*VCU Libraries*

*Health Sciences Library*

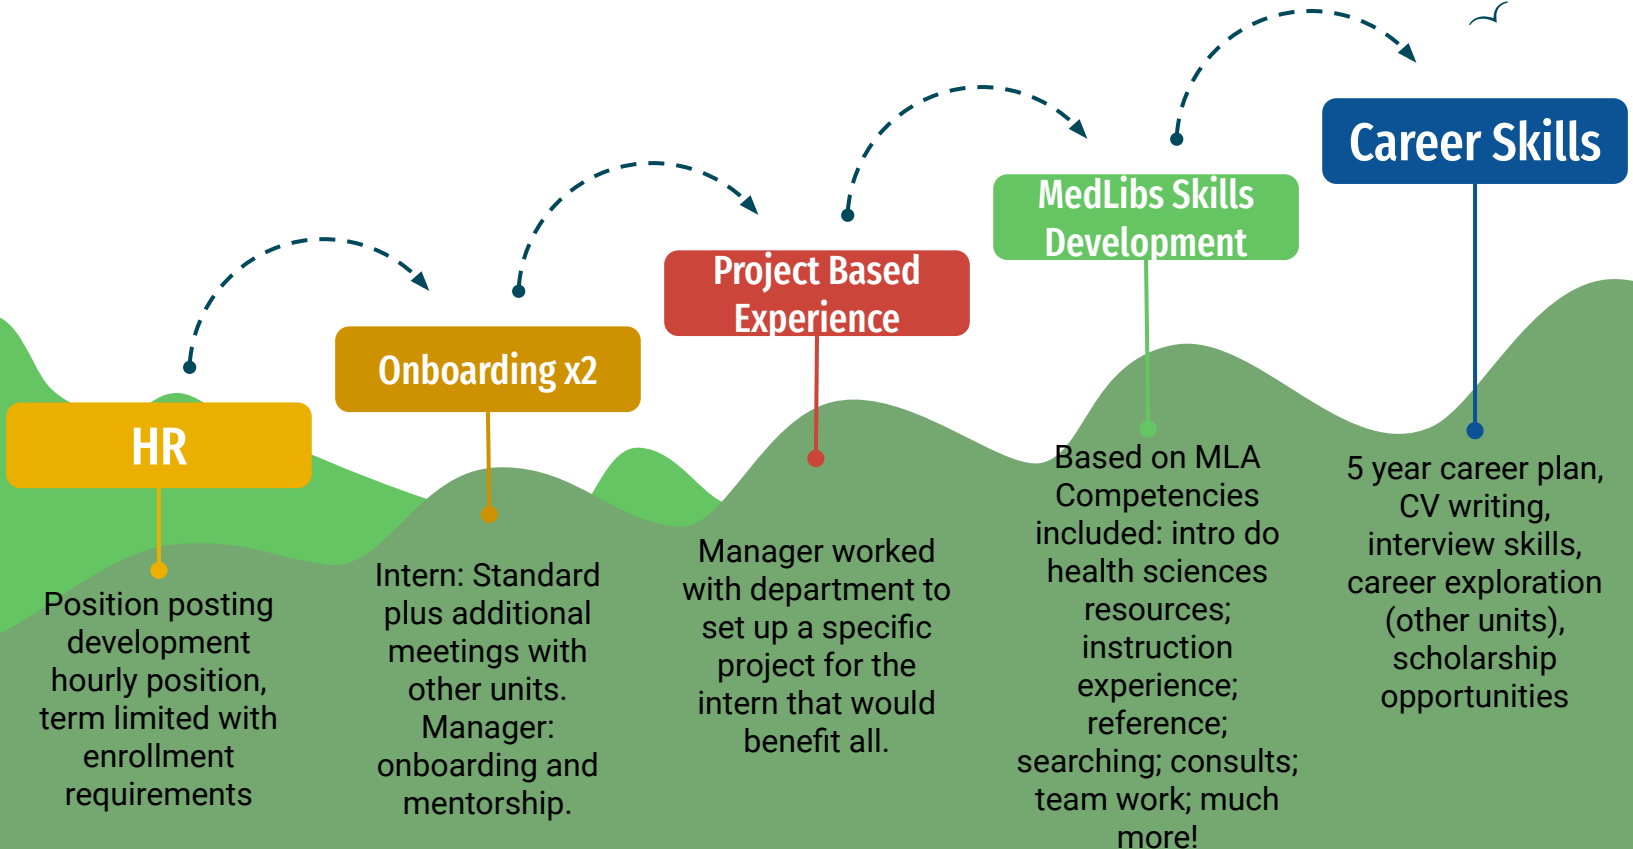

# Background

- Successful informal volunteer opportunities
- Uneven experience/skills with health sciences librarianship (new hires)
- Flat model, does not give liaisons opportunity for management
- Documented increased demand from VCU Health for services
- Proposal for internship developed

# From the Ground Up

# COVID Impact

- Switch to virtual work
- Virtual projects
  - COVID guide
  - Video curation and workflow development
- Difficult to build strong network

# Program Improvements

- New extensive reading list (Roy Brown)
  - Articles of interest to read before meeting with specific individuals
- Activity Tracker (Roy Brown)
  - Spreadsheet to provide ease for tracking CE and professional development as well as progress on skill attainment
- Common questions/meeting template for those meeting with the intern
  - Provides more structure
- Hybrid ready!

# Outcomes 2020 - Present

- Interns

- One intern completed experience in 2021
- One intern is completing experience in December 2022
- Each with full time career opportunities in academic libraries
- One part-part-time internship was offered in Spring 2022
  - Completed onboard and overview of health sciences librarianship
  - Returned to role in public libraries

- Scholarship

- Each intern had a presentation or poster at a professional meeting or conference to their credit about their project
- One presentation was written up and published (so far!)

# Next Steps

- Prepare guidelines/procedures
- Timelines
  - Develop better timeline for recruiting/hiring
  - Develop timeline for training for interns
- Future intern managers
  - Seek additional support (financial incentive)
  - Work to create more clearly defined goals with each
- Increase diversity recruitment
- Formalized evaluation or assessment process
