This Presentation is brought to you for free and open access by the Office of Research Development at VCU Scholars Compass. It has been accepted for inclusion in Ready, Set, Grant! Presentations by an authorized administrator of VCU Scholars Compass. For more information, please contact libcompass@vcu.edu.

PROPOSAL REVIEW 101:

What You Need to Know to Be a Pre-Award Research Administrator

YOUR FACILITATOR FOR TODAY:

Brigette Pfister,
MHRD, CRA

- Director of Sponsored Programs for Humanities & Sciences, Virginia Commonwealth University

bspfister@vcu.edu

LEARNING OBJECTIVES

- Identify and develop crucial skills for the pre-award research administrator.
- Plan your own professional development related to the crucial skills identified.
- Review proposals for compliance with applicable rules, regulations, laws, and policies.
- Communicate effectively with faculty on policy and regulatory issues.
- Prepare proposals for submission with a minimum of problems or stress.

AGENDA

- Sponsored Program Basics
- How Pre-Award Works
- Crucial Skills for Pre-Award Research Administrators
- Rules and Regulations
- How to Review a Proposal
- Budgets
- Communicating with Faculty

SPONSORED PROGRAM BASICS: GRANTS VS. GIFTS

Sponsored Program

- There is a *quid pro quo*
- Deliverables are required
- F&A (indirect) costs are provided by sponsor policy
- Official acceptance is required
- Specific time frame
- Application is in response to a solicitation

Gift or Donation

- No exchange of mutual consideration
- Funds are irrevocable
- “Donative intent” is clearly implied
- Acceptance does not require the University to change magnitude or direction of its current efforts

SPONSORED PROGRAM BASICS: GRANT LIFE CYCLE

Image courtesy of
[University of Delaware](#)

