MEDICAL COLLEGE OF VIRGINIA • HEALTH SCIENCES DIVISION
VIRGINIA COMMONWEALTH UNIVERSITY

April, 1970

Dr. Fitzhugh Mayo Named To Head Department of Family Practice

The Board of Visitors has appointed Dr. Fitzhugh Mayo of Virginia Beach to head the newly established department of family practice in the school of medicine.

Doctor Mayo has been in private practice as a family practitioner of medicine at Virginia Beach since 1956. His appointment as professor and chairman of the MCV department of family practice is effective June 1.

The Board of Visitors approved last spring the creation of a department of family practice to train physicians

Dean Nelson Named Master of American College of Physicians

Dr. Kinloch Nelson, dean of the school of medicine, was conferred a Mastership in the American College of Physicians at the opening session of the College's annual meeting in Philadelphia on April 13.

The only other two Virginians who are Masters of the ACP are Dr. Charles M. Caravati, emeritus professor of medicine, and Dr. J. Morrison Hutcheson, Sr., emeritus clinical professor of medicine.

Masters of the ACP "shall have been Fellows who, on account of personal character, positions of honor and in-

qualified to meet the complete medical needs of a family.

As head of the new department, Doctor Mayo will be responsible for developing programs for the teaching of medical students and training of the housestaff in providing primary, comprehensive, and continuing patient care furnished by one physician.

"For many years, everyone has felt the need for the development of physicians who would see patients when they needed someone, would oversee their complete medical needs, and would furnish them with continuing advice and observation," said Dr. Kinloch Nelson, dean of the school of medicine.

"Doctor Mayo has been an outstanding doctor of general practice in Virginia Beach, and we believe that he is uniquely qualified to develop a program in family practice at MCV," Doctor Nelson said.

fluence, eminence in practice or in medical research, or other attainments in science or in the art of medicine, are recommended by the Committee on Awards, Masterships, Honorary and Corresponding Fellowships to the Board of Regents and who are elected by the Board of Regents. Masters shall be designated as Masters of the American College of Physicians, and shall be authorized to use the letters M.A.C.P. in connection with scientific publications, at professional and academic functions and in connection with their professional activities."

A native of Norfolk, Doctor Mayo received a B.S. degree in civil engineering in 1947 from Virginia Polytechnic Institute and took pre-medical training at VPI, 1950-51. He received his medical degree from MCV in 1955.

Doctor Mayo is chairman of the education committee for the Virginia Academy of General Practice, education director for General Hospital of Virginia Beach, and a member of the clinical investigations committee for the American Academy of General Practice.

In establishing a program in family practice, MCV joins a number of medical centers throughout the nation that have, or are developing, departments in family practice.

Efforts of general practitioners for nearly 10 years to have the family physician recognized as a specialist

A SALUTE TO OUR SECRETARIES

"A Secretary shall be defined as an executive assistant who possesses a mastery of office skills, who demonstrates the ability to assume responsibility without direct supervision, who exercises initiative and judgment, and who makes decisions within the scope of assigned authority."

"Better Secretaries mean Better Business" is more than the theme of the 19th annual Secretaries Week (which is April 19-25). It is a truism—better secretaries do mean better business. A good secretary is worth her weight in gold. She makes a good impression for her organization, her department, her boss, and herself. She has important responsibilities and performs important functions. She has job satisfaction because she earns it from a job well done, day in and day out.

The Medical College of Virginia has many outstanding secretaries making vital contributions to its operation. *The Medicovan* takes pleasure in saluting these ladies during their special week.

BOUQUETS TO YOU!

Printed below is a short excerpt from a letter recently received by an MCV obstetrician: "It was a pleasure to be at the Medical College of Virginia Hospital for everyone was most helpful and personally interested in us."

These are a grateful patient's words to his nurses at MCV: "This is just a small note to let you know that during my stay at Rehab III, I've never met a nicer bunch of people. The thing that sets all of you off from other nurses is the fact that when you are asked to do something for the patient, you do it in a happy, cheerful manner, as if you're honestly concerned with making every effort to make the patient comfortable and happy, instead of doing it 'just because it's your job.' So, here's to a great bunch of gals, all three shifts, so keep up the great work."

