), students are required to complete course work in core and elective courses and to conduct significant research.

1. Credit hour requirements: Students in the Ph.D. in Chemistry program are required to earn a minimum of 60 graduate-level credit hours beyond the baccalaureate. At least one-half of the credit hours presented for graduation must be at the 600 level or higher.
2. Proficiency exams: Students entering the chemical physics concentration must pass proficiency examinations in two areas of chemistry and two areas of physics (mechanics, electricity and magnetism). Students entering with a bachelor's or master's degree in chemistry who have not taken the courses previously may satisfy the physics requirement with an A or B in PHYS 301 and 302 Classical Mechanics I and II and 376 Electromagnetism. Students entering with a bachelor's or master's degree in physics who have not taken the chemistry courses previously may satisfy the chemistry requirement with an A or B in two of the four courses, CHEM 301-302 Organic Chemistry; the two-course sequence counts as one course only), CHEM 406 Inorganic Chemistry II, CHEM 409 Instrumental Analysis or CHEM 510 Atomic and Molecular Structure.
3. Doctoral candidacy: The student is required to complete written and oral examinations in his/her major field to become a doctoral candidate. The written examinations consist of a series of cumulative exams based on the chemistry literature. The oral examination includes the presentation and defense of the proposed dissertation research.
4. Dissertation: The student must conduct a substantial original investigation under the supervision of his/her adviser and must prepare a dissertation reporting the results of the research and analyzing its significance in relation to existing scientific knowledge. An oral defense of the dissertation will be held. Full-time students should complete the degree requirements in four to five years.

## Curriculum requirements

Courses	Credit hours
<b>Required didactic courses [1]</b>	<b>24</b>
CHEM 510 Atomic and Molecular Structure or PHYS 580 Quantum Mechanics	3
CHEM 511 Chemical Thermodynamics and Kinetics	3
CHEM 612 Modern Statistical Mechanics: Fundamentals and Applications	3
PHYS 576 Electromagnetic Theory	3
PHYS 641 Solid State Physics	3
Choose courses from list of recommended electives below in consultation with adviser. [2]	9
<b>Other required courses</b>	<b>36</b>
CHEM 690 Research Seminar in Chemistry or PHYS 690 Research Seminar [3]	1-8
CHEM 692 Chemistry Seminar Presentation [3]	2
CHEM 693 Chemistry Perspectives and Ethics [4]	1
CHEM 697 Directed Research or PHYS 697 Directed Research [5]	30
<b>Total number of graduate credit hours required (minimum)</b>	<b>60</b>

[1] Students must earn a minimum of 24 credit hours in didactic graduate courses, not including credit for CHEM 690, 692, 693 or 697.

[2] At least 12 credit hours of the 24 required didactic course credit hours must be CHEM graduate courses. Therefore, depending on the choice of CHEM 510 or PHYS 580 above, at least 3 to 6 credit hours chosen from the list of recommended electives must be CHEM graduate courses, respectively.

[3] Students are expected to participate in the chemistry and/or physics department seminar program by enrolling in CHEM 690, CHEM 692 or PHYS 690 every spring and fall semester. At least two formal talks are to be presented in the seminar program by enrolling twice in CHEM 692 (one credit hour).

[4] Students are expected to enroll in CHEM 693 within their first year of enrollment.

[5] Students are expected to enroll in CHEM 697 or PHYS 697 (one credit hour minimum) every spring and fall semester. Up to 15 credit hours of PHYS 697 can be used to satisfy the minimum requirement of 30 credit hours of directed research. If the required 60 credit hours for the degree is not fulfilled after completion of all other course requirements, then additional credit hours of CHEM 697 can satisfy the remaining credit hours for the degree.

### Recommended electives

CHEM 512 Applied Molecular Modeling	3
CHEM 550 Introduction to Polymer Chemistry	3
591 Topics in Chemistry	1-6
CHEM 610 Applied Quantum Chemistry	3

PHYS 591 Topics in Physics	3
PHYS 661 Surface and Materials Physics	3
PHYS 691 Special Topics	3

## Degree candidacy requirements

A graduate student admitted to a program or concentration requiring a final research project, work of art, thesis or dissertation, must qualify for continuing master's or doctoral status according to the degree candidacy requirements of the student's graduate program. Admission to degree candidacy, if applicable, is a formal statement by the graduate student's faculty regarding the student's academic achievements and the student's readiness to proceed to the final research phase of the degree program.

Graduate students and program directors should refer to the following degree candidacy policy as published in the VCU Graduate Bulletin for complete information and instructions.

### Degree candidacy requirements

## Graduation requirements

As graduate students approach the end of their academic programs and the final semester of matriculation, they must make formal application to graduate. No degrees will be conferred until the application to graduate has been finalized.

Graduate students and program directors should refer to the following graduation requirements as published in the Graduate Bulletin for a complete list of instructions and a graduation checklist.

## Other information

Apply online at [graduate.admissions.vcu.edu](http://graduate.admissions.vcu.edu).

## Admission requirements

Chemistry, Master of Science (M.S.)			
Degree:	Semester(s) of entry:	Deadline dates:	Test requirements:
M.S.	Fall Spring	Mar 15 Nov 15	GRE-General

In addition to the [general admission requirements of the VCU Graduate School](#), the following requirements represent the minimum acceptable standards for admission:

1. Have a bachelor's degree from an accredited college or university with 30 credit hours in chemistry
2. Admission on a provisional basis is possible for a student temporarily lacking this expected chemistry background.

## VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

**General academic regulations for  
all graduate students in all graduate programs at VCU**

## Program goal

The Department of Chemistry is committed to the dual mission of teaching and research at the bachelor's, master's and doctoral level. In teaching, the purpose is to provide high quality education in chemistry to students in preparation for professional careers at all levels. In research, the goals are to advance the science of chemistry, to keep faculty on the forefront of the field and to maintain an educational program consistent with the latest technology and development of the discipline. Service to the chemical profession is also an important aspect of the department's activities.

## Student learning outcomes

1. Demonstrate expertise (breadth and depth) in chemistry
2. Demonstrate appropriate ability to design and conduct experimental research
3. Demonstrate ability to analyze data critically and to design experiments independently
4. Develop competency in the responsible conduct of research
5. Develop effective oral and written communication skills

## Degree requirements

In addition to general [VCU Graduate School graduation requirements](#), students are required to complete course work in core and elective courses and to conduct significant research.

1. Credit hour requirements: Students in the M.S. in Chemistry program are required to earn a minimum of 30 graduate-level credit hours beyond the baccalaureate. At least one-half of the credit hours presented for graduation must be at the 600 level or higher.
2. Proficiency exams: Students must demonstrate competency in analytical, inorganic, organic and physical chemistry by satisfactory performance on the proficiency exams or with a minimum grade of B in the appropriate course. These examinations are at the level of sound undergraduate courses and are offered preceding the start of the school's fall and spring semesters. These tests are used to evaluate the student's strengths and weaknesses, and the student's program is planned accordingly.
3. Other requirements: Students are to conduct a research study under the guidance of a thesis adviser. After their first year, students are required to present their research at a poster presentation every fall semester. Once students have completed all required course work (with a 3.0 GPA) and the literature seminar, they must submit the application to candidacy form to the chemistry graduate director. After candidacy, an acceptable research thesis and a final oral examination on the thesis are required. Full-time students should complete these degree requirements in two to three years.

## Curriculum requirements

Courses	Credit hours
<b>Required didactic courses</b> [1]	<b>15</b>
Choose three core courses below from the following four areas: analytical, inorganic, organic and physical. [2]	9
CHEM 504 Advanced Organic Chemistry I	3
CHEM 510 Atomic and Molecular Structure <b>or</b> CHEM 511 Chemical Thermodynamics and Kinetics [4]	3
CHEM 620 Advanced Inorganic Chemistry I	3
CHEM 63x or ENGR 691 Special Topics in Engineering [3] (courses in analytical area)	1.5/module
CHEM 698 Investigations in Current Chemistry Literature (0.5 credit hour taken twice) [5]	1
Choose courses from list of recommended electives in consultation with adviser.	5
<b>Other required courses</b>	<b>15</b>
CHEM 690 Research Seminar in Chemistry [6]	variable

CHEM 692 Chemistry Seminar Presentation [6]	2 minimum
CHEM 693 Chemistry Perspectives and Ethics [7]	1
CHEM 697 Directed Research [8]	12

**Total graduate credit hours required (minimum) 30**

#### Recommended electives

BIOC 500-level ( <b>except</b> BIOC 505, BIOC 506 and BIOC 507)	3
BIOC 530-533 Biochemistry, Cell and Molecular Biology Modules	1-2
BIOC 602 Physical Properties of Macromolecules	1-4
BIOS/STAT 543 Statistical Methods I	3
BIOS/STAT 544 Statistical Methods II	3
CHEB 601 Chemical Biology I	3
CHEB 602 Chemical Biology II	3
CHEM 500-level	3
CHEM 604 Advanced Organic Chemistry II	3
CHEM 605 Physical Organic Chemistry	3
CHEM 606 Advanced Spectroscopic Methods in Organic Chemistry	1.5
CHEM 610 Applied Quantum Chemistry	3
CHEM 611 Molecular Spectroscopy	3
CHEM 612 Modern Statistical Mechanics: Fundamentals and Applications	3
CHEM 615 Chemical Thermodynamics	3
CHEM 616 Chemical Kinetics	3
CHEM 620 Advanced Inorganic Chemistry I	3
CHEM 621 Advanced Inorganic Chemistry II	3
CHEM 630 Electroanalytical Chemistry	1.5/module
CHEM 631 Separation Science	1.5/module
CHEM 632 Chemometrics	1.5/module
CHEM 633 Mass Spectrometry	1.5/module
CHEM 634 Surface Science	1.5/module
CHEM 635 Spectrochemical Analysis	1.5/module
CHEM 691 Topics in Chemistry	1-6
CHEM 698 Investigations in Current Chemistry Literature [5]	.5
ENGR 570 Effective Technical Writing	
ENGR 591 Special Topics in Engineering	1-4
ENGR 691 Special Topics in Engineering	1-4
MEDC 541 Survey of Molecular Modeling Methods	1
MEDC 670 Advanced Molecular Modeling Theory and Practice	3
NANO 570 Nanoscale Physics	3
NANO 571 Nanoscale Chemistry	3
NANO 650 Experimental Techniques in Nanoscience I	1.5
NANO 651 Experimental Techniques in Nanoscience II	1.5
NANO 660 Theoretical Studies of Nanostructures	3
NANO 661 Computational Nanoscience	3
PHYS 550 Techniques in Material Research	3
PHYS 573 Analytical Methods in Physics	3
PHYS 576 Electromagnetic Theory	3
PHYS 580 Quantum Mechanics	3
PHYS 591 Topics in Physics	1-3
PHYS 661 Surface and Materials Physics	3
PHYS 691 Special Topics	3

[1] Students must earn a minimum of 15 credit hours in six didactic graduate courses, not including credit hours for CHEM 690, 692, 693 or 697.

[2] One of these courses may be waived upon satisfactory proficiency exam scores. The required number of credit hours for the degree does not change.

[3] The ENGR 691 topics course must be materials characterization.

[4] In some cases, students may be required to enroll in both CHEM 510 and CHEM 511 because of proficiency exam scores.

[5] Students are expected to enroll in CHEM 698 (0.5 credit hour) twice during their graduate studies, including the semester preceding their literature seminar presentation (CHEM 692).

Note: A maximum of two credit hours of CHEM 698 may be presented toward the didactic course graduation requirements to count as one course.

[6] Students are expected to participate in the department's seminar program by enrolling in CHEM 690 or CHEM 692 every spring and fall semester. At least two formal talks are to be presented in the seminar program by enrolling twice in CHEM 692 (one credit hour).

[7] Students are expected to enroll in CHEM 693 within their first year of enrollment.

[8] Students are expected to enroll in CHEM 697 (one credit hour minimum) every spring and fall semester.

## Admission requirements

Chemistry, Master of Science (M.S.) with Fudan University [dual degree]			
Degree:	Semester(s) of entry:	Deadline dates:	Test requirements:
M.S.	Fall	Apr 15	GRE-General TOEFL (International students only)
	Spring	Oct 15	

In addition to the [general admission requirements of the VCU Graduate School](#), the following requirements represent the minimum acceptable standards for admission.

1. Applicants must have a bachelor's degree from an accredited college or university with 30 credit hours in chemistry. (Admission on a provisional basis is possible for a student temporarily lacking this expected chemistry background.)
2. Graduate students in the Department of Chemistry may receive financial support via teaching or research assistantships or fellowships. Application forms and instructions for applying to all graduate programs are available on the Graduate School website at [graduate.vcu.edu](http://graduate.vcu.edu).
3. Fudan University students participating in this dual degree program will be full-time students in good standing in Fudan University's Department of Chemistry.
4. Fudan University students will be required to (a) successfully pass an interview at Fudan University conducted by an identified faculty member of VCU's Chemistry Department and (b) successfully pass an English proficiency exam before the application to VCU will be processed.
5. Fudan University students' program will be required to submit formal applications to the VCU International Admissions Office. The VCU Department of Chemistry is responsible for admitting these students to VCU.
6. Fudan University students will be required to submit to VCU their Fudan transcripts and grade-related information before their applications to VCU will be processed.
7. Fudan University students are classified as full-time, out-of-state graduate students and will assume all tuition, fees, housing and cost-of-living expenses while at VCU.
8. Students must receive a positive evaluation from both the Fudan and VCU chemistry departments to receive admission into the program. As part of the admission process, a member of VCU's Department of Chemistry will interview applicants in Shanghai prior to admission into the program.
9. Fudan University students are required to maintain the equivalent of a VCU B average including their first year at Fudan University.

## VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

General academic regulations for  
all graduate students in all graduate programs at VCU

## Program goals

The VCU Department of Chemistry is committed to the dual mission of teaching and research at the bachelor's, master's and doctoral level. In teaching, the purpose is to provide high quality education in chemistry to students in preparation for professional careers at all levels. In research, the goals are to advance the science of chemistry, to keep faculty on the forefront of the field and to maintain an educational program consistent with the latest technology and development of the discipline. Service to the chemical profession is also an important aspect of the department's activities.

## Student learning outcomes

Graduates of the program must:

1. Demonstrate expertise (breadth and depth) in chemistry
2. Demonstrate appropriate ability to design and conduct experimental research
3. Demonstrate ability to analyze data critically and to design experiments independently
4. Develop competency in the responsible conduct of research
5. Develop effective oral and written communication skills

## Degree requirements

In addition to general [VCU Graduate School graduation requirements](#), students are required to complete course work in core and elective courses and to conduct significant research.

1. Credit hour requirements: Students in the M.S. in Chemistry program are required to earn a minimum of 30 graduate-level credit hours beyond the baccalaureate. At least one-half of the credit hours presented for graduation must be at the 600 level or higher.
2. Proficiency exams: Students must demonstrate competency in analytical, inorganic, organic and physical chemistry by satisfactory performance on the proficiency exams or with a minimum grade of B in the appropriate course. These examinations are at the level of sound undergraduate courses and are offered preceding the start of the school's fall and spring semesters. These tests are used to evaluate the student's strengths and weaknesses, and the student's program is planned accordingly.
3. Other requirements: Students are to conduct a research study under the guidance of a thesis adviser. After their first year, students are required to present their research at a poster presentation every fall semester. Once students have completed all required course work (with a 3.0 GPA) and the literature seminar, they must submit the application to candidacy form to the chemistry graduate director. After candidacy, an acceptable research thesis and a final oral examination on the thesis are required. Full-time students should complete these degree requirements in two to three years.

## Program schedule

1. In the first year (two semesters) at Fudan University, the Fudan student will successfully complete core courses required of all graduate students in the VCU M.S. in Chemistry program. The Department of Chemistry at VCU requires an M.S. student to earn a minimum of 15 credit hours in six graduate courses. A further minimum of 20 credit hours must be earned in seminar, seminar discussion, a mandatory course on chemistry perspectives and ethics and directed research courses. A departmental committee, composed of the VCU graduate program director, the VCU graduate admissions director and

the Fudan program director, will determine the transferability and correspondence of Fudan courses to VCU courses and credit hours before the student enters VCU. This committee will advise the individual student on course work and credits eligible for transfer to meet the 15-credit didactic course requirement and what, if any, further course work should be taken.

- In the second year (two semesters) at VCU, the student will immediately begin laboratory research (CHEM 697). The student will also identify a thesis adviser no later than the beginning of enrollment at VCU (third semester of program). A co-adviser from Fudan University will also be appointed at this time. The student will enroll in didactic courses offered by the Department of Chemistry at the discretion of the VCU adviser. It is envisaged that the core courses will have been taken at Fudan and that specialized and topics courses will be taken at VCU. The Department of Chemistry will not create new courses for Fudan students.
- In the third year, the Fudan student will remain at VCU to complete the fifth semester of the program. The student will continue to select from the department's regular course offerings and will continue to work on the thesis with the VCU thesis adviser. All research data should be obtained by the end of the third semester at VCU.
- In the sixth and final semester, the Fudan student will return to Fudan University to complete the writing of the thesis and will enroll in final elective courses (if necessary) pertinent to the student's area of concentration. The two thesis advisers (one from VCU and one from Fudan) will oversee the completion of the thesis. The formal thesis will be written in Chinese with an English translation.

## Curriculum requirements

Courses	Credit hours
<b>Fudan University</b>	
<b>Preparatory foundation courses</b>	<b>10</b>
The following preparatory foundation courses at Fudan are required but do not count toward the 30 graduate credit-hour requirement for the Fudan M.S.	
Philosophy	2
Theory and Practice of Socialism	2
English of Master of Science	4
Specialty English	2
<b>Required courses</b>	<b>18</b>
CHEM 6001 Advanced Inorganic Chemistry	3

## Admission requirements

Nanoscience and Nanotechnology, Doctor of Philosophy (Ph.D.)			
Degree: Ph.D.	Semester(s) of entry: Fall Spring	Deadline dates: Apr 15 Oct 15	Test requirements: GRE

In addition to the [general admission requirements of the VCU Graduate School](#) and the College of Humanities and Sciences, students are expected to have a bachelor's degree from an accredited college or university with 30 credit hours in chemistry, physics or engineering.

Admission on a provisional basis is possible for a student temporarily lacking the expected background. Acceptance is based upon undergraduate performance, satisfactory scores on the GRE and letters of recommendation.

Graduate students in the nanoscience and nanotechnology Ph.D. program may receive financial support via teaching or research assistantships or fellowships available from the home department.

## VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

### General academic regulations for all graduate students in all graduate programs at VCU

## Program goals

1. In teaching, the purpose is to provide high quality education in chemistry and/or physics in preparation for professional careers in nanoscience and nanotechnology.
2. In research, the goals are to advance nanoscience research, to keep faculty on the forefront of the field and to maintain an educational program consistent with the latest technology and development of the discipline.

## Student learning outcomes

1. Develop effective oral and written communication skills
2. Demonstrate expertise (breadth and depth) in nanoscience
3. Demonstrate appropriate ability to design and conduct experimental research
4. Demonstrate ability to analyze data critically and to design experiments independently
5. Develop competency in the responsible conduct of research

## Degree requirements

In addition to the [VCU Graduate School graduation requirements](#), students preparing for the Doctor of Philosophy degree in nanoscience and nanotechnology must earn a minimum of 72 credit hours consisting of core courses (nine credit hours), elective courses (nine credit hours), seminar (eight credit hours) and research (46 credit hours).

Before admission to candidacy for the Ph.D. degree, students must have (a) completed at least 12 credit hours of their required course work, (b) successfully completed cumulative exams and (c) successfully completed an oral candidacy examination based on a research proposal. The student will be required to complete a series of cumulative exams in the area of nanoscience and nanotechnology, which will normally occur during the student's second year in residence. After completion of the cumulative exams, an oral candidacy examination is then required to become a Ph.D. candidate. The oral examination, which is administered by the student's graduate dissertation committee, is based upon a written proposal describing the proposed dissertation research project. It is intended to evaluate the adequacy of the proposed project, the student's level of understanding of the project and the likelihood that the dissertation can be completed successfully.

Students must conduct a substantial original investigation under the supervision of their advisers and must submit to the graduate dissertation committee a written dissertation reporting the results of the research and analyzing its significance in relation to existing scientific knowledge. The oral dissertation defense, conducted under the direction of the dissertation committee, will examine the candidate's research, dissertation documentation and underlying fundamental knowledge encompassed by the candidate's research. Upon successful completion of the defense and the dissertation, the student may apply for graduation with the Ph.D. in Nanoscience and Nanotechnology. Full-time students should complete the degree requirements in four to five years.

## Curriculum requirements

Courses	Credit hours
<b>Core courses</b>	<b>9</b>
NANO 570 Nanoscale Physics	3
NANO 571 Nanoscale Chemistry	3
NANO 650 and 651 Experimental Techniques in Nanoscience I and II or NANO 660 Theoretical Studies of Nanostructures	3
<b>Seminar</b>	<b>8</b>
NANO 690 Research Seminar in Nanoscience and Nanotechnology (one credit hour taken six times)	6
NANO 692 Nanoscience Seminar Presentation (one credit hour taken twice)	2
<b>Research</b>	<b>46</b>
CHEM 697 Directed Research or PHYS 697 Directed Research	
<b>Elective courses</b>	<b>9</b>
The nine elective credit hours will be chosen from the following courses or other courses as approved by the program director.	
CHEM 510 Atomic and Molecular Structure	3
CHEM 511 Chemical Thermodynamics and Kinetics	3
CHEM 580 Mechanical Properties of Plastics and Polymers	3
CHEM 591 Topics in Chemistry	1-6
CHEM 610 Applied Quantum Chemistry	3
CHEM 611 Molecular Spectroscopy	3
CHEM 612 Modern Statistical Mechanics: Fundamentals and Applications	3
CHEM 634 Surface Science	1.5
CHEM 635 Spectrochemical Analysis	1.5
CHEM 691 Topics in Chemistry	1-6
CLSE 645 Biosensors and Bioelectronic Devices	3
CLSE 675 Polymers in Medicine	3
EGRB 613 Biomaterials	3
EGRE 525 Fundamentals of Photonics Engineering	3
EGRE 621 Spintronics	3
EGRE 623 Nanostructures and Nanodevices	3
EGRM 609 Advanced Characterization of Materials	3
ENGR 505 Characterization of Materials	3
ENGR 691 Special Topics in Engineering	1-4
PHYS 550 Techniques in Material Research	3
PHYS 580 Quantum Mechanics	3
PHYS 591 Topics in Physics	1-3
PHYS 641 Solid State Physics	3
PHYS 661 Surface and Materials Physics	3
PHYS 691 Special Topics	3
<b>Total graduate credit hours required (minimum)</b>	<b>72</b>
Students will attend NANO 690 Research Seminar in Nanoscience and Nanotechnology throughout their degree programs, receiving an S (satisfactory) or	

U (unsatisfactory) grade based on attendance and participation. Students will also give two seminar presentations, one on a literature topic and one on their dissertation research, which will be graded on the A/B/C/D/F scale.

## Degree candidacy requirements

A graduate student admitted to a program or concentration requiring a final research project, work of art, thesis or dissertation, must qualify for continuing master's or doctoral status according to the degree candidacy requirements of the student's graduate program. Admission to degree candidacy, if applicable, is a formal statement by the graduate student's faculty regarding the student's academic achievements and the student's readiness to proceed to the final research phase of the degree program.

Graduate students and program directors should refer to the following degree candidacy policy as published in the VCU Graduate Bulletin for complete information and instructions.

### Degree candidacy requirements

## Graduation requirements

As graduate students approach the end of their academic programs and the final semester of matriculation, they must make formal application to graduate. No degrees will be conferred until the application to graduate has been finalized.

Graduate students and program directors should refer to the following graduation requirements as published in the Graduate Bulletin for a complete list of instructions and a graduation checklist.

### Graduation requirements

## Department of English

The purpose of the Department of English is to teach students to see their worlds with clarity and respond to them with sensitivity, through reading and writing. Students are invited to read and explore a diversity of texts created in different times and voices and then to respond to these texts variously and critically, situating them within their contexts and discerning their important aesthetic features, rhetorical elements and social functions.

Students in this department also are encouraged to express themselves in expository or imaginative works that engage thought and feeling, evince purpose clearly, marshal appropriate evidence and observe principles of rhetorical decorum.

The Department of English offers a Bachelor of Arts in English, as well as minors in American studies (in conjunction with the Department of History), British studies, English (for non-English majors), writing and creative writing, the Master of Arts in English and the Master of Fine Arts in Creative Writing, and a doctoral program leading to a Ph.D. in Media, Art, and Text. Use the program search navigation to view individual program descriptions and curricula, or visit the department's website at [www.english.vcu.edu](http://www.english.vcu.edu) for additional information.

Creative Writing, Master of Fine Arts (M.F.A.) with a concentration in poetry

**Apply online at** [graduate.admissions.vcu.edu](http://graduate.admissions.vcu.edu).

## Admission requirements

### Creative Writing, Master of Fine Arts (M.F.A.) with a concentration in fiction

Degree:	Semester(s) of entry:	Deadline dates:	Test requirements:
M.F.A.	Fall	Feb 1 (Jan 15 for consideration of assistantship)	GRE-General
<b>Special requirements:</b> Portfolio (see below)			

The Master of Fine Arts in Creative Writing program is designed to attract students from diverse undergraduate backgrounds who are writers of promise. The program is suited particularly to those interested primarily in the writing of fiction and poetry; however, some emphasis also is placed on nonfiction writing, playwriting and screenwriting.

In addition to the [general admission requirements of the VCU Graduate School](#), the following requirements represent the minimum acceptable standards for admission:

1. A portfolio of promising fiction or poetry, possibly with drama (as a minimum, approximately eight to 10 poems, or 20 or more pages of fiction or some combination of these; in all cases, applicants should submit only their strongest creative writing samples) to be submitted directly to the M.F.A. program
2. Three recommendations from persons who are qualified to give information concerning the applicant's probable success in graduate school, especially in a creative writing program
3. A scholastic record that is indicative of the applicant's ability to pursue a graduate degree successfully
4. A baccalaureate degree or its equivalent from an accredited institution
5. Completion of the general Graduate Record Examination (The subject test in literature is not required for M.F.A. applicants.)

## VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

### General academic regulations for all graduate students in all graduate programs at VCU

## Program goals

Our selective and academically rigorous 48-credit-hour, three-year program is designed to provide talented writers with the opportunity to work closely with both outstanding faculty and gifted peers to strengthen their craft, develop their literary aesthetics, enrich their understanding of existing traditions as well as compositional possibilities, and to participate actively in the life of the literary community at large.

The primary areas of study are poetry and fiction, and admission is highly competitive. In addition to the poetry and fiction workshops, there are courses available that focus on writing drama, nonfiction and screenplays, as well as courses that provide practical experience in editing.

## Student learning outcomes

Students in the M.F.A. in Creative Writing program will:

1. Develop and refine their individual writerly voices, produce literary work of a high quality and demonstrate a comprehensive understanding of their own aesthetics, as well as the literary models and cultural sources of those aesthetics
2. Actively engage in a wider literary culture and community at the local, regional, national or international level
3. Develop constructive workshop practices and demonstrate the ability to read closely and respond perceptively and critically to the writing of their fellow M.F.A. students
4. Develop an advanced comprehension of editing and revision techniques and strategies, which include synthesizing challenges, advice and critiques from professors and fellow M.F.A. students
5. Develop, hone and articulate a keen sense of their artistic and career goals

### Student learning outcomes specific to fiction

1. Demonstrate the use or knowledge of effective approaches for creating sustained works of fiction distinguished by a nuanced use of appropriate narrative elements, techniques and conventions
2. Demonstrate a highly developed proficiency in understanding and creating story structures appropriate to their purpose and audience, as well as to their chosen literary modes and styles
3. In a statement of purpose or aesthetics that is part of their thesis manuscripts, as well as in an exit interviews/thesis defense, appraise and locate their own work within literary and cultural contexts

## Degree requirements

In addition to general [VCU Graduate School graduation requirements](#), students are required to complete course work in core and elective courses and to conduct significant research.

1. Credit hour requirements: Students in the M.F.A. in Creative Writing program are required to earn a minimum of 48 graduate-level credit hours beyond the baccalaureate. At least half of the credit hours presented for graduation must be at the 600 level or higher.
2. Other requirements: Beyond the required courses, students should select elective courses, in conjunction with the program director or their thesis advisers, which are appropriate to their aims and interests. The thesis work gives students the opportunity to produce manuscripts of publishable quality. Course work also is available in the techniques of teaching creative writing, and the program is flexible enough to include studies undertaken in other departments of the university as well, including the departments of Art History, Theatre and Philosophy and the Richard T. Robertson School of Media and Culture.

## Curriculum requirements

Courses	Credit hours
<b>Workshops</b>	<b>12</b>
Choose four courses from the following workshops. The majority of the course work should be in the student's genre.

## Degree requirements

In addition to general [VCU Graduate School graduation requirements](#), students are required to complete course work in core and elective courses and to conduct significant research.

1. Credit hour requirements: Students in the M.F.A. in Creative Writing program are required to earn a minimum of 48 graduate-level credit hours beyond the baccalaureate. At least half of the credit hours presented for graduation must be at the 600 level or higher.
2. Other requirements: Beyond the required courses, students should select elective courses, in conjunction with the program director or their thesis advisers, which are appropriate to their aims and interests. The thesis work gives students the opportunity to produce manuscripts of publishable quality. Course work also is available in the techniques of teaching creative writing, and the program is flexible enough to include studies undertaken in other departments of the university as well, including the departments of Art History, Theatre and Philosophy and the Richard T. Robertson School of Media and Culture.

## Curriculum requirements

Courses	Credit hours
---------	--------------

### Workshops 12

Choose four courses from the following workshops. The majority of the course work should be in the student's genre.

ENGL 666 Creative Writing: Fiction	3
ENGL 667 Creating Writing: Poetry	3
ENGL 668 Creative Writing: Drama	3
ENGL 671 Film and Television Scripts	3
ENGL 672 Writing Nonfiction	3

### Elective courses in literature 12

Choose four courses from the following list:

ENGL/TEDU 528 Children's Literature II	3
ENGL 560 Studies in British Literature and Culture	3
ENGL 570 Special Topics in American Literature and Culture	3
ENGL/ENED 601 Young Adult Literature	3
ENGL 605 Introduction to Scholarship in English Studies	3
ENGL 606 Literary Criticism	3
ENGL 611 Authors	3
ENGL 614 Cultural Discourses	3
ENGL 620 Intertextuality	3
ENGL 624 Texts and Contexts	3
ENGL 627 Genres	3
ENGL 629 Form and Theory of Poetry	3
ENGL 630 Form and Theory of Fiction	3
ENGL 631 Form and Theory of Creative Nonfiction	3
ENGL 692 Independent Study	1-3

### Additional recommended electives 18

May include up to three additional credit hours of thesis

ENGL/TEDU 528 Children's Literature II	3
ENGL/ENED 532 Applied English Linguistics	3
ENGL 550 Studies in Linguistics	3
ENGL/TEDU/LING 552 Teaching English as a Second Language	3
ENGL 560 Studies in British Literature and Culture	3
ENGL 570 Special Topics in American Literature and Culture	3
ENGL/ENED 601 Young Adult Literature	3
ENGL 605 Introduction to Scholarship in English Studies	3
ENGL 606 Literary Criticism	3
ENGL 611 Authors	3
ENGL 614 Cultural Discourses	3
ENGL 620 Intertextuality	3
ENGL 624 Texts and Contexts	3
ENGL 627 Genres	3
ENGL 629 Form and Theory of Poetry	3
ENGL 630 Form and Theory of Fiction	3
ENGL 631 Form and Theory of Creative Nonfiction	3
ENGL 632 Community Writing	3
ENGL 636 Teaching Writing	3
ENGL 637 Theories of Rhetoric and Composition	3
ENGL 638 Responding to Writing	3
ENGL 652 Studies in Writing and Rhetoric: _____	3
ENGL 661 Themes in Interdisciplinary Studies	3
ENGL 666 Creative Writing: Fiction	3
ENGL 667 Creating Writing: Poetry	3
ENGL 668 Creative Writing: Drama	3
ENGL 670 Literary Editing and Publishing	3
ENGL 671 Film and Television Scripts	3
ENGL 672 Writing Nonfiction	3
ENGL 673 Teaching Creative Writing	3

ENGL 692 Independent Study	1-3
ENGL 694 Internship in Writing	3
ENGL 798 Thesis	1-3

<b>Thesis</b>	<b>6</b>
ENGL 798 Thesis	1-3

<b>Total graduate credit hours required (minimum)</b>	<b>48</b>

## Degree candidacy requirements

A graduate student admitted to a program or concentration requiring a final research project, work of art, thesis or dissertation, must qualify for continuing master's or doctoral status according to the degree candidacy requirements of the student's graduate program. Admission to degree candidacy, if applicable, is a formal statement by the graduate student's faculty regarding the student's academic achievements and the student's readiness to proceed to the final research phase of the degree program.

Graduate students and program directors should refer to the following degree candidacy policy as published in the VCU Graduate Bulletin for complete information and instructions.

### Degree candidacy requirements

## Graduation requirements

As graduate students approach the end of their academic programs and the final semester of matriculation, they must make formal application to graduate. No degrees will be conferred until the application to graduate has been finalized.

Graduate students and program directors should refer to the following graduation requirements as published in the Graduate Bulletin for a complete list of instructions and a graduation checklist.

### Graduation requirements

## Admission requirements

English, Master of Arts (M.A.)			
Degree:	Semester(s) of entry:	Deadline dates:	Test requirements:
M.A.	Fall	Mar 1	GRE-General
	Spring	Oct 1	

In addition to the [general admission requirements of the VCU Graduate School](#), the following requirements represent the minimum acceptable standards for admission:

1. A baccalaureate degree in an area appropriate to the study of literature or writing
2. A GPA that indicates the applicant can successfully pursue a graduate degree
3. Three letters of recommendation from former instructors
4. Completion of the GRE (Applicants for the literature track may, but are not required to, submit scores for the GRE subject test in literature.)
5. A writing sample, optimally ranging from 10-15 double-spaced pages

Applicants may also indicate whether they intend to write a thesis and with which faculty members they hope to study.

## VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

### General academic regulations for all graduate students in all graduate programs at VCU

## Program goals

The Department of English offers an M.A. degree for students seeking study beyond a bachelor's degree which prepares graduates to pursue a doctorate, to teach in secondary or higher education or to obtain other positions in the public and private sector. The M.A. in English is designed for students pursuing advanced English studies, and students may choose to focus their course work in either literature or writing and rhetoric. The M.A. in English with a research concentration is designed for students pursuing advanced English studies with an emphasis on research, criticism and methodology.

## Student learning outcomes

1. Develop advanced reading and writing skills
2. Engage in theoretical and/or textual/bibliographical scholarship
3. Conduct original research and advance an original argument under faculty direction
4. Explain and defend original research in a formal presentation or defense
5. Survey the professional and academic work to which the degree leads

## Degree requirements

In addition to general [VCU Graduate School graduation requirements](#), students are required to complete course work in core and elective courses and to conduct significant research.

1. Credit hour requirements: Students in the M.A. in English program are required to earn a minimum of 30 graduate credit hours beyond the baccalaureate. At least half of the credit hours presented for graduation must be at the 600 level or higher.
2. Other requirements: Students must complete one of two final projects: either a directed study, under the supervision of a faculty member with a public presentation; or a thesis in consultation with a faculty committee, which culminates in an oral defense. Students must obtain approval for their final projects from their supervising faculty and the M.A. committee.

## Admission requirements

Media, Art, and Text, Doctor of Philosophy (Ph.D.)			
Degree: Ph.D.	Semester(s) of entry: Fall	Deadline dates: Jan 15	Test requirements: GRE-General

In addition to the [general admission requirements of the VCU Graduate School](#), the following requirements represent the minimum acceptable standards for admission.

- Applicants must hold a master's degree (M.A., M.F.A., M.S.) in a relevant field.
- Send the following, in the formats indicated, by email to the graduate programs adviser. **Note:** Materials submitted in any other way, as specified below (on paper, disk, etc.) will be discarded without review.
  - Writing sample demonstrating the ability to write clearly, analyze effectively and conduct original research in advanced doctoral-level seminars. This may be a master's thesis, a graduate-level seminar paper or a published essay. Submit as a PDF by email.
  - Statement of purpose describing the applicant's interest, motivation and goals in pursuing this degree. The statement should specifically address the importance of interdisciplinarity to the applicant's academic goals, and it should also offer evidence of preparation for the study of media, art, and text. The applicant should indicate the specific area of study and research to be pursued at VCU and identify faculty who might potentially direct dissertation research. Submit as a PDF by email. **Note:** This is a required separate submission of the same essay included in the online application.
  - Academic curriculum vitae or professional resume listing all colleges and universities attended and degrees earned, all professional and academic positions held, all publications and/or exhibitions, technical skills, and any other relevant information. Include URLs for personal and/or professional websites. Submit as PDF by email.
  - Letters of recommendation from three present or former instructors or other individuals qualified to evaluate the applicant's ability to engage in interdisciplinary study at the doctoral level. Have recommenders submit letters as PDFs directly to Thom Didato using only academic or professional email accounts.
- Applicants who wish to pursue creative work at VCU must also submit a portfolio. Those with an M.F.A. who do not wish to continue creative work should consult with the MATX director about this requirement. Materials submitted should demonstrate excellence in studio or professional practice and the potential to do graduate-level work in media, art, and text. Portfolios will be reviewed by the MATX admissions committee as well as relevant faculty in the School of the Arts and the Richard T. Robertson School of Media and Culture. Please observe the following guidelines:

- Those working in 2-D or 3-D mediums should provide 20 images of representative work arranged chronologically, beginning with the most recent.
- Those working in sound and time-based media, as well as those in the performing arts, should provide clips totaling no more than 10 minutes.
- Those working across media may submit a combination of the above.
- The portfolio should be accompanied by title, date, media and dimensions of the work, as well as a brief statement or other information that will help the admissions committee in evaluating the work.

Small files illustrating 2-D or 3-D work may be submitted as JPEGs or PDFs via email. Sound or video files should be posted to Vimeo or Sound Cloud with a functioning link submitted by email. Portfolio materials may also be posted to a personal or professional website and the link submitted by email.

## VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

### General academic regulations for all graduate students in all graduate programs at VCU

## Program goal

VCU's interdisciplinary doctoral program in media, art, and text is a joint endeavor of the Department of English, the School of the Arts and the Richard T. Robertson School of Media and Culture. The program prepares students primarily to teach at the college or university level, although some pursue careers in related media fields. MATX emphasizes the historical and theoretical foundations essential to the scholarly study of media, both old and new, broadly defined. It provides an intellectually stimulating environment that encourages students to work both collaboratively and independently, as well as across and between disciplines and media. Students maintain a base in their primary area of research, which is usually but not always the field in which they have done prior graduate work.

## Student learning outcomes

- Develop advanced communication skills in writing, speaking and the use of multimedia
- Demonstrate broad knowledge of history and theory as the foundation for interdisciplinary work in a specialized facet of media, art, and/or text
- Develop competence in interdisciplinary and disciplinary research methods and responsible conduct of research
- Develop specialized knowledge in relevant fields to support dissertation and subsequent research
- Demonstrate the ability to conduct independent research and produce new, specialized knowledge within the broad parameters of media, art, and text
- Develop a strong basis for ongoing professional practice

## Degree requirements

In addition to general [VCU Graduate School graduation requirements](#), students are required to complete course work in core and elective courses and to conduct significant research.

1. Credit hour requirements: Students in the MATX program are required to earn a minimum of 42 graduate-level credit hours beyond the master's. At least one-half of the credit hours presented for graduation must be at the 600 level or higher. The 42-hour curriculum comprises 36 hours of course work and a minimum of six hours of dissertation research. Course work includes a core of four required courses taken during the first two semesters by all incoming students. Three doctoral seminars provide a shared historical and theoretical foundation for the study of media, art, and text, while a workshop offers the opportunity to develop and expand professional and/or creative skills relevant to the student's career goals and research focus. In addition, all students will take a research methods course in a field relevant to their anticipated area of dissertation research. Beyond the core, students select 21 hours of elective credit hours from course offerings in disciplines relevant to their research interests and career goals. The program offers a topics seminar focused on the history, theory or practice of media, art, and text. Independent study and internships are also available as electives. While enrollment in courses with the MATX prefix is guaranteed to matriculated MATX students, enrollment in other graduate courses is subject to the conditions established by individual units. Together the core and the electives support the interdisciplinary work of the dissertation, which is an original scholarly examination of some aspect of media, art, and/or text. It may include work in media other than text. It is supervised by a committee consisting of four or five members drawn from disciplines relevant to the research topic.
2. Grade requirements: To graduate, degree applicants must achieve an overall grade point average of 3.0 (B) on a 4.0 scale with a grade of C in no more than two courses. The GPA for graduation will be based on all graduate courses attempted after acceptance into the program.
3. Requirements for admission to candidacy: Before beginning formal dissertation research, students must complete all 36 hours of required course work, both stages of the e-portfolio and the requirements described below. Upon completion of these, the student will apply for degree candidacy.
4. Dissertation committee: The dissertation committee consists of the director (who must hold a Ph.D.) and three or four additional members whose scholarly knowledge and interests are relevant to the project. The committee must have at least one member from each of the sponsoring units (Department of English, School of the Arts, Richard T. Robertson School of Media and Culture). All must be members of VCU's graduate faculty. Appropriate faculty from outside VCU may serve on committees (but not as director) with the approval of the MATX director and the graduate dean. It is the student's responsibility to assemble the committee, in consultation with the dissertation director. Committees will not be appointed by the program.
5. E-portfolio: Work on the e-portfolio will begin in MATX 604 in the spring of the first year. There are no technical specifications, and content will include, but is not limited to, work done in the first two years in the program. It will take the form of a website and must demonstrate the technical skills (Web design, audio, video, etc.) relevant to the student's work on the dissertation and the career sought after VCU. Submission is a two-stage process:
  - a. Stage 1 (May of the first year): a three- to five-page design rationale for the portfolio site along with a mock-up or rough structure
  - b. Stage 2 (April of the second year): a finished, live site accompanied by a five-page statement relating it to the student's work inside and outside the program and outlining how it uses media techniques to promote a specific professional and/or creative identity (Note: Each submission is graded pass/fail and may be repeated once. A second failure results in automatic termination from the program.)
3. Competency: Candidates must demonstrate competency in a skill or technique relevant to the dissertation research or planned professional career. The dissertation committee approves and administers the competency portion. Graded pass/fail, the test may be repeated once.
4. Bibliography exam: Candidates will complete an exam on a reading list of 20 to 30 sources relevant to or supportive of the dissertation topic. The dissertation committee approves and administers the bibliography exam. Graded pass/fail, the test may be repeated once.

5. Dissertation prospectus and prospectus defense: The prospectus is a 15- to 20-page document that indicates the significance of the proposed research, gives a short review of relevant literature, states the research question, specifies the proposed methodology and indicates how the project lays the foundation for the anticipated academic or professional career. It also includes a work plan for the completion of research and writing, as well as a complete bibliography. The prospectus is defended orally before the dissertation committee, which may accept, reject or require revisions. The defense may be repeated once.
6. Dissertation and dissertation defense: The dissertation is an original, interdisciplinary and scholarly examination of a topic relevant to an aspect of media, art, and/or text. It may include work in media other than text. Given the varied nature of doctoral research, there is no set time frame for completion of a dissertation. It is expected, however, that the dissertation will take about two years after attaining candidacy, but it must be defended within the eight-year time limit for completion of the doctoral degree. The dissertation will be defended orally before the dissertation committee. Successful defense of the dissertation completes the requirements for the degree.

MASC 691 Topics in Mass Communications	1-3
MATX 690 Seminar in Media, Art, and Text	3
MATX 696 Internship	1-3
MATX 791 Directed Study (may be taken for a maximum of 12 credit hours)	1-3

## Degree candidacy requirements

A graduate student admitted to a program or concentration requiring a final research project, work of art, thesis or dissertation, must qualify for continuing master's or doctoral status according to the degree candidacy requirements of the student's graduate program. Admission to degree candidacy, if applicable, is a formal statement by the graduate student's faculty regarding the student's academic achievements and the student's readiness to proceed to the final research phase of the degree program.

Graduate students and program directors should refer to the following degree candidacy policy as published in the VCU Graduate Bulletin for complete information and instructions.

### Degree candidacy requirements

## Graduation requirements

As graduate students approach the end of their academic programs and the final semester of matriculation, they must make formal application to graduate. No degrees will be conferred until the application to graduate has been finalized.

Graduate students and program directors should refer to the following graduation requirements as published in the Graduate Bulletin for a complete list of instructions and a graduation checklist.

### Graduation requirements

The MATX student handbook is available at [matx.vcu.edu/program/handbook](http://matx.vcu.edu/program/handbook).

## Department of Forensic Science

The Department of Forensic Science offers programs leading to bachelor's and master's degrees.

The Bachelor of Science is for students who plan a career or graduate study in the forensic sciences. The forensic science program provides students with fundamental learning in forensic laboratory analyses and crime scene investigation, with academic emphasis in biology, chemistry and criminal justice. The program offers three concentrations: forensic biology, forensic chemistry and physical evidence. Students will select one of the three concentrations prior to the second semester of their sophomore year. The B.S. in Forensic Science supplies students with the necessary skills for professional careers in forensic laboratories, public and private, basic research laboratories, clinical laboratories, and/or to pursue graduate studies. Students also will be prepared to pursue advanced

degrees in the physical sciences, biological sciences, forensic science, law, allied health and medicine, to name a few.

The Master of Science in Forensic Science prepares students for careers as forensic scientists in government and private laboratories. Students receive in-depth exposure to specializations within the field, including drug analysis, DNA analysis, trace evidence, criminalistics and legal issues.

For more information visit [www.has.vcu.edu/forensics](http://www.has.vcu.edu/forensics).

## Administration

### Michelle R. Peace

Instructor and Interim Department Chair

### Tracey Dawson Cruz

Associate Professor and Graduate Program Director

### Eric J. Hazelrigg

Assistant Professor and Undergraduate Program Director

Program website: [forensicscience.vcu.edu](http://forensicscience.vcu.edu)

Refer to the [program search](#) function of the online VCU Bulletins for a complete listing of all programs, concentrations and related curricular options.

Forensic Science, Master of Science (M.S.) with a concentration in forensic chemistry/trace

Forensic Science, Master of Science (M.S.) with a concentration in forensic chemistry/drugs and toxicology

Forensic Science, Master of Science (M.S.) with a concentration in forensic physical analysis

Apply online at [graduate.admissions.vcu.edu](http://graduate.admissions.vcu.edu).

## Admission requirements

Forensic Science, Master of Science (M.S.) with a concentration in forensic biology			
Degree:	Semester(s) of entry:	Deadline dates:	Test requirements:
M.S.	Fall	Mar 1	GRE
Note: Review of application and offers of admission will begin Jan. 15 and proceed until enrollment openings are filled.			

In addition to the [general admission requirements of the VCU Graduate School](#), the following requirements represent the minimum acceptable standards for admission:

1. Bachelor's degree in a natural science discipline, including forensic science, or a degree with equivalent course work
2. An undergraduate GPA that exceeds 2.9 on a 4.0 scale (Most students entering the forensic science graduate program have a minimum GPA of 3.0 on undergraduate work and a combined score of 300 or more on the verbal and quantitative sections of the GRE)

3. Completion of eight credit hours (two semesters or equivalent) of organic chemistry with laboratories and eight credit hours (two semesters or equivalent) of general biology with laboratories
4. Assessment of prior graduate course work and/or relevant laboratory experience (where applicable)
5. Three letters of recommendation pertaining specifically to the student's potential ability as a graduate student in forensic science
6. Personal statement
7. Satisfactory scores on GRE

Applicants are required to select a concentration and will be considered only for that concentration. If course work deficiencies are identified, students may be required to take additional foundational courses beyond those required for the concentration.

#### Additional admission requirements for concentration in forensic biology

In addition to the M.S. in Forensic Science general admission requirements, applicants to the forensic biology concentration must have completed a minimum of nine credit hours or equivalent of upper-level course work in the biological or biochemical sciences. This may include, but is not limited to, course work in cell biology, general biochemistry, genetics and/or molecular biology.

### VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

#### General academic regulations for all graduate students in all graduate programs at VCU

### Program goal

The Master of Science in Forensic Science is one of only a few of its kind in the U.S. The mission of the program is to prepare students for careers as forensic scientists in government and private forensic laboratories. In addition, students will be prepared to pursue further graduate and/or professional academic degrees.

Core courses in the forensic science curriculum offer broad exposure to forensic laboratory equipment and instrumentation, as well as legal issues, expert testimony, forensic biology, forensic chemistry, trace evidence, physical evidence, professional ethics, quality assurance and current topics in research and development within the forensic sciences. Students entering the program will be required to select a concentration by the end of the first semester. Concentrations offered include forensic biology, forensic chemistry/drugs and toxicology, forensic chemistry/trace and forensic physical analysis. A strong emphasis is placed on laboratory course work, providing students with significant laboratory and research experience. Several of the laboratory courses are taught by practicing professional forensic scientists at the Virginia Division of Forensic Science Central Laboratory, which is nationally accredited by the American Society of Crime Laboratory Directors/Laboratory Accreditation Board.

### Student learning outcomes

1. Students will be able to apply basic principles and laboratory procedures of biology and chemistry to forensic science through focused study in the available concentration options.
2. Students will demonstrate capabilities, use, potential and limitations of forensic laboratory theory and techniques.
3. Students will demonstrate the ability to perform (report and orally present) independent research in an area of forensic science.
4. Students will demonstrate an understanding of legal procedure, rules of evidence, ethical and professional duties and responsibilities of the forensic scientist.

### Degree requirements

The graduate program is a full-time, two-year program. Courses will vary depending on the concentration selected. Required and elective courses are offered at various times, day and night, throughout the week. The M.S. in Forensic Science requires 42 graduate credit hours of course work, including 27 credit hours of required core course work and 15 credit hours of specialized course work designed for each concentration (including electives). The required course work includes a directed research project, which is an extensive research experience conducted within a forensic laboratory setting.

In addition to general [VCU Graduate School graduation requirements](#), students are required to complete course work in core and elective courses and to conduct significant research.

1. Credit hour requirements: Students must complete a minimum of 42 graduate-level credit hours as outlined in the list of core and concentration requirements, including electives.
2. Grade requirements: Students must maintain an ongoing, cumulative minimum GPA of 3.0. Receipt of a grade of C in two or more courses will constitute an automatic dismissal from the graduate program in forensic science. Receipt of a grade of D or lower in any one course will constitute an automatic dismissal from the graduate program in forensic science.
3. Other requirements: Students must maintain continuous, full-time enrollment. Interruption in continuous enrollment or full-time status for any reason without a leave of absence approved by the forensic science graduate committee will require that students reapply to the program. Request for credit for graduate course work taken at other institutions must be submitted to the director of graduate studies in forensic science and will be considered on a case-by-case basis by the forensic science graduate committee. If course work deficiencies are identified, students may be required to take additional foundational courses beyond those listed below. These will not count toward the 42 required credit hours.

### Curriculum requirements

Courses	Credit hours
<b>Core courses</b>	<b>27</b>
FRSC 570 Forensic Science Seminar [1, 2]	3

PHTX 548 Drug Dependence	3
<b>Total graduate credit hours required (minimum)</b>	<b>42</b>

- 1 One-credit hour must be completed each semester during first year  
 2 Courses required during the first fall semester upon entry into the program  
 \* Course consists of lecture and laboratory

### Degree candidacy requirements

A graduate student admitted to a program or concentration requiring a final research project, work of art, thesis or dissertation, must qualify for continuing master's or doctoral status according to the degree candidacy requirements of the student's graduate program. Admission to degree candidacy, if applicable, is a formal statement by the graduate student's faculty regarding the student's academic achievements and the student's readiness to proceed to the final research phase of the degree program.

Graduate students and program directors should refer to the following degree candidacy policy as published in the VCU Graduate Bulletin for complete information and instructions.

#### Degree candidacy requirements

### Graduation requirements

As graduate students approach the end of their academic programs and the final semester of matriculation, they must make formal application to graduate. No degrees will be conferred until the application to graduate has been finalized.

Graduate students and program directors should refer to the following graduation requirements as published in the Graduate Bulletin for a complete list of instructions and a graduation checklist.

#### Graduation requirements

### Other information

The forensic science graduate student handbook is available at [forensicscience.vcu.edu/grad/handbook.html](http://forensicscience.vcu.edu/grad/handbook.html).

### Forensic Science, Master of Science (M.S.) with a concentration in forensic physical analysis

#### Program accreditation

Forensic Science Education Programs Accreditation Commission

 (804) 828-0642

**Program website:** [forensicscience.vcu.edu](http://forensicscience.vcu.edu)

**Refer to the [program search](#) function of the online VCU Bulletins for a complete listing of all programs, concentrations and related curricular options.**

Forensic Science, Master of Science (M.S.) with a concentration in forensic biology  
 Forensic Science, Master of Science (M.S.) with a concentration in forensic chemistry/drugs and toxicology  
 Forensic Science, Master of Science (M.S.) with a concentration in forensic chemistry/trace

**Apply online at** [graduate.admissions.vcu.edu](http://graduate.admissions.vcu.edu).

### Admission requirements

Forensic Science, Master of Science (M.S.) with a concentration in forensic physical analysis			
Degree:	Semester(s) of entry:	Deadline dates:	Test requirements:
M.S.	Fall	Mar 1	GRE
Note: Review of application and offers of admission will begin Jan. 15 and proceed until enrollment openings are filled.			

In addition to the [general admission requirements of the VCU Graduate School](#), the following requirements represent the minimum acceptable standards for admission:

1. Bachelor's degree in a natural science discipline, including forensic science, or a degree with equivalent course work
2. An undergraduate GPA that exceeds 2.9 on a 4.0 scale (Most students entering the forensic science graduate program have a minimum GPA of 3.0 on undergraduate work and a combined score of 300 or more on the verbal and quantitative sections of the GRE)
3. Completion of eight credit hours (two semesters or equivalent) of organic chemistry with laboratories and eight credit hours (two semesters or equivalent) of general biology with laboratories
4. Assessment of prior graduate course work and/or relevant laboratory experience (where applicable)
5. Three letters of recommendation pertaining specifically to the student's potential ability as a graduate student in forensic science
6. Personal statement
7. Satisfactory scores on GRE

Applicants are required to select a concentration and will be considered only for that concentration. If course work deficiencies are identified, students may be required to take additional foundational courses beyond those required for the concentration.

#### Additional admission requirements for concentration in forensic physical analysis

In addition to the M.S. in Forensic Science general admission requirements, applicants to the forensic physical analysis concentration must have completed a minimum of nine credit hours or equivalent of upper-level science course work. This may include, but is not limited to, course work in the areas of biology, chemistry, physics or biochemistry.

### VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

#### General academic regulations for all graduate students in all graduate programs at VCU

### Program goal

The Master of Science in Forensic Science is one of only a few of its kind in the U.S. The mission of the program is to prepare students for careers as forensic

scientists in government and private forensic laboratories. In addition, students will be prepared to pursue further graduate and/or professional academic degrees.

Core courses in the forensic science curriculum offer broad exposure to forensic laboratory equipment and instrumentation, as well as legal issues, expert testimony, forensic biology, forensic chemistry, trace evidence, physical evidence, professional ethics, quality assurance and current topics in research and development within the forensic sciences. Students entering the program will be required to select a concentration by the end of the first semester. Concentrations offered include forensic biology, forensic chemistry/drugs and toxicology, forensic chemistry/trace and forensic physical analysis. A strong emphasis is placed on laboratory course work, providing students with significant laboratory and research experience. Several of the laboratory courses are taught by practicing professional forensic scientists at the Virginia Division of Forensic Science Central Laboratory, which is nationally accredited by the American Society of Crime Laboratory Directors/Laboratory Accreditation Board.

## Student learning outcomes

1. Students will be able to apply basic principles and laboratory procedures of biology and chemistry to forensic science through focused study in the available concentration options.
2. Students will demonstrate capabilities, use, potential and limitations of forensic laboratory theory and techniques.
3. Students will demonstrate the ability to perform (report and orally present) independent research in an area of forensic science.
4. Students will demonstrate an understanding of legal procedure, rules of evidence, ethical and professional duties and responsibilities of the forensic scientist.

## Degree requirements

The graduate program is a full-time, two-year program. Courses will vary depending on the concentration selected. Required and elective courses are offered at various times, day and night, throughout the week. The M.S. in Forensic Science requires 42 graduate credit hours of course work, including 27 credit hours of required core course work and 15 credit hours of specialized course work designed for each concentration (including electives). The required course work includes a directed research project, which is an extensive research experience conducted within a forensic laboratory setting.

In addition to general [VCU Graduate School graduation requirements](#), students are required to complete course work in core and elective courses and to conduct significant research.

1. Credit hour requirements: Students must complete a minimum of 42 graduate-level credit hours as outlined in the list of core and concentration requirements, including electives.
2. Grade requirements: Students must maintain an ongoing, cumulative minimum GPA of 3.0. Receipt of a grade of C in two or more courses will constitute an automatic dismissal from the graduate program in forensic science. Receipt of a grade of D or lower in any one course will constitute an automatic dismissal from the graduate program in forensic science.
3. Other requirements: Students must maintain continuous, full-time enrollment. Interruption in continuous enrollment or full-time status for any reason without a leave of absence approved by the forensic science graduate committee will require that students reapply to the program. Request for credit for graduate course work taken at other institutions must be submitted to the director of graduate studies in forensic science and will be considered on a case-by-case basis by the forensic science graduate committee. If course work deficiencies are identified, students may be required to take additional foundational courses beyond those listed below. These will not count toward the 42 required credit hours.

However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

#### General academic regulations for all graduate students in all graduate programs at VCU

### Program goal

The Department of Gender, Sexuality and Women's Studies is devoted to the interdisciplinary, multicultural study of the achievements, contributions, perspectives, experiences, roles and status of women encompassing the intersectionality of race, class, age, ethnicity, disability status, nationality and sexual identity.

### Student learning outcomes

1. Have a firm grasp of the feminist paradigm, including feminist theories and the theoretical frameworks that inform the analysis of social, cultural, historical, economic and political forces that shape the experiences of women
2. Demonstrate facility for problem-solving and critical-thinking
3. Demonstrate facility for intersectional analysis as it relates to diversity
4. Be grounded in and understand the linkages between the liberal arts and sciences including commonalities, differences and contributions of each to the field of gender, sexuality and women's studies

### Degree requirements

In addition to the [VCU Graduate School graduation requirements](#), students are required to complete course work in core and elective courses.

1. Credit hour requirements: Students in the Certificate in Gender, Sexuality and Women's Studies program are required to earn a minimum of 15 graduate-level credit hours beyond the baccalaureate.
2. Grade requirements: An overall GPA of 3.0 is required for award of the certificate, and no more than three credit hours of C may be earned in the certificate program curriculum.

## Curriculum requirements

Apply online at [graduate.admissions.vcu.edu](http://graduate.admissions.vcu.edu).

## Admission requirements

History, Master of Arts (M.A.)			
Degree:	Semester(s) of entry:	Deadline dates:	Test requirements:
M.A.	Fall	Jul 1	GRE
	Spring	Dec 1	

In addition to the [general admission requirements of the VCU Graduate School](#), the following requirements represent the minimum acceptable standards for admission:

1. Normally, 30 credit hours of undergraduate history courses, of which 18 credit hours should be at the upper-division level
2. A GPA indicative of the ability to successfully pursue a graduate degree
3. Three letters of recommendation from persons qualified to provide information concerning the applicant's probable success in graduate school
4. Satisfactory completion of the Graduate Record Examination
5. Submission of a written statement of intent, indicating why the applicant wishes to pursue a graduate degree in history

## VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the

University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

**General academic regulations for  
all graduate students in all graduate programs at VCU**

## Program goals

The master's program in history draws on faculty expertise and the wealth of historical resources available in the Richmond area to support the extended exploration of the human past and the craft of history. It prepares students for the successful practice of historical scholarship in a variety of fields including archives, libraries, historical sites, museums, government agencies, businesses, publishing and secondary education, as well as for advanced study in doctoral programs.

## Student learning outcomes

Graduates of the program will:

1. Develop the ability to understand the processes and methodologies historians use to study the past
2. Develop the ability to understand and think critically about scholarly works of history
3. Develop the ability to do historical research and present interpretations in writing
4. Develop the ability to understand the myriad of forces that shape human experiences and critically weigh change and continuity over time

## Degree requirements

In addition to general [VCU Graduate School graduation requirements](#), students are required to complete course work in core and elective courses and to conduct significant research.

1. The Master of Arts in History may be achieved through one of two options:
2. The thesis option requires 30 graduate credit hours with six credit hours of HIST 698.
3. The non-thesis option requires 36 graduate credit hours with a minimum of six credits in research-level courses and an oral comprehensive exam.
4. At least half of the credit hours presented for graduation must be at the 600 level or higher.
5. Students may take up to six credits of non-history electives from an approved list of elective courses. In addition, students who wish to pursue specific areas of study may, with the approval of the graduate director, substitute other courses when appropriate, but in no case shall be able to count more than six credit hours of non-history courses.

## Curriculum requirements

### Thesis option

Courses	Credit hours
<b>Required courses</b>	<b>9</b>
HIST 601 Historiography and Methodology	3
HIST 698 M.A. Thesis	6
<b>Electives</b>	<b>21</b>
Choose from the following courses. With prior approval, a student may take up to six graduate credit hours from outside of the history department.	
HIST 511 Studies in American History	3
HIST 515 Studies in European History	3

HIST 519 Studies in Ethnic and Social History	3
HIST 523 Studies in Virginia and Southern History	3
HIST 527 Studies in African-American History	3
HIST 591 Special Topics in History	1-3
HIST 611 Readings in American History	3
HIST 615 Readings in European History	3
HIST 618 Readings in Transatlantic History	3
HIST 619 Readings in Ethnic and Social History	3
HIST 623 Readings in Virginia and Southern History	3
HIST 627 Readings in African-American History	3
HIST 631 Research in American History	3
HIST 635 Research in European History	3
HIST 638 Research in Transatlantic History	3
HIST 639 Research in Ethnic and Social History	3
HIST 643 Research in Virginia and Southern History	3
HIST 647 Research in African-American History	3
HIST 691 Special Topics in History	1-3
HIST 692 Independent Study <b>or</b> HIST 693 Internship in History	6 (maximum)
TEDU 627 Exploring Historical Consciousness	3

**Total graduate credit hours required (minimum) 30**

### Non-thesis option

**Required course 3**  
HIST 601 Historiography and Methodology 3

**Electives 33**  
Choose two research courses from: 6

HIST 631 Research in American History	3
HIST 635 Research in European History	3
HIST 638 Research in Transatlantic History	3
HIST 639 Research in Ethnic and Social History	3
HIST 643 Research in Virginia and Southern History	3
HIST 647 Research in African-American History	3

Choose additional electives the following courses. With prior approval, a student may take up to six graduate credit hours from outside of the history department. 27

HIST 511 Studies in American History	3
HIST 515 Studies in European History	3
HIST 519 Studies in Ethnic and Social History	3
HIST 523 Studies in Virginia and Southern History	3
HIST 527 Studies in African-American History	3
HIST 591 Special Topics in History	1-3
HIST 611 Readings in American History	3
HIST 615 Readings in European History	3
HIST 618 Readings in Transatlantic History	3
HIST 619 Readings in Ethnic and Social History	3
HIST 623 Readings in Virginia and Southern History	3

HIST 631 Research in American History	3
HIST 635 Research in European History	3
HIST 638 Research in Transatlantic History	3
HIST 639 Research in Ethnic and Social History	3
HIST 643 Research in Virginia and Southern History	3
HIST 647 Research in African-American History	3
HIST 691 Special Topics in History	1-3
HIST 692 Independent Study <b>or</b> HIST 693 Internship in History	6 (maximum)
TEDU 627 Exploring Historical Consciousness	3

Total graduate credit hours required (minimum)

36

## Degree candidacy requirements

A graduate student admitted to a program or concentration requiring a final research project, work of art, thesis or dissertation, must qualify for continuing master's or doctoral status according to the degree candidacy requirements of the student's graduate program. Admission to degree candidacy, if applicable, is a formal statement by the graduate student's faculty regarding the student's academic achievements and the student's readiness to proceed to the final research phase of the degree program.

Graduate students and program directors should refer to the following degree candidacy policy as published in the VCU Graduate Bulletin for complete information and instructions.

### Degree candidacy requirements

## Graduation requirements

As graduate students approach the end of their academic programs and the final semester of matriculation, they must make formal application to graduate. No degrees will be conferred until the application to graduate has been finalized.

Graduate students and program directors should refer to the following graduation requirements as published in the Graduate Bulletin for a complete list of instructions and a graduation checklist.

### Graduation requirements

## Department of Kinesiology and Health Sciences

The Department of Kinesiology and Health Sciences offers programs that prepare students to pursue careers in community health, careers that employ exercise interventions for both healthy and diseased populations and/or careers designed for students who wish to enter a health care-related field (that does not require licensure, certification or registry status). The department offers one undergraduate degree program: the Bachelor of Science in Health, Physical Education and Exercise Science. There are three concentrations within the B.S. in Health, Physical Education and Exercise Science: community health education, exercise science and health science.

Along with the undergraduate program, the department also offers a Master of Science in Health and Movement Sciences and Doctor of Philosophy in Rehabilitation and Movement Science.

The M.S. in Health and Movement Sciences program provides advanced course work for students interested in the application of health and movement science principles to exercise science, teaching and sports medicine. This program has a central focus on the sciences and is flexible enough so that students, with the assistance of an adviser, can design a program that truly meets their professional goals.

The Doctor of Philosophy in Rehabilitation and Movement Science program is interdisciplinary in nature and includes faculty from the departments of Kinesiology and Health Sciences, Physical Therapy, and Physical Medicine and Rehabilitation. Students choose a concentration in either exercise physiology or neuromusculoskeletal dynamics.

For more information, consult the department's website at <http://vku.edu>.

In addition to the [general admission requirements of the VCU Graduate School](#), applicants must have received a bachelor's degree in exercise science or a related field from an accredited university or college.

## VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

### General academic regulations for all graduate students in all graduate programs at VCU

## Program goal

This program provides advanced course work for students interested in the application of health and movement science principles to exercise science, teaching and sports medicine. Applicants planning to enter the teaching profession should hold a valid teaching endorsement. Students admitted to this program typically have backgrounds in exercise science, life science or related fields. This program does not provide opportunities for initial licensure in health and physical education.

## Student learning outcomes

1. Demonstrate an understanding of research design and statistical applications relative to the disciplines comprising the health and movement sciences
2. Demonstrate mastery of essential knowledge in health and movement science
3. Demonstrate a comprehensive or advanced knowledge of the field of health and movement science

## Degree requirements

In addition to the [VCU Graduate School graduation requirements](#), students are required to complete course work in core and elective courses and to conduct significant research.

1. Credit hour requirements: Students in the M.S. in Health and Movement Sciences program are required to earn a minimum of 36 graduate-level credit hours beyond the baccalaureate. At least one-half of the credit hours presented for graduation must be at the 600 level or higher.
2. Master's-level candidacy and requirements: The Master of Science in Health and Movement Sciences program offers a thesis and non-thesis option. After completing at least 12 graduate credit hours and not more than 18 credit hours, with a minimum GPA of 3.0, all students must apply for advancement to candidacy. In the thesis option, students must complete HEMS 798 Thesis for six credit hours and 30 hours of prescribed course work. Students enrolling in this option will not be required to complete a comprehensive examination. In the non-thesis option, students must complete 36 hours of prescribed course work and must pass a comprehensive examination, which is taken after completing 30 hours of course work.

## Curriculum requirements

### Thesis option

Courses	Credit hours
BIOS/STAT 543 Statistical Methods I	3
HEMS 600 Introduction to Research Design in Health and Movement Sciences	3
HEMS/REMS 601 Movement Physiology	3
HEMS 604 Nutrition for Health and Physical Activity	3
HEMS 605 Psychology of Physical Activity	3
HEMS 610 Laboratory Techniques in Rehabilitation Science	3
HEMS/REMS 611 Biomechanics of Human Motion <b>or</b> a course from the list of general electives	3
HEMS 675 Clinical Exercise Physiology	3
HEMS 798 Thesis	6
General elective from list below	3
Specified elective from list below	3
<b>Total graduate credit hours (minimum)</b>	<b>36</b>

### Non-thesis option

Courses	Credit hours
BIOS/STAT 543 Statistical Methods I	3
HEMS 600 Introduction to Research Design in Health and Movement Sciences	3
HEMS 601 Movement Physiology	3
HEMS 604 Nutrition for Health and Physical Activity	3
HEMS 605 Psychology of Physical Activity	3
HEMS 610 Laboratory Techniques in Rehabilitation Science	3
HEMS 611 Biomechanics of Human Motion <b>or</b> a course from the list of general electives	3
HEMS 675 Clinical Exercise Physiology	3
HEMS 692 Independent Study <b>or</b> HEMS 797 Directed Research Study	3
HEMS 695 Externship	3
General elective from list below	3
Specified elective from list below	3
<b>Total graduate credit hours required (minimum)</b>	<b>36</b>

### Specified electives

HEMS 550 Exercise, Nutrition and Weight Management	3
--	---

REMS 703 Cardiovascular Exercise Physiology	3
REMS 704 Psychobiology of Physical Activity	3
REMS 705 Metabolic Aspects of Physical Activity	3

### General electives

HEMS 550 Exercise, Nutrition and Weight Management	3
HEMS/REMS 660 Neuromuscular Performance	3
HEMS 692 Independent Study	3
HEMS 695 Externship	3
HEMS 797 Directed Research Study	3
REMS 690 Research Seminar in Rehabilitation and Movement Science	0.5
REMS 701 Advanced Exercise Physiology I	3
REMS 702 Advanced Exercise Physiology II	3
REMS 703 Cardiovascular Exercise Physiology	3
REMS 704 Psychobiology of Physical Activity	3
REMS 705 Metabolic Aspects of Physical Activity	3

## Degree candidacy requirements

A graduate student admitted to a program or concentration requiring a final research project, work of art, thesis or dissertation, must qualify for continuing master's or doctoral status according to the degree candidacy requirements of the student's graduate program. Admission to degree candidacy, if applicable, is a formal statement by the graduate student's faculty regarding the student's academic achievements and the student's readiness to proceed to the final research phase of the degree program.

Graduate students and program directors should refer to the following degree candidacy policy as published in the VCU Graduate Bulletin for complete information and instructions.

### Degree candidacy requirements

## Graduation requirements

As graduate students approach the end of their academic programs and the final semester of matriculation, they must make formal application to graduate. No degrees will be conferred until the application to graduate has been finalized.

Graduate students and program directors should refer to the following graduation requirements as published in the Graduate Bulletin for a complete list of instructions and a graduation checklist.

### Graduation requirements

**Rehabilitation and Movement Science, Doctor of Philosophy (Ph.D.) with a concentration in exercise physiology**

### Graduate program director

Ronald K. Evans, Ph.D.

Associate professor and director of graduate studies, Department of Kinesiology and Health Sciences

[rkevans@vcu.edu](mailto:rkevans@vcu.edu)

(804) 828-1948

### Additional contact

Sheryl D.G. Finucane, Ph.D., P.T.

Assistant professor and graduate program director, Department of Physical Therapy

[sfinucan@vcu.edu](mailto:sfinucan@vcu.edu)

(804) 828-0234

**Program website:** [sahp.vcu.edu/pt/prospective/phd/rehabmovement.html](http://sahp.vcu.edu/pt/prospective/phd/rehabmovement.html)

Refer to the [program search function of the online VCU Bulletins](#) for a complete listing of all programs, concentrations and related curricular options.

Rehabilitation and Movement Science, Doctor of Philosophy (Ph.D.) with a concentration in neuromusculoskeletal dynamics

Apply online at [graduate.admissions.vcu.edu](http://graduate.admissions.vcu.edu).

## Admission requirements

Rehabilitation and Movement Science, Doctor of Philosophy (Ph.D.) with a concentration in exercise physiology			
Degree: Ph.D.	Semester(s) of entry: Fall preferred	Deadline dates: Applications received prior to Jan 9 will be given priority consideration	Test requirements: GRE
Special requirements: Applications received following the deadline may be considered if space and resources are available.			

In addition to the [general admission requirements of the VCU Graduate School](#), applicants must:

1. Have completed at least one of a master's degree in a related area, 30 hours of post-baccalaureate work (e.g. course work at 500 level or greater) or a first-professional degree program
2. Provide official GRE score
3. Submit a curriculum vitae or professional resume indicating an applicant's educational and career experience as well as evidence of research potential

Admission decisions are made only on the basis of a completed application packet.

Applicants being considered for admission must complete an interview with a Ph.D. admissions committee representative and/or research faculty member with whom the student would like to work.

## VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

### General academic regulations for all graduate students in all graduate programs at VCU

## Program goal

The Ph.D. in Rehabilitation and Movement Science is an interdisciplinary degree program developed through a collaborative partnership of the departments of Kinesiology and Health Sciences, Physical Therapy, and Physical Medicine and Rehabilitation. The mission of this collaborative degree program is to prepare applied scientists capable of approaching multifaceted health care, preventive medicine and rehabilitation initiatives from an integrative perspective and to prepare graduates to assume research, teaching and leadership positions within rehabilitation and movement science professions.

