Honorary Doctor of Humane Letters

2009 Recipient
The Honorable Robert J. Wittman

The Honorary Doctor of Humane Letters is Virginia Commonwealth University's highest form of recognition. Awarded by the President at Commencement, it recognizes the Commencement speaker as well as others who have made outstanding contributions to society through scholarship, public service, humanitarianism, science and art.
The Honorable Robert J. Wittman
Commencement Speaker
Honorary Doctor of Humane Letters

The Honorable Robert J. Wittman was first elected to serve the First Congressional District of Virginia — America's First District — in December 2007. He was re-elected for his first full term in the U.S. House of Representatives on Nov. 4, 2008.

For more than 20 years, Rep. Wittman has served in several levels of government. He won his first campaign for public office in 1986 when he was elected to the Montross Town Council, where he served for 10 years, four of them as mayor. Wittman then joined the Westmoreland County Board of Supervisors in 1995 and became chairman of that body in 2003. Two years later, voters sent him to the Virginia House of Delegates, representing the 99th legislative district, where he served until he was elected to the U.S. House of Representatives in 2007.

Rep. Wittman serves on the House Armed Services Committee and the Committee on Natural Resources, where he is well-positioned to represent the needs of Virginia's First District. He has quickly earned a reputation for being an advocate for America's men and women in uniform and for being a champion of the Chesapeake Bay.

On the Armed Services Committee, Rep. Wittman serves as the top Republican on the Oversight and Investigations Subcommittee and also serves on the Subcommittee on Seapower and Expeditionary Forces and the Subcommittee on Military Personnel. In addition, as co-chair of the Congressional Shipbuilding Caucus, he is a staunch advocate for a robust naval fleet and a healthy domestic shipbuilding industry.

Rep. Wittman is also an invaluable member of the Committee on Natural Resources, to which he brings his professional expertise in water quality, fisheries and other natural resource issues. He is a champion of the Chesapeake Bay — for its environmental and economic attributes — and has introduced legislation that will increase the accountability and effectiveness of cleaning up the bay.

Prior to his election to Congress, he spent 26 years working in state government, most recently as field director for the Virginia Health Department's Division of Shellfish Sanitation.

Rep. Wittman holds a Ph.D. in Public Policy and Administration from Virginia Commonwealth University, a Master of Public Health in Health Policy and Administration from the University of North Carolina and a Bachelor of Science in Biology from Virginia Tech.

He and his wife, Kathryn, have two children: a son, Josh, 21, and a daughter, Devon, 26. In 2007, Devon and her husband, Daniel Gooch, welcomed Morgan Elizabeth Gooch, the Wittmans' first grandchild.

The academic costume worn at American college exercises derives from the Middle Ages. The oldest universities of northern Europe, such as Paris and Oxford, grew out of church schools, and both faculty and students were regarded in the Middle Ages as a part of the clergy. They wore clerical habits, largely borrowed from the monastic dress of that day, not just on special occasions but as their regular attire.

The head covering of the academic costume developed from the skull cap worn by the clergy in cold weather to protect the tonsured head. In the universities, the skull cap acquired a point on top, which evolved into a tassel. The bonnet with tassel is still worn by degree holders of European universities. In America, it has been replaced by the familiar mortar board, which still retains the medieval tassel.

The hood (the medieval caputium) was originally a covering worn over the head in bad weather, otherwise dropped on the shoulders as the monk's cowl. At first it was worn by faculty and students alike, but in the early 16th century it was restricted to graduates, thus becoming the mark of a degree holder. Today, each college has its distinctive hood lining by which its graduates may be recognized in academic processions. Graduates from Virginia Commonwealth University may wear a hood showing a black chevron on gold background.

The gown comes from the medieval robe and seems to have been borrowed from the habit of the Benedictine monks. In the Middle Ages, undergraduates, bachelors and masters could be distinguished by the simplicity or intricacy of their gowns. The doctor's gown was often furrowed, which survives today in the ornamentation found on the doctoral gown. Usually the gown is black, but some colleges have gowns of different colors.

The wide velvet borders extending down the front of the doctoral gown, the velvet bars on the sleeves, and the borders of most hoods are colored according to the scholarly field of the wearer.

Virginia Commonwealth University is an equal opportunity, affirmative action university providing access to education and employment without regard to age, race, color, national origin, gender, religion, sexual orientation, veterans status, political affiliation or disability.

Virginia Commonwealth University is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award baccalaureate, master's, doctoral and first professional degrees.
Because of rigid time requirements, this program must be printed before the final list of degree candidates and final graduation honor status for undergraduate students can be determined. The exclusion of the name of a student is not to be taken as indication of official status as a nongraduate, nor is the inclusion of a name of a student to be taken as certification of official status as a graduate. Only undergraduate students are eligible for honors designations. These designations do not apply to the degrees received by graduate students.

Virginia Commonwealth University

Virginia Commonwealth University is supported by Virginia to serve the Richmond area, the state and the nation through teaching, research, service and patient care.

VCU offers comprehensive undergraduate, master's, doctoral and professional programs and encompasses one of the largest academic health centers in the nation. With $225 million a year in sponsored research funding, VCU is designated as a research university with high research activity by the Carnegie Foundation. Its centers and institutes of excellence — involving faculty from multiple disciplines in public policy, biotechnology and health care discoveries — support the university's research mission.

More than 32,000 students pursue 208 degree and certificate programs through the university's 15 schools and one college. VCU has a full-time instructional faculty of more than 1,900 who are nationally and internationally recognized for excellence in the arts, business, education, engineering, the humanities, the life sciences, social work and all the health care professions. With more than 18,000 employees, VCU and the VCU Health System also have a significant impact on Central Virginia's economy.

VCU students and faculty can be found in locations around the state and around the world. VCU is the only state institution offering an accredited Master of Social Work program in Northern Virginia. The School of Medicine and the School of Pharmacy have collaborated with the Inova Health System in Northern Virginia as well to establish the VCU-Inova Campus for third- and fourth-year medical and pharmacy students. And, the university is in its ninth year of awarding bachelor's degrees in graphic, fashion and interior design at the School of the Arts in Qatar. In 1998, the university and the Qatar Foundation for Education, Science and Community Development entered into an agreement to establish the school at the request of the Qatar government.

VCU has been engaged in a long-range strategic planning effort that has resulted in such initiatives as a visionary master site building plan, the Virginia BioTechnology Research Park, the School of Engineering, the Carver-VCU Partnership for neighborhood development and VCU Life Sciences, a comprehensive undergraduate and graduate program incorporating all aspects of the university's academic and clinical missions in teaching, research and public education.

VCU's long-range planning also has sought to protect the future of the clinical health care mission, including providing top-quality patient care, indigent-care services and support for the teaching and research mission. The result is VCU Health System, which was established on July 1, 2000, and brings together MCV Hospitals, MCV Physicians, Virginia Premier Health Plan and University Health Services.

VCU and VCU Health System have been honored with more than a decade of national recognition for its top-quality graduate, professional and medical-care programs by U.S. News & World Report; local, regional and national guides to the best hospitals and best doctors; and professional societies and journals.
Congratulations to all!
