

THE INSIDERS GUIDE TO THE ANDERSON GALLERY OTHERWISE KNOWN AS ANDY OR AG.

a former gallery assistant's guide

- always run up stairs unless moving art work - you will always climb 12.5 times when in installation mode. Your best frenemy.
- 1 gallon of water weighs 8 pounds.
- almost every wall is fake or has been fake.
- paint everything white. when in doubt, paint it white. Be careful with semigloss!
- you always need more paint than you think.
- only Michael knows the true number of ladders at the Gallery. 10? 18? ∞?
- Artfully arrange the food on platters for openings.
- Myron only drinks red when drinking wine.
- Also always laugh at jokes about how small the bathroom is. 12 square feet.
- Leave a tag or more somewhere clever before your last day.