There are two program concentrations: exercise physiology and neuromusculoskeletal dynamics. The exercise physiology concentration prepares individuals to conduct research, direct external funding initiatives and teach in the area of exercise physiology, with particular focus on physical activity's impact on chronic disease states. The neuromusculoskeletal dynamics concentration prepares individuals for research, teaching and clinical initiatives associated with the identification and rehabilitation of movement disorders.

## Student learning outcomes

At the completion of the program students will:

1. Demonstrate teaching effectiveness in the classroom, clinical environment or both
2. Have disseminated research findings at an appropriate regional, national or international conference
3. Demonstrate the ability to independently collect research data, analyze research data and synthesize conclusions from research data

## Degree requirements

In addition to general [VCU Graduate School graduation requirements](#), students pursuing the Ph.D. in Rehabilitation and Movement Science must successfully complete:

1. A minimum of 50 credit hours developed in conjunction with their advisers
2. Written and oral comprehensive examinations
3. All other university requirements of qualification for degree candidacy
4. Written dissertation based on a focused line of research
5. Oral defense of the dissertation

## Curriculum requirements

### Graduation requirements

## Department of Mathematics and Applied Mathematics

The Department of Mathematics and Applied Mathematics offers an undergraduate program leading to a Bachelor of Science in Mathematical Sciences with concentrations in applied mathematics, biomathematics, mathematics and secondary mathematics teacher preparation. The department administers the Master of Science in Mathematical Sciences concentrations in applied mathematics or mathematics and is involved in administering the Doctor of Philosophy in Systems Modeling and Analysis. The curricula of these programs are run jointly with additional concentrations offered by the [Department of Statistical Sciences and Operations Research](#).

## Administration

**Norma Ortiz-Robinson**

Associate Professor and Interim Department Chair

[math.vcu.edu](http://math.vcu.edu)

## Mathematics and applied mathematics courses

Descriptions for all courses offered by the university may be accessed through the online courses database at [www.pubapps.vcu.edu/vcucourses](http://www.pubapps.vcu.edu/vcucourses). You may search by unit, subject or keyword, as well as by degree level.

Students registering for CMSC 201 or 255, MATH 131, 141, 151, 200, 211 or 300, or STAT 208 or 210 must place into these courses either from receiving VCU credit for stated prerequisite courses (for instance, MATH 151 is a stated prerequisite course for MATH 200) or from a satisfactory score (within a 39-month period immediately preceding the beginning of the course) on the VCU Mathematics Placement Test.

Follow this link to mathematics and applied mathematics ([MATH](#)) courses.

Use this link to see systems modeling and analysis ([SYSM](#)) courses.

## Mathematical Sciences, Master of Science (M.S.) with a concentration in applied mathematics

### Graduate program director

Richard H. Hammack, Ph.D.

Graduate coordinator, concentrations in mathematics and applied mathematics  
[rhammack@vcu.edu](mailto:rhammack@vcu.edu)  
 (804) 828-6237

Program website: [math.vcu.edu](http://math.vcu.edu)

Refer to the [program search](#) function of the online VCU Bulletins for a complete listing of all programs, concentrations and related curricular options.

Mathematical Sciences, Master of Science (M.S.) with a concentration in mathematics

Mathematical Sciences, Master of Science (M.S.) with a concentration in operations research

Mathematical Sciences, Master of Science (M.S.) with a concentration in statistics

Apply online at [graduate.admissions.vcu.edu](http://graduate.admissions.vcu.edu).

### Admission requirements

Mathematical Sciences, Master of Science (M.S.) with a concentration in applied mathematics			
Degree:	Semester(s) of entry:	Deadline dates:	Test requirements:
M.S.	Fall	Mar 1	GRE – general TOEFL (international students only)
	Spring	Oct 1	
Special requirements: Priority deadlines for funding consideration			

In addition to the [general admission requirements of the VCU Graduate School](#), the following requirements represent the minimum acceptable standards for admission:

1. Thirty credit hours in undergraduate mathematical sciences, computer science or related areas of which at least 18 credit hours must represent upper-level courses
2. Three letters of recommendation pertaining to the student's potential ability as a graduate student in mathematical sciences

Provisional admission may be granted when deficiencies exist. These deficiencies must be removed by the end of the first year of residence, or its part-time equivalent, when the student's application will be re-examined. Courses that are remedial or designed to remove deficiencies will not be accepted for credit hours toward the fulfillment of the course requirements for the master's degree.

### VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

General academic regulations for  
all graduate students in all graduate programs at VCU

### Program goal

The Department of Mathematics and Applied Mathematics and the Department of Statistical Sciences and Operations Research jointly offer the M.S. in Mathematical Sciences.

The mission of the Department of Mathematics and Applied Mathematics is to foster excellence in mathematical research and to offer a strong undergraduate and graduate education that will prepare students for stimulating and rewarding employment, career and lifelong learning opportunities. In addition, the department strives to help all VCU students achieve a level of quantitative literacy and analytical skills enabling them to deal effectively with the quantitative issues that they will encounter throughout their lives.

The program offers maximum flexibility by allowing students, in consultation with their graduate committees, to design a course of study that will best develop competence in those areas most relevant to their scholarly and professional objectives. Students may obtain a designation on their transcripts indicating that their graduate study has emphasized the applied mathematics concentration by completing the requirements that are listed here. A student who has not satisfied the requirements for one of the program concentrations offered, but who has otherwise fulfilled all the requirements for a master's degree, will be awarded a degree of Master of Science in Mathematical Sciences without any specialization.

### Student learning outcomes

1. Students will develop creative-thinking skills to apply to mathematical problems and proofs.
2. Students will be able to analyze mathematical arguments and write their own arguments and proofs.
3. Students will be able to read and interpret mathematical literature including technical articles within their chosen mathematical subfield.
4. Students will be able to use technology, including specialized computational and graphics software, to test the validity of certain conjectures, to solve problems, to conduct mathematical experiments and do mathematical research.

### Degree requirements

In addition to the [VCU Graduate School graduation requirements](#), students are required to complete course work in core and elective courses and to meet the following requirements.

1. Credit hour requirements. Students in the M.S. in Mathematical Sciences program are required to earn a minimum of 30 graduate-level credit hours. At least one-half of the credit hours presented for graduation must be at the 600 level or higher.
2. Other requirements. For the non-thesis option, students must pass a comprehensive exam in the 600-level sequence (six credit hours) in the core and a comprehensive exam in two additional MATH courses (three credit hours each) of their choice.

### Curriculum requirements

#### Thesis option

Courses	Credit hours
<b>Concentration core courses</b>	<b>12</b>
MATH 532 Ordinary Differential Equations I [1]	3
MATH 533 Partial Differential Equations I [1]	3
Choose one sequence from:	6
MATH 615 Numerical Analysis and MATH 715 Numerical Solutions for Differential Equations or MATH 632 Ordinary Differential Equations II and MATH 732 Ordinary Differential Equations III	
<b>Additional courses</b>	<b>18</b>
MATH 690 Research Seminar [2]	1-3
MATH 697 Directed Research [2]	0-3
MATH 698 Thesis	3 or 6

Applied mathematical sciences electives (Choose courses from list 1 below.)	6
Mathematical sciences or allied field electives (Choose courses from list 2 below.)	6-9
<b>Total graduate credit hours required (minimum)</b>	<b>30</b>
<b>Non-thesis option</b>	
<b>Courses</b>	<b>Credit hours</b>
<b>Concentration core courses</b>	<b>12</b>

MATH 533 Partial Differential Equations I [1]	3
Choose one sequence from:	6
MATH 615 Numerical Analysis and MATH 715 Numerical Solutions for Differential Equations <b>or</b> MATH 632 Ordinary Differential Equations II and MATH 732 Ordinary Differential Equations III	
<b>Additional courses</b>	<b>18</b>
MATH 690 Research Seminar [3]	2-5
MATH 697 Directed Research [3]	0-3
Applied mathematical sciences electives (Choose courses from list 1 below.)	9
Mathematical sciences or allied field electives (Choose courses from list 2 below.)	6-9
<b>Total graduate credit hours required (minimum)</b>	<b>30</b>

[1] If a student previously received credit hours for one or both of these courses or their equivalent(s), then one or two of the other courses mentioned for concentration must be taken as substitute(s) to satisfy the minimum requirement of 15 credit hours of course work in the concentration.

[2] A maximum total of seven credit hours for MATH 690, MATH 697 and MATH 698 may count toward the degree.

[3] A maximum total of four credit hours for MATH 690 and MATH 697 may count toward the degree.

<b>List 1: recommended electives in applied mathematical sciences</b>	<b>Credit hours</b>
MATH 511 Applied Linear Algebra	3
MATH 512 Complex Analysis for Applications	3
MATH 515 Numerical Analysis I	3
MATH 516 Numerical Analysis II	3
MATH 534 Applied Discrete Dynamical Systems	3
MATH 615 Numerical Analysis	3
MATH 632 Ordinary Differential Equations II	3
MATH 634 Partial Differential Equations	3
MATH 640 Mathematical Biology I	3
MATH 715 Numerical Solutions for Differential Equations	3
MATH 732 Ordinary Differential Equations III	3
MATH 740 Mathematical Biology II	3
STAT/BIOS 513 Mathematical Statistics I	3
STAT/BIOS 514 Mathematical Statistics II	3

**List 2: recommended electives in mathematical sciences or allied field**

MATH 500- or 600-level courses **except** the following:

- MATH 504 Algebraic Structures and Functions
- MATH 554 Using Technology in the Teaching of Mathematics
- MATH 661 Number and Operations
- MATH 662 Geometry and Measurement
- MATH 663 Functions and Algebra

MATH 664 Statistics and Probability  
MATH 665 Rational Numbers and Proportional Reasoning  
MATH 667 Functions and Algebra II  
OPER 500- or 600-level courses  
STAT 500- or 600-level courses **except** the following:  
STAT/SOCY 508 Introduction to Social Statistics  
STAT 541 Applied Statistics for Engineers and Scientists  
STAT/BIOS 543 Statistical Methods I  
STAT/SOCY 608 Statistics for Social Research

## Degree candidacy requirements

A graduate student admitted to a program or concentration requiring a final research project, work of art, thesis or dissertation, must qualify for continuing master's or doctoral status according to the degree candidacy requirements of the student's graduate program. Admission to degree candidacy, if applicable, is a formal statement by the graduate student's faculty regarding the student's academic achievements and the student's readiness to proceed to the final research phase of the degree program.

Graduate students and program directors should refer to the following degree candidacy policy as published in the VCU Graduate Bulletin for complete information and instructions.

### Degree candidacy requirements

## Graduation requirements

As graduate students approach the end of their academic programs and the final semester of matriculation, they must make formal application to graduate. No degrees will be conferred until the application to graduate has been finalized.

Graduate students and program directors should refer to the following graduation requirements as published in the Graduate Bulletin for a complete list of instructions and a graduation checklist.

Mathematical Sciences, Master of Science (M.S.) with a concentration in applied mathematics

Mathematical Sciences, Master of Science (M.S.) with a concentration in operations research

Mathematical Sciences, Master of Science (M.S.) with a concentration in statistics

**Apply online at [graduate.admissions.vcu.edu](http://graduate.admissions.vcu.edu).**

## Admission requirements

Mathematical Sciences, Master of Science (M.S.) with a concentration in mathematics			
Degree:	Semester(s) of entry:	Deadline dates:	Test requirements:
M.S.	Fall	Mar 1	GRE-General
	Spring	Oct 1	TOEFL (International students only)
Special requirements: Priority deadlines for funding consideration			

In addition to the [general admission requirements of the VCU Graduate School](#), the following requirements represent the minimum acceptable standards for admission:

1. Thirty credit hours in undergraduate mathematical sciences, computer science or related areas of which at least 18 credit hours must represent upper-level courses
2. Three letters of recommendation pertaining to the student's potential ability as a graduate student in mathematical sciences

Provisional admission may be granted when deficiencies exist. These deficiencies must be removed by the end of the first year of residence, or its part-time equivalent, when the student's application will be re-examined. Courses that are remedial or designed to remove deficiencies will not be accepted for credit hours toward the fulfillment of the course requirements for the master's degree.

## VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

### General academic regulations for all graduate students in all graduate programs at VCU

## Program goal

The Department of Mathematics and Applied Mathematics and the Department of Statistical Sciences and Operations Research jointly offer the M.S. in Mathematical Sciences.

The mission of the Department of Mathematics and Applied Mathematics is to foster excellence in mathematical research and to offer a strong undergraduate and graduate education that will prepare students for stimulating and rewarding employment, career and lifelong learning opportunities. In addition, the department strives to help all VCU students achieve a level of quantitative literacy and analytical skills enabling them to deal effectively with the quantitative issues that they will encounter throughout their lives.

The program offers maximum flexibility by allowing students, in consultation with their graduate committees, to design a course of study that will best develop competence in those areas most relevant to their scholarly and professional objectives. Students may obtain a designation on their transcripts indicating that their graduate study has emphasized the mathematics concentration by completing the requirements that are listed here. A student who has not satisfied the requirements for one of the program concentrations offered, but who has otherwise fulfilled all the requirements for a master's degree, will be awarded a degree of Master of Science in Mathematical Sciences without any specialization.

## Student learning outcomes

1. Students will develop creative-thinking skills to apply to mathematical problems and proofs.
2. Students will be able to analyze mathematical arguments and write their own arguments and proofs.
3. Students will be able to read and interpret mathematical literature including technical articles within their chosen mathematical subfield.
4. Students will be able to use technology, including specialized computational and graphics software, to test the validity of certain conjectures, to solve problems, to conduct mathematical experiments and do mathematical research.

## Degree requirements

In addition to the [VCU Graduate School graduation requirements](#), students are required to complete course work in core and elective courses and to meet the following requirements.

1. Credit hour requirements. Students in the M.S. in Mathematical Sciences program are required to earn a minimum of 30 graduate-level credit hours. At least one-half of the credit hours presented for graduation must be at the 600 level or higher.
2. Other requirements. For the non-thesis option, students must pass a comprehensive exam in the 600-level sequence (six credit hours) in the core and a comprehensive exam in two additional MATH courses (three credit hours each) of their choice.

## Curriculum requirements

### Thesis option

Courses	Credit hours
<b>Concentration core courses</b>	<b>9</b>
MATH 507 Measure and Integration Theory	3
Choose one sequence from:	6
MATH 601, 602 Abstract Algebra I, II; MATH 607 Measure and Integration Theory and MATH 707 Functional Analysis I; MATH 711-712 Complex Analysis I-II; or MATH 756-757 Graph Theory I-II	
<b>Additional courses</b>	<b>21</b>
MATH 690 Research Seminar [1]	1-3
MATH 697 Directed Research [1]	0-3
MATH 698 Thesis [1]	3 or 6
Mathematical sciences electives (Choose courses from list 1 below.)	6
Mathematical sciences or allied field electives (Choose courses from list 2 below.)	6-9
<b>Total graduate credit hours required (minimum)</b>	<b>30</b>

### Non-thesis option

<b>Concentration core courses</b>	<b>9</b>
MATH 507 Measure and Integration Theory	3
Choose one sequence from:	6
MATH 601, 602 Abstract Algebra I, II; MATH 607 Measure and Integration Theory and MATH 707 Functional Analysis I; MATH 711-712 Complex Analysis I-II; or MATH 756-757 Graph Theory I-II	
<b>Additional courses</b>	<b>21</b>
MATH 690 [2] Research Seminar	2-5
MATH 697 [2] Directed Research	0-3

Mathematical sciences electives (Choose courses from list 1 below.)	9
Mathematical sciences or allied field electives (Choose courses from list 2 below.)	6-9
<b>Total graduate credit hours required (minimum)</b>	<b>30</b>

[1] A maximum total of seven credit hours for MATH 690, MATH 697 and MATH 698 may count toward the degree.

[2] A maximum total of four credit hours for MATH 690 and MATH 697 may count toward the degree.

<b>List 1: recommended electives in mathematical sciences</b>	<b>Credit hours</b>
MATH 505 Modern Geometry	3
MATH 509 General Topology I	3
MATH 510 General Topology II	3
MATH 512 Complex Analysis for Applications	3
MATH 521 Introduction to Algebraic Number Theory	3
MATH 525 Introduction to Combinatorial Mathematics	3
MATH 556 Fundamentals of Graph Theory I	3
MATH 591 Topics in Mathematics	3
MATH 601 Abstract Algebra I	3
MATH 602 Abstract Algebra II	3
MATH 607 Measure and Integration Theory	3
MATH 610 Advanced Linear Algebra	3
MATH 691 Special Topics in Mathematics	3
MATH 707 Functional Analysis I	3
MATH 711 Complex Analysis I	3
MATH 712 Complex Analysis II	3
MATH 750 Combinatorics I	3
MATH 751 Combinatorics II	3
MATH 756 Graph Theory I	3
MATH 757 Graph Theory II	3

**List 2: recommended electives in mathematical sciences or allied field**

MATH 500- or 600-level courses **except** the following:

MATH 504 Algebraic Structures and Functions  
MATH 554 Using Technology in the Teaching of Mathematics  
MATH 661 Number and Operations  
MATH 662 Geometry and Measurement  
MATH 663 Functions and Algebra  
MATH 664 Statistics and Probability  
MATH 665 Rational Numbers and Proportional Reasoning  
MATH 667 Functions and Algebra II

OPER 500- or 600-level courses

STAT 500- or 600-level courses **except** the following:

STAT/SOCY 508 Introduction to Social Statistics  
STAT 541 Applied Statistics for Engineers and Scientists  
STAT/BIOS 543 Statistical Methods I  
STAT/SOCY 608 Statistics for Social Research

## Degree candidacy requirements

A graduate student admitted to a program or concentration requiring a final research project, work of art, thesis or dissertation, must qualify for continuing master's or doctoral status according to the degree candidacy requirements of the student's graduate program. Admission to degree candidacy, if applicable, is a formal statement by the graduate student's faculty regarding the student's academic achievements and the student's readiness to proceed to the final research phase of the degree program.

Graduate students and program directors should refer to the following degree candidacy policy as published in the VCU Graduate Bulletin for complete information and instructions.

### Degree candidacy requirements

## Graduation requirements

As graduate students approach the end of their academic programs and the final semester of matriculation, they must make formal application to graduate. No degrees will be conferred until the application to graduate has been finalized.

Graduate students and program directors should refer to the following graduation requirements as published in the Graduate Bulletin for a complete list of instructions and a graduation checklist.

### Graduation requirements

## Systems Modeling and Analysis, Doctor of Philosophy (Ph.D.)

### Graduate program director

Edward L. Boone, Ph.D.

Associate professor, Department of Statistical Sciences and Operations Research

[elboone@vcu.edu](mailto:elboone@vcu.edu)

(804) 828-4637

### Additional contact:

Lucy R. Hudson

Administrative assistant

[s2lrhuds@vcu.edu](mailto:s2lrhuds@vcu.edu)

(804) 828-0001

**Program website:** [sysm.vcu.edu](http://sysm.vcu.edu)

Refer to the [program search](#) function of the online VCU Bulletins for a complete listing of all programs, concentrations and related curricular options.

Apply online at [graduate.admissions.vcu.edu](http://graduate.admissions.vcu.edu).

## Admission requirements

Systems Modeling and Analysis, Doctor of Philosophy (Ph.D.)			
Degree: Ph.D.	Semester(s) of entry: Fall Spring Summer	Deadline dates:  Feb 1 Nov 1 Jul 1	Test requirements: GRE-General
<b>Note:</b> Assistantships are only available starting in the fall semester. Spring and summer semester admission deadlines are only for students not seeking an assistantship.			

In addition to [general admission requirements of the VCU Graduate School](#), the following requirements represent the minimum acceptable standards for admission:

1. Have completed an undergraduate degree with at least 30 credit hours of undergraduate-level mathematics, including calculus I and II, multivariate calculus, linear algebra, probability and statistics
2. Have completed 18 credit hours in the following six graduate courses: optimization, stochastic simulation, mathematical statistics I and II, differential equations and real analysis, or they can be conditionally admitted to the program pending completion of these six courses with a minimum grade of B in each course

Students who received their previous degree more than three years prior to entering this program and who have not taken additional courses in mathematics, operations research or statistics in the past three years will be required to take an entrance exam covering the six graduate courses listed in item 2 above.

## VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

### General academic regulations for all graduate students in all graduate programs at VCU

### Program goal

The Ph.D. in Systems Modeling and Analysis is offered jointly by the Department of Statistical Sciences and Operations Research and the Department of Mathematics and Applied Mathematics. The program focuses on the development of the mathematical and computational skills used to conceptualize and analyze real-world systems. Faculty and students will engage and collaborate to contribute to the knowledge base used in the fields of science, medicine, business and engineering. The continued development of operations research, statistics and applied mathematics is critical to scientific advancement in the 21st century. The curriculum enables students to expand the frontiers of knowledge through original, relevant research involving quantitative and qualitative complex systems derived from real, contemporary problems facing our world.

### Student learning outcomes

1. Gain a solid foundation in the theory and application of optimization, stochastic process, simulation, decision analysis and biomathematics, and demonstrate a comprehensive understanding of these concepts
2. Learn to perform appropriate collection, modeling and analysis of data using statistical methods
3. Demonstrate the ability to identify situations in which mathematics, operations research or statistics can be applied and model the situation
4. Demonstrate the ability to solve a wide variety of mathematics, operations research or statistics problems using the software commonly used in industry
5. Demonstrate the ability to write code using appropriate research programming environments to implement research ideas
6. Learn how to interpret the analysis from mathematics, operations research or statistics models to draw meaningful conclusions about the systems being studied
7. Gain the ability to successfully communicate research ideas through writing and presentations
8. Gain the skills needed to successfully participate in research under the guidance of faculty

### Degree requirements

In addition to general [VCU Graduate School graduation requirements](#), students are required to complete course work in core and elective courses and to conduct significant research.

1. Credit hour requirements: Students in the systems modeling and analysis Ph.D. program are required to earn a minimum of 57 graduate-level credit hours beyond the baccalaureate. At least one-half of the credit hours presented for graduation must be at the 600 level or higher.

2. Doctoral candidacy: Admission to candidacy is made by evaluation of a qualifying portfolio, including exams and project work from courses; writing samples from the research seminars (SYSM 681, 682 and 683); research products from systems research projects (SYSM 697); and statements from faculty advisers and instructors. The portfolio can be submitted after all course work has been completed, as well as any additional preparatory course work required at admission. The candidacy committee will evaluate the student's readiness to begin their dissertation work. Supplementary examination may be required by the committee.
3. Dissertation proposal: After admission to candidacy and the completion of all course work, the student will prepare a written and oral proposal of the intended dissertation research area, including a complete literature review. A successful proposal must be completed at least nine months prior to the dissertation defense.
4. Dissertation defense: The student must complete 18 credit hours in SYSM 798 Dissertation Research resulting in a publishable dissertation and a successful oral defense. The student also must have submitted at least one paper to a refereed academic journal and prepared a second manuscript or given a conference presentation on the research prior to the defense.

### Curriculum requirements

Courses	Credit hours
MATH 532 Ordinary Differential Equations I	3
OPER 639 Practical Optimization	3
STAT 546 Linear Models	3
SYSM 681 Systems Seminar I	1
SYSM 682 Systems Seminar II	1
SYSM 683 Systems Seminar III	1
SYSM 697 Systems Research*	3
SYSM 798 Dissertation Research	18
Electives (Choose courses from lists 1, 2 and/or 3 below.**)	24
<b>Total graduate credit hours required (minimum)</b>	<b>57</b>

\*Students are required to take SYSM 697 with a faculty adviser before admission to candidacy.

\*\*Students must complete at least 12 credit hours at the 700-level and must complete courses in at least two of the following subject areas: mathematics, operations research and statistics. If students choose to take electives in two subject areas, they must take at least six credit hours in each area. If students choose to take electives in three subject areas, they must take at least three credit hours in each area. Electives will be determined based on a student's research interests and in consultation with their advisers and the graduate program director.

List 1: Elective courses in mathematics	Credit hours

**Graduation requirements****Department of Philosophy****Anthony Ellis**

Professor and Department Chair

[www.has.vcu.edu/phi/philos/phi\\_home.htm](http://www.has.vcu.edu/phi/philos/phi_home.htm)

Philosophy aims at a deeper understanding of matters that should most concern the human race. Philosophical questions crop up in science, religion, art, morality, politics, medicine and in everyday life. Students enrolled in philosophy are encouraged to think seriously about fundamental issues in all these domains and to formulate coherent and well-grounded points of view. Because of its extensive use of critical and analytical reasoning, philosophy equips students for careers in medicine, law, business and other fields that require careful thought and the clear expression of ideas.

The Department of Philosophy offers a Bachelor of Arts in Philosophy. The department offers courses for students in other programs, as well as for those majoring in philosophy or religious studies.

**Philosophy courses**

Descriptions for all courses offered by the university may be accessed through the online courses database at [www.pubapps.vcu.edu/vcucourses](http://www.pubapps.vcu.edu/vcucourses). You may search by unit, subject or keyword, as well as by degree level.

Follow this link to philosophy (PHIL) courses.

**Department of Physics**

The Department of Physics offers programs leading to the Bachelor of Science in Physics and the Master of Science in Physics and Applied Physics. The department also offers an accelerated B.S.-M.S. program that allows students in the baccalaureate program to take graduate courses that will count toward the M.S. in Physics degree.

**Administration****Robert Gowdy**

Associate Professor and Department Chair

## Admission requirements

Physics and Applied Physics, Master of Science (M.S.)			
Degree:	Semester(s) of entry:	Deadline dates:	Test requirements:
M.S.	Fall Spring	May 1 Dec 1	GRE

In addition to the [general admission requirements of the VCU Graduate School](#), the following requirements represent the minimum acceptable standards for admission:

- Students must have a minimum of 30 credit hours in undergraduate physics or engineering, of which at least 18 credit hours must be at the upper-level in physics.
- Students must present satisfactory GRE scores.

Provisional admission may be granted where deficiencies exist. These deficiencies must be removed by the end of the first year of residence or its part-time equivalent, when the student's application will be re-examined. Courses that are designed to remove deficiencies will not be accepted for credit toward the graduate degree.

## VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

### General academic regulations for all graduate students in all graduate programs at VCU

## Program goal

The Department of Physics teaches graduate students advanced concepts, applications and skills that reach to the frontiers of current research in physics. The master's program offers traditional core physics courses and a variety of specialized electives emphasizing the department's strengths in theoretical and experimental physics. Research interests include theoretical and experimental

condensed matter physics, general relativity, and cosmology and physics education.

## Student learning outcomes

- Students will achieve a broad knowledge of the principles of physics.
- Students will demonstrate analytical problem-solving skills.
- Students will demonstrate mastery of a topic at the frontier of physics research.

## Degree requirements

In addition to general [VCU Graduate School graduation requirements](#), students are required to complete course work in core and elective courses and to conduct significant research.

- Credit hour requirements: Students are required to earn a minimum of 30 graduate credit hours with at least 15 credit hours at the 600 level. PHYS 690 and PHYS 697 may not exceed 15 of the required 30 credit hours.
- M.S. plan of study: Students will choose a primary adviser during the first semester of study. At the end of the first semester, the student and adviser will propose an M.S. plan of study to the physics graduate curriculum committee. This plan will include the graduate courses and research subject matter to fulfill the student's individual career goals. Normally, students will select courses for their individual M.S. plans of study from the list of graduate courses in physics. The courses selected will include no fewer than nine credits of traditional physics core courses, such as PHYS 576 and PHYS 580, to provide a solid foundation in fundamental physics. However, students also may select graduate courses in chemistry, mathematics, computer science and engineering, as well as courses from the School of Medicine and the School of Education, when such courses are consistent with the student's career goals. The M.S. plan of study must be approved by the physics graduate curriculum committee. Courses taken outside this plan will not count toward the above general course requirements.
- Thesis or non-thesis option: Each student must select either the thesis option or non-thesis option. Students selecting the thesis option must take at least nine credit hours of PHYS 697 Directed Research. No more than nine credit hours of directed research may be counted toward the 15 credit-hour, 600-level requirement. Students selecting the non-thesis option may take no more than three credit hours of PHYS 697. A student who elects the non-thesis option must pass a written comprehensive exam administered by the physics graduate curriculum committee.

## Curriculum requirements

Courses	Credit hours
<b>Core courses</b>	<b>9</b>
Choose nine credits from:	
NANO 570 Nanoscale Physics	3
NANO 650 Experimental Techniques in Nanoscience I	1.5
NANO 651 Experimental Techniques in Nanoscience II	1.5
PHYS 571 Theoretical Mechanics	3
PHYS 576 Electromagnetic Theory	3
PHYS 580 Quantum Mechanics	3
PHYS 641 Solid State Physics	3
<b>Thesis option</b>	<b>21</b>
PHYS 690 Research Seminar	0-4
PHYS 697 Directed Research	9
Electives (Choose courses from list of recommended electives below.)	8-12
<b>Non-thesis option</b>	<b>21</b>
PHYS 690 Research Seminar	0-4
PHYS 697 Directed Research	0-3
Electives (Choose courses from list of recommended electives below.)	14-21

PHYS 697 can only satisfy up to nine credit hours of the 15 credit hours for 600-level and above.

PHYS 690 may be repeated for a maximum of four credit hours toward the required 30 credit hours.

PHYS 690 and PHYS 697 may not exceed 15 credit hours of the required 30 credit hours.

#### Recommended electives

CHEM 510 Atomic and Molecular Structure	3
CHEM 511 Chemical Thermodynamics and Kinetics	3
CHEM 610 Applied Quantum Chemistry	3
CHEM 612 Modern Statistical Mechanics: Fundamentals and Applications	3
EGRE 520 Electron Theory of Solids I	3
EGRE 521 Advanced Semiconductor Devices	3
EGRE 623 Nanostructures and Nanodevices	3
EGRM 609 Advanced Characterization of Materials	3
NANO 570 Nanoscale Physics	3
NANO 571 Nanoscale Chemistry	3
NANO 650 Experimental Techniques in Nanoscience I	1.5
NANO 651 Experimental Techniques in Nanoscience II	1.5
NANO 660 Theoretical Studies of Nanostructures	3
PHYS 550 Techniques in Material Research	3
PHYS 571 Theoretical Mechanics	3
PHYS 573 Analytical Methods in Physics	3
PHYS 576 Electromagnetic Theory	3
PHYS 580 Quantum Mechanics	3
PHYS 591 Topics in Physics	1-3
PHYS 641 Solid State Physics	3
PHYS 661 Surface and Materials Physics	3
PHYS 691 Special Topics	3

**Total graduate credit hours required (minimum) 30**

**Program website:** [physics.vcu.edu](http://physics.vcu.edu)

**Refer to the [program search](#) function of the online VCU Bulletins for a complete listing of all programs, concentrations and related curricular options.**

Physics, Bachelor of Science (B.S.)

Physics and Applied Physics, Master of Science (M.S.)

**Apply online at [graduate.admissions.vcu.edu](http://graduate.admissions.vcu.edu).**

Students who are enrolled in the B.S. in Physics program may elect to take graduate courses that will count toward the M.S. in Physics and Applied Physics degree. Up to six hours of graduate credit may be earned in this way without any special provision. In order to offer more than six hours of pre-admission graduate credit toward the graduate degree, a student must apply to the Department of Physics graduate admission committee for admission to the accelerated B.S.-M.S. program. Persons applying for admission to this program should (1) submit a curricular plan for completing the bachelor's degree within two years or its part-time equivalent, (2) indicate which graduate courses they intend to offer toward the physics master's degree and (3) have a B average or better. The M.S. degree completion form must include a memo from the Department of Physics graduate admission committee to indicate which graduate courses were taken under the accelerated B.S.-M.S. program.

Refer to the [program search](#) function of the online VCU Bulletins for a complete description of program requirements for the bachelor's and master's degree programs.

### Department of Psychology

In addition to the Bachelor of Science in Psychology, the Department of Psychology offers instruction in clinical, counseling, health and general psychology leading to the Doctor of Philosophy degree. Students in all doctoral degree programs are educated first as psychologists and then helped to develop competence in a more specialized area relevant to their scholarly and professional objectives. In addition, special training and experience in college teaching is available.

### Administration

**Wendy Klierer**

Professor and Department Chair

### Admission requirements for doctoral programs

In addition to the general requirements for admission to the graduate programs in the Graduate School (in the [Graduate study](#) section of this bulletin), the following requirements represent the minimum acceptable standards for admission:

- Graduation with a bachelor's degree from an accredited college or university, but not necessarily with a major in psychology.
- 18 semester hours of undergraduate course work in psychology is the minimal, but not optimal, number of hours for an applicant to be considered for admission. Included must be each of the following courses: general psychology, statistics and experimental psychology. Exceptionally well-qualified applicants with less than a major in psychology, or applicants whose undergraduate work is considered outdated by the admissions committee, may be advised to complete some additional undergraduate courses at the beginning of their graduate study program.
- An undergraduate record indicating superior academic potential.
- Satisfactory performance on the GRE.
- Three letters of recommendation from previous instructors.
- A personal interview may be required at the discretion of the department.

The number of students who can be admitted is limited by the facilities and staff available. All applicants will be notified of the decision made. The screening process may begin as early as Jan. 1. First offers of admission are made by April 1. By June 1, after other offers to alternates have been made and final acceptances by students have been received, admissions may be closed. See the admission requirements summary tables to view admission deadlines for each of the Ph.D. programs: [clinical psychology](#), [counseling psychology](#), general [psychology](#) (biopsychology, developmental psychology, social psychology) and [health psychology](#).

Applicants to the general psychology program should specify to which of the three divisions they are applying (i.e., biopsychology, developmental or social).

Transfer credits for graduate work at other institutions will be evaluated after the completion of nine semester hours in the department.

## Degree requirements for doctoral programs

The following requirements are in addition to those described for the graduate programs in the Graduate School (the [Graduate study](#) section of this bulletin) and the [College of Humanities and Sciences](#) section of this bulletin.

All students are required to complete a core curriculum of 15 credits (or its equivalent for students entering with a master's degree).

Students who receive grades of B or better in each of the department core courses are considered to have fulfilled the university requirements of a master's level comprehensive examination and will then officially be considered candidates for the Master of Science degree. Students who receive grades of C or lower in two or more department core courses will have failed the comprehensive examination and will be dismissed automatically from the program. Students who receive a grade of C or lower in one of the department core courses must either (a) satisfactorily complete a re-examination of the material covered in the course within one semester following the receipt of the grade (this re-examination is to be arranged and evaluated by the course instructor), or (b) repeat the course for credit the next time it is offered and receive a grade of B or better. Regardless of which of these approaches is chosen, the students will be given only one opportunity to demonstrate that they have mastered the course material. Students who either fail the re-examination or repeat the course and receive a grade of C or lower will have failed the comprehensive examination and will be dismissed from the program.

Additional courses and training experiences will be determined in consultation with and subject to the approval of the student's faculty adviser and graduate program committee.

Receipt of a grade of C or lower in two courses, or grades of C or lower in more than six credits of psychology courses, constitutes automatic dismissal of a student from the program.

All students are required to complete a master's thesis and to defend it successfully in an oral examination. Ideally, the thesis should be publishable as a piece of research and make a contribution to the field of psychology. Students who have previously completed a master's thesis in psychology at another university may have the thesis requirement waived if the thesis is accepted by their graduate program committee.

The residence requirement for the master's degree is 18 hours, nine in each of two consecutive semesters. Completion of the degree usually requires four semesters. At least six semester credits in PSYC 798 Master's Thesis must be completed, and no more than six can be counted toward the M.S. degree.

Students are obligated to request, in writing from their program committees, continuation of study beyond the master's degree and approval of their doctoral plan of study. Application from a student for continuation beyond the master's level will be evaluated by the appropriate program committee after completion of all requirements for the master's degree. The program committee reviews the student's request and approves or disapproves the request.

The student must pass a written preliminary examination to become a doctoral candidate. Students are required to complete this requirement prior to defense of their dissertations and prior to leaving on internship for students in the clinical and counseling psychology programs.

With the consent of the program committee, doctoral students may design a minor consisting of courses in departments other than psychology or courses in an area of psychology other than the major.

Both the clinical and counseling psychology programs require completion of applied practica and a one-year predoctoral internship approved by the program committee. Research practica are required by all programs. Practicum credit will vary depending on the program. Internship will be one-half credit per semester.

A dissertation requiring the planning, completion and oral defense of an original research project is an integral part of the doctoral program. At least 12 semester credits in PSYC 898 Doctoral Dissertation must be completed, and no more than 12 can be counted toward the Ph.D. degree.

Completion of the entire program usually requires four to six years (including the internship year for students in the clinical and counseling programs). Candidates must complete all requirements for the Ph.D. degree within an eight-year period from the date of admission to the graduate program unless permission is granted for an extension. In some cases, specific programs and divisions may have requirements in addition to those stated here.

A more detailed description of the requirements for each of the graduate programs is included in the Department of Psychology's Graduate Student Handbook, which is provided to each incoming graduate student. Visit the website for more information: [www.psychology.vcu.edu](http://www.psychology.vcu.edu).

## Honors in psychology

Psychology majors in the baccalaureate program can earn honors in psychology. Any student is eligible to join the program if he or she declares a major in psychology, meets one of the three following entrance requirements and joins the Honors College.

Entering freshmen must have combined SAT scores of at least 1910 and rank in the top 15 percent of their high school graduating class and present an unweighted 3.5 GPA (4.0 scale). Students transferring to VCU must have a 3.5 cumulative GPA in at least 30 college semester hours of credit and have no more than 60 college semester hours of credit. Continuing VCU students must have a 3.5 cumulative GPA and have taken a minimum of 20, but no more than 60, credits at VCU.

Once admitted to the program, the honors student must fulfill three basic program requirements.

First, students must take a minimum of nine credits in psychology courses that are designated as honors sections. Three content courses, which will vary by semester, comprise these nine credits. PSYC 497, 498 and 499 may not be used to fulfill this requirement.

Next, honors students must enroll for a minimum of three credits in PSYC 494 Research Internship in Psychology, no later than the fall semester of their junior year.

Finally, all students must complete PSYC 497 Honors Seminar in the spring semester of their junior year and complete PSYC 498-499 Honors in Psychology in their senior year. Students complete an honors thesis during this three-semester sequence in which they propose, conduct and defend their research.

A student in the program will graduate with honors in psychology if he or she has completed all course requirements with a B or better, has maintained a GPA of 3.5, overall and in psychology, and has completed all other requirements for the Bachelor of Science in Psychology.

## Psychology advising (Psyugrad)

Students choose to major in psychology for many reasons. Most often they select the major from a combination of wanting to help other people and wanting to learn the scientific principles of behavior. Students in the program expect to receive

career counseling and information on graduate and/or professional school training. The department has developed methods to meet these expectations.

Psyugrad has been established by the department to provide advising to undergraduate majors with educational and career planning. Students are shown how to choose appropriate electives for bachelor's-level careers in mental health services, personnel, management, corrections, rehabilitation, health services, education and laboratory research. In addition, all psychology majors are enrolled in PSYUGRAD, a Blackboard organization. PSYUGRAD provides up-to-date information on research opportunities, jobs, special presentations and advising documents.

The adviser's role is to consult with students about various areas of professional opportunity, explain the role of graduate education and suggest general areas of study outside of the psychology department that might fit the student's interests and goals. Advisers are available on a walk-in basis at the department's Psyugrad Advising Office located at the White House, 806 W. Franklin Street, Room 107. Hours are posted on PSYUGRAD Blackboard.

PSYC 492 Independent Study and PSYC 494 Research Internship in Psychology are two of the upper-level electives specifically designed to enhance the psychology major's career pursuits for either employment or graduate-level training. Both of these courses provide opportunities for direct, practical experience with close supervision. Students may register for one, two or three credits following consultation with a faculty mentor who will supervise the experience. Students are expected to work three hours per week per credit hour for each of these experiences. They may be repeated for up to a total of 12 credits, but with no more than 6 credits of each.

The Department of Psychology offers service-learning courses (PSYC 307/LFSC 307 Community Solutions: Multiple Perspectives; PSYC 493 Fieldwork: Human Services) that involve participation in an organized community service experience. Through classroom discussions and written assignments, students relate theories and research presented in class with community experiences. Through service-learning courses, students:

- Gain an understanding and appreciation of the community and its diverse people
- Explore an area of study or a career option
- Critically reflect on their values and responsibilities as citizens

In many cases, a service-learning course will meet the urban experience general education requirement (refer to the Schedule of Classes).

## Psychology courses

Descriptions for all courses offered by the university may be accessed through the online courses database at [www.pubapps.vcu.edu/vcucourses](http://www.pubapps.vcu.edu/vcucourses). You may search by unit, subject or keyword, as well as by degree level.

Follow this link to psychology (PSYC) courses.

## Admission requirements

### Clinical Psychology, Doctor of Philosophy (Ph.D.) with a concentration in behavioral medicine

Degree:	Semester(s) of entry:	Deadline dates:	Test requirements:
Ph.D.	Fall	Dec 1	GRE-General

In addition to the [general admission requirements of the VCU Graduate School](#), the following requirements represent the minimum acceptable standards for admission.

1. Applicants must have graduated with a bachelor's degree from an accredited college or university, but not necessarily with a major in psychology.
2. Applicants must present 18 semester hours of undergraduate course work in psychology. This is the minimal, but not optimal, number of hours for an applicant to be considered for admission. Included must be each of the following courses: general psychology, statistics and experimental psychology. Exceptionally well-qualified applicants with less than a major in psychology, or applicants whose undergraduate work is considered outdated by the admissions committee, may be advised to complete some additional undergraduate courses at the beginning of their graduate study program.
3. Applicants must present an undergraduate record indicating superior academic potential.
4. Students must show proof of satisfactory performance on the GRE.
5. Three letters of recommendation from previous instructors are required.
6. A personal interview may be required at the discretion of the department

The number of students who can be admitted is limited by the facilities and staff available. All applicants will be notified of the decision made. The screening process may begin as early as Jan. 1. First offers of admission are made by April 1. By June 1, after other offers to alternates have been made and final acceptances by students have been received, admissions may be closed.

Transfer credit hours for graduate work at other institutions will be evaluated after the completion of nine semester hours in the department.

## VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

### General academic regulations for all graduate students in all graduate programs at VCU

## Program goal

The Doctor of Philosophy in Clinical Psychology offered by VCU is accredited by the American Psychological Association. The program emphasizes the scientist-practitioner model and prepares students for research and service in professional psychology, including positions in university academic and medical school departments, counseling centers, mental health agencies and hospitals, physical health facilities, and other organizational settings.

The Center for Psychological Services and Development, a campus-based community service agency operated by the department, provides training

opportunities for graduate students in all departmental programs, including practicum and research training for graduate students in the clinical psychology program. A wide variety of other on- and off-campus practicum placements also are available.

The department maintains laboratory facilities for research in the areas of behavioral assessment, behavioral medicine, developmental, learning, behavioral pharmacology, psychophysiology, psychotherapy process, social perception, social influence and group dynamics. Opportunities for field research also are available in a variety of settings.

## Student learning outcomes

1. Students will know, integrate and critically evaluate the literature in the breadth of scientific and clinical psychology.
2. Students will be able to contribute to the scientific literature and disseminate the information from their contributions.
3. Students will know and be able to apply the scientific, methodological and theoretical foundations of practice in the substantive areas of professional psychology.
4. Students will know the available empirically supported treatment techniques and be competent in their use.
5. Students will know how to operationalize treatment outcome goals and will consistently evaluate treatment outcome with all clinical cases.

## Degree requirements

In addition to general [VCU Graduate School graduation requirements](#), students are required to complete course work in core and elective courses and to conduct significant research. All work toward the Ph.D. degree must be completed within eight years of the first enrollment.

1. Credit hour requirements: Students in the clinical psychology Ph.D. program are required to earn a minimum of 87.5 graduate-level credit hours beyond the baccalaureate. At least one-half of the credit hours presented for graduation must be at the 600 level or higher.
2. Grade requirement: Receipt of a grade of C or lower in two courses, or grades of C or lower in more than six credit hours of psychology courses, constitutes automatic dismissal of a student from the program.
3. Master's-level candidacy and requirements: All students in the Department of Psychology are required to complete a department core curriculum (13-15 credit hours) or its equivalent for students entering with a master's degree. Students who receive grades of B or better in each of the department core courses are considered to have fulfilled the university requirements of a master's-level comprehensive examination and will then officially be considered candidates for the Master of Science degree. Students who receive grades of C or lower in two or more department core courses will have failed the comprehensive examination and will be dismissed automatically from the program. Students who receive a grade of C or lower in one of the department core courses must either (a) satisfactorily complete a re-examination of the material covered in the course within one semester following the receipt of the grade (this re-examination is to be arranged and evaluated by the course instructor) or (b) repeat the course for credit the next time it is offered and receive a grade of B or better. Regardless of which of these approaches is chosen, the students will be given only one opportunity to demonstrate that they have mastered the course material. Students who either fail the re-examination or repeat the course and receive a grade of C or lower will have failed the comprehensive examination and will be dismissed from the program. Additional courses and training experiences will be determined in consultation with and subject to the approval of the student's faculty adviser and graduate program committee. All students are required to complete a master's thesis and to defend it successfully in an oral examination. Ideally, the thesis should be publishable as a piece of research and make a contribution to the field of psychology. Students who have previously completed a master's thesis in psychology at another university may have the thesis requirement waived if the thesis is accepted by their graduate program committee. The residence requirement for the master's degree is 18 hours, nine in each of two consecutive semesters. Completion of the degree usually requires four semesters. At least six credit hours in PSYC 798 Master's Thesis must be completed, and no more than six can be counted toward the M.S. degree.

4. Doctoral candidacy and requirements: Students are obligated to request, in writing from their program committees, continuation of study beyond the master's degree and approval of their doctoral plan of study. Application from a student for continuation beyond the master's level will be evaluated by the appropriate program committee after completion of all requirements for the master's degree. The program committee reviews the student's request and approves or disapproves the request. The student must pass a written preliminary examination to become a doctoral candidate. Students are required to complete this requirement prior to defense of their dissertations and prior to leaving on internship for students in the clinical and counseling psychology programs. With the consent of the program committee, doctoral students may design a minor consisting of courses in departments other than psychology or courses in an area of psychology other than the major. Both the clinical and counseling psychology programs require completion of applied practica and a one-year predoctoral internship approved by the program committee. Research practica are required by all programs. Practicum credit hours will vary depending on the program. Internship will be one-half credit hour per semester. A dissertation requiring the planning, completion and oral defense of an original research project is an integral part of the doctoral program. At least 12 credit hours in PSYC 898 Doctoral Dissertation must be completed, and no more than 12 can be counted toward the Ph.D. degree. Completion of the entire program usually requires four to six years (including the internship year for students in the clinical and counseling programs). Candidates must complete all requirements for the Ph.D. degree within an eight-year period from the date of admission to the graduate program unless permission is granted for an extension. In some cases, specific programs and divisions may have requirements in addition to those stated here.

A more detailed description of the requirements for each of the graduate programs is included in the Department of Psychology's Graduate Student Handbook, which is provided to each incoming graduate student. Visit the website for more information: [psychology.vcu.edu](http://psychology.vcu.edu).

** PSYC 660 and PSYC 667 should have been taken as choices to fulfill requirements above.	
<b>Total graduate credit hours required (minimum)</b>	<b>90.5</b>

## Degree candidacy requirements

A graduate student admitted to a program or concentration requiring a final research project, work of art, thesis or dissertation, must qualify for continuing master's or doctoral status according to the degree candidacy requirements of the student's graduate program. Admission to degree candidacy, if applicable, is a formal statement by the graduate student's faculty regarding the student's academic achievements and the student's readiness to proceed to the final research phase of the degree program.

Graduate students and program directors should refer to the following degree candidacy policy as published in the VCU Graduate Bulletin for complete information and instructions.

### Degree candidacy requirements

## Graduation requirements

As graduate students approach the end of their academic programs and the final semester of matriculation, they must make formal application to graduate. No degrees will be conferred until the application to graduate has been finalized.

Graduate students and program directors should refer to the following graduation requirements as published in the Graduate Bulletin for a complete list of instructions and a graduation checklist.

### Graduation requirements

### Degree candidacy requirements

A graduate student admitted to a program or concentration requiring a final research project, work of art, thesis or dissertation, must qualify for continuing master's or doctoral status according to the degree candidacy requirements of the student's graduate program. Admission to degree candidacy, if applicable, is a formal statement by the graduate student's faculty regarding the student's academic achievements and the student's readiness to proceed to the final research phase of the degree program.

Graduate students and program directors should refer to the following degree candidacy policy as published in the VCU Graduate Bulletin for complete information and instructions.

#### Degree candidacy requirements

### Graduation requirements

As graduate students approach the end of their academic programs and the final semester of matriculation, they must make formal application to graduate. No degrees will be conferred until the application to graduate has been finalized.

Graduate students and program directors should refer to the following graduation requirements as published in the Graduate Bulletin for a complete list of instructions and a graduation checklist.

### Graduation requirements

### Counseling Psychology, Doctor of Philosophy (Ph.D.)

#### Program accreditation

American Psychological Association

#### Graduate program director

Michael A. Southam-Gerow, Ph.D.

Associate professor and director of graduate studies

[masouthamger@vcu.edu](mailto:masouthamger@vcu.edu)

(804) 827-0585

#### Additional contact

Everett L. Worthington, Ph.D.

Director, counseling psychology training program

[eworth@vcu.edu](mailto:eworth@vcu.edu)

(804) 828-1150

**Program website:** [psychology.vcu.edu/counseling](http://psychology.vcu.edu/counseling)

**Apply online at [graduate.admissions.vcu.edu](http://graduate.admissions.vcu.edu).**

### Admission requirements

Counseling Psychology, Doctor of Philosophy (Ph.D.)			
Degree:	Semester(s) of entry:	Deadline dates:	Test requirements:
Ph.D.	Fall	Dec 1	GRE-General

In addition to the [general admission requirements of the VCU Graduate School](#), the following requirements represent the minimum acceptable standards for admission.

1. Applicants must have graduated with a bachelor's degree from an accredited college or university, but not necessarily with a major in psychology.
2. Applicants must present 18 semester hours of undergraduate course work in psychology. This is the minimal, but not optimal, number of hours for an applicant to be considered for admission. Included must be each of the following courses: general psychology, statistics and experimental psychology. Exceptionally well-qualified applicants with less than a major in psychology, or applicants whose undergraduate work is considered outdated by the admissions committee, may be advised to complete some additional undergraduate courses at the beginning of their graduate study program.
3. Applicants must present an undergraduate record indicating superior academic potential.
4. Students must show proof of satisfactory performance on the GRE.
5. Three letters of recommendation from previous instructors are required.
6. A personal interview may be required at the discretion of the department

The number of students who can be admitted is limited by the facilities and staff available. All applicants will be notified of the decision made. The screening process may begin as early as Jan. 1. First offers of admission are made by April 1. By June 1, after other offers to alternates have been made and final acceptances by students have been received, admissions may be closed.

Transfer credit hours for graduate work at other institutions will be evaluated after the completion of nine semester hours in the department.

The finalists for admission will be interviewed on site (or by phone) by counseling faculty.

### VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate

programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

**General academic regulations for  
all graduate students in all graduate programs at VCU**

## Program goal

The Doctor of Philosophy in Counseling Psychology offered at VCU is accredited by the American Psychological Association. The program emphasizes the scientist-practitioner model and prepares students for research and service in professional psychology, including positions in university academic and medical school departments, counseling centers, mental health agencies and hospitals, physical health facilities, and other organizational settings.

The counseling psychology program emphasizes the enhancement of life skills and personal competence. Typical subspecializations include disease prevention and health promotion, career and life planning, work with medical populations, college students, community outreach, interpersonal processes, group counseling, marriage and family counseling, multiculturalism, and sport psychology.

The Center for Psychological Services and Development, a campus-based community service agency operated by the department, provides training opportunities for graduate students in all departmental programs, including practicum and research training for graduate students in the clinical psychology program. A wide variety of other on- and off-campus practicum placements also are available.

The department maintains laboratory facilities for research in the areas of behavioral assessment, behavioral medicine, developmental, learning, behavioral pharmacology, psychophysiology, psychotherapy process, social perception, social influence and group dynamics. Opportunities for field research also are available in a variety of settings.

## Student learning outcomes

1. Students will gain a thorough grounding in research strategies, theories and content of psychology that provides a foundation for mastering the applied knowledge and skills of the profession.
2. Students will demonstrate competence in the provision of cutting-edge empirically informed professional practice, an ability to communicate about clinical case material, and will obtain and complete an APA-approved internship.
3. Students will become knowledgeable about the principles of leadership and their own approach and orientation to becoming a leader in counseling psychology.
4. Students must demonstrate that they have been exposed to a variety of cultures, have made an effort to become aware of their own culturally based values and attitudes and have developed skills as part of an ongoing commitment to increasing their multicultural competence.

## Degree requirements

In addition to general [VCU Graduate School graduation requirements](#), students are required to complete course work in core and elective courses and to conduct significant research. All work toward the Ph.D. degree must be completed within eight years of the first enrollment.

1. Credit hour requirements: Students in the counseling psychology Ph.D. program are required to earn a minimum of 90.5 graduate-level credit hours beyond the baccalaureate. At least one-half of the credit hours presented for graduation must be at the 600 level or higher.

2. Grade requirement: Receipt of a grade of C or lower in two courses, or grades of C or lower in more than six credit hours of psychology courses, constitutes automatic dismissal of a student from the program.
3. Master's-level candidacy and requirements: All students in the Department of Psychology are required to complete a department core curriculum (14 credit hours) or its equivalent for students entering with a master's degree. Students who receive grades of B or better in each of the department core courses are considered to have fulfilled the university requirements of a master's-level comprehensive examination and will then officially be considered candidates for the Master of Science degree. Students who receive grades of C or lower in two or more department core courses will have failed the comprehensive examination and will be dismissed automatically from the program. Students who receive a grade of C or lower in one of the department core courses must either (a) satisfactorily complete a re-examination of the material covered in the course within one semester following the receipt of the grade (this re-examination is to be arranged and evaluated by the course instructor) or (b) repeat the course for credit the next time it is offered and receive a grade of B or better. Regardless of which of these approaches is chosen, the students will be given only one opportunity to demonstrate that they have mastered the course material. Students who either fail the re-examination or repeat the course and receive a grade of C or lower will have failed the comprehensive examination and will be dismissed from the program. Additional courses and training experiences will be determined in consultation with and subject to the approval of the student's faculty adviser and graduate program committee. All students are required to complete a master's thesis and to defend it successfully in an oral examination. Ideally, the thesis should be publishable as a piece of research and make a contribution to the field of psychology. Students who have previously completed a master's thesis in psychology at another university may have the thesis requirement waived if the thesis is accepted by their graduate program committee. The residence requirement for the master's degree is 18 hours, nine in each of two consecutive semesters. Completion of the degree usually requires four semesters. At least six credit hours in PSYC 798 Master's Thesis must be completed, and no more than six can be counted toward the M.S. degree.
4. Doctoral candidacy and requirements: Students are obligated to request, in writing from their program committees, continuation of study beyond the master's degree and approval of their doctoral plan of study. Application from a student for continuation beyond the master's level will be evaluated by the appropriate program committee after completion of all requirements for the master's degree. The program committee reviews the student's request and approves or disapproves the request. The student must pass a written preliminary examination to become a doctoral candidate. Students are required to complete this requirement prior to defense of their dissertations and prior to leaving on internship for students in the clinical and counseling psychology programs. With the consent of the program committee, doctoral students may design a minor consisting of courses in departments other than psychology or courses in an area of psychology other than the major. Both the clinical and counseling psychology programs require completion of applied practica and a one-year predoctoral internship approved by the program committee. Research practica are required by all programs. Practicum credit hours will vary depending on the program. Internship will be one-half credit hour per semester. A dissertation requiring the planning, completion and oral defense of an original research project is an integral part of the doctoral program. At least 12 credit hours in PSYC 898 Doctoral Dissertation must be completed, and no more than 12 can be counted toward the Ph.D. degree. Completion of the entire program usually requires four to six years (including the internship year for students in the clinical and counseling programs). Candidates must complete all requirements for the Ph.D. degree within an eight-year period from the date of admission to the graduate program unless permission is granted for an extension. In some cases, specific programs and divisions may have requirements in addition to those stated here.

A more detailed description of the requirements for each of the graduate programs is included in the Department of Psychology's Graduate Student Handbook, which is provided to each incoming graduate student. Visit the website for more information: [psychology.vcu.edu](http://psychology.vcu.edu).

However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

### General academic regulations for all graduate students in all graduate programs at VCU

## Program goal

The Doctor of Philosophy in Health Psychology offered by VCU is an experimentally oriented program that is designed to train students to contribute to the knowledge of psychological contributions to health and illness via training in basic and clinical research. Students completing the Ph.D. in Health Psychology will not be eligible for licensure. Research in health psychology examines the causes and development of illness, methods to help individuals develop healthy lifestyles to promote good health and prevent illness, the treatment individuals receive for their medical problems, the effectiveness with which individuals cope with and reduce stress and pain, biopsychosocial connections with immune functioning, and factors in the recovery, rehabilitation and psychosocial adjustment of patients with serious health problems. Thus, graduates from the Ph.D. program in Health Psychology are prepared for work in a range of settings including colleges and universities, medical centers, research centers, nonprofit agencies and local, state and national government.

The Center for Psychological Services and Development, a campus-based community service agency operated by the department, provides training opportunities for graduate students in all departmental programs. A wide variety of other on- and off-campus practicum placements also are available.

The department maintains laboratory facilities for research in the areas of behavioral assessment, behavioral medicine, developmental, learning, behavioral pharmacology, psychophysiology, psychotherapy process, social perception, social influence and group dynamics. Opportunities for field research also are available in a variety of settings.

## Student learning outcomes

1. Students will demonstrate their understanding of the models, theories and processes of health psychology; the biological, cognitive, attitudinal, social and cultural underpinnings of health psychology; primary and secondary prevention of disease in a diverse range of communities; and community applications of health psychology.
2. Students will use scientifically sound research methodologies, univariate and multivariate statistics and ethical practices in their conduct of research.
3. Students will adhere to the highest standards of ethics in their research, teaching and applied practice. Students will follow standards set by the University and the American Psychological Association.

## Degree requirements

In addition to general [VCU Graduate School graduation requirements](#), students are required to complete course work in core and elective courses and to conduct

significant research. All work toward the Ph.D. degree must be completed within eight years of the first enrollment.

1. Credit hour requirements: Students in the health psychology Ph.D. program are required to earn a minimum of 80 graduate-level credit hours beyond the baccalaureate. At least one-half of the credit hours presented for graduation must be at the 600 level or higher.
2. Grade requirement: Receipt of a grade of C or lower in two courses, or grades of C or lower in more than six credit hours of psychology courses, constitutes automatic dismissal of a student from the program.
3. Master's-level candidacy and requirements: All students in the Department of Psychology are required to complete a department core curriculum (13-15 credit hours) or its equivalent for students entering with a master's degree. Students who receive grades of B or better in each of the department core courses are considered to have fulfilled the university requirements of a master's-level comprehensive examination and will then officially be considered candidates for the Master of Science degree. Students who receive grades of C or lower in two or more department core courses will have failed the comprehensive examination and will be dismissed automatically from the program. Students who receive a grade of C or lower in one of the department core courses must either (a) satisfactorily complete a re-examination of the material covered in the course within one semester following the receipt of the grade (this re-examination is to be arranged and evaluated by the course instructor) or (b) repeat the course for credit the next time it is offered and receive a grade of B or better. Regardless of which of these approaches is chosen, the students will be given only one opportunity to demonstrate that they have mastered the course material. Students who either fail the re-examination or repeat the course and receive a grade of C or lower will have failed the comprehensive examination and will be dismissed from the program. Additional courses and training experiences will be determined in consultation with and subject to the approval of the student's faculty adviser and graduate program committee. All students are required to complete a master's thesis and to defend it successfully in an oral examination. Ideally, the thesis should be publishable as a piece of research and make a contribution to the field of psychology. Students who have previously completed a master's thesis in psychology at another university may have the thesis requirement waived if the thesis is accepted by their graduate program committee. Psychology, Doctor of Philosophy (Ph.D.) with a concentration in developmental psychology

Psychology, Doctor of Philosophy (Ph.D.) with a concentration in social psychology

Apply online at [graduate.admissions.vcu.edu](http://graduate.admissions.vcu.edu).

### Admission requirements

Psychology, Doctor of Philosophy (Ph.D.) with a concentration in biopsychology			
Degree:	Semester(s) of entry:	Deadline dates:	Test requirements:
Ph.D.	Fall	Jan 10	GRE-General

In addition to the [general admission requirements of the VCU Graduate School](#), the following requirements represent the minimum acceptable standards for admission.

1. Applicants must have graduated with a bachelor's degree from an accredited college or university, but not necessarily with a major in psychology.
2. Applicants must present 18 semester hours of undergraduate course work in psychology. This is the minimal, but not optimal, number of hours for an applicant to be considered for admission. Included must be each of the following courses: general psychology, statistics and experimental psychology. Exceptionally well-qualified applicants with less than a major in psychology, or applicants whose undergraduate work is considered outdated by the admissions committee, may be advised to complete some additional undergraduate courses at the beginning of their graduate study program.
3. Applicants must present an undergraduate record indicating superior academic potential.
4. Students must show proof of satisfactory performance on the GRE.
5. Three letters of recommendation from previous instructors are required.
6. A personal interview may be required at the discretion of the department.

The number of students who can be admitted is limited by the facilities and staff available. All applicants will be notified of the decision made. The screening process may begin as early as Jan. 1. First offers of admission are made by April 1. By June 1, after other offers to alternates have been made and final acceptances by students have been received, admissions may be closed.

Applicants to the psychology doctoral program should specify to which of the three divisions they are applying (i.e., biopsychology, developmental or social).

Transfer credit hours for graduate work at other institutions will be evaluated after the completion of nine semester hours in the department.

### VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

#### General academic regulations for all graduate students in all graduate programs at VCU

### Program goal

The Doctor of Philosophy in Psychology offered by VCU prepares students for basic or applied research and includes three specialty areas: biopsychology, developmental psychology and social psychology. The concentration in developmental psychology trains students for work in either college or university academic departments or applied settings. Applied developmentalists work in a variety of settings and programs (violence prevention, community intervention, schools, family service agencies, nonprofit agencies, health care settings, disability agencies) with a variety of human populations (infants and young children, school-age children, adolescents, at-risk youth, incarcerated youth and adults, parents, older adults, persons with disabilities); they do not offer counseling/therapy services.

The Center for Psychological Services and Development, a campus-based community service agency operated by the department, provides training opportunities for graduate students in all departmental programs, including practicum and research training for graduate students in the clinical psychology program. A wide variety of other on- and off-campus practicum placements also are available.

The department maintains laboratory facilities for research in the areas of behavioral assessment, behavioral medicine, developmental, learning, behavioral pharmacology, psychophysiology, psychotherapy process, social perception, social influence and group dynamics. Opportunities for field research also are available in a variety of settings.

### Student learning outcomes

1. Students will acquire an accurate, comprehensive and up-to-date understanding of biopsychological concepts, principles and findings in the key domains of the field, including physiology, learning and memory, and current neuroscience principles.
2. Students will develop the intellectual skills required to generate theories, do research, communicate ideas and information to others, evaluate conclusions statistically, locate the information needed for these intellectual pursuits and prepare scientific reports.
3. Students will strive to expand the conceptual and empirical foundations of the field by conducting original research utilizing sound research methodologies. The results of these studies are presented at scientific conferences and published in scientific journals. This research is, in some cases, supported by extramural grants to biopsychology faculty or students.

### Degree requirements

In addition to general [VCU Graduate School graduation requirements](#), students are required to complete course work in core and elective courses and to conduct significant research. All work toward the Ph.D. degree must be completed within eight years of the first enrollment.

1. Credit hour requirements: Students in the psychology Ph.D. program are required to earn a minimum of 72 graduate-level credit hours beyond the baccalaureate. At least one-half of the credit hours presented for graduation must be at the 600 level or higher.
2. Grade requirement: Receipt of a grade of C or lower in two courses, or grades of C or lower in more than six credit hours of psychology courses, constitutes automatic dismissal of a student from the program.
3. Master's-level candidacy and requirements: All students in the Department of Psychology are required to complete a department core curriculum (13-15 credit hours) or its equivalent for students entering with a master's degree. Students who receive grades of B or better in each of the department core courses are considered to have fulfilled the university requirements of a master's-level comprehensive examination and will then officially be considered candidates for the Master of Science degree. Students who receive grades of C or lower in two or more department core courses will have failed the comprehensive examination and will be dismissed automatically from the program. Students who receive a grade of C or lower in one of the department core courses must either (a) satisfactorily complete a re-examination of the material covered in the course within one semester following the receipt of the grade (this re-examination is to be arranged and evaluated by the course instructor) or (b) repeat the course for credit the next time it is offered and receive a grade of B or better. Regardless of which of these approaches is chosen, the students will be given only one opportunity to demonstrate that they have mastered the course material. Students who either fail the re-examination or repeat the course and receive a grade of C or lower will have failed the comprehensive examination and will be dismissed from the program. Additional courses and training experiences will be determined in consultation with and subject to the approval of the student's faculty adviser and graduate program committee. All students are required to complete a master's thesis and to defend it successfully in an oral examination. Ideally, the thesis should be publishable as a piece of research and make a contribution to the field of psychology. Students who have previously completed a master's thesis in psychology at another university may have the thesis requirement waived if the thesis is accepted by their graduate program committee. The residence requirement for the master's degree is 18 hours, nine in each of two consecutive semesters. Completion of the degree usually requires four semesters. At least six credit hours in PSYC 798 Master's Thesis must be completed, and no more than six can be counted toward the M.S. degree.
4. Doctoral candidacy and requirements: Students are obligated to request, in writing from their program committees, continuation of study beyond the master's degree and approval of their doctoral plan of study. Application from a student for continuation beyond the master's level will be evaluated by the appropriate program committee after completion of all requirements for the master's degree. The program committee reviews the student's request and approves or disapproves the request. The student must pass a written preliminary examination to become a doctoral candidate. Students are required to complete this requirement prior to defense of their dissertations and prior to leaving on internship for students in the clinical and counseling psychology programs. With the consent of the program committee, doctoral students may design a minor consisting of courses in departments other than psychology or courses in an area of psychology other than the major. Both the clinical and counseling psychology programs require completion of applied practica and a one-year predoctoral internship approved by the program committee. Research practica are required by all programs. Practicum credit hours will vary depending on the program. Internship will be one-half credit hour per semester. A dissertation requiring the planning, completion and oral defense of an original research project is an integral part of the doctoral program. At least 12 credit hours in PSYC 898 Doctoral Dissertation must be completed, and no more than 12 can be counted toward the Ph.D. degree. Completion of the entire program usually requires four to six years (including the internship year for students in the clinical and counseling programs). Candidates must complete all requirements for the Ph.D. degree within an eight-year period from the date of admission to the graduate program unless permission is granted for an extension. In some cases, specific programs and divisions may have requirements in addition to those stated here.

A more detailed description of the requirements for each of the graduate programs is included in the Department of Psychology's Graduate Student Handbook, which

is provided to each incoming graduate student. Visit the website for more information: [psychology.vcu.edu](http://psychology.vcu.edu).

## Degree candidacy requirements

A graduate student admitted to a program or concentration requiring a final research project, work of art, thesis or dissertation, must qualify for continuing

master's or doctoral status according to the degree candidacy requirements of the student's graduate program. Admission to degree candidacy, if applicable, is a formal statement by the graduate student's faculty regarding the student's academic achievements and the student's readiness to proceed to the final research phase of the degree program.

Graduate students and program directors should refer to the following degree candidacy policy as published in the VCU Graduate Bulletin for complete information and instructions.

#### Degree candidacy requirements

### Graduation requirements

As graduate students approach the end of their academic programs and the final semester of matriculation, they must make formal application to graduate. No degrees will be conferred until the application to graduate has been finalized.

Graduate students and program directors should refer to the following graduation requirements as published in the Graduate Bulletin for a complete list of instructions and a graduation checklist.

#### Graduation requirements

### Psychology, Doctor of Philosophy (Ph.D.) with a concentration in developmental psychology

#### Graduate program director

Michael A. Southam-Gerow, Ph.D.

Associate professor and director of graduate studies

### VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

#### General academic regulations for all graduate students in all graduate programs at VCU

### Program goal

The Doctor of Philosophy in Psychology offered by VCU prepares students for basic or applied research and includes three specialty areas: biopsychology, developmental psychology and social psychology. The concentration in developmental psychology trains students for work in either college or university academic departments or applied settings. Applied developmentalists work in a variety of settings and programs (violence prevention, community intervention, schools, family service agencies, nonprofit agencies, health care settings, disability agencies) with a variety of human populations (infants and young children, school-age children, adolescents, at-risk youth, incarcerated youth and adults, parents, older adults, persons with disabilities); they do not offer counseling/therapy services.

The Center for Psychological Services and Development, a campus-based community service agency operated by the department, provides training opportunities for graduate students in all departmental programs, including practicum and research training for graduate students in the clinical psychology program. A wide variety of other on- and off-campus practicum placements also are available.

The department maintains laboratory facilities for research in the areas of behavioral assessment, behavioral medicine, developmental, learning, behavioral pharmacology, psychophysiology, psychotherapy process, social perception, social influence and group dynamics. Opportunities for field research also are available in a variety of settings.

## Student learning outcomes

1. Students will demonstrate their understanding of the models, theories and processes of developmental psychology; the biological, cognitive, social and cultural underpinnings of human development; processes of normative developmental change across the lifespan; atypical development as found in psychopathology and disabilities; and community applications of developmental science.
2. Students will use scientifically sound research methodologies, univariate and multivariate statistics and ethical practices in their conduct of research.
3. Students will adhere to the highest standards of ethics in their research, teaching and applied practice. Students will follow standards set by the university, the American Psychological Association and the Society for Research in Child Development.

## Degree requirements

In addition to general [VCU Graduate School graduation requirements](#), students are required to complete course work in core and elective courses and to conduct significant research. All work toward the Ph.D. degree must be completed within eight years of the first enrollment.

1. Credit hour requirements: Students in the psychology Ph.D. program are required to earn a minimum of 72 graduate-level credit hours beyond the baccalaureate. At least one-half of the credit hours presented for graduation must be at the 600 level or higher.
2. Grade requirement: Receipt of a grade of C or lower in two courses, or grades of C or lower in more than six credit hours of psychology courses, constitutes automatic dismissal of a student from the program.
3. Master's-level candidacy and requirements: All students in the Department of Psychology are required to complete a department core curriculum (13-15 credit hours) or its equivalent for students entering with a master's degree. Students who receive grades of B or better in each of the department core courses are considered to have fulfilled the university requirements of a master's-level comprehensive examination and will then officially be considered candidates for the Master of Science degree. Students who receive grades of C or lower in two or more department core courses will have failed the comprehensive examination and will be dismissed automatically from the program. Students who receive a grade of C or lower in one of the department core courses must either (a) satisfactorily complete a re-examination of the material covered in the course within one semester following the receipt of the grade (this re-examination is to be arranged and evaluated by the course instructor) or (b) repeat the course for credit the next time it is offered and receive a grade of B or better. Regardless of which of these approaches is chosen, the students will be given only one opportunity to demonstrate that they have mastered the course material. Students who either fail the re-examination or repeat the course and receive a grade of C or lower will have failed the comprehensive examination and will be dismissed from the program. Additional courses and training experiences will be determined in consultation with and subject to the approval of the student's faculty adviser and graduate program committee. All students are required to complete a master's thesis and to defend it successfully in an oral examination. Ideally, the thesis should be publishable as a piece of research and make a contribution to the field of psychology. Students who have previously completed a master's thesis in psychology at another university may have the thesis requirement waived if the thesis is accepted by their graduate program committee. The residence requirement for the master's degree is 18 hours, nine in each of two consecutive semesters. Completion of the degree usually requires four semesters. At least six credit hours in PSYC 798 Master's Thesis must be completed, and no more than six can be counted toward the M.S. degree.
4. Doctoral candidacy and requirements: Students are obligated to request, in writing from their program committees, continuation of study beyond the master's degree and approval of their doctoral plan of study. Application from a student for continuation beyond the master's level will be evaluated by the appropriate program committee after completion of all requirements for the master's degree. The program committee reviews the student's request and approves or disapproves the request. The student must pass a written preliminary examination to become a doctoral candidate. Students are required to complete this requirement prior to defense of their dissertations and prior to leaving on internship for students in the clinical and counseling

psychology programs. With the consent of the program committee, doctoral students may design a minor consisting of courses in departments other than psychology or courses in an area of psychology other than the major. Both the clinical and counseling psychology programs require completion of applied practica and a one-year predoctoral internship approved by the program committee. Research practica are required by all programs. Practicum credit hours will vary depending on the program. Internship will be one-half credit hour per semester. A dissertation requiring the planning, completion and oral defense of an original research project is an integral part of the doctoral program. At least 12 credit hours in PSYC 898 Doctoral Dissertation must be completed, and no more than 12 can be counted toward the Ph.D. degree. Completion of the entire program usually requires four to six years (including the internship year for students in the clinical and counseling programs). Candidates must complete all requirements for the Ph.D. degree within an eight-year period from the date of admission to the graduate program unless permission is granted for an extension. In some cases, specific programs and divisions may have requirements in addition to those stated here.

A more detailed description of the requirements for each of the graduate programs is included in the Department of Psychology's Graduate Student Handbook, which is provided to each incoming graduate student. Visit the website for more information: [psychology.vcu.edu](http://psychology.vcu.edu).

## VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

### General academic regulations for all graduate students in all graduate programs at VCU

## Program goal

The Doctor of Philosophy in Psychology offered by VCU prepares students for basic or applied research and includes three specialty areas: biopsychology, developmental and social psychology. The concentration in developmental psychology trains students for work in either college or university academic departments or applied settings. Applied developmentalists work in a variety of settings and programs (violence prevention, community intervention, schools, family service agencies, nonprofit agencies, health care settings, disability agencies) with a variety of human populations (infants and young children, school-age children, adolescents, at-risk youth, incarcerated youth and adults, parents, older adults, persons with disabilities); they do not offer counseling/therapy services.

The Center for Psychological Services and Development, a campus-based community service agency operated by the department, provides training opportunities for graduate students in all departmental programs. A wide variety of other on- and off-campus practicum placements also are available.

The department maintains laboratory facilities for research in the areas of behavioral assessment, behavioral medicine, developmental, learning, behavioral pharmacology, psychophysiology, psychotherapy process, social perception, social influence and group dynamics. Opportunities for field research also are available in a variety of settings.

## Student learning outcomes

1. Students will achieve competency in their knowledge of all basic areas of the field, including social psychology, psychobiology, learning/cognition and statistics/research.
2. Students will have learned all the basic principles, theories and findings of the field of social psychology, including social thought and cognition, group processes, and personality and individual differences.
3. Students will have the intellectual skills required to generate theories, do research, communicate ideas and information to others, evaluate conclusions statistically, locate the information needed for these intellectual pursuits and prepare scientific reports.

## Degree requirements

In addition to general [VCU Graduate School graduation requirements](#), students are required to complete course work in core and elective courses and to conduct significant research. All work toward the Ph.D. degree must be completed within eight years of the first enrollment.

1. Credit hour requirements: Students in the psychology Ph.D. program are required to earn a minimum of 72 graduate-level credit hours beyond the baccalaureate. At least one-half of the credit hours presented for graduation must be at the 600 level or higher.
2. Grade requirement: Receipt of a grade of C or lower in two courses, or grades of C or lower in more than six credit hours of psychology courses, constitutes automatic dismissal of a student from the program.
3. Master's-level candidacy and requirements: All students in the Department of Psychology are required to complete a department core curriculum (13-15 credit hours) or its equivalent for students entering with a master's degree. Students who receive grades of B or better in each of the department core courses are considered to have fulfilled the university requirements of a master's-level comprehensive examination and will then officially be considered candidates for the Master of Science degree. Students who receive grades of C or lower in two or more department core courses will have failed the comprehensive examination and will be dismissed automatically from the program. Students who receive a grade of C or lower in one of the department core courses must either (a) satisfactorily complete a re-examination of the material covered in the course within one semester following the receipt of the grade (this re-examination is to be arranged and evaluated by the course instructor) or (b) repeat the course for credit the next time it is offered and receive a grade of B or better. Regardless of which of these approaches is chosen, the students will be given only one opportunity to demonstrate that they have mastered the course material. Students who either fail the re-examination or repeat the course and receive a grade of C or lower will have failed the comprehensive examination and will be dismissed from the program. Additional courses and training experiences will be determined in consultation with and subject to the approval of the student's faculty adviser and graduate program committee. All students are required to complete a master's thesis and to defend it successfully in an oral examination. Ideally, the thesis should be publishable as a piece of research and make a contribution to the field of psychology. Students who have previously completed a master's thesis in psychology at another university may have the thesis requirement waived if the thesis is accepted by their graduate program committee. The residence requirement for the master's degree is 18 hours, nine in each of two consecutive semesters. Completion of the degree usually requires four semesters. At least six credit hours in PSYC 798 Master's Thesis must be completed, and no more than six can be counted toward the M.S. degree.
4. Doctoral candidacy and requirements: Students are obligated to request, in writing from their program committees, continuation of study beyond the master's degree and approval of their doctoral plan of study. Application from a student for continuation beyond the master's level will be evaluated by the appropriate program committee after completion of all requirements for the master's degree. The program committee reviews the student's request and approves or disapproves the request. The student must pass a written preliminary examination to become a doctoral candidate. Students are required to complete this requirement prior to defense of their dissertations and prior to leaving on internship for students in the clinical and counseling psychology programs. With the consent of the program committee, doctoral students may design a minor consisting of courses in departments other than psychology or courses in an area of psychology other than the major. Both the clinical and counseling psychology programs require completion of applied practica and a one-year predoctoral internship approved by the program committee. Research practica are required by all programs. Practicum credit hours will vary depending on the program. Internship will

be one-half credit hour per semester. A dissertation requiring the planning, completion and oral defense of an original research project is an integral part of the doctoral program. At least 12 credit hours in PSYC 898 Doctoral Dissertation must be completed, and no more than 12 can be counted toward the Ph.D. degree. Completion of the entire program usually requires four to six years (including the internship year for students in the clinical and counseling programs). Candidates must complete all requirements for the Ph.D. degree within an eight-year period from the date of admission to the graduate program unless permission is granted for an extension. In some cases, specific programs and divisions may have requirements in addition to those stated here.

A more detailed description of the requirements for each of the graduate programs is included in the Department of Psychology's Graduate Student Handbook, which is provided to each incoming graduate student. Visit the website for more information: [psychology.vcu.edu](http://psychology.vcu.edu).

## Curriculum requirements

## Degree candidacy requirements

A graduate student admitted to a program or concentration requiring a final research project, work of art, thesis or dissertation, must qualify for continuing master's or doctoral status according to the degree candidacy requirements of the student's graduate program. Admission to degree candidacy, if applicable, is a formal statement by the graduate student's faculty regarding the student's academic achievements and the student's readiness to proceed to the final research phase of the degree program.

Graduate students and program directors should refer to the following degree candidacy policy as published in the VCU Graduate Bulletin for complete information and instructions.

### Degree candidacy requirements

## Graduation requirements

As graduate students approach the end of their academic programs and the final semester of matriculation, they must make formal application to graduate. No degrees will be conferred until the application to graduate has been finalized.

Graduate students and program directors should refer to the following graduation requirements as published in the Graduate Bulletin for a complete list of instructions and a graduation checklist.

### Graduation requirements

## Department of Statistical Sciences and Operations Research

The Department of Statistical Sciences and Operations Research offers programs leading to a Bachelor of Science in Mathematical Sciences, a Master of Science in Mathematical Sciences with a concentration in either operations research or statistics and a Doctor of Philosophy in Systems Modeling and Analysis. The curriculum of both programs is run jointly with the [Department of Mathematics and Applied Mathematics](#).

The department also offers a post-baccalaureate undergraduate certificate in statistics.

Mathematical Sciences, Master of Science (M.S.) with a concentration in statistics

Apply online at [graduate.admissions.vcu.edu](http://graduate.admissions.vcu.edu).

### Admission requirements

Mathematical Sciences, Master of Science (M.S.) with a concentration in operations research			
Degree:	Semester(s) of entry:	Deadline dates:	Test requirements:
M.S.	Fall	Mar 1	GRE-General TOEFL (International students only)
	Spring	Oct 1	
Special requirements: Priority deadlines for funding consideration			

In addition to the [general admission requirements of the VCU Graduate School](#), the following requirements represent the minimum acceptable standards for admission:

- Thirty credit hours in undergraduate mathematical sciences, computer science or related areas of which at least 18 credit hours must represent upper-level courses
- Three letters of recommendation pertaining to the student's potential ability as a graduate student in mathematical sciences

Provisional admission may be granted when deficiencies exist. These deficiencies must be removed by the end of the first year of residence, or its part-time equivalent, when the student's application will be re-examined. Courses that are remedial or designed to remove deficiencies will not be accepted for credit hours toward the fulfillment of the course requirements for the master's degree.

### VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty

of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

#### General academic regulations for all graduate students in all graduate programs at VCU

### Program goal

The Department of Mathematics and Applied Mathematics and the Department of Statistical Sciences and Operations Research jointly offer the M.S. in Mathematical Sciences.

The mission of the Department of Statistical Sciences and Operations Research is to offer a strong undergraduate and graduate education, with an increasing focus on the development of cross-disciplinary efforts that will prepare students for real-world applications and stimulating employment and career opportunities.

The program offers maximum flexibility by allowing students, in consultation with their graduate committees, to design a course of study that will best develop competence in those areas most relevant to their scholarly and professional objectives. Students may obtain a designation on their transcripts indicating that their graduate study has emphasized the mathematics concentration by completing the requirements that are listed here. A student who has not satisfied the requirements for one of the program concentrations offered, but who has otherwise fulfilled all the requirements for a master's degree, will be awarded a degree of Master of Science in Mathematical Sciences without any specialization.

### Student learning outcomes

- Students will demonstrate a comprehensive understanding of basic mathematical programming methods, stochastic models and decision analysis.
- Student will be able to obtain, analyze and interpret the data necessary to perform operations research projects.
- Students will be able to solve a wide variety of operations research problems using the software commonly used in industry.
- Students will know how to clearly and concisely present technical information in writing and through oral presentations.

### Degree requirements

In addition to the [VCU Graduate School graduation requirements](#), students are required to complete course work in core and elective courses and to meet the following requirements.

- Credit hour requirements: Students in the M.S. in Mathematical Sciences program are required to earn a minimum of 30 graduate-level credit hours. At least one-half of the credit hours presented for graduation must be at the 600 level or higher.
- Other requirements: All students must pass two comprehensive examinations: foundations of operations research, covering OPER 527 and OPER 528 and methods of operations research, covering OPER 613, OPER 639 and OPER 643. All students will be given two attempts to pass each exam.

### Curriculum requirements

## **2014-15 Graduate and Professional Programs Bulletin**

---

**School of Allied Health Professions**

The School of Allied Health Professions was established on Jan. 1, 1969, to provide an administrative structure for existing educational programs in allied health disciplines and to direct the development of new programs in response to the growing need for allied health manpower. At the outset, the school incorporated existing educational programs for hospital administration, medical technology, physical therapy and radiologic technology and X-ray technicians.

In the years since its establishment, the school has grown significantly — developing unique, cutting-edge curricula and degree offerings in both traditional and nontraditional formats — to meet the increasing demand for allied health teachers, researchers and practitioners. Considered a leader in distance education, VCU's School of Allied Health Professions offers the only interdisciplinary, Internet-based doctoral program in allied health in the country: the Ph.D. in Health Related Sciences. The school currently incorporates nine departments and offers programs at the baccalaureate, certificate, master's, doctoral and professional levels.

Director of Student Services

## Philosophy

The faculty of the school is committed to offering, through the establishment and maintenance of rigorous standards of excellence, educational programs that will prepare students for professional careers in the allied health disciplines. Development of professional attitudes, emotional maturity and ethical behavior of students is a vital component of the educational process. It is essential that students gain a deep respect for the dignity of human beings and the inherent rights of patients and others who receive services. The programs are designed to include not only the development of skills to assure excellence in quality of health care, but also factual knowledge and experiences that will provide the basis for continuing intellectual and professional growth.

Community services of the school and faculty include continuing education, consultative resources and participation in all pertinent areas of health care. An integral part of these efforts is to stimulate and sponsor research activities in the allied health disciplines represented within the school and to encourage interdisciplinary research.

## Accreditation

The School of Allied Health Professions is an institutional member of the American Society of Allied Health Professions and the Virginia Association of Allied Health Professions. All of its programs are approved or accredited by the appropriate national professional or educational organizations.

### Clinical laboratory sciences (bachelor's degree)

National Accrediting Agency for Clinical Laboratory Sciences  
5600 N. River Road, Suite 720, Rosemont, IL 60018-5519; (847) 939-3597, (773)

714-8880 or (773) 714-8886 (fax); [infor@naaccls.org](mailto:infor@naaccls.org); [www.naaccls.org](http://www.naaccls.org). Upon graduation the student is eligible to take the national examination for MLS given by the Board of Certification of the American Society for Clinical Pathology.

### Health administration (master's and executive master's degrees)

Commission on Accreditation of Healthcare Management Education

### Nuclear medicine technology (bachelor's degree in Clinical Radiation Sciences)

Joint Review Committee on Educational Programs in Nuclear Medicine Technology

### Nurse anesthesia (master's, doctorate)

Council on Accreditation of Nurse Anesthesia Educational Programs (COA, 222 South Prospect Avenue, Park Ridge, Illinois, 847-692-7050).

The COA is recognized by the U.S. Department of Education and the Council on Higher Education Accreditation to accredit programs of nurse anesthesia at the master's, post-master's and doctoral levels.

Graduates of the master's program are eligible to take the examination for certification conducted by the Council on Certification of Nurse Anesthetists.

### Occupational therapy (master's degree)

Accreditation Council for Occupational Therapy Education

### Patient counseling (certificate)

Association for Clinical Pastoral Education

### Physical therapy (D.P.T.)

Commission on Accreditation in Physical Therapy Education, American Physical Therapy Association

### Radiation therapy technology (bachelor's degree in Clinical Radiation Sciences)

Joint Review Committee on Education in Radiologic Technology

### Radiography (bachelor's degree in Clinical Radiation Sciences)

Joint Review Committee on Education in Radiologic Technology

### Rehabilitation counseling (master's degree)

Council on Rehabilitation Education

## Programs

Both entry- and advanced-level undergraduate, graduate, professional and certificate programs are offered by the School of Allied Health Professions. University and accreditation requirements for the individual programs guide the establishment of general admission prerequisites and course and degree requirements. Regulations and procedures for each program are outlined in these bulletins and are intended to ensure the selection of applicants whose motivation, ability, character and health status qualify them to pursue their program of study successfully.

Programs currently offered by this school and the degrees conferred on their graduates are:

### School of Allied Health Professions

- Ph.D. in Health Related Sciences

### Department of Clinical Laboratory Sciences

- Bachelor of Science
- Master of Science

### Department of Gerontology

- Post-baccalaureate graduate certificate in aging studies
- Post-baccalaureate graduate certificate in aging studies and Master of Social Work offered jointly with the VCU School of Social Work)
- Master of Science

### Department of Health Administration

- Master of Health Administration
- Master of Health Administration and Doctor of Medicine (offered jointly with the VCU School of Medicine)
- Master of Health Administration and Juris Doctor (offered jointly by the T. C. Williams School of Law at the University of Richmond and the Washington and Lee University School of Law)

- Master of Science in Health Administration (Professional M.S.H.A. Program – Online)
- Ph.D. in Health Services Organization and Research

**Department of Nurse Anesthesia**

- Doctor of Nurse Anesthesia Practice
- Master of Science in Nurse Anesthesia

**Department of Occupational Therapy**

- Master of Science in Occupational Therapy
- Master of Science
- Occupational Therapy Doctorate

**Program in Patient Counseling**

- Post-baccalaureate graduate certificate in patient counseling
- Master of Science
- Master of Science and Master of Divinity (offered jointly by the School of Theology at Virginia Union University and the Baptist Theological Seminary)

**Department of Physical Therapy**

- Doctor of Physical Therapy
- Tracks in physical therapy in the Ph.D. programs offered in Anatomy and Neurobiology or Physiology in the VCU School of Medicine
- Ph.D. in Rehabilitation and Movement Science

**Department of Radiation Sciences**

- Bachelor of Science

**Department of Rehabilitation Counseling**

- Master of Science
- Master of Science in Rehabilitation Counseling and certificate in aging studies
- Post-master's certificate in professional counseling

---

**Licensure/certification**

Graduates of most of the programs offered in the School of Allied Health Professions are required or eligible to take national and/or state certification or licensure examinations. Requirements of licensing and certifying agencies vary. Some licensure and certification agencies consider individuals convicted of a felony ineligible for licensure or certification. For information, prospective students should contact the licensure or certification agency for the specific allied health discipline.

---

**Attendance regulations**

The faculty considers attendance at lectures, laboratories and other functions a requisite to the successful acquisition of the knowledge and skills required of the professional. Hence, the faculty cannot condone absence without good reason from any regularly scheduled educational experience. At the beginning of each course, instructors relate to their classes the policy of the department concerning the attendance regulations for that semester. The nature of make-up work in the event of absence will be the prerogative of the instructor.

---

**Student performance and behavior**

The goals and objectives of the School of Allied Health Professions and its component departments and programs relate to the education of persons preparing for professional careers in the allied health disciplines. An integral requisite of students and practitioners is an undeviating acceptance of a professional attitude and pride that will motivate them to adhere to a code of professional ethics and to develop fully their competencies for practice.

The suitability of student performance and behavior relating to these professions and to the consumers of health care is a paramount concern of the administration and faculty of this school. To assure a quality of educational and clinical preparation for its graduates, the following statement is promulgated:

If, in the judgment of the faculty and administration of the School of Allied Health Professions, a student is not considered suitable for emotional, professional or related reasons, the student's academic status may be appropriately altered.

If any questions arise regarding the standards of performance or behavior, it is the responsibility of students to apprise themselves of acceptable character and conduct requirements prior to matriculation in the designated department or program.

**Standards of professional behavior**

These standards describe behaviors expected from the faculty and students of the School of Allied Health Professions. They are in addition to those standards of behavior and ethical conduct required by the school's departments and professional organizations. They are supplemental to the university statement regarding conduct in the classroom.

- Recognize one's position as a role model of your profession for other members of the health care team.
- Carry out academic, clinical and research responsibilities in a conscientious manner, making every effort to exceed expectations and demonstrating a commitment to lifelong learning.
- Treat patients, faculty and students with respect, demonstrating sensitivity to diversity regarding ethnicity, culture, age, gender, disability, social and economic status, sexual orientation, etc., without discrimination, bias or harassment.
- Maintain patient/client confidentiality.
- Respect the privacy of all members of the campus community and avoid promoting gossip and rumor.
- Interact with all members of the health care team in a collaborative and supportive fashion, with respect and recognition of the roles played by each individual.
- Provide help or seek assistance for any member of the health care team who is recognized as impaired in his/her ability to perform his/her professional obligations.
- Be mindful of the limits of one's knowledge and abilities and seek help from others whenever appropriate.
- Abide by accepted ethical standards in the scholarship, research and practice of patient/client care.
- Abide by the guidelines of the VCU Honor System.

---

**Financial aid**

Financial aid is available for all students meeting the criteria for financial assistance. For details of the programs available contact the Financial Aid Office, P.O. Box 980244, Richmond, VA 23298-0244 or telephone (804) 828-9800.

The school and departments also offer financial awards, honors and scholarships. Details may be found on the school's and individual departments' Web sites at [www.sahp.vcu.edu](http://www.sahp.vcu.edu).

**Health Related Sciences, Doctor of Philosophy (Ph.D.)  
with a concentration in clinical laboratory sciences**

**Graduate program director**

Paula K. Kupstas, Ph.D.  
Associate professor and director  
[pkupstas@vcu.edu](mailto:pkupstas@vcu.edu)  
(804) 828-1914

**Additional contact**

Monica L. White  
Program coordinator  
[mlwhite1@vcu.edu](mailto:mlwhite1@vcu.edu)  
(804) 828-3273

Health Related Sciences, Doctor of Philosophy (Ph.D.) with a concentration in gerontology

Health Related Sciences, Doctor of Philosophy (Ph.D.) with a concentration in health care outcomes research

Health Related Sciences, Doctor of Philosophy (Ph.D.) with a concentration in nurse anesthesia

Health Related Sciences, Doctor of Philosophy (Ph.D.) with a concentration in occupational therapy

Health Related Sciences, Doctor of Philosophy (Ph.D.) with a concentration in patient counseling

Health Related Sciences, Doctor of Philosophy (Ph.D.) with a concentration in physical therapy

Health Related Sciences, Doctor of Philosophy (Ph.D.) with a concentration in radiation sciences

Health Related Sciences, Doctor of Philosophy (Ph.D.) with a concentration in rehabilitation leadership

Apply online at [graduate.admissions.vcu.edu](http://graduate.admissions.vcu.edu).

## Admission requirements

Health Related Sciences, Doctor of Philosophy (Ph.D.) with a concentration in clinical laboratory sciences			
Degree: Ph.D.	Semester(s) of entry: Fall (begins end of Jun)	Deadline dates: Mar 15	Test requirements: GRE or MAT  Tests must have been taken within the past five years.
Special requirements: When applicable, applicants must have a minimum Test of English as a Foreign Language score of 600. The Ph.D. program in health related sciences utilizes two six-month semesters per year (January through June and July through December), which include both on- and off-campus components.			

In addition to the [general admission requirements of the VCU Graduate School](#), applicants must meet the following criteria:

1. Have an earned master's degree in an academic or allied health-related field from an accredited college or university; preference will be given to applicants who have a minimum cumulative GPA of 3.3 on master's-level work (The master's degree should be in one of the departmental areas of choice of concentration.)
2. Have GRE (verbal, quantitative and analytic writing) or MAT scores from within the past five years
3. Have completed a graduate course in statistics with a minimum grade of B
4. Demonstrate a record of professional competency and success
5. Articulate clear professional and educational goals and written communication skills through the submission of a written essay
6. Have any additional qualifications/certifications of the individual concentrations

Prior to reviewing an application for admission, the program must receive:

1. A completed application form from the applicant, including:
  - a. Three letters of recommendation, two of which preferably are from sources qualified to assess the candidate's academic potential
  - b. A written essay that discusses career goals and the manner in which this doctoral program will enhance those goals and what the applicant expects to contribute to this program
  - c. A curriculum vitae
4. Official transcripts indicating completion of baccalaureate and master's degrees (or equivalent) from an accredited college or university
5. GRE or MAT scores

Incomplete packages may not be reviewed. Materials are sent to the Graduate Admissions office for processing and then forwarded to the School of Allied Health Professions. Once received in the school, the application is reviewed for completeness. Applicants with incomplete files will be contacted regarding the missing materials. Incomplete files will be held in the director's office until all materials are received.

Completed folders will be sent to the respective departmental representative of the School of Allied Health Professions Doctoral Program Advisory Committee. Departments will then rank qualified applicants and, based on a review of the file, a personal interview will be scheduled at the department's discretion for the top candidates. Following the departmental ranking, all files will be returned to the director's office.

The DPAC will meet to select and recommend the incoming class. The director and the dean of the School of Allied Health Professions are responsible for the final decision.

Applicants will be notified by the Graduate Admissions office regarding the admission decision and of the deadline for their acceptance of the offer and holding fee.

## VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

### General academic regulations for all graduate students in all graduate programs at VCU

## Program mission/purpose

The program will provide experienced health professionals with advanced knowledge and skills so that they may assume positions in teaching, research and administration upon graduation. It offers a curriculum with an interdisciplinary core of courses with concentrations in clinical laboratory sciences, gerontology, health care outcomes research, nurse anesthesia, occupational therapy, patient counseling, physical therapy, radiation sciences and rehabilitation leadership. The program emphasizes use of distance-learning technologies combined with traditional didactic methods. The curriculum is relevant, timely and meaningful to a multidisciplinary cohort of students.

## Program goals

1. The program will provide students with the ability to understand and conduct research in health-related sciences.
2. The program will provide the student with the ability to analyze alternatives and develop responses in their disciplines to address the current and future challenges in health care.
3. The program will provide students with the skills to educate health professionals in their discipline using current principles of teaching and curriculum development.

## Student learning outcomes

Students completing this doctoral program will:

1. Demonstrate the ability to conduct research, understand issues, design and execute research plans, analyze research results, and present conclusions in the area of interdisciplinary health care using the appropriate methods
2. Demonstrate an in-depth knowledge in the area of specialization
3. Exhibit competency in translating research knowledge and principles into applied practice perspectives and skills

4. Display educational expertise in current principles and content of the allied health sciences and teach in the area of interdisciplinary health care practice
5. Display the ability to examine current issues and future changes in the health care environment from an interdisciplinary perspective
6. Exhibit knowledge and understanding of professional and ethical responsibility and conduct in the allied health professions
7. Demonstrate knowledge and understanding of the importance of cultural diversity in the delivery of health care and the formulation of health policy

## Degree requirements

In addition to general [VCU Graduate School graduation requirements](#), students must successfully complete a total of 51 credit hours (18 credit hours of common interdisciplinary core courses, 12 credit hours of research methods core courses, nine credit hours of concentration courses and 12 credit hours of dissertation research), two comprehensive examinations, a research proposal defense and the final dissertation defense.

### Continuation requirements

After admission to the Ph.D. program, the student must maintain a minimum cumulative GPA of 3.0 in all of the course work completed at VCU. A student who falls below that minimum will have one semester to remedy the deficiency. Even with an overall minimum GPA of 3.0, a student may earn no more than two (six credit hours) grades of C. Students who receive a grade of D or F will be reviewed for continuation in the program by the department of their concentrations.

Students are expected to maintain continuous enrollment while in the program. Following the completion of the core course work, students must register for at least one credit hour each fall and spring semester for continuation in the program. A student who fails to register must have advance approval to do so or will be dropped automatically from the program and must reapply for reinstatement. The maximum time to complete all of the requirements for the degree is eight calendar years from the date of entry into the program.

### Course transfer or waiver

A maximum of 25 percent of the course work other than research may be transferred from another VCU program or outside institution and applied toward the Ph.D. course requirements. Transfer and waiver credit is given at the discretion of the program director after consultation with appropriate faculty members, subject to university approval. Courses taken as requirements for other degrees are not transferable. A waiver may be warranted if an equivalent course was taken. However, another course must be substituted for the waived course in order to fulfill the requisite 51 credit hours needed for degree completion.

### Comprehensive examination

The purpose of the comprehensive examination is to provide a vehicle through which students can demonstrate the ability to integrate their educational experiences by adequately addressing complex questions pertinent to the current and developing knowledge of the allied health fields. Students are eligible to take each of the two comprehensive examinations upon successful completion of the appropriate core course work. The core exam must be taken within six months of completing the methods exam.

Two written examinations will be administered, one for the common interdisciplinary core and one for the research methods core. A three-member graduate faculty committee will develop and administer each exam. This committee will be made up of two members of the core advisory committee and one member appointed by the program director. Each exam will be offered once in the fall semester and once in the spring semester. Prior to completion of the semester in which students become eligible to take each exam, they must submit a formal statement of intent to the program coordinator.

Students who receive a failing grade on the initial attempt will have one opportunity to repeat each comprehensive examination. Failure to pass an exam on the second attempt will result in dismissal from the program.

The proposed curriculum is designed to take four years to complete. Students spend the first two and one-half years (six-month-long semesters) completing course work. The final year and one-half is spent developing the doctoral dissertation. Research components are present in each year of the program, and a research emphasis is present throughout the entire curriculum. Students are required to designate the area of intended research in their concentration areas in the first year.

Each of the five course-work semesters is composed of both on- and off-campus components. On-campus sessions, scheduled during the end of June and beginning of July and at the beginning of January, will employ a rather traditional mix of educational technologies (e.g., lectures, seminars and assigned reading). During the off-campus component of each semester, students pursue their studies employing a wide variety of innovative educational technologies (e.g., computer conferencing, computer-aided instruction, videotape packages and programmed instructional material), in addition to assigned readings and the completion of various assignments and projects. Upon completion of the five semesters of course work, students are required to return to campus each semester until a research proposal has been developed and successfully defended.

The program curriculum consists of a total of 51 credit hours (18 credit hours of common interdisciplinary core courses, 12 credit hours of research methods core courses, nine hours of specialty concentration courses and 12 hours of dissertation research).

## Curriculum requirements

Courses	Credit hours

**Total graduate credit hours required (minimum)** **51**

**Degree candidacy requirements**

A graduate student admitted to a program or concentration requiring a final research project, work of art, thesis or dissertation, must qualify for continuing master's or doctoral status according to the degree candidacy requirements of the student's graduate program. Admission to degree candidacy, if applicable, is a formal statement by the graduate student's faculty regarding the student's academic achievements and the student's readiness to proceed to the final research phase of the degree program.

Graduate students and program directors should refer to the following degree candidacy policy as published in the VCU Graduate Bulletin for complete information and instructions.

**Degree candidacy requirements****Admission to candidacy**

Students are eligible to begin their dissertations upon written certification by the program director and associate dean of the Graduate School that all predissertation/research requirements, including the comprehensive examinations, have been satisfied and that the student is prepared to proceed with the dissertation/research project. Copies of the certification will be forwarded to the student, the student's formal program adviser and the dean of the School of Allied Health Professions. After admission to candidacy, students will proceed to propose, complete and defend their dissertations or three journal articles research requirement.

**Enrollment requirement**

Students are required to maintain continuous enrollment in ALHP 899 Dissertation Research until completion of the requirements, including the defense process.

**Dissertation and published research requirements****Dissertation/research committee**

After successful completion of the comprehensive exam, the student nominates a dissertation/research committee, and the dissertation/research director submits the nominations in writing to the program director. Such committees will consist of a minimum of four graduate faculty members, one of whom will be outside the student's concentration area. The program director will provide written approval

of the dissertation/research committee and clear such appointments with the appropriate administrative officials.

**Dissertation/research standards**

The dissertation or publishable research articles must represent independent research and should be based on an original research question or hypothesis. Generally, dissertations or publishable research articles will demonstrate the student's ability with empirical research, adhering to canons of (1) logic in conceptualization and design, (2) valid and reliable measurement, (3) appropriate analytic technique and (4) appropriate interpretation of results. Studies should be based on a formal theoretical or conceptually explicit framework for investigating a question or testing a hypothesis relevant to the allied health field.

**Graduation requirements**

As graduate students approach the end of their academic programs and the final semester of matriculation, they must make formal application to graduate. No degrees will be conferred until the application to graduate has been finalized.

Graduate students and program directors should refer to the following graduation requirements as published in the Graduate Bulletin for a complete list of instructions and a graduation checklist.

**Graduation requirements****Program completion requirements**

The doctor of philosophy degree is awarded after (1) the minimum 51 credit hours of course work are completed, (2) comprehensive exams are passed, and (3) either a dissertation is written and defended orally or three first-author articles of publishable quality (on research undertaken by the doctoral candidate once enrolled in the program) are written and defended orally. The journal articles will be scrutinized for quality of scholarship by an internal research committee headed by the student's research adviser. All three articles must be approved by the internal research committee prior to submission.

**Other information****Student handbook**

A student handbook will be made available to all admitted students in their cohort organizations in Blackboard.

**Facilities**

The administrative offices for the program are located on the MCV Campus, at 1200 E. Broad St. (West Hospital, First Floor, East Wing).

**Advising**

Upon admission to the program, students will be assigned an interim adviser to guide them through the core courses and assist them as they consider their areas of research. All program advisers will have an earned doctorate and be members of the university's graduate faculty.

Students may change their interim advisers as their programs of study and interests evolve, if approved by the program director. Although discouraged, some students may wish to switch their area of concentration (changing from the department through which they were initially admitted to the program). Students who want to change concentration areas must petition the doctoral program director. The petition must be approved by the program director, the DPAC and the appropriate department chair. There is no guarantee that the applicant will be accepted into the new concentration.

After successful completion of the comprehensive examinations, students will choose a dissertation chair that will serve as adviser and guide them through the research/dissertation process.

**Computer requirements**

All students admitted to the program must have a personal computer manufactured within the past two years and access to a high-speed Internet connection.

## VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

### General academic regulations for all graduate students in all graduate programs at VCU

**Program mission/purpose**

The program will provide experienced health professionals with advanced knowledge and skills so that they may assume positions in teaching, research and administration upon graduation. It offers a curriculum with an interdisciplinary core of courses with concentrations in clinical laboratory sciences, gerontology, health care outcomes research, nurse anesthesia, occupational therapy, patient counseling, physical therapy, radiation sciences and rehabilitation leadership. The program emphasizes use of distance-learning technologies combined with traditional didactic methods. The curriculum is relevant, timely and meaningful to a multidisciplinary cohort of students.

**Program goals**

1. The program will provide students with the ability to understand and conduct research in health-related sciences.
2. The program will provide the student with the ability to analyze alternatives and develop responses in their disciplines to address the current and future challenges in health care.

- The program will provide students with the skills to educate health professionals in their discipline using current principles of teaching and curriculum development.

## Student learning outcomes

Students completing this doctoral program will:

- Demonstrate the ability to conduct research, understand issues, design and execute research plans, analyze research results, and present conclusions in the area of interdisciplinary health care using the appropriate methods
- Demonstrate an in-depth knowledge in the area of specialization
- Exhibit competency in translating research knowledge and principles into applied practice perspectives and skills
- Display educational expertise in current principles and content of the allied health sciences and teach in the area of interdisciplinary health care practice
- Display the ability to examine current issues and future changes in the health care environment from an interdisciplinary perspective
- Exhibit knowledge and understanding of professional and ethical responsibility and conduct in the allied health professions
- Demonstrate knowledge and understanding of the importance of cultural diversity in the delivery of health care and the formulation of health policy

## Degree requirements

In addition to general [VCU Graduate School graduation requirements](#), students must successfully complete a total of 51 credit hours (18 credit hours of common interdisciplinary core courses, 12 credit hours of research methods core courses, nine credit hours of specialty track courses and 12 credit hours of dissertation research), two comprehensive examinations, a research proposal defense and the final dissertation defense.

### Continuation requirements

After admission to the Ph.D. program, the student must maintain a minimum cumulative GPA of 3.0 in all of the course work completed at VCU. A student who falls below that minimum will have one semester to remedy the deficiency. Even with an overall minimum GPA of 3.0, a student may earn no more than two (six credit hours) grades of C. Students who receive a grade of D or F will be reviewed for continuation in the program by the department of their concentrations.

Students are expected to maintain continuous enrollment while in the program. Following the completion of the core course work, students must register for at least one credit hour each fall and spring semester for continuation in the program. A student who fails to register must have advance approval to do so or will be dropped automatically from the program and must reapply for reinstatement. The maximum time to complete all of the requirements for the degree is eight calendar years from the date of entry into the program.

### Course transfer or waiver

A maximum of 25 percent of the course work other than research may be transferred from another VCU program or outside institution and applied toward the Ph.D. course requirements. Transfer and waiver credit is given at the discretion of the program director after consultation with appropriate faculty members, subject to university approval. Courses taken as requirements for other degrees are not transferable. A waiver may be warranted if an equivalent course was taken. However, another course must be substituted for the waived course in order to fulfill the requisite 51 credit hours needed for degree completion.

### Comprehensive examination

The purpose of the comprehensive examination is to provide a vehicle through which students can demonstrate the ability to integrate their educational experiences by adequately addressing complex questions pertinent to the current and developing knowledge of the allied health fields. Students are eligible to take each of the two comprehensive examinations upon successful completion of the appropriate core course work. The core exam must be taken within six months of completing the methods exam.

Two written examinations will be administered, one for the common interdisciplinary core and one for the research methods core. A three-member graduate faculty committee will develop and administer each exam. This committee will be made up of two members of the core advisory committee and one member appointed by the program director. Each exam will be offered once in

the fall semester and once in the spring semester. Prior to completion of the semester in which students become eligible to take each exam, they must submit a formal statement of intent to the program coordinator.

Students who receive a failing grade on the initial attempt will have one opportunity to repeat each comprehensive examination. Failure to pass an exam on the second attempt will result in dismissal from the program.

The proposed curriculum is designed to take four years to complete. Students spend the first two and one-half years (six-month-long semesters) completing course work. The final year and one-half is spent developing the doctoral dissertation. Research components are present in each year of the program, and a research emphasis is present throughout the entire curriculum. Students are required to designate the area of intended research in their concentration areas in the first year.

Each of the five course-work semesters is composed of both on- and off-campus components. On-campus sessions, scheduled during the end of June and beginning of July and at the beginning of January, will employ a rather traditional mix of educational technologies (e.g., lectures, seminars and assigned reading). During the off-campus component of each semester, students pursue their studies employing a wide variety of innovative educational technologies (e.g., computer conferencing, computer-aided instruction, videotape packages and programmed instructional material), in addition to assigned readings and the completion of various assignments and projects. Upon completion of the five semesters of course work, students are required to return to campus each semester until a research proposal has been developed and successfully defended.

The program curriculum consists of a total of 51 credit hours (18 credit hours of common interdisciplinary core courses, 12 credit hours of research methods core courses, nine hours of specialty concentration courses and 12 hours of dissertation research).

## Degree candidacy requirements

A graduate student admitted to a program or concentration requiring a final research project, work of art, thesis or dissertation, must qualify for continuing master's or doctoral status according to the degree candidacy requirements of the student's graduate program. Admission to degree candidacy, if applicable, is a formal statement by the graduate student's faculty regarding the student's academic achievements and the student's readiness to proceed to the final research phase of the degree program.

Graduate students and program directors should refer to the following degree candidacy policy as published in the VCU Graduate Bulletin for complete information and instructions.

### Degree candidacy requirements

### Admission to candidacy

Students are eligible to begin their dissertations upon written certification by the program director and associate dean of the Graduate School that all predissertation/research requirements, including the comprehensive examinations, have been satisfied and that the student is prepared to proceed with the dissertation/research project. Copies of the certification will be forwarded to the

student, the student's formal program adviser and the dean of the School of Allied Health Professions. After admission to candidacy, students will proceed to propose, complete and defend their dissertations or three journal articles research requirement.

### Enrollment requirement

Students are required to maintain continuous enrollment in ALHP 899 Dissertation Research until completion of the requirements, including the defense process.

### Dissertation and published research requirements

#### Dissertation/research committee

After successful completion of the comprehensive exam, the student nominates a dissertation/research committee, and the dissertation/research director submits the nominations in writing to the program director. Such committees will consist of a minimum of four graduate faculty members, one of whom will be outside the student's concentration area. The program director will provide written approval of the dissertation/research committee and clear such appointments with the appropriate administrative officials.

#### Dissertation/research standards

The dissertation or publishable research articles must represent independent research and should be based on an original research question or hypothesis. Generally, dissertations or publishable research articles will demonstrate the student's ability with empirical research, adhering to canons of (1) logic in conceptualization and design, (2) valid and reliable measurement, (3) appropriate analytic technique and (4) appropriate interpretation of results. Studies should be based on a formal theoretical or conceptually explicit framework for investigating a question or testing a hypothesis relevant to the allied health field.

## Graduation requirements

As graduate students approach the end of their academic programs and the final semester of matriculation, they must make formal application to graduate. No degrees will be conferred until the application to graduate has been finalized.

Graduate students and program directors should refer to the following graduation requirements as published in the Graduate Bulletin for a complete list of instructions and a graduation checklist.

### Graduation requirements

### Program completion requirements

The doctor of philosophy degree is awarded after (1) the minimum 51 credit hours of course work are completed, (2) comprehensive exams are passed, and (3) either a dissertation is written and defended orally or three first-author articles of publishable quality (on research undertaken by the doctoral candidate once enrolled in the program) are written and defended orally. The journal articles will be scrutinized for quality of scholarship by an internal research committee headed by the student's research adviser. All three articles must be approved by the internal research committee prior to submission.

## Other information

### Student handbook

A student handbook will be made available to all admitted students in their cohort organizations in Blackboard.

### Facilities

The administrative offices for the program are located on the MCV Campus, at 1200 E. Broad St. (West Hospital, First Floor, East Wing).

### Advising

Upon admission to the program, students will be assigned an interim adviser to guide them through the core courses and assist them as they consider their areas of research. All program advisers will have an earned doctorate and be members of the university's graduate faculty.

Students may change their interim advisers as their programs of study and interests evolve, if approved by the program director. Although discouraged, some students may wish to switch their area of concentration (changing from the

department through which they were initially admitted to the program). Students who want to change concentration areas must petition the doctoral program director. The petition must be approved by the program director, the DPAC and the appropriate department chair. There is no guarantee that the applicant will be accepted into the new concentration.

After successful completion of the comprehensive examinations, students will choose a dissertation chair that will serve as adviser and guide them through the research/dissertation process.

#### Computer requirements

All students admitted to the program must have a personal computer manufactured within the past two years and access to a high-speed Internet connection.

Health Related Sciences, Doctor of Philosophy (Ph.D.) with a concentration in patient counseling

Health Related Sciences, Doctor of Philosophy (Ph.D.) with a concentration in physical therapy

Health Related Sciences, Doctor of Philosophy (Ph.D.) with a concentration in rehabilitation leadership

Health Related Sciences, Doctor of Philosophy (Ph.D.) with a concentration in radiation sciences

Apply online at [graduate.admissions.vcu.edu](http://graduate.admissions.vcu.edu).

#### Admission requirements

Health Related Sciences, Doctor of Philosophy (Ph.D.) with a concentration in health care outcomes research			
Degree: Ph.D.	Semester(s) of entry: Fall	Deadline dates: Mar 15 (application deadline)	Test requirements: GRE or MAT  Tests must have been taken within the past five years.
<b>Special requirements:</b> When applicable, applicants must have a minimum Test of English as a Foreign Language score of 600. The Ph.D. program in health related sciences utilizes two six-month semesters per year (January through June and July through December), which include both on- and off-campus components.			

In addition to the [general admission requirements of the VCU Graduate School](#), applicants must meet the following criteria:

1. Have an earned master's degree in an academic or allied health-related field from an accredited college or university; preference will be given to applicants who have a minimum cumulative GPA of 3.3 on master's-level

work (The master's degree should be in one of the departmental areas of choice of concentration.)

2. Have GRE (verbal, quantitative and analytic writing) or MAT scores from within the past five years
3. Have completed a graduate course in statistics with a minimum grade of B
4. Demonstrate a record of professional competency and success
5. Articulate clear professional and educational goals and written communication skills through the submission of a written essay
6. Have any additional qualifications/certifications of the individual concentrations

Prior to reviewing an application for admission, the program must receive:

1. A completed application form from the applicant, including:
  - a. Three letters of recommendation, two of which preferably are from sources qualified to assess the candidate's academic potential
  - b. A written essay that discusses career goals and the manner in which this doctoral program will enhance those goals and what the applicant expects to contribute to this program
  - c. A curriculum vitae
4. Official transcripts indicating completion of baccalaureate and master's degrees (or equivalent) from an accredited college or university
5. GRE or MAT scores

Incomplete packages may not be reviewed. Materials are sent to the Graduate Admissions office for processing and then forwarded to the School of Allied Health Professions. Once received in the school, the application is reviewed for completeness. Applicants with incomplete files will be contacted regarding the missing materials. Incomplete files will be held in the director's office until all materials are received.

Completed folders will be sent to the respective departmental representative of the School of Allied Health Professions Doctoral Program Advisory Committee. Departments will then rank qualified applicants and, based on a review of the file, a personal interview will be scheduled at the department's discretion for the top candidates. Following the departmental ranking, all files will be returned to the director's office.

The DPAC will meet to select and recommend the incoming class. The director and the dean of the School of Allied Health Professions are responsible for the final decision.

Applicants will be notified by the Graduate Admissions office regarding the admission decision and of the deadline for their acceptance of the offer and holding fee.

### VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

**General academic regulations for  
all graduate students in all graduate programs at VCU**

## Program mission/purpose

The program will provide experienced health professionals with advanced knowledge and skills so that they may assume positions in teaching, research and administration upon graduation. It offers a curriculum with an interdisciplinary core of courses with concentrations in clinical laboratory sciences, gerontology, health care outcomes research, nurse anesthesia, occupational therapy, patient counseling, physical therapy, radiation sciences and rehabilitation leadership. The program emphasizes use of distance-learning technologies combined with traditional didactic methods. The curriculum is relevant, timely and meaningful to a multidisciplinary cohort of students.

## Program goals

1. The program will provide students with the ability to understand and conduct research in health-related sciences.
2. The program will provide the student with the ability to analyze alternatives and develop responses in their disciplines to address the current and future challenges in health care.
3. The program will provide students with the skills to educate health professionals in their discipline using current principles of teaching and curriculum development.

## Student learning outcomes

Students completing this doctoral program will:

1. Demonstrate the ability to conduct research, understand issues, design and execute research plans, analyze research results, and present conclusions in the area of interdisciplinary health care using the appropriate methods
2. Demonstrate an in-depth knowledge in the area of specialization
3. Exhibit competency in translating research knowledge and principles into applied practice perspectives and skills
4. Display educational expertise in current principles and content of the allied health sciences and teach in the area of interdisciplinary health care practice
5. Display the ability to examine current issues and future changes in the health care environment from an interdisciplinary perspective
6. Exhibit knowledge and understanding of professional and ethical responsibility and conduct in the allied health professions
7. Demonstrate knowledge and understanding of the importance of cultural diversity in the delivery of health care and the formulation of health policy

## Degree requirements

In addition to general [VCU Graduate School graduation requirements](#), students must successfully complete a total of 51 credit hours (18 credit hours of common interdisciplinary core courses, 12 credit hours of research methods core courses, nine credit hours of specialty track courses and 12 credit hours of dissertation research), two comprehensive examinations, a research proposal defense and the final dissertation defense.

### Continuation requirements

After admission to the Ph.D. program, the student must maintain a minimum cumulative GPA of 3.0 in all of the course work completed at VCU. A student who falls below that minimum will have one semester to remedy the deficiency. Even with an overall minimum GPA of 3.0, a student may earn no more than two (six credit hours) grades of C. Students who receive a grade of D or F will be reviewed for continuation in the program by the department of their concentrations.

Students are expected to maintain continuous enrollment while in the program. Following the completion of the core course work, students must register for at least one credit hour each fall and spring semester for continuation in the program. A student who fails to register must have advance approval to do so or will be dropped automatically from the program and must reapply for reinstatement. The maximum time to complete all of the requirements for the degree is eight calendar years from the date of entry into the program.

### Course transfer or waiver

A maximum of 25 percent of the course work other than research may be transferred from another VCU program or outside institution and applied toward

the Ph.D. course requirements. Transfer and waiver credit is given at the discretion of the program director after consultation with appropriate faculty members, subject to university approval. Courses taken as requirements for other degrees are not transferable. A waiver may be warranted if an equivalent course was taken. However, another course must be substituted for the waived course in order to fulfill the requisite 51 credit hours needed for degree completion.

### Comprehensive examination

The purpose of the comprehensive examination is to provide a vehicle through which students can demonstrate the ability to integrate their educational experiences by adequately addressing complex questions pertinent to the current and developing knowledge of the allied health fields. Students are eligible to take each of the two comprehensive examinations upon successful completion of the appropriate core course work. The core exam must be taken within six months of completing the methods exam.

Two written examinations will be administered, one for the common interdisciplinary core and one for the research methods core. A three-member graduate faculty committee will develop and administer each exam. This committee will be made up of two members of the core advisory committee and one member appointed by the program director. Each exam will be offered once in the fall semester and once in the spring semester. Prior to completion of the semester in which students become eligible to take each exam, they must submit a formal statement of intent to the program coordinator.

Students who receive a failing grade on the initial attempt will have one opportunity to repeat each comprehensive examination. Failure to pass an exam on the second attempt will result in dismissal from the program.

The proposed curriculum is designed to take four years to complete. Students spend the first two and one-half years (six-month-long semesters) completing course work. The final year and one-half is spent developing the doctoral dissertation. Research components are present in each year of the program, and a research emphasis is present throughout the entire curriculum. Students are required to designate the area of intended research in their concentration areas in the first year.

Each of the five course-work semesters is composed of both on- and off-campus components. On-campus sessions, scheduled during the end of June and beginning of July and at the beginning of January, will employ a rather traditional mix of educational technologies (e.g., lectures, seminars and assigned reading). During the off-campus component of each semester, students pursue their studies employing a wide variety of innovative educational technologies (e.g., computer conferencing, computer-aided instruction, videotape packages and programmed instructional material), in addition to assigned readings and the completion of various assignments and projects. Upon completion of the five semesters of course work, students are required to return to campus each semester until a research proposal has been developed and successfully defended.

The program curriculum consists of a total of 51 credit hours (18 credit hours of common interdisciplinary core courses, 12 credit hours of research methods core courses, nine hours of specialty concentration courses and 12 hours of dissertation research).

### Degree candidacy requirements

A graduate student admitted to a program or concentration requiring a final research project, work of art, thesis or dissertation, must qualify for continuing master's or doctoral status according to the degree candidacy requirements of the

student's graduate program. Admission to degree candidacy, if applicable, is a formal statement by the graduate student's faculty regarding the student's academic achievements and the student's readiness to proceed to the final research phase of the degree program.

Graduate students and program directors should refer to the following degree candidacy policy as published in the VCU Graduate Bulletin for complete information and instructions.

#### Degree candidacy requirements

#### Admission to candidacy

Students are eligible to begin their dissertations upon written certification by the program director and associate dean of the Graduate School that all predissertation/research requirements, including the comprehensive examinations, have been satisfied and that the student is prepared to proceed with the dissertation/research project. Copies of the certification will be forwarded to the student, the student's formal program adviser and the dean of the School of Allied Health Professions. After admission to candidacy, students will proceed to propose, complete and defend their dissertations or three journal articles research requirement.

#### Enrollment requirement

Students are required to maintain continuous enrollment in ALHP 899 Dissertation Research until completion of the requirements, including the defense process.

#### Dissertation and published research requirements

##### Dissertation/research committee

After successful completion of the comprehensive exam, the student nominates a dissertation/research committee, and the dissertation/research director submits the nominations in writing to the program director. Such committees will consist of a minimum of four graduate faculty members, one of whom will be outside the student's concentration area. The program director will provide written approval of the dissertation/research committee and clear such appointments with the appropriate administrative officials.

##### Dissertation/research standards

The dissertation or publishable research articles must represent independent research and should be based on an original research question or hypothesis. Generally, dissertations or publishable research articles will demonstrate the student's ability with empirical research, adhering to canons of (1) logic in conceptualization and design, (2) valid and reliable measurement, (3) appropriate analytic technique and (4) appropriate interpretation of results. Studies should be based on a formal theoretical or conceptually explicit framework for investigating a question or testing a hypothesis relevant to the allied health field.

### Graduation requirements

As graduate students approach the end of their academic programs and the final semester of matriculation, they must make formal application to graduate. No degrees will be conferred until the application to graduate has been finalized.

Graduate students and program directors should refer to the following graduation requirements as published in the Graduate Bulletin for a complete list of instructions and a graduation checklist.

#### Graduation requirements

#### Program completion requirements

The doctor of philosophy degree is awarded after (1) the minimum 51 credit hours of course work are completed, (2) comprehensive exams are passed, and (3) either a dissertation is written and defended orally or three first-author articles of publishable quality (on research undertaken by the doctoral candidate once enrolled in the program) are written and defended orally. The journal articles will be scrutinized for quality of scholarship by an internal research committee headed

by the student's research adviser. All three articles must be approved by the internal research committee prior to submission.

## Other information

### Student handbook

A student handbook will be made available to all admitted students in their cohort organizations in Blackboard.

### Facilities

The administrative offices for the program are located on the MCV Campus, at 1200 E. Broad St. (West Hospital, First Floor, East Wing).

### Advising

Upon admission to the program, students will be assigned an interim adviser to guide them through the core courses and assist them as they consider their areas of research. All program advisers will have an earned doctorate and be members of the university's graduate faculty.

Students may change their interim advisers as their programs of study and interests evolve, if approved by the program director. Although discouraged, some students may wish to switch their area of concentration (changing from the department through which they were initially admitted to the program). Students who want to change concentration areas must petition the doctoral program director. The petition must be approved by the program director, the DPAC and the appropriate department chair. There is no guarantee that the applicant will be accepted into the new concentration.

After successful completion of the comprehensive examinations, students will choose a dissertation chair that will serve as adviser and guide them through the research/dissertation process.

### Computer requirements

All students admitted to the program must have a personal computer manufactured within the past two years and access to a high-speed Internet connection.

## Admission requirements

Health Related Sciences, Doctor of Philosophy (Ph.D.) with a concentration in nurse anesthesia			
Degree: Ph.D.	Semester(s) of entry: Fall	Deadline dates: Mar 15 (application deadline)	Test requirements: GRE or MAT  Tests must have been taken within the past five years.
<b>Special requirements:</b> When applicable, applicants must have a minimum Test of English as a Foreign Language score of 600. The Ph.D. program in health related sciences utilizes two six-month semesters per year (January through June and July through December), which include both on- and off-campus components.			

In addition to the [general admission requirements of the VCU Graduate School](#), applicants must meet the following criteria:

1. Have an earned master's degree in an academic or allied health-related field from an accredited college or university; preference will be given to applicants who have a minimum cumulative GPA of 3.3 on master's-level work (The master's degree should be in one of the departmental areas of choice of concentration.)
2. Have GRE (verbal, quantitative and analytic writing) or MAT scores from within the past five years
3. Have completed a graduate course in statistics with a minimum grade of B
4. Demonstrate a record of professional competency and success
5. Articulate clear professional and educational goals and written communication skills through the submission of a written essay
6. Have any additional qualifications/certifications of the individual concentrations

Prior to reviewing an application for admission, the program must receive:

1. A completed application form from the applicant, including:
  - a. Three letters of recommendation, two of which preferably are from sources qualified to assess the candidate's academic potential
  - b. A written essay that discusses career goals and the manner in which this doctoral program will enhance those goals and what the applicant expects to contribute to this program
  - c. A curriculum vitae
4. Official transcripts indicating completion of baccalaureate and master's degrees (or equivalent) from an accredited college or university
5. GRE or MAT scores

Incomplete packages may not be reviewed. Materials are sent to the Graduate Admissions office for processing and then forwarded to the School of Allied Health Professions. Once received in the school, the application is reviewed for completeness. Applicants with incomplete files will be contacted regarding the missing materials. Incomplete files will be held in the director's office until all materials are received.

Completed folders will be sent to the respective departmental representative of the School of Allied Health Professions Doctoral Program Advisory Committee. Departments will then rank qualified applicants and, based on a review of the file, a personal interview will be scheduled at the department's discretion for the top candidates. Following the departmental ranking, all files will be returned to the director's office.

The DPAC will meet to select and recommend the incoming class. The director and the dean of the School of Allied Health Professions are responsible for the final decision.

Applicants will be notified by the Graduate Admissions office regarding the admission decision and of the deadline for their acceptance of the offer and holding fee.

## VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

### General academic regulations for all graduate students in all graduate programs at VCU

## Program mission/purpose

The program will provide experienced health professionals with advanced knowledge and skills so that they may assume positions in teaching, research and administration upon graduation. It offers a curriculum with an interdisciplinary core of courses with concentrations in clinical laboratory sciences, gerontology, health care outcomes research, nurse anesthesia, occupational therapy, patient counseling, physical therapy, radiation sciences and rehabilitation leadership. The program emphasizes use of distance-learning technologies combined with traditional didactic methods. The curriculum is relevant, timely and meaningful to a multidisciplinary cohort of students.

## Program goals

1. The program will provide students with the ability to understand and conduct research in health-related sciences.
2. The program will provide the student with the ability to analyze alternatives and develop responses in their disciplines to address the current and future challenges in health care.
3. The program will provide students with the skills to educate health professionals in their discipline using current principles of teaching and curriculum development.

## Student learning outcomes

Students completing this doctoral program will:

1. Demonstrate the ability to conduct research, understand issues, design and execute research plans, analyze research results, and present conclusions in the area of interdisciplinary health care using the appropriate methods
2. Demonstrate an in-depth knowledge in the area of specialization
3. Exhibit competency in translating research knowledge and principles into applied practice perspectives and skills
4. Display educational expertise in current principles and content of the allied health sciences and teach in the area of interdisciplinary health care practice
5. Display the ability to examine current issues and future changes in the health care environment from an interdisciplinary perspective
6. Exhibit knowledge and understanding of professional and ethical responsibility and conduct in the allied health professions
7. Demonstrate knowledge and understanding of the importance of cultural diversity in the delivery of health care and the formulation of health policy

## Degree requirements

In addition to general [VCU Graduate School graduation requirements](#), students must successfully complete a total of 51 credit hours (18 credit hours of common

interdisciplinary core courses, 12 credit hours of research methods core courses, nine credit hours of specialty track courses and 12 credit hours of dissertation research), two comprehensive examinations, a research proposal defense and the final dissertation defense.

### Continuation requirements

After admission to the Ph.D. program, the student must maintain a minimum cumulative GPA of 3.0 in all of the course work completed at VCU. A student who falls below that minimum will have one semester to remedy the deficiency. Even with an overall minimum GPA of 3.0, a student may earn no more than two (six credit hours) grades of C. Students who receive a grade of D or F will be reviewed for continuation in the program by the department of their concentrations.

Students are expected to maintain continuous enrollment while in the program. Following the completion of the core course work, students must register for at least one credit hour each fall and spring semester for continuation in the program. A student who fails to register must have advance approval to do so or will be dropped automatically from the program and must reapply for reinstatement. The maximum time to complete all of the requirements for the degree is eight calendar years from the date of entry into the program.

### Course transfer or waiver

A maximum of 25 percent of the course work other than research may be transferred from another VCU program or outside institution and applied toward the Ph.D. course requirements. Transfer and waiver credit is given at the discretion of the program director after consultation with appropriate faculty members, subject to university approval. Courses taken as requirements for other degrees are not transferable. A waiver may be warranted if an equivalent course was taken. However, another course must be substituted for the waived course in order to fulfill the requisite 51 credit hours needed for degree completion.

### Comprehensive examination

The purpose of the comprehensive examination is to provide a vehicle through which students can demonstrate the ability to integrate their educational experiences by adequately addressing complex questions pertinent to the current and developing knowledge of the allied health fields. Students are eligible to take each of the two comprehensive examinations upon successful completion of the appropriate core course work. The core exam must be taken within six months of completing the methods exam.

Two written examinations will be administered, one for the common interdisciplinary core and one for the research methods core. A three-member graduate faculty committee will develop and administer each exam. This committee will be made up of two members of the core advisory committee and one member appointed by the program director. Each exam will be offered once in the fall semester and once in the spring semester. Prior to completion of the semester in which students become eligible to take each exam, they must submit a formal statement of intent to the program coordinator.

Students who receive a failing grade on the initial attempt will have one opportunity to repeat each comprehensive examination. Failure to pass an exam on the second attempt will result in dismissal from the program.

The proposed curriculum is designed to take four years to complete. Students spend the first two and one-half years (six-month-long semesters) completing course work. The final year and one-half is spent developing the doctoral dissertation. Research components are present in each year of the program, and a research emphasis is present throughout the entire curriculum. Students are required to designate the area of intended research in their concentration areas in the first year.

Each of the five course-work semesters is composed of both on- and off-campus components. On-campus sessions, scheduled during the end of June and beginning of July and at the beginning of January, will employ a rather traditional mix of educational technologies (e.g., lectures, seminars and assigned reading). During the off-campus component of each semester, students pursue their studies employing a wide variety of innovative educational technologies (e.g., computer conferencing, computer-aided instruction, videotape packages and programmed instructional material), in addition to assigned readings and the completion of various assignments and projects. Upon completion of the five semesters of course work, students are required to return to campus each semester until a research proposal has been developed and successfully defended.

The program curriculum consists of a total of 51 credit hours (18 credit hours of common interdisciplinary core courses, 12 credit hours of research methods core

courses, nine hours of specialty concentration courses and 12 hours of dissertation research).

## Degree candidacy requirements

A graduate student admitted to a program or concentration requiring a final research project, work of art, thesis or dissertation, must qualify for continuing master's or doctoral status according to the degree candidacy requirements of the student's graduate program. Admission to degree candidacy, if applicable, is a formal statement by the graduate student's faculty regarding the student's academic achievements and the student's readiness to proceed to the final research phase of the degree program.

Graduate students and program directors should refer to the following degree candidacy policy as published in the VCU Graduate Bulletin for complete information and instructions.

### Degree candidacy requirements

### Admission to candidacy

Students are eligible to begin their dissertations upon written certification by the program director and associate dean of the Graduate School that all predissertation/research requirements, including the comprehensive examinations, have been satisfied and that the student is prepared to proceed with the dissertation/research project. Copies of the certification will be forwarded to the student, the student's formal program adviser and the dean of the School of Allied Health Professions. After admission to candidacy, students will proceed to propose, complete and defend their dissertations or three journal articles research requirement.

### Enrollment requirement

Students are required to maintain continuous enrollment in ALHP 899 Dissertation Research until completion of the requirements, including the defense process.

### Dissertation and published research requirements

#### Dissertation/research committee

After successful completion of the comprehensive exam, the student nominates a dissertation/research committee, and the dissertation/research director submits the nominations in writing to the program director. Such committees will consist of a minimum of four graduate faculty members, one of whom will be outside the student's concentration area. The program director will provide written approval of the dissertation/research committee and clear such appointments with the appropriate administrative officials.

#### Dissertation/research standards

The dissertation or publishable research articles must represent independent research and should be based on an original research question or hypothesis. Generally, dissertations or publishable research articles will demonstrate the student's ability with empirical research, adhering to canons of (1) logic in conceptualization and design, (2) valid and reliable measurement, (3) appropriate analytic technique and (4) appropriate interpretation of results. Studies should be

based on a formal theoretical or conceptually explicit framework for investigating a question or testing a hypothesis relevant to the allied health field.

## Graduation requirements

As graduate students approach the end of their academic programs and the final semester of matriculation, they must make formal application to graduate. No degrees will be conferred until the application to graduate has been finalized.

Graduate students and program directors should refer to the following graduation requirements as published in the Graduate Bulletin for a complete list of instructions and a graduation checklist.

### Graduation requirements

### Program completion requirements

The doctor of philosophy degree is awarded after (1) the minimum 51 credit hours of course work are completed, (2) comprehensive exams are passed, and (3) either a dissertation is written and defended orally or three first-author articles of publishable quality (on research undertaken by the doctoral candidate once enrolled in the program) are written and defended orally. The journal articles will be scrutinized for quality of scholarship by an internal research committee headed by the student's research adviser. All three articles must be approved by the internal research committee prior to submission.

## Other information

### Student handbook

A student handbook will be made available to all admitted students in their cohort organizations in Blackboard.

### Facilities

The administrative offices for the program are located on the MCV Campus, at 1200 E. Broad St. (West Hospital, First Floor, East Wing).

### Advising

Upon admission to the program, students will be assigned an interim adviser to guide them through the core courses and assist them as they consider their areas of research. All program advisers will have an earned doctorate and be members of the university's graduate faculty.

Students may change their interim advisers as their programs of study and interests evolve, if approved by the program director. Although discouraged, some students may wish to switch their area of concentration (changing from the department through which they were initially admitted to the program). Students who want to change concentration areas must petition the doctoral program director. The petition must be approved by the program director, the DPAC and the appropriate department chair. There is no guarantee that the applicant will be accepted into the new concentration.

After successful completion of the comprehensive examinations, students will choose a dissertation chair that will serve as adviser and guide them through the research/dissertation process.

### Computer requirements

All students admitted to the program must have a personal computer manufactured within the past two years and access to a high-speed Internet connection.

Health Related Sciences, Doctor of Philosophy (Ph.D.) with a concentration in gerontology

Health Related Sciences, Doctor of Philosophy (Ph.D.) with a concentration in health care outcomes research

Health Related Sciences, Doctor of Philosophy (Ph.D.) with a concentration in nurse anesthesia

Health Related Sciences, Doctor of Philosophy (Ph.D.) with a concentration in patient counseling

Health Related Sciences, Doctor of Philosophy (Ph.D.) with a concentration in physical therapy

Health Related Sciences, Doctor of Philosophy (Ph.D.) with a concentration in rehabilitation leadership

Health Related Sciences, Doctor of Philosophy (Ph.D.) with a concentration in radiation sciences

Apply online at [graduate.admissions.vcu.edu](http://graduate.admissions.vcu.edu).

## Admission requirements

Health Related Sciences, Doctor of Philosophy (Ph.D.) with a concentration in occupational therapy			
Degree: Ph.D.	Semester(s) of entry: Fall	Deadline dates: Mar 15 (application deadline)	Test requirements: GRE or MAT  Tests must have been taken within the past five years.
<b>Special requirements:</b> When applicable, applicants must have a minimum Test of English as a Foreign Language score of 600. The Ph.D. program in health related sciences utilizes two six-month semesters per year (January through June and July through December), which include both on- and off-campus components.			

In addition to the [general admission requirements of the VCU Graduate School](#), applicants must meet the following criteria:

1. Have an earned master's degree in an academic or allied health-related field from an accredited college or university; preference will be given to applicants who have a minimum cumulative GPA of 3.3 on master's-level work (The master's degree should be in one of the departmental areas of choice of concentration.)
2. Have GRE (verbal, quantitative and analytic writing) or MAT scores from within the past five years
3. Have completed a graduate course in statistics with a minimum grade of B
4. Demonstrate a record of professional competency and success
5. Articulate clear professional and educational goals and written communication skills through the submission of a written essay
6. Have any additional qualifications/certifications of the individual concentrations

Prior to reviewing an application for admission, the program must receive:

1. A completed application form from the applicant, including:
  - a. Three letters of recommendation, two of which preferably are from sources qualified to assess the candidate's academic potential
  - b. A written essay that discusses career goals and the manner in which this doctoral program will enhance those goals and what the applicant expects to contribute to this program
  - c. A curriculum vitae
4. Official transcripts indicating completion of baccalaureate and master's degrees (or equivalent) from an accredited college or university
5. GRE or MAT scores

Incomplete packages may not be reviewed. Materials are sent to the Graduate Admissions office for processing and then forwarded to the School of Allied Health Professions. Once received in the school, the application is reviewed for completeness. Applicants with incomplete files will be contacted regarding the missing materials. Incomplete files will be held in the director's office until all materials are received.

Completed folders will be sent to the respective departmental representative of the School of Allied Health Professions Doctoral Program Advisory Committee. Departments will then rank qualified applicants and, based on a review of the file, a personal interview will be scheduled at the department's discretion for the top candidates. Following the departmental ranking, all files will be returned to the director's office.

The DPAC will meet to select and recommend the incoming class. The director and the dean of the School of Allied Health Professions are responsible for the final decision.

Applicants will be notified by the Graduate Admissions office regarding the admission decision and of the deadline for their acceptance of the offer and holding fee.

## VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

### General academic regulations for all graduate students in all graduate programs at VCU

## Program mission/purpose

The program will provide experienced health professionals with advanced knowledge and skills so that they may assume positions in teaching, research and administration upon graduation. It offers a curriculum with an interdisciplinary core of courses with concentrations in clinical laboratory sciences, gerontology, health care outcomes research, nurse anesthesia, occupational therapy, patient counseling, physical therapy, radiation sciences and rehabilitation leadership. The program emphasizes use of distance-learning technologies combined with traditional didactic methods. The curriculum is relevant, timely and meaningful to a multidisciplinary cohort of students.

## Program goals

1. The program will provide students with the ability to understand and conduct research in health-related sciences.
2. The program will provide the student with the ability to analyze alternatives and develop responses in their disciplines to address the current and future challenges in health care.
3. The program will provide students with the skills to educate health professionals in their discipline using current principles of teaching and curriculum development.

## Student learning outcomes

Students completing this doctoral program will:

1. Demonstrate the ability to conduct research, understand issues, design and execute research plans, analyze research results, and present conclusions in the area of interdisciplinary health care using the appropriate methods
2. Demonstrate an in-depth knowledge in the area of specialization
3. Exhibit competency in translating research knowledge and principles into applied practice perspectives and skills
4. Display educational expertise in current principles and content of the allied health sciences and teach in the area of interdisciplinary health care practice
5. Display the ability to examine current issues and future changes in the health care environment from an interdisciplinary perspective
6. Exhibit knowledge and understanding of professional and ethical responsibility and conduct in the allied health professions
7. Demonstrate knowledge and understanding of the importance of cultural diversity in the delivery of health care and the formulation of health policy

## Degree requirements

In addition to general [VCU Graduate School graduation requirements](#), students must successfully complete a total of 51 credit hours (18 credit hours of common interdisciplinary core courses, 12 credit hours of research methods core courses, nine credit hours of specialty track courses and 12 credit hours of dissertation research), two comprehensive examinations, a research proposal defense and the final dissertation defense.

### Continuation requirements

After admission to the Ph.D. program, the student must maintain a minimum cumulative GPA of 3.0 in all of the course work completed at VCU. A student who falls below that minimum will have one semester to remedy the deficiency. Even with an overall minimum GPA of 3.0, a student may earn no more than two (six credit hours) grades of C. Students who receive a grade of D or F will be reviewed for continuation in the program by the department of their concentrations.

Students are expected to maintain continuous enrollment while in the program. Following the completion of the core course work, students must register for at least one credit hour each fall and spring semester for continuation in the program. A student who fails to register must have advance approval to do so or will be dropped automatically from the program and must reapply for reinstatement. The maximum time to complete all of the requirements for the degree is eight calendar years from the date of entry into the program.

### Course transfer or waiver

A maximum of 25 percent of the course work other than research may be transferred from another VCU program or outside institution and applied toward the Ph.D. course requirements. Transfer and waiver credit is given at the discretion of the program director after consultation with appropriate faculty members, subject to university approval. Courses taken as requirements for other degrees are not transferable. A waiver may be warranted if an equivalent course was taken. However, another course must be substituted for the waived course in order to fulfill the requisite 51 credit hours needed for degree completion.

### Comprehensive examination

The purpose of the comprehensive examination is to provide a vehicle through which students can demonstrate the ability to integrate their educational experiences by adequately addressing complex questions pertinent to the current and developing knowledge of the allied health fields. Students are eligible to take each of the two comprehensive examinations upon successful completion of the appropriate core course work. The core exam must be taken within six months of completing the methods exam.

Two written examinations will be administered, one for the common interdisciplinary core and one for the research methods core. A three-member graduate faculty committee will develop and administer each exam. This committee will be made up of two members of the core advisory committee and one member appointed by the program director. Each exam will be offered once in the fall semester and once in the spring semester. Prior to completion of the semester in which students become eligible to take each exam, they must submit a formal statement of intent to the program coordinator.

Students who receive a failing grade on the initial attempt will have one opportunity to repeat each comprehensive examination. Failure to pass an exam on the second attempt will result in dismissal from the program.

The proposed curriculum is designed to take four years to complete. Students spend the first two and one-half years (six-month-long semesters) completing course work. The final year and one-half is spent developing the doctoral dissertation. Research components are present in each year of the program, and a research emphasis is present throughout the entire curriculum. Students are required to designate the area of intended research in their concentration areas in the first year.

Each of the five course-work semesters is composed of both on- and off-campus components. <b>Degree:</b> Ph.D.	<b>Semester(s) of entry:</b> Fall	<b>Deadline dates:</b> Mar 15 (application deadline)	<b>Test requirements:</b> GRE or MAT  Tests must have been taken within the past five years.
<b>Special requirements:</b> When applicable, applicants must have a minimum Test of English as a Foreign Language score of 600. The Ph.D. program in health related sciences utilizes two six-month semesters per year (January through June and July through December), which include both on- and off-campus components.			

In addition to the [general admission requirements of the VCU Graduate School](#), applicants must meet the following criteria:

1. Have an earned master's degree in an academic or allied health-related field from an accredited college or university; preference will be given to applicants who have a minimum cumulative GPA of 3.3 on master's-level work (The master's degree should be in one of the departmental areas of choice of concentration.)
2. Have GRE (verbal, quantitative and analytic writing) or MAT scores from within the past five years
3. Have completed a graduate course in statistics with a minimum grade of B

4. Demonstrate a record of professional competency and success
5. Articulate clear professional and educational goals and written communication skills through the submission of a written essay
6. Have any additional qualifications/certifications of the individual concentrations

Prior to reviewing an application for admission, the program must receive:

1. A completed application form from the applicant, including:
  - a. Three letters of recommendation, two of which preferably are from sources qualified to assess the candidate's academic potential
  - b. A written essay that discusses career goals and the manner in which this doctoral program will enhance those goals and what the applicant expects to contribute to this program
  - c. A curriculum vitae
4. Official transcripts indicating completion of baccalaureate and master's degrees (or equivalent) from an accredited college or university
5. GRE or MAT scores

Incomplete packages may not be reviewed. Materials are sent to the Graduate Admissions office for processing and then forwarded to the School of Allied Health Professions. Once received in the school, the application is reviewed for completeness. Applicants with incomplete files will be contacted regarding the missing materials. Incomplete files will be held in the director's office until all materials are received.

Completed folders will be sent to the respective departmental representative of the School of Allied Health Professions Doctoral Program Advisory Committee. Departments will then rank qualified applicants and, based on a review of the file, a personal interview will be scheduled at the department's discretion for the top candidates. Following the departmental ranking, all files will be returned to the director's office.

The DPAC will meet to select and recommend the incoming class. The director and the dean of the School of Allied Health Professions are responsible for the final decision.

Applicants will be notified by the Graduate Admissions office regarding the admission decision and of the deadline for their acceptance of the offer and holding fee.

## VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

### General academic regulations for all graduate students in all graduate programs at VCU

## Program mission/purpose

The program will provide experienced health professionals with advanced knowledge and skills so that they may assume positions in teaching, research and administration upon graduation. It offers a curriculum with an interdisciplinary core of courses with concentrations in clinical laboratory sciences, gerontology, health care outcomes research, nurse anesthesia, occupational therapy, patient counseling, physical therapy, radiation sciences and rehabilitation leadership. The

program emphasizes use of distance-learning technologies combined with traditional didactic methods. The curriculum is relevant, timely and meaningful to a multidisciplinary cohort of students.

## Program goals

1. The program will provide students with the ability to understand and conduct research in health-related sciences.
2. The program will provide the student with the ability to analyze alternatives and develop responses in their disciplines to address the current and future challenges in health care.
3. The program will provide students with the skills to educate health professionals in their discipline using current principles of teaching and curriculum development.