SPONSORED PROGRAM BASICS: PRE-AWARD VS. POST- AWARD

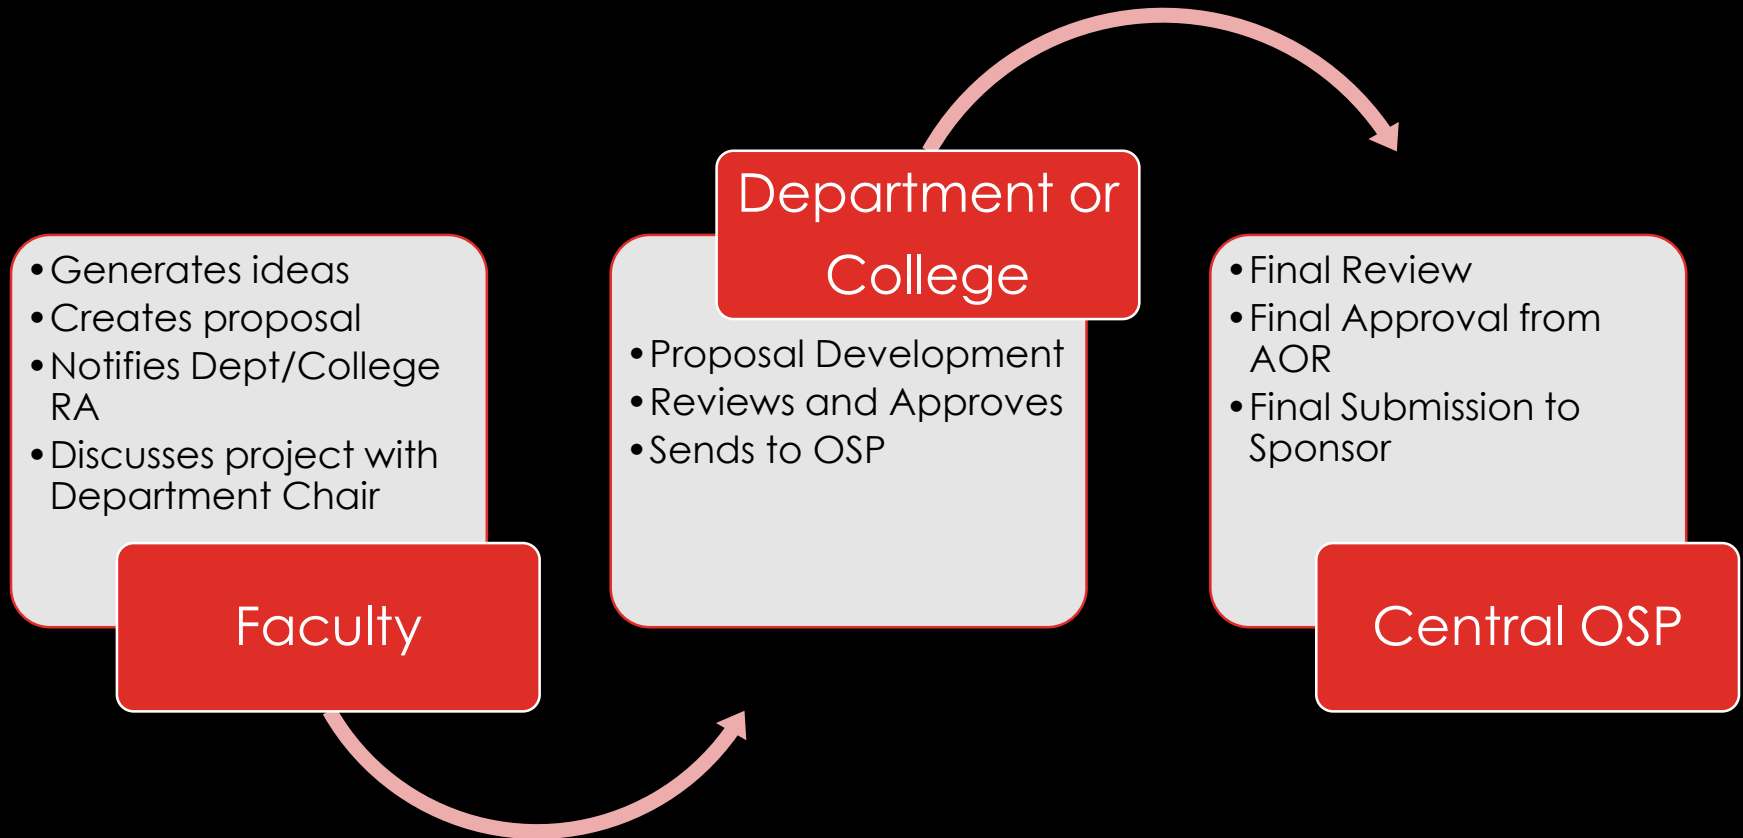

Pre-Award

- Proposal Preparation
- Proposal Budgeting
- Proposal Submissions
- Award Negotiations
- Revisions
- Continuations
- No-Cost Extensions
- RPPRs and Progress Reports

Post-Award

- Account Setup
- Day-to-Day Accounting
- Invoicing
- Financial Drawdowns
- Financial Reporting
- Effort Reporting
- Closeout

HOW PRE-AWARD WORKS

PRE-AWARD TIMELINE FOR REVIEW

- How long does a good pre-award review take?
- How many proposals can each individual handle at once?
- How is your workload divided?
- How experienced is your team? Your faculty?
- Insufficient lead time is THE #1 stressor of research administrators!
- The answer: Your Timeline Policy!

COMMON PRE-AWARD PITFALLS

- Insufficient lead time
- Insufficient training
 - Research administrators
 - Faculty
 - Department staff
- Poor business practices
 - Inefficiencies
- Ill-defined institutional policies
- Missing documentation
 - Subaward materials
 - Consultant letters
- Principal Investigators
 - If they didn't read the sponsor guidelines...
 - If they're indecisive
 - If they waited to start writing until deadline week...