Isn't it rewarding to do a job well and to have it appreciated?

City Heart Unit Gives 12 Grants For Research

Twelve area high school and college students have been awarded grants by the Richmond Area Heart Association to work in research laboratories at the Medical College of Virginia and McGuire Veterans Administration Hospital this summer.

The students will be working under the direction and supervision of medical scientists at the two facilities. The purpose of the summer student fellowship grants—\$500 for high school students and \$600 for college students—is to encourage students to follow a medical or medical research careers.

The recipients of the grants, and

their schools, are:

Nancy Carol Bates, Huguenot High School; Janice Patricia Costello, J. R. Tucker High School; Mary Loretta Fisher, Thomas Dale High School; Robert Paul Goodman, Johns Hopkins University; Evelyn Elizabeth Johnston, J. R. Tucker; Diane Sharon Kirkland, Anna Maria Palotai and Martha Scott, all from The Collegiate Schools; Daniel Rissi, Yale University; Stephanie Kaye Roberts, Westhampton College; Diane Janet Sansonetti, Douglas S. Freeman High School, and Kirkland Walton, Virginia State College.

Dr. S. A. Anderson, Jr., Dies

Dr. Samuel A. Anderson, Jr., emeritus clinical professor of pediatrics, died in March at his winter home in Captiva Island, Florida.

A native of Martinsville, Doctor Anderson graduated from Washington and Lee University and Johns Hopkins University. He served his internship at Yale University and in the childrens hospitals in Boston, St. Louis, and Philadelphia.

Doctor Anderson, who began practicing pediatrics at MCV in 1928, was appointed emeritus clinical professor of pediatrics in 1967. He was among the founders of the consultation and evaluation clinic program for mentally retarded children.

In 1969, Doctor Anderson received the citation, Distinguished Pediatrician, from MCV.

FAMILY PRACTICE

(Continued from page 1)

were realized in February 1969 when the American Medical Association's council on medical education and the advisory board for medical specialties approved the specialty of family medicine.

The move, which opened the door to board-certified prestige for family doctors, was hailed by general practitioners and medical educators as a means to attract more medical students into the family practice field and as a means to provide economical, efficient, and satisfactory medical care for a growing population. The first board examinations of the American Board of Family Practice were given in late February this year.

MARK YOUR CALENDAR

NOW FOR JUNE 6—

THAT'S

MCV COMMENCEMENT.

Dr. James L. Mathis Named To Head Department of Psychiatry

Dr. James L. Mathis of Rutgers Medical School has been appointed professor and chairman of the department of psychiatry at M.C.V.

Doctor Mathis' appointment by the VCU Board of Visitors is effective June 1.

An associate professor of psychiatry at Rutgers since 1968, Doctor Mathis succeeds Dr. Henry D. Lederer who resigned last July as head of the department of psychiatry. Doctor Mathis will be responsible for administering all teaching and training programs in psychiatry for the school of medicine.

A native of Tennessee, Doctor Mathis attended The Citadel and took pre-medical training at the University of Missouri. He received his medical degree from St. Louis University in 1949.

Before joining the Rutgers faculty, Doctor Mathis was a member of the

Dr. Emmerson Ward Is First

Charles W. Thomas

Lecturer

Dr. Emmerson Ward, president of the American Rheumatism Association and chairman of the board of governors of the Mayo Clinic, will be the first Charles W. Thomas lecturer.

His lecture, entitled "Polymyalgia Rheumatica" will be at noon on Tuesday, April 28 in George Ben Johnston Auditorium.

Doctor Ward's lecture at MCV is provided for through the Charles Walter Thomas Arthritis Fund, established in 1965 through the provisions of the will of the late Dr. Charles W. Thomas, a 1903 graduate of the school of medicine.

The funds, under the authority of the MCV Foundation, are administered by Dr. Elam C. Toone, Jr., professor of medicine and chairman of the division of connective tissue diseases, under the supervision of the department of medicine and the dean of the school of medicine.