## Student learning outcomes

Students completing this doctoral program will:

1. Demonstrate the ability to conduct research, understand issues, design and execute research plans, analyze research results, and present conclusions in the area of interdisciplinary health care using the appropriate methods
2. Demonstrate an in-depth knowledge in the area of specialization
3. Exhibit competency in translating research knowledge and principles into applied practice perspectives and skills
4. Display educational expertise in current principles and content of the allied health sciences and teach in the area of interdisciplinary health care practice
5. Display the ability to examine current issues and future changes in the health care environment from an interdisciplinary perspective
6. Exhibit knowledge and understanding of professional and ethical responsibility and conduct in the allied health professions
7. Demonstrate knowledge and understanding of the importance of cultural diversity in the delivery of health care and the formulation of health policy

## Degree requirements

In addition to general [VCU Graduate School graduation requirements](#), students must successfully complete a total of 51 credit hours (18 credit hours of common interdisciplinary core courses, 12 credit hours of research methods core courses, nine credit hours of specialty track courses and 12 credit hours of dissertation research), two comprehensive examinations, a research proposal defense and the final dissertation defense.

### Continuation requirements

After admission to the Ph.D. program, the student must maintain a minimum cumulative GPA of 3.0 in all of the course work completed at VCU. A student who falls below that minimum will have one semester to remedy the deficiency. Even with an overall minimum GPA of 3.0, a student may earn no more than two (six credit hours) grades of C. Students who receive a grade of D or F will be reviewed for continuation in the program by the department of their concentrations.

Students are expected to maintain continuous enrollment while in the program. Following the completion of the core course work, students must register for at least one credit hour each fall and spring semester for continuation in the program. A student who fails to register must have advance approval to do so or will be dropped automatically from the program and must reapply for reinstatement. The maximum time to complete all of the requirements for the degree is eight calendar years from the date of entry into the program.

### Course transfer or waiver

A maximum of 25 percent of the course work other than research may be transferred from another VCU program or outside institution and applied toward the Ph.D. course requirements. Transfer and waiver credit is given at the discretion of the program director after consultation with appropriate faculty members, subject to university approval. Courses taken as requirements for other degrees are not transferable. A waiver may be warranted if an equivalent course was taken. However, another course must be substituted for the waived course in order to fulfill the requisite 51 credit hours needed for degree completion.

### Comprehensive examination

The purpose of the comprehensive examination is to provide a vehicle through which students can demonstrate the ability to integrate their educational experiences by adequately addressing complex questions pertinent to the current and developing knowledge of the allied health fields. Students are eligible to take each of the two comprehensive examinations upon successful completion of the appropriate core course work. The core exam must be taken within six months of completing the methods exam.

Two written examinations will be administered, one for the common interdisciplinary core and one for the research methods core. A three-member graduate faculty committee will develop and administer each exam. This committee will be made up of two members of the core advisory committee and one member appointed by the program director. Each exam will be offered once in the fall semester and once in the spring semester. Prior to completion of the semester in which students become eligible to take each exam, they must submit a formal statement of intent to the program coordinator.

Students who receive a failing grade on the initial attempt will have one opportunity to repeat each comprehensive examination. Failure to pass an exam on the second attempt will result in dismissal from the program.

The proposed curriculum is designed to take four years to complete. Students spend the first two and one-half years (six-month-long semesters) completing course work. The final year and one-half is spent developing the doctoral dissertation. Research components are present in each year of the program, and a research emphasis is present throughout the entire curriculum. Students are required to designate the area of intended research in their concentration areas in the first year.

Each of the five course-work semesters is composed of both on- and off-campus components. On-campus sessions, scheduled during the end of June and beginning of July and at the beginning of January, will employ a rather traditional mix of educational technologies (e.g., lectures, seminars and assigned reading). During the off-campus component of each semester, students pursue their studies employing a wide variety of innovative educational technologies (e.g., computer conferencing, computer-aided instruction, videotape packages and programmed instructional material), in addition to assigned readings and the completion of various assignments and projects. Upon completion of the five semesters of course work, students are required to return to campus each semester until a research proposal has been developed and successfully defended.

The program curriculum consists of a total of 51 credit hours (18 credit hours of common interdisciplinary core courses, 12 credit hours of research methods core courses, nine hours of specialty concentration courses and 12 hours of dissertation research).

## Degree candidacy requirements

A graduate student admitted to a program or concentration requiring a final research project, work of art, thesis or dissertation, must qualify for continuing master's or doctoral status according to the degree candidacy requirements of the student's graduate program. Admission to degree candidacy, if applicable, is a formal statement by the graduate student's faculty regarding the student's academic achievements and the student's readiness to proceed to the final research phase of the degree program.

Graduate students and program directors should refer to the following degree candidacy policy as published in the VCU Graduate Bulletin for complete information and instructions.

**Degree candidacy requirements****Admission to candidacy**

Students are eligible to begin their dissertations upon written certification by the program director and associate dean of the Graduate School that all predissertation/research requirements, including the comprehensive examinations, have been satisfied and that the student is prepared to proceed with the dissertation/research project. Copies of the certification will be forwarded to the student, the student's formal program adviser and the dean of the School of Allied Health Professions. After admission to candidacy, students will proceed to propose, complete and defend their dissertations or three journal articles research requirement.

**Enrollment requirement**

Students are required to maintain continuous enrollment in ALHP 899 Dissertation Research until completion of the requirements, including the defense process.

**Dissertation and published research requirements****Dissertation/research committee**

After successful completion of the comprehensive exam, the student nominates a dissertation/research committee, and the dissertation/research director submits the nominations in writing to the program director. Such committees will consist of a minimum of four graduate faculty members, one of whom will be outside the student's concentration area. The program director will provide written approval of the dissertation/research committee and clear such appointments with the appropriate administrative officials.

**Dissertation/research standards**

The dissertation or publishable research articles must represent independent research and should be based on an original research question or hypothesis. Generally, dissertations or publishable research articles will demonstrate the student's ability with empirical research, adhering to canons of (1) logic in conceptualization and design, (2) valid and reliable measurement, (3) appropriate analytic technique and (4) appropriate interpretation of results. Studies should be based on a formal theoretical or conceptually explicit framework for investigating a question or testing a hypothesis relevant to the allied health field.

**Graduation requirements**

As graduate students approach the end of their academic programs and the final semester of matriculation, they must make formal application to graduate. No degrees will be conferred until the application to graduate has been finalized.

Graduate students and program directors should refer to the following graduation requirements as published in the Graduate Bulletin for a complete list of instructions and a graduation checklist.

**Graduation requirements****Program completion requirements**

The doctor of philosophy degree is awarded after (1) the minimum 51 credit hours of course work are completed, (2) comprehensive exams are passed, and (3) either a dissertation is written and defended orally or three first-author articles of publishable quality (on research undertaken by the doctoral candidate once enrolled in the program) are written and defended orally. The journal articles will be scrutinized for quality of scholarship by an internal research committee headed by the student's research adviser. All three articles must be approved by the internal research committee prior to submission.

**Other information****Student handbook**

A student handbook will be made available to all admitted students in their cohort organizations in Blackboard.

**Facilities**

The administrative offices for the program are located on the MCV Campus, at 1200 E. Broad St. (West Hospital, First Floor, East Wing).

**Advising**

Upon admission to the program, students will be assigned an interim adviser to guide them through the core courses and assist them as they consider their areas of research. All program advisers will have an earned doctorate and be members of the university's graduate faculty.

Students may change their interim advisers as their programs of study and interests evolve, if approved by the program director. Although discouraged, some students may wish to switch their area of concentration (changing from the department through which they were initially admitted to the program). Students who want to change concentration areas must petition the doctoral program director. The petition must be approved by the program director, the DPAC and the appropriate department chair. There is no guarantee that the applicant will be accepted into the new concentration.

After successful completion of the comprehensive examinations, students will choose a dissertation chair that will serve as adviser and guide them through the research/dissertation process.

**Computer requirements**

All students admitted to the program must have a personal computer manufactured within the past two years and access to a high-speed Internet connection.

## Admission requirements

Health Related Sciences, Doctor of Philosophy (Ph.D.) with a concentration in physical therapy			
Degree: Ph.D.	Semester(s) of entry: Fall	Deadline dates: Mar 15 (application deadline)	Test requirements: GRE or MAT  Tests must have been taken within the past five years.
<b>Special requirements:</b> When applicable, applicants must have a minimum Test of English as a Foreign Language score of 600. The Ph.D. program in health related sciences utilizes two six-month semesters per year (January through June and July through December), which include both on- and off-campus components.			

In addition to the [general admission requirements of the VCU Graduate School](#), applicants must meet the following criteria:

1. Have an earned master's degree in an academic or allied health-related field from an accredited college or university; preference will be given to applicants who have a minimum cumulative GPA of 3.3 on master's-level work (The master's degree should be in one of the departmental areas of choice of concentration.)
2. Have GRE (verbal, quantitative and analytic writing) or MAT scores from within the past five years
3. Have completed a graduate course in statistics with a minimum grade of B
4. Demonstrate a record of professional competency and success
5. Articulate clear professional and educational goals and written communication skills through the submission of a written essay
6. Have any additional qualifications/certifications of the individual concentrations

Prior to reviewing an application for admission, the program must receive:

1. A completed application form from the applicant, including:
  - a. Three letters of recommendation, two of which preferably are from sources qualified to assess the candidate's academic potential
  - b. A written essay that discusses career goals and the manner in which this doctoral program will enhance those goals and what the applicant expects to contribute to this program
  - c. A curriculum vitae
4. Official transcripts indicating completion of baccalaureate and master's degrees (or equivalent) from an accredited college or university
5. GRE or MAT scores

Incomplete packages may not be reviewed. Materials are sent to the Graduate Admissions office for processing and then forwarded to the School of Allied Health Professions. Once received in the school, the application is reviewed for completeness. Applicants with incomplete files will be contacted regarding the missing materials. Incomplete files will be held in the director's office until all materials are received.

Completed folders will be sent to the respective departmental representative of the School of Allied Health Professions Doctoral Program Advisory Committee. Departments will then rank qualified applicants and, based on a review of the file, a personal interview will be scheduled at the department's discretion for the top candidates. Following the departmental ranking, all files will be returned to the director's office.

The DPAC will meet to select and recommend the incoming class. The director and the dean of the School of Allied Health Professions are responsible for the final decision.

Applicants will be notified by the Graduate Admissions office regarding the admission decision and of the deadline for their acceptance of the offer and holding fee.

## VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

**General academic regulations for  
all graduate students in all graduate programs at VCU**

## Program mission/purpose

The program will provide experienced health professionals with advanced knowledge and skills so that they may assume positions in teaching, research and administration upon graduation. It offers a curriculum with an interdisciplinary core of courses with concentrations in clinical laboratory sciences, gerontology, health care outcomes research, nurse anesthesia, occupational therapy, patient counseling, physical therapy, radiation sciences and rehabilitation leadership. The program emphasizes use of distance-learning technologies combined with traditional didactic methods. The curriculum is relevant, timely and meaningful to a multidisciplinary cohort of students.

## Program goals

1. The program will provide students with the ability to understand and conduct research in health-related sciences.
2. The program will provide the student with the ability to analyze alternatives and develop responses in their disciplines to address the current and future challenges in health care.
3. The program will provide students with the skills to educate health professionals in their discipline using current principles of teaching and curriculum development.

## Student learning outcomes

Students completing this doctoral program will:

1. Demonstrate the ability to conduct research, understand issues, design and execute research plans, analyze research results, and present conclusions in the area of interdisciplinary health care using the appropriate methods
2. Demonstrate an in-depth knowledge in the area of specialization
3. Exhibit competency in translating research knowledge and principles into applied practice perspectives and skills
4. Display educational expertise in current principles and content of the allied health sciences and teach in the area of interdisciplinary health care practice
5. Display the ability to examine current issues and future changes in the health care environment from an interdisciplinary perspective
6. Exhibit knowledge and understanding of professional and ethical responsibility and conduct in the allied health professions
7. Demonstrate knowledge and understanding of the importance of cultural diversity in the delivery of health care and the formulation of health policy

## Degree requirements

In addition to general [VCU Graduate School graduation requirements](#), students must successfully complete a total of 51 credit hours (18 credit hours of common

interdisciplinary core courses, 12 credit hours of research methods core courses, nine credit hours of specialty track courses and 12 credit hours of dissertation research), two comprehensive examinations, a research proposal defense and the final dissertation defense.

#### Continuation requirements

After admission to the Ph.D. program, the student must maintain a minimum cumulative GPA of 3.0 in all of the course work completed at VCU. A student who falls below that minimum will have one semester to remedy the deficiency. Even with an overall minimum GPA of 3.0, a student may earn no more than two (six credit hours) grades of C. Students who receive a grade of D or F will be reviewed for continuation in the program by the department of their concentrations.

Students are expected to maintain continuous enrollment while in the program. Following the completion of the core course work, students must register for at least one credit hour each fall and spring semester for continuation in the program. A student who fails to register must have advance approval to do so or will be dropped automatically from the program and must reapply for reinstatement. The maximum time to complete all of the requirements for the degree is eight calendar years from the date of entry into the program.

#### Course transfer or waiver

A maximum of 25 percent of the course work other than research may be transferred from another VCU program or outside institution and applied toward the Ph.D. course requirements. Transfer and waiver credit is given at the discretion of the program director after consultation with appropriate faculty members, subject to university approval. Courses taken as requirements for other degrees are not transferable. A waiver may be warranted if an equivalent course was taken. However, another course must be substituted for the waived course in order to fulfill the requisite 51 credit hours needed for degree completion.

#### Comprehensive examination

The purpose of the comprehensive examination is to provide a vehicle through which students can demonstrate the ability to integrate their educational experiences by adequately addressing complex questions pertinent to the current and developing knowledge of the allied health fields. Students are eligible to take each of the two comprehensive examinations upon successful completion of the appropriate core course work. The core exam must be taken within six months of completing the methods exam.

Two written examinations will be administered, one for the common interdisciplinary core and one for the research methods core. A three-member graduate faculty committee will develop and administer each exam. This committee will be made up of two members of the core advisory committee and one member appointed by the program director. Each exam will be offered once in the fall semester and once in the spring semester. Prior to completion of the semester in which students become eligible to take each exam, they must submit a formal statement of intent to the program coordinator.

Students who receive a failing grade on the initial attempt will have one opportunity to repeat each comprehensive examination. Failure to pass an exam on the second attempt will result in dismissal from the program.

The proposed curriculum is designed to take four years to complete. Students spend the first two and one-half years (six-month-long semesters) completing course work. The final year and one-half is spent developing the doctoral dissertation. Research components are present in each year of the program, and a research emphasis is present throughout the entire curriculum. Students are required to designate the area of intended research in their concentration areas in the first year.

Each of the five course-work semesters is composed of both on- and off-campus components. On-campus sessions, scheduled during the end of June and beginning of July and at the beginning of January, will employ a rather traditional mix of educational technologies (e.g., lectures, seminars and assigned reading). During the off-campus component of each semester, students pursue their studies employing a wide variety of innovative educational technologies (e.g., computer conferencing, computer-aided instruction, videotape packages and programmed instructional material), in addition to assigned readings and the completion of various assignments and projects. Upon completion of the five semesters of course work, students are required to return to campus each semester until a research proposal has been developed and successfully defended.

The program curriculum consists of a total of 51 credit hours (18 credit hours of common interdisciplinary core courses, 12 credit hours of research methods core

courses, nine hours of specialty concentration courses and 12 hours of dissertation research).

## Degree candidacy requirements

A graduate student admitted to a program or concentration requiring a final research project, work of art, thesis or dissertation, must qualify for continuing master's or doctoral status according to the degree candidacy requirements of the student's graduate program. Admission to degree candidacy, if applicable, is a formal statement by the graduate student's faculty regarding the student's academic achievements and the student's readiness to proceed to the final research phase of the degree program.

Graduate students and program directors should refer to the following degree candidacy policy as published in the VCU Graduate Bulletin for complete information and instructions.

### Degree candidacy requirements

### Admission to candidacy

Students are eligible to begin their dissertations upon written certification by the program director and associate dean of the Graduate School that all predissertation/research requirements, including the comprehensive examinations, have been satisfied and that the student is prepared to proceed with the dissertation/research project. Copies of the certification will be forwarded to the student, the student's formal program adviser and the dean of the School of Allied Health Professions. After admission to candidacy, students will proceed to propose, complete and defend their dissertations or three journal articles research requirement.

### Enrollment requirement

Students are required to maintain continuous enrollment in ALHP 899 Dissertation Research until completion of the requirements, including the defense process.

### Dissertation and published research requirements

#### Dissertation/research committee

After successful completion of the comprehensive exam, the student nominates a dissertation/research committee, and the dissertation/research director submits the nominations in writing to the program director. Such committees will consist of a minimum of four graduate faculty members, one of whom will be outside the student's concentration area. The program director will provide written approval of the dissertation/research committee and clear such appointments with the appropriate administrative officials.

#### Dissertation/research standards

The dissertation or publishable research articles must represent independent research and should be based on an original research question or hypothesis. Generally, dissertations or publishable research articles will demonstrate the student's ability with empirical research, adhering to canons of (1) logic in conceptualization and design, (2) valid and reliable measurement, (3) appropriate analytic technique and (4) appropriate interpretation of results. Studies should be

based on a formal theoretical or conceptually explicit framework for investigating a question or testing a hypothesis relevant to the allied health field.

## Graduation requirements

As graduate students approach the end of their academic programs and the final semester of matriculation, they must make formal application to graduate. No degrees will be conferred until the application to graduate has been finalized.

Graduate students and program directors should refer to the following graduation requirements as published in the Graduate Bulletin for a complete list of instructions and a graduation checklist.

### Graduation requirements

### Program completion requirements

The doctor of philosophy degree is awarded after (1) the minimum 51 credit hours of course work are completed, (2) comprehensive exams are passed, and (3) either a dissertation is written and defended orally or three first-author articles of publishable quality (on research undertaken by the doctoral candidate once enrolled in the program) are written and defended orally. The journal articles will be scrutinized for quality of scholarship by an internal research committee headed by the student's research adviser. All three articles must be approved by the internal research committee prior to submission.

## Other information

### Student handbook

A student handbook will be made available to all admitted students in their cohort organizations in Blackboard.

### Facilities

The administrative offices for the program are located on the MCV Campus, at 1200 E. Broad St. (West Hospital, First Floor, East Wing).

### Advising

Upon admission to the program, students will be assigned an interim adviser to guide them through the core courses and assist them as they consider their areas of research. All program advisers will have an earned doctorate and be members of the university's graduate faculty.

Students may change their interim advisers as their programs of study and interests evolve, if approved by the program director. Although discouraged, some students may wish to switch their area of concentration (changing from the department through which they were initially admitted to the program). Students who want to change concentration areas must petition the doctoral program director. The petition must be approved by the program director, the DPAC and the appropriate department chair. There is no guarantee that the applicant will be accepted into the new concentration.

After successful completion of the comprehensive examinations, students will choose a dissertation chair that will serve as adviser and guide them through the research/dissertation process.

### Computer requirements

All students admitted to the program must have a personal computer manufactured within the past two years and access to a high-speed Internet connection.

Health Related Sciences, Doctor of Philosophy (Ph.D.) with a concentration in physical therapy

Health Related Sciences, Doctor of Philosophy (Ph.D.) with a concentration in rehabilitation leadership

**Apply online at [graduate.admissions.vcu.edu](http://graduate.admissions.vcu.edu).**

## Admission requirements

Health Related Sciences, Doctor of Philosophy (Ph.D.) with a concentration in radiation sciences			
Degree: Ph.D.	Semester(s) of entry: Fall	Deadline dates: Mar 15 (application deadline)	Test requirements: GRE or MAT  Tests must have been taken within the past five years.
<b>Special requirements:</b> When applicable, applicants must have a minimum Test of English as a Foreign Language score of 600. The Ph.D. program in health related sciences utilizes two six-month semesters per year (January through June and July through December), which include both on- and off-campus components.			

In addition to the [general admission requirements of the VCU Graduate School](#), applicants must meet the following criteria:

1. Have an earned master's degree in an academic or allied health-related field from an accredited college or university; preference will be given to applicants who have a minimum cumulative GPA of 3.3 on master's-level work (The master's degree should be in one of the departmental areas of choice of concentration.)
2. Have GRE (verbal, quantitative and analytic writing) or MAT scores from within the past five years
3. Have completed a graduate course in statistics with a minimum grade of B
4. Demonstrate a record of professional competency and success
5. Articulate clear professional and educational goals and written communication skills through the submission of a written essay
6. Have any additional qualifications/certifications of the individual concentrations

Prior to reviewing an application for admission, the program must receive:

1. A completed application form from the applicant, including:
  - a. Three letters of recommendation, two of which preferably are from sources qualified to assess the candidate's academic potential
  - b. A written essay that discusses career goals and the manner in which this doctoral program will enhance those goals and what the applicant expects to contribute to this program
  - c. A curriculum vitae
4. Official transcripts indicating completion of baccalaureate and master's degrees (or equivalent) from an accredited college or university
5. GRE or MAT scores

Incomplete packages may not be reviewed. Materials are sent to the Graduate Admissions office for processing and then forwarded to the School of Allied Health Professions. Once received in the school, the application is reviewed for completeness. Applicants with incomplete files will be contacted regarding the missing materials. Incomplete files will be held in the director's office until all materials are received.

Completed folders will be sent to the respective departmental representative of the School of Allied Health Professions Doctoral Program Advisory Committee. Departments will then rank qualified applicants and, based on a review of the file, a personal interview will be scheduled at the department's discretion for the top candidates. Following the departmental ranking, all files will be returned to the director's office.

The DPAC will meet to select and recommend the incoming class. The director and the dean of the School of Allied Health Professions are responsible for the final decision.

Applicants will be notified by the Graduate Admissions office regarding the admission decision and of the deadline for their acceptance of the offer and holding fee.

## VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

### General academic regulations for all graduate students in all graduate programs at VCU

## Program mission/purpose

The program will provide experienced health professionals with advanced knowledge and skills so that they may assume positions in teaching, research and administration upon graduation. It offers a curriculum with an interdisciplinary core of courses with concentrations in clinical laboratory sciences, gerontology, health care outcomes research, nurse anesthesia, occupational therapy, patient counseling, physical therapy, radiation sciences and rehabilitation leadership. The program emphasizes use of distance-learning technologies combined with traditional didactic methods. The curriculum is relevant, timely and meaningful to a multidisciplinary cohort of students.

## Program goals

1. The program will provide students with the ability to understand and conduct research in health-related sciences.
2. The program will provide the student with the ability to analyze alternatives and develop responses in their disciplines to address the current and future challenges in health care.
3. The program will provide students with the skills to educate health professionals in their discipline using current principles of teaching and curriculum development.

## Student learning outcomes

Students completing this doctoral program will:

1. Demonstrate the ability to conduct research, understand issues, design and execute research plans, analyze research results, and present conclusions in the area of interdisciplinary health care using the appropriate methods
2. Demonstrate an in-depth knowledge in the area of specialization
3. Exhibit competency in translating research knowledge and principles into applied practice perspectives and skills
4. Display educational expertise in current principles and content of the allied health sciences and teach in the area of interdisciplinary health care practice
5. Display the ability to examine current issues and future changes in the health care environment from an interdisciplinary perspective
6. Exhibit knowledge and understanding of professional and ethical responsibility and conduct in the allied health professions
7. Demonstrate knowledge and understanding of the importance of cultural diversity in the delivery of health care and the formulation of health policy

## Degree requirements

In addition to general [VCU Graduate School graduation requirements](#), students must successfully complete a total of 51 credit hours (18 credit hours of common interdisciplinary core courses, 12 credit hours of research methods core courses, nine credit hours of specialty track courses and 12 credit hours of dissertation research), two comprehensive examinations, a research proposal defense and the final dissertation defense.

### Continuation requirements

After admission to the Ph.D. program, the student must maintain a minimum cumulative GPA of 3.0 in all of the course work completed at VCU. A student who falls below that minimum will have one semester to remedy the deficiency. Even with an overall minimum GPA of 3.0, a student may earn no more than two (six credit hours) grades of C. Students who receive a grade of D or F will be reviewed for continuation in the program by the department of their concentrations.

Students are expected to maintain continuous enrollment while in the program. Following the completion of the core course work, students must register for at least one credit hour each fall and spring semester for continuation in the program. A student who fails to register must have advance approval to do so or will be dropped automatically from the program and must reapply for reinstatement. The maximum time to complete all of the requirements for the degree is eight calendar years from the date of entry into the program.

### Course transfer or waiver

A maximum of 25 percent of the course work other than research may be transferred from another VCU program or outside institution and applied toward the Ph.D. course requirements. Transfer and waiver credit is given at the discretion of the program director after consultation with appropriate faculty members, subject to university approval. Courses taken as requirements for other degrees are not transferable. A waiver may be warranted if an equivalent course was taken. However, another course must be substituted for the waived course in order to fulfill the requisite 51 credit hours needed for degree completion.

### Comprehensive examination

The purpose of the comprehensive examination is to provide a vehicle through which students can demonstrate the ability to integrate their educational experiences by adequately addressing complex questions pertinent to the current and developing knowledge of the allied health fields. Students are eligible to take each of the two comprehensive examinations upon successful completion of the appropriate core course work. The core exam must be taken within six months of completing the methods exam.

Two written examinations will be administered, one for the common interdisciplinary core and one for the research methods core. A three-member graduate faculty committee will develop and administer each exam. This committee will be made up of two members of the core advisory committee and one member appointed by the program director. Each exam will be offered once in the fall semester and once in the spring semester. Prior to completion of the semester in which students become eligible to take each exam, they must submit a formal statement of intent to the program coordinator.

Students who receive a failing grade on the initial attempt will have one opportunity to repeat each comprehensive examination. Failure to pass an exam on the second attempt will result in dismissal from the program.

The proposed curriculum is designed to take four years to complete. Students spend the first two and one-half years (six-month-long semesters) completing course work. The final year and one-half is spent developing the doctoral dissertation. Research components are present in each year of the program, and a research emphasis is present throughout the entire curriculum. Students are required to designate the area of intended research in their concentration areas in the first year.

Each of the five course-work semesters is composed of both on- and off-campus components. On-campus sessions, scheduled during the end of June and beginning of July and at the beginning of January, will employ a rather traditional mix of educational technologies (e.g., lectures, seminars and assigned reading). During the off-campus component of each semester, students pursue their studies employing a wide variety of innovative educational technologies (e.g., computer conferencing, computer-aided instruction, videotape packages and programmed instructional material), in addition to assigned readings and the completion of various assignments and projects. Upon completion of the five semesters of course work, students are required to return to campus each semester until a research proposal has been developed and successfully defended.

The program curriculum consists of a total of 51 credit hours (18 credit hours of common interdisciplinary core courses, 12 credit hours of research methods core courses, nine hours of specialty concentration courses and 12 hours of dissertation research).

## Degree candidacy requirements

A graduate student admitted to a program or concentration requiring a final research project, work of art, thesis or dissertation, must qualify for continuing master's or doctoral status according to the degree candidacy requirements of the student's graduate program. Admission to degree candidacy, if applicable, is a formal statement by the graduate student's faculty regarding the student's academic achievements and the student's readiness to proceed to the final research phase of the degree program.

Graduate students and program directors should refer to the following degree candidacy policy as published in the VCU Graduate Bulletin for complete information and instructions.

### Degree candidacy requirements

#### Admission to candidacy

Students are eligible to begin their dissertations upon written certification by the program director and associate dean of the Graduate School that all predissertation/research requirements, including the comprehensive examinations, have been satisfied and that the student is prepared to proceed with the dissertation/research project. Copies of the certification will be forwarded to the student, the student's formal program adviser and the dean of the School of Allied Health Professions. After admission to candidacy, students will proceed to propose, complete and defend their dissertations or three journal articles research requirement.

#### Enrollment requirement

Students are required to maintain continuous enrollment in ALHP 899 Dissertation Research until completion of the requirements, including the defense process.

### Dissertation and published research requirements

#### Dissertation/research committee

After successful completion of the comprehensive exam, the student nominates a dissertation/research committee, and the dissertation/research director submits the nominations in writing to the program director. Such committees will consist of a minimum of four graduate faculty members, one of whom will be outside the student's concentration area. The program director will provide written approval of the dissertation/research committee and clear such appointments with the appropriate administrative officials.

#### Dissertation/research standards

The dissertation or publishable research articles must represent independent research and should be based on an original research question or hypothesis. Generally, dissertations or publishable research articles will demonstrate the student's ability with empirical research, adhering to canons of (1) logic in conceptualization and design, (2) valid and reliable measurement, (3) appropriate analytic technique and (4) appropriate interpretation of results. Studies should be based on a formal theoretical or conceptually explicit framework for investigating a question or testing a hypothesis relevant to the allied health field.

## Graduation requirements

As graduate students approach the end of their academic programs and the final semester of matriculation, they must make formal application to graduate. No degrees will be conferred until the application to graduate has been finalized.

Graduate students and program directors should refer to the following graduation requirements as published in the Graduate Bulletin for a complete list of instructions and a graduation checklist.

### Graduation requirements

### Program completion requirements

The doctor of philosophy degree is awarded after (1) the minimum 51 credit hours of course work are completed, (2) comprehensive exams are passed, and (3) either a dissertation is written and defended orally or three first-author articles of publishable quality (on research undertaken by the doctoral candidate once enrolled in the program) are written and defended orally. The journal articles will be scrutinized for quality of scholarship by an internal research committee headed by the student's research adviser. All three articles must be approved by the internal research committee prior to submission.

## Other information

### Student handbook

A student handbook will be made available to all admitted students in their cohort organizations in Blackboard.

### Facilities

The administrative offices for the program are located on the MCV Campus, at 1200 E. Broad St. (West Hospital, First Floor, East Wing).

### Advising

Upon admission to the program, students will be assigned an interim adviser to guide them through the core courses and assist them as they consider their areas of research. All program advisers will have an earned doctorate and be members of the university's graduate faculty.

Students may change their interim advisers as their programs of study and interests evolve, if approved by the program director. Although discouraged, some students may wish to switch their area of concentration (changing from the department through which they were initially admitted to the program). Students who want to change concentration areas must petition the doctoral program director. The petition must be approved by the program director, the DPAC and the appropriate department chair. There is no guarantee that the applicant will be accepted into the new concentration.

After successful completion of the comprehensive examinations, students will choose a dissertation chair that will serve as adviser and guide them through the research/dissertation process.

### Computer requirements

All students admitted to the program must have a personal computer manufactured within the past two years and access to a high-speed Internet connection.

A graduate student admitted to a program or concentration requiring a final research project, work of art, thesis or dissertation, must qualify for continuing master's or doctoral status according to the degree candidacy requirements of the student's graduate program. Admission to degree candidacy, if applicable, is a formal statement by the graduate student's faculty regarding the student's academic achievements and the student's readiness to proceed to the final research phase of the degree program.

Graduate students and program directors should refer to the following degree candidacy policy as published in the VCU Graduate Bulletin for complete information and instructions.

## Degree candidacy requirements

### Admission to candidacy

Students are eligible to begin their dissertations upon written certification by the program director and associate dean of the Graduate School that all predissertation/research requirements, including the comprehensive examinations, have been satisfied and that the student is prepared to proceed with the dissertation/research project. Copies of the certification will be forwarded to the student, the student's formal program adviser and the dean of the School of Allied Health Professions. After admission to candidacy, students will proceed to propose, complete and defend their dissertations or three journal articles research requirement.

### Enrollment requirement

Students are required to maintain continuous enrollment in ALHP 899 Dissertation Research until completion of the requirements, including the defense process.

### Dissertation and published research requirements

#### Dissertation/research committee

After successful completion of the comprehensive exam, the student nominates a dissertation/research committee, and the dissertation/research director submits the nominations in writing to the program director. Such committees will consist of a minimum of four graduate faculty members, one of whom will be outside the student's concentration area. The program director will provide written approval of the dissertation/research committee and clear such appointments with the appropriate administrative officials.

#### Dissertation/research standards

The dissertation or publishable research articles must represent independent research and should be based on an original research question or hypothesis. Generally, dissertations or publishable research articles will demonstrate the student's ability with empirical research, adhering to canons of (1) logic in conceptualization and design, (2) valid and reliable measurement, (3) appropriate analytic technique and (4) appropriate interpretation of results. Studies should be based on a formal theoretical or conceptually explicit framework for investigating a question or testing a hypothesis relevant to the allied health field.

## Graduation requirements

As graduate students approach the end of their academic programs and the final semester of matriculation, they must make formal application to graduate. No degrees will be conferred until the application to graduate has been finalized.

Graduate students and program directors should refer to the following graduation requirements as published in the Graduate Bulletin for a complete list of instructions and a graduation checklist.

## Graduation requirements

### Program completion requirements

The doctor of philosophy degree is awarded after (1) the minimum 51 credit hours of course work are completed, (2) comprehensive exams are passed, and (3) either a dissertation is written and defended orally or three first-author articles of publishable quality (on research undertaken by the doctoral candidate once enrolled in the program) are written and defended orally. The journal articles will be scrutinized for quality of scholarship by an internal research committee headed by the student's research adviser. All three articles must be approved by the internal research committee prior to submission.

## Other information

### Student handbook

A student handbook will be made available to all admitted students in their cohort organizations in Blackboard.

## Facilities

The administrative offices for the program are located on the MCV Campus, at 1200 E. Broad St. (West Hospital, First Floor, East Wing).

## Advising

Upon admission to the program, students will be assigned an interim adviser to guide them through the core courses and assist them as they consider their areas of research. All program advisers will have an earned doctorate and be members of the university's graduate faculty.

Students may change their interim advisers as their programs of study and interests evolve, if approved by the program director. Although discouraged, some students may wish to switch their area of concentration (changing from the department through which they were initially admitted to the program). Students who want to change concentration areas must petition the doctoral program director. The petition must be approved by the program director, the DPAC and the appropriate department chair. There is no guarantee that the applicant will be accepted into the new concentration.

After successful completion of the comprehensive examinations, students will choose a dissertation chair that will serve as adviser and guide them through the research/dissertation process.

## Computer requirements

All students admitted to the program must have a personal computer manufactured within the past two years and access to a high-speed Internet connection.

## Nurse Anesthesia Practice, Doctor of (D.N.A.P.)/Health Related Sciences, Doctor of Philosophy (Ph.D.) with a concentration in nurse anesthesia [sequential degrees]

**Refer to the [program search](#) function of the online VCU Bulletins for a complete listing of all programs, concentrations and related curricular options.**

Health Related Sciences, Doctor of Philosophy (Ph.D.) with a concentration in clinical laboratory sciences

Health Related Sciences, Doctor of Philosophy (Ph.D.) with a concentration in gerontology

Health Related Sciences, Doctor of Philosophy (Ph.D.) with a concentration in health care outcomes research

Health Related Sciences, Doctor of Philosophy (Ph.D.) with a concentration in nurse anesthesia

Health Related Sciences, Doctor of Philosophy (Ph.D.) with a concentration in occupational therapy

Health Related Sciences, Doctor of Philosophy (Ph.D.) with a concentration in patient counseling

Health Related Sciences, Doctor of Philosophy (Ph.D.) with a concentration in physical therapy

Health Related Sciences, Doctor of Philosophy (Ph.D.) with a concentration in radiation sciences

Health Related Sciences, Doctor of Philosophy (Ph.D.) with a concentration in rehabilitation leadership

**Apply online at [graduate.admissions.vcu.edu](http://graduate.admissions.vcu.edu).**

## Admission requirements

Health Related Sciences, Doctor of Philosophy (Ph.D.), Doctor of Nurse Anesthesia Practice (D.N.A.P.) to health related sciences sequential degree concentration			
Degree: Ph.D.	Semester(s) of entry: Fall (begins end of Jun)	Deadline dates: Mar 15 (application deadline)	Test requirements: GRE or MAT  Tests must have been taken within the past five years.
<b>Special requirements:</b> When applicable, applicants must have a minimum Test of English as a Foreign Language score of 600. The Ph.D. program in health related sciences utilizes two six-month semesters per year (January through June and July through December), which include both on- and off-campus components.			

Students interested in the sequential Doctor of Nurse Anesthesia Practice to Ph.D. in Health Related Sciences concentration must first be admitted to the D.N.A.P. program. Matriculated D.N.A.P. students who wish to enter the combined concentration may apply to the Ph.D. program during the semester preceding graduation from the D.N.A.P. program. Applicants must meet the admission requirements and prerequisites of both programs, be enrolled in the D.N.A.P. program and have demonstrated satisfactory academic performance and professionalism.

Refer to the [program search](#) function of the online VCU Bulletins for complete information about the D.N.A.P. program

In addition to the [general admission requirements of the VCU Graduate School](#), applicants to the Ph.D. program must meet the following criteria:

1. Have an earned master's degree in an academic or allied health-related field from an accredited college or university; preference will be given to applicants who have a minimum cumulative GPA of 3.3 on master's-level work (The master's degree should be in one of the departmental areas of choice of concentration.)
2. Have GRE (verbal, quantitative and analytic writing) or MAT scores from within the past five years
3. Have completed a graduate course in statistics with a minimum grade of B
4. Demonstrate a record of professional competency and success
5. Articulate clear professional and educational goals and written communication skills through the submission of a written essay
6. Have any additional qualifications/certifications of the individual concentrations

Prior to reviewing an application for admission, the program must receive:

1. A completed application form from the applicant, including:
  - a. Three letters of recommendation, two of which preferably are from sources qualified to assess the candidate's academic potential
  - b. A written essay that discusses career goals and the manner in which this doctoral program will enhance those goals and what the applicant expects to contribute to this program
  - c. A curriculum vitae
4. Official transcripts indicating completion of baccalaureate and master's degrees (or equivalent) from an accredited college or university
5. GRE or MAT scores

Incomplete packages may not be reviewed. Materials are sent to the Graduate Admissions office for processing and then forwarded to the School of Allied Health Professions. Once received in the school, the application is reviewed for completeness. Applicants with incomplete files will be contacted regarding the missing materials. Incomplete files will be held in the director's office until all materials are received.

Completed folders will be sent to the respective departmental representative of the School of Allied Health Professions Doctoral Program Advisory Committee. Departments will then rank qualified applicants and, based on a review of the file, a personal interview will be scheduled at the department's discretion for the top candidates. Following the departmental ranking, all files will be returned to the director's office.

The DPAC will meet to select and recommend the incoming class. The director and the dean of the School of Allied Health Professions are responsible for the final decision.

Applicants will be notified by the Graduate Admissions office regarding the admission decision and of the deadline for their acceptance of the offer and holding fee.

## VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

### General academic regulations for all graduate students in all graduate programs at VCU

## Program mission/purpose

The Ph.D. in Health Related Sciences program will provide experienced health professionals with advanced knowledge and skills so that they may assume positions in teaching, research and administration upon graduation. It offers a curriculum with an interdisciplinary core of courses with concentrations in clinical laboratory sciences, gerontology, health care outcomes research, nurse anesthesia, occupational therapy, patient counseling, physical therapy, radiation sciences and rehabilitation leadership. The program emphasizes use of distance-learning technologies combined with traditional didactic methods. The curriculum is relevant, timely and meaningful to a multidisciplinary cohort of students.

The sequential D.N.A.P. to Ph.D. concentration meets the growing interest and needs of those D.N.A.P. students who require a research doctorate. The program integrates content specific to the clinical doctorate with content specific to the research doctorate where the Ph.D. portion of the program begins following successful completion of the D.N.A.P. The objective of the program is to prepare certified registered nurse anesthetists holding master's degrees for careers in nurse anesthesia leadership, education and research. Students in this concentration will benefit from taking three courses that are shared between the two individual programs and are able to satisfy program requirements, in part, through distance technology while continuing to maintain their current family and employment obligations.

## Student learning outcomes

Students completing this doctoral program will:

1. Demonstrate the ability to conduct research, understand issues, design and execute research plans, analyze research results, and present conclusions in the area of interdisciplinary health care using the appropriate methods
2. Demonstrate an in-depth knowledge in the area of specialization
3. Exhibit competency in translating research knowledge and principles into applied practice perspectives and skills
4. Display educational expertise in current principles and content of the allied health sciences and teach in the area of interdisciplinary health care practice
5. Display the ability to examine current issues and future changes in the health care environment from an interdisciplinary perspective
6. Exhibit knowledge and understanding of professional and ethical responsibility and conduct in the allied health professions
7. Demonstrate knowledge and understanding of the importance of cultural diversity in the delivery of health care and the formulation of health policy

## Degree requirements

Students in the D.N.A.P. program apply to the Ph.D. in Health Related Sciences program during the last semester in the D.N.A.P. program. Once accepted into the Ph.D. program, students continue with the curriculum as described.

In addition to general [VCU Graduate School graduation requirements](#), students must successfully complete a total of 75 credit hours (33 credit hours from the D.N.A.P. program and 51 credit hours from the Ph.D. program minus nine credit hours for three shared courses). The Ph.D. curriculum includes 18 credit hours of common interdisciplinary core courses, 12 credit hours of research methods core courses, nine credit hours of specialty track (courses shared with the D.N.A.P. program), 12 credit hours of dissertation research, two comprehensive examinations, a research proposal defense and the final dissertation defense.

### Continuation requirements

After admission to the Ph.D. program, the student must maintain a minimum cumulative GPA of 3.0 in all of the course work completed at VCU. A student who falls below that minimum will have one semester to remedy the deficiency. Even with an overall minimum GPA of 3.0, a student may earn no more than two (six credit hours) grades of C. Students who receive a grade of D or F will be reviewed for continuation in the program by the department of their concentrations.

Students are expected to maintain continuous enrollment while in the program. Following the completion of the core course work, students must register for at least one credit hour each fall and spring semester for continuation in the program. A student who fails to register must have advance approval to do so or will be dropped automatically from the program and must reapply for reinstatement. The maximum time to complete all of the requirements for the degree is eight calendar years from the date of entry into the program.

### Course transfer or waiver

A maximum of 25 percent of the course work other than research may be transferred from another VCU program or outside institution and applied toward the degree requirements. Transfer and waiver credit is given at the discretion of the program director after consultation with appropriate faculty members, subject to university approval. Courses taken as requirements for other degrees are not transferable, unless approved as part of a combined degree program. A waiver may be warranted if an equivalent course was taken. However, another course must be substituted for the waived course in order to fulfill the requisite credit hours needed for degree completion.

### Comprehensive examination

The purpose of the comprehensive examination is to provide a vehicle through which students can demonstrate the ability to integrate their educational experiences by adequately addressing complex questions pertinent to the current and developing knowledge of the allied health fields. Students are eligible to take each of the two comprehensive examinations upon successful completion of the appropriate core course work. The core exam must be taken within six months of completing the methods exam.

Two written examinations will be administered, one for the common interdisciplinary core and one for the research methods core. A three-member graduate faculty committee will develop and administer each exam. This committee will be made up of two members of the core advisory committee and one member appointed by the program director. Each exam will be offered once in the fall semester and once in the spring semester. Prior to completion of the semester in which students become eligible to take each exam, they must submit a formal statement of intent to the program coordinator.

Students who receive a failing grade on the initial attempt will have one opportunity to repeat each comprehensive examination. Failure to pass an exam on the second attempt will result in dismissal from the program.

### Curriculum structure

The Ph.D. program curriculum is designed to take four years to complete. Students spend the first two and one-half years (six-month-long semesters) completing course work. The final year and one-half is spent developing the doctoral dissertation. Research components are present in each year of the program, and a research emphasis is present throughout the entire curriculum. Students are

required to designate the area of intended research in their concentration areas in the first year.

Each of the five course-work semesters is composed of both on- and off-campus components. On-campus sessions, scheduled during the end of June and beginning of July and at the beginning of January, will employ a rather traditional mix of educational technologies (e.g., lectures, seminars and assigned reading). During the off-campus component of each semester, students pursue their studies employing a wide variety of innovative educational technologies (e.g., computer conferencing, computer-aided instruction, videotape packages and programmed instructional material), in addition to assigned readings and the completion of various assignments and projects. Upon completion of the five semesters of course work, students are required to return to campus each semester until a research proposal has been developed and successfully defended.

#### Advising

Upon admission to the program, students will be assigned an interim adviser to guide them through the core courses and assist them as they consider their areas of research. All program advisers will have an earned doctorate and be members of the university's graduate faculty.

Students may change their interim advisers as their programs of study and interests evolve, if approved by the program director. Although discouraged, some students may wish to switch their area of concentration (changing from the department through which they were initially admitted to the program). Students who want to change concentration areas must petition the doctoral program director. The petition must be approved by the program director, the DPAC and the appropriate department chair. There is no guarantee that the applicant will be accepted into the new concentration.

After successful completion of the comprehensive examinations, students will choose a dissertation chair that will serve as adviser and guide them through the research/dissertation process.

#### Computer requirements

All students admitted to the program must have access to a personal computer and a DSL or cable modem. Once admitted to the program, it is recommended that students who do not feel proficient in computer skills enroll in a basic computer course to become comfortable with use of the Internet and with the basics of document processing software.

#### Admission to candidacy

Students are eligible to begin their dissertations upon written certification by the program director and associate dean of the Graduate School that all predissertation/research requirements, including the comprehensive examinations, have been satisfied and that the student is prepared to proceed with the dissertation/research project. Copies of the certification will be forwarded to the student, the student's formal program adviser and the dean of the School of Allied Health Professions. After admission to candidacy, students will proceed to propose, complete and defend their dissertations or three journal articles research requirement.

#### Enrollment requirement

Students are required to maintain continuous enrollment in ALHP 899 Dissertation Research until completion of the requirements, including the defense process.

#### Dissertation/research committee

After successful completion of the comprehensive exam, the student nominates a dissertation/research committee, and the dissertation/research director submits the nominations in writing to the program director. Such committees will consist of a minimum of four graduate faculty members, one of whom will be outside the student's concentration area. The program director will provide written approval of the dissertation/research committee and clear such appointments with the appropriate administrative officials.

#### Dissertation/research standards

The dissertation or publishable research articles must represent independent research and should be based on an original research question or hypothesis. Generally, dissertations or publishable research articles will demonstrate the student's ability with empirical research, adhering to canons of (1) logic in conceptualization and design, (2) valid and reliable measurement, (3) appropriate analytic technique and (4) appropriate interpretation of results. Studies should be based on a formal theoretical or conceptually explicit framework for investigating a question or testing a hypothesis relevant to the allied health field.

Dissertation and published research requirements

## Degree candidacy requirements

A graduate student admitted to a program or concentration requiring a final research project, work of art, thesis or dissertation, must qualify for continuing master's or doctoral status according to the degree candidacy requirements of the student's graduate program. Admission to degree candidacy, if applicable, is a formal statement by the graduate student's faculty regarding the student's academic achievements and the student's readiness to proceed to the final research phase of the degree program.

Graduate students and program directors should refer to the following degree candidacy policy as published in the VCU Graduate Bulletin for complete information and instructions.

**Degree candidacy requirements**

## Graduation requirements

As graduate students approach the end of their academic programs and the final semester of matriculation, they must make formal application to graduate. No degrees will be conferred until the application to graduate has been finalized.

Graduate students and program directors should refer to the following graduation requirements as published in the Graduate Bulletin for a complete list of instructions and a graduation checklist.

**Graduation requirements****Program completion requirements**

The doctor of philosophy degree is awarded after (1) the minimum 51 credit hours of course work are completed, (2) comprehensive exams are passed, and (3) either a dissertation is written and defended orally or three first-author articles of publishable quality (on research undertaken by the doctoral candidate once enrolled in the program) are written and defended orally. The journal articles will be scrutinized for quality of scholarship by an internal research committee headed by the student's research adviser. All three articles must be approved by the internal research committee prior to submission.

## Other information

**Student handbook**

A student handbook will be made available to all admitted students in their cohort organizations in Blackboard.

**Facilities**

The administrative offices for the program are located on the MCV Campus, at 1200 E. Broad St. (West Hospital, First Floor, East Wing).

## Department of Clinical Laboratory Sciences

The Department of Clinical Laboratory Sciences supports the philosophy and mission of the university and the School of Allied Health Professions, and provides an environment that nurtures excellence in education, research and service. The programs offered by the department are dedicated to enhancing and promoting clinical laboratory science. The department fosters fair and equitable educational experiences for students of all ages and diverse backgrounds. Strong affiliations with clinical educators and the integration of innovative technology in the academic setting facilitate both the education and research goals of the department.

The department provides students with superior studies in clinical laboratory science, including both theoretical and applied clinical education, and develops problem-solving expertise, leadership capabilities and communication skills. By providing advanced theoretical and technical education, the graduate program serves to maintain and update the competency of laboratory professionals and to prepare students to assume roles as laboratory supervisors, university educators and researchers. A mature, responsible approach to the acquisition of knowledge is cultivated in order to establish continuing intellectual growth and an enthusiasm for the profession.

The department meets the growing health care needs of the community by providing highly competent and professional clinical laboratory scientists who will be able to function effectively upon entrance into the field and be prepared to explore future scientific and technological advances in laboratory science. And the department promotes continued professional development and personal growth for the faculty and staff to fulfill and balance the individual's abilities and aspirations with the departmental, school and institutional mission and needs. Members of the department conduct themselves in a forthright, ethical manner and practice the highest standard of quality performance.

The objectives of the Department of Clinical Laboratory Sciences are:

- To provide an educational program that prepares students to accurately perform and evaluate analytical tests on body fluids, cells and products.
- To foster the development of professional conduct, interpersonal communication skills and ethical principles.
- To develop and promote strategies for lifelong learning and to encourage continued professional growth through research, continued education and active participation in professional societies.

## Administration

**Teresa S. Nadder**

Associate Professor and Department Chair

**Emily M. Hill**

Instructor and Assistant Chair

## History

Clinical laboratory scientists have been trained on the MCV Campus since 1927. However, the Department (formerly school) of Medical Technology was not formally established until 1952, at which time the curriculum included six months of didactic experience with lectures and laboratory sessions held in the department, followed by a six-month rotation through the clinical laboratories. The school offered a certificate and/or bachelor's degree program; the certificate program was discontinued during the 1961-62 school year.

In 1974 the curriculum was expanded to the current two-plus-two year program in which students complete 60 semester hours of prerequisites followed by two years of professional course work. The graduate program in clinical laboratory sciences was started in 1967 to provide advanced education for certified medical technologists/clinical laboratory scientists. In 1985 the program was modified to allow candidates holding a degree in another area of science to obtain graduate education in clinical laboratory sciences.

In 1994, the department name was changed to the Department of Clinical Laboratory Sciences. In 2003, an accelerated track was initiated to integrate the undergraduate and graduate programs, which requires completion of two years of

prerequisites and three years of full-time professional course work, and leads to the simultaneous awarding of both the bachelor's and master's degrees.

## Facilities

The Department of Clinical Laboratory Sciences is located in the Randolph Minor Hall on the MCV Campus. All faculty and clerical offices are located in this facility, as well as student classrooms, general teaching laboratory, computer facilities and a student lounge/reading room.

## Clinical laboratory sciences courses

Descriptions for all courses offered by the university may be accessed through the online courses database at [www.pubapps.vcu.edu/vcucourses](http://www.pubapps.vcu.edu/vcucourses). You may search by unit, subject or keyword, as well as by degree level.

Follow this link to clinical laboratory sciences (CLLS) courses.

### Clinical Laboratory Sciences, Master of Science (M.S.), accelerated Bachelor of Science in Clinical Laboratory Sciences (B.S.) to master's

#### Graduate program director

Clinical Laboratory Sciences, Master of Science (M.S.), advanced master's concentration

Clinical Laboratory Sciences, Master of Science (M.S.), categorical concentration

Health Related Sciences, Doctor of Philosophy (Ph.D.)

Apply online at [graduate.admissions.vcu.edu](http://graduate.admissions.vcu.edu).

## Admission requirements

Clinical Laboratory Sciences, Master of Science (M.S.), accelerated Bachelor of Science in Clinical Laboratory Sciences (B.S.) to master's			
Degree: M.S.	Semester(s) of entry: Spring	Deadline dates: Nov 1	Test requirements: Minimum TOEFL of 600 (paper), 250 (computer) or 100 (IBT); or minimum IELTS score of 7.0 for international students whose native language is not exclusively English  Satisfactory scores on the GRE
Special requirements: Applicants pursuing the accelerated B.S. to M.S. degree program must initially qualify for admission to the B.S. in Clinical Laboratory Sciences degree program.			

The accelerated bachelor's-to-master's-degree program integrates graduate and undergraduate course work and leads to the simultaneous awarding of the Bachelor of Science and Master of Science degrees in clinical laboratory sciences.

In addition to the [general admission requirements of the VCU Graduate School](#), applicants must:

- Initially qualify for admission to the Bachelor of Science in Clinical Laboratory Sciences program
- Complete a minimum of 112.5 undergraduate credit hours, including 60 prerequisite undergraduate credit hours (see admission requirements for the baccalaureate degree program in clinical laboratory sciences in the Undergraduate Bulletin for a list of the specific courses) and 52.5 credit hours of undergraduate professional course work in clinical laboratory sciences

- Have a minimum undergraduate GPA of 3.0 on a 4.0 scale in undergraduate clinical laboratory course work
- Receive a positive recommendation from the Department of Clinical Laboratory Sciences faculty
- Have a satisfactory interview

## VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

### General academic regulations for all graduate students in all graduate programs at VCU

## Program goals

The Department of Clinical Laboratory Sciences provides the student with advanced theoretical and technical education and prepares students to assume roles as laboratory supervisors, educators and researchers.

## Student learning outcomes

- Demonstrated professional and leadership conduct
- Demonstrated ability to research and evaluate laboratory issues

## Degree requirements

In addition to the [general VCU Graduate School graduation requirements](#), students in the accelerated B.S.-to-M.S.-degree program are required to complete:

- A minimum 40 hours of graduate credit hours
- A research study in the form of a thesis or project related to clinical laboratory sciences
- In addition to the basic science requirement, each student may choose an area of secondary emphasis in biomedical research, education, management or business.
  - In lieu of 14 credit hours of discipline-specific courses, students with a secondary emphasis in education, management or business may elect to focus on courses in those areas.
  - No more than 14 graduate credit hours in the area of the secondary emphasis may be applied toward the required curriculum minimum.

Beginning with the first semester of the Bachelor of Science in Clinical Laboratory Sciences program, candidates for the accelerated curriculum are expected to be full-time students and complete both the B.S. and M.S. requirements in three years.

Upon completion of the curriculum, students are eligible to take the ASCP BOC national certification examination for a Medical Laboratory Scientist generalist.

### Degree candidacy requirements

A graduate student admitted to a program or concentration requiring a final research project, work of art, thesis or dissertation, must qualify for continuing master's or doctoral status according to the degree candidacy requirements of the student's graduate program. Admission to degree candidacy, if applicable, is a formal statement by the graduate student's faculty regarding the student's academic achievements and the student's readiness to proceed to the final research phase of the degree program.

Graduate students and program directors should refer to the following degree candidacy policy as published in the VCU Graduate Bulletin for complete information and instructions.

#### Degree candidacy requirements

### Graduation requirements

As graduate students approach the end of their academic programs and the final semester of matriculation, they must make formal application to graduate. No degrees will be conferred until the application to graduate has been finalized.

Graduate students and program directors should refer to the following graduation requirements as published in the Graduate Bulletin for a complete list of instructions and a graduation checklist.

#### Graduation requirements

### Other information

All students will be given a handbook on policies and regulations at orientation.

### Clinical Laboratory Sciences, Master of Science (M.S.), advanced master's concentration

Clinical Laboratory Sciences, Master of Science (M.S.), categorical concentration  
Health Related Sciences, Doctor of Philosophy (Ph.D.)

Apply online at [graduate.admissions.vcu.edu](http://graduate.admissions.vcu.edu).

## Admission requirements

Clinical Laboratory Sciences, Master of Science (M.S.), advanced master's concentration			
Degree: M.S.	Semester(s) of entry: Fall Spring	Deadline dates: Jun 1 Nov 1	Test requirements: Minimum TOEFL of 600 (paper), 250 (computer) or 100 (IBT); or minimum IELTS score of 7.0 for international students whose native language is not exclusively English  Satisfactory scores on the GRE
Special requirements: Applicants holding baccalaureate degrees in clinical laboratory sciences/medical technology and generalist certification by the Board of Certification of the American Society for Clinical Pathology are eligible for the advanced master's concentration.			

In addition to the [general admission requirements of the VCU Graduate School](#), the general entrance requirements for the Master of Science (M.S.) in Clinical Laboratory Sciences for the advanced master's concentration are:

1. Baccalaureate degree from an accredited college or university with a major in clinical laboratory sciences (medical technology)
2. National certification as a medical laboratory scientist or equivalent level
3. Minimum undergraduate GPA of 3.0 on a 4.0 scale for at least the last two years of undergraduate work
4. Three letters of recommendation from employers or recent instructors addressing academic potential
5. Satisfactory interview

## VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

**General academic regulations for  
all graduate students in all graduate programs at VCU**

## Program goals

The Department of Clinical Laboratory Sciences provides students with advanced theoretical and technical education and prepares them to assume roles as laboratory supervisors, educators and researchers.

## Student learning outcomes

1. Demonstrated professional and leadership conduct
2. Demonstrated ability to research and evaluate laboratory issues

## Degree requirements

In addition to the [general VCU Graduate School graduation requirements](#), students in the advanced master's concentration are required to complete:

1. A minimum of 34 graduate credit hours
2. A research study in the form of a thesis or project related to clinical laboratory sciences
  - a. Students selecting the thesis option must complete a minimum of 15 graduate credit hours of discipline-specific sciences and six hours of research.
  - b. Students selecting the project option must complete 18 graduate credit hours of discipline-specific sciences and four hours of research.
3. In addition to the basic science requirement, each student may choose an area of secondary emphasis in biomedical research, education, management or business.
  - a. In lieu of 14 credit hours of discipline-specific courses, students with a secondary emphasis in education, management or business may elect to focus on courses in those areas.
  - b. No more than 14 graduate credit hours in the area of the secondary emphasis may be applied toward the required curriculum minimum.

Full-time candidates require a minimum of two academic years to complete the program. Part-time students must complete all work requirements within six years. An interruption in registration in excess of one semester requires prior approval of the department.

## Curriculum requirements

A minimum total of 34 graduate credit hours are required as follows:

Courses	Credit hours
<b>Core</b>	<b>13</b>

## Admission requirements

Clinical Laboratory Sciences, Master of Science (M.S.), categorical concentration			
Degree:	Semester(s) of entry:	Deadline dates:	Test requirements:
M.S.	Fall Spring	Jun 1 Nov 1	Minimum TOEFL of 600 (paper), 250 (computer) or 100 (IBT); or minimum IELTS score of 7.0 for international students whose native language is not exclusively English  Satisfactory scores on the GRE
<b>Special requirements:</b> Applicants must possess the essential technical abilities and skills described below.			

In addition to the [general admission requirements of the VCU Graduate School](#), the general entrance requirements for the Master of Science in Clinical Laboratory Sciences for the categorical concentration are:

1. Baccalaureate degree from an accredited college or university with a major in biology or chemistry (Other majors may be approved with 12 credits of biology and 12 credits of chemistry completed.)
2. Minimum undergraduate GPA of 3.0 on a 4.0 scale for at least the last two years of undergraduate work
3. Three letters of recommendation from recent instructors or professional references from the applicant's intended field of study addressing the applicant's academic and professional abilities and preparation for graduate study
4. Satisfactory interview
5. Essential functions in clinical laboratory sciences  
The VCU Department of Clinical Laboratory Sciences is responsible for providing education without regard to disability while assuring that academic and technical standards are met.
  - a. Academic standards are met by successfully completing the curriculum for the M.S. in Clinical Laboratory Sciences degree.
  - b. Technical standards represent the essential nonacademic requirements that a student must demonstrate to successfully participate in the M.S. in Clinical Laboratory Sciences degree program. The technical standards for each category identified below are consistent with the expectations of Section 504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act of 1990 and the ADA Amendments Act of 2008. Applicants must possess the following essential technical abilities and skills for admission consideration:
    - i. Manual dexterity: Ability to use hand(s) or prosthetic devices with coordination
    - ii. Fine motor: Ability to manipulate small objects with fingertips or adaptive devices
    - iii. Mobility: Ability to maneuver in the laboratory and around instruments and in patient-care settings
    - iv. Vision: Ability to distinguish red, yellow and blue colors; to distinguish clear from cloudy; and to distinguish objects through a microscope
    - v. Hearing: Ability to hear with assistive devices (i.e., phone receivers, hearing aid, etc.)
    - vi. Speech: Ability to verbally communicate in English
    - vii. Writing: Ability to communicate effectively in written form in English
    - viii. Reading: Ability to read, understand and follow directions printed in English
    - ix. Emotional and physical stability: Ability to work accurately and safely under stress, adapt to changing environments and prioritize tasks

- x. Personal attributes: Must demonstrate integrity, responsibility, tolerance and respect

## VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

### General academic regulations for all graduate students in all graduate programs at VCU

## Program goals

The Department of Clinical Laboratory Sciences provides students with advanced theoretical and technical education and prepares them to assume roles as laboratory supervisors, educators and researchers.

## Student learning outcomes

1. Demonstrated knowledge and proficiency of laboratory tests in specialized area of study
2. Demonstrated professional and leadership conduct
3. Demonstrated ability to research and evaluate laboratory issues

## Degree requirements

The categorical concentration of the Master of Science program provides specialized study, including a clinical practicum, in one of the following areas: clinical chemistry, hematology, microbiology or immunohematology.

In addition to the [general VCU Graduate School graduation requirements](#), students in the categorical concentration are required to complete:

1. A minimum of 34 credit hours of graduate course work while completing undergraduate courses specific to their specializations
2. A six-week clinical practicum in their specialty areas
3. A research study in the form of a thesis or project related to clinical laboratory sciences
4. Students selecting the thesis option must complete a minimum of 15 semester hours of discipline-specific sciences and six hours of research.
5. Students selecting the project option must complete 18 semester hours of discipline-specific sciences and four hours of research.
6. In addition to the basic science requirement, each student may choose an area of secondary emphasis in biomedical research, education, management or business.
7. In lieu of 14 credit hours of discipline-specific courses, students with a secondary emphasis in education, management or business may elect to focus on courses in those areas.
8. No more than 14 credit hours in the area of the secondary emphasis may be applied toward the required curriculum minimum.

Upon completion of the curriculum, students are eligible to take a national certification examination in the area in which they performed their concentrated study.

Full-time candidates require a minimum of two academic years to complete the program. Part-time students must complete all work requirements within six years. An interruption in registration in excess of one semester requires prior approval of the department.

## Curriculum requirements

Courses	Credit hours

**Degree candidacy requirements**

A graduate student admitted to a program or concentration requiring a final research project, work of art, thesis or dissertation, must qualify for continuing master's or doctoral status according to the degree candidacy requirements of the student's graduate program. Admission to degree candidacy, if applicable, is a formal statement by the graduate student's faculty regarding the student's academic achievements and the student's readiness to proceed to the final research phase of the degree program.

Graduate students and program directors should refer to the following degree candidacy policy as published in the VCU Graduate Bulletin for complete information and instructions.

**Degree candidacy requirements****Graduation requirements**

As graduate students approach the end of their academic programs and the final semester of matriculation, they must make formal application to graduate. No degrees will be conferred until the application to graduate has been finalized.

Graduate students and program directors should refer to the following graduation requirements as published in the Graduate Bulletin for a complete list of instructions and a graduation checklist.

**Graduation requirements****Other information**

All students will be given a handbook on policies and regulations at orientation.

**Department of Gerontology**

The mission of the Department of Gerontology is to improve elder care through education.

The basic philosophy of the department is to improve the overall well-being of elders through the development of educational programs that are responsive to the changing psychological, physical, social and political needs of our elderly population. Research, community service and continuing education in gerontology and geriatrics are integral parts of this educational effort.

**Administration**

**E. Ayn Welleford**

Associate Professor and Department Chair

**History**

The Department of Gerontology was founded in 1976. The Master of Science in Gerontology, as well as a postgraduate Certificate in Aging Studies, is offered. The Department of Gerontology became a part of the School of Allied Health Professions in January 1985. As part of the department, the Geriatric Education Center was established Oct. 1, 1985. This center is a multidisciplinary effort involving cooperation of all the health-related professional schools and the College of Humanities and Sciences; the major focus is to promote education in geriatrics and gerontological health care.

**Objectives**

The purpose of this program is threefold: (1) to train qualified professionals to work in administrative, planning, service delivery and instructional and staff development positions in programs and services for the elderly at the national, state and local levels, (2) to provide an opportunity for those studying in other disciplines, and whose work will encompass service to the aged, to integrate their own training with a comprehensive knowledge and understanding of the aging process and (3) to stimulate the design and execution of gerontological research across the multiple disciplines.

**Facilities**

Offices of the Department of Gerontology are located in the Theater Row building at 730 E. Broad St. The Virginia Geriatric Education Center is housed in West Hospital, 1200 E. Broad St., 4th Floor, West Wing.

**Programs**

Seven courses of study are offered:

- A Master of Science in Gerontology degree
- A Certificate in Aging Studies program to meet the needs of persons working with the elderly, but who have no academic training in gerontology
- A combination of the Certificate in Aging Studies program and the Doctor of Physical Therapy degree, offered jointly with the Department of Physical Therapy
- A combination of the Certificate in Aging Studies program and a Master of Social Work degree, offered jointly with the School of Social Work
- A combination of the Certificate in Aging Studies with the Doctor of Pharmacy degree, offered with the School of Pharmacy
- A combination of the Certificate in Aging Studies and a Master of Science in Rehabilitation Counseling, offered jointly with the Department of Rehabilitation Counseling
- A combination of the Certificate in Aging Studies and either the Post-professional Master of Science in Occupational Therapy (M.S.), the Master of Science in Occupational Therapy (M.S.O.T.) or the Post-professional Occupational Therapy Doctorate (O.T.D.)

## Gerontology courses

Descriptions for all courses offered by the university may be accessed through the online courses database at [www.pubapps.vcu.edu/vcucourses](http://www.pubapps.vcu.edu/vcucourses). You may search by unit, subject or keyword, as well as by degree level.

## VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

### General academic regulations for all graduate students in all graduate programs at VCU

#### Program goal

The Department of Gerontology serves the people of the commonwealth of Virginia and the nation by providing educational programs related to understanding of aging and promoting successful aging. The department encourages education through discovery of new knowledge, interdisciplinary interaction, professional behavior and service to the aging network. The

department's primary focus is to prepare individuals for positions in the network of aging services. These gerontologists are educated to serve as supporters of optimal aging for older persons and families and caregivers. The certificate program provides quality education to those who are already working with older adults and wish to enhance their services with formal academic training in gerontology or individuals with training in other professions.

The program's goal is to ensure that graduates will be able to demonstrate the ability to apply core gerontological concepts according to Association for Gerontology in Higher Education Core Concepts.

#### Student learning outcomes

1. Students will understand the biological, psychological and sociological underpinnings of aging in U.S. society.
2. Students will demonstrate understanding of methods and techniques to assist older persons and their families to achieve a successful response to aging.
3. Students will demonstrate an ability to combine their knowledge of gerontology with experience in the aging network and with knowledge of their core professional discipline so as to contribute to the successful delivery of services in the aging network.
4. Students will develop understanding of and will engage in interdisciplinary approaches to issues and problems of aging.
5. Students enrolled in a dual program will engage in interdisciplinary practice in their core disciplines with special emphasis on gerontology.

#### Degree requirements

In addition to general [VCU Graduate School graduation requirements](#), students in the Certificate in Aging Studies program must complete 21 credit hours of work, including 15 credit hours of core courses and six elective credit hours, comprising the following courses offered in the gerontology graduate curriculum:

1. The biology of aging, psychology of aging, social gerontology and research methods form the basic core of the certificate program.
2. Following the completion of these gerontology courses, students may choose two elective gerontology courses after consultation with their faculty advisers. Advisers counsel students as to the courses that would best suit their educational training needs. Students may choose from aging and human values; topical seminars; independent studies; problems, issues and trends in gerontology; recreation, leisure and aging; and other elective courses.
3. In addition to the completion of these prescribed courses, each candidate for a Certificate of Aging Studies is required to satisfactorily complete a project in gerontology on a subject approved by the faculty. This project may be a comprehensive literature review, a research project or a training or demonstration project. Students register for a three-credit hour course in independent studies (GRTY 692) for this project.

## Curriculum requirements

Courses	Credit hours
<b>Required courses</b>	<b>15</b>
GRTY 601 Biological and Physiological Aging	3
GRTY/PSYC 602 Psychology of Aging	3
GRTY 603 Social Gerontology	3
GRTY 605 Social Science Research Methods Applied to Gerontology	3
GRTY 692 Independent Studies	3
<b>Elective courses</b>	<b>6</b>
GRTY 604 Problems, Issues and Trends in Gerontology	3
GRTY 606 Aging and Human Values	3
GRTY 615 Aging and Mental Disorders	3
GRTY 616 Geriatric Rehabilitation	3

GRTY 691 Topical Seminar	3
Other electives approved by adviser	3

**Total graduate credit hours required (minimum) 21**

## Combined Certificate in Aging Studies opportunities for study

The Department of Gerontology, in cooperation with other programs at the university, provides students interested in working with elders or in gerontological settings with the opportunity to complete the Certificate in Aging Studies while also completing requirements for other degree programs. Students must apply separately to the participating programs and must meet all admission and degree requirements for both programs. In some cases, and with the approval of the advisers of both programs, course work in one program may be approved to satisfy a course requirement in another program. (See the complete list above.)

## Degree candidacy requirements

A graduate student admitted to a program or concentration requiring a final research project, work of art, thesis or dissertation, must qualify for continuing master's or doctoral status according to the degree candidacy requirements of the student's graduate program. Admission to degree candidacy, if applicable, is a formal statement by the graduate student's faculty regarding the student's academic achievements and the student's readiness to proceed to the final research phase of the degree program.

Graduate students and program directors should refer to the following degree candidacy policy as published in the VCU Graduate Bulletin for complete information and instructions.

### Degree candidacy requirements

## Graduation requirements

As graduate students approach the end of their academic programs and the final semester of matriculation, they must make formal application to graduate. No degrees will be conferred until the application to graduate has been finalized.

Graduate students and program directors should refer to the following graduation requirements as published in the Graduate Bulletin for a complete list of instructions and a graduation checklist.

### Graduation requirements

## Other information

The program's student handbook is available on the student Blackboard site.

## Admission requirements

Gerontology, Master of Science (M.S.)			
Degree: M.S.	Semester(s) of entry: All semesters	Deadline dates:	Test requirements: GRE or MAT

In addition to the [general admission requirements of the VCU Graduate School](#), applicants must meet the following requirements:

The program is open to qualified students who have earned a baccalaureate degree from an accredited college or university or the equivalent, maintained a minimum GPA of 3.0 and have satisfactory scores on the GRE or MAT. A successful work experience may strengthen the admission credentials of applicants with marginal records.

Because of the diversity of undergraduate majors, candidates for the gerontology program must present evidence of successful completion of undergraduate courses in the following areas:

1. Biological science – minimum of six credit hours
2. Psychology – minimum of three credit hours
3. Sociology, anthropology or social work – minimum of three credit hours
4. Statistics, research methods or equivalent – minimum of three credit hours (Topics covered in this undergraduate course should be equivalent to those outlined for STAT 214 in the VCU courses database.)

Candidates for admission who do not meet these requirements will be expected to complete the required undergraduate course work or to pass challenge examinations by the end of the first year.

## VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

### General academic regulations for all graduate students in all graduate programs at VCU

## Program goal

The Department of Gerontology serves the people of the commonwealth of Virginia and the nation by providing educational programs related to the understanding of aging and promoting successful aging. The department encourages education through discovery of new knowledge, interdisciplinary interaction, professional behavior and service to the aging network. The department's primary focus is to prepare individuals for positions in the network of aging services. These gerontologists are educated to serve as supporters of optimal aging for older persons and families and caregivers. The master's program provides quality education leading to careers as services providers, educators and researchers. The department also provides assistance and services to the community and engages in research and scholarly activities related to gerontology.

The goal of the program is to ensure that students in the program will:

1. Understand the biological, psychological and sociological underpinnings of aging in U.S. society as established by Association for Gerontology in Higher Education core competencies.
2. Gain understanding and respect for the interdisciplinary team process in effective gerontological practice.
3. Through a lifespan biopsychosocialspiritual approach, gain understanding of empirically and theoretically based components contributing to optimal quality of life and performance in late life as well as knowledge and skills in best practices to promote optimal aging across the life span.
4. Gain understanding of the existing aging network across federal, state and local levels. Thorough understanding will enable students to successfully identify their niche in the aging network, contribute to a growing field and deliver effective eldercare services.

## Student learning outcomes

1. Using the Association for Gerontology in Higher Education core content as the foundation of study, students will learn to apply the biological (e.g., wear and tear, programmed senescence, caloric restriction), psychological (e.g., Erikson's Developmental Theory, gerotranscendence, selective optimization with compensation) and sociological theories (e.g., continuity, life course, modernization) of aging to gerontology practice.
2. As students develop a clearer understanding of effective eldercare through the biopsychosocial approach, lifespan perspective and numerous theories within the field (as implicit in AGHE's core competencies), the necessity of geriatric interdisciplinary care becomes more apparent. Students will gain understanding and respect for the interdisciplinary team process in effective gerontological practice and essential role of various disciplines on the care team.
3. Students will demonstrate a thorough understanding of the multiple paths, methods and techniques of optimal aging in order to assist older persons, their families, program providers and policymakers toward the goal of optimal aging. A comprehensive understanding of gerontology core concepts is essential to this goal.
4. Students will demonstrate an understanding of the aging network and will be able to make contributions to community-identified needs through the successful delivery of services in the aging network. Community engagement will take the form of field work, research, grant writing, service learning opportunities, education and training.

