STRAIGHT MODEL

A study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space. The straight model is a study in legibility and perception in space.
Subverting the legibility of familiar objects allows for a new way of seeing our world. Applying displacement and perception into the major jumping off point into the honing of my thesis development.

STOP SIGN MODEL
A study in typographic legibility and perception in space.

Color inkjet print on manipulated bristol board.

STOP SIGN
A study in typographic legibility and perception in space.

Composition of paper model and stage photography.
I work with pictures and words because they have the ability to determine who we are and who we aren’t.

Barbara Kruger