IT'S UP TO YOU

*You are the fellow that has to decide
Whether you'll do it or toss it aside.
You are the fellow who makes up your mind
Whether you'll lead or linger behind—*

*Whether you'll try for the goal that's afar
Or be contented to stay just where you are.*

*Take it or leave. Here's something to do.
Just think it over. It's all up to you!*

AUTHOR UNKNOWN

medical faculty at the University of Oklahoma Medical Center, 1960-68. He is a fellow of the American Psychiatric Association and a member of Alpha Omega Alpha, the American College of Psychiatrists, American Psychosomatic Society, and the American Board of Psychiatry and Neurology.

Doctor Mathis presently is a consultant to the Office of Economic Opportunity, Job Corps division, and a consultant to the Youth Reception and Correction Center at Yardville, New Jersey, Lyons VA Hospital, and the Student Health Clinic and student counselors at Douglass College.

KITCHEN EXPANDED AND MODERNIZED

Speed mixers, electronic ovens, large capacity freezers, and disposable food containers have taken a firm foothold in the modern home kitchen.

Similar time-saving and convenience equipment—except in gargantuan proportions—dominate the newly expanded and modernized West Hospital kitchen here at the Medical College of Virginia.

New steam mixers automatically stir enough soup or pudding for 800 patients; there are rows of room-size walk-in freezers; new convection ovens broil 150 hamburgers in the same amount of time that it formerly took to broil 24 hamburgers.

Renovation of the main kitchen facilities in the basement of MCV West Hospital began last July and was completed this month.

The kitchen will open in early April to begin a schedule of meal preparation that will climb from an initial

750 meals a day to nearly 3,000 meals daily, according to Miss Kathryn W. Heitshu, director of the department of dietetics.

Renovation of the kitchen is part of a major hospital renewal project that has been underway for the past two years. The project to modernize obsolete features of the 30-year-old West Hospital is costing approximately \$3.7 million in state and federal funds for updating of the physical plant and for acquiring new equipment for teaching and patient care.

The 17-story, 500-bed West Hospital is one of five MCV hospitals serving patients from throughout Virginia.

With the kitchen nearly ready for operation, dietetic interns are instructing more than 80 dietary service employees in methods and safety factors to operating and caring for the new and often complicated equipment.

Such equipment includes an electronic oven, high speed choppers for meats and salad ingredients, new grills, 80-gallon capacity steam kettles, a frozen dessert-making machine, and four new convection ovens.

These ovens, Miss Heitshu explained, are equipped with fans that circulate air within the oven cavity to maintain a constant temperature to cook food more rapidly and at a lower temperature than conventional ovens.

The small, heavy-duty electronic oven will be used for special preparation of pre-frozen modified diets and for quick, last-minute items such as the baked potato for a patient who forgot to order it. The electronic oven has a cooking time range of between 10 seconds and two-and-a-half minutes. The potato is baked in two minutes.

Other equipment from the old kitchen has been renovated, such as pot washing devices and the rotary oven—large enough to hold a beef steer—but used to bake trays of biscuits and breads.

For the remodeling, the old kitchen facility was completely gutted. With 8,500 square feet of space, the new

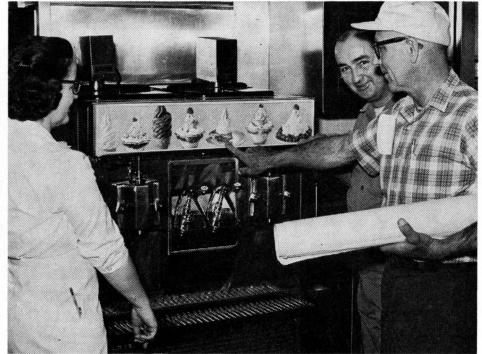

DEPARTMENT OF DIETETICS INTRODUCES NEW TRAY SERVICE AT MCV. Miss Susan Cox, dietetic intern (left) explains to dietary employees how new insulated trays will be used.

NEW CONVECTION OVENS COOK FOOD MORE RAPIDLY THAN CONVENTIONAL OVENS. Mrs. Ada Evans (left to right), Miss Faye Messner, dietetic intern, and Albert Key test rolls baked to demonstrate oven.

GIANT BLADES AUTOMATICALLY STIR SOUPS FOR MCV HOSPITAL MEALS. Miss Catherine Foran, dietetic intern, and Albert Key hook up new kettle attachments.