## Degree requirements

In addition to general [VCU Graduate School graduation requirements](#), students must complete a 30-credit hour curriculum based on the core curriculum to include either a generalist area of study or one of the following optional specialty areas of study:

**Education:** This specialty area is designed for students interested in teaching or training careers in gerontology. Students electing this specialty area will be prepared to provide instruction to university or community college students, the lay public, professional service providers and older people.

**Health care organization and planning:** (in conjunction with the Department of Health Administration) Upon completing this area of study, students will have a foundation of knowledge in health care organization, health planning, health policy and a macro perspective on the financing of health care. In addition, students will have developed skills in policy analysis and the use of economic tools. Finally, students will broaden their understanding of the political, legal and ethical issues involved in health care organization and planning.

**Psychogeriatrics:** This specialty area, developed jointly with the Department of Psychology, is designed for students interested in working with those older adults and their families who are experiencing psychological difficulty. Students electing this option will be prepared to provide assistance directly to the elderly and their families as well as to consult and train professionals and paraprofessionals to provide more effective mental health services. Training is provided through a combination of specialized didactic instruction and structured field experience in providing direct services, consultation and education.

**Public administration:** Students who elect to pursue courses in the public administration area, developed jointly with the L. Douglas Wilder School of Government and Public Affairs, will, after completion of course work, be able to plan, organize, report and budget for public programs in aging. Grant writing and

program evaluation skills will be developed as well. Students choosing the public administration option may wish to complete the Certificate in Public Management program or the Certificate in Nonprofit Management program.

**Research:** This specialty area is designed for students who would ultimately like to pursue a doctoral degree in the social or behavioral sciences or in one of the health-related sciences in the School of Allied Health Professions. Students who elect the research option must complete a thesis or a paper of publishable quality. Students will obtain a strong background in experimental psychology research design and methodology and a broad background in life-span developmental theory.

**Social services:** This option concentrates on developing specialized knowledge and skills in the provision of services to the elderly, basic understanding and skills in at least one method of social work practice, commitment and ability to participate in the development of strategies and policies relevant to amelioration of social problems of the elderly, and the ability to integrate and use in practice knowledge of individual behavior and social structure with particular reference to the needs of the elderly.

Students should consult with their advisers for guidance with scheduling. It is required that students seek advising to determine how they will complete their five practice elective credit hours.

**Degree candidacy requirements**

A graduate student admitted to a program or concentration requiring a final research project, work of art, thesis or dissertation, must qualify for continuing master's or doctoral status according to the degree candidacy requirements of the student's graduate program. Admission to degree candidacy, if applicable, is a formal statement by the graduate student's faculty regarding the student's academic achievements and the student's readiness to proceed to the final research phase of the degree program.

Graduate students and program directors should refer to the following degree candidacy policy as published in the VCU Graduate Bulletin for complete information and instructions.

**Degree candidacy requirements****Graduation requirements**

As graduate students approach the end of their academic programs and the final semester of matriculation, they must make formal application to graduate. No degrees will be conferred until the application to graduate has been finalized.

Graduate students and program directors should refer to the following graduation requirements as published in the Graduate Bulletin for a complete list of instructions and a graduation checklist.

**Graduation requirements**

## Department of Health Administration

Education in health administration at the university began in 1949 with the establishment of a graduate curriculum in hospital administration. Early graduates received a certificate; the master's degree was awarded beginning in 1955.

These early efforts grew and developed into the Department of Health Administration, which was established in 1972. The department now includes three major programs: (1) Master of Health Administration, (2) Doctor of Philosophy in Health Services Organization and Research, and (3) Professional Master of Science in Health Administration – Online. The department also cooperates with the schools of law of the University of Richmond and Washington and Lee University in offering dual degree programs in health administration and law. In 2001, the dual degree M.D./M.H.A. program was established with the VCU School of Medicine. Both master's programs are fully accredited by the Commission on Accreditation of Healthcare Management Education (CAHME). In addition to these educational programs, the Department of Health Administration has a major research program and is involved in a wide range of public service activities, including continuing studies for health services administrators and other health professionals.

The overall purpose of the Department of Health Administration is to provide educational programs and services related to the organization and administration of health services. In achieving that purpose, the department's principal functions are to provide high-quality education leading to careers in the administration of health care institutions, agencies and systems and to provide advanced training and education for persons who will teach, plan, evaluate and investigate health care policies and medical care systems. Corollary functions are to provide assistance and other services for community organizations and to conduct health services and health policy research.

### Administration

**Carolyn A. Watts**

Arthur Graham Glasgow Professor and Department Chair

**Dolores G. Clement**

Charles P. Cardwell Jr., Professor and Director of Graduate Programs

**Jan P. Clement**

Professor and Director of Ph.D. Program

### Facilities

The department is located in the William Grant House, formerly the Sheltering Arms Hospital, at 1008 E. Clay St., Richmond, VA. The chair's office and the professional graduate programs offices are located on the second floor. The doctor of philosophy program office is located on the third floor of the building.

MCV Hospitals, one of the largest teaching hospitals in the nation, and other clinical facilities of the VCU Medical Center are readily accessible to the department's students and faculty. In addition, the department has clinical affiliations and close working relationships with a large number of health care organizations and agencies in Virginia and throughout the United States. The organizations and agencies are used extensively as clinical facilities in the department's educational programs.

### Health administration courses

Descriptions for all courses offered by the university may be accessed through the online courses database at [www.pubapps.vcu.edu/vcucourses](http://www.pubapps.vcu.edu/vcucourses). You may search by unit, subject or keyword, as well as by degree level.

Follow these links to health administration ([HADM](#)) courses or executive program ([HADE](#)) courses.

### Admission requirements

Health Administration, Master of (M.H.A.)			
Degree: M.H.A.	Semester(s) of entry: Fall	Deadline dates:  Application deadline is Feb 1  Applications received by Dec 1 are given priority for funding	Test requirements: GRE/GMAT scores on verbal and quantitative at or above the 50th percentile  For international students: a TOEFL score of 600 (paper- based), 250 (computer-based) minimum

In addition to the [general admission requirements of the VCU Graduate School](#), applicants must meet the following requirements:

1. Baccalaureate degree from an accredited institution with a 3.0 GPA for all undergraduate work completed
2. Prerequisite course work in microeconomics, financial accounting and business statistics
3. A working knowledge of college-level algebra
4. Transcripts and VCU application forms
5. GRE/GMAT scores on verbal and quantitative at or above the 50th percentile
6. TOEFL scores required for international students
7. Professional resume
8. Three letters of reference
9. Present evidence of personal achievement, scholarship, intellectual ability and professional promise (personal statement)
10. Invited interview with M.H.A. admissions committee

The prerequisite requirements may be met by completing specified courses with a minimum grade of C within the past five years at any accredited college or university.

International applicants must submit evidence of a preapproved residency site in the home country and evidence of financial responsibility.

VCU Honors students are eligible to apply for admission to the M.H.A. program during the junior or senior year of undergraduate study. The application process is the same as for other applicants with the following exceptions: (1) requirements for the GRE or GMAT are waived, (2) application fee is waived and (3) official transcript is not needed (as grades can be accessed in the VCU system). The admission decision will be made by the M.H.A. admissions committee, at which time a place will be reserved for the student, provided the student graduates with honors and completes the prerequisite course work.

Candidates with one to two years of experience are preferred.

## VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

### General academic regulations for all graduate students in all graduate programs at VCU

## Program goal

The specific mission of the Master of Health Administration program is to prepare early careerists for management and leadership positions within complex health care organizations.

The overall purpose of the Department of Health Administration is to provide educational programs and service related to the organization and administration of health services. In achieving that purpose, the department's principal functions are to provide high-quality education leading to careers in the administration of health care institutions, agencies and systems and to provide advanced training and education for persons who will teach, plan, evaluate and investigate health care policies and medical care systems. Corollary functions are to provide assistance and other service for community organization and to conduct health services and health policy research.

The mission of the Department of Health Administration is:

1. Educating the next generation of health administrators and enhancing the skills of the present generation
2. Preparing a new generation of health services researchers and educators
3. Creating and disseminating basic and applied knowledge about the management, organization, financing, function and performance of the health care system
4. Serving people in the public and private sectors of the health care system

These activities, when mutually reinforced among all key people — faculty, staff, students, alumni/ae — elevate the department to a premier status among similar departments in the United States.

## Student learning outcomes

Goal/domain	Competency	Description/learning outcomes
Communication and relationship management:		
	Interpersonal communication	Build collaborative relationships and negotiation skills
	Writing skills	Prepare business communications

### Leadership

Presentation skills	Demonstrate effective oral communication and presentation skills
Leading and managing others	Hold self and others accountable for organizational goal attainment
Change management	Promote and manage change
Ability for honest self-assessment	Demonstrate reflection through self-assessment
Systems thinking	Be able to assess the potential impacts and consequences of decisions in a broad variety of situations
Problem-solving and decision-making	Apply evidence-based decision-making techniques to health care questions

### Professionalism

Personal and professional ethics	Adhere to ethical business principles; exhibit ethical behaviors
Professional and community contribution	Participate in community service; balance professional and personal pursuits
Working in teams	Create, participate in and lead teams, including inter-professionalism

### Knowledge of the health care environment

Health care issues and trends	Demonstrate knowledge of circumstances causing major changes and reform in U.S. health care delivery
Health care legal principles	Discuss and critically analyze health-related legal principles including standards, regulations and risk management.
Health policy	Articulate the impact of select health policies on the delivery of health services
Population health and status assessment	Understand and explain the major factors in health status to health care professionals

### Business and analytical skills

Financial management	Demonstrate the ability to compile and analyze financial data; develop capital, operating and cash flow budgets; analyze investment data; pro forma development
Human resources	Apply methods and techniques related to the management of health care organization employees and professional staff
Organizational dynamics and governance	Understand and be able to explain the roles, responsibilities, structures and influence governing bodies hold in health care organizations
Strategic planning	Ability to perform environmental analysis; discern competitive strategy; formulate business strategy based on evidence
Marketing	Analyze and assess markets, market segmentation, strategy, change and innovation
Information management/ understanding and using technology skills	Apply techniques and methods to plan, design, implement and assess information flow and communication
Quality improvement/ performance improvement	Apply concepts of process improvement and patient safety to relevant problems
Quantitative skills	Analyze data and interpret quantitative information
Planning and managing projects	Design, plan, implement and assess projects related to performance, structure and outcomes of health services
Economic analysis and application	Analyze and apply economic theory and concepts to business decisions

## Degree requirements

In addition to general [VCU Graduate School graduation requirements](#), students are required to complete a total of 59 credit hours (including transfer credit hours, if any) to qualify for the Master of Health Administration degree. This requirement includes 48 credit hours of core course work plus at least three credit hours of elective studies in health administration and related disciplines, such as business administration, urban and regional planning, public health and gerontology. In addition, eight credit hours of practicum course work are required as a part of the administrative residency. The graduate program is designed to provide a balanced combination of academic studies and field experience to enable students to achieve the program's educational goals and become well-prepared to enter the field of health administration.

## Overview and philosophy

The Master of Health Administration program is designed to prepare persons for administrative roles ultimately leading to top-level executive positions in complex health services organizations. The curriculum emphasizes strategic and operational management, thus orienting students toward the broad spectrum of managerial problems and functions likely to be encountered by health services organizations.

The program's educational objectives and content are based upon the premise that a large number of students who select this curriculum aspire to become senior executives of health care organizations at some point in their careers. The graduate M.H.A. program is designed for full-time students.

The M.H.A. program was accredited initially in 1968, one of the first programs in the United States to achieve that status. It has continuously maintained its national accreditation status and in 2011 the program was awarded a six-year accreditation.

The administrative residency/internship is an integral part of VCU's M.H.A. program. The basic purpose of the residency/internship is to provide students opportunities to apply and further develop their administrative knowledge and skills through a period of applied experience in an operational setting. The administrative residency/internship is supervised directly by experienced executives who serve as the students' preceptors.

Through a carefully selected and organized residency/internship experience, students strengthen the foundation of general knowledge and skills gained through the core curriculum and develop further insight and expertise in their selected concentrations. Students serve their residency/internship in the type of health care organization in which they wish to gain specialized knowledge, skills and experience. Overall policies and guidance for the administrative residency/internship are established by the Department of Health Administration and are included in the Handbook for the Administrative Practica: Residencies and Internships.

Students become eligible for entrance into the administrative residency/internship after completing specified course work and achieving an overall GPA of 3.0. Students on academic probation or with any incomplete grades during their final on-campus semester prior to their residency may be, at the discretion of the faculty, prevented from entering their residency although their overall GPA is 3.0 or higher. In addition to meeting the academic requirements, the student must, in the judgment of the faculty, present evidence of readiness for a clinical experience by demonstrating sufficient academic proficiency in the core areas of the curriculum and by demonstrating professional maturity. The director of the M.H.A. program or designee has the responsibility to coordinate residency placements. In making these assignments, the director will consider the preferences of the students, the preferences of the preceptors and the recommendations of faculty advisers.

## Curriculum requirements

Courses	Credit hours
HADM 602 Health System Organization, Financing and Performance	3

Health Administration, Master of (M.H.A.)

Health Administration, Master of (M.H.A.)/Juris Doctor (J.D.) from the University of Richmond or Washington and Lee University [combined]

Health Administration, Master of Science in (M.S.H.A.)  
Medicine, Doctor of (M.D./Health Administration, Master of (M.H.A.)  
[combined]

Apply online at [graduate.admissions.vcu.edu](http://graduate.admissions.vcu.edu).

Advanced study in health administration and information systems is also available through combined degree programs co-sponsored by the department and the School of Business.

The proposed curriculum allows students to earn both the M.H.A. and the M.S. in Information Systems with a total of 78 credit hours rather than the 89 credit hours that would be required to obtain the degrees separately. The dual-degree option offers this credit-hour efficiency by taking advantage of curricular similarities in the two programs and allowing some courses to count toward both sets of requirements. A total of 12 credit hours will count toward both degrees and the M.H.A. foundation courses will be substituted for the business school foundation course requirements for combined degree students. Students in the combined degree program will follow the same schedule as regular M.H.A. students, including the two lockstep years.

Students will take 51 credit hours of health administration courses required for the M.H.A. and nine additional courses (27 credit hours) in the M.S. in Information Systems program, including INFO 610, INFO 620 and INFO 630. Students whose undergraduate degrees are not in information systems may also be required to take additional undergraduate prerequisite courses before taking the graduate information systems courses, as determined by the program adviser. The HADM 612 course taken for the M.H.A. will substitute for INFO 640, normally required for the M.S. in Information Systems degree, and one of the additional information systems courses will also count toward the elective courses in the M.H.A. program. A three-credit-hour, 10-week internship is required and must have substantial global, entrepreneurial and/or experiential components related to both degrees. The six information systems courses to be taken in addition to INFO 610, INFO 620 and INFO 630, must be approved by the program adviser and would normally be selected to satisfy one of the M.S. in Information Systems concentrations.

Courses	Credit hours

Advanced study in health administration and law is available through dual-degree programs co-sponsored by the department and the schools of law at the University of Richmond and at Washington and Lee University. The program leads to the awarding of the Master of Health Administration and Juris Doctor degrees.

Participants are provided the necessary expertise either to represent clients within the health care industry or to function as legal policy-makers or administrators who fully appreciate the legal environment of the health care field. Applicants for this program are required to meet the admission requirements of each program. For information regarding the dual-degree program, contact the director of the program.

The M.H.A. curricula sequence of the M.H.A./J.D. degree is shown below. Students take a total of 48 credit hours of M.H.A. course work that includes a three-credit-hour internship.

Health Administration, Master of (M.H.A.)  
Health Administration, Master of (M.H.A.)/Information Systems, Master of Science (M.S.) [combined]  
Health Administration, Master of (M.H.A.)/Juris Doctor (J.D.) from the University of Richmond or Washington and Lee University [combined]  
Health Administration, Master of Science in (M.S.H.A.)

Students may indicate their interest in the combined program prior to matriculation or during the first three years of the M.D. program.

Advanced study in health administration and medicine is available through a dual-degree program co-sponsored by the Department of Health Administration and the VCU School of Medicine. The program leads to the awarding of the Doctor of Medicine and Master of Health Administration degrees. The objective of the M.D./M.H.A. program is to provide highly motivated medical students the expertise for management and leadership competency in complex health care organizations. The program may be completed in five years. Applicants for this program are required to meet the admission requirements of each program.

For the combined degree program, course work for the M.H.A. is initiated following completion of the first two or three years of the M.D. program, occupies a full academic year (fall, spring and summer) and extends into a second year, and is taken during a hiatus from the third or fourth year of the M.D. program.

Students interested in the program may contact the School of Medicine Office of Curriculum or the director of the M.H.A. program in the Department of Health Administration (School of Allied Health Professions). For additional information refer to the School of Medicine handbook available on the school's Web site at [medschool.vcu.edu](http://medschool.vcu.edu).

The M.H.A. curricular sequence of the M.H.A./M.D. degree is shown below. Students take a total of 43 credit hours of M.H.A. course work that includes a three-credit hour internship.

**Total graduate credit hours required (minimum)** 43

### Typical plan of study

Many students often end up taking more than the minimum number of hours required for a degree program. The total number of hours may vary depending upon the program, nature of research being conducted by a study or in the enrollment or funding status of the student. Students should refer to their program websites and talk with their graduate program directors or advisers for information about typical plans of study and registration requirements.

### Degree candidacy requirements

A graduate student admitted to a program or concentration requiring a final research project, work of art, thesis or dissertation, must qualify for continuing master's or doctoral status according to the degree candidacy requirements of the student's graduate program. Admission to degree candidacy, if applicable, is a formal statement by the graduate student's faculty regarding the student's academic achievements and the student's readiness to proceed to the final research phase of the degree program.

Graduate students and program directors should refer to the following degree candidacy policy as published in the VCU Graduate Bulletin for complete information and instructions.

#### Degree candidacy requirements

### Graduation requirements

As graduate students approach the end of their academic programs and the final semester of matriculation, they must make formal application to graduate. No degrees will be conferred until the application to graduate has been finalized.

Graduate students and program directors should refer to the following graduation requirements as published in the Graduate Bulletin for a complete list of instructions and a graduation checklist.

## Admission requirements

Health Administration, Master of Science in (M.S.H.A.)			
Degree: M.S.H.A.	Semester(s) of entry: Fall	Deadline dates: Mar 1	Test requirements: GRE/GMAT scores on verbal and quantitative at or above the 50th percentile
<p>Applicants who have taken the GRE or GMAT in the past five years may submit previous scores. Those applicants holding certain graduate or professional doctoral degrees (M.D., D.D.S., Pharm.D., Ph.D.) may have the testing requirement waived upon petition.</p> <p>TOEFL scores for international students: score of 600 (paper-based), 250 (computer-based) or 100 (Internet-based) minimum</p>			

In addition to the [general admission requirements of the VCU Graduate School](#), applicants must meet the following requirements:

1. Baccalaureate degree from an accredited institution of higher education with a 2.75 GPA for all undergraduate work completed
2. Transcripts and VCU application forms
3. Five years of professional/managerial/health care experience
4. Employed in the health care field
5. Professional resume
6. Three letters of reference
7. Interview with M.S.H.A. admissions committee

Applicants with less than a 2.75 undergraduate GPA who have exceptional professional experience will be considered for admission on provisional status. If the applicant has completed any graduate studies (even if a degree was not awarded), performance in such course work will be considered in the admission decision.

Prerequisites: No specific previous course work is required for application. Upon formal acceptance, students will be provided, at cost, independent-study modules in three areas (microeconomics, accounting and statistics) to be completed prior to beginning the program. Applicants having acceptable previous course work in microeconomics, accounting and statistics may not be required to complete these modules. Generally, courses must be completed within five years of starting the program. The M.S.H.A. program begins in July for the fall semester.

## VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

### General academic regulations for all graduate students in all graduate programs at VCU

## Program goal

The M.S.H.A. program mission is to prepare practicing professionals for management and leadership positions within complex health care organizations.

The overall purpose of the Department of Health Administration is to provide educational programs and service related to the organization and administration of health services. In achieving that purpose, the department's principal functions are to provide high-quality education leading to careers in the administration of health care institutions, agencies and systems and to provide advanced training and education for persons who will teach, plan, evaluate and investigate health care policies and medical care systems. Corollary functions are to provide assistance and other service for community organization and to conduct health services and health policy research.

The mission of the Department of Health Administration is:

1. Educating the next generation of health administrators and enhancing the skills of the present generation
2. Preparing a new generation of health services researchers and educators
3. Creating and disseminating basic and applied knowledge about the management, organization, financing, function and performance of the health care system
4. Serving people in the public and private sectors of the health care system

These activities, when mutually reinforced among all key people — faculty, staff, students, alumni/ae — elevate the department to a premier status among similar departments in the United States.

The M.S.H.A. program is designed for self-motivated, mature and experienced professionals who are seeking advanced preparation in management and administrative roles that ultimately lead to executive positions in complex health services organizations. The curriculum emphasizes leadership in career progression as well as strategic and operational management of health care organizations.

## Student learning outcomes

Goal/domain	Competency	Description/learning outcomes
<b>Communication and relationship management:</b>	Interpersonal communication	Build collaborative relationships and negotiation skills

<b>Leadership</b>	Writing skills	Prepare business communications	<b>Business and analytical skills</b>		
	Presentation skills	Demonstrate effective oral communication and presentation skills		Financial management	Demonstrate the ability to compile and analyze financial data; develop capital, operating and cash flow budgets; analyze investment data; pro forma development
	Leading and managing others	Hold self and others accountable for organizational goal attainment		Human resources	Apply methods and techniques related to the management of health care organization employees and professional staff
	Change management	Promote and manage change		Organizational dynamics and governance	Understand and be able to explain the roles, responsibilities, structures and influence governing bodies hold in health care organizations
	Ability for honest self-assessment	Demonstrate reflection through self-assessment		Strategic planning	Ability to perform environmental analysis; discern competitive strategy; formulate business strategy based on evidence
	Systems thinking	Be able to assess the potential impacts and consequences of decisions in a broad variety of situations		Marketing	Analyze and assess markets, market segmentation, strategy, change and innovation
<b>Professionalism</b>	Problem-solving and decision-making	Apply evidence-based decision-making techniques to health care questions		Information management/ understanding and using technology skills	Apply techniques and methods to plan, design, implement and assess information flow and communication
	Personal and professional ethics	Adhere to ethical business principles; exhibit ethical behaviors		Quality improvement/ performance improvement	Apply concepts of process improvement and patient safety to relevant problems
	Professional and community contribution	Participate in community service; balance professional and personal pursuits		Quantitative skills	Analyze data and interpret quantitative information
<b>Knowledge of the health care environment</b>	Working in teams	Create, participate in and lead teams, including inter-professionalism		Planning and managing projects	Design, plan, implement and assess projects related to performance, structure and outcomes of health services
	Health care issues and trends	Demonstrate knowledge of circumstances causing major changes and reform in U.S. health care delivery		Economic analysis and application	Analyze and apply economic theory and concepts to business decisions
	Health care legal principles	Discuss and critically analyze health-related legal principles including standards, regulations and risk management.	<b>Degree requirements</b>		
	Health policy	Articulate the impact of select health policies on the delivery of health services			
	Population health and status assessment	Understand and explain the major factors in health status to health care professionals			
			<p>The M.S.H.A. program is designed to meet the distinctive needs of the experienced health care professional. Courses develop business skills for the unique health care environment so that students are prepared to meet the challenges of the health care marketplace. Classes draw upon the knowledge of the faculty and the diverse group of experienced professionals enrolled.</p> <p>In addition to general <a href="#">VCU Graduate School graduation requirements</a>, students are required to complete 14 courses, a total of 41 credit hours (including transfer credit hours, if any), to qualify for the Master of Science in Health Administration degree. Each semester is composed of both on-campus and off-campus sessions.</p>		

During the six, approximately week-long, on-campus sessions, students attend professional program classes on the MCV Campus. During off-campus sessions, students continue studies at their homes or work sites, employing a variety of online technologies. Students must successfully complete an integrative capstone case to complete the degree. The competency model utilized by the M.S.H.A. program is operationalized in curricular offerings in the development of learning objectives for individual courses.

## Admission requirements

Health Services Organization and Research, Doctor of Philosophy (Ph.D.)			
Degree: Ph.D.	Semester(s) of entry: Fall only	Deadline dates: Mar 15  Applications received by Dec 15 are given priority for funding  (Applications reviewed throughout year)	Test requirements: GRE or GMAT  International students: TOEFL
Special requirements: Candidates with one to two years' experience in the health care industry preferred			
A part-time enrollment option, which requires three years of course work prior to the dissertation research, is also available.			

In addition to the [general admission requirements of the VCU Graduate School](#), applicants must meet the following minimum acceptable standards for admission:

1. Graduate degree (in an academic or professional field) with a minimum GPA of B
2. Working knowledge of college-level algebra
3. Advanced courses in statistics and economics
4. GRE/GMAT scores on verbal and quantitative at or above the 50th percentile
5. TOEFL scores required for international students
6. Transcripts and VCU application forms
7. Three letters of reference
8. Personal interview with HSOR admissions committee

### VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty

of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

### General academic regulations for all graduate students in all graduate programs at VCU

## Program goal

The Ph.D. in Health Services Organization and Research program is designed to prepare individuals for careers in teaching, research and consulting at the highest level of capability in the field of health care organizational analysis and health services research. Graduates will be competitive for positions at the nation's top research and teaching institutions, governmental agencies and health care organizations.

## Student learning outcomes

## Dimension

Foundational knowledge of health care	Display comprehensive knowledge of the context of health care systems, institutions, actors and environment
Theoretical knowledge	Apply organizational theoretical and conceptual models relevant to health services research
Generate research questions and hypotheses	Review, critique and synthesize a body of research, identifying significant gaps in knowledge, methods and study subjects to develop research questions and testable hypotheses
Study design	Select appropriate interventional (experimental and quasi-experimental) or observational (quantitative, qualitative or mixed) study designs to address health services research questions Use a conceptual model to specify study constructs and develop valid and reliable variables to measure the constructs
Data collection and management	Sample and collect primary health and health care data and/or assemble and manage existing data from public or private sources
Ethical conduct of research	Describe procedures that ensure the ethical and responsible conduct and dissemination of research
Data analysis and interpretation	Apply rigorous quantitative and qualitative analytical strategies to specific research questions Demonstrate ability to interpret results of data analysis
Communication and knowledge transfer	Effectively communicate issues, research findings and implications of health services research verbally and in writing to appropriate professional, scientific, student, policy and lay audiences
Integration	Develop and conduct original research that includes identifying the research question, selecting the theoretical framework, developing a study design, using appropriate methodologies, conducting the analysis and interpreting the results

The doctoral program is designed to meet the professional development needs of:

1. Researchers, educators and policy analysts who want to develop in-depth theoretical and research capabilities about health services organizations
2. Clinical professionals who want to acquire a broader perspective on health care organizations and systems and to develop applied research skills in health services organization
3. Administrative professionals who want to prepare for positions as consultants or researchers in complex health organizations

## Degree requirements

In addition to general [VCU Graduate School graduation requirements](#), students must complete a minimum of 57 credit hours of course work. This includes 48 hours in four major areas of study and nine hours of dissertation study. Students take two written comprehensive examinations, covering health services organization and theory and health services research methods. Nine credit hours of foundation course work are required, in three courses covering health care organization, health economics, and health care financing and delivery systems. The program director and admissions committee may waive some of these courses. However, the credit hours required for the program are not reduced.

## Curriculum requirements

Courses	Credit hours
<b>Foundation courses</b>	<b>9</b>
HADM 602 Health System Organization, Financing and Performance	3
HADM 624 Health Economics	3
HADM 702 Health Care Financing and Delivery Systems	3
<b>Health services organization theory courses</b>	<b>12</b>
HADM 701 Organizational Behavior for Health Services Research	3
HADM 704 Foundations of Health Service Organization Theory	3
HADM 705 Advanced Health Service Organization Theory	3
Theory elective (See list below.)	3
<b>Health services research methods courses</b>	<b>18</b>
Includes content on such topics as design and analysis, research methods, causal thinking, and multivariate statistical analysis	
ECON 501 Introduction to Econometrics	3
ECON 612 Econometrics	3
HADM 760 Quantitative Analysis of Health Care Data	3
HADM 761 Health Services Research Methods I	3
HADM 763 Health Program Evaluation	3
Method electives (See list below.)	3
<b>Specialization courses</b>	
With adviser's assistance, students choose three elective courses that comprise an area of specialization. Courses are generally drawn from other VCU programs and independent study with department faculty. (See list below.)	<b>9</b>
<b>Dissertation research</b>	<b>9 (minimum)</b>

## Degree candidacy requirements

A graduate student admitted to a program or concentration requiring a final research project, work of art, thesis or dissertation, must qualify for continuing master's or doctoral status according to the degree candidacy requirements of the student's graduate program. Admission to degree candidacy, if applicable, is a formal statement by the graduate student's faculty regarding the student's academic achievements and the student's readiness to proceed to the final research phase of the degree program.

Graduate students and program directors should refer to the following degree candidacy policy as published in the VCU Graduate Bulletin for complete information and instructions.

### Degree candidacy requirements

## Graduation requirements

As graduate students approach the end of their academic programs and the final semester of matriculation, they must make formal application to graduate. No degrees will be conferred until the application to graduate has been finalized.

Graduate students and program directors should refer to the following graduation requirements as published in the Graduate Bulletin for a complete list of instructions and a graduation checklist.

### Graduation requirements

## Other information

All enrolled students will be provided a handbook at orientation.

## Department of Nurse Anesthesia

The program was first organized in 1969 as the School of Nurse Anesthetists, thus becoming the first academic program to be implemented in the newly organized School of Allied Health Professions on the MCV Campus.

A letter of intent for a proposed Master of Science in Nurse Anesthesia program was submitted to the commonwealth's Council on Higher Education in 1977. When approved in May 1978, the graduate degree in nurse anesthesia became the first such offering within the profession of nurse anesthesia. While of major

importance to the university, it marked a significant milestone for the profession of nurse anesthesia. The first class of graduate students was admitted in the fall of 1979 and graduated in the fall of 1981. A second hallmark was achieved in 2007 with approval of the Doctor of Nurse Anesthesia Practice program. The DNAP program is the first post-master's practice doctorate for Certified Registered Nurse Anesthetists. A separate combined-degree track is available for students enrolled in the Master of Science in Nurse Anesthesia program. The first students matriculated in the combined degree MSNA-DNAP program in 2007 and the first CRNAs entered the post-master's DNAP program in January 2008.

## Administration

**Michael D. Fallacaro**

Professor and Department Chair

## Mission and philosophy

### Mission

The mission of Virginia Commonwealth University is to provide a fertile and stimulating environment for learning, teaching, research, creative expression and public service. Essential to the life of the university is a faculty actively engaged in scholarship and creative exploration — activities that increase knowledge and understanding of the world and that inspire and enrich teaching.

The university is dedicated the educating full- and part-time students of all ages and diverse backgrounds in an atmosphere of free inquiry and scholarship so that they may realize their full potential as informed, productive citizens with a lifelong commitment to learning and service.

The mission of the Department of Nurse Anesthesia is to provide learners with the knowledge and skills necessary to serve the public through the delivery of safe, cost-efficient, quality anesthesia services and to develop leaders and scholars who will advance the specialty of nurse anesthesia through research, scholarship and public service. The department will achieve this mission by establishing an environment that values excellence, stimulates creativity and recognizes achievement.

### Philosophy

The philosophy of the department reflects the core values of the faculty and provides the foundation for the curriculum. The department's philosophy is synergistic with the mission and goals of VCU and the School of Allied Health Professions.

The department is a social agency dedicated to the education and development of health care professionals in the specialty of nurse anesthesia. Consequently, the faculty recognizes and accepts the responsibility entrusted to it for the learning experiences for its graduate students.

The philosophical orientation of the faculty subscribes to the belief that learning is a developmental process through which cognitive, affective and psychomotor behaviors are developed and modified. This process includes the acquisition of information, the transfer and application of knowledge, the evaluation of new skills, and the development of a professional attitude and bearing.

The faculty subscribes to the belief that the learning process is both positive and rewarding for the student; that it is a transaction between the student and teacher executed through formal and informal processes with an objective to prepare knowledgeable and skillful graduates. Hence, learning is a lifelong process that results in a change in thinking, valuing and behaving. The educational process includes teacher-learner interaction in setting goals, selecting and assessing learning experiences, determining instructional methods, and evaluating the learner's progress. Learning experiences are designed to facilitate continuity in attainment of knowledge, skills and attitudes consistent with educational objectives, the individual needs of students and safe patient care. Students are respected as unique individuals possessing dignity, worth and the right to equity in educational opportunities. Faculty and students share the responsibility for creating an educational climate that reflects democratic values, fosters intellectual inquiry and creativity, and encourages the maximum development of each individual's potential.

The American health care system is becoming progressively complex. Technological advances and changing economic patterns foster competition for scarce resources while the patient population is becoming quite diverse. As a result, the role of the CRNA is becoming increasingly collaborative and complementary with other health professionals. In this environment, CRNAs have

more responsibility and authority for coordination, decision-making and leadership of the multidisciplinary team, as well as for research, planning and development of health resources.

Graduate education in nurse anesthesia at the master's level builds upon baccalaureate education with a nursing focus. It is designed to allow graduates the opportunity to become leaders and make significant contributions with the intended outcome of improving health care and advancing nurse anesthesia theory and practice through research. Consequently, the program prepares CRNAs through a team concept of a joint practice of anesthesia care composed of both nursing and medical components to meet the current and emerging health needs of society.

## Nurse anesthesia courses

Descriptions for all courses offered by the university may be accessed through the online courses database at [www.pubapps.vcu.edu/vcucourses](http://www.pubapps.vcu.edu/vcucourses). You may search by unit, subject or keyword, as well as by degree level.

Follow these links to nurse anesthesia ([NRSA](#)) courses or the ([NRSZ](#)) laboratory.

## Admission requirements

Nurse Anesthesia Practice, Doctor of (D.N.A.P.)			
Degree: D.N.A.P.	Semester(s) of entry: Fall only	Deadline dates: Mar 1	Test requirements: Graduate Record Examination within five years of application
Special requirements: Review of applications is ongoing. Preference is given to those received prior to March 1 for fall entry.			

In addition to the [general admission requirements of the VCU Graduate School](#), applicants must present the following minimum qualifications:

1. A graduate degree from an accredited university
2. Graduation from a nurse anesthesia educational program accredited by the Council on Accreditation of Nurse Anesthesia Educational Programs
3. Certification by the National Board of Certification and Recertification for Nurse Anesthetists
4. Recertification by the National Board of Certification and Recertification for Nurse Anesthetists (if applicable)
5. Current licensure as a registered nurse and advanced practice nurse (as applicable)

6. A minimum cumulative graduate GPA of 3.0 on a 4.0 scale
7. Graduate Record Examination General Test within five years of application
8. Personal statement including:
  - a. Reasons for seeking this educational opportunity
  - b. Career goals and how this degree will aid in that process
  - c. Prior lifework experience that will contribute to your success in the program
  - d. Potential areas of interest for the capstone project
5. Completed Graduate School application
6. Three professional references
7. Personal interview (by invitation)

### VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

#### General academic regulations for all graduate students in all graduate programs at VCU

### Program goal

The mission of the Department of Nurse Anesthesia is to provide learners with the knowledge and skills necessary to work as part of an interprofessional team to serve the public through the delivery of safe, cost-efficient, quality anesthesia services and to develop leaders and scholars who will advance the specialty of nurse anesthesia through research, scholarship and public service. The department achieves this mission by establishing an environment that values excellence, stimulates creativity and recognizes achievement.

### Student learning outcomes

The overall objective of the Doctor of Nurse Anesthesia Practice program is to prepare graduates who have acquired knowledge, skills and competencies in patient safety, perianesthetic management, critical thinking and communication to fulfill their professional responsibility as certified nurse anesthetists.

Upon completion of the program, the graduate will:

1. Apply physiological, safety and organizational theories to promote patient safety, enhance quality care and improve nurse anesthesia practice
2. Analyze and synthesize relevant scientific literature and apply results to improve nurse anesthesia practice and patient care outcomes in a culturally sensitive manner
3. Communicate effectively with patients, families, the public and other health professionals
4. Demonstrate leadership skills to meet the challenges of increasingly complex health care and educational environments impacting nurse anesthetists
5. Develop effective strategies for managing ethical dilemmas inherent in anesthesia patient care and the workplace
6. Employ teaching and learning principles for the nurse anesthetist in educating and counseling individuals, families, students-in-training and groups
7. Demonstrate nurse anesthesia scholarship through presentations, publications, leadership activities and collaboration with other disciplines
8. Utilize technology and information systems to analyze, manage and present data

### Degree requirements

In addition to general [VCU Graduate School graduation requirements](#), candidates for the degree of Doctor of Nurse Anesthesia Practice must be recommended by the faculty and:

1. Complete all requirements for the prescribed curriculum
2. Complete a capstone project
3. Earn a minimum GPA of 3.0 in all courses
4. Earn a minimum cumulative GPA of 3.0 in all work presented for graduation

Health Related Sciences, Doctor of Philosophy (Ph.D.) with a concentration in physical therapy

Health Related Sciences, Doctor of Philosophy (Ph.D.) with a concentration in radiation sciences

Health Related Sciences, Doctor of Philosophy (Ph.D.) with a concentration in rehabilitation leadership

**Apply online at [graduate.admissions.vcu.edu](http://graduate.admissions.vcu.edu).**

## Admission requirements

Health Related Sciences, Doctor of Philosophy (Ph.D.), Doctor of Nurse Anesthesia Practice (D.N.A.P.) to health related sciences sequential degree concentration			
Degree:	Semester(s) of entry:	Deadline dates:	Test requirements:
Ph.D.	Fall (begins end of Jun)	Mar 15 (application deadline)	GRE or MAT  Tests must have been taken within the past five years.
<b>Special requirements:</b> When applicable, applicants must have a minimum Test of English as a Foreign Language score of 600. The Ph.D. program in health related sciences utilizes two six-month semesters per year (January through June and July through December), which include both on- and off-campus components.			

Students interested in the sequential Doctor of Nurse Anesthesia Practice to Ph.D. in Health Related Sciences concentration must first be admitted to the D.N.A.P. program. Matriculated D.N.A.P. students who wish to enter the combined concentration may apply to the Ph.D. program during the semester preceding graduation from the D.N.A.P. program. Applicants must meet the admission requirements and prerequisites of both programs, be enrolled in the D.N.A.P. program and have demonstrated satisfactory academic performance and professionalism.

Refer to the [program search](#) function of the online VCU Bulletins for complete information about the D.N.A.P. program

In addition to the [general admission requirements of the VCU Graduate School](#), applicants to the Ph.D. program must meet the following criteria:

1. Have an earned master's degree in an academic or allied health-related field from an accredited college or university; preference will be given to applicants who have a minimum cumulative GPA of 3.3 on master's-level work (The master's degree should be in one of the departmental areas of choice of concentration.)
2. Have GRE (verbal, quantitative and analytic writing) or MAT scores from within the past five years
3. Have completed a graduate course in statistics with a minimum grade of B
4. Demonstrate a record of professional competency and success
5. Articulate clear professional and educational goals and written communication skills through the submission of a written essay
6. Have any additional qualifications/certifications of the individual concentrations

Prior to reviewing an application for admission, the program must receive:

1. A completed application form from the applicant, including:
  - a. Three letters of recommendation, two of which preferably are from sources qualified to assess the candidate's academic potential
  - b. A written essay that discusses career goals and the manner in which this doctoral program will enhance those goals and what the applicant expects to contribute to this program
  - c. A curriculum vitae
4. Official transcripts indicating completion of baccalaureate and master's degrees (or equivalent) from an accredited college or university
5. GRE or MAT scores

Incomplete packages may not be reviewed. Materials are sent to the Graduate Admissions office for processing and then forwarded to the School of Allied Health Professions. Once received in the school, the application is reviewed for completeness. Applicants with incomplete files will be contacted regarding the missing materials. Incomplete files will be held in the director's office until all materials are received.

Completed folders will be sent to the respective departmental representative of the School of Allied Health Professions Doctoral Program Advisory Committee. Departments will then rank qualified applicants and, based on a review of the file, a personal interview will be scheduled at the department's discretion for the top candidates. Following the departmental ranking, all files will be returned to the director's office.

The DPAC will meet to select and recommend the incoming class. The director and the dean of the School of Allied Health Professions are responsible for the final decision.

Applicants will be notified by the Graduate Admissions office regarding the admission decision and of the deadline for their acceptance of the offer and holding fee.

## VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

### General academic regulations for all graduate students in all graduate programs at VCU

## Program mission/purpose

The Ph.D. in Health Related Sciences program will provide experienced health professionals with advanced knowledge and skills so that they may assume positions in teaching, research and administration upon graduation. It offers a curriculum with an interdisciplinary core of courses with concentrations in clinical laboratory sciences, gerontology, health care outcomes research, nurse anesthesia, occupational therapy, patient counseling, physical therapy, radiation sciences and rehabilitation leadership. The program emphasizes use of distance-learning technologies combined with traditional didactic methods. The curriculum is relevant, timely and meaningful to a multidisciplinary cohort of students.

The sequential D.N.A.P. to Ph.D. concentration meets the growing interest and needs of those D.N.A.P. students who require a research doctorate. The program integrates content specific to the clinical doctorate with content specific to the research doctorate where the Ph.D. portion of the program begins following successful completion of the D.N.A.P. The objective of the program is to prepare certified registered nurse anesthetists holding master's degrees for careers in nurse anesthesia leadership, education and research. Students in this concentration will benefit from taking three courses that are shared between the two individual programs and are able to satisfy program requirements, in part, through distance technology while continuing to maintain their current family and employment obligations.

## Student learning outcomes

Students completing this doctoral program will:

1. Demonstrate the ability to conduct research, understand issues, design and execute research plans, analyze research results, and present conclusions in the area of interdisciplinary health care using the appropriate methods
2. Demonstrate an in-depth knowledge in the area of specialization
3. Exhibit competency in translating research knowledge and principles into applied practice perspectives and skills
4. Display educational expertise in current principles and content of the allied health sciences and teach in the area of interdisciplinary health care practice
5. Display the ability to examine current issues and future changes in the health care environment from an interdisciplinary perspective
6. Exhibit knowledge and understanding of professional and ethical responsibility and conduct in the allied health professions

7. Demonstrate knowledge and understanding of the importance of cultural diversity in the delivery of health care and the formulation of health policy

## Degree requirements

Students in the D.N.A.P. program apply to the Ph.D. in Health Related Sciences program during the last semester in the D.N.A.P. program. Once accepted into the Ph.D. program, students continue with the curriculum as described.

In addition to general [VCU Graduate School graduation requirements](#), students must successfully complete a total of 75 credit hours (33 credit hours from the D.N.A.P. program and 51 credit hours from the Ph.D. program minus nine credit hours for three shared courses). The Ph.D. curriculum includes 18 credit hours of common interdisciplinary core courses, 12 credit hours of research methods core courses, nine credit hours of specialty track (courses shared with the D.N.A.P. program), 12 credit hours of dissertation research, two comprehensive examinations, a research proposal defense and the final dissertation defense.

### Continuation requirements

After admission to the Ph.D. program, the student must maintain a minimum cumulative GPA of 3.0 in all of the course work completed at VCU. A student who falls below that minimum will have one semester to remedy the deficiency. Even with an overall minimum GPA of 3.0, a student may earn no more than two (six credit hours) grades of C. Students who receive a grade of D or F will be reviewed for continuation in the program by the department of their concentrations.

Students are expected to maintain continuous enrollment while in the program. Following the completion of the core course work, students must register for at least one credit hour each fall and spring semester for continuation in the program. A student who fails to register must have advance approval to do so or will be dropped automatically from the program and must reapply for reinstatement. The maximum time to complete all of the requirements for the degree is eight calendar years from the date of entry into the program.

### Course transfer or waiver

A maximum of 25 percent of the course work other than research may be transferred from another VCU program or outside institution and applied toward the degree requirements. Transfer and waiver credit is given at the discretion of the program director after consultation with appropriate faculty members, subject to university approval. Courses taken as requirements for other degrees are not transferable, unless approved as part of a combined degree program. A waiver may be warranted if an equivalent course was taken. However, another course must be substituted for the waived course in order to fulfill the requisite credit hours needed for degree completion.

### Comprehensive examination

The purpose of the comprehensive examination is to provide a vehicle through which students can demonstrate the ability to integrate their educational experiences by adequately addressing complex questions pertinent to the current and developing knowledge of the allied health fields. Students are eligible to take each of the two comprehensive examinations upon successful completion of the appropriate core course work. The core exam must be taken within six months of completing the methods exam.

Two written examinations will be administered, one for the common interdisciplinary core and one for the research methods core. A three-member graduate faculty committee will develop and administer each exam. This committee will be made up of two members of the core advisory committee and one member appointed by the program director. Each exam will be offered once in the fall semester and once in the spring semester. Prior to completion of the semester in which students become eligible to take each exam, they must submit a formal statement of intent to the program coordinator.

Students who receive a failing grade on the initial attempt will have one opportunity to repeat each comprehensive examination. Failure to pass an exam on the second attempt will result in dismissal from the program.

### Curriculum structure

The Ph.D. program curriculum is designed to take four years to complete. Students spend the first two and one-half years (six-month-long semesters) completing course work. The final year and one-half is spent developing the doctoral dissertation. Research components are present in each year of the program, and a research emphasis is present throughout the entire curriculum. Students are

required to designate the area of intended research in their concentration areas in the first year.

Each of the five course-work semesters is composed of both on- and off-campus components. On-campus sessions, scheduled during the end of June and beginning of July and at the beginning of January, will employ a rather traditional mix of educational technologies (e.g., lectures, seminars and assigned reading). During the off-campus component of each semester, students pursue their studies employing a wide variety of innovative educational technologies (e.g., computer conferencing, computer-aided instruction, videotape packages and programmed instructional material), in addition to assigned readings and the completion of various assignments and projects. Upon completion of the five semesters of course work, students are required to return to campus each semester until a research proposal has been developed and successfully defended.

### Advising

Upon admission to the program, students will be assigned an interim adviser to guide them through the core courses and assist them as they consider their areas of research. All program advisers will have an earned doctorate and be members of the university's graduate faculty.

Students may change their interim advisers as their programs of study and interests evolve, if approved by the program director. Although discouraged, some students may wish to switch their area of concentration (changing from the department through which they were initially admitted to the program). Students who want to change concentration areas must petition the doctoral program director. The petition must be approved by the program director, the DPAC and the appropriate department chair. There is no guarantee that the applicant will be accepted into the new concentration.

After successful completion of the comprehensive examinations, students will choose a dissertation chair that will serve as adviser and guide them through the research/dissertation process.

### Computer requirements

All students admitted to the program must have access to a personal computer and a DSL or cable modem. Once admitted to the program, it is recommended that students who do not feel proficient in computer skills enroll in a basic computer course to become comfortable with use of the Internet and with the basics of document processing software.

### Admission to candidacy

Students are eligible to begin their dissertations upon written certification by the program director and associate dean of the Graduate School that all predissertation/research requirements, including the comprehensive examinations, have been satisfied and that the student is prepared to proceed with the dissertation/research project. Copies of the certification will be forwarded to the student, the student's formal program adviser and the dean of the School of Allied Health Professions. After admission to candidacy, students will proceed to propose, complete and defend their dissertations or three journal articles research requirement.

### Enrollment requirement

Students are required to maintain continuous enrollment in ALHP 899 Dissertation Research until completion of the requirements, including the defense process.

### Dissertation/research committee

After successful completion of the comprehensive exam, the student nominates a dissertation/research committee, and the dissertation/research director submits the nominations in writing to the program director. Such committees will consist of a minimum of four graduate faculty members, one of whom will be outside the student's concentration area. The program director will provide written approval of the dissertation/research committee and clear such appointments with the appropriate administrative officials.

### Dissertation/research standards

The dissertation or publishable research articles must represent independent research and should be based on an original research question or hypothesis. Generally, dissertations or publishable research articles will demonstrate the student's ability with empirical research, adhering to canons of (1) logic in conceptualization and design, (2) valid and reliable measurement, (3) appropriate analytic technique and (4) appropriate interpretation of results. Studies should be based on a formal theoretical or conceptually explicit framework for investigating a question or testing a hypothesis relevant to the allied health field.

## Degree candidacy requirements

A graduate student admitted to a program or concentration requiring a final research project, work of art, thesis or dissertation, must qualify for continuing master's or doctoral status according to the degree candidacy requirements of the student's graduate program. Admission to degree candidacy, if applicable, is a formal statement by the graduate student's faculty regarding the student's academic achievements and the student's readiness to proceed to the final research phase of the degree program.

Graduate students and program directors should refer to the following degree candidacy policy as published in the VCU Graduate Bulletin for complete information and instructions.

### Degree candidacy requirements

## Graduation requirements

As graduate students approach the end of their academic programs and the final semester of matriculation, they must make formal application to graduate. No degrees will be conferred until the application to graduate has been finalized.

Graduate students and program directors should refer to the following graduation requirements as published in the Graduate Bulletin for a complete list of instructions and a graduation checklist.

### Graduation requirements

## Program completion requirements

The doctor of philosophy degree is awarded after (1) the minimum 51 credit hours of course work are completed, (2) comprehensive exams are passed, and (3) either a dissertation is written and defended orally or three first-author articles of publishable quality (on research undertaken by the doctoral candidate once enrolled in the program) are written and defended orally. The journal articles will be scrutinized for quality of scholarship by an internal research committee headed by the student's research adviser. All three articles must be approved by the internal research committee prior to submission.

## Other information

### Student handbook

A student handbook will be made available to all admitted students in their cohort organizations in Blackboard.

## Facilities

The administrative offices for the program are located on the MCV Campus, at 1200 E. Broad St. (West Hospital, First Floor, East Wing).

## Admission requirements

### Nurse Anesthesia Practice, Doctor of (D.N.A.P.)/Nurse Anesthesia, Master of Science in (M.S.N.A.) [combined]

Degree:	Semester(s) of entry:	Deadline dates:	Test requirements:
M.S.N.A. D.N.A.P.	Fall only	Jun 1	Graduate Record Examination

#### Special requirements:

Review of applications is ongoing. Preference is given to applications received prior to June 1 for fall entry.

Master of Nurse Anesthesia students with a minimum GPA of 3.25 are eligible to apply to the combined M.S.N.A. and D.N.A.P. program during the third semester of study. Students enrolled in the M.S.N.A./D.N.A.P. combined degree option will graduate with the master's degree in nurse anesthesia at the end of the seven-semester, 28-month master's curriculum and take the national certification exam. These students will then continue their doctoral studies (largely via distance) in the eighth semester (spring) to graduate with the Doctor of Nurse Anesthesia Practice degree at the end of the eighth semester.

In addition to the [general admission requirements of the VCU Graduate School](#), applicants must meet the following requirements:

- Currently enrolled and in good academic standing in VCU's M.S.N.A. program
- Current licensure as a registered nurse and advanced practice nurse (as applicable)
- A cumulative minimum graduate GPA of 3.25 on a 4.0 scale
- Graduate Record Examination general test within five years of application
- Personal statement including:
  - Reasons for seeking this educational opportunity
  - Career goals and how this degree will aid in that process
  - Prior lifework experience that will contribute to your success in the program
  - Potential areas of interest for the capstone project
- Completed Graduate School application to D.N.A.P. program by July 1 of year graduating from M.S.N.A. program
- Three professional references
- Personal interview (by invitation)

- M.S.N.A./D.N.A.P. students must pass the National Certification Examination to be eligible for graduation from the D.N.A.P. component of the M.S.N.A./D.N.A.P. program.

## VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

### General academic regulations for all graduate students in all graduate programs at VCU

## Program goal

The mission of the Department of Nurse Anesthesia is to provide learners with the knowledge and skills necessary to work as part of an interprofessional team to serve the public through the delivery of safe, cost-efficient, quality anesthesia services and to develop leaders and scholars who will advance the specialty of nurse anesthesia through research, scholarship and public service. The department achieves this mission by establishing an environment that values excellence, stimulates creativity and recognizes achievement.

## Student learning outcomes

In addition to the learning outcomes of the individual M.S.N.A. and D.N.A.P. programs, graduates of the combined M.S.N.A./D.N.A.P. program will be able to:

- Apply physiological, safety and organizational theories to promote patient safety, enhance quality care and improve nurse anesthesia practice
- Analyze and synthesize relevant scientific literature and apply results to improve nurse anesthesia practice and patient care outcomes in a culturally sensitive manner
- Communicate effectively with patients, families, the public and other health professionals
- Develop effective strategies for managing ethical dilemmas inherent in anesthesia patient care and the workplace
- Employ teaching and learning principles in educating and counseling individuals, families, students-in-training and groups
- Demonstrate leadership skills to meet the challenges of complex health care and educational environments
- Demonstrate scholarship through presentations, publications, leadership activities and collaboration with other disciplines
- Utilize technology and information systems to analyze, manage and present data.

Refer to the [program search](#) function of the online VCU Bulletins to access a complete description of the individual M.S.N.A. and D.N.A.P. degree programs.

### Degree requirements

In addition to general [VCU Graduate School graduation requirements](#), students in the combined program must complete a minimum of 97 credit hours (98 with elective).

### General academic regulations for all graduate students in all graduate programs at VCU

## Program goal

The mission of the Department of Nurse Anesthesia is to provide learners with the knowledge and skills necessary to work as part of an interprofessional team to serve the public through the delivery of safe, cost-efficient, quality anesthesia services and to develop leaders and scholars who will advance the specialty of nurse anesthesia through research, scholarship and public service. The department achieves this mission by establishing an environment that values excellence, stimulates creativity and recognizes achievement.

## Student learning outcomes

The overall objective of the Master of Science in Nurse Anesthesia degree program is to prepare graduates who have acquired knowledge, skills and competencies in patient safety, perianesthetic management, critical thinking and

communication to fulfill their professional responsibility as certified nurse anesthetists.

Upon completion of the program, the graduate will:

1. Plan, organize, deliver and evaluate safe anesthesia care
2. Design, implement and evaluate perianesthetic care
3. Incorporate critical thinking into ongoing professional practice
4. Evaluate the postoperative course of a patient
5. Assimilate into practice effective and culturally competent written, verbal and nonverbal communication with patients and families, other individuals involved in patient care, and the public
6. Assume responsibility for professional behavior

## Degree requirements

In addition to general [VCU Graduate School graduation requirements](#), candidates for the M.S.N.A. degree must be recommended by the faculty and:

1. Complete all requirements for the prescribed curriculum
2. Earn a minimum GPA of 3.0 in all NRSA courses
3. Earn a minimum cumulative GPA of 3.0 in all work presented for graduation
4. Meet all clinical requirements as specified by the National Board on Certification and Recertification of Nurse Anesthetists
5. Successfully complete the Self Evaluation Examination offered by the National Board of Certification and Recertification for Nurse Anesthetists and a two-part (didactic/research) written comprehensive examination

## Department of Occupational Therapy

The program in occupational therapy was initiated at Richmond Professional Institute in 1942. In 1965, the graduate program leading to a Master of Science degree in basic professional education in occupational therapy was initiated. The School of Occupational Therapy became a department in the School of Allied Health Professions in 1970.

## Administration

**Albert E. Copolillo**

Associate Professor and Department Chair

## Philosophy

The philosophy of the Department of Occupational Therapy embraces the philosophical base of occupational therapy stated by the American Occupational Therapy Association (1979):

Man is an active being whose development is influenced by the use of purposeful activity. Human beings are able to influence their physical and mental health and their social and physical environment through purposeful activity. Human life is a process of continuous adaptation. Adaptation is a change in function that promotes survival and self-actualization. Biological, psychological and environmental factors may interrupt the adaptation process at any time throughout the life cycle, causing dysfunction. Purposeful activity facilitates the adaptive process. Purposeful activity (occupation), including its interpersonal and environmental components, may be used to prevent and mediate dysfunction and to elicit maximum function. Activity as used by occupational therapists includes both an intrinsic and a therapeutic purpose. (AOTA. [1979]. The philosophical base of occupational therapy. AJOT, 33, 785.)

## Mission

The primary mission of the Department of Occupational Therapy is the preparation of excellent, innovative, adaptable and responsible occupational therapists as professional leaders for the state and the nation.

In pursuit of this mission, the department:

- Fosters student commitment to scientific inquiry and professional competence, and promotes personal growth, balance and dedication to lifelong learning.
- Promotes faculty excellence and collaboration in teaching, scholarship and research that models integrity and competence.
- Collaborates with the community through education, consultation and the development of strong linkages with clinical educators and the community.
- Interacts dynamically with the occupational therapy profession and stakeholders, contributing proactively to the evolution of the profession.

## Facilities

The educational facilities of the Department of Occupational Therapy are located in the Theater Row building at 730 E. Broad St. During the professional master's degree program, fieldwork assignments are made for students in a wide range of clinics and agencies in the Richmond metropolitan area. A 24-week extended fieldwork requirement will be arranged in approved clinical education facilities throughout the United States.

## Programs

Three courses of study are offered:

1. A Master of Science in Occupational Therapy, a professional entry-level degree program, is designed for students who wish to become occupational therapists.
2. A post-professional Master of Science is available for registered occupational therapists.
3. A post-professional Occupational Therapy Doctorate also is available for registered occupational therapists.

## Academic regulations

Students are admitted to the occupational therapy programs with the expectation that they will direct maximum time and effort to the learning process. Outside activities must be scheduled by students for such dates and hours as permit full compliance with the time requirements for course work. Tardiness, lack of regular attendance or failure to meet deadlines for course assignments will not be excused because of employment or other outside activities.

To continue in the graduate curriculum, students are expected to maintain a cumulative GPA of 3.0 based on course work following matriculation.

- Graduate students who fail to maintain a 3.0 cumulative GPA or receive a grade of "D" (regardless of the cumulative GPA) will automatically be placed on probation and will be notified of probationary status.
- Conditions of probation: students must earn a quality point average during the semester of probation sufficient to result in a cumulative GPA of 3.0 in order to be removed from probationary status.

Students who are on probation due to receiving a "D" grade must retake that course, achieving a grade of "C" or better while also meeting all other academic standards.

Conditions of probation also may include recommendations for academic counseling, assignments by individual instructors and other requirements identified by the Committee on Academic Standing and Student Progress. Conditions of probation will be detailed in a letter of notification of probation prepared by this committee.

Only one semester of academic probation is permitted in the program. If probationary students fail to meet academic standards (GPA of 3.0) in a second semester or do not successfully complete deficient courses, they will be considered for dismissal.

- As courses usually are offered only once a year and because early courses serve as prerequisites for later courses, students retaking a course or taking a

reduced course load will have to continue under an adjusted curriculum plan. This will result in extending the student's time in the program.

- Students who receive an "F" grade in any required course will be considered for dismissal by the committee.
- University standards require that a graduate student must not have more than six semester hours or 20 percent of semester hours attempted, whichever is greater, with a grade of "C." Students who receive a grade of "C" on more than the allowable number of semester hours will be reviewed for possible academic termination by the Committee on Academic Standing and Student Progress. Students who are not terminated for this criterion will be placed on automatic probation.
- If a student withdraws or is terminated by the clinical faculty before the completion of the Level II Fieldwork course, the student will receive an "U" grade for the course.

If the student withdraws, is terminated or fails a fieldwork experience, the course may be repeated only upon approval by the Committee on Academic Standing and Student Progress in consultation with the department chair and the fieldwork coordinator. Students may be dismissed from the program or be allowed to continue contingent upon fulfilling remedial activities based on a plan prepared by the fieldwork coordinator and ratified by the committee. No more than one additional fieldwork experience will be rescheduled. The opportunity to reregister and repeat the fieldwork course is contingent upon the fieldwork coordinator's ability to locate another facility willing to offer a fieldwork experience to the student and upon the support of the committee. Level II Fieldwork must be completed no later than 24 months subsequent to the completion of the academic phase.

- To continue in good standing, students also are expected to:
  - Pay all fees.
  - Maintain personal attributes and ethical behaviors consistent with professional practice as defined in the Occupational Therapy Department Student Handbook.
  - Complete fieldwork requirements to the satisfaction of clinical and academic faculty.
- Although arrangements are made in advance, each student is reviewed prior to placement in the Level II Fieldwork education. Students must have satisfactorily completed courses prerequisite to that fieldwork experience and be recommended by the faculty. They must demonstrate professional behavior as specified in the ethical behaviors listed in the Occupational Therapy Department Student Handbook. Medical problems may delay or prevent fieldwork placement.

## Occupational therapy courses

Descriptions for all courses offered by the university may be accessed through the online courses database at [www.pubapps.vcu.edu/vcucourses](http://www.pubapps.vcu.edu/vcucourses). You may search by unit, subject or keyword, as well as by degree level.

Follow this link to occupational therapy (OCCT) courses.

## Admission requirements

Occupational Therapy, Master of Science in (M.S.O.T.)			
Degree: M.S.O.T	Semester(s) of entry: Summer	Deadline dates: Dec 1 (OTCAS and VCU graduate applications)	Test requirements: Graduate Record Exam

In addition to the [general admission requirements of the VCU Graduate School](#), applicants must meet the following requirements:

- A bachelor's degree from an accredited college or university
- A minimum grade-point average in all college courses of 2.7 (based on a 4.0 system)
- A minimum grade-point average in prerequisite courses of 3.0. (without rounding)
- A one-page, "value-added" essay submitted as a PDF file to [otentrylevel@vcu.edu](mailto:otentrylevel@vcu.edu)
- An official report of GRE scores to VCU (Institution Code 5570)
- An [Occupational Therapy Centralized Application Service application](#) including these items:
  - A personal statement that addresses:
    - Why applicant is selecting OT as a career
    - How a master's degree in OT relates to immediate and long-term professional goals
    - How the applicant's personal, educational and professional background will help achieve these goals
  - Evidence of completion of a minimum of 30 observation hours in one or more settings under the supervision of a licensed OTR or COTA
  - Three letters of recommendation (One letter from an occupational therapist is preferred, but it is not essential.)
  - Ten [prerequisite](#) courses (30-32 semester credit hours)
- For non-native English-speaking applicants, regardless of immigration status, a Test of English as a Foreign Language iBT score of greater than 102, a TOEFL CBT score of greater than 253, a TOEFL PBT score of greater than 610 or an International English Language Testing System score of greater than 6.5

## VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

**General academic regulations for  
all graduate students in all graduate programs at VCU**

## Program goal

The primary mission of the Department of Occupational Therapy is the preparation of excellent, innovative, adaptable and responsible occupational therapists as professional leaders for the state, the nation and the world. Our mission represents an integration of the missions of the university and the School of Allied Health Professions. In pursuit of this mission, the department:

1. Prepares students to become client-centered practitioners who utilize up-to-date evidence, theory and technology to facilitate their clients' health and well-being through the use of occupation
2. Seeds the development of new occupational therapy leaders in research, teaching and service through educational, community and research expectations and opportunities
3. Fosters student commitment to scientific inquiry and professional competence and promotes personal growth, balance and dedication to lifelong learning and service
4. Promotes faculty excellence, collaboration and leadership in teaching, scholarship, research and service that models integrity, competence and evidence-based practice
5. Collaborates with the community through education, consultation and the development of strong linkages with practitioners, clinical educators and the community
6. Interacts dynamically with the OT profession and stakeholders, contributing proactively to the evolution and recognition of the profession and the use of occupation to meet society's needs for health and quality life

## Student learning outcomes

1. **Meet foundational requirements:** As part of a broad foundation in liberal arts and sciences, including biological, physical, social and behavioral sciences, students will be able to employ logical thinking, critical analysis, clinical reasoning and problem solving to demonstrate oral and written communication skills, innovative use of computer technology, knowledge of human structure and function, awareness of social development and use of statistics to interpret tests and measurements. (Objectives B.1.1-B.1.11 in ACOTE Standards)
2. **Basic tenets of occupational therapy:** Students will be able to understand and articulate the meaning and impact of occupation, its historical and philosophical significance to the profession, its role as a central construct in OT theory development, its relationship to the promotion of health and wellness and prevention of disease and disability. Recognizing the importance of activity analysis in the process of formulating intervention plans will be an emphasis for student learning. (Objectives B.2.1-B.2.11 in ACOTE Standards)
3. **OT theories, models and frames of reference:** Students will be able to describe and apply occupational therapy theories and models to these and other theoretical foundations of evaluation and intervention and will demonstrate appreciation for the process of development of theoretical principles. Occupational therapy theories and models covered in the curriculum will include but not be limited to: the model of human occupation sensory integration, biomechanical and rehabilitation models, motor control and movement recovery models. (Objectives B.3.1-B.3.6 in ACOTE Standards)
4. **OT screening, evaluation and referral:** Students will be able to select appropriate tools, both standardized and nonstandardized, for effective evaluation; analyze psychometric properties of assessment tools; evaluate occupational performance across all areas of occupation; distinguish between roles of occupational therapists and occupational therapy assistants; make appropriate client referrals; interpret test results; and document services to assure accountability, reimbursement and need for services. (Objectives B.4.1-B.4.11 in ACOTE Standards)
5. **Intervention planning:** In accordance with the occupational therapy practice framework, students will learn to develop occupation-based intervention plans and strategies. Intervention planning will be based on information

acquired via occupational profiles, evaluation of client factors – body function and structure strengths/weaknesses, performance patterns, contextual issues, activity demands, and performance skills. Students will be able to choose appropriate therapeutic activities, learn the value of therapeutic use of self, modify environments, incorporate assistive technologies, fabricate needed orthotics, and train clients in areas of mobility and transfer, feeding and eating, and activities of daily living. Students will educate clients as needed and safely use superficial thermal and mechanical modalities as preparatory measures to improving occupational performance. (Objectives B.5.1-B.5.28 in ACOTE Standards)

6. **Context of service delivery:** Students will demonstrate knowledge of the variety of contexts that affect and are affected by occupational therapy service delivery. They will be able to compare and contrast differences in service delivery systems, including health care, education, community and social systems. They will be able to discuss the impact of socioeconomic and political influences on occupational therapy and the need to respond to system changes to create opportunities and avoid pitfalls in education, research and practice. (Objectives B.6.1-B.6.6 in ACOTE Standards)
7. **OT management:** Students will be able to describe and demonstrate how practice settings affect service delivery and management of services; awareness of how federal and state laws guide service delivery; understanding of the requirements for licensing and certification, documentation, and reimbursement; and the essential nature of competency-based procedures for legal and ethical supervision of personnel and fieldwork students. Understanding of program needs, service delivery, optional and effective staffing procedures will be discussed. (Objectives B.7.1-B.7.10 in ACOTE Standards)
8. **Understanding and consuming research:** Students will be able to articulate the importance of knowledge development for the profession; locate, critique and interpret research evidence; apply research literature to practice; use basic statistics and qualitative research methods; demonstrate knowledge of the research process; and implement some aspect of research methodology. Discussion of grant writing, proposal development, research dissemination, and translation and research report writing will be included. (Objectives B.8.1-B.8.9 in ACOTE Standards)
9. **Professional ethics:** Students will be able to demonstrate knowledge and understanding of the American OT Association's code of ethics; the importance of membership in professional organizations; the value of supporting and educating other professions about OT; the importance of ongoing professional development; the threat and avoidance of liability issues; conflict resolution; contractual service provision; and ethical supervision. (Objectives B.9.1-B.9.13 in ACOTE Standards)
10. **Fieldwork:** Through a carefully coordinated process of fieldwork, students will be able to apply concepts learned in the classroom to practice settings under careful supervision of trained and qualified occupational therapy practitioners. Gradation of time spent, responsibilities and expectations placed on students will be provided through assignment, first to fieldwork level 1 and then to fieldwork level 2 experiences across a wide range of settings and practice areas. Upon completion of all fieldwork requirements, students will be prepared to take the National Board for Certification in Occupational Therapy examination, thereby qualifying them for state licensure and practice of occupational therapy at the entry level. (Objectives B.10.1-B.10.22 in ACOTE Standards)

## Degree requirements

In addition to general [VCU Graduate School graduation requirements](#), students must complete all School of Allied Health Professions requirements and successfully complete 82 credit hours consisting of 60 credit hours in course work and 22 in fieldwork.

## Curriculum requirements

Courses	Credit hours
ANAT 525 Advanced Functional Anatomy (Occupational Therapy)	5
OCCT 520 Occupational Therapy Applications: Kinesiology	2
OCCT 521 Neuroscience Applications to Occupational Therapy	3
OCCT 522 Interdisciplinary Medical Lectures	3

### Degree candidacy requirements

A graduate student admitted to a program or concentration requiring a final research project, work of art, thesis or dissertation, must qualify for continuing master's or doctoral status according to the degree candidacy requirements of the student's graduate program. Admission to degree candidacy, if applicable, is a formal statement by the graduate student's faculty regarding the student's academic achievements and the student's readiness to proceed to the final research phase of the degree program.

Graduate students and program directors should refer to the following degree candidacy policy as published in the VCU Graduate Bulletin for complete information and instructions.

#### Degree candidacy requirements

### Graduation requirements

As graduate students approach the end of their academic programs and the final semester of matriculation, they must make formal application to graduate. No degrees will be conferred until the application to graduate has been finalized.

Graduate students and program directors should refer to the following graduation requirements as published in the Graduate Bulletin for a complete list of instructions and a graduation checklist.

#### Graduation requirements

### Other information

Student manual distributed to new students every June during orientation.

All graduates of an occupational therapy program are required to take the national certification examination to become a registered occupational therapist and use the credentials OTR. The national certifying organization for occupational therapy is the National Board for Certification in Occupational Therapy. Other licensure or certification requirements have been established by all 50 states, the District of Columbia, Guam and Puerto Rico. Most licensure requirements include board certification as a registered occupational therapist. Some licensure or certification agencies consider individuals convicted of a felony ineligible for licensure or certification. For specific information, prospective students should contact the licensure or certification agency for occupational therapy.

### Occupational Therapy, Master of Science in (M.S.O.T.)/ Aging Studies, Certificate in (Post-baccalaureate graduate certificate) [combined]

#### Graduate program director

Pharmacy, Doctor of (Pharm.D.)/Aging Studies, Certificate in (Post-baccalaureate graduate certificate) [combined]

Rehabilitation Counseling, Master of Science in (M.S.)/Aging Studies, Certificate in (Post-baccalaureate graduate certificate) [combined]

Social Work, Master of (M.S.W.)/Aging Studies, Certificate in (Post-baccalaureate graduate certificate) [combined]

**Apply online at [graduate.admissions.vcu.edu](http://graduate.admissions.vcu.edu).**

The Department of Gerontology, in cooperation with other programs at the university, provides students interested in working with elders or in gerontological settings with the opportunity to complete the Certificate in Aging Studies while also completing requirements for other degree programs. Students must apply separately to the participating programs and must meet all admission and degree requirements for both programs. In some cases, and with the approval of the advisers of both programs, course work in one program may be approved to satisfy a course requirement in another program.

The departments of Occupational Therapy and Gerontology have developed a specialized version of the Certificate in Aging Studies program for students completing the Master of Science in Occupational Therapy (M.S.O.T.). Students must meet admission requirements for the occupational therapy degree and the aging studies certificate programs. The student is required to complete the following courses:

### Curriculum requirements

Courses	Credit hours
GRTY 601 Biological and Physiological Aging	3
GRTY/PSYC 602 Psychology of Aging	3
GRTY 603 Social Gerontology	3

**Admission requirements**

Occupational Therapy, Post-professional Doctorate (O.T.D.)			
Degree: O.T.D.	Semester(s) of entry: Fall	Deadline dates: May 1	Test requirements: Graduate Record Exam (if applying with a bachelor's degree in occupational therapy)

In addition to the [general admission requirements of the VCU Graduate School](#), applicants must meet the following minimum acceptable standards for admission:

1. Bachelor's or master's degree in occupational therapy from an accredited college or university
2. Cumulative minimum GPA of 3.0 from prior course work
3. Current (within 5 years) GRE scores if applying with a bachelor's degree (The GRE is not required if applying with a master's degree.)
4. Official transcripts in sealed envelopes and signed by university official across seal
5. A leadership essay describing how earning an O.T.D. and completing a capstone leadership project will enhance personal career goals and how the applicant may use advanced leadership skills developed in this program to advance the profession of occupational therapy
6. Curriculum vitae or resume that details professional leadership experience
7. Three letters of recommendation

### VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the

University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

### General academic regulations for all graduate students in all graduate programs at VCU

**Program goal**

The primary mission of the Department of Occupational Therapy is the preparation of excellent, innovative, adaptable and responsible occupational therapists as professional leaders for the state, the nation and the world. Our mission represents an integration of the missions of the university and the School of Allied Health Professions. In pursuit of this mission, the department:

1. Prepares students to become client-centered practitioners who utilize up-to-date evidence, theory and technology to facilitate their clients' health and well-being through the use of occupation
2. Seeds the development of new occupational therapy leaders in research, teaching and service through educational, community and research expectations and opportunities
3. Fosters student commitment to scientific inquiry and professional competence and promotes personal growth, balance and dedication to lifelong learning and service
4. Promotes faculty excellence, collaboration and leadership in teaching, scholarship, research and service that models integrity, competence and evidence-based practice
5. Collaborates with the community through education, consultation and the development of strong linkages with practitioners, clinical educators and the community
6. Interacts dynamically with the OT profession and stakeholders, contributing proactively to the evolution and recognition of the profession and the use of occupation to meet society's needs for health and quality life

**Student learning outcomes**

1. The student will articulate knowledge of leadership theories and models, critically analyze current leadership abilities and apply leadership skill in professional contexts.
2. The student will identify and use professional, data-driven evidence to support professional programs and initiatives through proposal writing for grant funding and program development.
3. The student will demonstrate advanced skill in developing and implementing new programs/projects designed to advance the field of occupational therapy.

