

Volume Fourteen

SUBJECT INDEX

- ACTINOMYCOSIS**
maxillary periapical . . . : a case with an unusual roentgenographic appearance, 178
- BLADDER**
management of carcinoma of the kidney and urinary . . . , 80
- BRONCHOSCOPY**
flexible fiberoptic . . . , 169
- CANCER**
adenocarcinoma of the prostate: the rationale and role for radiotherapy in its management, 88 . . . and the kidney, 111
management of carcinoma of the kidney and urinary bladder, 80
testicular carcinomas and carcinoma of the prostate, 83
- CIRCUMCISION** (*see* PEDIATRICS)
- DENTISTRY**
maxillary and mandibular jaw size in pre-columbian peru, 101
maxillary periapical actinomyces: a case with an unusual roentgenographic appearance, 178
the dental health status of pre-columbian peruvians: a study of dental caries, missing teeth, attrition, osteitis, calculus, and bone loss, 181
- DIABETES**
diabetic nephropathy, 148
- ENURESIS** (*see* PEDIATRICS)
- GLOMERULONEPHRITIS**
. . . , 116
management of acute . . . , 90
- HYPOSPADIAS** (*see* PEDIATRICS)
- INFERTILITY**
male . . . : the clinical aspects of evaluation and management, 96
- KIDNEY DISEASE**
cancer and the kidney, 111
diabetic nephropathy, 148
glomerulonephritis, 116
management of acute glomerulonephritis, 90
management of carcinoma of the kidney and urinary bladder, 80
management of the nephrotic syndrome, 124
on the prevention of acute renal failure (vasomotor nephropathy), 128
- pyelonephritis, 132
the end-stage renal disease program, 144
the management of end-stage renal disease (esrd), 92
- LUNG DISEASE**
beside flow-directed balloon catheterization in the critically ill patient, 172
flexible fiberoptic bronchoscopy, 169
intrapulmonary lymph node presenting as a 'coin' lesion: a case report, 176
respiratory therapy modalities in the treatment of acute respiratory failure, 159
screening pulmonary function tests, 163
- PALEOEPIDEMIOLOGY**
. . . of degenerative joint disease, 45
. . . of infectious disease in the dickson mounds population, 17
patterns of prehistoric epidemiology and human paleopathology, 3
porotic hyperostosis in the eastern mediterranean, 10
pre-columbian tuberculosis: an epidemiological approach, 32
yawlike disease processes in a louisiana shell mound population, 24
- PALEOPATHOLOGY**
maxillary and mandibular jaw size in pre-columbian peru, 101
patterns of prehistoric epidemiology and human paleopathology, 3
porotic hyperostosis in the eastern mediterranean, 10
the dental health status of pre-columbian peruvians: a study of dental caries, missing teeth, attrition, osteitis, calculus, and bone loss, 181
- PEDIATRICS**
common pediatric problems: hypospadias, enuresis, and circumcision, 77
- PROSTATE**
adenocarcinoma of the . . . : the rationale and role for radiotherapy in its management, 88
testicular carcinomas and carcinoma of the . . . , 83
the female urethral syndrome and urethritis and prostatitis in the male, 65
- PYELONEPHRITIS**
. . . , 132
- RADIOTHERAPY**
adenocarcinoma of the prostate: the rationale and role for radiotherapy in its management, 88
- RESPIRATORY FAILURE**
respiratory therapy modalities in the treatment of acute , 159
- ROENTGENOGRAPHY**
maxillary periapical actinomyces: a case with an unusual roentgenographic appearance, 178
- SCREENING**
. . . pulmonary function tests, 163
- SCROTUM**
intrascrotal masses: differentiation, diagnosis and management, 76
- TESTES**
intrascrotal masses: differentiation, diagnosis, and management, 76
testicular carcinomas and carcinoma of the prostate, 83
- TUBERCULOSIS**
pre-columbian . . . : an epidemiological approach, 32
- URETHRITIS**
the female urethral syndrome and . . . and prostatitis in the male, 65
- UROLOGY**
adenocarcinoma of the prostate: the rationale and role for radiotherapy in its management, 88
appropriate antibiotic therapy for urinary tract infections, 69
common pediatric problems: hypospadias, enuresis, and circumcision, 77
intrascrotal masses: differentiation, diagnosis, and management, 76
management of carcinoma of the kidney and urinary bladder, 80
testicular carcinomas and carcinoma of the prostate, 83
the female urethral syndrome and urethritis and prostatitis in the male, 65
- URINALYSIS**
evaluation of an abnormal . . . in the asymptomatic patient, 140
- YAWS** (*see* PALEOEPIDEMIOLOGY)