CRUCIAL SKILLS FOR RESEARCH ADMINISTRATORS

- Reading Comprehension
- Critical Thinking
- Filtering the Important from the Noise
- People Skills
- Judgment
- Computer Skills
- Math
- Communication
- Time Management

DEVELOPING YOUR SKILLS

- Overall:
 - Practice, Practice, Practice!
 - Listen and Learn
 - Take Advantage of ALL Available Training
 - Including CITI, Responsible Conduct of Research, etc!
 - Ask to Sit in at Meetings
- Find a Mentor
 - Someone who has already been where you want to go
 - Someone respected in the field
 - Someone who you get along with and enjoy talking to

HOW TO REVIEW A PROPOSAL: WHAT YOU NEED TO KNOW BEFORE YOU START

Rules & Regs Before 12/26/14

- 2CFR220 Cost Principles for Educational Institutions
 - Formerly OMB Circular A-21
- 2CFR215 Uniform Administrative Requirements for Grants and Agreements with Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations
 - Formerly OMB Circular A-110
- OMB Circular A-133 Audits of States, Local Governments, and Non-Profit Organizations

Rules & Regs After 12/26/14

- 2CFR200 Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards
 - Also known as:
 - Uniform Guidance (UG)
 - OMB-zilla
 - A-81

HOW TO REVIEW A PROPOSAL: WHAT YOU NEED TO KNOW BEFORE YOU START

- Cost Accounting Standards
 - CAS 9905.501 Consistency in Estimating, Accumulating, & Reporting Costs
 - CAS 9905.502 Consistency in Allocating Costs Incurred for the Same Purpose
 - CAS 9905.505 Accounting for Unallowable Costs
 - CAS 9905.506 Cost Accounting Period

RULES AND REGULATIONS: FEDERAL

- Human Subjects
 - Belmont Report: Ethical Principles and Guidelines for the Protection of Human Subjects of Research
 - 45CFR46: Basic HHS Policy for Protection of Human Research Subjects
- Animal Care and Use
 - HEALTH RESEARCH EXTENSION ACT OF 1985
PUBLIC LAW 99-158
 - Animal Welfare Act

RULES AND REGULATIONS: FEDERAL

- Intellectual Property
 - [Overview](#) from Sanford Encyclopedia of Philosophy
 - [Bayh-Dole Act, P.L. 98-620](#)
- Export Control
 - [International Traffic in Arms Regulations](#) (ITAR)
 - [Export Administration Regulations](#) (EAR)
 - Office of Foreign Assets Control Regulations (OFAC) [OFAC website](#)

RULES AND REGULATIONS: STATE

- Each state has its own set of rules and regulations
- These may be different from the federal regulations

THE STRICTER RULE APPLIES

RULES AND REGULATIONS: YOUR INSTITUTION

- Your Institution's Policies
 - Faculty effort on research projects
 - Course release
 - Cost sharing and matching
 - Timeline for review
 - F&A Rate Agreement/Fringe Benefits
 - Use of off-campus rates

...and more

HOW TO REVIEW A PROPOSAL

- Gather Materials
 - Sponsor Guidelines
 - Proposal Documents
 - HR information on the PI and other participants
 - Sponsor Forms and Templates
 - References (2CFR200, institutional policies, etc)

- Start a Notes File or Comment Log
- Use a File System that works for you
 - Keep everything together
 - Make it difficult to lose things

Comment Log - Microsoft Excel

Pre-Award Post-Award Sheet2 Sheet3

Ready 100%

READ THE SPONSOR GUIDELINES

- The #1 rule: RTFM
“Read the Fine Manual!”
- Why?
 - It tells you exactly what the sponsor is looking for
 - The PI may not have read it or may not understand it
 - If the proposal is not compliant, it will not be reviewed
- You will need these skills:
 - Reading Comprehension
 - Critical Thinking
 - Filtering the Important from the Noise

READ THE SPONSOR GUIDELINES

- Look For:
 - Eligibility rules
 - Deadlines
 - Funding Restrictions
 - F&A costs
 - Funding minimums or maximums
 - Budget categories the sponsor will not fund
 - Terms and conditions
 - Contract language
- Ask Yourself:
 - Is my institution eligible?
 - Is this a good fit for the PI's research?
 - Is this a good fit for my institution?
 - Are there other documents I need to review?
 - NSF, NIH, USDA, and others have additional info available!

