You have complete permission. Good luck!

Hello Ms Anderson

I obtained permission to use your images for my proposal about a year ago and have now completed my master's thesis. Do I have permission to use these images in my thesis? It may be published at some future date but it most likely will not. It will certainly be published to the university archives. Please let me know asap. JMJ MArio

This looks fine, Please let me know if I can help out in any way.

Good luck with your proposal,

Anna

I need permission to use the ones that I have. It is not for a publication just yet but simply for a research proposal to our university. I’ve attached a PDF of the rough draft. The images in this I definitely want to use and I may pull a couple more similar to these into the final draft as well. JMJ

Mario,

Do you need pictures or just permission to use the ones you have?
If you have the slides or context with pictures you already have, I usually like to see that before I allow publication. If you need more, please let me know which model?

Thank you,

Anna

Good Morning Dr. Dance,

Thank you for the request to use some of the power point presentation I left behind. Please contact Anna Christensen, our Product Manager, in regards to using some of the images. I have copied her in on this reply for your convenience.

Regards,

Bill

Hello Brad and Bill, I'm not sure who I should direct this to but earlier this year I believe that Bill came to our university to provide us with training for the new xenogen machine we purchased and he gave me a copy of his powerpoint presentation. I am currently working on a research proposal that uses the Xenogen machine and I would like to include some of the images of the machine and sample photos showing the operation of the machine in the proposal. Who do I contact to obtain permission to use those images and how do I reference them? Thanks for your help with this. JMJ Mario