NEW FROZEN DESSERT-MAKING MACHINE EVOKES SOME KITCHEN FUN. W. A. Burcham (right), Job Foreman for MCV kitchen renovation, shows dietitian Mrs. Louise Hill (left) the dessert he'd like to try. E. W. Hopkins, buildings and grounds carpenter, looks on.

quarters are bright with stainless steel fixtures and pale yellow paint and tiles. The kitchen renovation has cost about \$276,000 with \$154,000 allotted for new equipment such as dishwashers, high pressure steam cooking devices, ovens, and refrigeration components.

"We have tried to put in all the advantages of sanitation and safety," Miss Heitshu said.

The new, giant-size freezers for produce, dairy products, meats, and deep-freeze items are equipped with safety latches so that no one can be locked inside accidentally, she said.

With the new facilities, the hospital dietary service will move from a decentralized to a centralized tray service. A central serving area from West Hospital kitchen will serve patient meals in MCV West, East, and South Hospitals.

MCV DIETETIC INTERN EXPLAINS SAFETY FEATURES OF NEW HIGH-SPEED CHOPPER. Mrs. Anne Hawkes, dietary employee (center, left) and Miss Lois Casey (right).

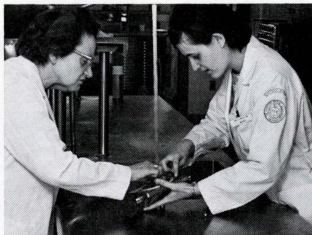

NEW STEAM KETTLES HAVE HANDY HOSES FOR QUICK CLEANING. Miss Catherine Foran (center) conducts on-job training for Miss Melissa Conyers (left to right), Miss Rosa Marion, and Mrs. Anne Hawkes.

(Additional pictures are on page 6.)

MAINTENANCE OF NEW MCV KITCHEN EQUIPMENT IS EXPLAINED. Miss Joan Ierardi, dietetic intern, demonstrates cleaning of new steam-jacketed kettle.

Personal News Briefs

New faculty appointments and promotions approved by the Board of Visitors on March 26 were:

APPOINTMENTS

Dr. Max David Adams, instructor in pharmacology, effective July 1.

Paul Anthony, assistant professor of anesthesia, effective March 1.

Dr. Martha M. Borlick, professor and chairman of the department of public health nursing, effective July 1.

Dr. Robert E. Brown, instructor in pathology, effective July 1.

Dr. Juan José Cabrera, instructor in radiology, effective July 1.

Dr. John B. H. Caldwell, clinical instructor in ophthalmology, effective July 1.

Dr. Thomas C. Coniglione, assistant in medicine, effective July 1.

Dr. Hugh Benton Douglas, Jr., instructor in crown and bridge prosthodontics, effective July 1.

Dr. John Quincy Durfey, professor of anesthesiology, effective April 1.

Dr. William Russell Fields, instructor in radiology, effective July 1.

Joseph Vincent Flynn, instructor in psychiatry (education), effective July 1.

Dr. Philip Joseph Guerin, visiting lecturer in psychiatry, effective March 1.

Dr. Henry D. Holland, instructor in psychiatry, effective July 1.

Dr. Robert MacArthur Howell, assistant professor of oral pathology, effective July 1.

Dr. Nicholas Hranowsky, clinical instructor in anesthesiology, effective January 1.

John F. Imirie, lecturer in hospital administration, effective July 1.

Dr. William Thompson Johnstone, clinical instructor in orthopedic surgery, effective July 1.

Dr. Thomas Kenneth Jones, instructor in radiology, effective March 15.

Dr. J. Barclay Kirkland, instructor in denture prosthodontics, effective July 1.

Dr. William M. Kramer, assistant clinical professor of pathology, effective July 1.

Joseph E. Lavasseur, research associate in medicine, effective February 1.

Dr. James L. Mathis, professor and chairman of the department of psychiatry, effective June 1.

Dr. Fitzhugh Mayo, professor and chairman of the department of family practice, effective June 1.

Dr. Thomas W. Nooney, associate professor of ophthalmology (he already holds the position of assistant professor of radiology), effective June 15.

Dr. Santiago Nunez de Villavicencio, clinical instructor in psychiatry, effective March 1.

Dr. Bernard D. Packer, clinical instructor in orthopedic surgery, effective March 1.