OUR FORMS, OUR LIVES

- Internal Forms
 - RAMS-SPOT
 - Clinical Research Documentation
 - Internal Budget Worksheets
- Sponsor Forms
 - SF424
 - FastLane Forms
 - Sponsor-Specific Forms

The screenshot shows a PDF document titled "InternalApprovalForm.pdf - Adobe Acrobat Pro (Not Responding)". The document is a form for the Virginia Commonwealth University Office of Sponsored Programs. It includes sections for Principal Investigator Information, Sponsor/Agency Information, and various contact details. The form is displayed in a window with a menu bar (File, Edit, View, Window, Help) and a toolbar. The form itself has a header with the VCU logo and the title "Internal Approval Form". Below the header, there are several sections with input fields and checkboxes. The "Principal Investigator Information" section includes fields for Last Name, First Name, MI, E-mail, PI Phone #, PI Fax #, PO Box, Department, FA Name, FA E-mail, FA Phone #, Contact for Proposal Pickup, Contact E-mail, and Contact Phone #. It also has a section for "Is the department listed above also managing the project's fiscal responsibilities?" with Yes/No checkboxes and a note to list the department responsible for fiscal management if not. The "Sponsor/Agency Information" section includes fields for Sponsor Name, Contact Name, Phone #, E-mail, Due Date, Receipt Date, Postmark, E-Submission*, and a section for Research, Clinical Trial, Fellowship, Training, and Other. At the bottom, there is a section for "Does the project involve Federal Funds?" with Yes/No checkboxes and a note to see the last page for key definition.

Contact Name Receipt Date ☐ Postmark ☐
Phone # E-mail: E-Submission* ☐
Research ☐ Clinical Trial ☐ Fellowship ☐ Training ☐ Other ☐
*See last page for key definition
Does the project involve Federal Funds? Yes ☐ No ☐
(Originating sponsor, if applicable)

REVIEW THE NARRATIVE MATERIALS: LOOK FOR..

- Format
 - Does it meet the specifications in the guidelines?
 - Are all of the documents present?
 - Are all of the subject areas addressed?
 - Suggest using the guidelines as a template!
- Organizations or people named as partners
 - Are they receiving funds? Endorsing the project?
 - Depending on involvement, you may need a letter from them!

REVIEW THE NARRATIVE MATERIALS: LOOK FOR..

- Implied Cost Share
 - “Dr X will spend 15% of his time on this project” when there is no effort in the budget
 - “We will leverage \$50,000 for this project in the form of volunteer time...”
 - All cost share must be documented in the budget!
- Hidden Commitments
 - “New lab space!” probably needs to be vetted with the department chair first!
- Typos, Grammatical Errors
 - Yes, PhDs make them all the time
 - Yes, you should say something

REVIEW THE NARRATIVE MATERIALS: LOOK FOR..

- Human Subjects:
 - Medical procedures
 - Psychological testing or treatment
 - Surveys
 - Focus Groups
 - Using human tissue or cells: make sure you know where it's coming from!
- Animal Care and Use:
 - Vertebrate animals
 - Anything with a spine
 - Kittens, puppies and fluffy bunnies count!
 - Insects do not count!
 - Not just lab animals—some studies involving observation of wildlife must be reviewed, too!

REVIEW THE NARRATIVE MATERIALS: LOOK FOR..

- Hazardous Materials:
 - Radioactive Materials
 - Recombinant DNA
 - Biohazards
 - Select Agents
 - Pathogens
 - Viruses
 - Some bacteria, etc
- Any point in which the proposal narrative strays from the focus suggested by the guidelines
 - Is the project a good fit?
 - If not, is there another opportunity that would be better?