**Degree requirements**

The Occupational Therapy Doctorate is a part-time, distance education, post-professional program for students with an occupational therapy degree. It combines Web-based instruction with on-campus meetings twice a year, in August and January. The program follows the traditional fall and spring semester schedule. Summer courses are required for students entering with a bachelor's degree and are optional for students entering with a master's degree. The curriculum consists of leadership, research/scientific foundation and theory practice foundation core courses, along with electives for concentrated study.

In addition to general [VCU Graduate School graduation requirements](#), students must complete all university and School of Allied Health Professions requirements. Students must successfully complete all credit hours appropriate to the curriculum into which students enter. The curriculum for an occupational therapist entering with a master's degree from VCU requires a minimum of 21 credit hours. The curriculum for an occupational therapist entering with a master's degree from another university or college requires a minimum of 32 credit hours. The curriculum for an occupational therapist entering with a baccalaureate degree requires a minimum of 47 credit hours of courses.

## Curriculum requirements

### Electives 9

Electives must be at the graduate level, consistent with the student's overall leadership direction and approved by the director of post-professional education. They may be taken at VCU or at another university or college. Some options at VCU include those listed below. Please check Online@VCU for additional opportunities.

GRTY 510 Aging	3
GRTY 604 Problems, Issues and Trends in Gerontology	4
GRTY 606 Aging and Human Values	3
OCCT 690 Occupational Therapy Seminar	3
OCCT 697 Independent Study	3
SEDP 532 Understanding Autism Spectrum Disorder	3
SEDP 634 Assessment, Curriculum and Teaching Methods for Autism Spectrum Disorder	3
SEDP 635 Supporting Behavior and Social Skills for Autism Spectrum Disorder	3
SEDP 638 Instructional Design and Field Experience for Autism Spectrum Disorder	3

### Total graduate credit hours required (minimum) 47

## Degree candidacy requirements

A graduate student admitted to a program or concentration requiring a final research project, work of art, thesis or dissertation, must qualify for continuing master's or doctoral status according to the degree candidacy requirements of the student's graduate program. Admission to degree candidacy, if applicable, is a formal statement by the graduate student's faculty regarding the student's academic achievements and the student's readiness to proceed to the final research phase of the degree program.

Graduate students and program directors should refer to the following degree candidacy policy as published in the VCU Graduate Bulletin for complete information and instructions.

### Degree candidacy requirements

## Graduation requirements

As graduate students approach the end of their academic programs and the final semester of matriculation, they must make formal application to graduate. No degrees will be conferred until the application to graduate has been finalized.

Graduate students and program directors should refer to the following graduation requirements as published in the Graduate Bulletin for a complete list of instructions and a graduation checklist.

### Graduation requirements

## Other information

Student manuals are distributed to new students every August at the on-campus meeting.

## Department of Patient Counseling

Patient counseling is the practice of communicating empathic concern, support and sensitive spiritual counsel to the physically or emotionally troubled person in the traumas of life. There is a long history of a concerted effort toward this end at the VCU Health System. With the appointment of Dr. George D. Ossman as

chaplain in 1943, the administration gave clear evidence of its awareness of the need for a specialized caring ministry to hospitalized patients and their families.

The chaplaincy program was significantly expanded in 1958 and was accredited to begin the education and clinical training of persons in patient counseling. Since then, a continuous program has been in existence and has evolved into the present program in patient counseling. Patient counseling, as it exists today, became an integrated program in the School of Allied Health Professions in 1970. A comprehensive curriculum review was completed in 1999.

With the rapid growth of health care and the increasingly complex problems of medical ethics and viable delivery systems, it is very important to educate qualified persons to deal with the human dimensions of illness as well as the personal and family stressors related to it. Through this program, VCU has an opportunity to make an impact upon health care education by emphasizing the spiritual dimension of human needs in life crises. By so doing, this university has a significant role to play in the important task of keeping health care holistic and utilizing technical and scientific methodology in the context of a deep respect for the total life of persons.

## Accreditation

The program is accredited by the Association for Clinical Pastoral Education, Incorporated. It is offered in collaboration with the VCU Health System.

## Administration

**D. Mark Cooper**

Associate Professor and Chair

## Objectives

The Program in Patient Counseling is designed to assist an individual to work in the health field as one skilled in dealing with the whole person in the context of life's crises and in a cooperative interprofessional team approach. It is offered to persons who have an existing identity in a helping or counseling profession. This includes clergy, social workers, institutional counselors, education specialists, psychologists, community health workers and others in the health care professions.

## Facilities

West Hospital (W2S) is the base for the educational program, and limited space is available in clinical areas to work with persons and families in crisis. The Main Hospital, mezzanine level, contains the chapel, family consultation room and administrative offices.

## Code of ethics

The professional behavior of the student is expected to be in accordance with the Code of Professional Ethics, as adopted by the Association for Clinical Pastoral Education, Inc. and the Code of Ethics of the Association of Professional Chaplains.

## Programs

Students serve in the dual capacity of providing pastoral care service while learning. Extensive clinical involvement, including night and weekend responsibilities, is required for selected courses and clinical pastoral education credit. Each student receives individual supervision by a member of the faculty.

- [Intern Certificate](#)
- [Postbaccalaureate Graduate Certificate in Patient Counseling](#)
- [Master of Science in Patient Counseling](#)

Students who are unsuccessful in demonstrating completion of designated clinical pastoral education outcomes in any program will be required to develop with a faculty mentor an individualized plan of study toward their completion. Typically, this plan will be accomplished through additional course work or a directed independent study.

## Continuation requirements, advising, transfer and part-time status

A student must maintain a minimum GPA of 3.0 in all course work completed at VCU. A student who falls below that minimum will have one semester to remedy the deficiency.

A student must register for at least one credit hour each academic year for continuation in the program. Any student who fails to register must have prior approval to do so or be dropped from the program and must reapply for reinstatement.

There is a five calendar-year maximum for students to complete the Master of Science degree and a seven calendar-year maximum for the dual degree. The graduate certificate program must be completed within a four calendar-year maximum. Part-time students who wish to accumulate concurrent ACPE credit need to be sure that course work is completed in accordance with ACPE standards.

A maximum of eight credits may be transferred from another university toward the Master of Science course requirements provided these credits have not been applied to a previous degree. A maximum of one-third of the didactic hours may be transferred from another VCU program. Dual degree candidates may apply six credits from their seminary studies to the VCU degree. Transfer is given at the discretion of the chair after consultation with the faculty, subject to university approval. Credits are not transferable to either of the certificate programs.

Students who have been admitted to the graduate certificate program may be admitted to the master of science degree with advanced standing after the completion of at least 18 credits with a "B" or better. All credits of a "B" or better will transfer to the degree program.

Upon admission to all programs students will be assigned a faculty adviser.

## Patient counseling courses

Descriptions for all courses offered by the university may be accessed through the online courses database at [www.pubapps.vcu.edu/vcucourses](http://www.pubapps.vcu.edu/vcucourses). You may search by unit, subject or keyword, as well as by degree level.

## Admission requirements

Patient Counseling, Certificate in (Post-baccalaureate graduate certificate)			
Degree: Certificate	Semester(s) of entry:	Deadline dates:	Test requirements: International students (TOEFL)
	Fall	Jun 1	
	Spring	Nov 1	
	Summer	Mar 1	
Special requirements: Contact the department for specific admission requirements.			

In addition to the [general admission requirements of the VCU Graduate School](#), applicants must have successfully completed undergraduate training and hold a bachelor's degree or its equivalent from an accredited institution reflecting ability to perform at the graduate level. Students must apply and be accepted to VCU's Graduate School to participate in our Clinical Pastoral Education program. This program also requires the submission of a resume, the Association of Clinical Pastoral Education application materials and a personal interview with faculty. ACPE application fact sheets and narrative instructions can be found at <http://s531162813.onlinehome.us/forms>.

Applicants holding degrees from recognized foreign institutions should display an acceptable level of English proficiency by achieving a minimum score of 550 on the TOEFL paper-based examination or 100 on the Internet-based examination. Ability to communicate orally and in writing must be presented to the Department of Patient Counseling Admissions Committee.

## VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

### General academic regulations for all graduate students in all graduate programs at VCU

## Program goal

To provide clinical education for pastoral care professionals as well as other health care providers in the spiritual care of patients and families within an interdisciplinary context

## Student learning outcomes

1. Students will articulate the central themes of their religious heritage and the theological understanding that informs their ministry (ACPE Standard 311, Outcome 311.1).
2. Students will identify and discuss major life events, relationships and cultural contexts that influence personal identity as expressed in pastoral functioning (ACPE Standard 311, Outcome 311.2).
3. Students will initiate peer group and supervisory consultation and receive critique about one's ministry practice (ACPE Standard 311, Outcome 311.3).
4. Students will risk offering appropriate and timely critique (ACPE Standard 311, Outcome 311.4).
5. Students will recognize relational dynamics within group contexts (ACPE Standard 311, Outcome 311.5).

6. Students will demonstrate integration of conceptual understandings presented in the curriculum into pastoral practice (ACPE Standard 311, Outcome 311.6).
7. Students will initiate helping relationships within and across diverse populations (ACPE Standard 311, Outcome 311.7).
8. Students will use the clinical methods of learning to achieve their educational goals (ACPE Standard 311, Outcome 311.8).
9. Students will formulate clear and specific goals for continuing pastoral formation with reference to personal strengths and weaknesses (ACPE Standard 311, Outcome 311.9).

## Degree requirements

In addition to general [VCU Graduate School graduation requirements](#), students must complete 12 credit hours of study according to one of the established curricula. Course substitutions require faculty approval.

## Curriculum requirements

Courses	Credit hours
<b>Core requirements</b>	
PATC 515 Basic Patient Counseling	9
<b>Electives</b>	
PATC 500-level or higher elective	3
<b>Total graduate credit hours required (minimum)</b>	<b>12</b>

## Degree candidacy requirements

A graduate student admitted to a program or concentration requiring a final research project, work of art, thesis or dissertation, must qualify for continuing master's or doctoral status according to the degree candidacy requirements of the student's graduate program. Admission to degree candidacy, if applicable, is a formal statement by the graduate student's faculty regarding the student's academic achievements and the student's readiness to proceed to the final research phase of the degree program.

Graduate students and program directors should refer to the following degree candidacy policy as published in the VCU Graduate Bulletin for complete information and instructions.

### Degree candidacy requirements

## Graduation requirements

As graduate students approach the end of their academic programs and the final semester of matriculation, they must make formal application to graduate. No degrees will be conferred until the application to graduate has been finalized.

Graduate students and program directors should refer to the following graduation requirements as published in the Graduate Bulletin for a complete list of instructions and a graduation checklist.

M.S.	Fall (preferred)	Jun 1	None
	Spring	Nov 1	
	Summer	Mar 1	

In addition to the [general admission requirements of the VCU Graduate School](#), applicants must have successfully completed undergraduate training and hold a bachelor's degree or its equivalent from an accredited institution reflecting ability to perform at the graduate level; graduate degree in a health-related field; or two years of graduate theological education. Students must apply and be accepted to VCU's Graduate School to participate in the clinical pastoral education program.

This program also requires submission of the following supplemental material: a current resume, the Association of Clinical Pastoral Education Inc. application materials, copies of all previous self- and supervisor's CPE evaluations and two verbatim case studies of clinical work. An interview with the faculty admission committee will be granted based on application material.

ACPE application fact sheets and narrative instructions can be found at <http://s531162813.onlinehome.us/forms>.

**Chaplain certification concentration**

1. The chaplain certification concentration is available to individuals who have a previous graduate degree or who have at least two years of graduate education in theology, the behavioral sciences or the health-related sciences. It is assumed that completion of this 44-credit-hour concentration will take four to five semesters.
2. Students admitted to this option must have a minimum GPA of 3.0. Submission of the Graduate Examination Record is required when this GPA requirement is not met.
3. Applicants holding degrees from recognized foreign institutions should display an acceptable level of English proficiency by achieving a minimum score of 550 on the TOEFL paper-based examination or 100 on the Internet-based examination. Ability to communicate orally and in writing must be presented to the Department of Patient Counseling admissions committee.

However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

### General academic regulations for all graduate students in all graduate programs at VCU

### Program goal

To provide clinical education for pastoral care professionals as well as other health care providers in the spiritual care of patients and families within an interdisciplinary context

### Student learning outcomes

1. Student maintains personal integrity and a deepening pastoral identity (ACPE Standard 315, Outcome 315.1).
2. Student demonstrates emotional and spiritual maturity (ACPE Standard 315, Outcome 315.2).
3. Student forms meaningful pastoral relationships (ACPE Standard 315, Outcome 315.3).
4. Student self-supervises their own ongoing pastoral practice (ACPE Standard 315, Outcome 315.4).
5. Student refines their professional identity as a clinical pastoral educator (ACPE Standard 315, Outcome 315.5).
6. Student demonstrates awareness of how their own culture affects professional and personal identity, pastoral practice, the supervisory relationship and student learning (ACPE Standard 315, Outcome 315.6).
7. Student articulates understanding of and methodology for clinical pastoral supervision based on a critical grasp of the professional literature relating to the field of clinical supervision (Standard 315, Outcome 316.1).
8. Student articulates and implements a philosophy of CPE based on an educational model integrating the theory and practice of CPE, which is based on and congruent with their own theology (Standard 316, Outcome 316.2).
9. Student articulates rationale for multicultural competence, integrating the theory and practice of CPE, which is based on and congruent with their own theology (Standard 316, Outcome 316.3).
10. Student assesses an individual student's learning patterns, personality, religious history and cultural values as a basis for supervisory strategies (ACPE Standard 317.1, Outcome 317.1.1).
11. Student supervises students' pastoral work, giving attention to unique patterns of personal and professional development, including the ability to assist students' movement toward pastoral identity (ACPE Standard 317.1, Outcome 317.1.2).
12. Student defines and evaluates students' pastoral and personal resources, and uses supervisory strategies and interventions to facilitate students' learning and development in pastoral care (ACPE Standard 317.1, Outcome 317.1.3).
13. Student assists students in taking responsibility for formulating a learning process and evaluating the results of the learning experience (ACPE Standard 317.1, Outcome 317.1.4).

14. Student uses their own personality and personal, religious and cultural history as a teaching resource in shaping a personal supervisory style (ACPE Standard 317.1, Outcome 317.1.5).
15. Student facilitates development of group interpersonal interaction (ACPE Standard 317.2, Outcome 317.2.1).
16. Student enables students to use their responses to the program as a learning experience (ACPE Standard 317.2, Outcome, 317.2.2).
17. Student develops and organizes programs of CPE based on program educational principles appropriate to experiential learning (ACPE Standard 318, Outcome 318.1).
18. Student manages CPE programs effectively (ACPE Standard 318, Outcome 318.2).
19. Student develops a variety of CPE program resources (ACPE Standard 318, Outcome 318.3).
20. Student uses diverse clinical educational methods (ACPE Standard 318, Outcome 318.4).
21. Student works with the theological implications of the ministry context (ACPE Standard 318, Outcome 318.5).
22. Student understands and applies professional organizational ethics as they relate to CPE and pastoral practice (ACPE Standard 318, Outcome 318.6).
23. Student uses appropriate clinical skills and teaching methods that integrate the role of context and culture in pastoral practice and education (ACPE Standard 318, Outcome 318.7).
24. Student advocates for students based on awareness of how persons' social locations, systems and structures affect their ministry, learning and the educational context (ACPE Standard 318, Outcome 318.8).
25. Student considers cultural factors in the use of learning assessments, educational strategies, curriculum resources and evaluation procedures (ACPE Standard 318, Outcome 318.9).
26. Student integrates educational theory, knowledge of behavioral science, professional and organizational ethics, theology and pastoral identity into supervisory function (ACPE Standard 319, Outcome 319.1).
27. Student demonstrates awareness of the cultural contexts of diverse student groups and clinical populations that integrates and articulates ethnic identity development and its implications for pastoral practice and supervisory relationships (ACPE Standard 319, Outcome 319.2).

### Degree requirements

In addition to general [VCU Graduate School graduation requirements](#), students must:

1. Follow, under faculty guidance, the procedures outlined in ACPE's Manual on Certification
2. Meet with faculty annually for review of progress and continuation in the program
3. Complete a minimum of 44 credit hours in accordance with the approved curriculum
4. Complete all core courses
5. Complete all required elective course hours

Students who have completed degree requirements may continue to enroll as special students if completing residency requirements at VCU Medical Center or certification requirements with the ACPE.

### Curriculum requirements

Only students admitted to this concentration are eligible to take courses numbered 653 through 696

Courses	Credit hours
<b>Core curriculum</b>	<b>37</b>
PATC 615 Theory of Group Leadership	2

PATC 640 Research Basics for Hospital Chaplains	1
PATC 641 Evidence-based Inquiry for Hospital Chaplains	1
PATC 642 Developing and Presenting Chaplaincy Research	1
PATC 653 Patient Counseling Evaluation I	4
PATC 654 Patient Counseling Evaluation II	4
PATC 661 History of Pastoral Supervision	3
PATC 663 Theory of Pastoral Supervision I	3
PATC 664 Theory of Pastoral Supervision II	2
PATC 694 Advanced Clinical Pastoral Supervision	7
PATC 696 Intensive Supervisory Practicum	9

#### Electives 7

Options for completing seven hours of elective study include the following:

- PATC 665 Selected Topics in Pastoral Supervision (may be repeated for total of 4 credits)
- PATC 692 Independent Study in Pastoral Supervision (may be repeated for total of 4 credits)
- PATC 697 Clinical Research (may be repeated for total of 5 credits)

Other electives may be allowed with prior permission of the program director and chair.

**Total graduate credit hours required (minimum) 44**

## Degree candidacy requirements

A graduate student admitted to a program or concentration requiring a final research project, work of art, thesis or dissertation, must qualify for continuing master's or doctoral status according to the degree candidacy requirements of the student's graduate program. Admission to degree candidacy, if applicable, is a formal statement by the graduate student's faculty regarding the student's academic achievements and the student's readiness to proceed to the final research phase of the degree program.

Graduate students and program directors should refer to the following degree candidacy policy as published in the VCU Graduate Bulletin for complete information and instructions.

#### Degree candidacy requirements

## Graduation requirements

As graduate students approach the end of their academic programs and the final semester of matriculation, they must make formal application to graduate. No degrees will be conferred until the application to graduate has been finalized.

## Admission requirements

### Patient Counseling, Master of Science (M.S.), accelerated chaplain certification concentration

Degree:	Semester(s) of entry:	Deadline dates:	Test requirements:
M.S.	Fall	Jun 1	GRE
	Spring	Nov 1	International students required to present TOEFL scores
	Summer	Mar 1	

In addition to the [general admission requirements of the VCU Graduate School](#), applicants must have successfully completed undergraduate training and hold a bachelor's degree or its equivalent from an accredited institution reflecting ability to perform at the graduate level, as well graduate degree in a health-related field. Students must apply and be accepted to VCU's Graduate School to participate in the clinical pastoral education program.

ACPE application fact sheets and narrative instructions can be found at <http://s531162813.onlinehome.us/forms>.

#### Accelerated chaplain certification concentration in the Master of Science

- The accelerated chaplain certification concentration in the Master of Science in Patient Counseling is available to students who hold a master's degree and who have completed one unit of ACPE clinical pastoral education.
- Students admitted to this option must have a minimum GPA of 3.0. Submission of the Graduate Examination Record is required when this GPA requirement is not met.
- Applicants holding degrees from recognized foreign institutions should display an acceptable level of English proficiency by achieving a minimum score of 550 on the TOEFL paper-based examination or 100 on the Internet-based examination. The ability to communicate orally and in writing must be presented to the Department of Patient Counseling admissions committee.

## VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on

program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

**General academic regulations for  
all graduate students in all graduate programs at VCU**

## Program goal

To provide clinical education for pastoral care professionals as well as other health care providers in the spiritual care of patients and families within an interdisciplinary context.

## Student learning outcomes

1. Graduates will demonstrate awareness of self with congruence in the care of patients, families and staff (ACPE Standard 312, Outcome 312.1).
2. Graduates will demonstrate ability to provide care with sensitivity and respect in a diverse patient, family and staff environment (ACPE Standard 312, Outcome 312.2).
3. Graduates will demonstrate the knowledge and provision of intensive and extensive pastoral/spiritual care to persons in crisis (ACPE Standard 312, Outcome 312.3).
4. Graduates will demonstrate incorporation of theological understanding and knowledge of the behavioral sciences in care of patients, families and staff (ACPE Standard 312, Outcome 312.4).
5. Graduates will demonstrate effective participation as members of a comprehensive health care team (ACPE Standard 312, Outcome 312.5).
6. Graduates will demonstrate responsible care and professional boundaries (ACPE Standard 312, Outcome 312.6).
7. Graduates will demonstrate the utilization of individual and group supervision for personal and professional development as well as ongoing evaluation of clinical practice (ACPE Standard 312, Outcome 312.7).
8. Graduates will demonstrate awareness of professional standards in chaplaincy (ACPE Standard 312, Outcome 312.8).
9. Graduates will demonstrate ability to self-supervise and critically reflect on their own pastoral encounters (ACPE Standard 312, Outcome 312.9).

## Degree requirements

In addition to general [VCU Graduate School graduation requirements](#), students must:

1. Complete a minimum of 30 credit hours in accordance with the approved curriculum
2. Complete all core courses
3. Complete all required elective course hours

## Curriculum requirements

Courses	Credit hours
<b>Core requirements</b>	<b>28</b>
PATC 611 Theory and Practice of Patient Counseling I	5
PATC 612 Theory and Practice of Patient Counseling II	5
PATC 613 Group Process I	2
PATC 614 Group Process II	2
PATC 615 Theory of Group Leadership	2
PATC 617 Supervised Clinical Practice I	5
PATC 635 Clinical Ethics	2
PATC 639 Pastoral Care Management	2
PATC 640 Research Basics for Hospital Chaplains	1

PATC 641 Evidence-based Inquiry for Hospital Chaplains	1
PATC 642 Developing and Presenting Chaplaincy Research	1

## Electives 2

Courses may be taken in patient counseling, gerontology and rehabilitation counseling. Other electives may be allowed with prior permission of the program director and chair.

PATC elective course (500 level or higher)

GRTY elective course (620 and 630 series)

RHAB elective course (620 and 630 series)

## Total graduate credit hours required (minimum) 30

## Degree candidacy requirements

A graduate student admitted to a program or concentration requiring a final research project, work of art, thesis or dissertation, must qualify for continuing master's or doctoral status according to the degree candidacy requirements of the student's graduate program. Admission to degree candidacy, if applicable, is a formal statement by the graduate student's faculty regarding the student's academic achievements and the student's readiness to proceed to the final research phase of the degree program.

Graduate students and program directors should refer to the following degree candidacy policy as published in the VCU Graduate Bulletin for complete information and instructions.

### Degree candidacy requirements

## Graduation requirements

As graduate students approach the end of their academic programs and the final semester of matriculation, they must make formal application to graduate. No degrees will be conferred until the application to graduate has been finalized.

Graduate students and program directors should refer to the following graduation requirements as published in the Graduate Bulletin for a complete list of instructions and a graduation checklist.

### Graduation requirements

## Other information

Students receive a Department of Patient Counseling student handbook during orientation.

Patient Counseling, Master of Science (M.S.), accelerated chaplain certification concentration

Patient Counseling, Master of Science (M.S.) with a concentration in chaplain certification

Patient Counseling, Master of Science (M.S.) with a concentration in supervisory clinical pastoral education

Apply online at [graduate.admissions.vcu.edu](http://graduate.admissions.vcu.edu).

## Admission requirements

**Patient Counseling, Master of Science (M.S.)/Divinity, Master of (M.Div.) from the Baptist Theological Seminary in Richmond or the Samuel DeWitt Proctor School of Theology at Virginia Union University [combined]**

Degree:	Semester(s) of entry:	Deadline dates:	Test requirements:
M.S.	Fall (preferred)	Jun 1 Nov 1 Mar 1	GRE  International students required (TOEFL)

In addition to the [general admission requirements of the VCU Graduate School](#), applicants must have successfully completed undergraduate training and hold a bachelor's degree or its equivalent from an accredited institution reflecting ability to perform at the graduate level; graduate degree in a health-related field; or two years of graduate theological education. Students must apply and be accepted to VCU's Graduate School to participate in the clinical pastoral education program.

ACPE application fact sheets and narrative instructions can be found at <http://s531162813.onlinehome.us/forms>.

### Combined Master of Science in Patient Counseling and Master of Divinity

- The dual degree (M.S./M.Div.) option is offered cooperatively with two Richmond-area graduate institutions of theological education (the Baptist Theological Seminary at Richmond and the Samuel DeWitt Proctor School of Theology of Virginia Union University).
- The program is designed as a four-year program with four full semesters spent in residence at VCU. Typically, students apply to the Department of Patient Counseling during the first semester of seminary enrollment.
- Students admitted to this option must have a minimum GPA of 3.0. Submission of the Graduate Examination Record is required when this GPA requirement is not met.
- Applicants holding degrees from recognized foreign institutions should display an acceptable level of English proficiency by achieving a minimum score of 550 on the TOEFL paper-based examination or 100 on the Internet-based examination. The ability to communicate orally and in writing must be presented to the Department of Patient Counseling admissions committee.
- Students enrolled in the dual-degree program will remain in good standing at VCU while enrolled in their seminary studies. Each sponsoring institution will grant its respective degree.

## VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. ## Department of Physical Therapy

The Department of Physical Therapy was established in 1945 to provide basic preparation for the practice of physical therapy. Between 1945 and 1954, the program consisted of a 12-month professional course designed to train students for entry into the profession. This program was based upon at least three years of college work or the possession of a registered nurse certificate. A two-year professional program after two years of preparatory college work was initiated in 1954. This program led to the degree of Bachelor of Science in Physical Therapy. In 1968, the Department of Physical Therapy became part of the School of Allied Health Professions. The two-year professional program leading to the Bachelor of Science degree continued through the 1988-89 academic year.

In August 1989, the Department of Physical Therapy, School of Allied Health Professions, began a three-year professional program based on three years of previous college work that leads to a Master of Science degree. On Feb. 8, 2001 the VCU Board of Visitors approved a proposal to offer a Doctor of Physical Therapy as the entry-level professional degree. The State Council of Higher Education in Virginia gave its final approval for the proposal on June 20, 2001. The first class to study the professional program began in July 2002.

In addition to the professional program, the department participates in four collaborative and interdisciplinary Ph.D. programs.

## Administration

**Thomas Mayhew**

Associate Professor and Department Chair

## Mission

The Department of Physical Therapy serves the people of the commonwealth of Virginia and the nation by providing educational programs related to physical therapy. The department provides an environment that encourages education through problem solving, free inquiry, professional behavior and scholarship. The department's primary focus is to prepare individuals for general physical therapy practice. These practitioners are educated to serve as an entry point into the health care system for consumers. Post-professional programs provide quality education leading to careers in teaching and research. The department also provides assistance and services to the community and engages in research and scholarly activities related to the practice of physical therapy.

## Philosophy

Physical therapy is an integral part of the health care system. Expanding knowledge in the basic and clinical sciences, and changes in the needs and mandates of society, continually place new demands on the physical therapy profession. The faculty of the Department of Physical Therapy is committed to providing educational programs responsive to expanding knowledge and the needs of society.

The primary principle directing the activities of the department is the faculty's commitment to optimal patient care through physical therapy education, research and practice. The faculty strongly believes that physical therapists must have a thorough understanding of the theoretical bases for treatment and skills in problem solving, evaluation and communication.

The faculty also believes that physical therapists have a responsibility to develop skills for lifelong learning (e.g., the ability to find information and to critically analyze that information).

The faculty also is committed to the development and sharing of new knowledge in the field of physical therapy through scholarship and research.

## Objectives

The objectives of the Department of Physical Therapy, in concert with the mission of the university and the School of Allied Health Professions, are to:

- Provide an entry-level postbaccalaureate educational program for full-time students with diverse backgrounds and experiences.
- Contribute to interdisciplinary post-professional doctoral programs that prepare physical therapists to contribute to the understanding and application of therapeutic procedures through basic and applied research and to teach both clinical and didactic physical therapy on all academic levels.
- Provide an atmosphere that fosters critical thinking, intellectual curiosity and integrity, freedom of expression, personal growth and professional competence, and a commitment to learning for faculty and students.
- Provide an environment that facilitates research and scholarship directed toward optimizing patient care.
- Provide services to the public and professional communities.

## Facilities

The educational facilities for the Department of Physical Therapy are located on the basement floor of A.D. Williams/West Hospital. These buildings, located on the northeast corner of 12th and Broad streets, house administrative and faculty offices, classrooms, physical therapy instructional, computer and research laboratories, and student locker rooms. Classrooms in other buildings on the MCV Campus are used as needed.

Clinical education experiences for professional students are offered in physical therapy clinics throughout Virginia and the country.

## Graduate (postprofessional) programs in physical therapy

The Department of Physical Therapy is committed to improving physical therapy services through graduate education and research. The department participates in several cooperative and interdisciplinary doctoral programs. A physical therapy track is offered in the Ph.D. program of the Department of Physiology and Biophysics. An interdisciplinary Ph.D. in Rehabilitation and Movement Science is offered in conjunction with two other departments at VCU: Department of Health and Human Performance in the School of Education and the Department of Physical Medicine and Rehabilitation in the School of Medicine. Also, the department participates in the School of Allied Health Professions' Ph.D. in Health Related Sciences.

Education at the Ph.D. level is a highly independent adventure. The curricula offered by the Department of Physical Therapy through joint ventures with other departments allow students the opportunity to focus on highly divergent aspects of research related to physical therapy. Each of the programs also offers students opportunity to hone teaching skills in preparation for a well-rounded academic career.

Regardless of the chosen program or track, each Ph.D. student conducts a substantial original research project. Individuals interested in doctoral education are encouraged to examine the research interest areas of faculty in each of the

participating departments and to consult with the program directors before submitting their application to a specific program.

## Admission requirements

Applications are encouraged from individuals who are practicing physical therapists. Applicants must have graduated from a physical therapy educational program approved by the American Physical Therapy Association. International students must have an equivalent level of education as determined by the Office of International Admissions. Individuals who are not physical therapists are not accepted into the advanced degree programs.

Additional admission requirements for graduate study in the Department of Physical Therapy are as follows:

1. A minimum GPA of 2.7 on a 4.0 scale for entry-level professional education.
2. Satisfactory score on the general test of the GRE (taken no more than five years prior to admission).
3. Three satisfactory letters of recommendation.
4. Applicant's written statement of intent for pursuing graduate studies in a particular program.
5. Such additional requirements as established for each specific program.

International students also must score a 600 or above on the Test of English as a Foreign Language (TOEFL)(250 on computer-based test).

## Financial assistance

Some teaching and research assistantships are available from the Department of Physical Therapy. These assistantships are competitive. Part-time employment as a physical therapy clinician is available in Richmond and surrounding areas. Doctoral students receiving stipends must receive approval of outside employment.

VCU provides three types of student assistance: scholarships, loans, and work study. For information on these types of financial assistance, write to the Office of Financial Aid, Virginia Commonwealth University, MCV Campus, Richmond, VA 23298-0244.

Priority consideration is given to applications received by Jan. 7.

## Physical therapy courses

Descriptions for all courses offered by the university may be accessed through the online courses database at [www.pubapps.vcu.edu/vcucourses](http://www.pubapps.vcu.edu/vcucourses). You may search by unit, subject or keyword, as well as by degree level.

Follow this link to physical therapy (PHTY) courses.

**Refer to the [program search](#) function of the online VCU Bulletins for a complete listing of all programs, concentrations and related curricular options.**

**Apply online at [graduate.admissions.vcu.edu](http://graduate.admissions.vcu.edu).**

## Admission requirements

Physical Therapy, Doctor of (D.P.T.)			
Degree: D.P.T.	Semester(s) of entry: Summer	Deadline dates:  The beginning of Nov of the year prior to intended enrollment	Test requirements: Graduate Record Examination  For non-native English-speaking applicants, regardless of immigration status, a Test of English as a Foreign Language score of at least 600 (score of 250 on computerized exam)  All test scores should be reported directly to VCU.
<b>Special requirements:</b> The VCU Department of Physical Therapy participates in the American Physical Therapy Association-sponsored physical therapy centralized application service for applicants to the D.P.T. program. All students interested in applying to this program must submit their application materials directly to PTCAS. Applicants who apply through PTCAS will submit a completed Web-based application comprising biographical data, colleges and universities attended, academic course history, physical therapy observation hours, list of reference providers, work experience, extracurricular activities, honors, professional licenses and a personal essay. It is the applicant's responsibility to read and follow all PTCAS and program-specific instructions. Please visit the <a href="#">Department of Physical Therapy website for application deadlines</a> .			

In addition to the [general admission requirements of the VCU Graduate School](#), applicants must meet the following requirements:

1. A Bachelor of Arts or Bachelor of Science degree from an accredited college or university
2. A minimum grade-point average of 2.7 (in a 4.0 system)
3. A minimum total of 100 volunteer hours in at least two physical therapy practice settings
4. Three recommendations, at least one of which is from a physical therapist

Prerequisites for admission to the professional Doctor of Physical Therapy program include a Bachelor of Arts or Bachelor of Science degree from an accredited college or university. If the applicant has received college credit hours for AP courses and/or exams, and those hours are listed on the university transcript, those credit hours will be accepted. A grade of D in any required prerequisite course is not acceptable. A minimum GPA of 2.7 (in a 4.0 system) is required to be considered for admission. The GRE is required; the scores should be reported directly to Virginia Commonwealth University. For non-native English-speaking applicants, regardless of immigration status, a Test of English as a Foreign Language score of at least 600 (score of 250 on computerized exam) is required; scores should be reported directly to Virginia Commonwealth University.

The program of study necessary to be considered for admission to the professional Doctor of Physical Therapy program must include a minimum of the following subject areas and credits:

Biological sciences – 12 credit hours including laboratory experiences

- Must include four credit hours of college-level biology
- Must include four credit hours of anatomy and four credit hours of human physiology, or eight credit hours of anatomy/physiology (An exercise physiology course is not an acceptable substitute for a human physiology course.)
- Cell biology and histology highly recommended but not required

Chemistry – eight credit hours including laboratory experiences

Mathematics – three credit hours (must be in pre-calculus or a more advanced mathematics course)

Physics – eight credit hours of general physics with laboratory (Courses that emphasize mechanics, electricity, heat and light are highly recommended.)

Psychology – six credit hours (One introductory course and one course in human growth and development or abnormal psychology is required.)

Statistics – three credit hours

In order to complete the total requirements, students are encouraged to elect courses from the following categories: computer science, embryology, histology, cell biology, comparative anatomy, kinesiology, exercise physiology, foreign languages and courses in physical education dealing with an analytical approach to human movement or motor learning.

Students must also present a minimum of 100 volunteer hours in at least two physical therapy practice settings.

Students are required to have current CPR certification.

One of the three required letters of recommendation must be from a physical therapist.

## VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

### General academic regulations for all graduate students in all graduate programs at VCU

## Program goal

The Department of Physical Therapy serves the people of the commonwealth of Virginia and the nation by providing educational programs related to physical therapy. The department provides an environment that encourages education through problem solving, free inquiry, professional behavior and scholarship. The department's primary focus is to prepare individuals for general physical therapy practice. These practitioners are educated to serve as an entry point into the health care system for consumers. Post-professional programs provide quality education leading to careers in teaching and research. The department also provides assistance and services to the community and engages in research and scholarly activities related to the practice of physical therapy.

### Preparation of physical therapists

The goal of this program is to provide a quality educational program that prepares students for entry into the profession of physical therapy. The program prepares students to evaluate and manage patients with physical therapy problems effectively and in accordance with ethical principles. The program also provides students with strategies to continually define and meet their own educational needs in order to keep skills and knowledge current throughout their professional careers.

## Student learning outcomes

- Examine, diagnose individuals with disabilities:** Effectively examine, evaluate, diagnose and determine the prognosis of individuals with impairments, functional limitations and disabilities
- Apply health promotion principles and practices:** Apply health promotion principles and practices in primary, secondary and tertiary prevention
- Manage PT problems in a safe, ethical manner:** Manage physical therapy problems in a safe, ethical, legal and professional manner
- Use appropriate educational principles:** Use appropriate educational principles to design methods to teach patients/clients, caregivers, colleagues and other health care professionals

- Manage changes in physical function:** Effectively manage changes in the physical function and health status of patients/clients
- Select and implement safe PT interventions:** Select and implement safe and effective physical therapy interventions and assess the subsequent outcomes
- Determine the need for further examination or consult:** Determine the need for further examination or consultation by another physical therapist or for referral to another health care professional
- Manage human and material resources:** Manage human and material resources and services to provide high-quality and cost-effective physical therapy services in diverse settings
- Apply concepts and principles of management:** Apply concepts and principles of management to effectively supervise support personnel to whom tasks have been delegated
- Effectively document patient information:** Effectively document patient information and physical therapy services to colleagues in an organized, logical and concise manner
- Integrate principles of critical inquiry to evaluate, interpret and utilize professional literature in clinical practice:** Participate in clinical research activities and critically analyze new concepts in the application of physical therapy practice
- Effectively communicate with patients:** Effectively communicate, verbally and nonverbally, with patients and their caregivers, health care personnel, and members of the community
- Demonstrate awareness of social, economic factors:** Demonstrate an awareness of the influence of social, economic, legislative and demographic factors on the delivery of health care
- Demonstrate understanding of lifelong learning:** Demonstrate an understanding of the importance of lifelong learning and a commitment to the physical therapy profession

## Degree requirements

In addition to general [VCU Graduate School graduation requirements](#), every professional physical therapy program student must maintain a minimum cumulative grade point average of 3.0. At the end of each semester, the faculty reviews the academic performance of all students. All students must have a GPA of 3.0 by the end of the second academic year in order to matriculate into PHTY 680 Clinical Education III in the third academic year. Physical therapy students must complete all clinical education experiences to the satisfaction of the clinical and academic faculty.

Under no circumstances are physical therapy students permitted to participate in graduation ceremonies if they have not satisfactorily completed all the requirements of the professional physical therapy program curriculum.

### Degree candidacy requirements

A graduate student admitted to a program or concentration requiring a final research project, work of art, thesis or dissertation, must qualify for continuing master's or doctoral status according to the degree candidacy requirements of the student's graduate program. Admission to degree candidacy, if applicable, is a formal statement by the graduate student's faculty regarding the student's academic achievements and the student's readiness to proceed to the final research phase of the degree program.

Graduate students and program directors should refer to the following degree candidacy policy as published in the VCU Graduate Bulletin for complete information and instructions.

#### Degree candidacy requirements

### Graduation requirements

As graduate students approach the end of their academic programs and the final semester of matriculation, they must make formal application to graduate. No degrees will be conferred until the application to graduate has been finalized.

Graduate students and program directors should refer to the following graduation requirements as published in the Graduate Bulletin for a complete list of instructions and a graduation checklist.

#### Graduation requirements

### Other information

A hard copy of the VCU D.P.T. program student handbook and policies and procedures manual is distributed to each entering physical therapy student at orientation.

### Rehabilitation and Movement Science, Doctor of Philosophy (Ph.D.) with a concentration in exercise physiology

Rehabilitation and Movement Science, Doctor of Philosophy (Ph.D.) with a concentration in neuromusculoskeletal dynamics

Apply online at [graduate.admissions.vcu.edu](http://graduate.admissions.vcu.edu).

### Admission requirements

Rehabilitation and Movement Science, Doctor of Philosophy (Ph.D.) with a concentration in exercise physiology			
Degree: Ph.D.	Semester(s) of entry: Fall preferred	Deadline dates: Applications received prior to Jan 9 will be given priority consideration	Test requirements: GRE
Special requirements: Applications received following the deadline may be considered if space and resources are available.			

In addition to the [general admission requirements of the VCU Graduate School](#), applicants must:

1. Have completed at least one of a master's degree in a related area, 30 hours of post-baccalaureate work (e.g. course work at 500 level or greater) or a first-professional degree program
2. Provide official GRE score
3. Submit a curriculum vitae or professional resume indicating an applicant's educational and career experience as well as evidence of research potential

Admission decisions are made only on the basis of a completed application packet.

Applicants being considered for admission must complete an interview with a Ph.D. admissions committee representative and/or research faculty member with whom the student would like to work.

### VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

#### General academic regulations for all graduate students in all graduate programs at VCU

### Program goal

The Ph.D. in Rehabilitation and Movement Science is an interdisciplinary degree program developed through a collaborative partnership of the departments of Kinesiology and Health Sciences, Physical Therapy, and Physical Medicine and Rehabilitation. The mission of this collaborative degree program is to prepare applied scientists capable of approaching multifaceted health care, preventive medicine and rehabilitation initiatives from an integrative perspective and to prepare graduates to assume research, teaching and leadership positions within rehabilitation and movement science professions.

There are two program concentrations: exercise physiology and neuromusculoskeletal dynamics. The exercise physiology concentration prepares individuals to conduct research, direct external funding initiatives and teach in the area of exercise physiology, with particular focus on physical activity's impact on chronic disease states. The neuromusculoskeletal dynamics concentration prepares individuals for research, teaching and clinical initiatives associated with the identification and rehabilitation of movement disorders.

### Student learning outcomes

At the completion of the program students will:

1. Demonstrate teaching effectiveness in the classroom, clinical environment or both
2. Have disseminated research findings at an appropriate regional, national or international conference
3. Demonstrate the ability to independently collect research data, analyze research data and synthesize conclusions from research data

### Degree requirements

In addition to general [VCU Graduate School graduation requirements](#), students pursuing the Ph.D. in Rehabilitation and Movement Science must successfully complete:

1. A minimum of 50 credit hours developed in conjunction with their advisers
2. Written and oral comprehensive examinations
3. All other university requirements of qualification for degree candidacy
4. Written dissertation based on a focused line of research
5. Oral defense of the dissertation

## Department of Radiation Sciences

The Department of Radiation Sciences is an integral part of the School of Allied Health Professions and shares its values. The department serves as a national leader in the education of students in the radiation sciences and provides learning opportunities that are innovative and educationally sound. Strong linkages with clinical affiliates and their staffs are vital to the department's success. Faculty and staff work in a cooperative spirit in an environment conducive to inquisitiveness and independent learning to help a diverse student body develop to its fullest potential. The faculty is committed to the concept of lifelong learning and promotes standards of clinical practice that will serve students throughout their professional careers. Faculty members serve as resources for professionals in practice and contribute to an expanded knowledge base in the field of clinical radiation sciences.

The mission of the Department of Radiation Sciences is to enable a diverse student body to develop its fullest potential and to graduate baccalaureate-level radiologic health professionals who demonstrate outstanding technical, communication and critical-thinking skills.

### Department of Radiation Sciences' goals

1. For entry-level and second modality programs, students will be clinically competent.
  - a. Students will attain clinical competence.
  - b. Graduates will demonstrate clinical competence while employed in the radiation sciences.
2. Students will communicate effectively.
  - a. Students will demonstrate effective communication during their clinical experience.
  - b. Students will demonstrate effective communication through the research project.
  - c. Graduates will demonstrate effective communication while employed in the radiation sciences.
3. Students will demonstrate critical-thinking skills.
  - a. Students will demonstrate critical-thinking skills during their clinical experience.
  - b. Students will demonstrate critical-thinking skills in developing their research project.
4. Students will model professionalism.
  - a. Students will demonstrate professionalism during their clinical experience.
  - b. Graduates will demonstrate professionalism while employed in the radiation sciences.
5. The department will assure program effectiveness.

## Administration

**Jeffrey S. Legg**

Associate Professor and Department Chair

[www.sahp.vcu.edu/radsci](http://www.sahp.vcu.edu/radsci)

## History

Radiologic technology education began at the Medical College of Virginia in the 1930s with a one-year training program in radiography. This program has undergone a number of changes through the years to evolve into the current baccalaureate educational program.

A concentration in nuclear medicine technology was added in 1984 and in radiation therapy in 1992. Degree-completion programs have been added to provide an opportunity for certified technologists and therapists to complete requirements for the baccalaureate degree.

## Facilities

The educational facilities for the Department of Radiation Sciences are located at 701 W. Grace St., Suite 2100. These facilities include energized laboratories in radiography, nuclear medicine, radiation therapy and mammography. The radiography laboratory includes a digital imaging system. In addition, the radiation therapy laboratory has a 3-D treatment planning system.

During the various phases of the curriculum, students will be assigned to one or more of the following affiliate institutions: VCU Health System's MCV Hospitals, McGuire Veterans Affairs Medical Center, CJW Medical Center, Southside Regional Medical Center and Henrico Doctors' Hospitals.

## Clinical radiation sciences courses

Descriptions for all courses offered by the university may be accessed through the online courses database at [www.pubapps.vcu.edu/vcucourses](http://www.pubapps.vcu.edu/vcucourses). You may search by unit, subject or keyword, as well as by degree level.

Follow these links to clinical radiation sciences [\(CLRS\) courses](#) or the [\(CLRZ\) laboratories](#).

## Department of Rehabilitation Counseling

Founded in 1955, the Department of Rehabilitation Counseling serves as a national leader in the professional preparation of certified rehabilitation counselors who exercise skill and competence on a high ethical level and with personal integrity. Accessible, innovative, research-based educational experiences that encourage the use of a critical and exploratory attitude are emphasized. The department seeks to perpetuate active programs of research and service, and maintain high levels of teaching competence. In partnership with students, community agencies and consumer and professional organizations, the department endeavors to advance the personal, social and economic independence of individuals with disabilities.

The Department of Rehabilitation Counseling is fully accredited by the Council on Rehabilitation Education (CORE), and is the only such program in the commonwealth of Virginia. The purpose of accreditation is to promote the effective delivery of rehabilitation services to people with disabilities by fostering ongoing review and improvements of rehabilitation education programs. CORE has developed a field-based research accreditation process that has gained widespread acceptance in the professional accreditation movement. With over 2,000 alumni, the department also enjoys solid relationships with many community organizations that serve as excellent sites for clinical training.

## Administration

**Amy J. Armstrong**

Department Chair

## Faculty adviser

Every student must have a faculty adviser to guide the student regarding course selection and scheduling, to supervise his/her research and to act as a channel of communication with the department, to other departments, and to the Graduate School. When the student receives notification of admission to the department, it is his/her responsibility to contact the faculty adviser to plan the program of study. Students consult with faculty advisers on a regular basis to ensure orderly progress through the entire program of study, choose clinical placement sites, select electives and plan their careers.

## Pathways

Pathways, initiated in the spring of 1996, is a unique interdisciplinary program concentration designed for undergraduate students from a wide variety of academic departments who are interested in pursuing alcohol and drug rehabilitation studies. A sequence of recommended courses is offered to students who are majoring in psychology, criminal justice, social work, pharmacy, nursing, rehabilitation counseling and other academic and professional disciplines. The sequence of course work depends upon the level of intensity sought by the student, and it may range from only a single introductory course to a complete specialization. Pathways enables students to select a curricular path that matches their substance abuse rehabilitation interest regardless of their discipline. The program is available to undergraduates and is arranged in collaboration with the

students major adviser and/or the director of the rehabilitation substance abuse counselor education concentration.

## Rehabilitation counseling courses

Descriptions for all courses offered by the university may be accessed through the online courses database at [www.pubapps.vcu.edu/vcucourses](http://www.pubapps.vcu.edu/vcucourses). You may search by unit, subject or keyword, as well as by degree level.

Rehabilitation Counseling, Master of Science (M.S.)

Rehabilitation Counseling, Master of Science in (M.S.)/Aging Studies, Certificate in (Post-baccalaureate graduate certificate) [combined]

**Apply online at** [graduate.admissions.vcu.edu](http://graduate.admissions.vcu.edu).

## Admission requirements

Professional Counseling, Certificate in (Post-master's certificate)			
Degree:	Semester(s) of entry:	Deadline dates:	Test requirements:
Post-master's certificate	Fall Spring	Apr 1 Oct 1	
<b>Special requirements:</b> Statement of academic and professional goals and of previous work or volunteer experience; three letters of reference from professors, employers or others who can assess applicant's capabilities (nonfamily members). A personal interview may be required.			

In addition to the general [admission requirements of the VCU Graduate School](#), applicants must have completed a master's degree in rehabilitation counseling or a related discipline.

Upon admission to the program, students must meet with an academic adviser to design an approved course of study that leads to the completion of the educational requirements for licensure or certification as a professional counselor.

## VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

**General academic regulations for  
all graduate students in all graduate programs at VCU**

## Program goals

The post-master's certificate program in professional counseling is designed for persons who hold the Master of Science or Master of Arts degree in counseling from VCU or other accredited institutions. The intent is to assist students in meeting the educational requirements for the Licensed Professional Counselor, the Licensed Substance Abuse Practitioner and the Certified Substance Abuse Counselor credentials in Virginia and other states.

The certificate program also may be pursued to fulfill preservice or continuing education requirements for various national certifications, such as National Certified Counselor or Certified Rehabilitation Counselor. Specialization requirements may exceed the minimum number of required credit hours for the certificate program as a whole.

Courses are selected from course offerings of the Master of Science in Rehabilitation Counseling program based on individualized need and in conjunction with a faculty adviser.

Specific goals include but are not limited to:

1. The encouragement of advanced graduate education in counseling
2. The facilitation of the professional counselor's career development efforts and goals
3. The facilitation of the acquisition or maintenance of professional state licenses or national certifications
4. The expansion of the student's awareness and expertise in specialized counselor roles and functions

## Student learning outcomes

Upon completion of the program, the graduate will be able to:

1. Develop and maintain confidential counseling relationships with individuals using established skills and techniques
2. Establish, in collaboration with the consumer, individual counseling goals and objectives
3. Apply advanced counseling and interviewing skills
4. Employ consultation skills with and on behalf of the consumer

## Degree requirements

In addition to general [Graduate School graduation requirements](#),

1. Students must complete a minimum of 15 graduate credit hours of course work in professional counseling that leads to the completion of the educational requirements for licensure or certification as a professional counselor, as prescribed in their approved courses of study. Specialization requirements may exceed the minimum number of required credit hours for the certificate program as a whole.
2. Students must maintain an overall minimum grade point average of 3.0.
3. The 15 graduate credit hours must not duplicate previous graduate course work completed at VCU or other institutions.
4. The 15 graduate credit hours must include six graduate credit hours in advanced counseling skills.
5. Transfer credits are not accepted.

## Curriculum requirements

Upon admission to the program, students must meet with an academic adviser to design an approved course of study that leads to the completion of the educational requirements for licensure or certification as a professional counselor. Each plan of study is individualized, but may include courses from the following list, if approved by the faculty adviser.

Courses	Credit hours
Licensed Professional Counselor credential	

RHAB 613 Advanced Rehabilitation Counseling Seminar (three-credit course; may be repeated for a total of nine credit hours)* (possible topics: cognitive behavioral therapy; crisis counseling, etc.)	9
RHAB 614 Counseling, Death and Loss*	3
RHAB 615 Human Growth and Development	3
*Courses that may satisfy the six graduate credit hours in advanced counseling skills requirement	

**Total graduate credit hours required (minimum) 15**

#### Certified Rehabilitation Counselor credential

(Choose five courses.)

RHAB 525 Introduction to Rehabilitation Counseling	3
RHAB 611 Theories of Professional Counseling	3
RHAB 623 Career Counseling and Job Placement	3
RHAB 624 Assessment and Evaluation	3
RHAB 640 Medical and Psychosocial Aspects of Disabilities	3
RHAB 633 Case Management	3
RHAB 654 Multicultural Counseling	3
RHAB 691 Counseling Techniques	3

**Total graduate credit hours required (minimum) 15**

### Licensure requirements

Refer to the Department of Rehabilitation Counseling website for additional information on [Licensed Professional Counselor](#) and the [Commission on Rehabilitation Counselor Certification website](#) for Certified Rehabilitation Counselor examination requirements.

### Graduation requirements

As graduate students approach the end of their academic programs and the final semester of matriculation, they must make formal application to graduate. No degrees will be conferred until the application to graduate has been finalized.

Graduate students and program directors should refer to the following graduation requirements as published in the Graduate Bulletin for a complete list of instructions and a graduation checklist.

### Admission requirements

Rehabilitation Counseling, Master of Science in (M.S.)			
Degree: M.S.	Semester(s) of entry: Fall	Deadline dates: Mar 1	Test requirements: Graduate Record Examination or Miller Analogies Test
Special requirements: Full- and part-time students can be accommodated by the program. Applications are reviewed on an ongoing basis. To be considered, all pertinent materials must be received in the department by March 1.			

In addition to the [general admission requirements of the VCU Graduate School](#), applicants must meet the following requirements:

- An undergraduate GPA of 3.0 on a 4.0 scale; or 3.0 in the last 60 semester credit hours (based upon transcripts provided to the Graduate School)
- Three positive letters of reference (on reference form provided by the Graduate School) from professors, employers or someone who knows the applicant's capabilities (not family member)
- Satisfactory performance on either the GRE or the MAT
- A relevant and clear statement of goals for graduate study and career
- Statement of previous work or volunteer experience

A personal interview with a faculty member may also be required.

A complete set of application materials is available from the [Graduate Admissions website](#).

### VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

#### General academic regulations for all graduate students in all graduate programs at VCU

### Program goal

The VCU Department of Rehabilitation Counseling serves as a national leader in the professional preparation of certified rehabilitation counselors who will exercise skill and competence on a high ethical level and with personal integrity. The department seeks to perpetuate active programs of research and service and maintain high levels of teaching competence. In partnership with students, community agencies and consumer and professional organizations, the Department of Rehabilitation Counseling endeavors to enhance the personal, social and economic independence of individuals with disabilities.

### Student learning outcomes

Upon completion of the program, the graduate will be able to:

- Satisfactorily practice in a legal and ethical manner
- Satisfactorily practice with individuals and groups
- Satisfactorily practice rehabilitation case management

- Satisfactorily show knowledge of career development
- Satisfactorily identify/use assessment information
- Satisfactorily practice job development/placement
- Satisfactorily use information from rehabilitation research

## Degree requirements

In addition to general [VCU Graduate School graduation requirements](#), the minimum degree requirement is 48 graduate credit hours, including 33 credit hours of didactic course work, 100 hours of fieldwork, 600 hours of internship and three credit hours of electives.

Graduates from accredited rehabilitation counseling programs are typically trained in counseling theory and techniques; individual, group and environmental assessment; psychosocial and medical aspects of disability; human development; cultural diversity; principles of psychiatric rehabilitation, case management and rehabilitation planning; issues and ethics in rehabilitation service delivery; technological adaptation; vocational evaluation and work adjustment; career counseling; implementation of the Americans with Disabilities Act; job development; and placement.

The on-campus Master of Science in Rehabilitation Counseling degree has been available since 1955. The program consists of 48 graduate credit hours. Currently, 90 full- and part-time graduate students are enrolled on campus. In addition, the same degree has been made available on a distance-learning basis since July 1999. Ten required courses and the one elective are available online according to a predetermined schedule. Two clinical counseling courses also are available on site in a compressed schedule (typically one to two weeks) at various locations. Alternately, up to 12 hours may be taken at an accredited graduate counseling program and accepted as transfer credit hours with prior approval. Approved internships with appropriate faculty and agency supervision are negotiated by the department, student and the local community organization.

### Transfer credit

A maximum of 12 graduate credit hours may be transferred from another VCU graduate program or outside institution if not applied previously to another degree. Transfer credit hours must carry a minimum grade of B from an accredited institution. Acceptance of transfer credit hours is made at the level of the department chair and dean of the School of Allied Health Professions. Transfer credit hours earned as a nondegree-seeking graduate student are limited to six credit hours. Credit hours earned as deficiency hours or to demonstrate the ability to compete at the graduate level, though transferable, may not be applied to the 48-credit-hour program of study.

## Curriculum requirements

Courses	Credit hours
RHAB 521 Addiction Counseling	3
RHAB 525 Introduction to Rehabilitation Counseling	3
RHAB 611 Theories of Professional Counseling	3
RHAB 612 Group Counseling Theories and Techniques	3
RHAB 615 Human Growth and Development	3
RHAB 623 Career Counseling and Job Placement	3
RHAB 624 Assessment and Evaluation	3
RHAB 625 Research and Program Evaluation	3
RHAB 633 Case Management	3
RHAB 640 Medical and Psychological Aspects of Disabilities	3
RHAB 642 Diagnosis and Treatment of Mental Health Disorders	3
RHAB 654 Multicultural Counseling	3
RHAB 691 Counseling Techniques	3
RHAB 695 Supervised Clinical Practice in Substance Abuse Rehabilitation or RHAB 696 Supervised Clinical Practice in Rehabilitation Counseling (includes 600 hours of internship and CRC/comprehensive examination)	6
Possible electives	3

RHAB 533 Directed Readings in Rehabilitation  
 RHAB 613 Advanced Rehabilitation Counseling Seminar  
 RHAB 685 Institutes and Workshops in Rehabilitation (ethics)  
 RHAB 688 Institutes and Workshops in Rehabilitation (positive leadership)  
 Other topics may be offered as well

**Total graduate credit hours required (minimum)**

**48**

## Degree candidacy requirements

A graduate student admitted to a program or concentration requiring a final research project, work of art, thesis or dissertation, must qualify for continuing master's or doctoral status according to the degree candidacy requirements of the student's graduate program. Admission to degree candidacy, if applicable, is a formal statement by the graduate student's faculty regarding the student's academic achievements and the student's readiness to proceed to the final research phase of the degree program.

Graduate students and program directors should refer to the following degree candidacy policy as published in the VCU Graduate Bulletin for complete information and instructions.

### Degree candidacy requirements

## Graduation requirements

As graduate students approach the end of their academic programs and the final semester of matriculation, they must make formal application to graduate. No degrees will be conferred until the application to graduate has been finalized.

Graduate students and program directors should refer to the following graduation requirements as published in the Graduate Bulletin for a complete list of instructions and a graduation checklist.

### Graduation requirements

## Other information

A student handbook is made available to students through a closed electronic system (Blackboard) and at new student orientation.

**Rehabilitation Counseling, Master of Science (M.S.)/Aging Studies, Certificate in (Post-baccalaureate graduate certificate) [combined]**

### Graduate program director

E. Ayn Welleford, Ph.D.

Chair, Department of Gerontology

**Program website:** [sahp.vcu.edu/gerontology](http://sahp.vcu.edu/gerontology)

**Refer to the [program search](#) function of the online VCU Bulletins for a complete listing of all programs, concentrations and related curricular options.**

Aging Studies, Certificate in (Post-baccalaureate graduate certificate)  
 Occupational Therapy, Master of Science in (M.S.O.T.)/Aging Studies, Certificate in (Post-baccalaureate graduate certificate) [combined]  
 Pharmacy, Doctor of (Pharm.D.)/Aging Studies, Certificate in (Post-baccalaureate graduate certificate) [combined]  
 Social Work, Master of (M.S.W.)/Aging Studies, Certificate in (Post-baccalaureate graduate certificate) [combined]

**Apply online at** [graduate.admissions.vcu.edu](http://graduate.admissions.vcu.edu).

The Department of Gerontology, in cooperation with other programs at the university, provides students interested in working with elders or in gerontological settings with the opportunity to complete the Certificate in Aging Studies while also completing requirements for other degree programs. Students must apply separately to the participating programs and must meet all admission and degree requirements for both programs. In some cases, and with the approval of the advisers of both programs, course work in one program may be approved to satisfy a course requirement in another program.

The Department of Rehabilitation Counseling, in cooperation with the Department of Gerontology, provides its degree-seeking students with the opportunity to earn the Certificate in Aging Studies while concurrently completing the requirements for the Master of Science in Rehabilitation Counseling. Students must meet admission requirements for both the rehabilitation degree and the aging studies certificate program, and admission into one is independent of the other.

## Virginia Center on Aging

The Virginia Center on Aging, established at VCU by the Virginia General Assembly in 1978, is a statewide resource for aging-related research, education, service, training and technical assistance. It serves as a focal point for the collection, assessment and maintenance of data on elders in the commonwealth; designs and tests innovative demonstration projects in education and service delivery; and assists public and private organizations in meeting the needs of older citizens.

The Virginia Center on Aging and the Department of Gerontology maintain the Information Resources Center, a broad collection of print and audiovisual materials on aging that is available on loan. Short reports and training manuals may be obtained at cost. The Virginia Center on Aging also administers the Alzheimer's and Related Diseases Research Award Fund that provides seed grants of \$25,000 each to researchers in Virginia in order to investigate biomedical, psychosocial, clinical, public policy and other aspects of dementing illness.

The Virginia Center on Aging regularly partners with other units of VCU in developing, conducting and evaluating research and training projects related to aging, disabilities, lifelong learning and health problems. The center is located in the Theater Row building at 730 E. Broad St.

## **2014-15 Graduate and Professional Programs Bulletin**

---

**School of the Arts**

The School of the Arts offers 25 degree programs and comprises more than 3,000 students. With the inclusion of our campus in Qatar come an additional four programs. It all began as one night class taught by Theresa Pollak in the fall of 1928.

The school strives to be a stimulating community of students and teachers who cross the boundaries of conventional art and design disciplines, apply aesthetic and intellectual vision to the expression of complex ideas, value artistic tradition and experimentation in the search for creative solutions, connect international experience with professional education, integrate technical skills with theoretical understanding and care about the impact of their work on people.

## Accreditation

VCU School of the Arts is accredited by the National Association of Schools of Art and Design, the National Association of Schools of Dance, the National Association of Schools of Music, and the National Association of Schools of Theatre.

### Visual arts

Visual arts degree programs: art education, art history, cinema, communication arts, craft and material studies, fashion (design and fashion merchandising), graphic design, interior design, kinetic imaging, painting and printmaking, and sculpture

National Association of Schools of Art and Design

Art education (bachelor's and master's degrees)  
National Association of Schools of Art and Design, National Council for Accreditation for Teacher Education, Virginia Department of Education

Interior design (bachelor's degree)  
National Association of Schools of Art and Design, Council for Interior Design Accreditation

### Performing arts

Dance and choreography (bachelor's degree)  
National Association of Schools of Dance

Music (bachelor's and master's degrees)  
National Association of Schools of Music  
• Music education concentrations (bachelor's and master's degrees)  
National Council for Accreditation National Association of Schools of Music, for Teacher Education, Virginia Department of Education

Theatre (bachelor's and master's degrees)

---

## Programs

The School of the Arts offers degrees in the following areas of study:

### Art Education

- Bachelor of Fine Arts
- Master of Art Education

### Art History

- Bachelor of Arts
- Master of Arts
- Doctor of Philosophy

### Cinema

- Bachelor of Arts

### Communication Arts

- Bachelor of Fine Arts

### Craft and Material Studies

- Bachelor of Fine Arts
- See Fine Arts concentrations

### Dance and Choreography

- Bachelor of Fine Arts

### Design

- Master of Fine Arts (with concentrations in interior environments and visual communications)

### Fashion

- Bachelor of Arts
- Bachelor of Fine Arts

### Fine Arts

- Master of Fine Arts (with concentrations in ceramics, fibers, furniture design, glassworking and jewelry/metalworking; kinetic imaging; painting or printmaking; photography and film; sculpture)

### Graphic Design

- Bachelor of Fine Arts

### Interior Design

- Bachelor of Fine Arts

### Kinetic Imaging

- Bachelor of Fine Arts
- See Fine Arts

### Music

- Bachelor of Arts
- Bachelor of Music
- Master of Music

### Painting and Printmaking

- Bachelor of Fine Arts
- See Fine Arts

### Photography and Film

- Bachelor of Fine Arts
- See Fine Arts

### Sculpture

- Bachelor of Fine Arts
- See Fine Arts

### Theatre

- Bachelor of Arts
- Bachelor of Fine Arts

- Master of Fine Arts

## School of the Arts Visual Resource Center

Virginia Commonwealth University's Cabell Library houses an extensive collection of books, publications and magazines on the visual and performing arts. VCU subscribes to ARTstor, the largest online image bank for the arts.

VCU is a short distance from Washington, D.C., Baltimore, Philadelphia and New York and the museums, libraries and research facilities in those urban areas.

## Graduate information

### Graduate admission

#### Admission procedures

Application forms and instructions for applying to all graduate programs in the School of the Arts are available on the School of the Arts Web site at [www.vcu.edu/arts/](http://www.vcu.edu/arts/).

General information about admission to graduate study and application procedures can be found in the [Graduate School](#) section of this bulletin or on the [Graduate School Web site](#).

#### Admission requirements

For Ph.D. degree, see Ph.D. in Art History section.

For all other degrees (M.A., M.A.E., M.F.A. and M.M.):

- Applicants should hold the baccalaureate degree from an accredited institution.
- It is expected that applicants will have a 3.0 ("B") average on the last 60 semester hours of undergraduate work.

The prospective student should consult the appropriate section of this bulletin for additional admission requirements for a particular degree program. Such requirements include:

- The Graduate Record Examination (GRE) for applicants to art history.
- An audition and examination for music applicants, as described in the program description for the M.M. degree.
- An audition or presentation of portfolio, as well as a personal interview, for applicants for the M.F.A. in Theatre.
- A portfolio review for all applicants to the visual arts M.F.A. degrees (a personal interview is encouraged).

### Graduate student status

The School of the Arts has two categories of graduate students — full time or part time. Full- or part-time graduate students are accepted either provisionally or as students with full standing into the graduate degree programs of the various departmental areas. These students may matriculate full time or part time except for the residence limitation discussed elsewhere in this bulletin.

Most graduate programs in the school require full-time status, including the concentrations in the Master of Fine Arts in Fine Arts degree (photography and film, painting and printmaking, sculpture, kinetic imaging and ceramics, fibers, furniture design, glassworking and jewelry/metalworking) and the visual communication track of the M.F.A. in Design. Check with the individual departments to confirm whether full-time status is required or part-time status is permitted.

Holders of the baccalaureate degree from recognized institutions may enroll in graduate courses as nondegree-seeking special graduate students, but such courses are not applicable toward a graduate degree from this institution unless the student is accepted into a graduate degree program prior to the conclusion of the semester in which the student registered as a nondegree-seeking graduate student.

A nondegree-seeking student who is later admitted as a degree-seeking student will not be allowed to apply toward a degree more than six credits earned as a nondegree-seeking student.

The second type of nondegree-seeking graduate student is the student who holds a baccalaureate degree, who wishes to take graduate courses for personal enrichment, and who does not intend to work toward a graduate degree. There is

no limit to the number of credits that students in this category may take, as long as the academic performance is credible.

**All nondegree-seeking ("special") graduate students must have written permission from the chair of the appropriate department in order to enroll in classes.**

### Registration for graduate students

Graduate art students are urged to plan their schedules and register during advanced registration. Registration materials for students accepted into advanced degree programs are available in the department during the advance registration and registration periods. The advantage of advanced registration is that of securing places in classes before they are closed and of obtaining proper counsel from advisers. All graduate students must see their assigned advisers for schedule planning and signature approval. New nondegree-seeking graduate students, or those contemplating registration as such, must secure written permission to register from the departmental chair.

### Continuous enrollment policy for graduate students

Graduate students in the School of the Arts must observe the University Continuous Enrollment Policy as explained in the Graduate Studies at VCU chapter of this bulletin.

Candidates for all advanced degree programs, after completing all formal course work, must register for at least one semester hour of credit each semester, except summer, until the culminating graduate project (dissertation, thesis, creative project, exhibition, recital, etc.) is completed and the student is ready to graduate. Also, if candidates intend to graduate in August, they must be enrolled for at least one semester hour in the summer session.

### Transfer credit and graduate study

A maximum of nine graduate credits may be transferred from other accredited institutions and applied to any of the graduate degree programs in the School of the Arts. However, transfer credit is not typically granted to incoming students and is approved at the discretion of the department chair.

### Graduate advising

All students accepted into advanced degree programs must make an appointment with the chair of the department or the graduate adviser prior to registration for their first semester of course work. Normally, the student's initial adviser will be the chair of the department; but students may be assigned an adviser more directly related to their areas of concentration.

Students also are encouraged to consult faculty members outside their major area and arrange with the appropriate departmental chair to use facilities and equipment available in other departments.

### Finances for graduate students

#### Special charges

All degree-seeking graduate students are charged an art comprehensive fee. The art comprehensive fee is not charged to students who are registered only in course work to complete a dissertation/thesis/creative project or who are enrolled in order to satisfy the one-credit requirement for continuous enrollment. Nondegree-seeking graduate students enrolled in any of the courses that require an additional outlay for materials will be billed for those individual fees by the Student Accounting Department.

In addition to the comprehensive fee for all majors in the School of the Arts, all students registering for private music lessons pay an applied music fee.

#### Financial support

The School of the Arts awards a limited number of graduate assistantships and scholarships to full-time students. Please see the [specific program requirements](#) for more information and application deadlines.

### Advanced degree candidacy

Students seeking an advanced degree in all programs must apply for advanced degree candidacy. Those seeking the M.A.E. And the M.M. must submit the application during or after the completion of the first nine semester credits of graduate work and prior to the completion of 18 semester credits. Students

pursuing the M.F.A. Degree must submit the application during or after the completion of the first 15 semester credits of graduate work and prior to the completion of 30 semester credits. Applications for candidacy are available in the departmental offices and the Office of Graduate Studies, School of the Arts.

Admission to a degree program does not constitute candidacy, and admission to degree candidacy is not an automatic process. Departments carefully review applicants for candidacy on such basis as examination or review of creative work or performance. Upon certification by the department that the applicant has met all departmental expectations, including the minimum 3.0 GPA and is adequately prepared to continue pursuing the degree program, the School of the Arts will admit the applicant to degree candidacy.

Students who are found to be inadequately prepared to continue their graduate programs, but who demonstrate the potential to ultimately fulfill degree requirements will be advised as to what additional work will be needed in order to meet departmental expectations. Candidacy, in such instances, will be postponed until departmental expectations are satisfied; postponement of candidacy may result in termination of financial assistance. Students whose academic or creative work demonstrate no likelihood of successful completion of a graduate program will be denied candidacy by the School of the Arts.

### Advanced degree requirements

- Students must achieve candidacy (with the exception of art history students).
- Students must complete all formal course work.
- Students must maintain at least a 3.0 cumulative GPA. No grade below “B” will count toward graduation for students in the art history and the visual communications degree programs. For all students in the theatre program, any grade below “B” in any course will result in termination from the degree program. Students in all programs in the Department of Music must not have more than six hours or 20 percent of semester hours attempted — whichever is greater — with a grade of “C.” For all other degree programs in the School of the Arts, no grade below “B” is acceptable for any course within the student’s major department, and a grade below “B” in a course in the student’s major department will result in termination from the degree program.
- All students must complete the culminating project (dissertation, thesis, final examination, creative project, recital, etc.) as outlined in departmental guidelines. The thesis, or other written documentation related to the culminating project, must be done in a form that can be retained by the university and in accordance with departmental guidelines. Students preparing a thesis must use the guidelines set forth in the Preparation of Thesis, available in departmental offices or the Office of Graduate Studies, School of the Arts.

### Residency requirements for graduate study

Candidates for the master of fine arts degree in the fine arts and theatre must complete a minimum of one-third of their degree program semester-hour credits within one calendar year.

Candidates for all master’s degrees in the School of the Arts have five years plus two possible extensions of one year each to complete all degree requirements. The above limitations apply to both full-time and part-time students. A petition for an extension is initiated with the academic or thesis adviser.

### Media, Art, and Text, Doctor of Philosophy (Ph.D.)

#### Graduate program director

Eric G. Garberson, Ph.D.

Associate professor, Department of Art History

[egggarberson@vcu.edu](mailto:egggarberson@vcu.edu)

(804) 828-7295

#### Additional contact

Thom Didato

Graduate programs adviser, Department of English

[tdidato@vcu.edu](mailto:tdidato@vcu.edu)

(804) 828-1329

Program website: [matx.vcu.edu](http://matx.vcu.edu)

Refer to the [program search](#) function of the online VCU Bulletins for a complete listing of all programs, concentrations and related curricular options.

Apply online at [graduate.admissions.vcu.edu](http://graduate.admissions.vcu.edu).

### Admission requirements

Media, Art, and Text, Doctor of Philosophy (Ph.D.)			
Degree: Ph.D.	Semester(s) of entry: Fall	Deadline dates: Jan 15	Test requirements: GRE-General

In addition to the [general admission requirements of the VCU Graduate School](#), the following requirements represent the minimum acceptable standards for admission.

