## Honorary Doctor of Humane Letters

**2008 Recipient**

*The Honorable Robert C. Scott*

*The Honorary Doctor of Humane Letters is Virginia Commonwealth University's highest form of recognition. Awarded by the President at Commencement, it recognizes the Commencement speaker as well as others who have made outstanding contributions to society through scholarship, public service, humanitarianism, science and art.*

The Honorable Robert C. Scott  
Commencement Speaker  
Honorary Doctor of Humane Letters

The Honorable Robert C. “Bobby” Scott began serving his eighth term as a member of Congress on Jan. 4, 2007. Prior to serving in the U.S. Congress, Rep. Scott served in the Virginia General Assembly from 1978 to 1993.

In November 1992, Rep. Scott was elected to the U.S. House of Representatives. Through this election, Rep. Scott made history by becoming the first African-American elected to Congress from Virginia since reconstruction and only the second African-American elected to Congress in Virginia’s history. Having a maternal grandfather of Filipino ancestry also gives Rep. Scott the distinction of being the first American with Filipino heritage to serve as a voting member of Congress.

Rep. Scott currently serves on the Committee on the Judiciary, where he is the chairman of the Subcommittee on Crime, Terrorism and Homeland Security. He also serves on the Committee on Education and Labor, the Committee on the Budget, and the Committee on Standards of Official Conduct.

Rep. Scott has become known as a champion of the U.S. Constitution and the Bill of Rights, fighting to protect the rights and civil liberties of all Americans. In 1997, he fought to protect the right of all children with disabilities to obtain a free and appropriate education under the Individuals with Disabilities Education Act. In 2000, Rep. Scott sponsored the Death in Custody Act, which requires states to report information regarding the death of any person in custody of law enforcement officials.

Rep. Scott is leading efforts to pass comprehensive juvenile justice reform and crime prevention legislation by sponsoring the Youth PROMISE Act, which provides resources to state and local governments to prevent juvenile crime. He is also leading efforts to enact legislation designed to reduce high school dropout rates and increase access to a college education for all students. Rep. Scott has also sponsored the All Healthy Children Act that would ensure that the nine million uninsured children in the U.S. have access to quality health care.

Rep. Scott was born on April 30, 1947, in Washington, D.C., and grew up in Newport News, Va. He is a graduate of Harvard University and Boston College Law School. After law school, he returned to Newport News and practiced law from 1973 to 1991. He received an honorable discharge from his service in the Massachusetts National Guard and the U.S. Army Reserve.

## Academic Costume

The academic costume worn at American college exercises derives from the Middle Ages. The oldest universities of northern Europe, such as Paris and Oxford, grew out of church schools, and both faculty and students were regarded in the Middle Ages as a part of the clergy. They wore clerical habits, largely borrowed from the monastic dress of that day, not just on special occasions but as their regular attire.

The head covering of the academic costume developed from the skull cap worn by the clergy in cold weather to protect the tonsured head. In the universities, the skull cap acquired a point on top, which evolved into a tassel. The bonnet with tassel is still worn by degree holders of European universities. In America, it has been replaced by the familiar mortar board, which still retains the medieval tassel.

The hood (the medieval *caputium*) was originally a covering worn over the head in bad weather, otherwise dropped on the shoulders as the monk's cowl. At first it was worn by faculty and students alike, but in the early 16th century it was restricted to graduates, thus becoming the mark of a degree holder. Today, each college has its distinctive hood lining by which its graduates may be recognized in academic processions. Graduates from Virginia Commonwealth University may wear a hood showing a black chevron on gold background.

The gown comes from the medieval robe and seems to have been borrowed from the habit of the Benedictine monks. In the Middle Ages, undergraduates, bachelors and masters could be

distinguished by the simplicity or intricacy of their gowns. The doctor's gown was often furred, which survives today in the ornamentation found on the doctoral gown. Usually the gown is black, but some colleges have gowns of different colors.

The wide velvet borders extending down the front of the doctoral gown, the velvet bars on the sleeves, and the borders of most hoods are colored according to the scholarly field of the wearer.

## Recipients of Degrees

*Because of rigid time requirements, this program must be printed before the final list of degree candidates and final graduation honor status for undergraduate students can be determined. The exclusion of the name of a student is not to be taken as indication of official status as a nongraduate, nor is the inclusion of a name of a student to be taken as certification of official status as a graduate. Only undergraduate students are eligible for honors designations. These designations do not apply to the degrees received by graduate students.*

# Virginia Commonwealth University

Virginia Commonwealth University is supported by Virginia to serve the Richmond area, the state and the nation through teaching, research, service and patient care.

VCU offers comprehensive undergraduate, master's, doctoral and professional programs and encompasses one of the largest academic health centers in the nation. With \$223 million a year in sponsored research funding, VCU is designated as a research university with high research activity by the Carnegie Foundation. Its centers and institutes of excellence — involving faculty from multiple disciplines in public policy, biotechnology and health care discoveries — support the university's research mission.

More than 32,000 students pursue 205 degree and certificate programs through the university's 15 schools and one college. VCU has a full-time instructional faculty of more than 1,800 who are nationally and internationally recognized for excellence in the arts, business, education, engineering, the humanities, the life sciences, social work and all the health care professions. With an annual budget of \$1.9 billion and with approximately 17,000 employees, VCU and VCU Health System also have a significant impact on employment and spending in the Richmond region.

VCU students and faculty can be found in locations around the state and around the world. VCU is the only state institution offering an accredited Master of Social Work program in Northern Virginia. The School of Medicine and the School of Pharmacy have collaborated with the Inova Health System in Northern Virginia as well to establish the VCU-Inova Campus

for third- and fourth-year medical and pharmacy students. And, the university is in its eighth year of offering bachelor's degrees in graphic, fashion and interior design at the School of the Arts in Qatar. In 1998, the university and the Qatar Foundation for Education, Science and Community Development entered into an agreement to establish the school at the request of the Qatar government.

VCU has been engaged in a long-range strategic planning effort that has resulted in such initiatives as a visionary master site building plan, the Virginia BioTechnology Research Park, the School of Engineering, the Carver-VCU Partnership for neighborhood development and VCU Life Sciences, a comprehensive undergraduate and graduate program incorporating all aspects of the university's academic and clinical missions in teaching, research and public education.

VCU's long-range planning also has sought to protect the future of the clinical health care mission, including providing top-quality patient care, indigent-care services and support for the teaching and research mission. The result is VCU Health System, which was established on July 1,

2000, and brings together MCV Hospitals, MCV Physicians, Virginia Premier Health Plan and University Health Services.

VCU and VCU Health System have been honored with more than a decade of national recognition for its top-quality graduate, professional and medical-care programs by U.S. News & World Report; local, regional and national guides to the best hospitals and best doctors; and professional societies and journals.