WHAT IS A BUDGET?

- The financial story of your project
- Two parts:
 - Budget form
 - Itemized list of costs
 - Budget narrative
 - Description of costs
 - How they were calculated
 - Why they are important

REVIEW THE BUDGET: LOOK FOR...

- Check all calculations
- Pay special attention to F&A calculations
- Make sure the numbers in the budget narrative match those on the budget forms
- Make sure all items of cost are allowable
- Make sure all items are properly categorized
- Salary and fringe benefits should be budgeted separately
- If graduate assistants are budgeted, their tuition should usually be budgeted too
- Make sure documentation is present for consultants, subawards, equipment, etc

REVIEW THE BUDGET: UNDERSTANDING ALLOWABILITY

- Sponsors award to many types of organizations who operate under different cost principles
 - Universities
 - Nonprofits
 - Hospitals
 - Individuals
 - Corporations
- In order to be allowable, a cost must
 - Conform to Cost Principles (2CFR200)
 - Necessary
 - Reasonable
 - Allocable
 - Conform to institutional policy
 - Consistently treated
 - Be budgeted in an appropriate budget category

DIRECT AND INDIRECT COSTS

- Direct Costs

“costs that can be identified .. with a particular sponsored project..or that can be **directly assigned** to activities relatively easily with a high degree of accuracy.”
(A-21, D.1.)

- Indirect Costs (F&A)

“costs incurred for common or joint objectives and ..cannot be identified readily and specifically with a particular sponsored project..or other activity.” (A-21, E.1)

DIRECT AND INDIRECT COST EXAMPLES

- Direct Costs

- Salary and Wages
- Fringe Benefits
- Travel
- Equipment
- Supplies
- And more..

- Indirect Costs (F&A)

- Some Administrative Salaries and Wages
- Office Space
- General and Office Supplies
- And more..

COST SHARE

- The portion of a project's cost that is paid by the institution or another (non-sponsor) party
- Types of Cost Share:
 - Mandatory
 - Voluntary Committed
 - Voluntary Uncommitted
 - Cost Overrun