Dr. Barbara Alzora Rutter, instructor in psychiatry, effective July 1.

Frances A. Sanders, instructor in psychiatry, effective July 1.

Dan Lamar Sandlin, instructor in psychiatry, effective July 1.

Winnie Elizabeth Downing Sneed, instructor in pharmacy, effective July 1.

Dr. Barry Quentin Walker, associate clinical professor of radiology, effective February 1.

Brenda Kathryn Williams, instructor in psychiatry, effective July 1.

Dr. Lauren A. Woods, professor of pharmacology, effective July 1.

PROMOTIONS

Dr. Marvin Jerome Allison to professor of clinical pathology, effective July 1.

Dr. Alan David Entin to assistant professor of psychiatry, effective July 1.

Dr. Lyman MacArthur Fisher to professor of clinical pathology, effective July 1.

Dr. L. Martin Harris to associate professor of psychiatry, effective July 1.

Dr. Charles L. Johnston, Jr., to professor of clinical pathology, effective July 1.

Dr. John Mullaney to associate professor of psychiatry, effective July 1.

Dr. Robert John Resnick, to assistant professor of psychiatry, effective July 1.

Dr. Lawrence Alden Williams to assistant professor of radiology, effective July 1.

STUDENTS' ACTIVITIES OFFICES

William A. Robertson, dean of admissions and records, attended the Association of Virginia Colleges in Charlottesville, February 20 and 21. Mr. Robertson was elected to the executive committee of this group for the 1970-71 term.

Franklin Bacon, dean of students, spoke to the recent Dental Faculty Seminar. His topic was "Ideas of a University—Past, Present, and Future."

Completion date for the new gym has now been set for early summer, and a complete student and faculty program is expected to go into effect starting in September.

Arlick Brockewell, director of athletics and of the Larick Student Center, spoke to the John Marshall High School student body February 27 for their observance of Brotherhood Week.

SCHOOL OF HOSPITAL ADMINISTRATION

In early April, Dr. Thomas C. Barker, dean of the school of allied health professions, attended a meeting of the Association of Schools of Allied Health Professions in Kentucky.

Dr. B. T. Cullen, assistant director, was a speaker at the Labor Relations in Action conferences in Fredericksburg, Hampton, and Roanoke during March. These conferences were sponsored by the Virginia Hospital Association in cooperation with the MCV school of hospital administration.

Doctor Cullen and Mr. H. L. Mullins attended the Association of University Programs in Hospital Administration meeting in Chicago, April 20-22.

SCHOOL OF MEDICAL TECHNOLOGY

Mrs. Jeanne M. Ford, instructor, will attend the meeting of the American Society of Microbiologists in Boston, Massachusetts, April 26-30. She will present a paper "Recovery of Mycoplasma from Water" of which she is co-author.

The faculty will attend the Virginia Society of Medical Technologists' Convention to be held in Richmond, April 24-25.

SCHOOL OF NURSING

Dr. Doris B. Yingling was a speaker on the program of the Annual Protestant Health Assembly held in Washington, D. C., on March 4.

Doctor Yingling attended the second meeting of the American Association of Deans of College and University Schools of Nursing in Washington, D. C., February 16-18 and a meeting of the deans of schools of nursing in the Southern region with masters programs in operation or where they might be planned for the future on February 26-27.

DIVISION OF CONNECTIVE TISSUE DISEASES

Dr. Elam C. Toone, Jr., professor of medicine and chairman of the division of connective tissue diseases, has been elected to membership in the Eta of Virginia chapter of Phi Beta Kappa. Doctor Toone will be initiated into the Society at Hampden-Sydney College on April 21.

DEPARTMENT OF RADIOLOGY AND SCHOOL OF RADIOLOGIC TECHNOLOGY

Dr. E. Richard King, professor and chairman of the department of radiology, attended the meeting of the Board of Chancellors of the American College of Radiology which was held in conjunction with the College's 47th Annual Meeting in Dallas the week of March 30.

Dr. James L. Montour, assistant professor in the division of radiation biology, attended the 18th annual meeting of the Radiation Research Society which was held in Dallas on March 1-5.