1. Applicants must hold a master’s degree (M.A., M.F.A., M.S.) in a relevant field.
2. Send the following, in the formats indicated, by email to the graduate programs adviser. **Note:** Materials submitted in any other way, as specified below (on paper, disk, etc.) will be discarded without review.
  - a. Writing sample demonstrating the ability to write clearly, analyze effectively and conduct original research in advanced doctoral-level seminars. This may be a master’s thesis, a graduate-level seminar paper or a published essay. Submit as a PDF by email.
  - b. Statement of purpose describing the applicant’s interest, motivation and goals in pursuing this degree. The statement should specifically address the importance of interdisciplinarity to the applicant’s academic goals, and it should also offer evidence of preparation for the study of media, art, and text. The applicant should indicate the specific area of study and research to be pursued at VCU and identify faculty who might potentially direct dissertation research. Submit as a PDF by email. **Note:** This is a required separate submission of the same essay included in the online application.
  - c. Academic curriculum vitae or professional resume listing all colleges and universities attended and degrees earned, all professional and academic positions held, all publications and/or exhibitions, technical skills, and any other relevant information. Include URLs for personal and/or professional websites. Submit as PDF by email.
  - d. Letters of recommendation from three present or former instructors or other individuals qualified to evaluate the applicant’s ability to engage in interdisciplinary study at the doctoral level. Have recommenders submit letters as PDFs directly to Thom Didato using only academic or professional email accounts.
5. Applicants who wish to pursue creative work at VCU must also submit a portfolio. Those with an M.F.A. who do not wish to continue creative work should consult with the MATX director about this requirement. Materials submitted should demonstrate excellence in studio or professional practice and the potential to do graduate-level work in media, art, and text. Portfolios will be reviewed by the MATX admissions committee as well as relevant faculty in the School of the Arts and the Richard T. Robertson School of Media and Culture. Please observe the following guidelines:
  - a. Those working in 2-D or 3-D mediums should provide 20 images of representative work arranged chronologically, beginning with the most recent.
  - b. Those working in sound and time-based media, as well as those in the performing arts, should provide clips totaling no more than 10 minutes.
  - c. Those working across media may submit a combination of the above.
  - d. The portfolio should be accompanied by title, date, media and dimensions of the work, as well as a brief statement or other information that will help the admissions committee in evaluating the work.

Small files illustrating 2-D or 3-D work may be submitted as JPEGs or PDFs via email. Sound or video files should be posted to Vimeo or Sound Cloud with a functioning link submitted by email. Portfolio materials may also be posted to a personal or professional website and the link submitted by email.

## VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

### General academic regulations for all graduate students in all graduate programs at VCU

## Program goal

VCU's interdisciplinary doctoral program in media, art, and text is a joint endeavor of the Department of English, the School of the Arts and the Richard T. Robertson School of Media and Culture. The program prepares students primarily to teach at the college or university level, although some pursue careers in related media fields. MATX emphasizes the historical and theoretical foundations essential to the scholarly study of media, both old and new, broadly defined. It provides an intellectually stimulating environment that encourages students to work both collaboratively and independently, as well as across and between disciplines and media. Students maintain a base in their primary area of research, which is usually but not always the field in which they have done prior graduate work.

## Student learning outcomes

1. Develop advanced communication skills in writing, speaking and the use of multimedia
2. Demonstrate broad knowledge of history and theory as the foundation for interdisciplinary work in a specialized facet of media, art, and/or text
3. Develop competence in interdisciplinary and disciplinary research methods and responsible conduct of research
4. Develop specialized knowledge in relevant fields to support dissertation and subsequent research
5. Demonstrate the ability to conduct independent research and produce new, specialized knowledge within the broad parameters of media, art, and text
6. Develop a strong basis for ongoing professional practice

## Degree requirements

In addition to general [VCU Graduate School graduation requirements](#), students are required to complete course work in core and elective courses and to conduct significant research.

1. Credit hour requirements: Students in the MATX program are required to earn a minimum of 42 graduate-level credit hours beyond the master's. At least one-half of the credit hours presented for graduation must be at the 600 level or higher. The 42-hour curriculum comprises 36 hours of course work and a minimum of six hours of dissertation research. Course work includes a core of four required courses taken during the first two semesters by all incoming students. Three doctoral seminars provide a shared historical and theoretical foundation for the study of media, art, and text, while a workshop offers the opportunity to develop and expand professional and/or creative skills relevant to the student's career goals and research focus. In addition, all students will take a research methods course in a field relevant to their anticipated area of dissertation research. Beyond the core, students select 21 hours of elective credit hours from course offerings in disciplines relevant to

their research interests and career goals. The program offers a topics seminar focused on the history, theory or practice of media, art, and text. Independent study and internships are also available as electives. While enrollment in courses with the MATX prefix is guaranteed to matriculated MATX students, enrollment in other graduate courses is subject to the conditions established by individual units. Together the core and the electives support the interdisciplinary work of the dissertation, which is an original scholarly examination of some aspect of media, art, and/or text. It may include work in media other than text. It is supervised by a committee consisting of four or five members drawn from disciplines relevant to the research topic.

2. Grade requirements: To graduate, degree applicants must achieve an overall grade point average of 3.0 (B) on a 4.0 scale with a grade of C in no more than two courses. The GPA for graduation will be based on all graduate courses attempted after acceptance into the program.
3. Requirements for admission to candidacy: Before beginning formal dissertation research, students must complete all 36 hours of required course work, both stages of the e-portfolio and the requirements described below. Upon completion of these, the student will apply for degree candidacy.
4. Dissertation committee: The dissertation committee consists of the director (who must hold a Ph.D.) and three or four additional members whose scholarly knowledge and interests are relevant to the project. The committee must have at least one member from each of the sponsoring units (Department of English, School of the Arts, Richard T. Robertson School of Media and Culture). All must be members of VCU's graduate faculty. Appropriate faculty from outside VCU may serve on committees (but not as director) with the approval of the MATX director and the graduate dean. It is the student's responsibility to assemble the committee, in consultation with the dissertation director. Committees will not be appointed by the program.
5. E-portfolio: Work on the e-portfolio will begin in MATX 604 in the spring of the first year. There are no technical specifications, and content will include, but is not limited to, work done in the first two years in the program. It will take the form of a website and must demonstrate the technical skills (Web design, audio, video, etc.) relevant to the student's work on the dissertation and the career sought after VCU. Submission is a two-stage process:
  - a. Stage 1 (May of the first year): a three- to five-page design rationale for the portfolio site along with a mock-up or rough structure
  - b. Stage 2 (April of the second year): a finished, live site accompanied by a five-page statement relating it to the student's work inside and outside the program and outlining how it uses media techniques to promote a specific professional and/or creative identity (Note: Each submission is graded pass/fail and may be repeated once. A second failure results in automatic termination from the program.)
3. Competency: Candidates must demonstrate competency in a skill or technique relevant to the dissertation research or planned professional career. The dissertation committee approves and administers the competency portion. Graded pass/fail, the test may be repeated once.
4. Bibliography exam: Candidates will complete an exam on a reading list of 20 to 30 sources relevant to or supportive of the dissertation topic. The dissertation committee approves and administers the bibliography exam. Graded pass/fail, the test may be repeated once.
5. Dissertation prospectus and prospectus defense: The prospectus is a 15- to 20-page document that indicates the significance of the proposed research, gives a short review of relevant literature, states the research question, specifies the proposed methodology and indicates how the project lays the foundation for the anticipated academic or professional career. It also includes a work plan for the completion of research and writing, as well as a complete bibliography. The prospectus is defended orally before the dissertation committee, which may accept, reject or require revisions. The defense may be repeated once.
6. Dissertation and dissertation defense: The dissertation is an original, interdisciplinary and scholarly examination of a topic relevant to an aspect of media, art, and/or text. It may include work in media other than text. Given the varied nature of doctoral research, there is no set time frame for completion of a dissertation. It is expected, however, that the dissertation will take about two years after attaining candidacy, but it must be defended within the eight-year time limit for completion of the doctoral degree. The dissertation will be defended orally before the dissertation committee.

Successful defense of the dissertation completes the requirements for the degree.

## Curriculum requirements

Courses	Credit hours
MATX 601 Texts and Textuality	3
MATX 602 History of Media, Art, and Text	3
MATX 603 History of Interdisciplinarity and Multimedia	3
MATX 604 Workshop	3
MATX 897 Dissertation Project	6
Choose one methods course from list 1 below	3
Choose elective courses from list 2 below (Elective courses other than those listed may be taken with approval of the MATX program director and the offering department.)	21
<b>Total graduate credit hours required (minimum)</b>	<b>42</b>

### List 1: Methods courses

ARTH 690 Historiography and Methodology in Art History	3
ENGL 605 Introduction to Scholarship in English Studies	3
GSWS 602 Feminist Research Epistemology and Methods	3
MASC 611 Research Methods in Mass Communications	3

### List 2: Recommended electives

## Degree candidacy requirements

A graduate student admitted to a program or concentration requiring a final research project, work of art, thesis or dissertation, must qualify for continuing master's or doctoral status according to the degree candidacy requirements of the student's graduate program. Admission to degree candidacy, if applicable, is a formal statement by the graduate student's faculty regarding the student's academic achievements and the student's readiness to proceed to the final research phase of the degree program.

Graduate students and program directors should refer to the following degree candidacy policy as published in the VCU Graduate Bulletin for complete information and instructions.

### Degree candidacy requirements

## Graduation requirements

As graduate students approach the end of their academic programs and the final semester of matriculation, they must make formal application to graduate. No degrees will be conferred until the application to graduate has been finalized.

Graduate students and program directors should refer to the following graduation requirements as published in the Graduate Bulletin for a complete list of instructions and a graduation checklist.

### Graduation requirements

## Other information

The MATX student handbook is available at [matx.vcu.edu/program/handbook](http://matx.vcu.edu/program/handbook).

## Department of Art Education

The Department of Art Education supports instruction in art that encourages the construction of meaning. Faculty and students are actively involved with the art world, education and local and global communities through art-based service-learning, visual culture studies, critical thinking, exhibition, assessment, curriculum, critical theory and emerging digital technologies (virtual and interactive).

The department emphasizes interdisciplinary connections throughout the School of the Arts and the university as a whole. Through their own research and instruction, art teacher candidates engage their students and themselves in traditional and nontraditional forms of inquiry to contribute to the continuing growth and strength of the profession.

## Administration

**Sara Wilson McKay**

Associate Professor and Department Chair

## Art education courses

Descriptions for all courses offered by the university may be accessed through the online courses database at [www.pubapps.vcu.edu/vcucourses](http://www.pubapps.vcu.edu/vcucourses). You may search by unit, subject or keyword, as well as by degree level.

Follow this link to art education (ARTE) courses.

## Art Education, Master of (M.A.E.)

**Program accreditation**

National Association of Schools of Art and Design  
National Council for Accreditation of Teacher Education

**Graduate program director**

Melanie L. Buffington, Ph.D.  
Associate professor  
[mbuffington@vcu.edu](mailto:mbuffington@vcu.edu)

**Program coordinator**

Danielle M. Shutt  
Program coordinator  
[artedgrad@vcu.edu](mailto:artedgrad@vcu.edu)  
(804) 828-1996

**Program website:** [arts.vcu.edu/arteducation/mae](http://arts.vcu.edu/arteducation/mae)

**Refer to the [program search](#) function of the online VCU Bulletins for a complete listing of all programs, concentrations and related curricular options.**

**Apply online at [graduate.admissions.vcu.edu](http://graduate.admissions.vcu.edu).**

**Admission requirements**

Art Education, Master of (M.A.E.)			
Degree: M.A.E.	Semester(s) of entry: Fall	Deadline dates: Jan 15	Test requirements: GRE required if undergraduate GPA is below 3.2; optional if 3.2 or higher.
Special requirements: See the <a href="#">School of the Arts admissions page</a> for the specific directions about the portfolio, letters of reference, etc.			

In addition to the [general admission requirements of the VCU Graduate School](#), applicants must meet the following requirements:

- Thirty-six undergraduate credit hours of art and art history course work (Students who do not have these credit hours from the undergraduate degree are welcome to take undergraduate courses to earn these credit hours before applying to VCU. These can be taken at any accredited undergraduate institution.)
- An undergraduate degree in art education, studio art, art history or a related field

It is desired, though not required, for students to have some teaching experience before applying.

**VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs**

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

**General academic regulations for  
all graduate students in all graduate programs at VCU**

**Program goal**

Through engagement with theory, research and emerging technologies, the Master of Art Education program prepares art educators to be mindful professionals who are active in the field of art education.

The program offers two specific options:

1. One option is for teachers who are already licensed and who wish to deepen their understanding of art education.
2. The second is for people who hold baccalaureate degrees and wish to earn a master's degree that may include a teaching license.

The program includes required and elective courses and allows students to pursue an area of interest. All students are expected to work at a high level of independence, be self-motivated, respect peers and instructors and participate in the opportunities that the Department of Art Education and the School of the Arts offer. With the assistance of the adviser, the student determines a viable structure for the content and sequence of a program of graduate study. Such a program can utilize the collective expertise of the art education faculty as well as appropriate community resources. Graduate course work, therefore, could include both on-campus and off-campus involvement.

Opportunities for personal growth through the M.A.E. program also include the rich resources of other graduate departments in the university in the visual and performing arts, education (including supervision, administration and specialty areas), the natural and social sciences and the humanities. Alternative approaches to traditional thesis methods are also encouraged within the program.

**Student learning outcomes**

1. **Theoretical foundations:** Students will demonstrate an ability to analyze varying points of view regarding art education theories.
2. **Research competencies:** Students will demonstrate the ability to apply research methods and methodologies to write a realistic proposal.
3. **Skills with and knowledge of emerging technologies:** Students will demonstrate knowledge of emerging technologies for teaching, research or art-making.
4. **Command of literature and practice in art education:** Students will demonstrate historical and current knowledge of theoretical and practical issues in art education.

**Degree requirements**

In addition to general [VCU Graduate School graduation requirements](#), the M.A.E. program requires a minimum of 36 graduate credit hours, including required art education and approved elective courses.

**Licensure**

For students who also pursuing teaching licensure, there are additional requirements, including: EDUS 301, ARTE 404, ARTE 550 or SEDP 505, ARTE 501, ARTE 502, and a semester of student teaching. The electives in the following curricular requirements account for some of these courses. The M.A.E. plus licensure requires a minimum of 36 graduate credit hours plus 13-16 of undergraduate credit hours.

Students who wish to be considered for a teaching license are required to complete a series of tests as mandated by the Virginia Department of Education. See [arts.vcu.edu/arteducation/mae/testing](http://arts.vcu.edu/arteducation/mae/testing) for additional information.

**Written examination**

After completing nine credit hours, including ARTE 611, and before completing 18 credit hours, all students are required to submit a written exam. This exam will determine whether a student is approved for degree candidacy and is ready to proceed to the final stages of the degree program. Failure to submit this required exam may result in dismissal from the program. Students who fail the exam will have a second chance the following semester. Students who fail on the second attempt will be dismissed from the program.

**Thesis option**

A thesis or project option may develop from graduate course work or professional involvement. Projects are those endeavors of thesis proportion that do not fit the traditional thesis format. A thesis or project may be explored by descriptive research, historical research, empirical/statistical research, design of learning

packages, philosophical study, curriculum development, action research or other methodologies if deemed appropriate by the adviser and committee.

### Comprehensive exam option

In lieu of the thesis, students complete six credit hours of graduate seminar work (ARTE 600 taken twice with different topics and different faculty members) in the Department of Art Education. In addition, students must successfully pass a written and oral comprehensive examination in the later stages of their course work. The examination will pertain to the course work, to contemporary issues in the field and to students' particular areas of expertise. This option is suggested for students pursuing the track that results in the M.A.E. and simultaneous teaching licensure.

Students who do not pass all portions of the comprehensive exam will have one opportunity to retake the exam the following semester. Students who fail the exam on the second attempt will be dismissed from the program and will not be eligible to graduate from the Department of Art Education.

## Curriculum requirements

### Thesis option

Courses	Credit hours
<b>Core courses</b>	<b>12</b>
ARTE 611 Theory and Literature in Art Education (required first semester)	3
ARTE 665 Curriculum Development and Evaluation	3
ARTE 670 Technology in Art Education	3
ARTE 690 Issues and Methods of Inquiry in Art Education	3
Choose one additional ARTE class from the following list:	<b>3</b>
ARTE 508 Two-dimensional Art Experiences	3
ARTE 509 Three-dimensional Art Experiences	3

Graduate students and program directors should refer to the following graduation requirements as published in the Graduate Bulletin for a complete list of instructions and a graduation checklist.

### Graduation requirements

## Department of Art History

The Department of Art History offers programs that acquaint students with the humanistic discipline of art historical inquiry. While providing students with the opportunity for a broad education drawing on the liberal arts and humanities, the department also emphasizes a close bond with the studio and performing arts and enjoys a close relationship with the other departments in the School of the Arts.

The department offers a broad-based education in the humanistic discipline of art history at the baccalaureate, master's and doctoral levels.

Overseas studies are available through university-sponsored programs abroad in Europe and Asia. Graduate assistantships and fellowships are available to full-time graduate students.

Art History, Doctor of Philosophy (Ph.D.) with a concentration in historical studies

Apply online at [graduate.admissions.vcu.edu](http://graduate.admissions.vcu.edu).

## Admission requirements

Art History, Doctor of Philosophy (Ph.D.) with a concentration in curatorial			
Degree: Ph.D.	Semester(s) of entry: Fall only	Deadline dates: Jan 15	Test requirements: GRE
Special requirements: Writing sample			

Prospective students holding a master's degree in art history or a related field from VCU or any other accredited institution may apply directly to the doctoral program. Prospective students who hold only a bachelor's degree in art history or a related field also may apply directly to the Ph.D. program; if admitted, they select one of the three M.A. curriculum concentrations and complete 27 of the required 30 credit hours for the M.A. degree before beginning Ph.D. course work.

Applicants are encouraged to speak with a prospective dissertation adviser (the full-time faculty member whose research area corresponds to an applicant's interests).

In addition to the [general admission requirements of the VCU Graduate School](#), applicants to the Ph.D. in Art History must meet the following requirements:

1. A statement of purpose, 750-1000 words in length, that briefly recounts applicant's academic background, describes an avenue of inquiry that the applicant expects to explore, notes applicant's professional goals beyond graduate study and explains why VCU's Ph.D. in Art History program is suited to applicant's interests
2. A research/writing sample that has a clearly articulated thesis statement, identifies and interprets primary and/or secondary sources in support of a well-argued thesis, and offers a coherent, cohesive narrative
3. Three letters of recommendation, at least two of which are from faculty members who can assess the applicant's preparation and promise for graduate work (Some applicants may choose to solicit the third letter from a museum professional who has supervised the applicant's professional work in a museum setting.)
4. Official transcripts from schools where applicant completed course work applied toward the baccalaureate or master's degree
5. An official report of GRE scores

Applications are reviewed by the program's full-time faculty members, who assess an applicant's overall package of materials with particular attention to the statement of interest and writing sample. Applicants are encouraged to correspond with individual faculty members who share their areas of research interests.

## VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

### General academic regulations for all graduate students in all graduate programs at VCU

## Program goal

The Ph.D. in Art History is a research-oriented degree designed to train critical and productive scholars, college and university professors, and curators and museum professionals who are well-grounded in the literature, methodology and major art historical and/or museological problems in their selected areas of study.

All doctoral students establish a program of study that includes a major field of study and a minor field of study shared by a full-time faculty member. Students in the curatorial concentration select museum studies as either the major or minor field of study.

## Student learning outcomes

1. Students apply critical and analytical concepts, frameworks and methods.
2. Students contextualize scholarship in relationship to existing art historical/museological knowledge, discourse and/or debate.
3. Students write effectively for audiences of scholarly and non-specialist readers.
4. Students speak effectively to scholarly and non-specialist audiences.
5. Students demonstrate ability to translate art historical scholarship written in a language or languages relevant to their research.
6. Students conduct scholarly inquiry that makes a scholarly professional contribution.

## Degree requirements

In addition to general [VCU Graduate School graduation requirements](#), the program of study for students who have an M.A. degree upon applying for the Ph.D. program is determined on a case-by-case basis, to include at least 30 credit hours in the concentration area. Students may also be required to also complete ARTH 690 Historiography and Methodology of Art History, ARTH 694 Art History and Pedagogy and/or selected art history seminars if they have not completed equivalent courses in their master's programs and/or if their degrees were awarded in fields other than art history. Students in the curatorial concentration may also be required to take one or more museum studies course (ARTH 681-684, 691) if their M.A. programs did not include equivalent courses.

Students who matriculate into the concentration in historical studies with only a baccalaureate degree initially complete the requirements in either the concentration in historical studies or the concentration in architectural history in the M.A. program; they then proceed to complete the following 30 credit hours.

### Major and minor art historical field of study

Students complete a major and a minor art historical field of study of their choosing. The major area requires three seminars, while the minor requires two seminars. M.A./Ph.D. students may complete some of these courses while at the master's stage.

### Language proficiency

Doctoral students must demonstrate competency in two foreign languages relevant to their areas of research and approved by the departmental graduate committee before admission to candidacy. Foreign language competency demonstrated for an M.A. may be applied to this requirement. The Department of Art History administers language exams and offers a course in German for art history.

### Admission to candidacy

Doctoral students are admitted to candidacy after demonstrating proficiency in two foreign languages, passing the major and minor field exams administered in ARTH 772 and ARTH 773 and orally defending a dissertation prospectus previously approved by the dissertation adviser. Only after candidacy is granted may a student enroll for dissertation credits.

### Dissertation

After admission to candidacy, doctoral students proceed to complete and defend a dissertation. They work under the supervision of the dissertation director, and they are required to maintain continuous enrollment of at least three credit hours per semester (excluding summer) until they have attained six hours of dissertation credit, after which they may enroll for as few as one credit per semester. The dissertation must represent independent research that is devoted to an original question or hypothesis with the appropriate development, analysis and interpretation. Successful defense of the dissertation completes the requirements for the degree. All degree requirements must be completed within eight years of the first semester of enrollment in the doctoral program (either M.A./Ph.D. or Ph.D.).

### Curriculum requirements

Courses	Credit hours
ARTH 693 Graduate Museum Internship	3
ARTH 772 Major Field Exam	3
ARTH 773 Minor Field Exam	3
ARTH 774 Dissertation Prospectus	3
ARTH 899 Dissertation	6
Art history or museum studies seminars (select three from ARTH 591, 681-684, 691, 721-729, 741-749, 791, 797)	9
Nonprofit management or research methods course (select from ARTE 690, EDUS 660, or PADM 650, 656, 659 and 661)	3
<b>Total graduate credit hours required (minimum)</b>	<b>30</b>

### Degree candidacy requirements

A graduate student admitted to a program or concentration requiring a final research project, work of art, thesis or dissertation, must qualify for continuing master's or doctoral status according to the degree candidacy requirements of the student's graduate program. Admission to degree candidacy, if applicable, is a formal statement by the graduate student's faculty regarding the student's academic achievements and the student's readiness to proceed to the final research phase of the degree program.

Graduate students and program directors should refer to the following degree candidacy policy as published in the VCU Graduate Bulletin for complete information and instructions.

Apply online at [graduate.admissions.vcu.edu](http://graduate.admissions.vcu.edu).

## Admission requirements

Art History, Master of Arts (M.A.) with a concentration in architectural history			
Degree: M.A.	Semester(s) of entry: Fall only	Deadline dates: Jan 15	Test requirements: GRE
Special requirements: Writing sample			

Students with a bachelor's degree in art history or in a related field (e.g., history, anthropology, literary studies, religious studies or philosophy) are invited to apply to VCU Department of Art History graduate programs. Applicants who have completed at least 18 undergraduate semester credit hours in art history are preferred.

In addition to the [general admission requirements of the VCU Graduate School](#), applicants to the Master of Arts in Art History must meet the following requirements:

1. A statement of purpose, 750-1000 words in length, that briefly recounts applicant's academic background, describes an avenue of inquiry that the applicant expects to explore, notes applicant's professional goals beyond graduate study and explains why VCU art history is suited to applicant's interests
2. A research/writing sample that has a clearly articulated thesis statement, identifies and interprets primary and/or secondary sources in support of a well-argued thesis, and offers a coherent, cohesive narrative
3. Three letters of recommendation, at least two of which are from faculty members who can assess the applicant's preparation and promise for graduate work (Some applicants may choose to solicit the third letter from a museum professional who has supervised the applicant's professional work in a museum setting.)
4. Official transcripts from schools where applicant completed course work applied toward the baccalaureate degree
5. An official report of GRE scores

Applications are reviewed by full-time faculty members who assess an applicant's overall package of materials, with particular attention to the statement of interest and writing sample.

See [arts.vcu.edu/admissions/how-to-apply/graduate](http://arts.vcu.edu/admissions/how-to-apply/graduate) for specific information regarding the online application process.

## VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

### General academic regulations for all graduate students in all graduate programs at VCU

## Program goal

The mission of the graduate program in art history is to equip students with requisite knowledge, skills and theoretical foundation to embark on successful careers in academia and/or museums.

The M.A. curriculum concentrations provide students with a general background in the research methods and teachings of art history in preparation for careers in museums, collections care or arts organizations. It also prepares students for the more rigorous research demands of the Ph.D., which is the required degree for academic and curatorial careers.

## Student learning outcomes

1. Students apply critical and analytical concepts, frameworks and methods.
2. Students contextualize scholarship in relationship to existing art historical/museological knowledge, discourse and/or debate.
3. Students write effectively for audiences of scholarly and non-specialist readers.
4. Students speak effectively to scholarly and non-specialist audiences.
5. Students demonstrate ability to translate art historical scholarship written in a language or languages relevant to their research.
6. Students conduct scholarly inquiry that makes a scholarly professional contribution.

## Degree requirements

In addition to general [VCU Graduate School graduation requirements](#) students must complete 30 credit hours of course work, variously distributed according to the curriculum concentration.

## Curriculum requirements

Courses	Credit hours
ARTH 621 Historical Preservation and Architectural History	3
ARTH 622 Studies in Architectural History	9
ARTH 690 Historiography and Methodology of Art History	3
ARTH 694 Art History and Pedagogy	3
ARTH 695 Writing Seminar I	3
ARTH 771 Writing Seminar II	3
Two art history seminars with a period/region focus (ARTH 720-729)	6

**Total graduate credit hours required (minimum)**

**30**

## Degree candidacy requirements

A graduate student admitted to a program or concentration requiring a final research project, work of art, thesis or dissertation, must qualify for continuing master's or doctoral status according to the degree candidacy requirements of the student's graduate program. Admission to degree candidacy, if applicable, is a formal statement by the graduate student's faculty regarding the student's academic achievements and the student's readiness to proceed to the final research phase of the degree program.

Graduate students and program directors should refer to the following degree candidacy policy as published in the VCU Graduate Bulletin for complete information and instructions.

### Degree candidacy requirements

## Department of Communication Arts

### Robert Meganck

Professor and Department Chair

[www.vcu.edu/arts/communicationarts](http://www.vcu.edu/arts/communicationarts)

Communication arts is the study and exploration of the qualities, disciplines and technologies that enable us to create and communicate with insight and vision. Our studies are firmly rooted in understanding the power of image and art to communicate.

Communication arts includes studies in:

- Drawing, which is the fundamental means to articulate ideas; it is elemental to everything we do.
- Illustration, a discipline with a rich history in drawing, painting, design and print media, which is being expanded by powerful new tools and technologies.
- Visual studies, which encompasses studio, historical, conceptual and theoretical issues that include analysis and exploration of image, media, content and context.

Study leads to a Bachelor of Fine Arts and students may choose an emphasis in either communication arts or scientific and preparatory medical illustration.

## Communication arts courses

Descriptions for all courses offered by the university may be accessed through the online courses database at [www.pubapps.vcu.edu/vcucourses](http://www.pubapps.vcu.edu/vcucourses). You may search by unit, subject or keyword, as well as by degree level.

Follow this link to communication arts ([COAR](#)) courses.

## Department of Craft and Material Studies

The Department of Craft and Material Studies is housed in the new Fine Arts Building that includes private and semi-private graduate studios. These new facilities provide a safe and excellent physical environment in which to work. Students have access to well-equipped studios in each of the five media areas along with a computer lab and wood shop. The building also houses the facilities for sculpture, painting and printmaking, and kinetic imaging. Interaction among departments is encouraged.

In addition to the Bachelor of Fine Arts in Craft and Material Studies, the department offers graduate course work leading to the Master of Fine Arts in Fine Arts degree in five disciplines: ceramics, fiber, furniture design, glassworking and jewelry/metalworking.

The M.F.A. is the terminal degree in the studio areas and is a requirement for most university teaching positions. Every effort is made to assist students in gaining valuable teaching experience while they are in the program. The department aids the students financially through a variety of scholarships and graduate assistantships. Opportunities exist for qualified students to teach courses during the academic year and in summer school.

## Admission requirements

Fine Arts, Master of Fine Arts (M.F.A.) with a concentration in ceramics			
Degree: M.F.A.	Semester(s) of entry: Fall	Deadline dates: Jan 15	Test requirements: None
Special requirements: See <a href="http://arts.vcu.edu/admissions/how-to-apply">arts.vcu.edu/admissions/how-to-apply</a> for details on the application process.			

In addition to the [general admission requirements of the VCU Graduate School](#) and the School of the Arts admission requirements, applicants in the visual arts must have completed a minimum of 36 credit hours in art at the undergraduate level. Applicants should also present:

1. **Curriculum vitae/resume:** If applicant has a website, please include a link in CV/resume.
2. **Statement of purpose:** Please submit with university application and upload as PDF.
3. **References:** Provide the names and contact information for three references from professional associates such as instructors, supervisors or colleagues who can comment on the applicant's ability to succeed in a graduate program. Letters of recommendation will be submitted electronically by recommenders.
4. **Portfolio:** Provide 20 still and/or moving images. Present work in reverse chronological order with the newest work first and the oldest work last. Images are reviewed one at a time. Please include any additional information to help reviewers understand the image.

## VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

General academic regulations for  
all graduate students in all graduate programs at VCU

## Program goal

The program comprises a community of makers/artists who advance the conceptual, historical, technical and haptic aspects of clay, fiber, glass, metal and wood. The program promotes an artistic practice rooted in the values of craft. Students will investigate craft's inherent relationship to the world with fearless innovation.

## Student learning outcomes

1. Students will demonstrate an understanding and proficiency in craft, design and art.
2. Students will demonstrate and understand the symbolic relationship and potential impact of contemporary craft and art on culture. Students will be able to contextualize individual artistic research within art history and contemporary art.
3. Students will be able to use knowledge gained from critique to improve creative work. The students will demonstrate proficiency in critiquing peers' creative work. The students will be able to demonstrate critical thinking about their own work and that of others.
4. Students will demonstrate proficiency in basic, intermediate and advanced craft techniques within their specific field media.
5. Students will demonstrate an understanding of the career demands of a contemporary craft artist and how to pursue a career through multiple paths.
6. Students will be able to develop comprehensive and unique portfolios. Students will be able to develop and articulate their own ideas, conceptual and formal, via conversation, presentation skills and writing.
7. Students will develop an understanding of their ability to interpret their individual motivation in their artwork and studio practice. Students will be able to maintain a self-motivated and self-directed mode of research/studio practice.

## Degree requirements

In addition to general [VCU Graduate School graduation requirements](#), the M.F.A. program requires 60 credit hours, which students usually complete in two years of full-time study. The majority of credit hours are taken in the student's area of specialization. Graduate seminars, art history courses and other studio/academic electives round out the graduate student's individualized program. Studio visits and critiques with visiting artists are an important aspect of the program.

Within the studio concentration, emphasis is placed on self-motivation, individual investigation and the development of professional attitudes and skills. Graduate students are expected to demonstrate a serious commitment to their work and to develop mature ideas and forms of expression. Admission to the graduate program is highly selective and competitive.

Graduate students interact formally and informally with the faculty in their areas and with other faculty members in the School of the Arts. Each graduate student works closely with a faculty committee that meets twice a semester for critiques and discussions. At the end of the first year, students present their work to their committee and departmental faculty in a candidacy review. At the successful completion of the 60 credit hours, a thesis exhibition is mounted at the university's Anderson Gallery or at an alternative venue. A written thesis is also required.

## Curriculum requirements

Fine Arts, Master of Fine Arts (M.F.A.) with a concentration in sculpture

Apply online at [graduate.admissions.vcu.edu](https://graduate.admissions.vcu.edu).

## Admission requirements

Fine Arts, Master of Fine Arts (M.F.A.) with a concentration in fibers			
Degree: M.F.A.	Semester(s) of entry: Fall	Deadline dates: Jan 15	Test requirements: None
Special requirements: See <a href="https://arts.vcu.edu/admissions/how-to-apply">arts.vcu.edu/admissions/how-to-apply</a> for details on the application process.			

In addition to the [general admission requirements of the VCU Graduate School](#) and the School of the Arts admission requirements, applicants in the visual arts must have completed a minimum of 36 credit hours in art at the undergraduate level. Applicants should also present:

1. **Curriculum vitae/resume:** If applicant has a website, please include a link in CV/resume.
2. **Statement of purpose:** Please submit with university application and upload as PDF.

3. **References:** Provide the names and contact information for three references from professional associates such as instructors, supervisors or colleagues who can comment on the applicant's ability to succeed in a graduate program. Letters of recommendation will be submitted electronically by recommenders.
4. **Portfolio:** Provide 20 still and/or moving images. Present work in reverse chronological order with the newest work first and the oldest work last. Images are reviewed one at a time. Please include any additional information to help reviewers understand the image.

## VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

### General academic regulations for all graduate students in all graduate programs at VCU

## Program goal

The program comprises a community of makers/artists who advance the conceptual, historical, technical and haptic aspects of clay, fiber, glass, metal and wood. The program promotes an artistic practice rooted in the values of craft. Students will investigate craft's inherent relationship to the world with fearless innovation.

## Student learning outcomes

1. Students will demonstrate an understanding and proficiency in craft, design and art.
2. Students will demonstrate and understand the symbolic relationship and potential impact of contemporary craft and art on culture. Students will be able to contextualize individual artistic research within art history and contemporary art.
3. Students will be able to use knowledge gained from critique to improve creative work. The students will demonstrate proficiency in critiquing peers' creative work. The students will be able to demonstrate critical thinking about their own work and that of others.
4. Students will demonstrate proficiency in basic, intermediate and advanced craft techniques within their specific field media.
5. Students will demonstrate an understanding of the career demands of a contemporary craft artist and how to pursue a career through multiple paths.
6. Students will be able to develop comprehensive and unique portfolios. Students will be able to develop and articulate their own ideas, conceptual and formal, via conversation, presentation skills and writing.
7. Students will develop an understanding of their ability to interpret their individual motivation in their artwork and studio practice. Students will be able to maintain a self-motivated and self-directed mode of research/studio practice.

## Degree requirements

In addition to general [VCU Graduate School graduation requirements](#), the M.F.A. program requires 60 credit hours, which students usually complete in two years of

full-time study. The majority of credit hours are taken in the student's area of specialization. Graduate seminars, art history courses and other studio/academic electives round out the graduate student's individualized program. Studio visits and critiques with visiting artists are an important aspect of the program.

Within the studio concentration, emphasis is placed on self-motivation, individual investigation and the development of professional attitudes and skills. Graduate students are expected to demonstrate a serious commitment to their work and to develop mature ideas and forms of expression. Admission to the graduate program is highly selective and competitive.

Graduate students interact formally and informally with the faculty in their areas and with other faculty members in the School of the Arts. Each graduate student works closely with a faculty committee that meets twice a semester for critiques and discussions. At the end of the first year, students present their work to their committee and departmental faculty in a candidacy review. At the successful completion of the 60 credit hours, a thesis exhibition is mounted at the university's Anderson Gallery or at an alternative venue. A written thesis is also required.

## Degree candidacy requirements

A graduate student admitted to a program or concentration requiring a final research project, work of art, thesis or dissertation, must qualify for continuing master's or doctoral status according to the degree candidacy requirements of the student's graduate program. Admission to degree candidacy, if applicable, is a

formal statement by the graduate student's faculty regarding the student's academic achievements and the student's readiness to proceed to the final research phase of the degree program.

Graduate students and program directors should refer to the following degree candidacy policy as published in the VCU Graduate Bulletin for complete information and instructions.

#### Degree candidacy requirements

### Graduation requirements

As graduate students approach the end of their academic programs and the final semester of matriculation, they must make formal application to graduate. No degrees will be conferred until the application to graduate has been finalized.

Graduate students and program directors should refer to the following graduation requirements as published in the Graduate Bulletin for a complete list of instructions and a graduation checklist.

A graduate student admitted to a program or concentration requiring a final research project, work of art, thesis or dissertation, must qualify for continuing master's or doctoral status according to the degree candidacy requirements of the student's graduate program. Admission to degree candidacy, if applicable, is a formal statement by the graduate student's faculty regarding the student's academic achievements and the student's readiness to proceed to the final research phase of the degree program.

Graduate students and program directors should refer to the following degree candidacy policy as published in the VCU Graduate Bulletin for complete information and instructions.

### Degree candidacy requirements

## Graduation requirements

As graduate students approach the end of their academic programs and the final semester of matriculation, they must make formal application to graduate. No degrees will be conferred until the application to graduate has been finalized.

Graduate students and program directors should refer to the following graduation requirements as published in the Graduate Bulletin for a complete list of instructions and a graduation checklist.

## Department of Dance and Choreography

### Lea Marshall

Assistant Professor and Interim Department Chair

[www.vcu.edu/arts/dance](http://www.vcu.edu/arts/dance)

The mission of the Department of Dance and Choreography is to create an environment where the student experiences the demands and challenges of the professional dancer/choreographer. In a community setting where communication, mutual respect and self-motivation are encouraged, classes provide students with

disciplined training that will maximize their potential to become dancers of technical excellence, choreographers with original and powerful voices and thinkers with high academic standards.

Students are trained to be performers, choreographers and teachers in this curriculum, which emphasizes modern dance and offers dance courses in modern, improvisation, composition, choreography, music, and dance forms and dance history, as well as ballet, jazz, tap, hip-hop, ballroom, contact improvisation, dance science, anatomy for dancers, video/choreography and teaching methods for dance. Additionally, the program provides a variety of experiences in performance, choreography and production. These offerings enable students to develop as savvy, expressive artists with professional training in dance technique, knowledge of dance philosophies and a foundation in history, enabling them to function as independent and creative artists in the field of dance. VCU Dance is an accredited member of the National Association of Schools of Dance.

## Dance and choreography courses

Descriptions for all courses offered by the university may be accessed through the online courses database at [www.pubapps.vcu.edu/vcucourses](http://www.pubapps.vcu.edu/vcucourses). You may search by unit, subject or keyword, as well as by degree level.

Follow these links to dance and choreography ([DANC](#)) courses or the [DANZ laboratories](#).

## Department of Fashion Design and Merchandising

### Donna Reamy

Associate Professor and Interim Department Chair  
[www.vcu.edu/arts/fashion](http://www.vcu.edu/arts/fashion)

The Department of Fashion Design and Merchandising offers two programs: the fashion design track leads to a Bachelor of Fine Arts degree and the fashion merchandising track leads to a Bachelor of Arts degree.

Both tracks are extremely time consuming. Students are expected to put class attendance and study time above other campus activities or employment.

All students are required to have a laptop computer. The department can provide specifications.

Students must take classes in the sequence prescribed by the department and adhere to all prerequisites. Failure to comply can lengthen the number of semesters necessary for completion of degree requirements.

Internships provide not only experience but industry contacts, and are strongly recommended. They may be conducted primarily during the summer semester.

## Fashion design and merchandising courses

Descriptions for all courses offered by the university may be accessed through the online courses database at [www.pubapps.vcu.edu/vcucourses](http://www.pubapps.vcu.edu/vcucourses). You may search by unit, subject or keyword, as well as by degree level.

Follow this link to fashion design and merchandising ([FASH](#)) courses.

## Department of Graphic Design

Graphic design is a creative and analytical process that integrates art and technology to communicate ideas and information. The goal of the Department of Graphic Design at VCU is to educate students to become innovators and leaders in three related areas of professional practice: print design, sequential design and interaction design.

### Mission statement

The Department of Graphic Design encourages the exploration of diverse problem-solving methodologies, innovative investigations and creative research in all forms of communication. It is dedicated to excellence in teaching, scholarship, academic and creative research and professional practice. The Department of Graphic Design provides both an undergraduate and graduate education stressing creative and intellectual thinking; awareness of individual, social, cultural and communicative issues; the integration of new technology; and a concern for ethical implications and the natural environment. The program actively contributes to the university, local, state, national and international communities through its scholarly and creative activities, educational programs and service efforts.

Design, Master of Fine Arts (M.F.A.) with a concentration in design studies [VCUQatar Campus]

Design, Master of Fine Arts (M.F.A.) with a concentration in interior environments – post-professional option

Design, Master of Fine Arts (M.F.A.) with a concentration in interior environments – professional entry-level option

**Apply online at [graduate.admissions.vcu.edu](http://graduate.admissions.vcu.edu).**

## Admission requirements

Design, Master of Fine Arts (M.F.A.) with a concentration in visual communications			
Degree: M.F.A.	Semester(s) of entry: Fall	Deadline dates: Jan 15	Test requirements:
<b>Special requirements:</b> International applicants should apply by Dec. 15 to ensure that application materials are received by the deadline.			
See <a href="http://arts.vcu.edu/admissions/how-to-apply">arts.vcu.edu/admissions/how-to-apply</a> for details on the application process, including portfolio, resume, statement of purpose, letters of reference, transcripts and scores.			

In addition to the [general admission requirements of the VCU Graduate School](#), applicants must have taken 36 undergraduate credit hours in studio art that should include a minimum of 20 credit hours in visual communications and/or related fields. Under special circumstances, these requirements may be waived.

#### Interview

The department will contact selected applicants regarding the interview (may be via Skype, telephone or in person).

## VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty

of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

**General academic regulations for  
all graduate students in all graduate programs at VCU**

## Program goal

The graduate program in design with a concentration in visual communications is oriented toward individuals interested in pursuing a career in design education and/or furthering their professional practices, in conducting visual or theoretical research, and in investigating the intersections of function and expression in design problem solving.

## Student learning outcomes

1. Students will be able to present fluent verbal and written explanations of research and studio activities.
2. Students will develop a personal vocabulary, approach and vision in creative work.
3. Students will demonstrate knowledge of historical, social and cultural perspectives in relation to visual communications and clarify how they influence work.
4. Students will develop the ability to create expressive forms and use them to communicate appropriately.

## Degree requirements

In addition to general [VCU Graduate School graduation requirements](#), the M.F.A. is an intensive two-year, 60 credit-hour full-time program with courses only scheduled during the day. Courses are often integrated with each other during the semester.

## Curriculum requirements

Courses	Credit hours
GDES 610 Visual Communications Workshop	4
GDES 611 Visual Communications Workshop	16
GDES 612 Research Methods in Visual Communications	4
GDES 621 Visual Communications Seminar	16

\*Additional 500-, 600- and/or 700-level graduate electives within the university require approval by the program director.

## Degree candidacy requirements

A graduate student admitted to a program or concentration requiring a final research project, work of art, thesis or dissertation, must qualify for continuing master's or doctoral status according to the degree candidacy requirements of the student's graduate program. Admission to degree candidacy, if applicable, is a formal statement by the graduate student's faculty regarding the student's academic achievements and the student's readiness to proceed to the final research phase of the degree program.

Graduate students and program directors should refer to the following degree candidacy policy as published in the VCU Graduate Bulletin for complete information and instructions.

### Degree candidacy requirements

## Graduation requirements

As graduate students approach the end of their academic programs and the final semester of matriculation, they must make formal application to graduate. No degrees will be conferred until the application to graduate has been finalized.

Graduate students and program directors should refer to the following graduation requirements as published in the Graduate Bulletin for a complete list of instructions and a graduation checklist.

### Graduation requirements

## Department of Interior Design

The Department of Interior Design is accredited by the Council for Interior Design Accreditation. The mission of the department is to provide an intellectually rigorous, studio-based experience grounded in the issues of interior architecture. The department develops in its students an enduring passion and curiosity for their work, a determination to continually seek quality in their endeavors, an ability to reflect constructively upon their actions as individuals and a responsibility for their lifelong education. The department focuses students' professional activities while encouraging connections between these activities and the larger forum of ideas that enrich their culture and environment. The Bachelor of Fine Arts in Interior Design program prepares students for careers in interior design or entry into programs of advanced study.

The department also offers a Master of Fine Arts in Design with a concentration in interior environments with a first-professional track and a postprofessional track. These tracks seek to produce competent creative designers whose design solutions are based on human response in the contemporary environment. Mastery of design skills, development of productive habits, knowledge of resources and an awareness of interrelated disciplines equip the student with the tools and expertise necessary to pursue creative design positions.

The department relates with the professional interior design community through a variety of activities. The faculty invites featured speakers to share experiences, participate in the annual ASID EXPO, facilitate mentorships with professional designers and support student internships. An active student chapter of the American Society of Interior Designers provides additional enriching opportunities for student involvement.

The department offers limited accelerated undergraduate preparation for those individuals who lack full preparation. Assessment of the individual candidate's needs will determine the scope of the preparatory course work. This is an opportunity to gain the skills and design experiences required to qualify for admission to the graduate degree program.

The department has a very comprehensive Web site with extensive information about the program, interior design in general, faculty, student work and the department newsletter. In advance of scheduling a meeting for department advising or for application to the program, students should review the Web site at [www.pubinfo.vcu.edu/artweb/interiors/](http://www.pubinfo.vcu.edu/artweb/interiors/).

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

**General academic regulations for all graduate students in all graduate programs at VCU**

## Program goal

The mission of the Department of Interior Design in VCU's School of the Arts is to provide an intellectually rigorous, studio-based experience grounded in the issues of interior architecture. The department develops in its students an enduring passion and curiosity for their work, a determination to continually seek quality in their endeavors, an ability to reflect constructively upon their actions as individuals, and a responsibility for their lifelong education. The department focuses a student's professional activities while encouraging connections between these activities and a larger forum of ideas that enrich their culture and their environment.

## Student learning outcomes

1. Students will demonstrate professional values.
2. Student work will demonstrate advanced design theory.
3. Student work will demonstrate advanced knowledge of interior design.
4. Student work will demonstrate effective communication.
5. Students will demonstrate a foundation in business and professional practices.

### Concentration in interior environments – post-professional option

The post-professional option is a subconcentration of the interior environments concentration, one of about 10 available nationally, that allows students who already have undergraduate degrees in interior design or architecture the opportunity to develop an individualized direction in scholarship. Admission is highly selective and open only to students who have demonstrated a high caliber of work at the undergraduate and/or master's level.

## Degree requirements

In addition to general [VCU Graduate School graduation requirements](#), a minimum of 60 credit hours is required within prescribed courses. A research-design project is required to complete the program of study. This project is undertaken and developed in the context of IDES 699 and must consist of the testing of an original idea that is supported by research. This information will be synthesized through the design development process and culminate in an individual creative project of complex scale and scope. Documentation must follow established guidelines and be presented in a form that can be retained by the department and the university. On completion of the thesis, students participate in an oral examination and a graduate exhibition.

## Curriculum requirements

Courses	Credit hours

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

**General academic regulations for  
all graduate students in all graduate programs at VCU**

**Program goal**

The mission of the Department of Interior Design in VCU's School of the Arts is to provide an intellectually rigorous, studio-based experience grounded in the issues of interior architecture. The department develops in its students an enduring passion and curiosity for their work, a determination to continually seek quality in their endeavors, an ability to reflect constructively upon their actions as individuals, and a responsibility for their lifelong education. The department focuses a student's professional activities while encouraging connections between these activities and a larger forum of ideas that enrich their culture and their environment.

**Student learning outcomes**

1. Students will demonstrate professional values.
2. Student work will demonstrate advanced design theory.
3. Student work will demonstrate advanced knowledge of interior design.
4. Student work will demonstrate effective communication.
5. Students will demonstrate a foundation in business and professional practices.

**Concentration in interior environments – professional entry-level option**

The professional entry-level track is a 60-72 credit-hour program for second-degree seekers who have a proven record of academic excellence in a field other than architecture or interior design and are interested in pursuing a career in interior design. The structure of the track echoes the B.F.A. in Interior Design program in content, but advances the student at an accelerated rate during the first year and summer, bringing students parallel with the curriculum of the post-professional track by the second year.

The curriculum is highly sequenced, and students are admitted to the program for the fall semester only. All incoming students are required to take part in an intensive workshop in the summer that introduces and develops drawing, presentation skills and an understanding of two- and three-dimensional design methods. Students must successfully pass the workshop with a minimum grade of B to begin the professional entry-level track. Applicants who have an art or design background are strongly encouraged to submit a portfolio for review with their application. PowerPoint is the preferred format for the portfolio. Applicants are also required to submit three letters of recommendation and a three-to-five page writing sample.

**Degree requirements**

In addition to general [VCU Graduate School graduation requirements](#), a minimum of 60 credit hours is required within prescribed courses. A research-design project is required to complete the program of study. This project is undertaken and developed in the context of IDES 699 and must consist of the testing of an original idea that is supported by research. This information will be synthesized through the design development process and culminate in an individual creative project of complex scale and scope. Documentation must follow established guidelines and be presented in a form that can be retained by the department and the university. On completion of the thesis, students participate in an oral examination and a graduate exhibition.

**Curriculum requirements**

Courses	Credit hours
<b>Prerequisite</b>	<b>2-12</b>
Students with no art or design background must successfully complete this class with a minimum grade of B as a prerequisite for enrolling in the program.	
IDES 500 Art and Design Methods Workshop or elective	2-12

### Graduation requirements

## Department of Kinetic Imaging

### Pam Turner

Associate Professor and Department Chair

[www.arts.vcu.edu/kineticimaging](http://www.arts.vcu.edu/kineticimaging)

The Department of Kinetic Imaging prepares students to use video, animation and sound for the purpose of art-making, self-expression and experimentation. The kinetic imaging programs are designed for students who want to study video art, sound design and experimental two-dimensional and three-dimensional animation. Emphasis is placed on artistic uses of the media.

The department offers an undergraduate curriculum leading to a Bachelor of Fine Arts in Kinetic Imaging as well as a graduate level program that results in a Master of Fine Arts in Fine Arts.

## Kinetic imaging courses

Descriptions for all courses offered by the university may be accessed through the online courses database at [www.pubapps.vcu.edu/vcucourses](http://www.pubapps.vcu.edu/vcucourses). You may search by unit, subject or keyword, as well as by degree level.

## Admission requirements

Fine Arts, Master of Fine Arts (M.F.A.) with a concentration in kinetic imaging			
Degree: M.F.A.	Semester(s) of entry: Fall	Deadline dates: Jan 15	Test requirements: None
Special requirements: See <a href="http://arts.vcu.edu/admissions/how-to-apply">arts.vcu.edu/admissions/how-to-apply</a> for details on the application process.			

In addition to the [general admission requirements of the VCU Graduate School](#), applicants must meet the requirements listed on the website above.

## VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

**General academic regulations for  
all graduate students in all graduate programs at VCU**

## Program goals

The Department of Kinetic Imaging is committed to the artistic exploration of video, animation and sound. The M.F.A. program emphasizes the extension of these practices into the arts and their connection to contemporary issues in visual culture.

Graduate students in the M.F.A. program are exposed to a vigorous visiting artist schedule. Through studio reviews, seminars and research, the students are expected to build an awareness of contemporary and historical definitions of art that will influence their creative work. In addition to their own investigations, graduate students participate in and contribute to the undergraduate program.

While the graduate program is generally a two-year, four-semester in-residence program, students are expected to continue pursuits either on campus or at an alternative site throughout the calendar year.

## Student learning outcomes

1. Through studio reviews, seminars and research, students are expected to build an awareness of contemporary and historical definitions of art that will influence their creative work.
2. Students will demonstrate critical thinking and conceptual problem-solving, with the ability to contribute to and challenge the rapidly evolving dialogue in media arts.
3. Students' creative work will demonstrate an engagement with critical thinking and conceptual problem-solving.
4. Students will demonstrate the ability to carry their work and critical inquiry to professional platforms such as public exhibitions, performance and/or scholarly publication. This includes knowledge of the various venues available to support and enhance their professional careers and the ability to accurately communicate what their work is addressing and who they are as artists.

## Degree requirements

In addition to general [VCU Graduate School graduation requirements](#), students are required to complete 60 credit hours total, which includes studio, seminar and elective courses. While seminar and studio courses are offered through the kinetic imaging program, these credit hours can include other courses from within the fine arts degree program with the approval of the graduate program director. Additional elective courses are drawn from approved courses in participating units.

To graduate, degree applicants must achieve an overall grade point average of 3.0 (B) on a 4.0 scale with a grade of C in no more than two courses. The GPA for graduation will be based on all graduate courses attempted after acceptance into the program.

The M.F.A. in Fine Arts with a concentration in kinetic imaging will be a 60-credit hour program consisting of eight credit hours of graduate studio, four credit hours of graduate seminar and three credit hours of electives\* (15 credit hours) each semester. The program will typically take two years of full-time study to complete.

The M.F.A. in Fine Arts with a concentration in kinetic imaging is consistent with national standards established by the accrediting National Association of Schools of Art and Design.

The curriculum for the M.F.A. in Fine Arts with a concentration in kinetic imaging is built on the understanding that incoming students will exhibit high levels of ability and quickly demonstrate a serious commitment to their work and artistic development. Students accepted into the graduate program will possess a competitive portfolio and a minimum 3.0 grade point average, with a B.A., B.F.A., B.S. or M.A. from an accredited university. Due to the interdisciplinary nature of these media arts disciplines, applicants with degrees in other disciplines will be encouraged to apply. At the end of the first year, students will go through an advanced candidacy review, where they will present and defend their work before their graduate committee, which will be composed of members from the Department of Kinetic Imaging and other fine arts departments, following the current M.F.A. model. During the final semester, graduates will be required to complete a body of work resulting in an M.F.A. exhibition and written thesis, which will serve as the capstone elements of the degree program and be evaluated by the student's graduate committee.

## Curriculum requirements

Courses	Credit hours
KINE 600 Graduate Studio*	32
KINE 692 Graduate Seminar**	16
Approved graduate elective***	12

**Total graduate credit hours required (minimum) 60**

Each semester the student enrolls in 15 credit hours as follows:

KINE 600 Graduate Studio – 8 credit hours

KINE 692 Graduate seminar – 4 credit hours

Approved graduate elective – 3 credit hours

\*An exhibition will be required as a prerequisite for graduation.

\*\*Enrollment in the graduate seminar is mandatory for the duration of the student's study in the graduate program.

\*\*\*Electives may be chosen from among all university courses listed as 500-level or greater and require approval from a faculty adviser.

### Department electives

KINE 510 Foundations in Media	3
KINE 591 Topics in Contemporary Media	3
KINE 691 Independent Study	3
KINE 695 Advanced Sound	3

## Degree candidacy requirements

A graduate student admitted to a program or concentration requiring a final research project, work of art, thesis or dissertation, must qualify for continuing master's or doctoral status according to the degree candidacy requirements of the student's graduate program. Admission to degree candidacy, if applicable, is a formal statement by the graduate student's faculty regarding the student's academic achievements and the student's readiness to proceed to the final research phase of the degree program.

Graduate students and program directors should refer to the following degree candidacy policy as published in the VCU Graduate Bulletin for complete information and instructions.

### Degree candidacy requirements

## Graduation requirements

As graduate students approach the end of their academic programs and the final semester of matriculation, they must make formal application to graduate. No degrees will be conferred until the application to graduate has been finalized.

Graduate students and program directors should refer to the following graduation requirements as published in the Graduate Bulletin for a complete list of instructions and a graduation checklist.

### Graduation requirements

## Department of Music

The Department of Music is committed to the advancement of Western art music and jazz as academic disciplines, as fields of professional endeavor and as a viable presence in the community. Entrance and graduation requirements comply with the National Association of Schools of Music guidelines. The department offers degree programs at the baccalaureate and master's levels, and each of them are described in detail on individual program pages within the Bulletins Web site.

Participating in the VCU musical community means involvement in a musically rich environment of studio lessons, small classes, independent study and participation in performing organizations, as well as hearing outstanding

professional performers in the classical and jazz traditions. On-campus master classes with major touring artists are an important addition to the regular instructional program. Student soloists also may appear with regional and university ensembles. Through the Mary Anne Rennolds Chamber Concerts and other events, the department is one of the region's major sponsors of music performances.

Approximately 330 students choose to major in music, with many other students from throughout the university taking courses and participating in ensembles. There are 20 full-time faculty, more than half of whom hold doctorates, in addition to 45 part-time instructors. Among the faculty are internationally recognized performers, composers, researchers and teachers — musician-educators who are active in all facets of the professional music world. The faculty includes members and regular performers with ensembles that include the Richmond and Virginia Symphonies, the New York Philharmonic, the Virginia Opera, Rhythm and Brass, the Great American Music Ensemble and National Chamber Players. The faculty maintains a high level of recognition through each individual's publications, recordings, international performances and lectures.

The department is housed in two buildings. The principal facility is the W.E. Singleton Center for the Performing Arts, which includes the 502-seat Sonia Vlahcevic Concert Hall, faculty offices, rehearsal rooms and special studios for organ, percussion and piano. The James W. Black Music Center has a 347-seat recital hall, classrooms, practice rooms, rehearsal spaces, faculty offices and studios.

## Administration

### Darryl Harper

## Information for undergraduates

[Admission and auditions](#)

[Grades and achievement levels](#)

[Electives in music](#)

[Internship in music](#)

[Fees](#)

[Recital/convocation attendance](#)

[Master class](#)

[Ensemble requirements](#)

## Admission and auditions

An audition/interview as well as both written and aural general musicianship examinations are necessary for admission to programs in the Department of Music. Students must also meet the general admission requirements of the university. For audition information contact Virginia Commonwealth University, Department of Music, 922 Park Ave., P.O. Box 842004, Richmond, VA 23284-2004; phone (804) 828-1166 or e-mail [music@vcu.edu](mailto:music@vcu.edu).

## Grades and achievement levels

All music majors are required to maintain a cumulative GPA of 2.0 and pass at least one applied achievement level within any two-semester period (not including summers) in order to continue as music majors. Jazz studies majors must pass one applied achievement level of classical instrument study per two-semester period (not including summers) and at least one jazz applied music level within the first three semesters in order to maintain a jazz studies concentration. All music students also must pass MHIS 145-146 Theory and Aural Skills I-II by the end of the fourth semester. Any student who fails to meet or maintain these standards will not be allowed to continue as a music major. A student may audition for readmission into the department as a music major only with permission from the Department of Music.

A cumulative GPA of 2.8 is required for music education students to qualify for student teaching placement. Music education students who do not maintain a cumulative 2.8 GPA will not be allowed to continue in the music education track, but may continue in the Bachelor of Arts program or the Bachelor of Music performance track if they meet the minimum requirements that apply to those respective degree programs.

## Electives in music

Students majoring in a field other than music may register for ensembles, private lessons and a variety of classroom courses in music. Classes in music appreciation, African-American music, introduction to writing music, basic music skills and special offerings in music are specifically designed for the non-music major.

## Internship in music

Interested students should consult with a faculty member closely associated with the appropriate field. As the student approaches junior academic standing, he or she may apply to the department for participation in APPM 493 Music Internship. Applications will be reviewed on the basis of academic GPA, instructor recommendation(s), professional promise, and demonstrated interest and competence in the area of study. The student must possess a minimum 2.5 overall GPA with a minimum 3.0 GPA in major course work in music. All students (including transfers) must have completed a minimum of 60 credits.

All internships for credit are approved by the Department of Music. The experience may also be coordinated by VCU's Cooperative Education/Internship Program. The latter office requires completion of an application and resume.

## Fees

All students registering for APPL 200 Applied Lessons pay an applied music fee. This fee is additional to the comprehensive fee charged only to majors in the School of the Arts. Current fee rates for music lessons can be found on the Student Accounting website at [www.enrollment.vcu.edu/accounting/tuition\\_fees.html](http://www.enrollment.vcu.edu/accounting/tuition_fees.html).

## Recital/convocation attendance

All undergraduate majors are required to pass four semesters of recital/convocation attendance for graduation. During each semester of enrollment, the student must attend a minimum number of concerts or recitals plus departmental convocations in order to pass the requirement.

## Master class

This requirement consists of participation in weekly master classes in the student's applied major area. For students in the Bachelor of Music program, enrollment in master class is required for each semester that students enroll for a two-credit lesson on their principal performing instrument. A minimum of eight semesters in the performance concentration (jazz studies majors take four semesters classical and four semesters jazz) and six semesters for the music education concentration are required. Students in the Bachelor of Arts in Music program must also enroll in master class each semester they take a two-credit lesson until they complete a minimum of four semesters of master class on the same instrument.

## Ensemble requirements

To ensure consistent skill development in ensemble settings, only one large ensemble credit per semester will be counted toward a student's large ensemble requirements. Students whose principal instrument is a band or orchestral instrument must satisfy the large ensemble requirement by performing in a large ensemble on that instrument. Students whose principal instrument is voice must satisfy the requirement by performing in a large choral ensemble on voice. Those whose principal instrument is piano must complete four of their six elective credits by playing the piano in ensembles. Jazz studies majors must have ensembles approved in advance by their adviser or program director. Bachelor of Arts students must earn six credits in either large or small ensembles.

## Music courses

Upper-division undergraduate students may enroll for selected 500-level graduate courses with permission of the department chair and instructor. Descriptions for all courses offered by the university may be accessed through the online courses database at [www.pubapps.vcu.edu/vcucourses](http://www.pubapps.vcu.edu/vcucourses). You may search by unit, subject or keyword, as well as by degree level. Unless otherwise indicated, courses must be taken in numerical sequence.

## Admission requirements

Music, Master of (M.M.) with a concentration in music education			
Degree:	Semester(s) of entry:	Deadline dates:	Test requirements:
M.M.	Summer only	Apr 1	None

In addition to the [general admission requirements of the VCU Graduate School](#), the following requirements represent the minimum acceptable standards for admission:

1. Baccalaureate degree in music or music education from an accredited institution
2. Virginia teaching certification in PK-12 music education (or same from a reciprocal state)
3. Written statement of personal philosophy of music education – used to assess thoughtful reflection on larger issues of the profession, ability to express thought in clearly written English and as diagnosis for specific deficiencies in this area
4. Three letters of recommendation – must include letter from persons who have directly observed applicant's teaching
5. Interview with the director of music education

## VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

### General academic regulations for all graduate students in all graduate programs at VCU

## Program goal

The Master of Music with a concentration in music education program at VCU is designed to provide the opportunity for advanced, graduate study for the practicing professional music educator. It is the goal of the Department of Music that successful graduates emerge as leaders and innovators in the profession.

The curricular goal of the program is to provide flexibility in addressing the individual pedagogical interests of each student as well as the framework and foundations needed for continued advanced study in music education at the doctoral level. As part of this design, the degree is offered exclusively as a three-summer program, with continuous enrollment required following admittance to degree candidacy (fall and spring semesters prior to third summer). This design provides a “real-world” option for the practicing music educator to enter graduate study.

## Student learning outcomes

1. Understand research in music education
2. Understand current issues in music education
3. Develop advanced pedagogical skills

## Degree requirements

In addition to general [VCU Graduate School graduation requirements](#), the Master of Music program requires a minimum of 30 graduate credit hours. The summer program is intended to be completed in three consecutive summer sessions and is structured into three cognate areas: music education, music pedagogy and professional education. Music education and music pedagogy cognate courses are offered on a rotating basis, with electives in music pedagogy developed and offered on an ongoing basis. This structure permits the student to enter the program at any given point in the sequence. The student will apply for degree candidacy following the completion of 18 credit hours. It is recommended that students enroll in eight to nine credit hours each summer. Final project credit hours are earned through online enrollment during the fall/spring semester and in residency during the final summer session following admittance to degree candidacy.

## Curriculum requirements

Courses	Credit hours
<b>Cognate areas</b>	
<b>Music education</b>	
MUED 600 Seminar in Music Education	3
MUED 610 Psychology of Music	3
MUED 620 Introduction to Research in Music Education	3
MUED 783 Final Project in Music Education	3

Graduate students and program directors should refer to the following graduation requirements as published in the Graduate Bulletin for a complete list of instructions and a graduation checklist.

#### Graduation requirements

## Department of Painting and Printmaking

The Department of Painting and Printmaking offers an undergraduate program that earns a Bachelor of Fine Arts in Painting and Printmaking, as well as a graduate program of study that leads to the Master of Fine Arts in Fine Arts. Students admitted to the programs are expected to have a high level of competence in either painting or printmaking. The graduate program is designed to encourage the development of professional attitudes and skills, with an emphasis on individual investigation.

The department is housed in the new Fine Arts Building with 15 individual graduate studios plus a large graduate printmaking area in addition four state-of-the-art undergraduate printmaking studios: etching, lithography, screenprinting and digital. These new facilities provide an excellent physical environment for the programs with easy access to the other fine art areas of sculpture and crafts. Established in 1928, the Department of Painting and Printmaking was the first department in what has become the School of the Arts. For nearly 70 years, the department has made significant contributions to the development of the School of the Arts' reputation as one of the premier art schools in the country.

The department supports an active and ambitious program of visiting artists and lecturers. Leading figures in the world of contemporary art visit to discuss their work, critique, visit studios, conduct workshops and meet with students throughout the year.

The Master of Fine Arts degree is the terminal degree in the studio areas of fine arts and is a requirement for most college and university teaching positions. Many

graduate students have gained teaching experience in the department as part of their assistantship responsibilities, teaching classes in painting, drawing and printmaking. The department assists graduate students financially through a variety of teaching assistantships, graduate assistantships and scholarships.

### VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate

programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

**General academic regulations for  
all graduate students in all graduate programs at VCU**

## Program goals

The graduate program advances the development of:

1. Individual studio and scholarly talents, interests and philosophies, used creatively to both expand and preserve our cultural heritage
2. Professional studio competence as exemplified by a significant body of work
3. Individuals with the potential to solve contemporary problems in all aspects of the visual arts and to explore and address new questions and issues
4. Professional competence in the dissemination of knowledge, including logical, clear verbal and written presentation of aesthetic ideas in teaching and other contexts
5. Scholarly competence in the organization, evaluation and interpretation of knowledge
6. Students will achieve technical proficiency in relation to the tools, techniques and materials used in their field and the expertise to visually articulate their ideas.
7. Students will achieve proficiency regarding critical thinking and conceptual problem-solving with particular focus on the context and practice of painting and printmaking.

## Student learning outcomes

1. Define work in relation to history and practice
2. Engage fully in critical discourse
3. Increase knowledge of materials and techniques
4. Develop professional practice: engage in opportunities that develop the experience required to manage a creative professional career

## Degree requirements

In addition to general [VCU Graduate School graduation requirements](#), the M.F.A. in Fine Arts with a concentration in painting or printmaking requires 60 credit hours and is usually completed in two years of full-time study. Most of these credit hours are in studio areas and are augmented by related courses in specialized academic fields. A graduate seminar meets weekly and addresses topics related to contemporary art and theory. Two required semesters of art and critical theory are presented in a course that surveys the major themes of contemporary art criticism.

Graduate students meet with individual committees composed of three faculty members. Each committee and student conducts an ongoing dialogue and critique. At the end of the second semester students discuss their work at a candidacy critique comprising their committee and additional faculty members. M.F.A. recipients mount a comprehensive exhibition of their work at the university's Anderson Gallery at the successful conclusion of the program's second year.

The Master of Fine Arts program is based on intensive studio practice at an advanced level in the areas of painting and printmaking. The program is highly selective and is presently limited to 15 participants.

## Admission requirements

Fine Arts, Master of Fine Arts (M.F.A.) with a concentration in printmaking			
Degree:	Semester(s) of entry:	Deadline dates:	Test requirements:
M.F.A.	Fall	Jan 15	None
Special requirements: See <a href="http://arts.vcu.edu/admissions/how-to-apply">arts.vcu.edu/admissions/how-to-apply</a> for details on the application process.			

In addition to the [general admission requirements of the VCU Graduate School](#), applicants must meet the requirements listed on the website above.

## VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

### General academic regulations for all graduate students in all graduate programs at VCU

## Program goals

The graduate program advances the development of:

1. Individual studio and scholarly talents, interests and philosophies, used creatively to both expand and preserve our cultural heritage
2. Professional studio competence as exemplified by a significant body of work
3. Individuals with the potential to solve contemporary problems in all aspects of the visual arts and to explore and address new questions and issues
4. Professional competence in the dissemination of knowledge, including logical, clear verbal and written presentation of aesthetic ideas in teaching and other contexts
5. Scholarly competence in the organization, evaluation and interpretation of knowledge
6. Students will achieve technical proficiency in relation to the tools, techniques and materials used in their field and the expertise to visually articulate their ideas.
7. Students will achieve proficiency regarding critical thinking and conceptual problem-solving with particular focus on the context and practice of painting and printmaking.

## Student learning outcomes

1. Define work in relation to history and practice
2. Engage fully in critical discourse
3. Increase knowledge of materials and techniques
4. Develop professional practice: engage in opportunities that develop the experience required to manage a creative professional career

## Degree requirements

In addition to general [VCU Graduate School graduation requirements](#), the M.F.A. in Fine Arts with a concentration in painting or printmaking requires 60 credit hours and is usually completed in two years of full-time study. Most of these credit hours are in studio areas and are augmented by related courses in specialized academic fields. A graduate seminar meets weekly and addresses topics related to contemporary art and theory. Two required semesters of art and critical theory are presented in a course that surveys the major themes of contemporary art criticism.

Graduate students meet with individual committees composed of three faculty members. Each committee and student conducts an ongoing dialogue and critique. At the end of the second semester students discuss their work at a candidacy critique comprising their committee and additional faculty members. M.F.A. recipients mount a comprehensive exhibition of their work at the university's Anderson Gallery at the successful conclusion of the program's second year.

The Master of Fine Arts program is based on intensive studio practice at an advanced level in the areas of painting and printmaking. The program is highly selective and is presently limited to 15 participants.

## Curriculum requirements

Courses	Credit hours
PAPR 527-528 Art and Critical Theory	6
PAPR 591 Topics in Painting and Printmaking (critical issues)	3

## Degree candidacy requirements

A graduate student admitted to a program or concentration requiring a final research project, work of art, thesis or dissertation, must qualify for continuing master's or doctoral status according to the degree candidacy requirements of the

student's graduate program. Admission to degree candidacy, if applicable, is a formal statement by the graduate student's faculty regarding the student's academic achievements and the student's readiness to proceed to the final research phase of the degree program.

Graduate students and program directors should refer to the following degree candidacy policy as published in the VCU Graduate Bulletin for complete information and instructions.

### Degree candidacy requirements

## Graduation requirements

As graduate students approach the end of their academic programs and the final semester of matriculation, they must make formal application to graduate. No degrees will be conferred until the application to graduate has been finalized.

Graduate students and program directors should refer to the following graduation requirements as published in the Graduate Bulletin for a complete list of instructions and a graduation checklist.

### Graduation requirements

## Department of Photography and Film

The Department of Photography and Film seeks to advance the highest standards of the media of photography and filmmaking by encouraging the creative and professional growth of both its students and faculty. The goal is to provide a forum for the development and exchange of visual ideas and to encourage its members to translate these ideas with a high degree of sensitivity and proficiency. The department fosters a pluralistic approach that allows both faculty and students to expand the traditional boundaries of the respective media, explore a broad range of conceptual orientations and engage in multidisciplinary practice.

The department offers undergraduate concentrations in photography and filmmaking resulting in a [Bachelor of Fine Arts in Photography and Film](#), as well as a graduate program that leads to a [Master of Fine Arts in Fine Arts with a concentration in photography and film](#).

To promote student development and research of contemporary art practice and theory, the Department of Photography and Film presents a diverse and active visiting artist program. Through lectures, critiques and research courses, students are exposed to the valuable insights of respected international artists, scholars and critics. In addition, the visiting artists teach topics courses exploring the current artistic and conceptual foundations found in their own work. Graduate students are encouraged to establish an individual critical dialogue with the visiting artists and faculty and attain a strong critical and historical basis for their work.

The facilities include several critique and screening rooms; a large black-and-white darkroom; a large state-of-the-art digital photography and film editing lab; a shooting studio; a student checkout center with a wide range of still photography and film cameras, professional lights and sound recording equipment; a professionally staffed graphics lab located in the same building that provides student with digital services on several high-tech imaging devices; and two large graduate workrooms.

**General academic regulations for  
all graduate students in all graduate programs at VCU**

### Program goal

The mission of the M.F.A. in Fine Arts with a concentration in photography and film is to facilitate a comprehensive, advanced, intellectual and artistic understanding and use of the mediums of photography and filmmaking. The specific goals of the program are as follows: to foster a climate that inspires creativity, intellectual curiosity, freedom of expression and critical thinking; to attract and sustain a faculty of the highest quality by providing an environment conducive to their achieving and maintaining national and international stature; and to attract highly artistic and intelligent individuals interested in advanced study of the medium.

### Student learning outcomes

1. Students will demonstrate a familiarity with contemporary critical theory and an ability to apply and investigate those ideas in their work.
2. Students will gain and display advanced skills in conceptual and technical use of the medium.
3. Students will be able to create photographs and films that display an advanced level of intelligence and artistic vision.

### Degree requirements

The advanced study of photography and film is both broad and varied. Therefore, the program's requirements are flexible and determined by the needs of each student on an individual basis. There are, however, a few definite requirements. In addition to general [VCU Graduate School graduation requirements](#), on completion of the program, students must have knowledge of contemporary art history, a more in-depth knowledge of the history of their disciplines and an understanding of the critical dialogue that is connected with their medium. Courses are suggested for students to meet these requirements, based on their backgrounds.

Graduate students and program directors should refer to the following graduation requirements as published in the Graduate Bulletin for a complete list of instructions and a graduation checklist.

### Graduation requirements

## Department of Sculpture and Extended Media

The Department of Sculpture and Extended Media's eight full-time faculty members and various part-time and technical faculty represent a spectrum of directions and philosophical attitudes. Faculty interests range from formal to conceptual, from the concrete to the evanescent. This breadth of interests is presented to students and contributes to the comprehensive nature of our department. Students are not only exposed to traditional sculpture media, but encouraged to explore technology's parameters and to pursue interdisciplinary activity.

We encourage sculpture students to broaden their experience in other areas. By promoting a curriculum that encourages students to take a wide range of courses throughout the university, we stress links between art, science, the humanities and the world. As a consequence, sculpture students have rich, productive associations with professors in many fields.