COST SHARE RULES

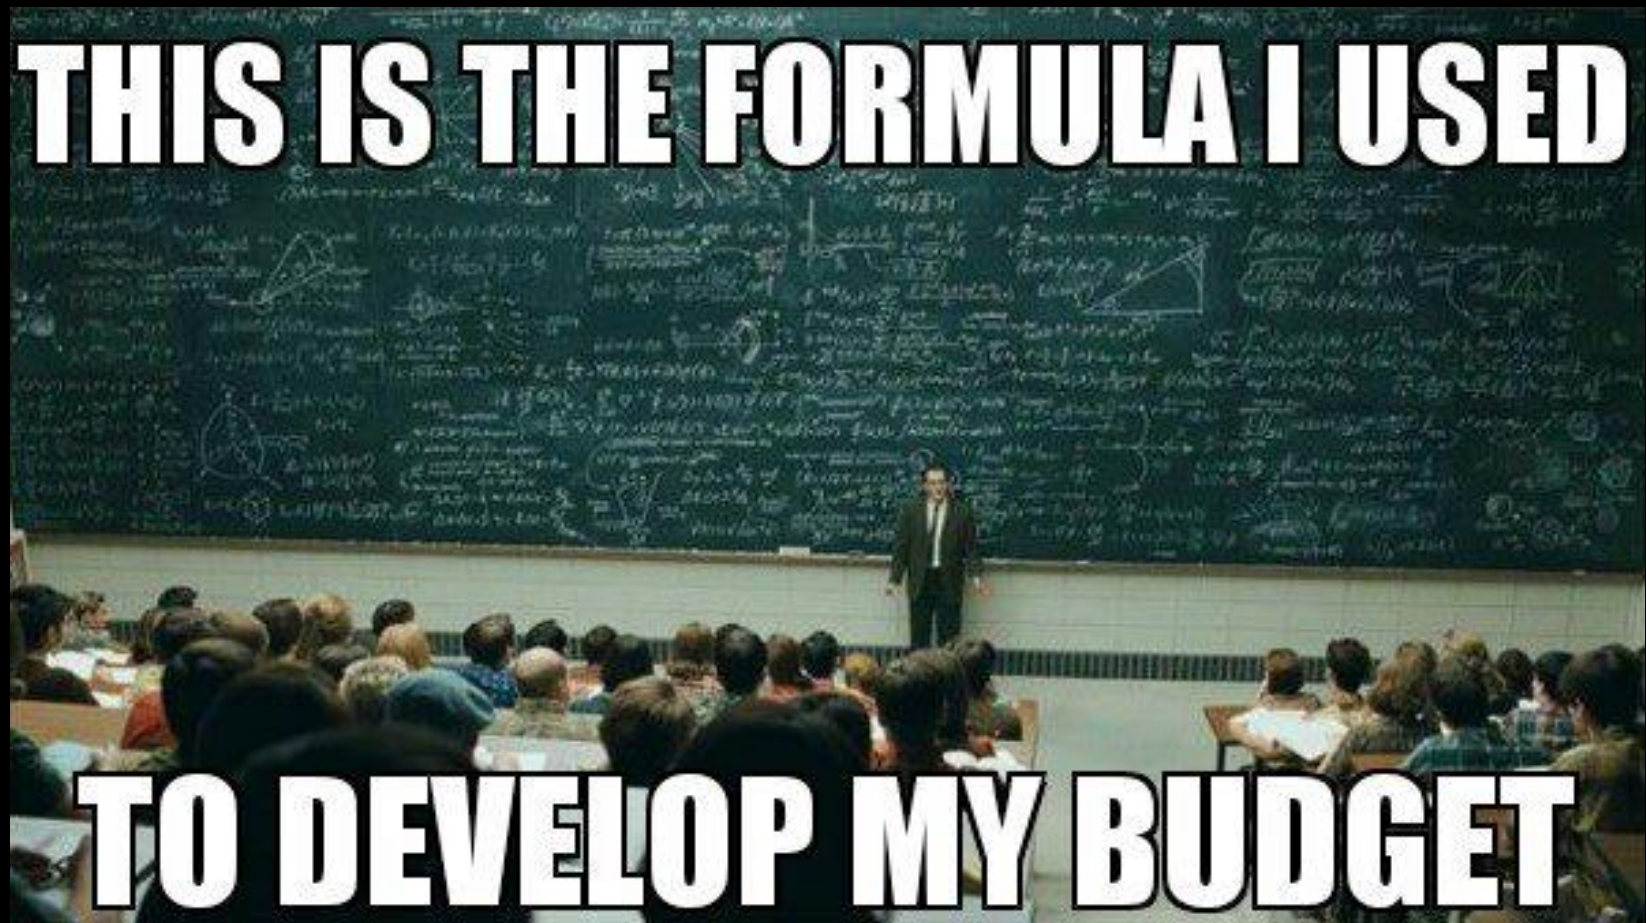

- Same Allowability rules as Direct Costs
 - Necessary
 - Reasonable
 - Allocable
- Costs must be incurred during the same project period
- Must be verifiable from institution's records
- Must be in support of the same project
- Funds can only be cost shared once
- Federal funds generally cannot be used as cost share, especially on another federal project!

COST SHARE: WHY NOT?

- Cost Share Myths:
 - It will make proposals more competitive
 - Usually doesn't unless sponsor specifies
 - It impacts reviewers' funding decisions
 - They may not even see it!
- What Cost Share Really Does:
 - Lower the institution's F&A recovery
 - Use up scarce resources
 - Create additional administrative burden

THIS IS THE FORMULA I USED

TO DEVELOP MY BUDGET

BUDGET CATEGORIES

- Salaries and Wages
- Fringe Benefits
- Materials and Supplies
- Equipment
- Travel
- Consultants
- Subawards
- Participant Support
- Patient Care
- Other Costs
 - Tuition
 - Usage fees
 - Rent
 - Et cetera...