HOSPITAL BUSINESS OFFICE

Mr. James B. Daugherty, Jr., hospital business office, attended the Hospital Financial Management Association meeting in Martinsville on March 26 and 27. Mr. Daugherty was elected to the board of directors for a two-year term.

The billing department of the hospital business office recently moved to MCV North, North wing, to the office formerly occupied by Mr. Alan Heilig.

DEPARTMENT OF BUILDINGS AND GROUNDS

Philip Colavita, Jr., resident architect, has joined the Band Society of Richmond as a cornet player. The band will give a concert at McGuire Hospital on May 13.

Congratulations to Frank E. Gilliam, boiler fireman, who retired on March 25 with 11 years' service.

(Continued on page 8)

PERSONAL NEWS BRIEFS

(Continued from page 7)

HOSPITAL PHARMACY

The pharmacy staff is holding weekly meetings on Wednesdays from 8:30 a.m. to 9:00 a.m. The purpose of the meetings is for the staff to discuss pharmacy related problems in an attempt to improve drug distribution in our hospitals.

The staff also attends weekly classes on Tuesdays from 5:00 p.m. to 6:00 p.m. The purpose of these meetings is to continue the education of the pharmacy staff. The classes are conducted by Dr. Andrew T. Canada, head of the pharmacy clinical sciences division.

Mr. Willard L. Harrison, director of pharmacy services, and Doctor Canada attended a seminar on Intravenous Admixtures at the University of Florida in Gainesville, Florida, held April 2 and 3.

Doctor Canada gave a presentation to the College of Pharmacy at Temple University in Philadelphia, Pennsylvania, on December 9, 1969. The presentation was concerned with the effect of clinical pharmacy on the practice of pharmacy and pharmacy education. Doctor Canada also addressed the faculty and students at West Virginia University in Morgantown, West Virginia, on the same subject.

Doctor Canada addressed the student branch of the American Pharmaceutical Association at Virginia Commonwealth University on February 20 on the topic of "The Pharmacist's Role in Poison Information Control."

Doctor Canada gave a presentation to the Washington State Society of Hospital Pharmacists in Seattle, Washington, on February 28 on the subject of "Clinical Pharmacy in a Non-Teaching Hospital."

DEPARTMENT OF NURSING

Mrs. Marjorie M. Fawcett, associate director, attended the spring meeting of the American Society for Hospital Nursing Service Administrators in Chicago, Illinois, March 19-20.

On March 16-18, the American College of Surgeons' 17th Nurse-Doctor meeting was held in Washington, D. C., Suzanne Blievernicht, Mary C. Evans, Joyce Turpin, Kay Kippis, Norella Hamm, Christiane Bradley, Catherine Johnson, Rusofeen Cherry, Patsy Sparks, Dorothy Peterson, Joyce Miller, Ann Svendsen, and Mattie Ward represented the department of nursing at this conference.

BIRTHS

Our congratulations to:

Mr. and Mrs. William T. Bolger, hospital pharmacy, on the birth of their daughter, Holly Melissa, on December 5, 1969.

Mr. and Mrs. Donald W. Barnes, hospital pharmacy, on the birth of their son, Robert Wesley, on March 15.

Mr. and Mrs. George D. Michau, hospital pharmacy, on the birth of their son, Neil Daniel, on March 21.

SHARING SORROW

Sincere sympathy is extended to:

Miss Frances Parker, school of dentistry, whose mother died on March 3.

Mrs. Ollie McClure, department of nursing, in the death of her foster child on March 20.

WEDDINGS

Congratulations and best wishes to:

Miss Betty Hunter, tumor clinic, and Wilhem Koepnick, who were married on January 3.

Miss Margaret Ann Martin, department of buildings and grounds, and Wayne King, who were married on January 24.

Miss Inez G. Tilley, department of nursing, and Walter S. Williamson, who were married on March 14.

Miss Diana Lynn Sadler, division of radiation therapy and oncology, and Larry R. Parker, who were married on March 29.

"YOUTH"

"Our youth now loves luxury. They have bad manners and contempt for authority. They show disrespect for their elders and love idle chatter instead of exercise. Children are now tyrants—not the servants of the household. They no longer rise when elders enter the room. They contradict their parents, chatter before company, gobble up their foods, and tyrannize their teachers."

SOCRATES, 450 B.C.
