

## Supplementary Appendix

This appendix has been provided by the authors to give readers additional information about their work.

Supplement to: Di Bisceglie AM, Shiffman ML, Everson GT, et al. Prolonged therapy of advanced chronic hepatitis C with low-dose peginterferon. *N Engl J Med* 2008;359:2429-41.

WEB ONLY Figure (for on-line publication only). Forest plot showing the results of a post hoc exploratory analysis to examine the heterogeneity of treatment effect according to various baseline characteristics. Note that the lack of treatment effect is consistent among all identified subgroups and using several important baseline variables.