TOTAL DIRECT COSTS

- All of these budget categories equal your Total Direct Costs
 - The amount your PI will be able to spend, in other words..

MODIFIED TOTAL DIRECT COSTS

- MTDC = Total Direct Costs
 - Exclusions
 - Equipment
 - Tuition
 - Amount of each subaward in excess of initial \$25,000
 - Patient Care
 - Participant Support
 - Rent
- Capital improvements (construction, etc)

INDIRECT COSTS

- F&A (Indirect Costs)
- Rates are negotiated with the federal cognizant agency
 - DHHS or ONR
 - Classifications
 - Research, Training, or Other
 - On-Campus or Off-Campus

To Determine Which Rate To Use:

- Look at your institution's NICRA
- What type of project is it?
- Where is the work taking place?

SPONSOR-LIMITED F&A RATES

- A sponsor may only pay a certain percentage, or may not allow F&A at all
 - Must be in writing
 - Must be an actual policy that applies to all
- Examples:
 - NIH F31 fellowships do not separately reimburse F&A
 - US Dept of Education limits F&A to 8%

THE STRICTER RULE APPLIES

INDIRECT COST CALCULATIONS

- Calculate Total Direct Costs
- Calculate Modified Total Direct Costs
- Multiply the MTDC by the applicable F&A rate

Indirect Costs = Rate
x Modified Total
Direct Costs (MTDC)

TOTAL BUDGET CALCULATION

- Total Budget = Total Direct Costs + Indirect Costs
- Most common error: using MTDC instead of total direct costs!

Congratulations!

- You have completed your proposal review!
- You're not done yet, though!
- Now you have to communicate with your PI to resolve issues.

COMMUNICATING WITH FACULTY

- Summarize your notes in an email to the faculty member
 - Numbered list
 - One issue per number
 - Tell them about all changes
 - Make sure they know what action is needed
- This gives you:
 - A running to-do list for you and the PI
 - Clear documentation of where the proposal is in the process

THINGS TO REMEMBER:

- Faculty are people, too
 - Diversity
 - Culture
 - Life outside the academe
- You are on the same team
- Be professional
- But it's okay to be friends
- Your Credibility and Integrity are of utmost importance!
 - Know what you're talking about **before** you engage!

EGOS AND UNFRIENDLY TYPES

- Assume Positive Intent
- Take **Nothing** Personally
- Understand that it comes with the territory
- Don't take the bait
- Don't be afraid to ask for help
- But don't immediately run for the hills either!

COMMUNICATING “NO”

- Guidance, not Gatekeeping
 - “No, I’m not letting you do that” vs.
 - “That’s an unallowable cost under 2CFR200, but let’s talk about what you really need..”
- Focus on honoring intent:
 - How CAN we do what needs to be done

CHAPTER AND VERSE

- How much information is too much?
 - May vary from one faculty member to another
 - Use direct quotes when you need to..
 - ..But explain in plain language whenever possible!
- Use your
 - Judgment
 - People Skills
 - Communication

WHEN TO CALL IN THE BIG GUNS

- Judicious use of the “Dean Card”
- Don’t cc the boss on everything!
 - Yours OR the faculty member’s!
- When to call for backup:
 - The faculty member is abusive
 - You don’t fully understand the issues or know what to do
 - Multiple attempts to explain have been unsuccessful
 - You’re losing your temper

STRESS FREE SUBMISSIONS

- Get information as soon as you can, well ahead of the deadline
- Get organized
- Work through the issues with the PI
- Send for approvals well ahead of the deadline crunch
- Anticipate issues and questions
- Be proactive
- Stay calm
- Take breaks