Sculpture students are challenged to exploit their full potential by questioning notions of contemporary art. Our goal is to provide students with the vocabulary, the seeds of discernment and the skills of both analysis and synthesis in order to become participants in the dialogue of our time. All of this takes place in an environment of high expectation regarding self-motivation, intellectual capacity and responsibility.

The sculpture program is housed in a state-of-the-art facility. Sculpture majors are provided with semi-private, locked studio spaces and are given time, support and encouragement to pursue their independently determined goals.

Apply online at [graduate.admissions.vcu.edu](http://graduate.admissions.vcu.edu).

## Admission requirements

Fine Arts, Master of Fine Arts (M.F.A.) with a concentration in sculpture			
Degree: M.F.A.	Semester(s) of entry: Fall	Deadline dates: Jan 15	Test requirements: None
Special requirements: See <a href="http://arts.vcu.edu/admissions/how-to-apply">arts.vcu.edu/admissions/how-to-apply</a> for details on the application process.			

In addition to the [general admission requirements of the VCU Graduate School](#), applicants must meet the requirements listed on the website above. Additionally:

1. Applicants should hold a baccalaureate degree from an accredited institution.
2. It is expected that applicants will have a 3.0 (B) average on the last 60 semester hours of undergraduate work.
3. A portfolio review is required. A personal interview is encouraged.
4. Applicants must have completed a minimum of 36 credit hours of art at the undergraduate level.

## VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

**General academic regulations for  
all graduate students in all graduate programs at VCU**

## Program goal

Formal and informal contact with faculty is designed into the program. Along with the Department of Sculpture's faculty, graduate students are exposed to a vigorous visiting artist schedule. Through studio reviews, seminars and research, students are expected to build an awareness of contemporary and historical definitions of art that will influence their creative work. In addition to their own investigations, graduate students participate in and contribute to the undergraduate program. While the graduate program is generally a two-year, four-semester in-residence program, students are expected to continue studio pursuits either on campus or at an alternative site throughout the calendar year.

## Student learning outcomes

1. Define work in relation to history
2. Take full advantage program resources
3. Develop knowledge of equipment and techniques
4. Develop professional practices

## Degree requirements

In addition to general [VCU Graduate School graduation requirements](#), the M.F.A. in Fine Arts with a concentration in sculpture requires 60 credit hours and is usually completed in two years of full-time study. Most of these credit hours are in studio areas and are augmented by related courses in specialized academic fields. A graduate seminar meets weekly and addresses topics related to contemporary art and theory. Two required semesters of art and critical theory are presented in a course that surveys the major themes of contemporary art criticism.

Graduate students meet with individual committees composed of three faculty members. Each committee and student conducts an ongoing dialogue and critique. At the end of the second semester, students discuss their work at a candidacy critique comprising their committee and additional faculty members. M.F.A. recipients mount a comprehensive exhibition of their work at the university's Anderson Gallery at the successful conclusion of the program's second year.

The Master of Fine Arts program is based on intensive studio practice at an advanced level in the area of sculpture. The program is highly selective and is presently limited to 15 participants.

Graduate students and program directors should refer to the following graduation requirements as published in the Graduate Bulletin for a complete list of instructions and a graduation checklist.

### Graduation requirements

## Department of Theatre

The mission of the Department of Theatre is to educate and train students as theatre professionals and/or academicians in the field of performance, design/technology or theatre pedagogy.

In fulfilling its mission, the Department of Theatre provides students with the professional and cultural foundations essential for achieving the highest standards of the art. The department offers three degrees — a Bachelor of Arts, a Bachelor of Fine Arts and a Master of Fine Arts — to which applicants are admitted based on demonstration of ability, genuine interest determined during an interview, and audition and/or portfolio presentation.

In addition to introductory theatre and acting courses for non-majors, the department also serves students throughout the university with offerings in speech communication.

The Department of Theatre employs 23 faculty and staff and enrolls 230 undergraduate and 40 to 50 full-time graduate students. Theatre VCU produces four mainstage productions and numerous graduate and undergraduate directing projects each year.

Theatre, Master of Fine Arts (M.F.A.) with concentration in stage design/technical theatre

**Apply online at** [graduate.admissions.vcu.edu](http://graduate.admissions.vcu.edu).

## Admission requirements

Theatre, Master of Fine Arts (M.F.A.) with a concentration in costume design			
Degree: M.F.A.	Semester(s) of entry: Fall	Deadline dates: Feb 15 (suggested)	Test requirements: None
Special requirements: See <a href="http://arts.vcu.edu/admissions/how-to-apply">arts.vcu.edu/admissions/how-to-apply</a> for details on the application process.			

In addition to the [general admission requirements of the VCU Graduate School](#), applicants must possess a bachelor's degree (theatre preferred). Students must present a portfolio of design work (both project and realized designs) as part of their application to the program. Professional experience will be considered. The program provides preparation for early to midcareer professionals to enter the field of either professional design or teaching theatre at the college/university level.

## VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

### General academic regulations for all graduate students in all graduate programs at VCU

#### Program goal

The M.F.A. in Theatre offers concentrations in stage design/technical theatre and costume design, which comprise the professional option, and in literature and performance, which make up the pedagogy option. Focus areas in pedagogy include movement, performance, and voice and speech.

#### Student learning outcomes

The M.F.A. degree prepares students to either enter the professional field of design or to teach at the college or university level. Students will demonstrate theoretical and practical knowledge in their areas of focus, as well as in the core courses in history, literature and theory; and in teaching performance or production. They will be evaluated on their ability to teach undergraduates, a final thesis project and approval of a professional-quality design, presentation or publishable article.

#### Degree requirements

In addition to general [VCU Graduate School graduation requirements](#), students are required to take 60 credit hours of graduate-level course work distributed among core courses, area of concentration and electives, including special topics courses. The program is usually completed within two to three years.

#### Costume design concentration

The costume design concentration's degree requirements include 12 credit hours in core courses, 12 to 18 credit hours in (level-appropriate) design studio and three to six credit hours of thesis/thesis project. The balance of credit hours will be in approved electives, which may include additional practica, research and production, or professional internships. Students will take practical courses and assist faculty in teaching and design projects. They may be advised to take additional history or drawing courses to ensure that they possess the background required for advanced design projects. Their design skills and professional preparation will be evaluated by the faculty through portfolio presentations and participation at professional conferences.

### Degree candidacy requirements

A graduate student admitted to a program or concentration requiring a final research project, work of art, thesis or dissertation, must qualify for continuing master's or doctoral status according to the degree candidacy requirements of the student's graduate program. Admission to degree candidacy, if applicable, is a formal statement by the graduate student's faculty regarding the student's academic achievements and the student's readiness to proceed to the final research phase of the degree program.

Graduate students and program directors should refer to the following degree candidacy policy as published in the VCU Graduate Bulletin for complete information and instructions.

#### Degree candidacy requirements

### Graduation requirements

As graduate students approach the end of their academic programs and the final semester of matriculation, they must make formal application to graduate. No degrees will be conferred until the application to graduate has been finalized.

Graduate students and program directors should refer to the following graduation requirements as published in the Graduate Bulletin for a complete list of instructions and a graduation checklist.

#### Graduation requirements

**Apply online at** [graduate.admissions.vcu.edu](http://graduate.admissions.vcu.edu).

## Admission requirements

Theatre, Master of Fine Arts (M.F.A.) with a concentration in pedagogy/literature			
Degree:	Semester(s) of entry:	Deadline dates:	Test requirements:
M.F.A.	Fall	Feb 15 (suggested)	None
Special requirements: See <a href="http://arts.vcu.edu/admissions/how-to-apply">arts.vcu.edu/admissions/how-to-apply</a> for details on the application process. Interview required.			

In addition to the general [admission requirements of the VCU Graduate School](#), applicants must possess a bachelor's degree (theatre preferred). Students must present a portfolio of design work (both project and realized designs) as part of their application to the program. Professional experience will be considered. The program provides preparation for early to midcareer professionals to enter the field of either professional design or teaching theatre at the college/university level.

## VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

### General academic regulations for all graduate students in all graduate programs at VCU

## Program goal

The M.F.A. in Theatre offers concentrations in stage design/technical theatre and costume design, which comprise the professional option, and in literature and performance, which make up the pedagogy option. Focus areas in pedagogy include movement, performance, and voice and speech.

## Student learning outcomes

The M.F.A. degree prepares students to either enter the professional field of design or to teach at the college or university level. Students will demonstrate theoretical and practical knowledge in their areas of focus, as well as in the core courses in history, literature and theory; and in teaching performance or production. They will be evaluated on their ability to teach undergraduates, a final thesis project and approval of a professional-quality design, presentation or publishable article.

## Degree requirements

In addition to general [Graduate School graduation requirements](#), students are required to take 60 credit hours of graduate-level course work distributed among core courses, area of concentration and electives, including special topics courses. Students will also be evaluated on performance projects, production work and teaching. The program is usually completed within two to three years.

### Pedagogy/literature concentration

Requirements of the pedagogy/literature concentration include 18 credit hours in core courses (including theatre pedagogy and production), 12 credit hours in the focus area and six credit hours of thesis/thesis project. The balance of credit hours will be in approved electives, which may include additional practica, research and production, or teaching internships. Students take four to six courses in their areas of concentration and additional related courses in performance (or in MATX/English courses). Students will take practical courses and assist faculty in

teaching. Their teaching effectiveness will be evaluated by area faculty. Students will also have assignments as dramaturges for both departmental and outside productions.

Founded in 1998 as a collaboration between the Qatar Foundation for Education, Science and Community Development and Virginia Commonwealth University School of the Arts, the School of the Arts in Qatar offers the baccalaureate degrees in art history, fashion design, graphic design, interior design, and painting and printmaking. Its purpose is to provide special educational opportunities preparing graduates for leadership roles in the design professions. Courses emulate those offered on VCU's Monroe Park Campus. Graduates are prepared for exciting careers in these growing fields.

VCU School of the Arts obtained the appropriate approvals from the VCU Board of Visitors and the State Council of Higher Education for Virginia and admitted the first class to what would become VCU School of the Arts in Qatar in fall 1998. The State Council of Higher Education for Virginia approved the request in April 2001 and forwarded its recommendation to the Governor and General Assembly. The 2002 General Assembly adopted legislation authorizing VCU to establish a campus in Qatar.

## Admission requirements

Design, Master of Fine Arts (M.F.A.) with a concentration in design studies – VCUQatar Campus			
Degree: M.F.A.	Semester(s) of entry: Fall	Deadline dates: Feb 1	Test requirements: TOEFL: 570 (paper-based), 230 (computer-based) or 88 (Internet-based)

In addition to the [general admission requirements of the VCU Graduate School](#), applicants must submit the following documentation and meet the following requirements:

- A brief statement of intent that addresses:
  - The reason for graduate study in design studies
  - How previous studies and experiences have prepared the applicant for the M.F.A. program
  - Career objectives and how the M.F.A. program relates to them
- A digital portfolio of visual or written work that includes:
  - Samples of relevant work that show creative thinking, idea development and visualization skills
  - Works that support the ideas shared in the statement of intent
  - No more than 20 individual works
- A prepared presentation (for individuals selected for the interview)
- A resume that highlights the applicant's previous experiences and studies as they relate to graduate study at VCUQatar
- Three letters of recommendation from former professors, teachers, mentors or supervisors familiar with the applicant's academic and/or professional ability and aptitude toward graduate study  
**Note:** In the VCUQatar portfolio system, applicants are able to send an online form to each recommender. Alternatively, the applicant can deliver a printed recommendation letter to the Admissions Office. Download a recommendation template to use.
- Official academic transcripts (secondary and postsecondary) for all university studies
  - Submit officially certified copies of all academic diplomas, certificates, national and other major examination results. Transcripts in languages other than English must also include a certified English translation. Transcript(s) must be properly sealed and stamped by the issuing institution and must be delivered to VCUQatar Admissions Office either by hand or post.
  - The address on the official online application Confirmation Page will list a Richmond, VA address for supporting materials, but all documents should be sent to the VCUQatar Admissions Office.
- For applicants whose first language is a language other than English, an English language proficiency test with the following minimum requirements:
  - TOEFL: 570 (paper-based), 230 (computer-based) or 88 (Internet-based)
  - IELTS: 6.5

**Note:** Test scores must be sent electronically by the testing center. The TOEFL code for admission testing to VCUQatar is 5570. There is no code for IELTS.

The English language proficiency tests and standardized testing (TOEFL, SAT, ACT and IELTS) can be taken at the QF Test Center in Education City. Please visit the test center's website to see the latest dates.

- A legible copy of the applicant's passports uploaded using the online application

- A non-refundable application fee of \$50 (US) or QAR183 for each M.F.A. application (This can be paid by credit card when submitting the online application form or at the VCUQatar's Cashier Office.)

### Important reminders

- All admission supporting materials (excluding exam scores and transcripts) must be uploaded electronically using the VCUQatar online application process at <https://ssb.vcu.edu>.
- Original, official TOEFL/IELTS score reports must be sent to VCUQatar via courier or delivered in person to the Admissions Office.
- Applicants must ensure that letters of recommendation reach the office using either the VCUQatar portfolio application system or the downloadable template.
- Only complete applications will be considered for assessment.

## VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

### General academic regulations for all graduate students in all graduate programs at VCU

## Mission statement

The M.F.A. in Design with a concentration in design studies defines and inhabits an area between design disciplines. The purpose of the program is to produce designers who are experts at negotiating and utilizing elements of many different fields to construct new tailored experiences.

Tomorrow's designers must be able to understand their audiences, collaborators and patrons in original and authentic ways. Global cultures already experience design in a singular fashion. The practices at VCUQ combine graphics, interaction, engineering, systems, architecture, fashion and product design into a merged experience. Designers who are able to work outside their individual discipline will be at an advantage. The designers of the future will need to navigate between forms of practice, combining elements and skills to create new products, visuals, environments and interactions.

VCUQ is looking for creative, motivated, hardworking, self-directed individuals willing to engage with challenging topics. The program sets high demands on its students, requiring them to familiarize and grasp the myriad of variables involved in meaningful design, while simultaneously having the discipline and rigor to formulate their own assessment of what being a designer — in all its guises — entails today.

Students in this program should be able to question; be open to explore and experiment; stay true to ethical foundations; lead and be bold, while being open and flexible to adjust to shifting paradigms. The school strives to expose students to a variety of tools, materials and methods, while providing the theoretical background and research methodologies that will allow each student to develop their own unique ideas.

The M.F.A. in Design with a concentration in design studies celebrates the amorphous notion of what is called "empirical vagueness," a term that encapsulates the simultaneously analytical, yet intuitive, fashion in which a design endeavor is developed. Students, alumni and faculty all play a role in exploring and fostering this as an essential, if inherently open-ended, calling.

## Program goals

1. **Creative leadership:** Students will achieve mastery in creative leadership, with the skills and knowledge needed to achieve success as design professionals and entrepreneurs, educators, and researchers, and they will be able to creatively engage with the broad design community to bring added value to the regional economy, society and culture.
2. **Integrated research:** Students will integrate practice and theory to ensure the highest level of critical knowledge and to make meaningful contributions to pedagogy and teaching in the design disciplines. The program provides increased focus and visibility for individual and collaborative research activity that has an applied focus.
3. **Interdisciplinary emphasis:** Students will achieve high levels of creativity, literacy and knowledge across the design disciplines.
4. **Community impact:** Students will engage and raise social awareness.
5. **Career development:** The program will develop graduates with skills and knowledge to make meaningful contributions to pedagogy and teaching in the design disciplines. It also will provide opportunities that encourage students to engage and present their work in connection with the professional world.

## Student learning outcomes

1. Students will demonstrate the ability to effectively communicate in speech about their research and studio activities.
2. Students will demonstrate the ability to effectively communicate in writing about their research and studio activities.
3. Students will demonstrate the ability to practice lifelong learning by dealing with new forms of design practice and other changes in the discipline.
4. Students will demonstrate the ability to integrate ideas from historical, social and cultural movements; from policies and theories; and from the dynamics of historical, social and cultural change.
5. Students will demonstrate the ability to apply appropriate technologies to projects in their field.
6. Students will demonstrate the ability to synthesize knowledge from different disciplines to solve design problems.

## Degree requirements

In addition to general [VCU Graduate School graduation requirements](#), students must meet the following minimum requirements:

1. Total of 60 credit hours
2. Publication/documentation as specified
3. Qualification for degree candidacy
4. Thesis and final research project, exhibition and oral defense

## Curriculum requirements

Courses	Credit hours
DESI 510 Materials and Methods Studio	3
DESI 511 Studio in Digital Design and Fabrication Technology	3
DESI 512 Studio in Visual Communications	3
DESI 520 Design Research Methodologies	3

### Total graduate credit hours required (minimum)

60

\*Approved electives (six credit hours) may be selected from a variety of 500- and 600-level courses offered at VCU Qatar and VCU in Richmond. In addition, students are encouraged to enroll in 500- and 600-level elective courses offered by other accredited universities within Hamad bin Khalifa University in Qatar or any other internationally accredited university. Before taking a course outside of VCU, the student must submit a course syllabus to the M.F.A. in Design program director for approval.

## Sample plan of study

Probationary course work may be required prior to gaining full admission to the program. The amount and type of undergraduate course work will be determined at the time of application, and no graduate credit hours will be awarded for this probationary course work. The decision to grant full admission will be based upon successful completion of the required course work.

60

## Degree candidacy requirements

A graduate student admitted to a program or concentration requiring a final research project, work of art, thesis or dissertation, must qualify for continuing master's or doctoral status according to the degree candidacy requirements of the student's graduate program. Admission to degree candidacy, if applicable, is a formal statement by the graduate student's faculty regarding the student's academic achievements and the student's readiness to proceed to the final research phase of the degree program.

Graduate students and program directors should refer to the following degree candidacy policy as published in the VCU Graduate Bulletin for complete information and instructions.

### Degree candidacy requirements

## Graduation requirements

As graduate students approach the end of their academic programs and the final semester of matriculation, they must make formal application to graduate. No degrees will be conferred until the application to graduate has been finalized.

Graduate students and program directors should refer to the following graduation requirements as published in the Graduate Bulletin for a complete list of instructions and a graduation checklist.

## **2014-15 Graduate and Professional Programs Bulletin**

---

**School of Business**

Virginia Commonwealth University's School of Business can be traced back to 1917 when a board of private citizens organized the Richmond School of Social Economy for Social Workers and Public Health Nurses. By 1937 the school was called the Richmond Professional Institute, was affiliated with The College of William and Mary, and had added business courses to the curriculum. The school began offering a graduate program in 1962. Since then, the program has continued to develop and mature to meet the needs of the future.

## Vision

The vision of the VCU School of Business is to be nationally recognized as the leading technologically focused school of business in the commonwealth of Virginia.

## Mission

The mission of the VCU School of Business is to prepare students for successful careers and lifelong learning by providing management education firmly grounded in technology, interdisciplinary teamwork and global perspectives. Essential to achieving this mission is striving to excel in teaching and scholarly research, and to build effective, value-based relationships with the external community.

## Accreditation

The School of Business is accredited by the Association to Advance Collegiate Schools of Business, which accredits programs of professional education in business at the collegiate level. AACSB International accreditation represents the highest standard of achievement for business schools, worldwide. Institutions that earn accreditation confirm their commitment to quality and continuous improvement through a rigorous and comprehensive peer review. AACSB International accreditation is the hallmark of excellence in management education.

The School of Business is the first school of business in the nation to gain accreditation from the Accreditation Board for Engineering and Technology (ABET) for its undergraduate program in information systems.

## Financial aid, scholarships and awards

### Scholarships and awards

In addition to university scholarships, business students may apply and compete for scholarships awarded through School of Business endowed scholarship funds or through the various School of Business academic programs. For detailed information on scholarships and awards, visit the School of Business Web site.

### Cooperative Education and internships

Business students are eligible for the university's Cooperative Education Program. Qualified students placed with an employer will either alternate one semester of full-time study with one semester of full-time work or combine study with part-time work during the same semester. The School of Business also offers

internships, allowing advanced students to pursue part-time work assignments with area employers.

## Assistantships

The School of Business offers a limited number of graduate assistantships to full-time students for the academic year. For further information, write to the Graduate Studies in Business Office.

Graduate students also are eligible for funds administered under the National Defense Loan and college work-study programs. For further information, write to Director of Financial Aid, Virginia Commonwealth University, Richmond, VA 23284-2526.

## Graduate information

### Graduate programs

The School of Business offers degree programs leading to the [Master of Arts in Economics](#), [Master of Accountancy](#), [Master of Business Administration](#), [Master of Business Administration/Master of Science in Information Systems](#), [Master of Science in Business](#), [Master of Science in Information Systems](#), [Master of Taxation](#), and the [Ph.D. in Business](#) and [Pharm.D./M.B.A.](#)

### Graduate policies

#### Enrollment in graduate courses

Students may not enroll in any graduate business courses (except MGMT 500) for credit without first being admitted formally to a graduate degree or graduate certificate program.

Exceptions may be granted by the director of graduate studies in business to students with superior academic records. No credit will be given for graduate classes taken prior to acceptance into a graduate degree program in business or economics unless such an exception has been granted. A form to request such an exception is available from the Graduate Studies in Business Office.

A "graduate transient" classification may be granted to a student in good standing in any graduate school accredited by the Association to Advance Collegiate Schools of Business (AACSB) who desires to enroll in the School of Business for any one semester or summer session. Students will be required to present certificates of graduate standing but will not have to submit the data normally required for an admission decision. A form is available from the Graduate Studies in Business Office to facilitate transient enrollment.

### Transfer credit

A maximum of six semester hours of acceptable graduate credit earned in a degree program at an AACSB-accredited institution may be transferred and applied toward the graduate degree. Acceptance of transfer credit is made at the discretion of the director of graduate studies in business.

All transfer work must be at the A or B grade level. Students must be in good standing both at VCU and at the institution from which the credits were earned. Additionally, students must have had full admission during the time these credits were earned at that college or university. Transfer credit shall not be older than seven years at the time the degree is awarded.

Credit to be earned at other institutions after acceptance in the graduate program must be approved in advance, and approval is granted at the discretion of the director of graduate studies in business. Such work is approved only under unusual circumstances such as job transfers or other extenuating circumstances.

### Advising program

All students admitted to graduate programs are assigned advisers. Students are expected to work with their advisers to plan their graduate programs. Each student is required to complete an approved program form and file it with the Graduate Studies in Business Office no later than the end of the first semester in which the student is admitted. The curriculum plan described on the form must be approved by both the adviser and the director of graduate studies in business. Courses taken without approval are taken at the student's own risk.

Students are responsible for knowing and fulfilling all general and specific requirements relating to the completion of their degree programs. Answers to specific questions may be obtained from the Graduate Studies in Business Office, (804) 828-4622.

## Change in program or concentrations

Students who wish to change their graduate programs or areas of concentration within the school must make that request in writing to the director of graduate studies in business. The director will advise them of the necessary requirements and whether the change is possible. The student must be in good standing at the time of change.

## Notification

The student should notify in writing both Records and Registration and Graduate Studies in Business, 301 W. Franklin St., P.O. Box 844000, Richmond, VA 23284-4000, of any address changes. Students who do not wish to register in any given semester must notify in writing the Graduate Studies in Business Office of their intent not to register and their plans for continuation in the program.

## Student appeals

Appeals for exceptions to policies or academic standards may be made in writing to the Graduate Studies in Business Office, School of Business, Virginia Commonwealth University, 301 W. Franklin St., Richmond, VA 23284-4000.

## Individual research projects

Various opportunities exist for students to work closely with faculty on individual research projects. Courses in the School of Business numbered 690, 693 and 697 are suitable for this purpose. No more than one research course may be taken as part of a master's program.

Registration in all research courses requires approval of both the student's adviser and the director of graduate studies in business. Forms for this purpose are available upon request from the Graduate Studies in Business Office. Students are expected to seek permission to register in research courses by the end of the semester or summer session preceding the semester or summer session for which registration is desired. The written research report is required to be filed at the Graduate Studies in Business Office no later than the last day of classes of the semester or summer session in which the course is taken.

## General requirements for master's degrees

In addition to the general academic regulations stated in the Graduate Studies at VCU chapter of this bulletin and the regulations listed earlier in this section, master's students in the School of Business are subject to the following requirements:

1. A course for which a passing grade was received cannot be repeated without prior written permission of the director of graduate programs in business. An appeal to the School of Business Master's Committee is required.
2. Students who satisfy all requirements except the 3.0 average may be allowed to take a maximum of six additional credit hours to raise the average. Students are required to appeal to the School of Business Master's Committee for permission.
3. A foundation course may be waived by the director of graduate studies in business, based on satisfactory completion of equivalent undergraduate work prior to acceptance in the program. CLEP credit at the "B" or higher level may be accepted in lieu of foundation courses with permission. The waiver of courses is at the discretion of the School of Business.
4. A maximum of two one-year extensions may be granted by the director of graduate studies in business in the time allowed to complete a degree if satisfactory progress has been demonstrated on the part of the student requesting an extension. For extensions, write to the director of graduate programs in business.
5. Students are not permitted to take undergraduate courses equivalent to foundation courses once they are admitted to the graduate program without the written permission of the director of graduate studies in business.
6. Grades received for undergraduate courses are not included in the calculation of the cumulative graduate GPA.
7. All students admitted into a program must have earned a bachelor's degree or its equivalent. To be accepted in the graduate program, in addition to other requirements, applicants must be in good standing at the college or university they previously attended.

## School of Business courses

Descriptions for all courses offered by the university may be accessed through the online courses database at [www.pubapps.vcu.edu/vcucourses](http://www.pubapps.vcu.edu/vcucourses). You may search by unit, subject or keyword, as well as by degree level.

## Admission requirements

Business Administration, Certificate in (Post-baccalaureate graduate certificate)			
Degree:	Semester(s) of entry:	Deadline dates:	Test requirements:
Certificate	Fall	Jul 1	
	Spring	Nov 1	
	Summer	Mar 1	

In addition to the [general admission requirements of the VCU Graduate School](#), applicants must have earned a baccalaureate degree or its equivalent from an accredited college or university. This program is intended for students with an undergraduate degree in an area other than business management. Other admission requirements include a minimum undergraduate GPA of 2.7 in at least 60 hours of course work. Work experience is preferred.

## VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the

University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

**General academic regulations for  
all graduate students in all graduate programs at VCU**

## Program goal

The post-baccalaureate graduate Certificate in Business Administration is designed for professionals with little or no prior business course work who seek an opportunity for advanced study in core business function areas. The certificate provides students the ability to advance their careers while receiving recognition for academic accomplishment in the form of a graduate certificate. By completing the curriculum for the certificate, students will have satisfied the foundation course requirements in the M.B.A. and other master's programs in business.

## Student learning outcomes

1. To apply communication skills in new and unfamiliar circumstances in a form that can be readily communicated to entry-level, midlevel and senior-level managers
2. To analyze the ethical dimensions of a business situation, to relate those dimensions to professional ethical standards, and to formulate and defend possible resolutions from the perspective of entry-level managers
3. To select, conceptualize and apply appropriate quantitative techniques or approaches in order to analyze business problems for the purpose of decision-making by entry-level managers
4. To critically evaluate and use accounting and/or other financial information for the purpose of decision-making by entry-level managers

## Degree requirements

In addition to the [VCU Graduate School graduation requirements](#), students are required to complete course work in core and elective courses. In order to be eligible to receive the certificate, a student must maintain an overall GPA of 3.0. Completion of this graduate certificate program requires 21 credit hours beyond the bachelor's degree. The director of graduate studies in the School of Business may waive up to 12 credit hours based upon equivalent course work completed in the past five years with a minimum grades of B presented. In the event that courses are waived, students must take additional course work to meet the minimum 21 credit-hour requirement. Successful completion of the graduate certificate program does not guarantee admission to a master's-level program. Students interested in applying at a later date to either the M.B.A. or other master's programs must do so through a separate application process.

However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

### General academic regulations for all graduate students in all graduate programs at VCU

## Program goal

VCU's School of Business Executive M.B.A. program provides experienced managers in Virginia and surrounding states with the knowledge and skills needed to solve real-world business problems in today's complex global environment. The Executive M.B.A. program accomplishes this purpose by using a curriculum with an integrated, modular, team-oriented, interdisciplinary approach that constantly challenges students to apply knowledge and skills to new and unfamiliar situations by using a conceptual understanding of relevant business disciplines.

## Student learning outcomes

1. Demonstrate the capacity from an executive perspective to integrate knowledge-specific information to different business disciplines in helping teams to solve business problems in new and unfamiliar circumstances
2. Demonstrate communication knowledge and skills in both technical and interpersonal areas
3. Demonstrate an understanding of the ethical and social responsibility of business organizations in the U.S. and in other parts of the world
4. Demonstrate analytic skills using new and unfamiliar data sets

## Degree requirements

The Executive M.B.A. program is designed for students with familiarity with significant work experience. The student's adviser will review the student's educational and professional background to determine the extent to which the student has satisfied the prerequisites. Those with outstanding prerequisites will be required to attend one or more training sessions to remove any deficiencies.

In addition to the [VCU Graduate School graduation requirements](#), students must complete a minimum of 39 graduate credit hours. The program consists of 13 courses that are divided into seven integrated modules.

## Curriculum requirements

Courses	Credit hours
Module 1	
FMBA 601 Team Building and Leadership (course 1)	3
FMBA 602 Team Building and Leadership (course 2)	3
Module 2

FMBA 612 Strategic Management (course 2)	3
FMBA 613 Strategic Management (course 3)	3
<b>Total graduate credit hours required (minimum)</b>	<b>39</b>

## Degree candidacy requirements

A graduate student admitted to a program or concentration requiring a final research project, work of art, thesis or dissertation, must qualify for continuing master's or doctoral status according to the degree candidacy requirements of the student's graduate program. Admission to degree candidacy, if applicable, is a formal statement by the graduate student's faculty regarding the student's academic achievements and the student's readiness to proceed to the final research phase of the degree program.

Graduate students and program directors should refer to the following degree candidacy policy as published in the VCU Graduate Bulletin for complete information and instructions.

### Degree candidacy requirements

## Graduation requirements

As graduate students approach the end of their academic programs and the final semester of matriculation, they must make formal application to graduate. No degrees will be conferred until the application to graduate has been finalized.

Graduate students and program directors should refer to the following graduation requirements as published in the Graduate Bulletin for a complete list of instructions and a graduation checklist.

## VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty

of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

**General academic regulations for  
all graduate students in all graduate programs at VCU**

## Program goal

VCU's School of Business Executive M.B.A. program provides experienced managers in Virginia and surrounding states with the knowledge and skills needed to solve real-world business problems in today's complex global environment. The Executive M.B.A. program accomplishes this purpose by using a curriculum with an integrated, modular, team-oriented, interdisciplinary approach that constantly challenges students to apply knowledge and skills to new and unfamiliar situations by using a conceptual understanding of relevant business disciplines.

## Student learning outcomes

1. Demonstrate the capacity from an executive perspective to integrate knowledge-specific information to different business disciplines in helping teams to solve business problems in new and unfamiliar circumstances
2. Demonstrate communication knowledge and skills in both technical and interpersonal areas
3. Demonstrate an understanding of the ethical and social responsibility of business organizations in the U.S. and in other parts of the world
4. Demonstrate analytic skills using new and unfamiliar data sets

## Admission requirements

Business Administration, Master of (M.B.A.) [Executive] with a concentration in health care management			
Degree: M.B.A.	Semester(s) of entry: Fall only	Deadline dates: Feb 15 (for early decision)  Apr 22 (final decision)	Test requirements: GMAT or GRE

In addition to the [general admission requirements of the VCU Graduate School](#), applicants to the master's program in business administration must submit an up-to-date resume.

## VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

### General academic regulations for all graduate students in all graduate programs at VCU

## Program goal

VCU's School of Business Executive M.B.A. program provides experienced managers in Virginia and surrounding states with the knowledge and skills needed to solve real-world business problems in today's complex global environment. The Executive M.B.A. program accomplishes this purpose by using a curriculum with an integrated, modular, team-oriented, interdisciplinary approach that constantly challenges students to apply knowledge and skills to new and unfamiliar situations by using a conceptual understanding of relevant business disciplines.

## Student learning outcomes

1. Demonstrate the capacity from an executive perspective to integrate knowledge-specific information to different business disciplines in helping teams to solve business problems in new and unfamiliar circumstances
2. Demonstrate communication knowledge and skills in both technical and interpersonal areas
3. Demonstrate an understanding of the ethical and social responsibility of business organizations in the U.S. and in other parts of the world
4. Demonstrate analytic skills using new and unfamiliar data sets

## Degree requirements

The Executive M.B.A. program is designed for students with familiarity with significant work experience. The student's adviser will review the student's educational and professional background to determine the extent to which the student has satisfied the prerequisites. Those with outstanding prerequisites will be required to attend one or more training sessions to remove any deficiencies.

In addition to [VCU Graduate School graduation requirements](#), students seeking a concentration must complete a minimum of 48 graduate credit hours. The program consists of 13 courses that are divided into seven integrated modules plus the concentration electives.

## Curriculum requirements

Courses	Credit hours
Module 1	
FMBA 601 Team Building and Leadership (course 1)	3

**Total graduate credit hours required (minimum)** **48**

## Degree candidacy requirements

A graduate student admitted to a program or concentration requiring a final research project, work of art, thesis or dissertation, must qualify for continuing master's or doctoral status according to the degree candidacy requirements of the student's graduate program. Admission to degree candidacy, if applicable, is a formal statement by the graduate student's faculty regarding the student's academic achievements and the student's readiness to proceed to the final research phase of the degree program.

Graduate students and program directors should refer to the following degree candidacy policy as published in the VCU Graduate Bulletin for complete information and instructions.

### Degree candidacy requirements

## Graduation requirements

As graduate students approach the end of their academic programs and the final semester of matriculation, they must make formal application to graduate. No degrees will be conferred until the application to graduate has been finalized.

Graduate students and program directors should refer to the following graduation requirements as published in the Graduate Bulletin for a complete list of instructions and a graduation checklist.

4. Demonstrate analytic skills using new and unfamiliar data sets

## Degree requirements

The Executive M.B.A. program is designed for students with familiarity with significant work experience. The student's adviser will review the student's educational and professional background to determine the extent to which the

student has satisfied the prerequisites. Those with outstanding prerequisites will be required to attend one or more training sessions to remove any deficiencies.

In addition to [VCU Graduate School graduation requirements](#), students seeking a concentration must complete a minimum of 48 graduate credit hours. The program consists of 13 courses that are divided into seven integrated modules plus the concentration electives.

## Curriculum requirements

Courses	Credit hours

## Degree candidacy requirements

A graduate student admitted to a program or concentration requiring a final research project, work of art, thesis or dissertation, must qualify for continuing master's or doctoral status according to the degree candidacy requirements of the student's graduate program. Admission to degree candidacy, if applicable, is a formal statement by the graduate student's faculty regarding the student's academic achievements and the student's readiness to proceed to the final research phase of the degree program.

Graduate students and program directors should refer to the following degree candidacy policy as published in the VCU Graduate Bulletin for complete information and instructions.

### Degree candidacy requirements

## Graduation requirements

As graduate students approach the end of their academic programs and the final semester of matriculation, they must make formal application to graduate. No degrees will be conferred until the application to graduate has been finalized.

Graduate students and program directors should refer to the following graduation requirements as published in the Graduate Bulletin for a complete list of instructions and a graduation checklist.

<b>Degree:</b> M.B.A./M.S.	<b>Semester(s) of entry:</b> Fall only	<b>Deadline dates:</b> Feb 15 (for early decision)  Apr 22 (final decision)	<b>Test requirements:</b> GMAT
	Spring only	Nov 1 (for early decision)  Jan 15 (final decision)	
Admission notes regarding deadline: Students in the Executive M.B.A. program have the option to continue with the Fast Track Executive M.S. in Information Systems with a concentration in information technology management program after having completed the requirements for the Executive M.B.A. to earn both degrees.			

Applicants must meet all [general admission requirements of the VCU Graduate School](#).

## VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

### General academic regulations for all graduate students in all graduate programs at VCU

## Program goal

### Executive M.B.A.

VCU's School of Business Executive M.B.A. program provides experienced managers in Virginia and surrounding states with the knowledge and skills needed to solve real-world business problems in today's complex global environment. The Executive M.B.A. program accomplishes this purpose by using a curriculum with an integrated, modular, team-oriented, interdisciplinary approach that constantly challenges students to apply knowledge and skills to new and unfamiliar situations by using a conceptual understanding of relevant business disciplines.

### M.S. in Information Systems

The Master of Science in Information Systems program is designed to prepare students for specialized roles in information systems. The program is intended to provide a graduate-level, technically oriented curriculum that focuses on the design and development of information systems to solve real-world problems. The department's curriculum is focused on the rapidly emerging area known as enterprise information systems. Graduates of the program are expected to be able to take significant roles in planning, organizing, managing, designing, configuring and implementing EIS using state-of-the-art technologies within organizations.

## Student learning outcomes

### Executive M.B.A.

1. Demonstrate the capacity from an executive perspective to integrate knowledge-specific information to different business disciplines in helping teams to solve business problems in new and unfamiliar circumstances
2. Demonstrate communication knowledge and skills in both technical and interpersonal areas
3. Demonstrate an understanding of the ethical and social responsibility of business organizations in the U.S. and in other parts of the world
4. Demonstrate analytic skills using new and unfamiliar data sets

### M.S. in Information Systems

Graduates should be able to:

1. Communicate and network effectively within their professions and organizations; serve the profession by applying this knowledge broadly; and maintain key technical expertise in order to sustain required levels of competitiveness
2. Understand information technology as it applies to business contexts and effectively apply this technology in specific circumstances
3. Develop efficient and effective IS solutions using appropriate technologies that can deliver competitive advantages to organizations
4. Develop and incorporate changes in the planning and management of IS resources based on an increased understanding of the dynamic changes in the organization, IS and global environments

## Degree requirements

In addition to [VCU Graduate School graduation requirements](#), students must complete a minimum of 60 hours of graduate course work. Students pursuing this dual degree option will have four courses in the Fast Track M.S. program waived. These four courses cover the information systems content of the Executive M.B.A. program.

**VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs**

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

**General academic regulations for all graduate students in all graduate programs at VCU****Program goal**

The purpose of the Master of Business Administration program at VCU is to prepare individuals for the responsibilities of management. As students at VCU, individuals will learn the functions and techniques of effective management. The student also will come to understand the environmental and economic factors that affect decision-making in organizations. In short, the student will know what to do as future events unfold that affect his/her firm or organization.

An M.B.A. from VCU benefits students at various points in their careers. Individuals who have recently received their baccalaureate degrees may choose to refine their business skills while their undergraduate training is fresh. Individuals with work experience often find that an M.B.A. is the key to rapid promotion or a career change. Finally, an M.B.A. from VCU meets the needs of students who recognize that the best preparation for an uncertain future is continuous learning.

## Student learning outcomes

1. Students should be able to demonstrate the capacity to apply business knowledge in new and unfamiliar circumstances.
2. Students should be able to demonstrate the ability to work in teams and other groups.
3. Students should understand and be able to develop the ethical and social responsibilities of organizations.
4. Students should be able to describe the factors involved in key operation decisions and to apply appropriately techniques that provide insight and structure for management decision-making.
5. Students should be able to identify and understand major issues faced by organizations with evolving information technology and investigate issues and challenges faced by managers with changes in information technology.
6. Students should be able to describe the factors involved in key operation decisions and to apply appropriately techniques that provide insight and structure for management decision-making.
7. Graduates of the program should be able to critically evaluate and use accounting and other information for managerial decision-making.
8. Graduates should be able to evaluate marketing programs.
9. Students should be able to think critically and systematically about financial issues in businesses to develop techniques to analyze these issues numerically.
10. Graduates of the program should be able to develop an analytical framework for identifying the objectives of the firm and to provide some tools for evaluating the firm's performance.

## Degree requirements

In addition to the [VCU Graduate School graduation requirements](#), students in the M.B.A. program must complete a minimum of 36 graduate credit hours. In addition, a prerequisite course in calculus is required. This prerequisite may be waived for students who present satisfactory equivalent preparation. Applicants who have not met this prerequisite may take the course after admission.

The program also includes seven foundation courses. These courses may be waived for students who have taken the equivalent material at the undergraduate level within the past five years and received a minimum grade of B. After a student has been admitted, courses which have not been waived must be completed at the graduate level.

Students are expected to enter the program with basic computing proficiency. Specific expectations will be provided by the Graduate Studies in Business Office. Specific means of evaluating and correcting any deficiency also will be identified.

## Curriculum requirements

The curriculum for the M.B.A. program is flexible and is designed for students with diverse undergraduate backgrounds. Students may elect an M.B.A. without a concentration or may choose an M.B.A. with a single or double concentration. Concentrations areas are noted in the related curricular options above.

Most classes are held in the evening to accommodate working students' schedules. Classes typically meet one evening a week from 7 to 9:40 p.m. or twice a week in the early evening from 5:30 to 6:45 p.m. For additional information about the program, visit [vcu.edu/mba](http://vcu.edu/mba).

<b>Total graduate credit hours required (minimum)</b>	<b>57</b> (36 if all foundation courses are waived)

### Electives and concentrations

Project courses (693), topics courses (691) and guided studies (697) may be available for use toward concentration electives. These courses must be preapproved by the director of graduate studies.

Electives from the School of Business must be 600-level courses and students must satisfy the necessary prerequisites. Courses at the 500- or 600-level taken outside of the School of Business may be used with the permission of the director of graduate studies in business. Students must satisfy the necessary prerequisites for all electives.

### Degree candidacy requirements

A graduate student admitted to a program or concentration requiring a final research project, work of art, thesis or dissertation, must qualify for continuing master's or doctoral status according to the degree candidacy requirements of the student's graduate program. Admission to degree candidacy, if applicable, is a formal statement by the graduate student's faculty regarding the student's academic achievements and the student's readiness to proceed to the final research phase of the degree program.

Graduate students and program directors should refer to the following degree candidacy policy as published in the VCU Graduate Bulletin for complete information and instructions.

#### Degree candidacy requirements

### Graduation requirements

As graduate students approach the end of their academic programs and the final semester of matriculation, they must make formal application to graduate. No degrees will be conferred until the application to graduate has been finalized.

Graduate students and program directors should refer to the following graduation requirements as published in the Graduate Bulletin for a complete list of instructions and a graduation checklist.

#### Graduation requirements

M.B.A.	Fall	Jul 1	GMAT or GRE
	Spring	Nov 1	
	Summer	Mar 1	

In addition to the [general admission requirements of the VCU Graduate School](#), applicants to the master's program in business administration must submit an up-to-date resume.

### VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

#### General academic regulations for all graduate students in all graduate programs at VCU

### Program goal

The purpose of the Master of Business Administration program at VCU is to prepare individuals for the responsibilities of management. As students at VCU, individuals will learn the functions and techniques of effective management. The student also will come to understand the environmental and economic factors that affect decision-making in organizations. In short, the student will know what to do as future events unfold that affect his/her firm or organization.

An M.B.A. from VCU benefits students at various points in their careers. Individuals who have recently received their baccalaureate degrees may choose to refine their business skills while their undergraduate training is fresh. Individuals with work experience often find that an M.B.A. is the key to rapid promotion or a career change. Finally, an M.B.A. from VCU meets the needs of students who recognize that the best preparation for an uncertain future is continuous learning.

## Student learning outcomes

1. Students should be able to demonstrate the capacity to apply business knowledge in new and unfamiliar circumstances.
2. Students should be able to demonstrate the ability to work in teams and other groups.
3. Students should understand and be able to develop the ethical and social responsibilities of organizations.
4. Students should be able to describe the factors involved in key operation decisions and to apply appropriately techniques that provide insight and structure for management decision-making.
5. Students should be able to identify and understand major issues faced by organizations with evolving information technology and investigate issues and challenges faced by managers with changes in information technology.
6. Students should be able to describe the factors involved in key operation decisions and to apply appropriately techniques that provide insight and structure for management decision-making.
7. Graduates of the program should be able to critically evaluate and use accounting and other information for managerial decision-making.
8. Graduates should be able to evaluate marketing programs.
9. Students should be able to think critically and systematically about financial issues in businesses to develop techniques to analyze these issues numerically.
10. Graduates of the program should be able to develop an analytical framework for identifying the objectives of the firm and to provide some tools for evaluating the firm's performance.

## Degree requirements

In addition to the [VCU Graduate School graduation requirements](#), students in the M.B.A. program must complete a minimum of 36 graduate credit hours. In addition, a prerequisite course in calculus is required. This prerequisite may be waived for students who present satisfactory equivalent preparation. Applicants who have not met this prerequisite may take the course after admission.

The program also includes seven foundation courses. These courses may be waived for students who have taken the equivalent material at the undergraduate level within the past five years and received a minimum grade of B. After a student has been admitted, courses which have not been waived must be completed at the graduate level.

Students are expected to enter the program with basic computing proficiency. Specific expectations will be provided by the Graduate Studies in Business Office. Specific means of evaluating and correcting any deficiency also will be identified.

## Curriculum requirements

The curriculum for the M.B.A. program is flexible and is designed for students with diverse undergraduate backgrounds. Students may elect an M.B.A. without a concentration or may choose an M.B.A. with a single or double concentration. Concentrations areas are noted in the related curricular options above.

Most classes are held in the evening to accommodate working students' schedules. Classes typically meet one evening a week from 7 to 9:40 p.m. or twice a week in the early evening from 5:30 to 6:45 p.m. For additional information about the program, visit [vcu.edu/mba](http://vcu.edu/mba).

## Admission requirements

Business Administration, Master of (M.B.A.) with a concentration in health care management			
Degree: M.B.A.	Semester(s) of entry:	Deadline dates:	Test requirements: GMAT or GRE
	Fall	Jul 1	
	Spring	Nov 1	
	Summer	Mar 1	

In addition to the [general admission requirements of the VCU Graduate School](#), applicants to the master's program in business administration must submit an up-to-date resume.

## VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

### General academic regulations for all graduate students in all graduate programs at VCU

## Program goal

The purpose of the Master of Business Administration program at VCU is to prepare individuals for the responsibilities of management. As students at VCU, individuals will learn the functions and techniques of effective management. The student also will come to understand the environmental and economic factors that affect decision-making in organizations. In short, the student will know what to do as future events unfold that affect his/her firm or organization.

An M.B.A. from VCU benefits students at various points in their careers. Individuals who have recently received their baccalaureate degrees may choose to refine their business skills while their undergraduate training is fresh. Individuals with work experience often find that an M.B.A. is the key to rapid promotion or a career change. Finally, an M.B.A. from VCU meets the needs of students who recognize that the best preparation for an uncertain future is continuous learning.

## Student learning outcomes

- Students should be able to demonstrate the capacity to apply business knowledge in new and unfamiliar circumstances.
- Students should be able to demonstrate the ability to work in teams and other groups.
- Students should understand and be able to develop the ethical and social responsibilities of organizations.
- Students should be able to describe the factors involved in key operation decisions and to apply appropriately techniques that provide insight and structure for management decision-making.
- Students should be able to identify and understand major issues faced by organizations with evolving information technology and investigate issues and challenges faced by managers with changes in information technology.
- Students should be able to describe the factors involved in key operation decisions and to apply appropriately techniques that provide insight and structure for management decision-making.

- Graduates of the program should be able to critically evaluate and use accounting and other information for managerial decision-making.
- Graduates should be able to evaluate marketing programs.
- Students should be able to think critically and systematically about financial issues in businesses to develop techniques to analyze these issues numerically.
- Graduates of the program should be able to develop an analytical framework for identifying the objectives of the firm and to provide some tools for evaluating the firm's performance.

## Degree requirements

In addition to the [VCU Graduate School graduation requirements](#), students in the M.B.A. program must complete a minimum of 36 graduate credit hours. In addition, a prerequisite course in calculus is required. This prerequisite may be waived for students who present satisfactory equivalent preparation. Applicants who have not met this prerequisite may take the course after admission.

The program also includes seven foundation courses. These courses may be waived for students who have taken the equivalent material at the undergraduate level within the past five years and received a minimum grade of B. After a student has been admitted, courses which have not been waived must be completed at the graduate level.

Students are expected to enter the program with basic computing proficiency. Specific expectations will be provided by the Graduate Studies in Business Office. Specific means of evaluating and correcting any deficiency also will be identified.

## Curriculum requirements

The curriculum for the M.B.A. program is flexible and is designed for students with diverse undergraduate backgrounds. Students may elect an M.B.A. without a concentration or may choose an M.B.A. with a single or double concentration. Concentrations areas are noted in the related curricular options above.

Most classes are held in the evening to accommodate working students' schedules. Classes typically meet one evening a week from 7 to 9:40 p.m. or twice a week in the early evening from 5:30 to 6:45 p.m. For additional information about the program, visit [vcu.edu/mba](http://vcu.edu/mba).

## Degree candidacy requirements

A graduate student admitted to a program or concentration requiring a final research project, work of art, thesis or dissertation, must qualify for continuing master's or doctoral status according to the degree candidacy requirements of the student's graduate program. Admission to degree candidacy, if applicable, is a formal statement by the graduate student's faculty regarding the student's academic achievements and the student's readiness to proceed to the final research phase of the degree program.

Graduate students and program directors should refer to the following degree candidacy policy as published in the VCU Graduate Bulletin for complete information and instructions.

### Degree candidacy requirements

## Graduation requirements

As graduate students approach the end of their academic programs and the final semester of matriculation, they must make formal application to graduate. No degrees will be conferred until the application to graduate has been finalized.

Graduate students and program directors should refer to the following graduation requirements as published in the Graduate Bulletin for a complete list of instructions and a graduation checklist.

Individuals who have recently received their baccalaureate degrees may choose to refine their business skills while their undergraduate training is fresh. Individuals with work experience often find that an M.B.A. is the key to rapid promotion or a career change. Finally, an M.B.A. from VCU meets the needs of students who recognize that the best preparation for an uncertain future is continuous learning.

## Student learning outcomes

1. Students should be able to demonstrate the capacity to apply business knowledge in new and unfamiliar circumstances.
2. Students should be able to demonstrate the ability to work in teams and other groups.
3. Students should understand and be able to develop the ethical and social responsibilities of organizations.
4. Students should be able to describe the factors involved in key operation decisions and to apply appropriately techniques that provide insight and structure for management decision-making.
5. Students should be able to identify and understand major issues faced by organizations with evolving information technology and investigate issues and challenges faced by managers with changes in information technology.
6. Students should be able to describe the factors involved in key operation decisions and to apply appropriately techniques that provide insight and structure for management decision-making.
7. Graduates of the program should be able to critically evaluate and use accounting and other information for managerial decision-making.
8. Graduates should be able to evaluate marketing programs.
9. Students should be able to think critically and systematically about financial issues in businesses to develop techniques to analyze these issues numerically.
10. Graduates of the program should be able to develop an analytical framework for identifying the objectives of the firm and to provide some tools for evaluating the firm's performance.

## Degree requirements

In addition to the [VCU Graduate School graduation requirements](#), students in the M.B.A. program must complete a minimum of 36 graduate credit hours. In addition, a prerequisite course in calculus is required. This prerequisite may be waived for students who present satisfactory equivalent preparation. Applicants who have not met this prerequisite may take the course after admission.

The program also includes seven foundation courses. These courses may be waived for students who have taken the equivalent material at the undergraduate level within the past five years and received a minimum grade of B. After a student has been admitted, courses which have not been waived must be completed at the graduate level.

Students are expected to enter the program with basic computing proficiency. Specific expectations will be provided by the Graduate Studies in Business Office. Specific means of evaluating and correcting any deficiency also will be identified.

## Curriculum requirements

The curriculum for the M.B.A. program is flexible and is designed for students with diverse undergraduate backgrounds. Students may elect an M.B.A. without a concentration or may choose an M.B.A. with a single or double concentration. Concentrations areas are noted in the related curricular options above.

Most classes are held in the evening to accommodate working students' schedules. Classes typically meet one evening a week from 7 to 9:40 p.m. or twice a week in the early evening from 5:30 to 6:45 p.m. For additional information about the program, visit [vcu.edu/mba](http://vcu.edu/mba).

### Electives and concentrations

Project courses (693), topics courses (691) and guided studies (697) may be available for use toward concentration electives. These courses must be preapproved by the director of graduate studies.

Electives from the School of Business must be 600-level courses and students must satisfy the necessary prerequisites. Courses at the 500- or 600-level taken outside of the School of Business may be used with the permission of the director

of graduate studies in business. Students must satisfy the necessary prerequisites for all electives.

## Degree candidacy requirements

A graduate student admitted to a program or concentration requiring a final research project, work of art, thesis or dissertation, must qualify for continuing master's or doctoral status according to the degree candidacy requirements of the student's graduate program. Admission to degree candidacy, if applicable, is a formal statement by the graduate student's faculty regarding the student's academic achievements and the student's readiness to proceed to the final research phase of the degree program.

Graduate students and program directors should refer to the following degree candidacy policy as published in the VCU Graduate Bulletin for complete information and instructions.

### Degree candidacy requirements

## Graduation requirements

As graduate students approach the end of their academic programs and the final semester of matriculation, they must make formal application to graduate. No degrees will be conferred until the application to graduate has been finalized.

Graduate students and program directors should refer to the following graduation requirements as published in the Graduate Bulletin for a complete list of instructions and a graduation checklist.

### Graduation requirements

## Other information

However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

#### General academic regulations for all graduate students in all graduate programs at VCU

### Program goal

#### Master of Business Administration

The purpose of the Master of Business Administration program at VCU is to prepare individuals for the responsibilities of management. As students at VCU, individuals will learn the functions and techniques of effective management. The student also will come to understand the environmental and economic factors that affect decision-making in organizations. In short, the student will know what to do as future events unfold that affect his/her firm or organization.

An M.B.A. from VCU benefits students at various points in their careers. Individuals who have recently received their baccalaureate degrees may choose to refine their business skills while their undergraduate training is fresh. Individuals with work experience often find that an M.B.A. is the key to rapid promotion or a career change. Finally, an M.B.A. from VCU meets the needs of students who recognize that the best preparation for an uncertain future is continuous learning.

#### Master of Science in Information Systems

The Master of Science in Information Systems program is designed to prepare students for specialized roles in information systems. The program is intended to provide a graduate-level, technically oriented curriculum that focuses on the design and development of information systems to solve real-world problems. The department's curriculum is focused on the rapidly emerging area known as enterprise information systems. Students may choose a curriculum with no concentration or a concentration in information risk, security and assurance. Graduates of the program are expected to be able to take significant roles in planning, organizing, managing, designing, configuring and implementing EIS systems using state-of-the-art technologies within organizations.

### Student learning outcomes

#### For M.B.A. graduates

1. Students should be able to demonstrate the capacity to apply business knowledge in new and unfamiliar circumstances.

- Students should be able to demonstrate the ability to work in teams and other groups.
- Students should understand and be able to develop the ethical and social responsibilities of organizations.
- Students should be able to describe the factors involved in key operation decisions and to apply appropriately techniques that provide insight and structure for management decision-making.
- Students should be able to identify and understand major issues faced by organizations with evolving information technology and investigate issues and challenges faced by managers with changes in information technology.
- Students should be able to describe the factors involved in key operation decisions and to apply appropriately techniques that provide insight and structure for management decision-making.
- Graduates of the program should be able to critically evaluate and use accounting and other information for managerial decision-making.
- Graduates should be able to evaluate marketing programs.
- Students should be able to think critically and systematically about financial issues in businesses to develop techniques to analyze these issues numerically.
- Graduates of the program should be able to develop an analytical framework for identifying the objectives of the firm and to provide some tools for evaluating the firm's performance.

#### For M.S. in Information Sciences graduates

- Graduates should be capable of communicating and networking effectively within their profession and within their organizations, serving the profession by applying this knowledge broadly and maintaining key technical expertise in order to sustain required levels of competitiveness.
- Graduates must have an understanding of information technology as it applies to business contexts and the skill to apply this technology effectively in specific circumstances.
- Graduates must be able to develop efficient and effective IS solutions using appropriate technologies that can deliver competitive advantages to organizations.
- Graduates must be able to develop and incorporate changes in the planning and management of IS resources based on an increased understanding of the dynamic changes in the organization, IS and global environments.

### Degree requirements

In addition to the [VCU Graduate School graduation requirements](#), students can earn both M.B.A. and M.S. in Information Systems degrees by having 12 credit hours counted toward both degrees.

Students in the combined degree program will follow the same schedule as regular M.B.A. students, including the two lockstep semesters. To get both degrees, students will take all foundation courses required for the M.B.A. (unless waived), all nine core courses required for the M.B.A. and nine additional courses in the M.S. in Information Systems program, including INFO 610, INFO 620 and INFO 630. Students whose undergraduate degrees are not in information systems may also be required to take additional undergraduate prerequisite courses before taking the graduate information systems courses, as determined by the program adviser. The INFO 661 course taken for the M.B.A. will substitute for INFO 640, normally required for the M.S. in Information Systems degree, and three of the additional information systems courses also will count toward the normally required three elective courses in the M.B.A. program.

One of the information systems courses must have substantial global, entrepreneurial and/or experiential components. The six information systems courses to be taken in addition to INFO 661, INFO 664, INFO 610, INFO 620 and INFO 630 must be approved by the program adviser, and would normally be selected to satisfy one of the M.S. in Information Systems concentrations.

#### Total graduate credit hours required (minimum)

**54**

Students in the combined program who wish to have an M.B.A. concentration other than information resources management would need to complete an additional three courses for the concentration area. Refer to the [program search](#) function for a complete list of concentration options.

## Degree candidacy requirements

A graduate student admitted to a program or concentration requiring a final research project, work of art, thesis or dissertation, must qualify for continuing master's or doctoral status according to the degree candidacy requirements of the student's graduate program. Admission to degree candidacy, if applicable, is a formal statement by the graduate student's faculty regarding the student's academic achievements and the student's readiness to proceed to the final research phase of the degree program.

Graduate students and program directors should refer to the following degree candidacy policy as published in the VCU Graduate Bulletin for complete information and instructions.

### Degree candidacy requirements

## Graduation requirements

As graduate students approach the end of their academic programs and the final semester of matriculation, they must make formal application to graduate. No degrees will be conferred until the application to graduate has been finalized.

Graduate students and program directors should refer to the following graduation requirements as published in the Graduate Bulletin for a complete list of instructions and a graduation checklist.

### Graduation requirements

## Admission requirements

**Business Administration, Master of (M.B.A.)/Information Systems, Master of Science in (M.S.) with a concentration in information technology management [Fast Track Executive] [combined]**

Degree:	Semester(s) of entry:	Deadline dates:	Test requirements:
M.B.A.	Fall	Jul 1	GMAT or GRE
	Spring	Nov 1	
M.S.	Spring only	Nov 1 (for early decision) Jan 15 (final decision)	

In addition to the [general admission requirements of the VCU Graduate School](#), applicants to the combined Master of Business Administration and Fast Track Executive Master of Science in Information Systems with a concentration in information technology management program must submit an up-to-date resume.

## VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

### General academic regulations for all graduate students in all graduate programs at VCU

## Program goal

### Master of Business Administration

The purpose of the Master of Business Administration program at VCU is to prepare individuals for the responsibilities of management. As students at VCU, individuals will learn the functions and techniques of effective management. The student also will come to understand the environmental and economic factors that affect decision-making in organizations. In short, the student will know what to do as future events unfold that affect his/her firm or organization.

An M.B.A. from VCU benefits students at various points in their careers. Individuals who have recently received their baccalaureate degrees may choose to refine their business skills while their undergraduate training is fresh. Individuals with work experience often find that an M.B.A. is the key to rapid promotion or a career change. Finally, an M.B.A. from VCU meets the needs of students who recognize that the best preparation for an uncertain future is continuous learning.

### Master of Science in Information Systems

The Master of Science in Information Systems program is designed to prepare students for specialized roles in information systems. The program is intended to provide a graduate-level, technically oriented curriculum that focuses on the design and development of information systems to solve real-world problems. The department's curriculum is focused on the rapidly emerging area known as enterprise information systems. Students may choose a curriculum with no concentration or a concentration in information risk, security and assurance. Graduates of the program are expected to be able to take significant roles in planning, organizing, managing, designing, configuring and implementing EIS systems using state-of-the-art technologies within organizations.

## Student learning outcomes

### For M.B.A. graduates

1. Students should be able to demonstrate the capacity to apply business knowledge in new and unfamiliar circumstances.
2. Students should be able to demonstrate the ability to work in teams and other groups.
3. Students should understand and be able to develop the ethical and social responsibilities of organizations.
4. Students should be able to describe the factors involved in key operation decisions and to apply appropriately techniques that provide insight and structure for management decision-making.
5. Students should be able to identify and understand major issues faced by organizations with evolving information technology and investigate issues and challenges faced by managers with changes in information technology.
6. Students should be able to describe the factors involved in key operation decisions and to apply appropriately techniques that provide insight and structure for management decision-making.
7. Graduates of the program should be able to critically evaluate and use accounting and other information for managerial decision-making.
8. Graduates should be able to evaluate marketing programs.
9. Students should be able to think critically and systematically about financial issues in businesses to develop techniques to analyze these issues numerically.
10. Graduates of the program should be able to develop an analytical framework for identifying the objectives of the firm and to provide some tools for evaluating the firm's performance.

### For M.S. in Information Sciences graduates

1. Graduates should be capable of communicating and networking effectively within their profession and within their organizations, serving the profession by applying this knowledge broadly and maintaining key technical expertise in order to sustain required levels of competitiveness.
2. Graduates must have an understanding of information technology as it applies to business contexts and the skill to apply this technology effectively in specific circumstances.
3. Graduates must be able to develop efficient and effective IS solutions using appropriate technologies that can deliver competitive advantages to organizations.
4. Graduates must be able to develop and incorporate changes in the planning and management of IS resources based on an increased understanding of the dynamic changes in the organization, IS and global environments.

## Degree requirements

In addition to the [VCU Graduate School graduation requirements](#), students can earn both M.B.A. and M.S. in Information Systems degrees by having 12 credit hours counted toward both degrees, thus requiring only 54 credit hours total of advanced course work (not counting foundation courses), rather than the 36 and 30 credit hours normally required for the two degrees.

To obtain both degrees, students will complete the entire 30 credit-hour information system master's program plus six M.B.A. core courses (ECON 610, FIRE 623, ACCT 608, MGMT 642, MGMT 675 and MKTG 671) plus two elective courses. Students must also complete any designated required courses. The course ISTM 671 will substitute for MGMT 641; ISTM 672 will substitute for INFO 661; and ISTM 677 will substitute for INFO 664. ISTM 673 will count toward one of the three required M.B.A. elective courses.

However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

## General academic regulations for all graduate students in all graduate programs at VCU

## Program goal

The dual-degree M.B.A./M.Ed. in Sport Leadership program will prepare students for leadership positions by combining the business teaching of an M.B.A. program with sport industry-specific knowledge gained in the M.Ed. program. This degree combination recognizes the growing complexity of the sport industry and reinforces the Center for Sport Leadership's commitment to preparing students for the leadership challenges of the future. The dual degree offers students course work and knowledge they will need to be successful in a business setting combined with the application and networking skills required in today's sport industry.

The M.B.A. phase of the program will encompass a problem-based learning style, immersing students in collaborative projects and working situations that are commonplace in the business world. Students will learn business concepts in a real-life context and develop skills in communication, collaboration and teamwork that are essential for success, while developing their abilities to be creative, take initiative and accept personal responsibility for their actions.

The M.Ed. program will combine classroom and practical experience to prepare individuals for leadership positions in the sport industry. An interdisciplinary approach gives students the freedom to choose courses of personal interest and build a foundation of knowledge in their desired career fields.

## Student learning outcomes

1. Students should be able to demonstrate the capacity to apply business knowledge in new and unfamiliar circumstances.
2. Students should be able to demonstrate the ability to work in teams and other groups.
3. Students should understand and be able to develop the ethical and social responsibilities of organizations.
4. Students should be able to describe the factors involved in key operation decisions and to appropriately apply techniques that provide insight and structure for management decision-making.
5. Students should be able to identify and understand major issues faced by organizations with evolving information technology and investigate issues and challenges faced by managers with changes in information technology.
6. Graduates of the program should be able to critically evaluate and use accounting and other information for managerial decision-making.
7. Graduates should be able to evaluate marketing programs.
8. Students should be able to think critically and systematically about financial issues in businesses and to develop techniques to analyze these issues numerically.
9. Graduates of the program should be able to develop an analytical framework for identifying the objectives of the firm and to provide some tools for evaluating the firm's performance.

## Degree requirements

In addition to the [VCU Graduate School graduation requirements](#), students can complete both degrees with two years of study and will receive both degrees at the conclusion of the entire program. Students may enter the program only in the fall semester.

**Apply online at [graduate.admissions.vcu.edu](http://graduate.admissions.vcu.edu).**

The Pharm.D./M.B.A. program seeks to prepare pharmacists for careers that encompass pharmacy and business theories and principles. The program is designed to take advantage of efficiencies and electives in both the Pharm.D. and M.B.A. programs. Students in the combined program can earn both degrees and save as much as one year or more over the time required for completing the programs separately.

Students may be admitted into the program during the first year of enrollment in the Pharm.D. program. Applicants must be enrolled in the Pharm.D. program, have demonstrated a good academic record and have successfully completed the Graduate Management Admission Test.

To obtain both degrees, students will take all pharmacy courses unless waived, the seven business foundation courses, the nine M.B.A. core courses and three elective courses. The elective M.B.A. courses may be taken from pharmacy administration courses at the 600 level and a combination of a business seminar course and an elective advanced pharmacy practice experience in pharmacy management. The business foundation courses can be taken during the first two years in the pharmacy program with summer session(s). The M.B.A. core courses can be taken during the third and fourth years in the pharmacy program. The business electives can be taken during the fourth and fifth years in the combined program.

Refer to the [program search](#) function of the online VCU Bulletins for a complete description of the curriculum of both programs.

#### Application to Pharm.D./M.B.A. program

Students interested in pursuing the Pharm.D./M.B.A. program must first obtain admission to the Pharm.D. program. Admitted Pharm.D. students who wish to add the M.B.A. degree must then apply to the M.B.A. program. Upon admission to the M.B.A. program, a Pharm.D. student will be considered a dual-degree-seeking

student. Students generally will register for a mix of School of Business courses and School of Pharmacy courses in the fourth, fifth and sixth semesters of the pharmacy program.

A student categorized as a Pharm.D. student will be charged tuition and fees from the School of Pharmacy and will be eligible to receive financial aid awards as a Pharm.D. student. Students categorized as M.B.A. students will be charged tuition and fee rates as graduate students and be eligible to receive financial awards as graduate students.

Business, Doctor of Philosophy (Ph.D.) with a concentration in information systems

Business, Doctor of Philosophy (Ph.D.) with a concentration in management

Apply online at [graduate.admissions.vcu.edu](http://graduate.admissions.vcu.edu).

### Admission requirements

Business, Doctor of Philosophy (Ph.D.) with a concentration in accounting			
Degree: Ph.D.	Semester(s) of entry: Fall	Deadline dates: Jan 1	Test requirements: GMAT
Special requirements: Accounting majors are admitted for the fall of odd-numbered years.			

In addition to the [general admission requirements of the VCU Graduate School](#), applicants to the doctoral program in business must submit an up-to-date resume.

### VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The [VCU Graduate Bulletin website](#) documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the [Graduate School website](#) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

General academic regulations for  
all graduate students in all graduate programs at VCU

### Program goal

The Ph.D. in Business program is designed specifically for individuals intending to fill positions at institutions that require a balance of scholarly training, teaching and practical application of the appropriate field of study. With its small size, the program allows for extensive one-to-one interaction between students and faculty. Three concentrations are offered: accounting, information systems and management.

A basic tenet of the Ph.D. in Business program is that the classic trilogy of research, teaching and service typically invoked in university mission statements is synergistic. The program strives to develop graduates who share this perspective and aspire to well-rounded individual roles within universities, colleges and other learning organizations. For this reason, the program provides instruction in both research and teaching.

Instruction in basic and applied research is the cornerstone of the program. To fulfill the requirements for the degree, students must demonstrate successful completion of prerequisite and advanced courses, comprehensive examinations, and completion and defense of a dissertation. The advanced courses provide coverage in basic theories, methodologies and techniques needed to conduct research. The dissertation demonstrates the student's competence in conducting independent research.

Enhancement of teaching skills is emphasized in the program. It provides students with mentoring and teaching experience. Formal instruction designed to augment student teaching skills is also required. Mentoring involves teaming a student with a faculty member with the goal of augmenting student self-awareness and self-confidence in the classroom. Classroom experience is required to insure that the Ph.D. graduate enters the job market with certifiable teaching experience. The formal courses are designed to provide substantive instruction on teaching the adult learner.

A third aspect of the Ph.D. program is its emphasis on practical application in the area of study for students concentrating in accounting. In accounting emphasis is placed on projects based on real-world experience, and students are encouraged to develop papers around topics that address practical application of accounting concepts.

### Student learning outcomes

1. Students will demonstrate the ability to apply general principles of scientific research and methodologies to critically review published research papers.
2. Students will demonstrate the ability to (a) design a research study, (b) select the appropriate methodology and (c) develop the study into a research proposal.
3. Students will demonstrate the ability to identify ethical dilemmas in the major area of study and know how to respond ethically to such issues.
4. Students will demonstrate an understanding of current knowledge in the major area of study.
5. Students will demonstrate the ability to effectively communicate and teach knowledge in the major area of study.
6. Students will demonstrate the ability to develop and conduct research in the major area of study (i.e., complete an independent doctoral-level research project pertaining to the state of the art of the student's major area).

### Degree requirements

Upon admission to the Ph.D. program, faculty will evaluate students to determine if they have attained a basic competency level in general business disciplines. Students who have already completed a master's degree in business will likely have met all foundation/prerequisite requirements.

Students who enter the Ph.D. in Business without an education in business will be expected to meet the foundation requirements for the intended concentration area of study as determined by their advisers.

In addition to the [VCU Graduate School graduation requirements](#), Ph.D. in Business students must complete a minimum of 53 graduate credit hours, including research tools, concentration and elective course work and a minimum of 12 credit hours of dissertation research. Each student must also take GRAD 602 Teaching, Learning and Technology in Higher Education, complete a teaching portfolio and take a written comprehensive examination in the concentration area.

## Curriculum requirements

Courses	Credit hours
<b>Research tools course work</b>	<b>12</b>
As determined by concentration coordinator

ACCT 795 Auditing Seminar	3
<b>Required course</b>	<b>2</b>
GRAD 602 Teaching, Learning and Technology in Higher Education	2
<b>Electives</b>	<b>12</b>
(four additional courses, as approved by concentration coordinator)	
<b>Dissertation research</b>	<b>12</b>
ACCT 898 Dissertation Research in Accounting (minimum of 12 credit hours)	12
<b>Total graduate credit hours required (minimum)</b>	<b>53</b>

## Degree candidacy requirements

A graduate student admitted to a program or concentration requiring a final research project, work of art, thesis or dissertation, must qualify for continuing master's or doctoral status according to the degree candidacy requirements of the student's graduate program. Admission to degree candidacy, if applicable, is a formal statement by the graduate student's faculty regarding the student's academic achievements and the student's readiness to proceed to the final research phase of the degree program.

Graduate students and program directors should refer to the following degree candidacy policy as published in the VCU Graduate Bulletin for complete information and instructions.

### Degree candidacy requirements

## Graduation requirements

As graduate students approach the end of their academic programs and the final semester of matriculation, they must make formal application to graduate. No degrees will be conferred until the application to graduate has been finalized.

Graduate students and program directors should refer to the following graduation requirements as published in the Graduate Bulletin for a complete list of instructions and a graduation checklist.

However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

### General academic regulations for all graduate students in all graduate programs at VCU

## Program goals

The VCU Brandcenter offers graduate study in advertising and branding. The program provides advanced preparation for creative and strategic advertising development. The branding concentration of the Master of Science in Business with a concentration in branding is divided into five focus areas.

The working environment at the Brandcenter is similar to an advertising agency: Teams of students work together to develop campaigns. After the first year, qualified students are offered internships where they experience ad agency life and foster industry relationships. In their second year, students are given the opportunity to network through a mentoring program in which they are matched with agency professionals who offer advice and assistance.

## Student learning outcomes

1. **Presentation skills:** Students will demonstrate the ability to effectively present/sell their ideas in a clear, concise and compelling manner.
2. **Collaboration:** Students will demonstrate their ability to work together in cross-functional teams/groups (i.e., copywriter, art director, strategist, brand manager, creative technologist) to develop viable business/marketing solutions.
3. **Creative and critical problem-solving:** Students will demonstrate the ability to research consumer culture (via secondary research, syndicated research and qualitative/quantitative research methods) and evaluate consumer media/technology usage habits to develop media-neutral business solutions.

4. **Culture:** Students will demonstrate an appreciation, interest in and openness for different cultures (both national and international) yielding more relevant, culturally savvy business solutions.
5. **Craft:** Students will demonstrate the ability to execute specific skills related to their individual subconcentration. For **art direction** these include solid layout/typography skills and strong conceptual thinking ability.

## Degree requirements

The M.S. in Business with a concentration in branding requires 42 graduate credit hours beyond the baccalaureate degree. Students devote two years of full-time study to complete the degree requirements. In addition to the [VCU Graduate School graduation requirements](#), all students in the Brandcenter must complete a core curriculum as well as courses required for a specific subconcentration and must present a final major project, in portfolio form, before a committee review panel.
