This Presentation is brought to you for free and open access by the VCU Libraries at VCU Scholars Compass. It has been accepted for inclusion in VCU Libraries Faculty and Staff Presentations by an authorized administrator of VCU Scholars Compass. For more information, please contact libcompass@vcu.edu.
Digital Library Overview

Four major projects with unique features and history:
• Digitizing local collections
• Another organization’s collection
• A borrowed collection

The projects employ two different architectures:
• Local Cold Fusion Scripting plus Access
• Commercial Digital Asset Management Software

Dollars versus Hours
Rarely Seen Richmond Postcards

- Spring 1999: Local postcard collector sees the site and lends 3,000 postcards to VCU Libraries.
Rarely Seen Richmond Postcards

- Summer/Fall 1999: 400 cards selected and scanned at high resolutions 300 dpi.
- Winter 1999: Metadata is inputted into Access table.

- Spring 2000: Metadata work continues and Cold Fusion are scripts are developed to search and browse the collection.
- June 8, 2000: Site goes to production
- June 9: Server crashes while Jimmy is in Montana
Rarely Seen Richmond Postcards

• Cards are eventually donated to VCU Libraries, based on success of the project.
• High resolution scans backed up to CD.
• Relationship to VCU fields of study.
Through the Lens of Time

- Summer 1999: 300 images are selected from the Valentine Museum’s Cook Collection of Photography.

- Fall/Winter 1999: Images are scanned and metadata is entered.
- Summer 2000: Cold Fusion scripts from postcard are adapted for Cook.
- August 31, 2000: Cook goes to production.
Through the Lens of Time

- Copyright statement
- Thumbnails
- Subject browse
- Narrated slide show
Oral Pathology

- 57 images of the most common abnormalities of the oral cavity. Originally 35 mm slides.

- Images from faculty member used in conjunction with Dentistry class in Oral Pathology.
- Traditionally, students viewed copies of the slides onsite to prepare for exams.
Oral Pathology

- Dependent on faculty for metadata expertise.
- Project designed with teaching in mind.

- OCLC CORC contributed parent level record.
- American Dental Association copyright permission.
VCU Historic Images

- Parallel Development of Searchable Digital Images by VCU Creative Services Imaging Lab
- VCU Images – 2000
- VCU Historic Images – 2001
- Canto Cumulus architecture
  www.canto.com
VCU Historic Images

- 329 images selected by and from the VCU Libraries Special Collections and Archives.
- Scanned by VCU Libraries.
- Metadata added by VCU Libraries with the Cumulus system.
Scalable for the Future?

- Looking to more robust solutions.
- ContentDM or DSpace perhaps.
- Current metadata in Access easily exported.
- Looking for customization, stability, and open architecture.
